CHURCHILL-KING CONFER AT QUEBEC

Bombers Lash Nuremberg During Night

16 Bombers Lost; Few Raiders Over East Anglia

LONDON, Aug. 11 — (CP). — R.A.F. and R.C.A.F. bombers dropped more than 1,500 tons of bombs last night on Nuremberg, important railway and industrial centre in Southern Germany and a Nazi party rallying point, the Air Ministry announced today.

At the same time, the Ministry of Economic Warfare explained the Bomber Command was switching its offensive to attacking industries turning out finished products, now that the Ruhr's heavy industry was crippled seriously.

Halifax squadrons from the Canadian bomber group joined with the R.A.F. in hammering Germany for the second successive night, The Canadian Press learned to-day.

Sixteen bombers were lost in the raid, a communique said, but all Canadian planes returned safely. Three enemy fighters were reported shot down.

Ironically it was just four years ago that Reichsmarshal Hermann Wilhelm Goering boasted to the German public that not a single enemy bomb would be permitted to fall upon Germany.

Nuremberg had been raided six times previously, the last time on March 8. It is 525 miles from Britain by airline and just 75 miles short of Berlin.

Railway Junction.

The city is the junction of two great trunk railway lines—one running from the Ruhr to southeast Germany and the other from Berlin and central Germany to Munich and Italy.

There have been many recent reports that Italy is being reinforced with German troops and munitions, and if this is the case probably much of these reinforcements are flowing through Nuernberg.

The communique announcing the raid said that the city had been "very heavily bombed" but gave no other details. Residents on the British southeast coast, however, declared that great numbers of British aircraft had headed across the Channel at dusk last evening and

BOMBERS LASH
(Continued on Page 8, Column 3)

Navy Bombards Italian Port

ALLIED HEADQUARTERS IN NORTH AFRICA, Aug. 11 — (AP) — Royal Navy cruisers and destroyers, striking by night, have bombarded Italian shipyards at Castellammare Di Stabia in the Bay of Naples, an Allied communique announced to-day.

The communique also announced that at the same time other units of the Allied Navy shelled railway bridges at Cape Vaticano.

Cape Vaticano is located on the tip of the Italian mainland south of the Gulf of Eufemia where the main enemy rail line is exposed to sea attack.

The daring attack on Castellammare, only 20 miles from Naples, was carried out with the utmost precision. With the destroyers storming in close and the cruisers standing further off, the Royal Navy sent shells screaming into the buildings and installations of the enemy naval shipbuilding and repair yards.

The bombardment, carried out on Monday night, was believed to have done serious damage to the Castellammare yard.

Pity Car Thief

BRANTFORD, Aug. 11 — (CP).—What chance has a poor car thief to make a living these days? WO2 Stuart Skinner of No. 4 R.C.A.F. wireless training school, Burtch, not only reported his car stolen Monday night, but later called police and told them where to find it. He had spotted it by air reconnaissance over Holmedale beach on the Grand River.

Bairoko Harbor Encircled; Salamaua Fired

ALLIED HEADQUARTERS, The Southwest Pacific, Aug. 11—(AP).—Japanese forces with their backs to the sea in the Bairoko area of New Georgie Island, are confronted with a "Bataan in reverse," front line dispatches said today.

American army and marine forces completed encirclement of the enemy Sunday in this last remaining point of organized resistance on the island. Since then United States forces have tightened the jaws of a steel trap along a six-mile front.

With American forces advancing along a semi-circular front a spokesman said the only remaining chance for the Japanese at Bairoko to escape annihilation was by means of a night withdrawal to Kolombangara Island, nine miles to the northwest across Kula Gulf.

At the other end of the 750-mile battle arc, Salamaua was fast becoming the "Hamburg" of the south Pacific.

85 Tons Dropped.

Today's communique from Allied headquarters reported that 85 more tons of bombs were dropped Tuesday on that northeastern New Guinea air base of the Japanese, raising to at least 892 the tonnage to fall from Allied planes in that sector since the new offensive opened June 30.

The actual total must be much higher. Salamaua has been raided on at least 30 of the first 42 days of the present campaign. On only 12 of these raids are actual bomb tonnage figures listed in the communiques, adding up to 892.

Possession of the Salamaua airport, toward which Americans and Australians are fighting in the vicinity of Bobdubi, five miles below Salamaua, would give the Allies a good field from which to attack New Britain, a short water hop to the northeast.

The communique reported fifty enemy bombers and fighters attempted a raid on Rendova Island Tuesday but were dispersed by 14 Allied fighter planes. Two of the raiders were downed. One Allied plane was lost but the pilot was saved.

Pilot Dies In Crash

OTTAWA, Aug. 11.— (CP).—PO. Albert A. Schwartz, 23, of Ottawa, died in hospital yesterday from injuries suffered when an R.C.A.F. training plane crashed near Kemptville, Ont. LAV. Gerald Allen McKenzie of Regina, the other occupant of the plane, was severely injured, but is expected to recover.

Named Chick Sexer

HARRISBURG, Pa., Aug. 11 — (AP). — Miss Ada F. Blough of Palmyra, Pa., is the first woman to pass a State examination as a "chick sexer." It's her job to cast a quick glance at a downey day-old chick and prouounce it male or female. In a test she divided 102 future pullets and roosters in nine minutes.

Soviet Drive Gaining More Speed

New Red Column Near Sumy 190 Miles From Kiev

By HENRY C. CASSIDY
Associated Press Staff Writer.

MOSCOW, Aug. 11 — (AP). — The Red Army is rolling on unchecked in its twin drives toward the Ukrainian city of Kharkov and Bryansk to the north, capturing village after village and inflicting heavy losses on the retreating Germans, the Russians declared today.

With Kharkov pocketed on three sides by a five-pronged drive, another Russian column has bitten deep into the rich Russian grain territory, and is only 14 miles from Sumy and 190 miles east of the capital city of Kiev, a Soviet communique disclosed.

Sumy, an important railroad point, is located some 90 miles northwest of Kharkov on the line linking the steel centre with the German base at Bryansk.

Take 70 Towns.

The Russians announced that their forces advancing toward Bryansk along the railway from Orel had captured a railway town 45 miles east of the city.

Seventy towns and villages were reported captured by the Russians in the Kharkov sector and 30 more in the Bryansk area as the Red Army marked up important gains in a general advance along the entire active front almost 300 miles in length.

One of the five Russian columns threatening Kharkov has captured Slatino, 12 miles north. A second was reported 30 miles due west and a third 45 miles north-west. Another force has stormed across the Upper Donets River and is within 20 mile of the city on the east, while a fifth is 25 miles due east, the Russian communique declared.

The Russian advance was made in the face of stubborn German resistance. Large numbers of Germans were killed in the struggle, the Soviet war bulletin said, and large quantities of mechanized equipment, food and ammunition fell into Russian hands as the Nazis, cracking under the sledge hammer blows of the Red Army, fell back.

The drive on Bryansk, another vital base for German operations in Russia, was still in its early stages. As yet there were no indications of the development of an encircling movement such as marked the capture of Orel from which the advance was launched a week ago. Nevertheless, the Red Army was making rapid progress, having covered more than half the distance from Orel.

Activity on other fronts was limited largely to reconnaissance, the Soviet war bulletin said.

The Berlin radio still persisted in its claims that the Russians have launched a large-scale attack at Vyazma in the Smolensk area, westernmost point in the Russian lines. The Red Army was using tanks, planes, flame throwers and infantry, the Germans said, adding that "the struggle is growing in intensity and extension." The Russians have made no mention of such a battle in recent communiques.

To Form Cabinet

Lt.-Col. George Drew, head of the Progressive Conservative party in Ontario, has accepted an invitation from Lieutenant-Governor Albert Matthews to form a government for the province. His party elected 38 members in the recent Provincial election.

Matthews Calls George Drew To Form Cabinet

TORONTO, Aug. 11 — (CP).—Lt. Col. George A. Drew, leader of the Progressive Conservative party, announced to-day he has accepted an invitation of Lieutenant Governor Albert Matthews to form a Government in Ontario to succeed the Liberal administration of Premier Nixon which was defeated in the Ontario election last Wednesday.

Col. Drew, leader of the largest group in the new Ontario Legislature with 38 seats, issued a statement after an interview with the Lieutenant Governor, which followed an earlier meeting between the Lieutenant Governor and Mr. Nixon.

The Progressive Conservative leader said the "new" government will take office early next week at a date to be agreed upon between Mr. Nixon and myself."

He added: "The government will be a Progressive Conservative government. I believe that our 22-point program will win support in the Legislature as it has with the people of Ontario."

Premier Nixon had no statement to make after his conference with the lieutenant governor but it was learned from Queen's Park sources that he had tendered the resignation of his government which won 14 of the 90 seats in last week's election. The C.C.F. party, led by E. B. Jolliffe, won 34 seats, two went to Labor candidates, one to an Independent Liberal and one is still undecided.

After issuing the statement, Col. Drew said that Progressive Conservative M.P.P.'s-elect and defeated candidates will be his guests at a luncheon here Friday at which the election and the party's policies will be discussed.

Yanks At Malta

VALETTA, Malta, Aug. 11—(CP)—American anti-aircraft gunners now are helping Malta's formidable defences, it was disclosed to-day, in the latest evidence of Allied co-operation.

Allied Army Can See Italian Coast

Advance 7 Miles Along Shore Nearing Taormina

By DANIEL DE LUCE
Associated Press War Correspondent

ALLIED HEADQUARTERS, North Africa, Aug. 11.—(AP).—The British 8th Army in Sicily advanced to within sight of the Italian mainland while British warships bombarded Italian shipyards in the Bay of Naples, 130 miles south of Rome, and other mainland military targets, Allied Headquarters announced to-day.

British forces advanced seven miles along the east coast of Sicily under the shadow of Mount Etna to capture the town of Guardia, 16 miles south of Taormina and 40 miles from Messina, the bulletin announced. British Tommies on the east slopes of Mount Etna thus gained their first view of the Italian mainland.

The British seven-mile advance from Acireale along the East Sicilian coast placed Gen. Sir Bernard Montgomery' s veterans barely 30 miles from Italy and put increasing pressure on Taormina, to the rear of the enemy's central sector at Randazzo.

Fierce Fighting.

The American 7th Army on the north coast consolidated its positions at the mouth of the Rosmarino River, about three miles east of San Agata where amphibious troops plunged forward ashore from small boats Sunday night, and presseed forward.

The stiffest fighting, however, raged in the area of Dandazzo, north of Mount Etna, where converging British, Canadian and American troops wrestled with the difficulties of endless minefields and dynamited mountain roads as well as the enemy's determined troops.

Dandazzo's domination of communications in the narrowing bridgehead made it another Tunis or Bizerte so far as Sicily is concerned and the Germans were defending it at all costs.

Allied bomberas and fighter-bombers slammed at Randazzo in round-the-clock raids for the fourth consecutive day yesterday, while R.A.F. Wellingtons again laid strings of bombs across the Sicilian beacher, shattering Axis barges and scatterin troop concentrations.

4 Vessels Sunk.

Four more Axis vessels were sunk and another damaged in continued blastings of the Messina beaches and strait.

Randazzo has been transformed into a heap of rubble by prolonged bombings of what crossings of routes leading to the north and east coasts.

The struggle for this heart of enemy communications rivaled any other in the battle for Sicily. German armored Grenadier troops appeared determined to make it their Sicilian Verdun.

Air force commanders meanwhile disclosed that a total of 422 enemy planes had been destroyed in the air in the month since the invasion began, at a cost of 181 Allied planes were destroyed or captured aircraft. At least 800 more enemy 000 tons of enemy transport and war on the ground, and more than 60,-ships destroyed by air action.

Likely Planning New Invasion With Canadian Spearhead; Big Chateau Closely Guarded

Churchill Reviews Global War For Canadian Heads

By J. F. SANDERSON
Canadian Press Staff Writer

QUEBEC, Aug. 11 (CP) — The role to be played by the Canadian armed forces in the next phase of the war presumably was under review here today among the Chiefs of Staff of Canada and the United Kingdom.

While Prime Minister Churchill conferred with the war committee of the Canadian Cabinet, giving the Canadian ministers a global review of the land, sea and air fighting, military and strategic problems were discussed by the Chiefs of Staff in the heavily-guarded Chateau Frontenac Hotel.

Those taking part in the military discussions included Lt.-Gen. Kenneth Stuart, Canadian Chief of Staff; Rear Admiral Percy Nelles, Canadian Navy Chief of Staff; Air Marshal L. S. Breadner, Canadian Air Chief of Staff; Gen. Sir Alan Brooke, Chief of the Imperial General Staff; Admiral of the Fleet Sir Dudley Pound, First Sea Lord; Air Chief Marshal Sir Charles Portal, Chief of the Air Staff; Lt.-Gen. Sir Hastings Ismay, Chief of Staff to the British Prime Minister; and Vice-Admiral Lord Louis Mountbatten, chief of combined operations.

It was considered probable the chiefs of staff reviewed at length the next phase of operations in Europe, once Allied forces have cleared Axis positions in Sicily.

May Invade Italy

This may involve an invasion of the Italian mainland, to gain possession of bases in the southern half of the peninsula that could be used to bring the air war closer to Germany and to German-occupied sections of mid-Europe.

Canadian troops have taken a leading part in the Sicilian campaign and may be used in any landing operations in Italy, requiring detailed study by the chiefs of staff of the two nations. A Canadian corps may form part of the Allied plans for this Mediterranean campaign.

Meanwhile, the disposition of Canadian naval and air forces is becoming increasingly important, as they grow in size and as the European campaign develops into a general climax.

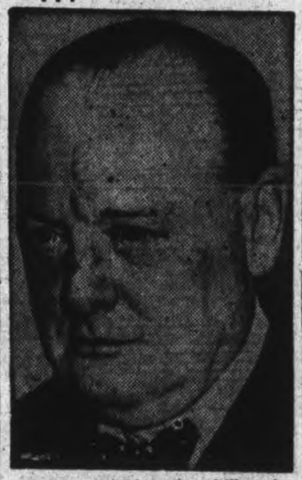
The Canadian chiefs of staff conferred with the British chiefs in Washington last May, the date of the last Roosevelt-Churchill conference.

All members of the war committee of the Canadian cabinet are in Quebec, an indication that decisions of the highest importance as to the use of Canadian forces may be anticipated.

EXTRA!

STOCKHOLM, Sweden — The record bombing of Hamburg by the Allies destroyed 11 of the city's 40 districts and is believed to have killed at least 50,000 persons, reports reaching Sweden said today.

Happy Warrior Back



Premier Winston Churchill, globe trotter extra-ordinary, has arrived in Quebec City for a series of vitally important conferences. Mrs. Churchill and daughter arrived too.

Smiling Premier Given Great Reception

By C. R. BLACKBURN
Canadian Press Staff Writer.

QUEBEC, Aug. 11 — (CP). — Prime Minister Winston Churchill is in Quebec—beyond doubt.

You can prove it by me, now, because I'v finally seen him, his long cigar cocked at jaunty angle, his hand raised with fingers forming the V-sign of Victory and his face wreathed in the Churchill smile of confidence.

Until this glimpse, afforded 100 newspapermen and cameramen in the quadrangle of the Chateau Frontenac, we knew only what a tightlyworded official communique told us: That Mr. Churchill and his wife and daughter had arrived in Quebec.

Shortly after 11:30 a.m. (EDT) to-day reporters were told they might enter the main arch of the Chateau entrance and watch Mr. Churchill alight from his car in the quadrangle, to attend a meeting of the Canadian Cabinet's War Committee in the Chateau.

Cigar Comes First.

In due course the long black car drew up the entrance and the crowd of correspondents and photographers closed in. Uniformed forces of Canada and the United States co-operated.

Prime Minister Mackenzie King, Mr. Churchill's host in the Citadel, vice-Regal residence here, was first to alight.

Then came Mr. Churchill's cigar, followed by the great man himself, already smiling. He looked about at once and raised his fingers in the V-sign while the crowd cheered and photographers shouted instructions.

On the steps of the Chateau Mr. King presented Mr. Churchill to nine members of his cabinet who form the war committee and the entire group posed for pictures.

Arranges Group

"Stand over here," said Mr. Churchill to Munitions Minister Howe, who seemed to be crowded out of the picture. He proceeded to

SMILING PREMIER
(Continued on Page 2, Column 4)

Arrived Yesterday With Chiefs Of Armed Forces

QUEBEC, Aug. 11—(CFP).—Prime Minister Winston Churchill went to the Chateau Frontenac today to attend a meeting of the war committee of the Canadian Cabinet, presided over by Prime Minister Mackenzie King.

It was Mr. Churchill's first official act of his stay here, which began with his carefully-guarded arrival yesterday afternoon and will later include conferences with President Roosevelt at a place and time not disclosed, and the combined chiefs of staff of the United Kingdom and United States.

"The Canadian chiefs of staff are meeting the British chiefs of staff throughout the day," said an official statement.

The British Prime Minister, accompanied by Sir John Anderson, Lord President of the Council, drove down to the Chateau from the Vice-Regal summer residence in the citadal where he has living quarters.

No Press Talk.

Announcement of this part of the program was made at mid-morning by A. D. Dunton, Wartime Information Board official, who said there would be no press conference with either of the Prime Ministers.

Today's meeting of the war committee was the second in as many days. A meeting was held here yesterday before Mr. Churchill's arrival from overseas — probably the first time the war committee has met outside Ottawa.

Few Quebecers have had much opportunity for even a fleeting glimpse of Mr. Churchill or the other distinguished conferees who with their staffs, have crowded the huge Chateau Frontenac to capacity.

The British Prime Minister was described by those close to him, however, as in "fine form" and excellent spirits.

Because there is no advance information on his movements the usual crowds which would await his comings and goings have been avoided.

A United Nations blueprint for final victory in Europe was under review by British, American and Canadian military leaders, while Mr. Churchill and Mr. King conferred in the storied citadel of the old capital of French Canada.

While today's official statement referred only to conferences between Canadian and British chiefs of staff, there has been considerable United States military activity around the Chateau Frontenac in recent days.

Burma Targets Pounded Heavily

NEW DELHI, Aug. 11 (AP) — Medium bombers of the U.S. air force raked Japanese targets in Burma from the Arakan Coast to Mandalay yesterday, blasting installations at Akyab and Pyawbwe and destroying enemy transport on the Irrawaddy river, a communique announced today.

Eighteen tons of bombs were dropped on Akyab in one of the heaviest concentrations of the Burma campaign.

A single bomber B-25 destroyed two 200-foot ferry boats and a 50-foot steamer in the Irrawaddy River. Another blast capsized an 80-foot barge.

On Aug. 9 major damage was inflicted on the railroad reversing station at Sedaw, east of Mandalay, according to delayed reports, the communique said.

Army Gets Mobile Surgery

Nurses To Serve In Front Lines

OTTAWA, Aug. 11—(CP). — Two mobile general hospitals, first such units in the Canadian Army, are being organized, defence headquarters announced today. They will be under command of Lt.-Col. J. A. A. Harcourt, Toronto physician, and Lt.-Col. Pierre Tremolay, permanent force medical officer who went overseas with a field ambulance in 1940.

The new hospitals will serve just behind front-line scenes of action and provide full surgical and pathological facilities for treatment of casualties. In each, one or more complete surgical teams, consisting of surgeon, specialist in medicine, radiologist and anesthetist, all holding the rank of Major, will furnish operative and post-operative treatment.

A dental officer and two assistants will specialize in treating injuries to jaws and dentures and will assist plastic surgeons.

There will be 20 nurses on the staff of each hospital, in charge of a matron and assistant matron. In addition, a pool of nurses will be attached to each hospital, from which emergency teams for front-line evacuation duty will be drawn. The nursing sisters will work nearest to battle-lines of any members of their profession.

War Successes Point To New Front

Allied Leaders Probably Plan Speedy Follow-Up To Sicily

By DEWITT MacKENZIE
Associated Press War Analyst

For once Messrs. Roosevelt and Churchill are going into conference without employing the customary smoke-screen of secrecy, and as a matter of fact haven't even attempted to conceal the approach of what is likely to be one of the most momentous meetings of the war.

This doesn't mean that the forthcoming parley will be held in the open for all to hear. We are left to figure out for ourselves what questions will be debated at this critical moment. Still, the trend of events indicate that there are at least two major problems with which the conference will be concerned, and they are these:

Second Front Again

1. The opening up of that much and warmly debated front in western Europe, so as to capitalize to the full the amazing success of the Red offensive.

2. The post-war policy which will bring the best co-operation among Britain, the United States and Russia in particular, and the other Allies in general. This contemplates the probability that the Muscovites are likely to emerge from the war as the dominant power both in Europe and the Orient.

These questions would seem to be urgent because of the unexpected speediness of the Allied successes both in Russia and in the Mediterranean theatre. Plans which were made at the last meeting of the Allied chiefs presumably need bringing up to date.

From the military standpoint the question would seem to be what we do when we have finished with Sicily. There has been considerable talk of a quick invasion of the Italian mainland, to take advantage of the patent weakness there. However, the more one contemplates the task of invading and subduing the peninsula as the next major move, the less attractive it appears—a lot of labor for a return of doubtful value.

The Nut we want to crack is Hitler, and we want to get at him the quickest way possible. The Russians again are urgently pointing out that the speedy way to smash to Fuehrer is to open up that new front in France, while the Red armies have the Nazis on the run in the east.

That's a logical move, providing the Anglo-American Allies are capable of undertaking what undoubtedly would be one of the greatest and most dangerous operations of the whole war—a landing in France from England.

If the Allies are to undertake such an invasion it can't long be delayed. The summer is rushing by with its good fighting weather, and the opportunity presented by the Russian offensive may slip away with the arrival of autumn.

Occupation of the Italian peninsula wouldn't take us appreciably nearer our main objective.

Invasion of the Balkans wouldn't bring against Hitler from two sides the quick and heavy pressure which Moscow believes would wind the war up quickly. The alternative seems to be a blow through France, and one would expect this to figure largely in the Churchill-Roosevelt conference.

Axis Boats Head For Sicily

Fliers Ready To Halt Evacuation Attempt

By JOSEPH MORTON
Associated Press War Correspondent

AN ADVANCED ALLIED AIR BASE IN SICILY, Aug. 10— (Delayed) — (AP). — A movement of small ships and barges across the narrow passage between Sicily and the toe of Italy has been accelerated in the past few nights, fliers based on Sicily reported to-day, and Allied air operations against the traffic have been stepped up.

(Another Associated Press correspondent in Sicily reported the Germans were attempting to remove troops and heavy equipment across the narrow Messina strait into Italy.)

Fliers said the Axis would find the attempt costly if it pressed evacuation attempts further since the moon is nearly full.

A least 100 barges were counted yesterday on the Italian mainland between Cape Spartivento and Cape Arni. For the first time in days barges and one large ship risked coming into Messina before dark. Two transports entering the harfor of Milasso along the Northern Sicilian coast were promptly dive-bombed by American fighter-bombers. They reported a direct hit on one vessel. Six barges also were detected in the vicinity of Milasso and strafed.

CANADIANS, AMERICANS CONVERGE ON RANDAZZO, HUN BASTION

Allies Take Guardia; Gain 3 Miles

Advance On Randazzo, Roads Blocked By Hun Demolitions

ALLIED HEADQUARTERS, North Africa, Aug. 11 (AP)—Allied armies pushing north along the east coast of Sicily, have captured the town of Guardia, in an advance of two to three miles, Allied headquarters announced today.

On the north coast American 7th army forces "consolidated the positions reached in the successful landing operations at the mouth of the Rosmarino River reported yesterday" the Allied communique said.

Advancing Canadian and American columns converging on Randazzo, key to the Axis last ditch defence of the Messina bridgehead, found the mountain roads blocked by masses of volcanic rock torn from the hills by Nazi dynamite crews while small units of machine-gunners entrenched in strong points protected in some places by barbed wire pecked away at the attacking forces.

(This was the first official mention made of Canadian activities in Sicily in four days. Yesterday Louis V. Hunter, Canadian Press War Correspondent, mentioned the inactivity of the "Red Patch Devils" and suggested it was possible Canadian forces were resting for the first time since they landed in Southeastern Sicily July 10).

The fall of Randazzo appeared imminent, however, as the Germans continued to withdraw the bulk of their forces and equipment, and reports placed the Allied columns within seven miles of the mountain town.

2 Miles Distant

(A Reuters News Agency dispatch to London said the distance was only two miles.)

Advance patrols of the American 7th Army moving in a line almost directly east from Cesaro in the interior were reported to have made a junction with Canadian units rounding lofty Mount Etna from a northeasterly direction.

One of the riddles of the stubborn Axis defense was solved and partly liquidated yesterday when Allied officers discovered that heavy artillery hammering at their columns operating along the San Agata-Cesaro line had been brought up over an unmapped mountain road. The road, discovered by air reconnaissance, was apparently an old mountain trail which the Axis forces had painstakingly hewed out to a 12-foot width, just sufficient to bring up heavy equipment.

Randazzo itself was little more than a heap of blazing rubble as Allied bombers returned again and again to pound German Artillery Parks, ammunition dumps, troop concentrations and important highway junctions.

(In another dispatch yesterday, Hunter reported Randazzo was "one of the most heavily-bombed targets" of all the spots chosen by Allied airmen as dumping grounds for their explosives.

(Besides that objective, he said, Allied planes, including R.C.A.F. squadrons, droned by the hundreds over Sardinia, Sicily, and the Toe of Italy.)

ALLIES TAKE

(Continued on Page 8, Column 6)

More Meat And Eggs

OTTAWA, Aug. 11. — (CP).— Stocks of meat, eggs and milk on hand in Canada at Aug. 1 were higher than at the corresponding date last year but declines were shown for poultry, fruits and vegetables, the Dominion Bureau of Statistics reported yesterday.

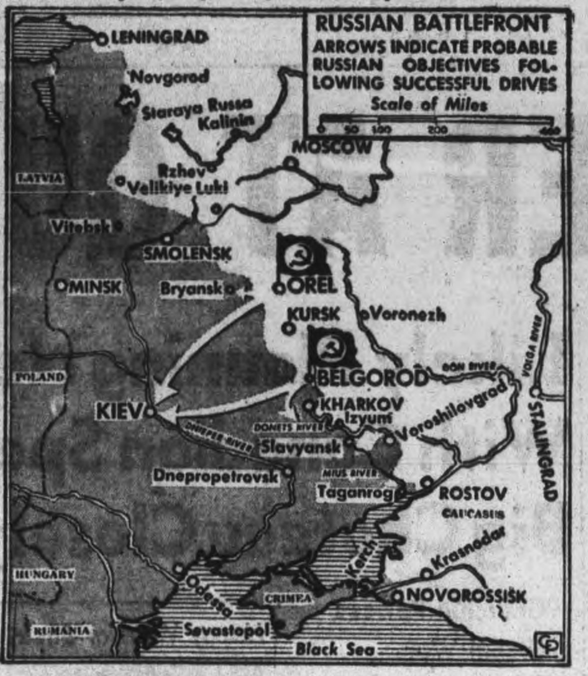
Use Synthetic Rubber

WASHINGTON, Aug. 11.—(AP).— The United States War Production Board yesterday authorized manufacturers to resume making rubber jar rings used in home canning. The rubber director had advised W.P.B. that synthetic rubber was available for the purpose.

Teachers Need Help

SAINT JOHN, N.B., Aug. 11. — (CP).—Wing Cmdr. H. R. Low, of Ottawa, Director of Educational Services, R.C.A.F., told the Canadian Teachers' Federation yesterday that teachers must look to the Dominion Government as their only source of financial assistance.

Red Army Keeps Up Victory Pace



Not even hesitating after their great victories at Belgorod and Orel, Russian forces have continued their drives through the cities in pursuit of the bitter fighting, but still retreating German armies. Light arrows on this map show the probable objectives of the renewed Soviet assaults on the losing Nazis.

Cheese, Produce and Livestock

WINNIPEG GRAIN.

WINNIPEG, Aug. 11 — (CP). — Further export business was reported yesterday to the Winnipeg Grain Exchange with United Kingdom agents taking two cargoes estimated at 750,000 bushels of Canadian wheat. This brings the total purchased in the last two days to almost 1,275,000 bushels. Transactions were on an exchange basis and did not reflect in the pit.

Wheat futures moved within a narrow range during most of the session and values at the close ranged unchanged to ⅜ cent a bushel higher.

Final details in the plan to move Western wheat, oats and barley to Eastern feeders has been completed, and actual movement is expected to start shortly, an announcement said.

TORONTO LIVESTOCK

Cattle trade was slow with prices about steady at the week's decline in trade up to mid-session on the livestock market here today. Hogs calves, sheep and lambs were steady.

Receipts reported by the Dominion Marketing Service were: cattle 250, calves 250, hogs 600, sheep and lambs 300. Unsold from yesterday was 1,300 head of cattle.

A few weighty steers sold at $11.75 to $12.60, butcher steers and heifers $10 to $11, butcher cows mostly $8 to $9.50, canners and cutters $5 to $7.50, good bulls $9.50 to $10.50, bologna bulls downward to $8, good stockers $11.50 to $12.75 with plain downward to $8.

Choice veal calves were $15 to $15.50 with other grades downward to $11.

Lambs sold at $16 to $16.25 for good ewes and wethers and $15 to $15.25 for bucks.

Sheep were $5 to $9.75.

Hogs sold at $16.85 to $16.90 dressed weight and sows $14.50 to $15 dressed.

Representative Sales

Weighty Steers: 14, 1052 lbs. $12.15; nine, 1180 lbs. $12; five, 1206, $11.50.

Light Steers: One, 1040 lbs. $12; one, 960, $11.75; five, 900, $11.50; 28, 930, $11.25; seven, 940, $11; 18 930, $10.85; one, 870, $10; seven, 790, $9.50.

Heifers: Two, 1000 lbs. $12.25; 1, 970, $12; 10, 860, $11.75; 24, 910, $11.65.

Bulls: One, 1620 lbs., $10.50; one 1360, $10.25; one, 1480, $10; one, 930, $9.50; four, 1080, $9.25; five, 1060, $9; two, 790, $8.75; one, 810, $8.50; one, 1120, $8.

Cows: Four, 1220 lbs. $10; ten, 1160, $9.75; three, 930, $9.50; four, 1090, $9.25; four, 1200, $8; one, 1090, $8; one, 960, $6.50; two, 820, $9.

Fed Yearlings: One, 470 lbs.

HOG PRICES

TORONTO, Aug. 11 — (CP). — Dressedweight were up 10 cents at Stratford and prices were unchanged at other bacon-hog markets reporting early today.

Live weight: Chatham $12.10.

Dressed weight: Brantford $16.30 plus transportation, Hamilton $16.75 delivered, Hull $16.40 plus transportation, London $16.50 delivered and Stratford $16.60 delivered.

News Flashes

LETHBRIDGE, Alta.—Bodies of four miners trapped 24 hours in the Kerralta mine on the Old Man River near here, were removed from the mine yesterday. The men were killed in an explosion Monday.

Labor Officers Given Greater Power

OTTAWA, Aug. 11 — (CP).— A sweeping reorganization of the National Selective Service Department, designed to expand and strengthen its administration and promote more closely linked activity between the Government departments charged with obtaining manpower was announced last night by Labor Minister Mitchell, under whose jurisdiction Selective Service comes.

Mr. Mitchell said in a statement that the plan of reorganization recommended by Selective Service Director Arthur MacNamara and approved by the Government, is designed to decentralize the work of the Department "as far as practical."

Full-Time Board

It involves the establishment of an administration board of full-time personnel, the appointment of assistant associate directors at head office for mobilization; fuel, mining, lumbering and logging; farm labor; priorities; fishing and canning industries; war industries and essential civilian services; the employment of women, and the appointment of a director of planning.

In addition, the plan calls for the appointment for each employment region of Provincial directors, whose duties will include dealing with matters with in their regions which otherwise would be referred to Ottawa.

Among the objectives of the reorganization are the selection of a Judge to act as deputy head on the civilian side of selective service and division of the work on an industrial classification basis.

The Minister said that war industries and essential civilian services will each be represented at head office by two associate directors, who will maintain close liaison with the requirements of the Munitions Department and the Prices Board.

A Vital Job.

The Mobilization Board, Munitions Department and Prices Board will be represented on regional advisory boards. The provincial director for the Ontario employment region will have offices at Toronto.

Provincial directors, Mr. Mitchell said, will act as chairmen of regional selective service boards, and will confer with regional superintendents of employment service. They will suggest remedies for emergent labor shortages and provide at the regional level "a liaison between mobilization and civilian employment."

The selective service advisory board for each employment region will consist of seven members — the regional director, national selective service chairman; the chairman or registrar of the mobilization board; the regional superintendent of the employment service; and representatives of Labor, the Munitions Department and Prices Board and the chairman of the Employment Service Committee.

Mr. Mitchell said he was convinced that the "success which must be attained" depended upon the effectiveness of the work done in the employment offices.

MORE ABOUT—

Smiling Premier

Continued from Page 1

group the Canadian Ministers to best advantage.

It was the first opportunity for a sure sight of the British Prime Minister since his guarded and unheralded arrival yesterday afternoon for a stay in North America during which he will hold his sixth war conference with President Roosevelt of the United States, at a place and time not yet disclosed.

The British Prime Minister wore semi-formal morning attire—striped trousers and short black jacket, white shirt, dark polka-dot bow tie and black Homburg. He carried gloves and a stick.

"They want me to shake hands with a Minister," Mr. Churchill said, and turned to grasp the hand of bareheaded Air Minister Power, at his right.

After a few minutes of posing Mr. Churchill indicated it was all over. He puffed his cigar, waved one last V-sign, turned and pushed his way into the Chateau lobby to be swallowed up by conferences in which British, Canadian and American military officials have been participating.

Davis Sees 3rd Front

WASHINGTON, Aug. 10—(AP).— Elmer Davis, director of the U.S. office of war information, predicted yesterday the opening of a "third front" in Western Europe but shied away from any guess as to when it might be launched by the Allies.

Early Demolition

GALT, Aug. 11—(CP). — Previous on postwar reconstruction, or the necessity therefor. Perhaps that's what four Galt youngsters had in mind when they attacked the boys' bathing house at Soper Park with pickaxes the other day, explaining to police that they "wanted a new bathing house." Damage was estimated at $100.

Killed In Sicily

Pte. Elwood Hie, son of Mr. and Mrs. Ira Hie, Cobourg, is the first Cobourg boy to have been killed in the battle of Sicily. According to word received by his wife on Tuesday, he was killed July 23.

COBOURG

Pte. Elwood Hie Dies In Action

COBOURG, Aug. 11 — (ENS) — First Cobourg boy to lose his life in the Battle of Sicily, Pte. Elwood Hie was killed on July 23 it was announced yesterday in a telegram received by his widow. Pte. Hie was 20 years of age and enlisted in May of 1940 with the Hastings and Prince Edward Regiment, going overseas in January of 1941.

He is survived by his widow and a three-year-old daughter, Sharon, who was born when he was overseas. He is also survived by his parents, Mr. and Mrs. Ira Hie, his father being with the Veterans' Guard in Quebec, and three sisters, Bernice, Eileen and Donna of Cobourg.

Pte. Hie was well-known in Cobourg sports circles. At one time he played hockey in the Church League for Trinity United Church. He attended the public school and the collegiate institute here.

Many Farmers Still Cutting Hay

The fall wheat crop in Victoria county is yielding about twenty bushels to the acre according to weekly reports of the Ontario Department of Agriculture issued Monday. Alsike is running one to seven bushels.

Otherwise throughout this district the present stage of farm work moves through a common pattern of the harvest, cutting of grain, barley and oats, threshing fall wheat, and taking a second clip of alfalfa.

Rather frequent rains are keeping the pastures green, and corn, roots and potatoes apparently are benefitting from the sustained moisture.

Grenville county says a majority of its farmers are still making hay. Rust is "very" prevalent in non-resistant varieties of oats in Lanark. Dairy cattle in Leeds are in better condition than usual. "Most farmers are yet in the middle of haying operations."

Lennox and Addington wheat is about thirty bushels to the acre. "Late oats are rusting badly." A number of farmers are combining their timothy and alsike up to six and seven bushels to the acre.

Little pigs in Oxford are selling down to $4.50. "Leaf rust is prevalent in the oats." Yields of wheat have been reported all the way from 15 to 35 bushels to the acre.

Producers of honey in Grey and several other counties report a heavy yield.

Hog Quotations In Peterborough

WED::SDAY, AUGUST 11

Hogs — $16.25 plus transportation.

Sows — $14.00 plus transportation.

Eggs — A large 37c; A medium 36c; A pullet 30c; B grade 28c; C grade 25c.

Cream — Special 43c; No. 1 42c. No. 2 39c (including Government bonus) If delivered 3c extra.

The Quaker Oats Company quotes Ontario Winter Wheat No 1, $1.10; No. 2 $1.10; No. 3 $1.08; milling oats 62c; buckwheat, 80c.

Votes Protest Ceiling

EDMONTON, Aug. 11—(CP)—Results in the four federal by-elections Monday, in which Liberal candidates were defeated, "are protest votes against ceilings on wages and farm prices, and the general war-time restrictions," Hon. James A. MacKinnon, Federal Minister of Trade and Commerce, said in an interview yesterday.

Invites Churchill

TORONTO, Aug. 11 — (CP). — Mayor Fred Conboy has extended a civic invitation to Prime Minister Churchill, Mrs. Churchill and their daughter Mary to visit Toronto during their stay in Canada, he announced to-day.

To Hold 6th Wartime Parley With Roosevelt Soon British War Chiefs Here Too

By J. F. SANDERSON—Canadian Press Staff Writer

QUEBEC, Aug. 11 — (CP). — A United Nations blue print for final victory in Europe was under review here to-day by British, American and Canadian military leaders while Prime Minister Churchill and Prime Minister Mackenzie King conferred in the storied Citadel of the old capital of French Canada. The British Prime Minister, accompanied by his military advisers, arrived here yesterday and shortly will start his sixth and possibly most portentous strategy conference with President Roosevelt of the United States.

As a preliminary of the Roosevelt - Churchill conference, the two leading figures of the British Commonwealth discussed some of the military and political problems arising from the rapidly-changing war picture in Europe and Asia, while staff officers of the three nations conferred in the famous Chateau Frontenac Hotel here.

With Chief of Staff.

The British Prime Minister was accompanied by Gen. Sir Alan Brooke, chief of the Imperial General Staff; Admiral of the Fleet Sir Dudley Pound, the First Sea Lord; Air Chief Marshal Sir Charles Portal, chief of the Air Staff; Lt.-Gen. Sir Hastings Ismay, chief of the staff to the Prime Minister, and Vice-Admiral Lord Louis Mountbatten, chief of combined operations.

Among the high-ranking Canadian military leaders here were Lt.-Gen. Kenneth Stuart, chief of staff for the army; Rear-Admiral Percy W. Nelles, chief of staff for the Navy; and Air Marshal L. S. Breadner, chief of air staff.

It was impossible to identify American officers by name but it could be said they have arrived in Quebec for the conference.

The British Prime Minister and his party left the train on the south shore of the St. Lawrence yesterday and motored into the city after being greeted by Sir Eugene Fiset, Lieutenant-Governor of Quebec; Adelard Godbout, Premier of Quebec, and Lucien Borne, Mayor of the City of Quebec.

Mr. Churchill was accompanied by his wife and his daughter, Mary, a member of the British auxiliary territorial services.

Discuss War Topics

They went directly to the Citadel, the old fortification overlooking the broad St. Lawrence where Mr. King had tea with them. Later in the

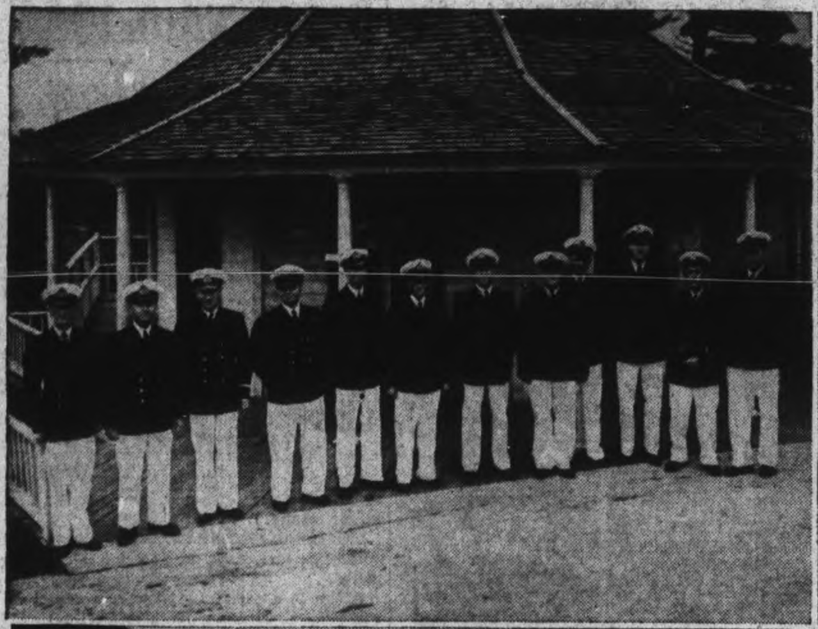
PETERBORO SEA CADETS HAVE GALA TIME ON GEORGIAN BAY ISLE



One hundred and thirty boys of the Peterborough Sea Cadet Corps returned home at the end of last week after a thrilling two weeks spent at the Princess Alice Sea Cadet Camp on Minnicog Island. TOP LEFT are some of the Sea Cadet officers, LEFT to RIGHT: Sub-Lieut. J. Gaskell, Sub-Lieut. E. Pridham, Lieut. Maniece, all of Peterborough; Warrant Officer Digweed and Sub-Lieut. Pellerin and Lieut. McLaughlin, commanding officer of the St. Catharines Sea Cadet Corps; Sub-Lieut. Terry Hall, Lieut. S. Longhurst, and Sub-Lieut. C. Huffman of Peterborough; Sub-Lieut. Liddell, former Olympic sculling champion of Welland; Lt.-Comdr. Williams, C.O. of Welland Sea Cadet Corps, and Sub-Lieut. Bingham from St. Catharines. TOP CENTRE is a view of the shoreline and jetty of Minnicog Island. In the FOREGROUND are two of three large cruisers on which the Sea Cadets are given instructional cruises. TOP RIGHT are the Peterborough Sea Cadets lining the route for Princess Alice during her visit to the camp, named after her. Beside Princess Alice is Commander Orde of H.M.C.S. York, and behind on the LEFT is Sub-Lieut. Bover, C.O. of the camp, and on the RIGHT, Sub-Lieut. MacLaren, training officer of the camp. LOWER LEFT is a group of the Peterborough Sea Cadets during kit inspection in front of Admiral Nimitz Barracks, where they were housed. Stooping and sitting, LEFT to RIGHT, are Cadets Sadler, Prophet, Nicholls, Ray, Wyatt, Easson and Sismer. Second Row, LEFT to RIGHT, are Thexton, Smith, Seabrook, Shaugnessy, Griffin, LaPlante, C.P.C. Conlin and Johnson. LOWER CENTRE shows the winning Peterborough cutter crew saluting with oars after the race with Welland and St. Catharines. The crew consister of John Conlin, coxswain; Jack Black, Don Payne, first stroke; Allan Menzies, Don McGillen, second stroke; Robert Armstrong, Marvin Porter, amidships; Allan Stewart, Robert Williams, second bow; James Conlin, M. Patterson, bow. LOWER RIGHT is pictured another group of Peterborough Sea Cadets. Standing, LEFT to RIGHT, are: Manbeck, Coughlin, Ralph, Conlin, McGillen, Armstrong, Boyter, unidentified, Dionne. The two cadets in front are Wagstaff and Dyer.

Three Soldiers Hurt Overseas

CAMPBELLFORD, Aug. 11. — (ENSS). — Thre more local boys, all with the Hastings and Prince Edward Regiment, have now been reported wounded while on active serivce in Sicily.

Mrs. Edgar Andrews was advised that her husband, L.-Sgt. Edgar Andrews, 23, had been wounded, but no particulars were given. L.-Sgt. Andrews is a son of Mr. and Mrs. Wesley Andres here, and he eenlisted in March, 1940, going overseas with the Hastings and Prince Edward Regiment the same year. The date of his injury was given as July 21.

L/CPL. J. A. DONALD

L.-Cpl. James Angus Donald, 24, son of Mr. and Mrs. Arthur Donald was also reported wounded in Sicily, according to information received by his parents here Tuesday. He enlisted with the Midland Regiment when it was formed here in 1940, and served with that unit in various parts of Canada. Later he transferred to the Hastings and Prince Edward Regiment, and went overseas as a reinforcement about ten months ago. A brother, Pte. Stewart Donald, is also serving with that regiment in Sicily, while still another brother John is in England.

Third local youth to be reported wounded is Pte. Douglas Robertson, 20, son of Mrs. John Robertson, and the late Mr. Robertson. He also went overseas about ten months ago and was with the Hastings and Prince Edward Regiment at the time he was injured.

MARMORA

Pte. H. Lowery Hurt In Sicily

MARMORA, Aug. 11 —(ENS)— Henry Lowery, received word on Monday that his son, Pte. Horace Lowery, who enlisted at Bancroft with the Hastings and Prince Edward Regiment at the outbreak of war has been wounded. He is suffering from concussion and fracture.

Personals

Mr. and Mrs. Arthur Izzard and family of Mimico are visiting Mr. and Mrs. Fred Izzard.

Kaj Johansen underwent an operation for appendicitis in Belleville General Hospital on Saturday.

Improve Farming

GUELPH, Aug. 11 (CP)—T. B. Mansion of the British Ministry of Agriculture said yesterday Canadian farmers should produce improved quality products for shipment to Britain to protect post-war markets in the United Kingdom.

Unnecessary Fires

TORONTO, Aug. 11 (CP)—Sparks from railway engines, lightning and careless campers were responsible for most forest fires in Ontario during July, the Ontario Department of Lands and Forests announced last night.

Silverwood's Homo Milk

Most children prefer homogenized milk. Try it for your youngsters!

Roseneath News

ROSENEATH, Aug 11—(ENS)— Guests in village and community during the week-end included, Mr. and Mrs. Leo Anderson of Toronto with Mr. and Mrs. George Mouncey; Miss Luella Brown of Peterborough with Miss Valda Webb, Mrs. R. Bowen and son David of Wooler with her parents Mr. and Mrs. A. Mouncey and Kief Brown of Detroit with his father William Brown.

Leona Pringle has arrived home following a visit with her cousins Valerie and Merla West at Grafton.

Mr. and Mrs. A. Pringle and Donna visited on Sunday with Mrs. Pringle's sister, Mrs. Lloyd West and Mr. West, Grafton.

Misses Francis Crego and Pauline Down visited during the week with the latter's aunt, Mrs. Bruce Parger, Peterborough.

Mr. and Mrs. Archie McCallum of Peterborough are visiting the latter's sisters, Mrs. John Murphy and Miss Nellie McHenry.

Mr. and Mrs. B. Duberges and daughter Nancy of Grafton were Sunday guests of Mr. and Mrs. Frank Adams.

Obituary

MRS. WILLIAM CHARD

CAMPBELLFORD, Aug. 11. — (ENS).—Funeral services for Mrs. William Chard, 65, who died in Nicholls Hospital, Peterborough, on Monday, were conducted from the Faith Mission in Havelock this afternoon.

The late Mrs. Chard had been in apparent good health and passed away following an operation. She was a daughter of the late Mr. and Mrs. Daniel Greaves and was born in Norwood, spending most of her life there and in Havelock. She came to live here about a year ago.

Predeceased by her husband fourteen years ago, Mrs. Chard is survived by four sons, Sanford, of town; Pte. Arnold, with the army in Quebec; Ambrose, of Keene; Pte. Charles, overseas; and five daughters, Mrs. M. Lindsay, of Indian River; Mrs. Lewis Newton, Campbellford; Mrs. William Harris, of Havelock; Mrs. Andrew Curry, of Havelock, and Mrs. Edward Witcher, Campbellford.

The funeral services were conducted by Mrs. John Kinnard and interment was made in Preneveau Cemetery. The pall-bearers were Messrs. Raymond Goheen, William Smith, Sam Southworth, William Ketcheson, Robert Peoples, Leonard Keen.

Will Close Stores

COBOURG, Aug. 11 — (ENS) — Serious consideration is being given here to the suggestion that the merchants of the town, who can get away, close all day on Wednesday, instead of the half-day in order that they can assist district farmers in harvesting their corn crop. Farmers are very short-handed and unless they can secure help, there will be a loss of crop.

Cutter Crew Defeats Welland Princess Alice Christens Camp

Saturday, July 24, was a big day in the lives of 130 boys from the Peterborough Sea Cadet Corps "Howe." It was the day they entrained for the Princess Alice Sea Cadet Camp on Minnicog Island in Georgian Bay, for two weeks naval training.

A train trip of 100 miles and a boat trip of 12 landed them at camp tired and hungry—but full of happy anticipation of two weeks which they will never forget.

A Pretty Spot

The first view of the camp was very impressive and the boys' lighted up when they saw three large boats of 75 feet or more, looking like destroyers or similar smaller craft, moored at the jetty. Many buildings to house the boys and administration buildings could also be seen, advantageously placed on the highest point of the island overlooking Georgian Bay.

The boys were housed in barracks, formerly summer hotel buildings, the majority in hammocks and a few in bunks. Three heavy wool blankets were issued to each boys for bedding. The hammocks for the first few days seemed strange to the boys but now many say they prefer them to beds.

A Day at Camp

Their day started at 6:30 a.m. with everyone on swim parade, then a short period of physical training to limber the boys for the day. The following is a sample of one day's syllabus of training and recreation:

6:30 a.m. Swim parade.

7:30 a.m. Breakfast (after breakfast boys tidy up and clean barracks for C.O.'s inspection.)

8:45 a.m. Divisions.

9:00 to 10 a.m. Periods of instruction and 10 a.m. to 11 by active service naval ratings.

11 a.m. to 12 noon. Swim parade and recreation.

12:30, Dinner.

1:45 p.m. General Assembly.

2 to 3 p.m. and 3 to 4 p.m. Two periods of instruction by naval ratings.

4 to 5 p.m. Swim parade.

5:15 p.m. Evening Quarters.

5:30 p.m. Supper.

6 to 10 p.m. (Organized recreation.) Soft ball, boat racing, boxing, sing songs, sailing, etc.

10 p.m. Boys into their hammocks and lights out.

10:15 p.m. Pipe down (all noise is supposed to cease.)

Varied Training

The training during the four periods in the day was taken up with instruction on signalling, sailing, boat pulling, helm and compass, tossing the line, lead and line, parts of a ship, relative bearing, swimming instruction, commando training. Also during their two weeks stay at camp two cruises of two hours each where the boys were given actual instruction in steering ships, reading the compass, life boat drill for man overboard and naval terminology.

At camp food was plentiful and good. Marmalade and jam were plentiful and usually the boys topped off a good meal with it served on two or three slices of thickly buttered bread.

Divisions the term for the general morning assembly was a colorful and impressive ceremony. Fourteen divisions of 20 boys and a petty officer formed a hollow square facing aft, or to the stern of the ship. After the officers have reported their division, the number present and accounted for, the commanding officer brings the whole ship's company to attention. There is not a waver — then the order "Off Caps" is given and in unison as if by one man caps are removed smartly. The commanding officer then reads the naval prayer, exactly as used aboard every one of His Majesty's ships every morning and then the Lords Prayer is repeated in unison.

Impressive Scene

To see 400 officers and boys with

(Continued on Page 12)

Woman Catches 30-Pound Muskie

CAMPBELLFORD, Aug. 11. — (ENS).—A group of Americans fishing down at Bradley Bay Tuesday afternoon landed one of the biggest fish caught in local waters this season and chose a rather novel way of making sure of their catch.

The muskie, a 30-pound fish, measuring 46 inches in length and with a 22-inch girth, was actually caught on a line held by Mrs. Hasel M. Hilty, of Canton, Ohio. She was trolling from a skiff with her husband, Harvey Hilty, when the strike was made about three o'clock in the afternoon. For lure Mrs. Hilty was using a spoon with feathers and baited with a pork rind. The spoon she claimed cost her nineteen cents in Canton, a fact which made her particularly elated since they had brought with them a large assortment of baits, and this was the last one they expected would bring any luck.

Mr. Hilty rowed the skiff around for nearly an hour before the fish was sufficiently tired to make an attempt at landing, and while they were still playing it, Mr. Fred Hendricks, whose resort they were visiting, came aboard to assist them. The Hiltys had a gaff hook aboard, but were afraid that it was not strong enough when they had seen the size of the fish that was on their line, so finally they rowed ashore and pulled the fish up on land.

Fenella News

Mrs. Burton Roberts and daughters, of Toronto, spent a few days visiting her parents, Mr. and Mrs. James Knox and sister, Margaret. The latter returned to Toronto with them.

Mr. and Mrs. Frank Down and Audrey visited Sunday with Mr. and Mrs. Harry Macklin and children and Mrs. Mary Backlin, of Brighton.

Holidaying at the home of Mr. and Mrs. Vernon Brenton are Mrs. James Bradbury, Helen, Barbara and Vernon, of Cobourg; Mrs. James Waldie, Gene and Kenneth, of Trenton; L.A.C. James Waldie, R.C.A.F., spent the week-end there.

The W.M.S. met at the home of Mesdames S. and N. C. Leach on Wednesday.

Builders Find Bodies

BRANTFORD, Aug. 11—(CP)— Human remains—believed those of a woman and child—were unearthed yesterday by E. E. Barker, of Princeton, and A. M. Boughner, of Burtch, as they began excavation preparatory to erecting a house here. The length of time of their interment could not be estimated.

Pte. R. Bennett Sicily Casualty

COBOURG, Aug. 11 — (ENS) — Word has been received by his parents, Mr. and Mrs. Herbert Bennett of 203 Blake Street, that their son, Pte. Robert Bennett, has been wounded in the Battle of Sicily. He is in his early twenties, and is the first Cobourg boy to be announced as wounded in that battle.

Pte. Bennett was born in England but came over to Canada with his parents when he was a few months old. After residing in Port Hope for a while, they went to Toronto where he attended public school and Danforth Tech. Six years ago they took up residence in Cobourg.

A few weeks after war broke out he enlisted with the Midland Regiment and for some time was on guard duty at Trenton airport. Later he transferred to the Hastings and Prince Edward Regiment and went overseas about three years ago.

The telegram which his parents received pointed out that he had been wounded in Sicily but stated that no further details were available for the time being.

PTE. R. BENNETT

WEDNESDAY, AUGUST 11, 1943

The Quebec Conference

For a week or more there have been rumours of another imminent meeting of Mr. Churchill with Mr. Roosevelt, and now it appears that Quebec is to be the scene, and Mr. Churchill has arrived.

A more beautiful place for a momentous conference can scarcely be imagined. The commanding situation of the citadel, looking over Quebec's magnificent harbour and the picturesque old city, will give the two great statesmen a fine background for their deliberations. They have a way of choosing great settings for their drama.

What they will talk about is, of course, secret in detail but clear enough in outline. The war has been advancing more rapidly than anyone had dared to hope, and the time is ripe for new plans, further deliberations and bold strokes of strategy. Canada is honoured to be the scene of such a meeting, and will take pride that one of the great Churchill-Roosevelt conferences will inevitably be known to history as the Quebec Conference.

War Over By Christmas?

An official source has definitely promised that the war will be over by Christmas. We are sorry to have to inform you, however, that the official source is an Axis one, and the end of the war will be an Axis victory. The official source is none other than Dr. Goebbels.

The Germans, says the Doctor, have a secret weapon of such devilish ingenuity and thoroughness that the United Nations will never be able to withstand it. It is not a bomb, and it is not a radio-directed rocket; it is nothing in the line of gas. It is fire-new, and it is a humdinger. They expect to begin using it in November, and then we shall fold up in a matter of weeks.

Now there are secret weapons in every war. Some of ours, like "radar", have been extremely effective. But no secret weapon yet has ever been totally disastrous to the forces which opposed it. Boasting about fantastic secret weapons is a sign of weakness.

We well remember that when war broke out, finding Britain pitifully unprepared, there was great talk in the popular press about a secret weapon which would smash the enemy completely. It was said to have been in the secret cupboard of the War Office since before Waterloo. We did not use it in the last war because it was too horrible. But the Germans were assured that if they set foot on English soil this hideous weapon would be unleashed, and they would wish that they had never been born.

And now Germany is bragging about such a frightful device. Well, well; how times do change!

A Barrage Of Slush

Dr. Goebbels believes that people can be made to believe anything; Hitler himself says so in *Mein Kampf*, and he and his gang have given an interesting demonstration of the lengths to which that theory can be carried. Lately, for example, the Germans have published a White Book in which they show clearly that the British began the bombing of civilian populations in this war. The British, and not the Germans, says Goebbels, were the ones who refused to renounce the use of bomber planes; and the British bombed Berlin eight times before the Germans were roused to bomb London in return! Of course that makes Hermann Goering a liar, but Guebbels has never cared greatly for his rival.

As for Warsaw and Rotterdam, the Germans only bombed them because their inhabitants had converted them into fortresses; if they had not the good sense to get the civilians out of their fortresses, can the Germans be blamed? Of course not. Rotterdam, another "fortress", which had not a single fighter plane or any sort of anti-aircraft defence, and in which 30,000 people were killed, is not mentioned in the White Book.

The Germans are a race of gifted liars. After the last war they brought out books of this nature, which showed how deeply they had been wronged, and how atrociously we had behaved toward them. And there were plenty of ninnies among the Allies who believed them, and felt shame for taking part in the war. The Germans are preparing such a barrage of slush before their defeat. Let no one be taken in by it.

The Closed Shop

Only a few reactionaries and diehards are opposed to trades unions. There are, however, many people who do not like the high-handed methods which are used by certain large international unions, nor are these objectors found only among capitalists, employers and others whom the international unions like to represent as their implacable foes. Many objectors are found in the ranks of labour. A recent editorial in the *Railroad Workers Journal* has attracted considerable attention, and as that paper is the official organ of the Railroad Yardmasters of North America, Inc., it cannot be considered a mouthpiece of capitalist prejudice.

The editorial of which we speak is called "The Closed Shop Is Dictatorial". It begins by pointing out that the "open shop" maintained by many employers was in fact a closed shop, and indubitably so when employees were expected to sign a "yellow dog" contract as a condition of employment. But there is another side of the picture, and the editorial goes into it thoroughly. We quote, at length:

> The closed shop of today will stand out in history as equally distasteful. Call it what you may, closed shop or "union maintenance", this system, when carefully examined, is the "yellow dog" contract in reverse, only now the leash is in the hands of labour leaders instead of employers.
>
> It is understandable why some labour leaders favour the closed shop, since it automatically eliminates the necessity of any great effort to attain their personal objectives. It places them in the position of a dictator. Their slightest whims must be satisfied or their wrath felt through dictatorial discipline, such as depriving a worker of his right to earn a living if he does not wholly accede to their demands.
>
> The closed shop is beneficial only to labour leaders. It places them in supreme authority—even more authority than employers. It eliminates the employer's natural prerogatives of employing competent and discharging incompetent, unworthy or unneeded workers. It makes the union leader sole judge of who shall or shall not be employed, or shall or shall not be entitled to union membership. If a worker is not admitted or if he is expelled from a union, even through no fault of his own, he is deprived of earning a living.
>
> Records disclose instances where workers, under a closed shop, were deprived of employment for having courage to voice opinions contrary to their leaders. Jobs were lost through failure to pay tribute in the form of exorbitant initiation fees, dues, assessments, and many more unjust reasons. Yes, the closed shop is truly named. It is closed to everyone not in the good graces of the "powers that be."
>
> Unionism will never succeed until all entry barriers are torn down. Every worker, irrespective of his occupation, must be allowed the benefits of unionism without encountering hardships. Unreasonable initiation fees, dues and assessments must be eliminated. Unionism is beyond the embryonic stage. There is no need for workers to pay exorbitant toll for the right to earn a living.

The significance of this editorial is unmistakeable, and coming from an official paper of railroad workers — an old-established union and one with a good record—it will carry weight. Labour does not mean to escape from the tyranny of uncontrolled employers merely to enthrall itself to uncontrolled unions. Dictatorship, tyranny and hard dealing are as bad from one source as from another. As long ago as 1896 a famous American judge spoke thus: "Trade unions are the only means by which workmen can protect themselves from the tyranny of those who employ them. But the moment that trade unions become tyrants in their turn they are engines for evil: they have no right to prevent people from working on any terms that they choose."

The vicious thing about a tyranny, of course, is that it is easier to submit to it than to fight it, and the majority of men like what is easy better than what is just to themselves. Having fought a capitalist tyranny, and chained it, labour may soon find itself having to fight and chain a union tyranny, which exploits, but cannot be said to represent, the workers.

NOTE AND COMMENT

When a mail man enlisted recently his wife took over his route. A fe-mail man.

A secret may be the shortest distance between two women.

Scientists now make an explosive from ragweed pollen. Hay-fever victims have been doing that for years.

A Peeping Tom in Michigan has been given 30 days. If people would pull down their blinds Peeping Toms wouldn't have anything to peep at.

Says the Lethbridge *Herald*: "A Social Credit M.L.A. is credited with saying that 'Money is not real; money is imaginary'. That $25 a month was imaginary, anyway".

Fewer cards "wishing you were here" are passing through the mails this summer. Probably because the people who usually send them are here wishing they were there.

An Arraignment Of America

By
SAMUEL MARCHBANKS

NOT since the most vigorous days of Sinclair Lewis has the United States of America been called so violently and abusively to account as in Philip Wylie's latest book, "Generation of Vipers". The Canadian reviewer who approaches the book must do so with the utmost tact, and yet there is so much in it which applies to our own country that it is impossible to pass over it without comment; when Mr. Wylie takes the scalpel and the bludgeon to his own countrymen he lances the sores and cracks the skulls of all North American mankind, and we dare not close our ears. Some critics in his own country have reviewed his book in a tongue-clicking spirit which is amusing; others have accused him of bad taste; a few have said that he should not have written such a book while his country was at war. But it is clear that in order to make his point he must shock; in order to expose fraud it is often necessary to behave in bad taste; and in time of war people are sometimes willing to swallow the bitter pill which they would refuse in times of peace and prosperity. My own opinion is that Mr. Wylie has done his countrymen, and us, a service, and we should be grateful to him.

◆ ◆ ◆

IF it were possible to choose a man to anatomize the body of a civilization, no one would choose Mr. Wylie. He has made his reputation as a writer of popular fiction; his academic equipment is not impressive; he is intemperate and often shallow in his judgments. But men are not chosen for such jobs; they choose themselves and force their views on their fellows without encouragement or invitation. We must accept as our Jeremiahs the men who are willing to be unpopular for truth's sake. On this continent few popular writers care to be prophets or have the ability for that work; our scholars too often truckle to the things which they would condemn if they were really wise and not merely book-learned; and men who feel strongly cannot always express their feelings in Sunday school language, and would not be heeded if they did. Mr. Wylie has courageously donned the goat-skin of the prophet, and he will do very well until a better man comes along. Let us consider what he has to say.

◆ ◆ ◆

HIS chief complaint is that the people of this continent have placed their whole faith in objective things and have neglected subjective things to a point where they stand in dire peril. They have sought "goods", instead of "good". They have created machines which are miracles of ingenuity, integrity and efficiency, but they are not themselves possessed of either integrity or efficiency. They have worshipped false gods, they have scorned truth, and they have blasphemed against the holy spirit of man. Now that is not news. A million preachers tell us the same thing every year. But, according to Mr. Wylie, these same preachers stand directly in the path of the spiritual advancement of the American people, and are themselves false prophets. And not only the church, but also science, education, business and government blind themselves to what is good and jostle and elbow in the avid pursuit of what is base. And why? Because they are either too lazy or too stupid to think straight. Taking as his text Christ's terrible warning—"All manner of sin and blasphemy shall be forgiven unto men; but blasphemy against the spirit shall not be forgiven"—Mr. Wylie smites this generation of vipers hip and thigh.

◆ ◆ ◆

AND a remarkably good job he makes of it. He is the liveliest, if not the most dignified prophet that I have ever encountered. Yet who is to blame him for want of dignity? He speaks to an undignified people. Perhaps, if we understood the idiom of his time, Jeremiah also called his erring brothers "common, no-good sons of bitches". That is what Mr. Wylie calls the modern idol, the Common Man, whose century this is said to be. His indignation bursts forth in an odd jargon of science and pseudo-science, the slick and slovenly writing of the fiction magazines, and idiomatic abuse which is sometimes mere noise but which occasionally rises to heights of almost Rabelaisian splendour. His book would have been improved by more careful revision than it appears to have had; the author should have hired some such pedant as myself to tell him that "demean" means to comport oneself and not stoop; that "overween" is spelled with two e's and not with an a; that it is easier to say "revalue" than "re-evaluate", and that one should never say "a long ways" in print or orally. Mr. Wylie, I gather, has not much use for this sort of knowledge; science is his game. But slovenly writing is taken by a great number of people as evidence of slovenly thinking, and it is against just such thinking that his book is directed.... I shall complete the review of this work on Saturday.

Unconsidered Trifles

"He said he would lay the earth at my feet," said the sentimental daughter.

"Yes," answered her experienced mother, "it sounds good, but it is not practical. You already have the earth at your feet. What you really need is a house over your head!"

◆ ◆ ◆

Husband—"You're terribly extravagant. If anything happened to me, you would probably have to beg."

Wife—"I'd get by. Look at all the experience I've had."

◆ ◆ ◆

Office Boy—"Mr. Whifflebotham, could I have tomorrow afternoon off?"

Whifflebotham—"Ah yes, your grandmother, I suppose?"

Office Boy—"Yes, sir. She's making her first parachute jump, you know."

◆ ◆ ◆

A reader of this column, who merely signs his initials, suggests an answer to the question, "Why should the Government shorten men's shirts when the tax collector will eventually take the whole thing?"

His answer is: "Maybe so that the final parting won't be such a severe shock."

◆ ◆ ◆

A man was teetering on the brink of financial failure. Bradstreet said he was Dun.

Cheery Philosopher: I believe that for every single thing you give away, two come back to you.

Pessimist: That's my experience. Last February I gave away my daughter, and she and her husband came back early this month.

THE THRILL THAT COMES ONCE

The Ideal Gentleman

THE most spectacular achievement of the seventeenth century was Louis XIV and the Grand Monarchy in France. It gave France and all Europe an example of security and settled order. It took the achievement of one great king, Henry IV, and the gifted minister of his successor, the Cardinal Richelieu, to make the throne the radiating centre from which life diffused itself to the remotest province. Royalty, the nobility, the clergy, the third estate, each now in its place like greater and lesser planets, revolved each in its orbit around the central king: The Sun King, Le Roi Soleil. The cultivation of manners now became the pastime of the gentleman—manners, the outer symbol, the etiquette, the label, of the disciplined mind and soul within; the king the great exemplar of true decorum, the subject in his rank, noble or bourgeois, the receiver of his bounty.

Perhaps never before in the history of the world were good manners so diligently cltivated as a liturgy of social life, unless it was in the early days of the Roman Empire, when peace and leisure and luxury created a society adorned by the gentlemanly verses of the gentleman poet, Horace. The French found a name for his ideal of the gentleman—there is no English equivalent—honnetete. A refined society, with manners as a social lubricant to remove all friction in social intercourse. Sweetness and light in mind and manners, as elaborate as the costumes and cultivated with the same fine art. Human nature is not human, now, unless it has been subject to genial and decorous discipline, so ingrained that it has usurped the place of spontaneos nature and looks like spontaneity itself. Nature gives place to art, until art and nature in this refined region look like one. The manners of the time have the convincingness of the formal gardens of Versailles. There must be no shocks, no disagreeable surprises, no disharmony. Perhaps the ideal gentleman, honnete homme, of the age has never better been defined than by one of the most successful of the thoughtful courtiers of the age, La Rochefoucauld: the gentleman is one qui ne se pique de rien. He is one who never allows himself to be disturbed over anything. . . .

It was an age when the drama, which before had been as popular in France as it had in England, was now taken under the court patronage and made the diversion and edification of royalty and the court. Louis XIV, as the great Cardinal before him, favored the theatre and extended his aid to all worthy dramatists. A gentleman's day was never complete until he had seen and commented on the new play. The theatre now took its place as one of the chief means of social discipline in good manners, an instrument that mixed the useful with the sweet, a school of decorum.—From "Ibsen to Odets, a Treasury of the Theatre," edited by Buck, Gassner, and Alberson. (New York: Simon and Schuster.)

Letters To The Editor

FIGHT THE FARMERS' BATTLE.

Editor, Examiner.

Sir,—From an old friend in Saskatchewan, a man I have known for a life-time, I have just received this letter. This is a time when men in all parties are searching their minds and souls, wondering what is ahead of them.

This letter comes as a strong and vigorous note from a man who never failed to face realities and was always capable of taking the long term point of view.

I pass it on without comment, for what it is worth. If the cap does not fit, no one is asked to wear it:

Saskatchewan,
August 5th, 1943.

Dear R.J.,—What is your verdict in regard to the decline and fall of the Liberal Party in Ontario? I haven't been there for some time but I still take an interest.

My opinion is, that ever since it got into office the party has neither preached nor practiced Liberalism. Its strength has always been and still should be with the farmers. It should have been fighting their battles and educating the public in the faith.

Instead of that, it has been trying to appease the farmers with grants from the public treasury while it sold out their interests to the trade unions.

And while the Liberals were thus fearing God and serving the Devil, the C.C.F. were busy crusading for a new faith, and because no other faith was being taught, the farmers fell for the sophistry.

Did not the Liberal Government a few years ago make a grant of money to the farmers' movement for organization purposes? And was not that money used to build up C.C.F. organizations in rural Ontario? I don't know how they do it, but this socialist-labor group seem to be able to get control—not only of the CBC but of every other government agency, and pervert it to their own purposes.

Well what of the future? I don't think the Liberals should form a coalition with George Drew. If they do the C.C.F. will be the only alternative government and will some day become the government.

It would be much better for the Liberals to remain in opposition while they strengthen their own faith, and develop a willingness and a capacity to crusade for the cause. There is enough saving common sense in the people of Canada to recognize the truth and to follow it, if it is properly presented to them. That is the task for Liberalism in your own Province of Ontario, in my Province and in the whole Dominion of Canada today.—Yours,

R. J. Deachman.

FEASIBLE FARM PROGRESS.

Editor, Examiner.

Sir,—This ruralite has read The Examiner's "Election Retrospect" editorial with interest and approval—although, of course, it dealt with aspects of the political situation which were somewhat out of my field.

In the same issue a letter appears covering "Pre-Election Promises" in a wise way, and your correspondent, A. S. Thompson, M.D., goes to the core of the problem in asserting: "Politicians have a choice, either to accept reforms or, by ignoring them, risk an upheaval!"

It seems to this reader that while it is true, as your editorial puts it, that the election "was sadly lacking in showmanship of the right kind," it is hardly less true to assert that the steady barrage of recriminations between the leaders of "the two senior parties" achieved no particular good—other than to, as as a certain valiant Britisher says, "hot up the fire" of enthusiasm in C.C.F. ranks?

From the farm viewpoint, if I may say so, there are interesting possibilities in the fact that, according to the C.C.F. opposition leader, Mr. Jolliffe, his party will co-operate with the government policy on the platform planks which are common to both?

For example, while the C.C.F. would be willing to take over the packing industry, the Drew 22-point program indicated that "Stock yards will be taken over by the Government as part of the plan for better food production and distribution"—and I suppose one is on fairly safe ground in assuming that farmer Nixon (still "at the wheel"?) would be a willing partner along this rural front?

This should—if "pre-election" platform planks are not ersatz material entirely—make a bit of farm progress unusually feasible in the coming days at Queen's Park?

Being somewhat of an optimist, the above seems to fit that Bracken picture as given in the news-columns from Regina, Aug. 6—(CP)—"The farmers are the forgotten men of Canada, but they will be heard from in the future...."

ONE OF THEM.

"Boy, I'm scared! I just got a letter from a man telling me he'd shoot me if I didn't stay away from his wife."

"Well, all you have to do is stay away from his wife."

"Yeah, but he didn't sign his name."

Hard To Believe How Time Flies

AUGUST 11

1913 The Examiner reports the country around Peterborough as being "as dry as a baked sponge." There has been no rain for weeks.

The band of the Salvation Army pays its third annual week-end visit to Fenelon Falls.

Council, at a special meeting, passes a bylaw making part of the west ward a restricted area.

Ald. J. J. Duffus urges the Council to see that Peterborough is provided with modern drinking fountains.

Mr. and Mrs. Wm. Archibald are returning to Scotland after a four months' visit to their son, Mr. Alex. Archibald.

1923 Residents of the Apsley district have been battling with a bush fire that is threatening the vilage.

The local branch of the Provincial Laboratory announces that so far it has not received a supply of insulin.

The new dance pavilion being erected at the foot of Lock street by H. B. Rye is almost completed.

A fire in a wheat field causes a report of a bad blaze at Chemong Park.

The Massey-Harris team of Brantford defeats the G.W.V.A. here by 6 to 1 in an Ontario football tie game.

1933 The Unemployed Workers' Fraternity decides to fight against evictions. Thirty members have been given notices to vacate their homes.

Col. G. C. Winterbottom announces that veterans of the 2nd Battalion will hold a re-union here.

Magistrate O. A. Langley is attending the annual convention of the Ontario Magistrates' Association.

Young's Point man is reported missing. Canoe he had rented is found half-filled with water.

Peterborough Terriers defeat Oshawa 7 to 0 in the first game of the Ontario playoffs.

IN WAR TIME

1918 Capt. W. Eastwood of Peterborough escapes uninjured when a Royal Flying Corps plane crashes in taking off at Port Hope.

LaVerne Brown, whose parents hail from Peterborough, has enlisted at Chicago with the United States Engineers.

Braden Blewett wins the single canoe event at the annual Stoney Lake regatta at Juniper Island.

Police raid Chinese tea shops and seize an opium smoking outfit.

Ordnance Sergt. Wm. Dale of Camp Hancock, Augusta, Ga., is visiting friends in Peterborough.

At the Centre of the Empire

By SYDNEY GRUSON
Canadian Press Staff Writer

LONDON, Aug. 11—(CP).—Londoners take their Shakespeare in the summer as the bard himself meant his works to be played—in the open with the sky the theatre's roof and the trees and shrubs the only backdrop for the stage.

Probably the best-known of London's outdoor theatres is that in Regents Park, a shrub-enclosed auditorium close by the park's famous flower gardens where from May until August Robert Atkins presents Shakespeare to fit any purse. The 2,000-odd seats are priced from one shilling (24 cents) to six.

Atkins, a well-known Shakespearean actor, has been producing at the park for 11 years, occasionally taking a role himself, such as Calaban in "The Tempest," but mostly training his youthful company. It may not be the best Shakespearean acting of his day but there is nothing lacking the company's enthusiasm.

As might be expected the theatre's matinees draw a good share of support from school children, usually organized into large groups accompanied by teachers who find that Shakespeare is easier to teach if the pupils can watch the action that goes along with the words.

This year, too, the Government has given its official blessing to the outdoor theatres as one way to fill up the stay-at-home holidays it advocates to cut down on travel.

On any night the audience is made up in good measure of Frenchmen and women, Spaniards and other Europeans. Eric Blyth, the general manager, accounts for their presence because of the fact they've read Shakespeare in their own languages and they don't need to know English too well to follow the play.

A Bible Message

(From the Authorised Version)

HEAR, O Israel: The Lord our God is one Lord: and thou shalt love the Lord thy God with all thine heart, and with all thy soul, and with all thy might....

Ye shall not go after other gods, of the gods of the people which are round about you....

Ye shall diligently keep the commandments of the Lord your God, and his testimonies, and his statutes, which he hath commanded thee. (Deut. 6: 4, 5, 14, 17.)

◆ ◆ ◆

Oh that I knew where I might find him! that I might come even to his seat.....Behold, I go forward, but he is not there; and backward, but I cannot perceive him....

But he knoweth the way that I take: when he hath tried me, I shall come forth as gold. My foot hath held his steps, his way have I kept, and not declined. Neither have I gone back from the commandment of his lips; I have esteemed the words of his mouth more than my necessary food.

But he is in one mind, and who can turn him? and what his soul desireth, even that he doeth. (Job 23: 3, 8, 10-12.)

SHE WAS SMART

After a long and searching cross-examination the little woman in the witness-box remained quite unperturbed. At last the barrister who had been gruelling her remarked:

"You say you had no education, but you answered all my questions smartly enough."

"Yes, sir," replied the witness, meekly. "But you don't have to be a scholar to answer a lot of silly questions."

Canadian Army Uses Mules In Sicily

Canadian army men use mules not only as a means of transportation for themselves but also to pack supplies and transport wounded. Here some of them ride single file near Agira, Sicily. Radio photo.

Field Crop Prospects Decline During Month Of July

OTTAWA, Aug. 11 (CP).— The Dominion Bureau of Statistics reported today that field crop prospects in Canada declined during July, largely because of setbacks in Saskatchewan and Alberta, where high temperatures, hot winds and insufficient rainfall came at a vulnerable stage of crop development.

The Bureau estimated that Ontario's fall wheat crop will be less than 60 per cent of the 1942 harvest while fall rye production in the four producing Provinces — Ontario and the three Prairie Provinces — will be less than 30 per cent of last year's crop.

The report noted; ""Acreage reduction is an important factor in the smaller out-turn of these fall-sown grains this year, especially in the case of rye."

Spring-sown crops of wheat, oats and barley showed a "numerical condition" at the end of July "about equal to or somewhat better" than the June 30 figure in the Maritime Provinces, Manitoba and British Columbia, but in Quebec the oats and barley crops lost ground while wheat made a small gain during July.

Western Outlook Fades

Conditions at the end of July were "much worse" in Saskatchewan and Alberta than they were a month earlier in all three crops.

Flaxseed prospects declined sharply in Saskatchewan and Alberta where the acreage is substantial, but improved slightly in Manitoba to show a condition figure of 92 per cent of the long-time average yield per acre, which compares "very favorably" with the condition figure of 95 per cent at the end of July, 1942. Some improvement in flaxseed conditions was noted in Ontario, but the crop there is small and the condition figure of 72 per cent on July 31 is "poor" compared with 95 per cent at the same date in 1942.

The Bureau said that comparing the condition of these major crops at the end of July this year with the "brilliant prospects" on July 31, 1942, puts the 1943 crops in "very poor light, but when compared with conditions on the same date in 1941, the outlook in the Prairie Provinces this year is considerably better than it was two years ago."

"The same cannot be said of Ontario and Quebec, however, where the outlook for oats and barley, crops which are grown in substantial volume in these two Provinces, was worse on July 31 this year than it was on the same date in 1941. It should be noted, however, that the condition of forage crops this year is better than it was two years ago in both Ontario and Quebec."

Spring Rye Is Poor

Spring Rye is not a promising crop this year in any of the Provinces where it is grown, except in British Columbia, where the acreage is comparatively small. Potatoes and turnips give "good" promise in British Columbia, where the acreage is comparatibvely small. Potatoes and turnips give "good" promise in the Maritimes and in Manitoba, while they held their condition "fairly well" in Saskatchewan and Alberta during July. Both grops show small gains in British Columbia compared with June 30, but prospects declined in Quebec. In Ontario, little change is shown from the June 30 condition figure.

Hay, clover and pasture showed a better condition on July 31 than at the same date a year ago, despite the "general decline" in crop prospects in Saskatchewan and Alberta during July.

Production of fall wheat in Ontario this year is estimated at 13,823,000 bushels, compared with 23,391,000 bushels harvested in 1942. The acreage on which this year's harvest is estimated is 601,000 acres, compared with 757,000 acres in 1942.

The fall rye crop grown in Ontario and the three Prairie Provinces is estimated at 5,379,000 bushels, compared with 18,201,000 bushels a year ago. Acreage this year is 351,300 acres, compared with 1,013,600 in 1942.

Mess Room Chatter

By ALAN RANDAL
Canadian Press Staff Writer

With the R.C.A.F. Somewhere in Engand, Aug. 11.—(CP).— One of the happiest groups of Canadian air force personnel is in Canadian Bomber Group in Bomber Command. It is composed of the air force girls who came overseas recently to take up their jobs right on the field of operations and help get the Canadian bomber men out on their raids against Germany and help to bring them back.

Most of them are stationed at Bomber Group headquarters and have been spending the last few weeks getting acclimatized, seeing the English countryside and making friends with their co-workers, the British W.A.A.F.'s who are assigned to work with the Canadians and who, eventually, will be replaced by Canadian girls.

A Canadian fighter squadron led by Sqdn. Ldr. W. Blake Woods, D.F.C., of Toronto, has become one of the leading "train-busting" outfits in Fighter Command. It's score is 113 locomotives damaged in four months. This squadron was originally designated as an Army Co-operation Squadron, the first R.C.A.F. unit to arrive in England and now, as a matter of fact, the squadron's primary duties are photographic considerations.

Pace-setting during earlier months of the spring train busting campaign was Flt. Lt. D. M. (Bitsy) Grant of Watrous, Sask. His total soared to 42 engines. On one single sortie he bagged an even dozen and has two Dornier 217s to his credit.

Bitsy has a worthy understudy in FO. Frank Hanton of Kenora, Ont., former professional hockey player with Boston Bruins and Hershey. His total is 35 trains at this writing and he made the amazing kill of 14 locomotives during one sortie which took him deep into France. He has two enemy planes, one a probable and one a destroyed, in his log. F. Art Collins of Renfrew, Ont., knocked off seven trains on one trip with 13 all told and FO. Malcolm Robb marked up six in one day.

Hanton, telling of his big sweep with Grant said, "we really ran into a flock of trains that day and they were all moving too. We had gone a long way inland and were on a main line. One engine blew up completely."

Hanton flies as "weaver" for Grant on these train-busting forays, a continuation of their hockey partnership. They both play on their squadron's hockey team forward line.

But don't get the idea train-busting is a "soft touch." The high speed of their Mustangs is an important factor in giving the pilots the benefit of surprise but they have ack-ack crews on the enemy trains to contend with and the general dangers of flying at tree-top level.

Greets Grandma

There's plenty of enthusiasm in the hug Private Joe Gallo, of Poughkeepsie, N.Y., is bestowing on this aged Sicilian lady. The reason? she's Joe's grandma. Pte. Gallo's parents were married in Gela, Sicily, after his dad had served with the A.E.F. in World War I. Gallo's parents returned to America where young Joe was born. Came World War II. and he meets his grandma just like this.

Bethany News

Miss Rhonda Price and Mrs. H. Pierce of Niagara Falls, Ontario, have spent the past week visiting in Bancroft at the home of the former's parents, Mr. and Mrs. H. M. Price.

Mr. and Mrs. James Simpson, of Timmins, are holidaying at the home of Mr. and Mrs. George Bowen of Baptiste, and also friends in Bancroft.

David Joynt and Elmer Churcher, and Earl Bentley, of the R.C.A.F., and Army are home on week-end leaves.

Mr. Frank Thomson of Capreol, arrived in town Thursday evening and is visiting with relatives in town.

Mr. and Mrs. E. L. Stears. Mr. and Mrs. P. Whitehead and John Stears left Sunday for their home in Toronto, having spent the past three weeks camping at Trout Lake.

Mr. and Mrs. Archie Raie and Glennie returned to their home in Toronto, having spent the past month vacationing at the latter's parents' cottage on Trout Lake.

Mrs. Wilfred Maxwell, accompanied by her two sons Gordon and Norman, spent several days in Toronto this week.

Mrs. Ellen McLeod returned home to Toronto this week, having spent her holidays visiting with relatives and friends in Bancroft.

Mr. William Broad motored to Belleville Saturday evening and on his return he was accompanied by his son Alec of the R.C.A.F., who spent the week-end with his parents in town.

Mr. William Gaebel returned home from Belleville hospital on Friday, where he has been receiving medical attention.

Mr. and Mrs. Cecil Wiggins, of Belleville, arrived in town Saturday evening to spend a week's vacation with relatives in Bancroft and Baptiste.

Mr. Jack McAlpine of Toronto, returned home Thursday, having spent his vacation with relatives in town.

Miss Marie McAlpine of Toronto, is holidaying as guest of her grandmother, Mrs. E. Kennedy, of town.

Mr. and Mrs. R. W. Blatherwick and Bobbie motored to Belleville this week, accompanied by the former's mother, Mrs. S. Blatherwick, who entrained for her home in Rockwood, having spent the past month visiting at the home of her son in Bancroft.

Miss Sarah Plumley, who has been under the doctor's care for some time, was motored to Peterborough this week where she underwent observations at the Clinic.

Miss Mitchell of Niagara Falls, Ontario, is visiting with her nephew Mr. Norman Mitchell of Bancroft.

Miss Ruby Daly of Ottawa, is renewing acquaintances with friends in town.

"A" Company of the 2nd (R) Battalion of the Hastings and Prince Edward Regiment, Bancroft, returned home this week from Connaught by motor convoy with the exception of officers, who remained in camp. Most of the boys were allowed to return earlier this year because of their desire to exercise their franchise in the recent provincial election. While at camp the boys had a real outing and enjoyed every minute of their time. Most of the syllabus called for range work and these northern boys were keen on rifle and Bren firing.

Miss Joan Wiggins is holidaying in Kingston with relatives.

Mr. and Mrs. Harold McKinley returned home on Friday, after spending a week with their mother, Mrs. J. McKinley and other friends.

Mr. and Miss Nellie Stark, with their guests, Mrs. Purvis and granddaughter, Mary Ferguson, were Sunday guests of Mr. and Mrs. Colville, Centrelville.

Mrs. Clarke of Toronto, spent the week-end guest of her brother, Mr. Roy Jarvis and Mrs. Jarvis, Front street.

Mrs. Purvis of Cannington, with her granddaughter, Mary Ferguson, has returned to her home.

Mr. and Mrs. Clarence Buller. of Brantford, were week-end guests of Mrs. Clara Armstrong and Miss Emma Reynolds.

Miss Alice Smith, of Townsend street, Peterborough, spent the week-end with her grandparents, Mr. and Mrs. Chas. Smith of Glengarry Road.

Rev. Mr. Mason and Mrs. Mason were leaving this morning for a ten day vacation at Caesarea.

Miss Annie Benson of Pleasant Point, is the guest of her cousins this week, viz., the Misses Thompson.

BRIDLE MAID

MARY HOLLIDAY'S been riding horseback since she was three . . . teaches in her own riding school at Scarboro, Ontario. "Women are harder to teach than men," she says. But *not* about Kellogg's Corn Flakes, Mary! In independent surveys, 4 out of 5 housewives vote Kellogg's Corn Flakes *first* for flavour. "Yes, I often have a bowl after my afternoon ride," says Mary. "They're delicious!" Economical, too. Get some tomorrow.

Do What Your Doctor Does If Child Is Listless

Because the tongue is the upper end of the stomach and bowels, it is usually the first thing a doctor looks at when he examines a sick child. He knows that a coated tongue and bad breath is a danger signal —a warning of an upset condition below, which may lead to real illness.

Don't you take chances — look at your child's tongue and check the breath every day! And at the first sign of bad odor on the breath or a coated tongue, give Children's Own Tablets. Small, pleasant-tasting tablets made especially for youngsters from runabout age to 15 years, they are wonderfully effective in helping to clean out harmful wastes and sweeten sour, upset stomachs. No drastic weakening flush-out action like many old-fashioned laxatives have.

Get a package of Children's Own Tablets —only 25¢—today from your druggist. Made by the makers of Baby's Own Tablets—your guarantee of a reliable product.

SUMMER SAUCE

Here's the grandest sauce for Ice Cream or Fresh Cake—easy to make, too:

Blend together 1 teaspoon corn starch, ¼ teaspoon salt and ¼ cup white sugar. Add 4 tablespoons lemon juice and 1 egg well beaten. Cook over boiling water till smooth and clear (about 10 minutes). In the meantime chill 1 3-oz. package of plain cream cheese and 1 cup of 18% cream. Beat with the dover beater until it is like whipped cream. When light and fluffy, fold into the chilled lemon mixture. Spoon over ice cream or plain cake.

Note: it's good enough without the ice cream or cake, just served cold with crackers.

FEATURES "FAMILY REMEDIES"

Change—The order of the day in this rapidly moving world of ours. The last generation has seen without doubt more new ideas than in any like period in the world history. The Science of Medicine, too, has not been lagging and has also produced innumerable new methods and products for the alleviation of Disease and Pain. Throughout this period, however, the so-called "Family Remedies" have maintained their position in their particular field. Today with so many of the members of the medical Profession in the Armed Forces, and the attendant extra strain upon those left to minister to our Civilian needs, the value of the "Family Remedy" assumes extra importance. Your Tamblyn Drug Store has at all times carried a most complete stock of these preparations, and this week is featuring a number of the more prominent and time tested. May we suggest that these products be kept in mind in cases of "minor emergency," and we also suggest that the Household Medicine Chest be kept stocked against just such emergencies. Following this, and in order to facilitate their acquisition and in furtherance of the idea of Preparedness, a representative assortment of these items has been included in this list of

FIRST CITY LEAGUE PLAY-OFF ENDS IN TIE, DARKNESS STOPS GAME

Giants Defeat Tigers 13-4 In Fast Game

The Giants defeated Tigers 13-4 at the Quaker diamond on Tuesday. The Giants were too strong a team in all departments for the league leading Tigers. Backed by brilliant pitching by Bud Guerin, the Tigers were never in trouble. The big hitter was Plumpton, with a perfect night at bat, having five for five, a homer, triple and two doubles accounting for eight of the winning runs. George Sullivan, O'Heron, and Ray Fitzgerald had 3 for 5.

Murphy, for the losers, pitched good ball, but his teammates could not connect often enough with the offerings of the winning pitcher.

Daly and Sheehy each had two hits, and Leahy with a long homer were the best hitters for the Tigers.

The teams:

Giants—Sullivan ss, O'Heron 1b, R. Fitzgerald c, Bill Sullivan 3b, B. O'Rourke rf, Plumpton lf, Guerin p, Hefernan 2b, M. Donoghue cf.

Tigers — Murphy p, Sullivan ss, Conroy 3b, Daly 1b, J. Russell 2b, R. Spencer rf, Sheehy c, Leahy cf, Hickey lf.

Yesterday's Stars

By The Associated Press.

George McQuinn and Chet Laabs, Browns—Each hit two-run homer to lead attack on Yankees.

Edgar Smith, White Sox—Pitched six-hit victory over Red Sox.

Gold Not Forfeit

OTTAWA, Aug. 11.— (CP).—Mr. Justice J. T. Thorson, president of the Exchequer Court of Canada, dismissed yesterday an action by the Crown against Lloyd Cameron Williams of Fort Erie, Ont., to have Williams forfeit to the Crown a quantity of fine gold which he had attempted to export to the United States without a license.

Ecclestone Hurls No-Hit, No-Run Tilt

TORONTO, Aug. 11—The first no-hit, no-run game of the War Industries Major Softball League season was served up at Acorn Park last night by big Cam Ecclestone as Research Colonels blanked Toronto Shipbuilders, 6-0. Ekky retired the side in order in six of the seven innings and claimed 15 on strikes. He walked only one batter, Johnny Adams, who was the only Shipbuilder to reach the base paths and he was left stranded on the initial sack. Even more remarkable was the fact that not a ball was hit to the Colonels' outfield.

LAWN BOWLING

Up until 9:45 last evening R. Payne's rink was leading Group No. 1, in the men's schedule and was fighting hard to hold his one-game advantage, but when B. Chesler's quartette pulled the rabbit out of the hat on the 16th end and scored a great big seven, it not only won the game for his rink but it put four other teams right back in the running for the group honors.

As it now stands B. Chesler, R. Payne, T. McMillan, G. Coleman and E. Wall are tied with 11 wins and 4 losses, and as each have two games yet to play, you can see what a nice finish it is going to be.

We're still betting on the dark horse.

The ladies started off yesterday afternoon and evening, with the skips and vices and the leads and seconds competitions. There was some mighty good bowling and it was rather unfortunate that the greens were so heavy. This of course was due to the heavy rainfall of yesterday and last night.

How about your entry for the twilight doubles on Friday night?

Already one dozen pairs are entered. Remember 32 pairs is the limit.

Here's one for you to figure out: In what contest must players play in their chosen position? Answer in a day or two.

Men's Scores

R. Payne 17, B. Chesler 21
J. Cullen 14, R. Dyer 24
N. Routley 19, W. Jeffries 27
H. Freeman 16, C. Renaud 17
G. Gimblett 13, R. Burns 16
R. Downey 17, Dr. Fulford 24

Ladies' Games

Skips and Vices competition
Miss Allan won from Mrs. Dyer
Mrs. Bearne won from Mrs. Beatty
Mrs. Yeotes won from Mrs. Greenslade
Mrs. Arnold won from Mrs. Martin

Leads and Seconds competition:
Mrs. Reid won from Mrs. McWilliams
Mrs. Riley won from Mrs. French

Beautiful Throw By Stewart Nips Winning Counter

A perfect throw to the plate by Centre Fielder Joe Stewart of the 4th Battery in the eighth frame, cutting off Manager Harry Morgan of the Soldiers as he endeavored to carry the winning run in from third prevented the Military Training Centre outfit from grabbing off the first game in their best-of-five City League playoff series with the Gunners at Riverside Park Tuesday night. The score was tied 6-6 at the time and the game was called for darkness immediately after the play.

Stewart's clothe-line toss also precipitated a strenuous protest from the Soldiers who claimed although the ball beat Morgan to the plate as he tried to score after Stewart grabbed off a drive from the bat of Tony McIlveen, Morgan had slid under Catcher Eddie Starr and had not been tagged on the play. Umpire Bob Batley did not see it that way and of course his decision that the Soldier pilot was out stood.

It was an exciting ball game all the way, with some sparkling fielding mixed up with some loose defensive play, lots of customers on the bases and both clubs having frequent scoring opportunities.

The Military Training Centre club got off to a great start with three runs in the opening frame but the Battery came back with five in the second, the scoring surge being topped by a long homer by Billy Jones with two mates on the runways. The Soldiers got a single counter in the last of the second to make it 5 to 4. Battery went ahead 6 to 4 in the fourth. Soldiers retaliated with one in their half of the same frame and tied it all up with another marker in the sixth.

Dave Wilson for the Battery and Johnnie Walker for the Camp club went the route and although both had difficulty in keeping the opposition off the cushions they tightened up considerably with runners in scoring position.

The Fielding Gems

Stewart's million dollar toss to the plate was the fielding gem of the night but Huck Herrick shone with a beautiful running grab of a hard hit drive in right field, Morgan dashed back to make a fine catch of a looper into short right and Howie Dalton saved a lot of trouble by a diving stop of a hard-hit ball over third base, cutting Joe Stewart out of a double and Battery out of a couple of runs.

Soldiers scored three times in the last of the first. With Dalton out Morgan walked. McKerrigan hit what looked like a double play ball to Jones but it got away from the shortstop. Tony McIlveen shot a double over third that just barely lit fair and Morgan and McKerrigan went home on the rap. McIlveen also scored when Burton threw high to the plate. Parsons singled to right and Mason beat out a slow tap but Herrick forced Parsons at third and Sandulak was tossed out by Wilson.

An error by Harry Morgan was decidedly costly in the Battery half of the second. After Stewart and Ellis had popped weakly to the first baseman, Honey Tompkins and Bob Crowe drew passes and Wilson bunted safely to fill the bases. Tompkins and Crowe scored on the miscue. The error set the stage for Billy Jones and the youngster promptly drove a long homer to deep right centre, scoring Wilson and Heal in front for him. Burton singled to short and Starr bunted safely but Dalton dived at Stewart's hard rap to third, forcing Burton at that bag.

Soldiers came back with three hits but only one run. Walker started with a single through short and Dalton singled to centre. A wild pitch advanced the runners. Morgan singled to left scoring Walker but Dalton was out at the plate on a fine throw by Les Burton when he also tried to score on the play. McKerrigan popped to Tompkins and McIlveen lined to Crowe in right.

Battery got their last run in the fourth. With one out Jones hit safely to short centre and stretched it into a triple by daring base-running. Burton popped to Morgan but Eddie Starr dropped a double into left centre to score Jones. Stewart popped for the third out.

(Continued on Page 12)

SPORTS — DAY BY DAY

By FRED D. CRAIG

It is to be imagined that down around the C.G.E. Genelco plant the last few days one of the leading topics of conversation has been the City Softball semi-final series between the Switchgear and Genelecs ball clubs which opens tonight at Riverside Park. With both clubs employed in the big south-end industry, there is plenty of rivalry between the two outfits and the series, in spite of the fact that the Genelecs finished at the top of the heap and Switchgear just go in under the wire in the fourth slot, should produce a lot of excitement. Tonight's start has been called for 6.45 o'clock, in order to make sure there is plenty of good light to get in a full game. Both clubs are supremely confident. The outfit managed by Murph Chambers are counting a lot on the fact that they have registered a neat win over the Genelecs earlier in the season, a feat that very few clubs have succeeded in doing. On the contrary, Manager Ted Johnston's Genelecs merely laugh that off with the statement that there is little chance of the stunt being repeated. It will be Harrison or Reynolds for Swichgear and likely Ron Akers for the league leaders.

* * * * * *

Soldiers and 4th Battery had a typical playoff game in their City League semi-final series at Riverside Park Tuesday night, winding up in a 6-6 tie after an exciting game that had to be called on account of darkness at the end of the eighth inning. It was anybody's ball game, and the climax was a bullet throw home from centre field by Joe Stewart of the Battery, cutting off Manager Harry Morgan at the plate when the Soldiers' pilot tried to score after the centrefielder had grabbed a drive from the bat of Tony McIlveen. That play came in the last of the eighth and the toss killed the winning run. It was a beautiful throw by Stewart, reaching the plate well ahead of Morgan, although the soldiers claim that in spite of that fact the runner slid in untagged. Umpire Bob Batley took quite a panning after the game, mostly from folk who were too far away from the play to know whether the decision was correct or not. Most certainly the ball was in there first, and Starr made a play on the runner. Batley was on top of the whole thing, and in a much better position to see what happened than the customers who rode him afterward.

* * * * * *

The argument over that play and the exciting nature of the game throughout should ensure a record crowd when the two clubs meet for the second game of the series at Riverside Park tomorrow night. Incidentally the league officials have decided that 7 o'clock is too late a starting hour and so the Switchgear and Genelecs fixture tonight, the Soldier-Battery battle tomorrow night and all other playoffs until further notice will be called for 6.45 o'clock to permit of proper light for a full game. The two teams have staged three well-played battles this season, and now that they have started off the playoffs with a drawn battle, the next meeting of the two rivals should prove one of the most interesting arguments of the season. Manager Morgan will probably use Jack Wilson as his pitching selection for this important fixture, while the Battery may come right back with Dave Wilson or send Bob Crowe or Ted Naish in against the Soldiers. The interest in the playoffs has been materially strengthened by last night's game and the fans will be out in droves for the Thursday night argument. Remember the starting hour is 6.45 o'clock, and players and officials are warned to be on hand in ample time to get the game away at the advertised hour.

* * * * * *

Gave Him The Works

Peterborough wrestling fans would certainly have liked to have been down at Ottawa the other night when their pet peeve, Al Bunny Dunlop, really got the works. It seems that as a novelty a team bout was staged as the big feature of the weekly show. Whipper Billy Watson and Tear Morgan, the battling Marine, teamed up against the Red Shadow and Dunlop, the four big fellows engaging in a battle royal. Here is how the Ottawa Journal describes what happened: "This return team match was even more exciting than the first one a week ago when Dunlop and the "Shadow" won out. On Saturday night while the fans howled for minutes at a stretch, Watson and Morgan proceeded to give Dunlop and the "Shadow" what is more commonly known in the ring as "the works". They hit them with practically everything, and if there would have been a bucket handy they would have used that. They fought in and out of the ring, but at all times Watson and Morgan handed out nearly all of the punishment. The only fall came after the "Shadow" had been kicked out of the rink. While the unknown grappler tried to pick himself up off the floor Morgan and Watson went to work on Dunlop. Morgan clamped on a full nelson hold on Dunlop and Watson belted Dunlop with a couple of drop-kicks.

* * * * * *

"When Dunlop crumpled to the canvas," continues the story, "Watson followed it up to pin the "Shadow's" teammate with a body press. The time was 13 minutes and 51 seconds. Dunlop apparently didn't like the way the "Shadow" had left him in the lurch to face Watson and Morgan, and as Watson and his teammate left the ring, Dunlop became involved in an argument with the "Shadow," claiming in a loud voice that he had staged a "run out" on him. They started to punch one another around and it threatened to develop into a honey of a scrap until Referee Phil Lawson broke it up."

* * * * * *

There was a meagre menu in the big leagues yesterday, with only two American League battles to prevent the day from being a complete loss. In one of them the St. Louis Browns, in spite of the fact that Verne Stephens was out of the game, over-powered the New York Yanks to win an easy 10 to 2 victory. George McQuinn slapped his seventh homer of the season and Chet Laabs came through with his thirteenth, and in both cases there was a Brownie parked on the bases when the circuit clout was blasted. Galehouse pitched effective ball for the winners, while the loss was absorbed by Hank Borowy. In the other American League fixture Chicago White Sox came from behind to beat Boston 4 to 2. The Red Sox picked up an early lead of two runs, but Chicago kept hammering along until finally a three-run rally in the sixth gave them the lead and the ball game....Edgar Smith came up with a six-hitter for the winners, and would have had a shutout with perfect support, errors by Luke Appling and Wally Moses accounting for the only two Boston runs.

* * * * * *

Sporting Chile Con Carne: Billy Jones' hitting was responsible for keeping the 4th Battery in last night's ball game. He blasted a homer with two on in the second and later came through with a triple that blossomed into a run....Soldiers had two men cut off at the plate and another trapped between third and home....Brintons and Johnson Motors are billed to play a girls' softball game at the East City Bowl tonight.... It is a regular league fixture....Taylor, who has caught for the Military Training Centre all season, has been moved out of the local camp, and Tony McIlveen is doing the backstopping, but well, too....Last night's playoff argument started off like a real scoring bee with nine runs scored in the first two innings....Walker and Wilson put the brakes on after that, however, and there were only three more markers for the rest of the tussle....The diamond was still slippery from Monday night's rain, and that condition accounted for some of the loose ball played....Toronto keeps right on building up a lead....The Leafs came through with a double win over the Jersey City club last night, winning 8 to 2 and 4 to 1 ....Tom Ananicz and old Luke Hamlin were the victorious Leaf hurlers.... It was Hamlin's 16th win of the season, and he looks a cinch to hit the coveted 20-win mark.

McIntyre Loses

NEW YORK—(AP).—Sal Bartolo, preparing for his bout with Bobby Ruffin here August 20, outpointed Bobby McIntyre, 134¾, Detroit, in an eight-round main go here last night.

Sails After 17 Years

HALIFAX, Aug. 11.—(CP).—Buried under eight feet of mud in Bedford Basin for the past 17 years, the 135-foot lightship Red Island, was raised yesterday to be re-conditioned and put back into service.

25,000 Race Fans Expected At Hambletonian Today

By SID FEDER
Associated Press Sport Writer.

NEW YORK, Aug. 11 — (AP). — The corn-tassel derby comes to town to-day for the first time in its 18-year history, and the chances are one of Volomite's fancy-stepping sons will wind up as the city slicker of this wartime-transplanted Hambletonian.

As a matter of fact, it looks like a Volomite family re-union for this edition of the trotting horse world series, which the war's transportation troubles forced out of Goshen, N.Y., and dropped on to Empire City's racing strip, where the gallopers have seen the whole show for more than a quarter of a century.

Not only are the three "favorites" in the field of 12—Volo Song, Worthy Boy, and Phonograph—all sons of the sturdy 1929 stepper who has become one of the sport's great sires, but four others of the dozen three-year-olds also call him "papa."

The buggy-whip wizards in the crowd of 26,000 expected to sit in on the Hambletonian's first showing in the New York neighborhood gave all except the top three a brush-off. And of the trio, Volo Song, two-year-old champ of 1942, unbeaten this year and a probable 3-2 betting chore, was Mr. Big. Bought for 5,000, he figured to make it two straight for Owner Bill Strang, the Brooklyn warehouseman, and to become the fourth winner 70-year-old Ben White would drive to the paying teller's window. Strang and White hit the jackpot with the Amdassador a year ago and before that Ben did the steering for Rosalind in '36 and Mary Reynolds in '33.

Volo has dropped a heat a-piece this summer to Worthy Boy, from the barn of Mrs. James B. Johnson of Rochester, Mich., and Phonograph, a $7,000 yearling buy owned by Joe Burke of Plainfield, N.J. Because of this, as well as the fact that Phonogarph has a 2:02¾-mile to his credit and Worthy Boy has run a 2:03 effort, these two are rated the leading magicians to pull a rabbit out of the hat — provided anything is going to beat Volo to the $28,263 purse waiting for the one who can come home first in two of the three-mile heats which get under way at 3:15 p.m. E.D.T. Phonograph will be handled by Tom Berry, who won in 1930, and Sep Palin who piloted the great Greyhound in 1935, will be in the "cradle" behind Worthy Boy.

BROWNS PUT CRIMP IN YANKEES' STYLE TAKING 10 TO 2 VICTORY

Buffalo-Newark Split; Leafs Win Two

By The Associated Press

There have been times this season when Gabby Hartnett's red face has been even redder than usual.

His International League Jersey City Giants have been in the cellar most of the year and right now they have a record of 45 victories and 68 defeats by virtue of a tiny rally during the last month.

However, the Little Giants lost a twin bill to Toronto last night and Hartnett will be more than eager to get a look at the $10,000 Passaic, N.J. High School shortstop, Dick Lajeski.

The youngster, who still has a year to go in High School, is rated an outstanding fielder and his .490 prep school batting average includes numerous extra-base blows.

Hits of any kind would have helped the Jerseys yesterday. They got only five in the opening defeat off Tom Ananicz, who stifled them, 8-2. They hammered Luke Hamlin for seven in the nightcap but lost, 4-1. Lee Gamble was the batting hero for the winners.

Orioles Take 2

Baltimore also won two games, turning the trick by invading Montreal while Buffalo and Newark shared their bargain attraction and Rochester scored three runs in the ninth inning to trim Syracuse, 5-4.

Jack Tising blanked the Bears, 1-0, in the first game but the Newark nine exploded for seven runs in the third inning of the afterpiece to run off with a 10-3 triumph. Joe Page, who hurled for Newark, also blasted out three of the 16 safeties.

Steve Gromek bested Lloyd Dietz, late of the National League, 2-1, in the first Baltimore-Montreal game and the second game was decided when Bob Chipman of the Royals weakened in the eighth and permitted three hits, issued a walk and saw the Orioles helped along by an error. The combination meant four runs and Baltimore finally won out, 5-1.

Savold Warms Up For Nova

Even the fast lens of the camera can't stop the flying fists of Lee Savold as he gets into shape in Chicago for his coming 10-round heavyweight bout with Lou Nova in the Windy City.

Hail Yankee Maid

NEW YORK — (AP). — Yankee Maid, half-sister to the famous greyhound owned by A. L. Derby of Wichita, Kas., stamped herself as a favorite for next year's Hambletonian yesterday when she won the Arthur S. Tompkins Memorial Trophy to split honors with Bowman Brown's probationer of Harrisburg, Pa., as the grand circuit opened a three-day stand at Empire City.

Signs 1944 Contract

PHILADELPHIA — (AP). — Fred Fitzsimmons, Buck Harris' successor as manager of the Philadelphia Phillies, has signed a 1944 contract, Phillies' president William D. Cox announced yesterday. Coach Chuck Klein also has signed for next season.

Canadian Sport Snapshots

By CHARLES EDWARDS
Canadian Press Staff Writer

TORONTO, Aug. 11—(CP)—Those highland Scots of Cape Breton take their boxing seriously and before the war they produced many a grand scrapper. Many of these now are in the armed forces and one is Johnny Nemis of New Waterford, newly appointed boxing instructor for army ringmen in the Halifax area. Johnny started in the ring in 1920 and won the Maritimes welterweight and middleweight titles before he retired in 1939 after 278 professional fights. Nemis studied boxing and physical culture under Philadelphia Jack O'Brien, Jimmy De Forrest and Sam Langford, the old Boston tar-baby who himself came from Nova Scotia—at Weymouth.

The Sport Chute:

Rann Matthison of the Vancouver News-Herald, a former star at basketball and lacrosse, thinks the day of the all-round athlete is past because of the trend toward specialization. He recalls Hop Wilkie of New Westminster played on Canadian championship teams in three different sports, basketball, lacrosse and soccer, and says he doesn't think that record will ever be equalled.

Incidentally:

Chances are better now that New Westminster Salmonbellies will show up in the national lacrosse final again this year. Salmonbellies, leading the British Columbia Intercity League, have induced the veterans Ed Downey and Pete Meehan to turn out for the final drive...Apparently that spring enthusiasm for a Montreal return to big-time football has waned. Baz O'Meara of the Montreal Star says "it doesn't look as though we will have better than intermediate rugby around here this fall."...Eddie Gillis, coach of the Army team in the Halifax senior baseball league, has been discharged from the service. A medical examination showed Eddie had suffered a fractured pelvis in a Cape Breton mine accident in 1938. He was one of the Maritimes' best-known athletes.

Athletes At War:

Don Willson of Grillia, Ont., has won his wing as an air gunner, first member of last season's Toronto R.C.A.F. hockey team to graduate into air crew....Vancouver has always produced a good share of Canada's best tennis talent. A couple of years ago two of the best in prospect at the coast were Wally and Gordon Walker. Both are now in the R.C.A.F. Wally has been commissioned as an air gunner and Gordon is training as a navigator.

Sports Spice

By SID FEDER
Associated Press Sports Writer

NEW YORK, Aug. 11. —(AP).— Six sons and a daughter of Volomite are in the Hambletonian field of 12 to-day....Would you say Volo might?...Okay, we were just asking ....Zeke (the banana man) Bonura is handling the Army's baseball in North Africa....And Johnny Goodman has been decked out in his G.I.'s at Fort Crook, Neb.....The tip is out that George P. (Wetwash) Marshall is trying to trade his Washington Redskins' holdout, Anvil Andy Farkas, to New York Giants for Tuffy Leemans—even up ....How about throwing in three shirts, damp-dry, George? .. ....

Dis-a and Dat-a

S'pose you noticed where to-day's big league schedule has games starting at 10.30 a.m. and 12.30, 1.30, 2.30, 3.30, 5.30, 5.45, 8.20 and 9.30 p.m.....And what time does the midnight train leave?....Next step probably is a time table with "X-runs Sundays and alternate blue Mondays."....That'd be for the Athletics, naturally....Pat Purcell of the Minneapolis Times notes it is unlawful out that-a-way to use narcotics while hunting deer.... And inquiries when is it legal?

To-day's Guest Star.

Dick Freeman, Hoston Chronicle: "The woes of a wartime coach are many and varied. Jess Neely at Rice expected to look over some 90 youths in the summer football practice session last Thursday. The number was cut down with no notice. The reason? It was pay-day for the naval trainees stationed at Rice, and if you think they are going to abandon the line in front of the pay-window to practice football, you don't know youths"....(or old guys, either, Dick).

Remember When—

By The Canadian Press

Jimmy Braddock lost a 10-round decision to Babe Hunt, Ponca City boxer, 13 years ago tonight at Boston. Braddock defeated Max Baer for the world's heavyweight boxing crown in 1935 and lost the title to Joe Louis, June 22, 1937.

INTERNATIONAL LAW

LONDON — (CP). — Sir Cecil Hurst, president of the Permanent Court of International Justice, British Member of the United Nations Commission for the investigation of War Crimes, has declared: "After this war there must be introduced some effective machinery for supporting the vigor of law."

White Sox Beat Boston 4-2 Breaking Tie

By JUDSON BAILEY
Associated Press Sport Writer

New York Yankees, when they were better known as the Bronx Bombers and Murderers' Row, used to sweep through the parks of their opponents as though they were at home.

But this year the American League leaders are having a lot of difficulty trying to keep from getting lost every time they start away from the subway circuit.

On their first western trip they dropped six or seven games. On their next time around they lost four of their five games and might have come home in disgrace except for the feat of capturing two doubleheaders in two days at Chicago at the end of the trip.

The Yanks started their last swing on the western circuit yesterday again on the wrong foot—collapsing 10-2 before St. Louis Browns.

Hank Borowy started on the mound against the Browns, gave up a pair of two-run homers to George McQuinn and Chet Laabs in the first four innings and finally was shelled to the showers by a four-run rally in the fifth.

Altogether the Browns made 13 hits, including three by Mark Christman. who was at shortstop because Vernon Stephens has a lame ankle and a weak bat.

The Yanks not only lost the ball game, but also Joe Gordon, temporarily. The star second sacker strained his back making a force-play in the first inning and in the fifth retired from the game.

In yesterday's only other major league game Chicago White Sox beat Boston Red Sox 4-2 at night to break their third-place tie with Detroit. Lefty Edgar Smith pitched six-hit ball and both runs off him were unearned.

Eleven games are on the schedule to-day, giving baseball a continuous program from morning until late at night.

4 Rinks Battle For Eaton Trophy

TORONTO, Aug. 11—Four rinks were left in the running for the Eaton Gold Trophy last night following the playing of the fourth round of the competition in the Provincial Lawn Bowling Tournament. In a closely matched play, N. Robinson of West Toronto beat out W. Hogarth of St. Matthew 21-20 with an extra end required to settle the game.

Capt. A. Semple of Runnymede turned back E. W. McMurray of London Elmwoods 18-9, but J. Smith's Elmwood rink upset L. Wood of Ottawa 16-9 to gain a spot in the semi-final. J. Dougheny of Withrow eliminated N. H. Richardson of High Park 21-7.

At the afternoon session, the play for the Henry Trophy entered the third round and the first round of the Ontario Trophy was played.

ENGLISH EARL PASSES

The Earl of Moray, Lord Lieut. of Morayshire, died at Darnaway Castle the day before his 51st birthday. A brother, resident in South Africa, inherits the title.

Lawn Bowlers Compete For Eaton Cup

TORONTO, Aug. 11 — (CP). — Competition became keener at the Ontario provincial lawn bowling tournament late on Monday as the play for the Eaton Gold Trophy moved into the second round and Henry Trophy play entered the first round.

E. W. McMurray of the London Elmwoods overcame stiff opposition from A. Lees of the American Lawn Bowling Association to advance into the third round in one of the highlights of the day's play.

Results included:

Eaton Gold Trophy.

Second round—
Boulevard Club:
M. Booth, Cobourg 7, D. E. Klein, Buffalo 15.
A. Lees, American Lawn Bowling Association 9, E. V. Murray, London 13.
R. Auld, Niagara Falls, N.Y., 30, W. O. Livingstone, Cannington 4.
W. Hogarth, St. Matthews 17, Lt. J. Little, Kingston 13,
Dr. W. Krupp, Woodstock 16, L. E. Rogers, Lindsay 6.
J. Smith, London Elmwoods 16, F. Barnett, Runnymede 15.

Order Deters Young People From Teaching

SAINT JOHN, N.B., Aug. 11 — The "freezing" of teachers in their profession "will deter young people from entering a vocation from which there is no escape," R. E. Shaul of Edmonton, Alta., said yesterday at the opening session of the annual meeting of the Canadian Teachers' Federation.

Mr. Shaul, president of the Federation, said that the Dominion Government's action in freezing the teachers in their jobs would "have the opposite of desired results. "The freezing of the teachers who remain at the present time is pretty much the same as locking the barn door after the horses have been stolen."

The freezing order, he said, indicated that teachers were not to be discriminated against. "This being the case," he said, "it should naturally follow that the Government will have to see to it that salaries within teaching profession compare favorably with wages and salaries in other essential war work. It lies with the Canadian Teachers' Federation to make the Dominion Government realize this."

OPTIMISTIC

The Royal Norwegian Government information office in London hears that optimism is so high in Oslo now that the people there greet each other with: "Good Invasion!"

Canadian Pilot Tells Of Success

Pilot Officer Bryan Quinlan, LEFT, does his washing while telling two war correspondents how he destroyed a 6,000-ton enemy merchant vessel in the Mediterranean while flying a Wellington bomber.

Celestial Show Visible At Night

NEW YORK, Aug. 11 — (AP).— This is the week of the midsummer meteors, the Perseids, which for 1,112 years straight have been seen in the northeast sky each summer.

The nights to look are tonight to Thursday. The largest numbers should be seen Wednesday night, and the best time is after midnight after the moon has set.

The meteors are small, swift, travelling at more than 40 miles a second at about 60 miles above the earth.

They are party of a vast river of meteors, whose orbit is between 2,000,000,000 and 3,000,000,000 miles long. That takes them thousands of times farther away from the sun than the earth at its greatest distance.

Each midsummer the earth cuts through the stream in August. The width of the stream has been variously estimated at from a few millions to 15,000,000 miles.

has the Real Chocolate Flavour

Holstein Cow Sets Up All-Time Record

BRANTFORD, Aug. 11. — Susie Korndyke Fayne Lass, a pure-bred Holstein owned by the Eaton Hall Farm, King, has set a new Canadian record for lifetime production of milk over all breeds and regardless of times milked daily, the head office of Holstein-Friesion Association of Canada announced here yesterday. The previous Canadian champion, and still world champion for butterfat, is Springbank Snow Countess, owned by T. R. Dent, Woodstock, with 9,062 pounds of butterfat from 207,050 pounds of milk in ten lactations. The Countess' image in bronze stands alongside No. 2 Highway near Woodstock.

But Susie Korndyke Lass has deposed her as milk queen. In eight lactations an official record of performance test supervised by the Federal Department of Agriculture Susie has produced a total of 206,744 pounds of milk containing 6,879 pounds of butterfat. Snow Countess still retains her butterfat title by a large margin.

Milked Thrice Daily.

Susie Korndyke Fayne Lass has been milked three times daily during all but her first yearly test period, when she was milked twice daily. For seven consecutive years, "this grand old cow has had an average yearly production of 915 pounds of butterfat and 27,875 pounds of milk," the head office here reported.

She has given enough milk to supply any Canadian family with two quarts of milk daily for 114 years or two pounds of butter weekly for 82 years.

In addition to her lifetime championship, Susie holds numerous other Canadian production records. She is the champion for both milk and butterfat for five, six, seven, and eight lactations on three-times-a-day milking.

Her latest yearly record of 924 pounds of butterfat from 28,227 pounds of milk, made as a 12-year-old, has been beaten only once in Caanda by a cow of that age or older.

Bowmanville Product.

Christopher Cox's herd, Bowmanville, produced her and Cox sold her to Eaton Hall Farm when she was four years old, and she has made all but one of her yearly tests there. She is due to calve again shortly, and as she is in excellent health, should be good for another record, cattle experts state.

She is the dam of Eaton Hall Fayne Chieftain, all-Canadian and reserve all-American three-year-old bull ofr 1942. Archie Muir, of Courtice, and Eaton Hall Farm own the Chieftain jointly.

MORE ABOUT—

Churchill-King

Continued from Page 1

evening the Canadian Prime Minister dined with Mr. and Mrs. Churchill and during the evening the two prime ministers discussed war topics.

A press statement from Mr. King's temporary office here last night reported that "Mr. Churchill expressed his delight at being back in Canada and spoke particularly of the Canadian participation in the Sicilian campaign."

An earlier announcement said Mr. Churchill "after his discussion with the Canadian Prime Minister will attend a conference with President Roosevelt and the combined chiefs of staff of the United States and the United Kingdom," but there was no indication where it will be held or when.

Most members of the Canadian cabinet war committee are in Quebec, including Defence Minister Ralston, Air Minister Power, Navy Minister Macdonald and Munitions Minister Howe. They held a short meeting here yesterday—probably the first time the committee has met outside Ottawa since the war started.

Closely Guarded

Quebec has been agog for a week while elaborate preparations went ahead for the momentous conferences here. Guests were turned out of the Chateau Frontenac, on the crown of Cape Diamond, the site of the old palace of governors of the French regime.

Newspaper correspondents were housed in the nearby Clarendon Hotel but military guards kept them away from the Chateau and the Citadel.

There was no public welcome for Mr. Churchill and his immediate party, who were whisked into the Citadel without advance notice. Not a single newspaper reporter or news cameraman was permitted to witness the arrival—an indication of the official "hush-hush" air that has been thrown around the whole conference.

Second Time Here.

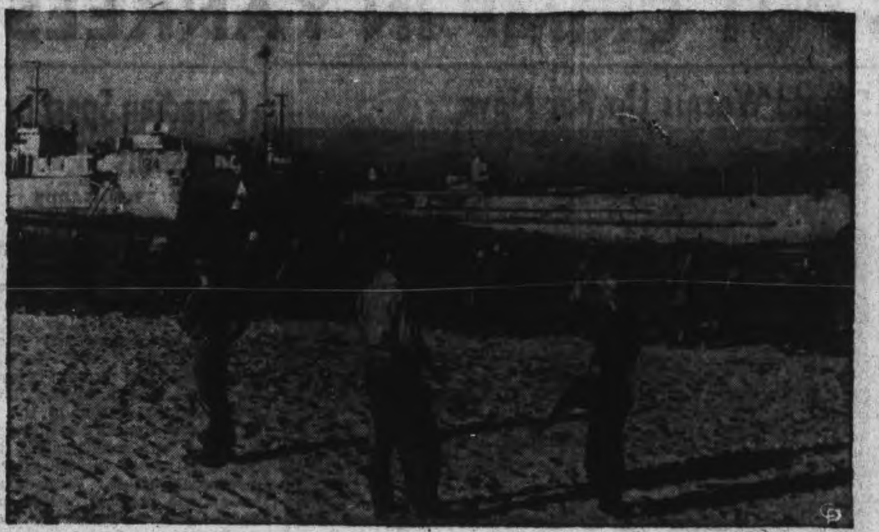
Included in the British Prime Minister's official party were Lord Leathers, Minister of War Transport; Lord Moran, his personal physician; J. M. Martin and T. L. Rowan, secretaries, and Cmdr. C. R. Thompson, R.N., his personal assistant.

It was Mr. Churchill's second visit to Canada during the war, the first being a two-day trip to Ottawa during his conference with President Roosevelt soon after Pearl Harbor.

The Roosevelt-Churchill conference will be the sixth the two master strategists of the United Nations have held, the first being in August, 1941, off the Newfoundland coast when they drafted the Atlantic Charter.

Although it has become a practice for them to meet in times of crisis, this time they will meet while the whole complexion of the war in Europe is reaching a new and vitally important phase.

Axis Prisoners Marched Off To Boats



Axis prisoners of war are pictured marching along a Sicilian beach to await Allied ships watched by British naval commandos, one of whom is armed with a Tommy gun.

Rain Affects Fall Wheat Crop

Excess August rain is dampening the fall wheat crop in its stocks for harvesting and also in its eventual quality after the weather has played out its capricious hand.

Several reports suggest that already signs of sprouting have appeared as a last defect to a crop that has turned out under par and expectations and generally disappointing.

Frank C. Paterson, agricultural representative, estimated today that the wheat might be only 60 per cent of last year's harvest. Acreage yield is said to be from 10 to 15 bushels less than in 1942.

Early Crop Poor

Spring grain has been extensively affected by rust. A previous estimate of 50 per cent of last year's garnering may have to be revised to 45 per cent. The corn crop is promising, but it is calling for sunshine.

Comments on the district's yield of hay is now an old story. Thousands of tons were left standing, and some of the crop went into the barns too late for the highest protein value. Many barns are packed with the grass, and with adequate supply of labor more of the crop would have been cut and would also have been generally of higher food content. Second crop alfalfa is satisfactory.

Suggest Churches Hold Joint Services

HAMILTON, Aug. 11 (CP).— A plan to curtail services in some churches this winter is being drawn up by Russell T. Kelly of Hamilton as a means of saving fuel.

The plan is to save at least 20 per cent of the normal coal supply in this district, Mr. Kelley explained, by uniting church services. The idea is to arrange United Services through the co-operation of all denominations and with the geographical location a factor, he said. The effort will be voluntary.

THANK-OFFERING

Worthing hospital (England) swiftly cashed in on the news from Italy chalked notices in the town saying: "Mussolini goes — please, give us a thank-offering.

Received D.C.F.

Two Royal Canadian Air Force officers are seen here, just after receiving decorations from the hands of the King at Buckingham Palace. They are, ABOVE, Flying Officer P. M. Anderson of Winnipeg, and, BELOW, Flight-Lieutenant Charles R. Blumenhauer of Enderby, B.C., both of whom received the Distinguished Flying Cross for their operational efforts.

MORE ABOUT—

Allies Take

Continued from Page 1

Near Riposto.

On the south-eastern front British units fighting their way up the narrow coastal shelf from Catania were reported somewhere in the vicinity of Riposto where advance patrols encountered an Axis delaying line. It was believed to be manned by Nazi parachutists and Grenadier Guards. It was assumed that the Axis forces would continue a slow retreat to the Alcantara River at Fiumefreddo which offered excellent possibilities for a defence line.

According to dispatches from Sicily and broadcasts on the Rome radio, the brunt of the Axis defence was being borne by German units. Rome said flatly that all Italian troops have been withdrawn because of the overwhelming superiority of the Allied orces.

Harold V. Boyle, Associated Press war correspondent in Sicily, reported that the Germans also were attempting to remove troops and heavy equipment rom the island and had placed guns with a 20-mile range on the Italian mainland to protect the retreat across the narrow Strait of Messina.

Demolition was the chief Axis weapon against the advancing Allies. Unit commanders reported eight bridges had been blasted and that strategically placed heavy artillery was shelling the most likely of the by-pass routes. The Allies also found the mountain roads heavily pitted and were experiencing difficulty with motor transport. In some sectors mechanical units ceased to function entirely and the food and ammunition was brought up to the front by mule train.

50 YEARS IN ARMY

CHATHAM, England — (CP). — Maj. Gen. Sir Philip Grant, K.C.B., former Commandant, of the School of Military Engineering, died aged 73 at his Hampshire home. He had been in the army 50 years.

ALL-OUT EFFORT

Production in one British munitions town has reached a level where output has exceeded storage space. Car parks, side streets and even refuse dumps have been taken over.

WARKWORTH

Dr. Armstrong Hurt In Crash

WARKWORTH, Aug. 11 (ENS) —Dr. C. C. Armstrong was taken to Belleville Hospital on Saturday following a painful chest injury he received when a milk truck driven by Maitland Mitchell, Norham, collided with his car. The driver of the truck was not hurt.

Provincial Constable Hayes, of Campbellford, investigated. There was no blame attached to the drivers. Poor visibility where the road was overgrown with bushes was given as the cause of the accident.

Buys All Tea

LONDON, Aug. 11 (CP). — Lord Woolton, Food Minister, announced today he had bought the world's whole non-Axis tea supply for next year estimated at 312,500 tons.

He did it as a representative of the combined food board which, under international agreement, will allot tea to the united and neutral nations on the same basis as last year.

"We lost supplies from the Netherlands and East Indies, but there will be just sufficient for everybody," he said.

And here's her SECRET . . . let ODEX remove Perspiration ACID FILM

ODEX yourself TODAY!

YOU'RE bound to come off duty with perspiration acid film on your skin.

So be smart! Relax. Take time for a quick bath with Odex Soap.

Odex contains a new odour-free antiseptic.

That's why Odex Soap is so mild, yet is so effective in removing perspiration acid film.

Odex leaves your skin so clean that you feel like a new person, dainty and refreshed.

POST-WAR PLANNER

"SURE there will be changes after the war . . . some are overdue. But I'm no robot. Whatever our post-war plans, I still want to see hard work rewarded and dividends paid on brains and initiative. I want the privilege of going into business for myself if I choose. That's why I am building a nest egg now at The Royal Bank of Canada."

Canada has grown to rich nationhood through the courage, resourcefulness and initiative of individual citizens. These qualities must be preserved in the challenging days ahead.

What is PRIVATE ENTERPRISE? It is the natural desire to make your own way, as far as your ability will take you; an instinct that has brought to this continent the highest standard of life enjoyed by any people on earth. It is the spirit of democracy on the march . . .

THE ROYAL BANK OF CANADA

VOL. LXXXVIII, No. 34 PETERBOROUGH, WEDNESDAY, AUGUST 11, 1943

Brothers Serve In Canada And Overseas

OS. EDWARD CLOSE SPR. GEORGE CLOSE

Two brothers, Spr. George Close and OS. Edward Close, are serving in Canada's armed forces. Spr. Close has just arrived overseas with the R.C.E., having enlisted a year ago. He was employed at Stocks Bakery. His brother, OS. Close, enlisted in the Navy in March of this year and is stationed at Deep Brook. They are the sons of Mr. and Mrs. George Close of Peterborough.

MAIN STREET TOPICS

ARRIVES IN ENGLAND.

Friends of Pte. Arthur Marshall will be glad to learn of his safe arrival overseas. Pte. Marshall was formerly employed by Canada Packers here.

HELP CHILDREN

The Milk for Britain Fund still ranks high in the list of war charities for the people in and around Peterborough. Members of the Mothers' Allowance and Old Age Pension Board of the county of Peterborough have donated $6.

INCINERATOR DAMAGED.

A driver of a city garbage truck dumped his load of rubbish at the incinerator during the noon hour on Tuesday when no attendants were on hand to check the operation, and being mostly dry rubbish it caught on fire and started a merry blaze that burned the stairway, scorched the front door and damaged the lighting system. Fire Chief Gimblett estimated the damage at around $50 this morning.

CUSHION ON FIRE.

A cigarette butt carelessly tossed by a passing smoker is believed to have been the cause of a small blaze which badly damaged the cushion in the front seat of an automobile belonging to James Juby, Boswell Avenue. The machine was parked in front of the Juby home at noon to-day when passers-by saw smoke issuing from the front windows and discovered the cushion on fire. The blaze was soon extinguished.

NO CEILING

Far-away pastures may look green, but when it comes to a discussion of the cost-of-living few people, if any, are better off than Canadians. A case in point is Newfoundland, where there is no control of prices. There you have to pay prices for food like these: Beef, $1.05 a pound; eggs, $1.20 a dozen; butter, $1.25 a pound; milk, 22c a quart; grapefruit, 25c each.

GETS A REMAND.

William Russell's request for a remand to allow him a chance to consult a lawyer was granted by Magistrate E. A. Gee in Police Court this morning when the Otonabee man was arraigned on a charge of drunken driving. Crown Attorney V. J. McElderry, K.C., said that the prosecution was ready to proceed, but the Court remanded Russell until Monday next, fixing bail at $200.

COMING TO TOWN

The C.W.A.C. Pipe and Brass Bands, touring Military District No. 3, in celebration of the second anniversary of the corps' service, will be in Peterborough Thursday, August 26. That afternoon there will be a parade with the bands, and the following day there will be concerts by the brass band in Peterborough and Lindsay

CHARGED WITH VAGRANCY.

Arrested by Constable Gordon Trennum at the rear of Bethany Tabernacle at 6:30 o'clock this morning, Maurice Pelland was charged before Magistrate E. A. Gee in Police Court to-day with being a vagrant. "I was picked up on my way to work," the accused told the court. At the request of the police he was remanded until to-morrow morning.

BLOOD DONORS

One hundred twenty-nine persons have contributed blood at the clinic this week, there being 62 donors on Monday and 67 Wednesday. Local industries, a number of whose employees have come to the clinic this week, include Canadian General Electric, J. J. Turner, Ackerman's, Outboard Marine, Peterborough Lock and Quaker Oats. Bridgenorth, Omemee, Lindsay and Hastings were outside communities represented at the clinic.

Special Stamp Drive Undertaken By Stores

A special effort is being made this month in a number of Peterborough stores to widen the sale of War Savings Stamps by conducting a special drive on their own initiative. The campaign has been called the August Variety Stores Stampede for Victory, and a number of stores are contributing time, efforts and ideas to ensure the success of the drive.

Operated independently of the National War Finance Committee, the scheme has, however, the support of that official organization and co-operation and assistance from it. The committee helps by supplying uniforms worn by Miss Canada girls in the stores.

In some instances stores have set for themselves individual objectives and are conducting raffles, the winners of which will receive War Bond Certificates. To draw attention to their campaign the stores are using ample displays and have set up booths with girls dressed in the Miss Canada uniforms as their attendants. Employees of the stores are showing their patriotic spirit by volunteering to help sell stamps on their own time, in addition to their regular duties.

Eels Have War Job

NEW YORK, Aug. 11.—(AP). — The New York Aquarium's five electric eels have gone to war. Dr. Christopher W. Coates, Aquarium director, disclosed yesterday that the eels have been removed from public view and are being used in secret war research.

MOH Commends Work Of City Nurses

"After one month's experience as Medical Officer of Health I may say that, in my opinion, the staff of the Health Department are exceedingly able and capable, and are rendering to the citizens of Peterborough an excellent health service."

This commendation is quoted from the first report by Dr. R. A. Kelly, M.O.H., to the Board of Health last night. It was his concluding paragraph, and the opening observation is quoted as follows:—

"I wish to express my appreciation for the very fine reception I have received not only from the Board and staff of the Health Department, but also from the citizens in general since assuming on July 1 the duties of acting Medical Officer of Health. Every one with whom I have come in contact has been most congenial and co-operative, and I shall endeavor to do everything in my power so that all our dealings will remain on this plane."

Dr. Kelly mentioned various details of his work and said there were only a few communicable diseases reported in July; four chickenpox, two of measles, four of mumps, one each of scarlet fever, whooping cough and cerebro-spinal meningitis.

Two Suspected

"Two cases of suspected cerebrospinal meningitis were admitted to Queen Mary Hospital but were discharged in a short time as not suffering from this condition. At present there is one patient with a diagnosis of meningitis, but the bacterial examination showed the infection was not due to meningococcus. This patient is improving. She is a non-resident.

A large number of tuberculosis contacts were skin tested, and all positive reactors will be X-rayed when the travelling chest clinic visits Peterborough in the week of August 17.

Clinics Continue

Immunization clinics are being carried on twice weekly during July and August. During the early weeks the response was not great, but the number is gradually increasing as mothers become aware of the existence of these clinics. In this connection it must be noted the value of publicity. The morning following the appearance in the local press of a note regarding these clinics there were sixteen children present who had previously not been in attendance.

Child hygiene clinics were held twice weekly last month. The numbers attending had dropped somewhat, due, I believe no doubt, to the fact that there had been no physician in attendance for some time although the nurses were doing fine work with the babies."

First Peterboro Boy Missing In Sicily

PTE. WILFRED LACKEY.

Mr. and Mrs. W. George Lackey, 461 Chamberlain Street, received word Tuesday that their son, Pte. Wilfred Lackey, is missing after action on July 18, with the Hastings Prince Edward Regiment in Sicily. He is the first Peterborough soldier to be missing in Sicily. Before enlisting he was employed at the Brinton Carpet Company and received his education here. A brother is serving in the forces overseas.

Shell Dover Area

LONDON, Aug. 11.—(CP). — Big German guns on the French coast opened fire across Dover Strait shortly after 11 a.m. today and shellfire warnings were sounded in all English towns in the Dover area. Single shells hurtled across the strait at frequent intervals.

Coal Production Down

OTTAWA, Aug. 11.—(CP).— The Dominion Bureau of Statistics reported yesterday Canada's coal mines produced 1,346,851 tons of coal during June, compared with 1,386,462 tons in the corresponding month a year ago. Production for the first six months of this year totalled 8,853,962 tons, a reduction of six per cent. from the output during the first half of 1942.

Cox Brothers Serving Overseas

Gnr. Thomas Cox of the R.C.A., son of Mrs. E. Cox, 259 McDonnel Street, has just arrived overseas, according to word received by his mother. He enlisted in June, 1942, while he was employed at the Dominion Woollen Company, going to Cobourg for that purpose. His brother, Walter Cox, formerly with the Dominion Woollens too, went overseas with the Stormont, Dundas and Glengarry Highlanders. Both landed on the same day in different years.

Factories Take 18,900 Of Ration Books

Of the 40,000 rations books for consumers' goods which have been received at the city hall this week, 18,900 have been delivered to eleven of the larger industries for distribution among their employees.

This is the third issue of wartime rations books for tea, coffee, sugar and meat, and also for any other articles which may be subsequently brought into the rationing system.

Allotment of books will be assumed by the Women's Voluntary Service under the direction of Mrs. Weldon Fanning, and they will be available during the four days, August 25 to 28 from 9.30 a.m. to 8 p.m. at the Lyceum Hall on Simcoe street.

Management of the local industries are lightening the load of detail work by undertaking distribution of the new books in their plants. The central Lyceum office is especially for the accomodation of residents of the city and the townships of Ennismore, Otonabee, North Monaghan and Douro, but it is understood that any applications from the district will be received here.

An office at Lakefield will accomodate the people of that village, Smith, Dummer and the northern townships of the county, and another office is provided at Millbrook.

The members of the Peterborough Rations Board are Mayor Hamilton, chairman; Joseph Jebson, John D. Fitzpatrick, Frank Buckland, Mrs. C. E. Moore, North Monaghan, Mrs. Ed. Riley, Reeve M. H. Johnston, Warden Mather, Reeve Mahony and Reeve Gifford, with City Clerk Outram as secretary.

The new books are for the eight months' period beginning September 1.

Car Stolen At C.G.E. Stripped By Thieves

An automobile belonging to William Deyell, R.R. 11, Otonabee, employed at Genelco, was stolen from the C.G.E. parking lot at Park and Townsend street during the night, and this morning was discovered in a laneway off Highway 7, near Indian River, stripped of its four wheels.

Mr. Deyell had parked his car on the lot and gone into work. The machine was missing when he came back and this morning Stewart Lang, Otonabee, telephoned the police that there was an automobile in his laneway, with the four wheels gone.

The stolen machine had been driven some distance up the laneway and there stripped of its wheels.

Health Board Cancels Shantz Permit

Gordon W. Shantz, proprietor of Gordon Beverages at 583 Water street, will be denied permission to operate his 'pop' plant until he complies with the orders of Sanitary Inspector MacPherson.

This decision by the Board of Health last night became effective 'at once,' and that meant today according to Mr. MacPherson's expressed intentions.

Reference to the alleged refusal of Mr. Shantz to recognize the authority of Peterborough's Sanitary Inspector was noted in Mr. MacPherson's July report to the Board.

"A High Standard Certificate was issued to the operator of one beverage plant this month. Two of the three plants in the city have now been thus certificated.

The other plant is the very antithesis of these, and has caused us no little concern this month. On several visits the premises were found in anything but a sanitary condition. We have endeavored to bring about improvements in this plant without coercion, but, failing this, we have sent the manager a final written notice with a definite time limit.

If our recommended changes are not made by that time it will be necessary for us to close the plant, and recommend cancellation of the permit to operate this plant."

Mr. MacPherson informed the Board that Mr. Shantz had persistently ignored suggestions and orders to improve sanitary conditions at the beverage plant, and the Board approved his course of "cracking down" on Mr. Shantz until he does what he is told to do.

C.W.A.C. Celebration

KINGSTON, Aug. 11—(CP)—District army headquarters here announced last night that a program marking the second anniversary of the Canadian Women's Army Corps' will begin Aug. 17 with a concert at Hawkesbury, Ont., by the C.W.A.C. pipe and brass bands. The celebrations, nationwide in scope, will end Aug. 29.

Rambling Reporter

COME AND GET IT.

What with the scarcity of ice, and of means of delivering it, many people are glad to call for their own ice at the dealers. One line-up, at an ice-house in the south end, included an elderly man, possibly a grandfather, a crowd of youngsters, and two women, one in slacks and old shoes, the other in high-heeled slippers and a house-coat. Each member of this varied group had with him a child's express wagon for transporting his share of the precious ice.—M.B.

Three Pay Fines For CNR Brawl

"I don't know where things are coming to" said Magistrate E. A. Gee in police court this morning. "Perhaps the best way would be to keep women out of beverage rooms and let them drink at home if they want to do that. Men think they are gallant in buying beer for them and the reuslt is that the women often get tighter than the men."

The magistrate's remarks were made after he had registered a conviction against Mrs. Jean Rudd, River Road, Douro, of having been drunk.

The young woman had been charged with her brother, David Stevens, and another man, William Davis, of having been intoxicated at the C.N.R. railway station Monday night.

Young Stevens and his sister had pleaded not guilty but they were convicted on the evidence of three police officers, Constables John Stevenson, John Morrow and G. A. Edmison.

Constable Morrow told of going to the station in answer to a complaint and of the battle he and Constable Edmison had in arresting the trio.

"When she has been drinking she's a fighting wild cat" was the officer's description of the woman in the case.

"They were all three fighting drunk" said Constable Stevenson, who had been on duty in the police station when the three were brought in. He said that Mrs. Judd had almost had to be carried into the station.

William Davis changed his plea to guilty. "I guess I had more in me than I should have had" he told the court this morning.

Magistrate Gee registered a conviction against the other two and fined each of them $10 and $3.50 costs.

Company Sells For $20,000 Brock St. Rink

Sale of Brock Street rink for $20,000 to James Lavis and Thomas Brown by the Arena Rink Company is one of the major transfers of property in Peterborough this year.

Change of onwership probably confirms the present use of the old hockey plant as an all season dance pavilion under its later name of Summer Gardens. The building was equipped with new heating installation to keep out the chills of last winter, and the city's evicted hockey team switched its home games to Lindsay.

Another Brock Street property which recently passed into new ownership was the old novelty shop of which the late J. W. Butcher was the proprietor for years. It was bought by Gray Copping from the J. W. Butcher Estate, and has been extensively renovated.

The three houses at 693, 695 and 697 George Street were sold by Miss Margaret Armstrong to Bruce Eakins who turned them over to Jacob Goldbach of Toronto for $7,500.

Real estate transactions have been fairly active in the city since Spring. Toronto Savings and Loan Company sold two lots on Albertus Avenue in the west end to Mrs Lilla Campbell.

Harry Stock, Toronto, sold to John H. Jewell the house at 178 Dalhousie Street.

George Bleakely sold the house at 122 James Street to Earl O'Toole for $4,050.

John Sinclair sold to Harold Murduff the house at 570 McCannan Avenue for $4,425.

Mrs. Margaret O'Brien sold 450 Driscoll Terrace to Mrs. Loretta Allen.

The house at 390 Park Street was bought by Victor Richard from Mrs. Margaret Milburn.

Walter Jones paid $3,500 for the house at 500 McDonnel Street in a purchase from Roy Irwin.

The Allison Estate sold 887 Water Street to Percy Little.

The house at 477 Rubidge Street was sold by Edward Barrett to Lex Gordon for $3,300.

Robert J. King sold the house at 305 McDonnel Street to Herb. J. Condon.

Mrs. Florence Staunton sold to Harold Eohgrave the house at 854 George Street for $4,200.

Howard Quinn paid $3,700 for the double house at 199-201 Murray Street which he bought from James A. Gordon.

William Russell sold to W. J. Whibbs the house at 578 Charlotte Street. Mr. Whibbs also bought the adjoining half at 580 Charlotte Street of that double house. This second purchase was made from Mrs. Sara Rosborough.

Bought For $9,500

George Hewitt sold his house at 612 Homewood Avenue to Spiros Zakos for $9,500.

The Theodore McWilliams Estate sold the house at 542 Gilmour Street to Hubert Sills.

Dr. H. G. Carleton bought from S. H. Mitchell the house at 316 Margaret Avenue.

Mrs. Ethel Hall sold 358 Downie Street to Iveson Walker; and the Wm. Rae Estate sold 306 Margaret Avenue to Allan Whyte.

B. A. More sold 624 Charlotte Street to Clifford Vincent for $5,000.

Miss Ruth E. Hunter sold 154 Hunter Street east to Edward Barrett.

Miss Blanche Hamilton sold 589 Division Street to Wm. Northey.

Lorne Combe sold the house at 103 Gladstone Avenue to George Bailey.

Miss Grace Read sold to Eric Westbye the house at 513 Gilmour Street for $4,500.

Mrs. Jane McQuaig sold to Thomas Bolam the house at 474 Sherbrooke Street.

Mrs. Frances Poolman sold 553 Romaine Street to Lawrence O'Brien for $3,000.

Walter Northcott sold 512 Aylmer Street to Walter McIlmoyle.

The Victoria Kemp Estate sold the house and shop at 655 George Street to Benjamin Johnson who in turn sold it to Charles Dunn.

The house at 264 Aberdeen Avenue was sold by A. E. Thompson to Maurice Thompson.

Mrs. Rosamond Welsh sold to Charles G. Hopcroft the house at 106 Hunter Street, corner of Mark Street.

Miss Mary Greer and Mrs. Grace Dawson sold the house at 659 Water Street to Elias A. Stinson for $3,450.

Steals Radiator Cap Two Youths Charged

Lloyd Little, 228 Carlisle avenue, parked his car outside a George street cafe the other night, and when he came out discovered that his radiator cap was missing. He also noticed another car, similar to his own, in front of his car.

Tuesday night Little spotted the same car on George street and noticed a radiator cap, similar to the one he had lost on the machine. He reported the matter to Constable Andre Dalton and as a result Donald Moore, 17, and Donald LaFonte, 19, both of Chambers street, were arrested.

This morning before Magistrate E. A. Gee Moore pleaded guilty to stealing the radiator cap and LaFonte to receiving it, knowing it to have been stolen.

The two youths were remanded until next Monday for sentence.

With Provost Corps

Another in the list of Peterborough boys who have arrived in Great Britain recently is Cpl. Bertram Howden, 23, son of Mr. and Mrs. Bert Howden, 201 Romaine Street. He was in the Army two years in June of this year and spent nearly a year at Camp Borden. He is attached to the Provost Corps and was previously employed at the Raybestos.

Recover Truck At Stratford; Three Arrested

Charged with stealing a truck belonging to Wonder Bakeries from the yard of the bakery here during the night of August 8, three Peterborough youths are under arrest, one in Stratford and the others in Toronto.

Held in Stratford is Carl Northey, 17, while Albert Selmes and another youth were arrested by Toronto police and will be brought back here for trial.

Apparently after stealing the bread truck here the three youths drove to Stratford where they proceeded to get into trouble.

As a result Carl Northey was arrested by provincial police and yesterday appeared in Stratford police court and pleaded guilty to a charge of stealing a gasoline tank and a quantity of gasoline from Frank Siebert, R. R. 3, Mitchell.

Chased By Farmer

At the trial Provincial Constable J. M. Douglas testified that Northey in company with another youth, was caught in the act of removing the gasoline tank from a tractor. Some of the gasoline had already been put into the back of the Wonder Bread truck.

The truck pulled away, leaving Northey on foot. Siebert, owner of the tractor, chased the truck as far as Mitchell and reported the occurence to the provincial police. Northey was later arrested by officers six miles away from where the theft of gasoline had taken place. The stolen truck was recovered shortly afterward and yesterday Toronto police arrested Selmes and the juvenile member of the trio.

Northey was remanded by the Stratford court until August 17 for sentence. Afterward he will be brought back here to stand trial for the theft of the truck. The other two accused will be brought from Toronto this afternoon on the same charge.

Leaves Active Army

OTTAWA, Aug. 11.—(CP).— Defence Headquarters announced last night that Maj. Raymond Massey, 46, who left the New York theatre and Hollywood films to join the Canadian army, has reverted to a reserve status because of ill-health. He will return to New York for a rest.

Requests Recount

MONREAL, Aug. 11.— (CP). — Paul Masse, Bloc Populaire runner-up to Fred Rose, Labor Progressive in Monday's Federal by-election in Montreal Cartier, announced yesterday he would apply for a judicial recount.

Pair Pictures Raise $37.60 For War Victims

Some time ago, a Toronto artist, Miss Joan Watson, residing at 101 Vesta Drive, Toronto, wrote to the City Clerk, offering to give some of her paintings for the purpose of raising funds to aid any war charity that might be a particular city effort, and the matter was brought by him to the attention of the management of the Peterborough and District British War Victims' Fund, who got in touch with Miss Watson, with the result that she forwarded some of her own paintings, as a contribution to the cause.

Seeking a means of using these to raise money for the fund, the secretary approached H. A. Cranfield, supervisor of the Industrial Service Department at the Canadian General Electric Company, and he readily afforded facilities so that the sale of tickets for a draw might be held under the sponsorship of his department.

This was placed in the hands of Miss Janet Hutton who had the oversight of the sale of tickets, which has resulted in net proceeds amounting to $37.60 after deducting the cost of framing the two which figured in this particular effort.

The pictures were water color landscape views, and when the draw was made, they were won by Miss Miriam Butcher of the Cord Set Department.

This makes the sixth time that this one department under Mr. Cranfield has figured in the receipt column on behalf of the fund, in which Kay Warren has had quite some interest as well.

C.G.E. Passes $5,000

This particular contribution boosts the total that has come to the fund from the Canadian General Electric Co. Ltd. and the Genelco Ltd. plants above the $5,000-mark, the total actually standing at $5,007.69, which means that between them all, their work and donations have been the means of sending more than two whole regular donations of five hundred pounds, to help the sufferers from air raids over Britain.

Last Saturday, a special stand to publicize the Gladiolus and Aquarium Show to be held this afternoon and evening was in evidence at the farmer's market, and a beautiful sample of gladiolus flowers was sold around the noon hour by Shirley Storey, who had been an attendant for the purpose of selling tickets for the show. This realized $1.00, which is listed in to-day's receipts.

This is a last minute urging for the citizens to support this effort by attending the show tonight, and don't forget that in addition to the many awards that are to be made by way of draw prizes, there are two extra door prizes which everyone attending will have a chance on without cost, for free tickets on these two prizes will be given away as everyone enters the show, and in supporting this event, you will be giving a boost to Peterborough and District's own particular fund to give assistance to the war effort, by assisting those who have suffered from air raid attacks over the front line in Britain.

Previously acknowledged	$61,462.80
Net proceeds on pair of hand painted landscape views painted and donated by Miss Joan Watson of Toronto, sponsored by Industrial Service Dept. C.G.E. Co. Ltd.	37.60
Shirley Storey sold Gladiolus	1.00
Total to date	$61,501.40

Government Prepares

EDMONTON, Aug. 11 (CP) — Canada has established a reservation of one mile in depth on each side of the Alaska highway to prevent premature "grabbing" of sides for townsite or private business purposes, R. K. Odell of Ottawa said yesterday on return from a tour of the 1,500-mile route.

Will Use Helicopters

TORONTO, Aug. 11 (CP)—Board of control yesterday approved a motion that legislation be sought empowering the Toronto Transportation Commission and Gray Coach Lines to operate post-war airlines with Helicopters.

With Boys In Services

The editor of this column will welcome extracts from letters from boys serving or any other information concerning them.

By JEAN STENTON

LIEUT. C. A. CRAIG

Word has been received by Mrs. Cameron Craig, 585 Sherbrooke street, that her son Lieut. C. A. Craig has arrived safely overseas. He is with the First Railway Operational Unit and is the only Peterborough man in it.

Miss Irene Brown of Roseneath has received word that her cousin, Nursing Sister, **Lieut. Elva Honey,** has arrived safely in Sicily, with a group of Canadian Nurses.

Further honors were accorded **Fern Blodgett Sunde** and her husband Capt. Sunde and members of his crew who were decorated by King Haakon of Norway. The Norwegian Shipping and Trade Mission recently gave a dinner for them and among the better-known guests were Rear Admiral L. W. Murray, Royal Canadian Navy Commander-in-Chief of the North West Atlantic; C. E. Bryant, deputy representing the Ministry of War Transport of the United Kingdom; Harold Juell, Norwegian Consul and Commander H. Eriksen of the Royal Norwegian Navy (whose ship has been credited with a U-boat.

Gnr. Donald Rose, son of Mr. and Mrs. Charles Rose, with the Royal Canadian Artillery, has arrived overseas. He enlisted in April, 1940 and is the third boy to go across. Two brothers, L/Cpls. Edward and Vern Rose are fighting in Sicily.

Two district boys received their wings over the week-end, adding to the ever-growing list of Canada's airmen. They are **A. L. Raymond** of Campbellford and **H. J. Twilley** of Port Hope, both of whom graduated from Guelph as wireless air gunners.

GNR. BASIL C. ROBBINS

Gnr. Basil Robbins, son of Mr. and Mrs. Clifford Robbins, and a former employee of Genelco, has arrived safely overseas according to word received by his parents who reside at 436 George street. He enlisted January 5, 1942 and has trained at Ottawa, Hamilton and Petawawa.

During the last week, two men from the Peterborough district have enlisted in the R.C.A.F. They are **W. Ponkhazi** of Cheddar and **F. M. Hogan,** R.R. No. 1, Indian River. **Miss G. A. Simpson,** R.R. No. 4, Peterborough was accepted for service with the Women's Division. **Margaret Hamilton** of Peterborough graduated from No. 2 Composite Training School from a trade class.

Young airmen from Canada, Newfoundland, the United States, Britain and Mexico were included in a class of graduating pilots, who were given their wings by the Governor-General, the Earl of Athlone, at No. 2 Service Flying Training School at nearby Uplands. **Charles Brian MacDonnell** of Lindsay, **Theodore John Rock** of Port Hope and **John E. Baker** of Lindsay were all graduates. Among those getting their wings at No. 5 Service Flying Training School at Brantford was **W. V. Shosenberg** of Fenelon Falls.

A former Kinmount girl, **Nursing Sister Mildred Evelyn Wilson,** is on the staff of a Canadian Hospital unit serving overseas. She graduated from the Ross Memorial Hospital in Lindsay and was commissioned in the Royal Canadian Army Medical Corps in July 1941. Before going overseas she was stationed at Camp Borden.

More Ontario airmen have been commissioned according to a report of the R.C.A.F. **R. H. Tranter** of Peterborough, who graduated as a navigator recently, has been granted his commission as pilot officer. PO. Trantor was an outstanding tennis player in the city.

Cpl. Howard Shaw of Peterborough who talked with a reporter in an advance dressing station near Pachino paid glowing tribute to the work done there by Capt. Ferguson, a medical officer. **Pte. Roy Fairbairn** of Peterborough, a jeep driver, was brought into the ward to see Howard and a hard and fast chat ensued. Cpl. Shaw was by way of being the first Canadian casualty on landing. He stopped a piece of shrapnel from a land torpedo which Canadians had set off to smash barbed wire, but carried on in the dark right through to late afternoon. By that time his regiment had assaulted the airfield and consolidated their position. Then he made his way back to the advanced dressing station. His wounds are doing splendidly and he expects to be back with the unit shortly, after he throws off a dose of malaria.

Cpl. George Smedmore of the R.C.A.F. has returned to Canada after more than two years in England. He is the third brother to arrive back in Canada within the past three months. He transferred from the Army during the winter months, shortly after his brother Grant, and returned to Canada to continue his air force training.

June White, 292 McGill street, who has been employed at Genelco, has enlisted with the Wrens and is reporting for duty this week at Galt.

PTE. WILLIAM JONES
—Photo by Parks Studio

Pte. William Jones of the Royal Canadian Ordnance Corps has arrived safely overseas, according to word received by his wife, who lives at 337 Aylmer street. He enlisted in April 1942 with the Prince of Wales Rangers (AF) and then transferred to the Ordnance, getting his training at Hamilton and Kingston. He is the son of Mr. and Mrs. William Jones, 281 Romaine street.

Another local boy who has been reported overseas in the last 24 hours is **Pte. Fairbairn Magee,** son of Mr. G. H. Magee and the late Mrs. Magee, 215 Lake street. Before enlisting Pte. Magee was employed in the C.G.E.

LAW. PHYLLIS HARRIS

LAW. Phyllis Harris, daughter of Mr. and Mrs. Stanley Harris, Donegal street, has arrived safely in England according to word received by her parents. She enlisted in August 1942 and was posted to Fingal in September of last year when she has served as a postal clerk up to the present time. Before enlisting LAW. Harris was employed at the C.G.E.

Guild Plans Paint Church

WARSAW, Aug. 11 (ENS)—Mrs. Donald Davis entertained the members of the Anglican Guild at her home on Thursday afternoon. Reports of work done and business looked after were given and plans were made to raise funds to pay the expense of painting the church.

Mrs. Davis served afternoon tea and the Guild was invited to hold the September meeting at the home of Mrs. Robert Tighe.

Dynamite Starlings

KITCHENER, Ont. Aug. 11 (CP)—An unidentified citizen has a plan to rid Kitchener of starlings but it is doubtful if the city council will approve it. His plan calls for sticks of dynamite to be set in selected trees where the birds roost and at a given time the dynamite would be set off simultaneously.

Death On A Gift

GOLDEN, Colo., Aug. 10 (AP).—A toy wagon, a gift for her first birthday, coasted tiny Glenda Moore to her death in an irrigation ditch two miles east of here on her first ride. The horror-stricken mother, Mrs. Howard G. Moore, saw the wagon with Glenda rolling toward the ditch, but could not overtake it.

National Control Post War Need

MELBOURNE, Aug 11 — (CP). Premier John Curtin to-day advocated rigid national planning for post-war Australia and implied there will be continued need for price, wage and production controls.

Replying to a warning from Sir Claude Reading, Commonwealth Bank chairman, on the use of bank credit after the war, Mr. Curtin issued a statement at Adelaide envisaging large scale Government controls to increase goods and services for the people when peace is won.

Mr. Curtin, Leader of the Commonwealth Labor Party, said before the war Australia had muddled along with both men and resources unemployed and widespread poverty. But in the present wartime economy, the Government has controlled men, materials and production, as well as price movements, wages and rents. He added:

"Equally in peace time we want full and effective use of available resources from men and materials.

"In war time we have raised the national income from 800,000,000 to 1,115,000,000 pounds. It took national planning to raise it to that level and it will require national planning in order to keep it there."

WARSAW

Stewardship Theme Studied By Society

WARSAW, Aug. 11 — (ENS).—The August meeting of the W.M.S. of the United church was held at the home of Mrs. Uriah Payne on Thursday afternoon with sixteen members present.

The pattern of the quilt to be made for the anniversary was demonstrated by Mrs. F. Sidey. The devotional topic was taken by Mrs. Harold Payne with Mr. David Miller and Mrs. Stewart Clysdale giving the Scripture lessons.

The theme of the service was 'Stewardship on Time' and was illustrated by three stories. 'Angelina's Gift,' given by Mrs. E. D. Snelgrove, and 'The Hyacinth' by Mrs. Harold Payne. A solo was sung by Mrs. David Tucker.

As this was Mrs. Payne's last meeting before moving away from Warsaw, Mrs. Geo. Taylor spoke of the work Mrs. Payne had done for the W.M.S. A delightful lunch was served by the hostess at the close of the meeting.

Personals.

Mrs. Amanda Hamblin, Toronto, has been a guest of her sister, Mrs. Arthur Payne, returned on Saturday.

Mr. and Mrs. Stanley Judge and family, Toronto, are guests of Mrs. Judge's mother, Mrs. David Tucker.

Mr. and Mrs. John Booth, Newmarket, Dr. H. C. Stevens and Mrs. Stevens, Sutton and Mr. and Mrs. Alex Willis, Peterborough, were recent visitors with Mr. and Mrs. George Weller.

Mr. and Mrs. Roland Payne, Rockcroft, spent Wednesday in the village.

Mrs. William Patterson and daughter, Queensboro, is visiting her mother, Mrs. David Drain.

Pte. Ivan Drain, Mrs. Drain and Vance were visitors in the village on Saturday.

Rev. E. D. Snelgrove is holidaying with his family at Cambourne.

Misses Joan and Dorothy Jackson, who have been visiting Mrs. Marie Drain, have returned to their home in Peterborough.

Warrior Gets Around

NEW YORK, Aug. 11 — (AP).—Pte. Victor Ilkow of the Bronx assured his family that he was all right despite reports that he had been wounded in the Pacific war theatre. He wrote "Don't worry" —in Russian to his father, in Polish to his mother and in English to his sister.

Move From Berlin

LONDON, Aug. 11 (CP). — The Morocco radio, in a broadcast recorded by The Associated Press, quoted the German Clandestine station, "Atlantique," today as saying that the German Foreign Ministry has been moved from Berlin.

Farmer Reports Large Wheat Yield

Thomas P. O'Rourke, owner of Willowdale Farm in Seymour West, harvested fifty-one bushels of Dawson's Golden Fall chaff wheat for every acre he had sown. He is seen here admiring the crop shortly before it was put through the separator.

Cavan News

W. J. Tinney and Mrs. L. M. Fallis visited friends in Valentia last week.

Dr. and Mrs. Eber Syer, and children, Frances and Kenny of Milton, were recent guests of the former's brother, Mr. and Mrs. Ken Syer, also calling on Mr. and Mrs. Roy Syer, and his mother, Mrs. E. Syer, who is visiting with her daughter, Mrs. Bonner.

Mr. and Mrs. Lloyd Sutton and Miss Audrey Keen motored to Kashi Lake, Muskoka, where they were week-end guests of Mr. and Mrs. John Keen. Miss Audrey remaining for a week, and then going on to Toronto.

Mr. and Mrs. Gerald Staples, with children Terry and Janet, of Lakefield, were guests of the former's parents, Mr. and Mrs. Fred Staples, over the week-end.

Miss Mary Richards is visiting with her sisters, Bernice and Pearl in Toronto.

Mrs. Leonard Challice of Carmel was the guest of her aunt, Mrs. Creighton Carr, and Mrs. Charles Gardiner for a few days last week.

Mr. and Mrs. Melvin Honey and children, Jane and Judith, of Toronto, have been visiting with the former's parents, Rev. and Mrs. Honey.

The John Smith family held their annual picnic at Bewdley on Sunday, those who attended were: Mr. and Mrs. Charlie Smith and baby, Mr. and Mrs. Emory Smith and family, Mr. and Mrs. Mervin Smith and family, Mr. and Mrs. Gordon Moffat and family of Orono, Mr. and Mrs. Norman Braithwaite, Mr. and Mrs. Ken Braithwaite, of Peterborough, Mr. and Mrs. Carl Porteous.

Cavan United church Sunday School is holding its anual picnic at Pritchard's Woods.

Mr. David N. Staples, B.A. Sc. of Hamilton, was the guest of his parents, Mr. and Mrs. R. S. Staples for a few days last week.

Miss Helen Staples, Springville, and Miss Josie Sutton of Millbrook are guests of Mr. and Mrs. R. S. Staples.

Mr. R. H. Fallis, Toronto, a week-end guest of his brother, Lav. M. and Mrs. Fallis, and his mother, Mrs. David Fallis.

Mr. Ralph S. Staples is a business visitor in Toronto today.

Effects Of Allied Bombing

This photo shows workers digging in the ruins of some of the buildings wrecked by Allied bombs in a raid on Le Creusot, France. Terrific damage was done to the machine shops of the great Schneider war plant here, the No. 1 objective of the Allied bombardiers. The Schneider plant has been turning out war equipment for the German armies.

Hastings News

Miss Mary Pickens, Reg. Nurse, of Peterborough, is spending her holidays with her parents Mr. and Mrs. Joe Pickens.

Mr. and Mrs. Fred Richardson, Peterborough, were week-end guests with the former's parents Mr. and Mrs. Tom Richardson.

Sgt. L. Millar and Mrs. Millar of Toronto were guests last week with the latter's parents Mr. and Mrs. Robert Bibby.

Mr. and Mrs. Frank Doherty of Peterborough who are spending their vacation at "Old Orchard Beach" were guests on Friday with Mr. and Mrs. Fred O'Grady.

Mr. and Mrs. A. Forde, Shirley and Kenneth were guests on Sunday with Mr. and Mrs. Fred Hayes at Campbellford.

Mr. and Mrs. Russel Stevenson, Peterborough, were week-end guests with the latter's parents, Mr. and Mrs. W. Whitred.

Miss Luella Richardson has returned home after spending last week with Mrs. Ted Haskin of Toronto.

Mr. and Mrs. W. Fleming and family were guests on Sunday with Mr. and Mrs. M. Waddell.

Mr. and Mrs. William Wilson and Stuart of Campbellford were Sunday guests with Mr. and Mrs. L. E. Stinson.

Mr. and Mrs. Eric Merril of Dartford were guests on Friday with Mrs. John Oliver.

Miss Carol McConnell is spending her holidays with her sister, Mrs. Nelson Davis of Omemee.

Mrs. John Dainard and granddaughter Elva are spending two weeks holidays at Wellington Beach, Prince Edward County.

New Language Courses

TORONTO, Aug. 11 — (CP). — Two new courses will be added to the curriculum at the University of Toronto when the fall term opens Sept. 29. A new faculty, the School of Chinese Studies, and a new arts course, combining modern history with modern languages will be instituted.

Soldier Suicides

TACOMA, Wash., Aug. 11 (AP). —John Strong, 18, of Puyallup, Wash., wrote across his United States Army induction certificate, "This is my death warrant," then hanged himself in his hotel room, Deputy Coroner George Hoffner said.

Peterboro Boy Faces Charge

STRATFORD, Ont., Aug. 11 — (CP). — Appearing before Magistrate J. A. Makins today, Carl Northey, Peterborough, pleaded guilty to a charge of stealing a gasoline tank and quantity of gasoline, the property of Frank Siebert, R.R. 3, Mitchell, and was remanded until August 17 for sentence.

Provincial Police Constable J. M. Douglas testified Northey and another youth, who is still at large, were caught in the act of removing the gasoline tank from a tractor parked on a farm which Mr. Siebert operates, shortly after noon yesterday. Some of the gasoline from the tank had already been put into the back of a bread truck which investigation showed was stolen from Peterborough on Sunday night. The truck pulled away, leaving the accused on foot and he fled through the fields.

Provincial police discovered Northey about six miles from the scene.

Real Starter for the Day

YOU'LL find Grape-Nuts Flakes a real help in starting you off at breakfast on an energetic, cheerful day.

Grape-Nuts Flakes is a grand dish for breakfast. They're nourishing—baked *and* toasted to make them easy to digest—crammed full of delicious, malty-rich flavor; and they come in delightful, crisp flake form.

Start enjoying Grape-Nuts Flakes tomorrow.

FOR SHEER, DOWNRIGHT GOODNESS

DO YOU know good coffee when you taste it? Then try Maxwell House. Linger over its fragrance—its full body and mellow smoothness. We think you'll agree that for sheer, downright goodness it can't be beat.

Maxwell House is a princely coffee because:

1. It's blended from carefully selected extra-flavor coffees—the very finest obtainable.

2. This fine blend is roasted by a remarkable process that roasts every bean *evenly all through.*

Yes, Maxwell House will give you the very peak of coffee goodness for every coffee coupon.

For wartime reasons Maxwell House is now *packed in bags*—in an All Purpose Grind only and at a lower cost to you.

This new grind is suitable for *all* ways of making coffee—coffee pot, percolator or glass coffee maker. If using a glass coffee maker, you may prefer to brew the coffee a little longer.

Lady Golfers Entertained

On Monday afternoon, the Kawartha lady golfers were entertained by the ladies of the Peterborough Golf and Country Club. Eighteen holes of golf were enjoyed after which tea was served from a very attractive table centred with silver-bound pink phlox, blue delphiniums and baby's breath. Mr. G. A. Wood presided, assisted by Mrs. Charles Westbrooke and Mrs. C. G. Graham.

The Kawartha players were Mrs. Green, Mrs. Vic. Gallon, Mrs. Lionel Browne, Mrs. Anderson, Mrs. H. Scott, Mrs. F. Reed, Mrs. K. Smiley, Mrs. E. Riley and Mrs. Shaw.

Peterborough ladies were Mrs. O. DeGraw, Mrs. P. Roy, Mrs. Fred Hall, Mrs. O. Steer, Mrs. Basil Hall, Mrs. G. Maniece, Mrs. A. Rutter, Mrs. C. Elliott and Mrs. S. Northrop.

H P RATION-GRAM

Cheese Roulades

In France they are called "ROULADES" . . . Here they are known as "cheese and meat balls". But anywhere, when made according to this new wartime recipe, they're delicious.

Blend 1 small package of plain cream cheese with 1 teaspoon of H.P. Sauce, 1 teaspoon of minced onion, ¼ teaspoon of salt and a sprinkle of pepper. Spread this mixture on 12 thin slices of bologna. Roll each slice tightly by itself and secure with a toothpick.

Buy a bottle of H.P. today and try this new economy dinner. There is never "flat taste" when H.P. Sauce is used. Serve H.P., that grand old British thick sauce—also with soup, stew, salad, sandwiches, fish and fowl.

Fashions

SMART, VERSATILE

Womanly-wise is the matron who chooses this smooth-hipped two-piecer, Marian Martin Pattern 9467 for her in-and-out-of-town, go-everywhere dress. The softly cut bodice is so flattering. We suggest making this dress in a rayon crepe. Sheer wool or cotton are equally good.

Pattern 9467 may be ordered only in woman's sizes 34, 36, 38, 40, 42, 44, 46, 48 and 50. Size 36 requires 4½ yards 35-inch fabric.

Soprano Diva Goes "Swing" For Soldiers

By ARLENE WOLF
Associated Press Writer

NEW YORK, Aug. 11—(CP)—Things—and people—are seldom what they seem. Especially women.

Take Natalie Bodanya for example. She looks like 111 pounds of sweater girl. She talks like a co-ed. She's been christened 'Sweetheart of the Merchant Marine,' and loves to jitterbug. She sings in a nightclub. But she's a Metropolitan Opera star!

The 8,000 soldiers out at Scott Field, Ill., thought exactly what you'd think if someone said an opera star was going to toss off a few notes for your entertainment. They pictured a rather large, weighty female, with a penchant for pear-shaped vowels, histrionics and the classics.

So when pint-sized Natalie tripped out on the stage in a cotton dirndl and clog shoes, they whistled with delight. And when she opened her mouth, out came tunes the boys knew—popular medleys, folk songs, semi-classics.

"Wherever I go, there's the same reaction," Natalie laughs. "Particularly at the camps. They announce me, and I hear a deathly silence out front. I walk on stage. I go like this (she made a voluptuous hour-glass outline in the air). I wink at the boys. I giggle. They roar. Then we're friends."

Unusual Background

In addition ot not looking like a lyric soprano, Natalie doesn't have the kind of background you'd expect of an opera star either. In her 'teens she was too busy helping her mother support a younger brother and sister in New York's east side to worry about a career.

'But I was always singing," she says. "We lived near Italians, and they were always vocalizing too. I sang on the streets with them."

It wasn't until Marcella Sembrich heard the 16-year-old at a neighborhood settlement house that Natalie was on her way to music school and fame.

"It sure took me long enough to get into the Met," Natalie remembers. I auditioned until I thought I ought to ask them to pay me for it, it took so much, time. And you know, when they finally telephoned to say I was hired, I thought it was a gag.

Just Hung Up

"That happened three times. Fi- the Metropolitan,' they said. 'Sure, I'm Queen Mary,' I answered and hung up." Edward Johnson, Canadian-born tenor and Metropolitan Opera manager).

"That hapened three times. Finally Mr. Johnson got disgusted and left his number. When I called back I felt sick. But they hired me anyway."

And with the exception of her present invasion into New York's niteries, and time out for concert tours, to get married and have a baby, that's where Natalie has been ever since. Her small stature has always worried people—ever since that first day when Director Johnson insisted on changing her name from Natash Tatiana Bodanskaya to Natalie Bodanya.

Such a little girl, he decided, shouldn't have such a big name.

Price Control Ration News

The Women's Regional Advisory Committee, Consumer Branch, Central Ontario, Wartime Prices and Trade Board, answers questions put to this paper regarding price control and ration regulations.

◆ ◆ ◆

Q.—What is the price ceiling on a cord of soft maple and elm cut in 12 inch lengths? I bought a cord from a farmer who told me the price was $4.00 a cord. On the bill he had marked $3.00 a cord $1.00 for delivery. When I asked him if that was too high, he said it should be $4.25 a cord. Is this right?

A.—Ontario is divided into sections in which the maximum prices for fuelwood vary according to local conditions in that area. Since you live in Harriston, your ceiling prices come under Schedule D of Fuelwood Order No. 58 which sets the ceiling price for the type of cord wood you describe at $17.50. a cord. This price includes the cost of delivery to your house and pertains to seasoned fuelwood. Prices for green wood are set at $1.00 lower than those for seasoned wood. .. .. The order also provides that no one to whom it applies may advertise fuelwood for sale in any periodical without giving his full name and address. You were not overcharged in this case.

◆ ◆ ◆

Q. — I live out of Port Hope and want to ask if farmers can apply for extra sugar for threshing gangs, silo filling and extra men for part time extra farming work. If we can get extra sugar, where do I get my permit and extra ration coupons?

A. — Farmers who hire extra temporary help may obtain additional supplies of rationed commodities. For these extra rations you should apply at your Local Ration Board office stating (A) the specific nature of the work (B) the number of workers (C) the number of days they will be employed and (D) the number of meals to be served .. .. Applications for less than a total of 12 meals throughout the season will not be considered.

◆ ◆ ◆

Q.—How can I get a baby's ration book?

A.—By presenting the baby's birth certificate or baptismal certificate or an affadavit on the form provided at the office of your Local Ration Board, you will receive a ration book for the baby.

SALVAGING COAL

BERNE — (CP). — The Italians in their coal shortage, are going to try to recover 40,000 tons lying at the bottom of Trieste harbor—wastage of years from the recoaling of ocean-going ships.

HERE'S HOW YOU CAN MAKE COFFEE GO FURTHER!

Six Easy Ways!

1 Buy your coffee for flavor: Get super-rich Chase & Sanborn Coffee!
2 Always keep coffee in an air-tight container.
3 Measure both water and coffee carefully for desired strength.
4 Keep the coffee-pot scoured clean.
5 Make only exact amount needed—never more.
6 Serve coffee soon after it's made.

CHASE & SANBORN COFFEE

Sisters Wed at St. Peter's In Lovely Double Ceremony

St. Peter's Cathedral, adorned with gladioli, fern, and sweet peas, was the setting this morning for one of the most beautiful weddings of the season. It was a double ceremony when Margaret Isobel Glover became the bride of William Raymond McFadden, R.C.A.F., and Mary Nina Glover became the bride of James Augustus White, R.C.N.V.R.

The brides are the daughters of Mr. and Mrs. Roland Maxwell Glover, Park Street North. W. R. McFadden is the youngest son of Mr. and Mrs. F. J. McFadden, Homewood avenue, and James Augustus White is the youngest son of Mrs. White, Burnham street, and the late Augustus White.

The Reverend Fr. V. G. McFadden, cousin of W. R. McFadden and Rev. Fr. J. Finn officiated. Presiding at the organ was Miss Marion Best, A.T.C.M., and Miss Geraldine Collins was soloist. Selections were "Nuptial Hymn" composed by Mrs. F. A. Hodgson, formerly of Peterborough, "Panis-Angelicus," and during the signing of the register Miss Collins rendered Gounod's "Ave Maria."

The brides, escorted to the altar by their father, wore gowns of white taffeta and lace with sweetheart necklines, long bodices, bouffant skirts and tight fitted sleeves. Their headdresses were small dutch caps in taffeta and lace with shoulder length veils caught with orange blossoms. They carried Colonial bouquets in a semi-shower of white roses and bouvardia.

Ushers were Robert White, brother of James White, Charles McCabe, Patrick Anglesy and Basil Phelan.

Following the ceremony a wedding breakfast was served at the Empress Hotel to close friends and relatives. Receiving were the bride's mother, Mrs. R. M. Glover, assisted by Mrs. F. J. McFadden and Mrs. White Mrs. Glover was becomingly frocked in powder blue flowered crepe with navy accessories and corsage of American Beauty roses. Mrs. McFadden wore pastel grey French crepe with mulberry accessories and corsage of amethyst and coral sweet peas. Mrs. White wore soft grey crepe with purple accessories and corsage of Madame Butterfly roses.

Later the couples left for a short honeymoon. For travelling Mrs. McFadden wore a frock of dusty rose jersey with brown accessories and Mrs. White bronze wool crepe with brown accessories.

Prior to their wedding both brides were widely entertained. Miss Hilda Sullivan gave personal shower. Misses Pauline and Helen Huppe, dinner and presentation. Mrs. A. Tocchet, Miss Louise Flynn and Mrs. J. Brady, linen shower. Mrs. J. A. MacDonald and Miss Lillian Robson, tea. Miss Mildred McIntyre, cup and saucer shower. Misses Jean and Grace White tea, and a presentation was made at the home of Miss Ann Donoghue by the Women's Junior Sub-division when Mrs. McFadden was presented with a pair of statues and Mrs. White with a plaque.

Needlecraft Pattern

EASILY CROCHETED.

This alternating rose and plain stripe in lovely filet crochet lends added distinction and charm to the rich upholstery in protects. A perfect design for buffet sets and scarf ends, too. Inexpensive cotton is all you need. Pattern 662 contains charts and directions for making set; list of materials required; illustrations of stitches.

HOME REALIZATION OF WOMAN'S DREAM OF FREEDOM, AUTHORITY

Husband Refusing to Set Up One For Wife Denies Her Best Character Building Agent.

AN exasperated husband asks me if I don't think his wife is utterly unreasonable because she wants a home of her own. Ever since they were married they have lived with his family, and he points out with unossailable logic that this arrangement is not only cheaper, but gives his wife less work to do than she would have if they set up a separate establishment.

Nevertheless the queer, irrational creature to whom he is married persists in demanding her own home and weeps and says that he doesn't love her when he refuses to give her one. Hence he is peeved beyond measure because she isn't happy and satisfied when she has a perfectly good roof over her head and plenty to eat. And aren't women the crazy things, anyway? And why do they make such a fetish of their homes?

Home Is Woman's Cosmic Urge

Well, Mr. Man, for one thing, the desire of a woman for a home of her own is a cosmic urge. It has come down to her from her earliest foremothers who, when the supply of dry caves in which to live and rear their hairy babes ran out or got crowded, went out and built hutches of trees and grasses and so erected the first homes. And you can bet that each of those red-headed ladies set up her own individual shack in which she was the boss, and that she didn't double up with her in-laws.

So you see that your wife isn't to be blamed for wanting her own home. It is in her blood. It is her inheritance from those cave women who invented homes, and it is a longing not to be argued with, or frustrated, for when a woman ceases to want her own home and to take a pleasure and pride in making a home, she is no longer a real woman. She is just a tramp.

A woman wants her own home because it is the realisation of a dream she has cherished ever since she played keeping house in the nursery. More than that, it is because her home is a woman's emancipation proclamation. No woman ever really feels free until she lives in her own house, with her own furniture that she picked out herself and that represents her individual taste, with her own gas range on which she can cook the things she likes the way she likes them, and where she is literally monarch of all she surveys.

Always Individualists, Women Seek Freedom

That is why no woman wants to live with her own mother after she is married, and that is why she is miserable and discontented if she is forced to live with her mother-in-law, no matter how good and kind and considerate the mother-in-law may be, nor how luxurious the house she shares. For women are individualists, and there is no young wife who wouldn't rather have her own two-by-four flat or a pastboard bungalow, of which she was sole mistress than live in another woman's palace.

And because a woman's house is so completely the outward and visible sign of her authority she exhibits a jealousy about it that she shows about nothing else on earth. She is literally like the monopolistic Turk who can bear no rival near the throne, and any other woman who attempts to interfere with her ways of housekeeping, or tell her how she does things, does so at her peril.

Possibly no mere man can ever understand just what her home means to a woman, for men are, at best, imperfectly domesticated animals, and to most of them a home is mainly a place where they can hang up their hats and ease their feet and get the kind of things they like to eat without having to order them; and then slump down over pipe and paper. Or else it is a place where they can grouch and gloom and work off all of the temper and nerves they are afraid to exhibit in public.

Just a Filling Station to Some Men

To many men a home is merely a filling station and as soon as they have gotten their tanks replenished they step on the gas and joyride away, and don't come back until the hot-spots are closed up. Any place where the food is good and the beds comfortable can be home to them, but no place is home to a woman that isn't her own and filled with her own things.

Any husband who refuses to give his wife a home of her own makes a great mistake, for not only will her home keep her happy and busy, but it is the best agent yet devised for the developing of feminine character, and it will do more than all the Ten Commandments to keep her walking the straight and narrow path. Somehow there is a moral influence in pots and pans and gas ranges and vacuum cleaners that lifts women up to the higher life.

Why? Don't ask me, but I have seen a complete set of aluminum ware regenerate a flapper and turn a jive dancer into a sedate housewife in the twinkling of an eye.

THE STARS SAY . . . .

By GENEVIEVE KEMBLE

For Thursday, August 12.

According to the lunar transits active on this day the situation is rather adverse. There may be many phases of opposition or antagonism from high places as well as in less consequential circles, and manifesting open and quarrelsome behavior as well as hidden, overt, and undercover intrigues. Be watchful on all fronts, alert to all manner of schemes, pitfalls and entangling alliances. Steer a clear course, do some straight thinking and all should thrive.

Postpone Meeting

LONDON, Ont., Aug. 11—(CP)—Prime Minister Winston Churchill's unexpected visit to Quebec City has made necessary postponement of the triennial meeting of the Canadian Federation of University Women from Aug. 24-26 until the following week, Aug. 31 to Sept. 2, Dr. Dorothy Turville, president, announced today.

YOUNG MARRIED MEN

THE AIR FORCE NEEDS YOU!

MAYBE you have hesitated because you felt your place was at home with your family. But you have a real stake in the fight for freedom—the defence of your home and country.

Married or single, the Air Force needs every able-bodied young man who can fly and fight. Go to your nearest R.C.A.F. Recruiting Centre at once.

Get your training now so that you can *fight* for your loved ones.

If you are physically fit, mentally alert, over 17½ and not yet 33, you are eligible for aircrew training. You do not require a High School Education. You can be in uniform at once.

RCAF

RECRUITING CENTRES LOCATED AT:

200 Bay St., Toronto and other principal citiesof Canada. Mobile recruiting units visit smaller centres regularly.

Cutter Crew Defeats

(Continued from Page 3)

bowed heads in the early morning sun is most inspiring. Caps are then replaced and everyone on the command "Facing Aft Right and Left Turn' faces the ensign as it is raised and the bugle sounded. This is the ceremony which starts every day. A similar ceremony took place in the evening and is called "Quarters."

After supper the boys had about 3½ hours to themselves. If they wished they could take part in divisional soft ball games, boxing under supervision, boat pulling, sing songs, etc.

One need only to go to a camp such as this to see how important mail from home is. The mail parade took place each evening and the long line up showed how eager the boys are to receive news and parcels from home.

The canteen parade is almost of equal importance to the boys. They were allowed to buy one soft drink and a chocolate bar each evening. This meant at least 100 cases of pop each week which had to be transported 14 miles by boat as well as tons and tons of meats, vegetables, canned goods, etc.

Win Big Event

Saturday and Sunday regettas were organized for boat crews, swimming events, novelty and greasy pole events. It was during this regatta that the Peterborough boys showed themselves real sports. During the camp the boys from the Peterborough Corps had been only in a pulling boat three or four times. The St. Catharine's and Welland crews had been training for several years. Despite this handicap the Peterborough boys picked up the challenge and won by a boat length.

Another highlight for seven of the division was the Commando raid. To start with three division, about 7:30 p.m. were taken by launch and landed on an island. They and their officers were to pick a strategic defence location on which they were to place a lighted lantern. The lantern represented a radio station on enemy soil. The officers and boys then laid their defence plans. After the defenders had long enough to entrench, four divisions are then allowed to sneak up on the island by boat to try to take the lantern or radio station. A man is considered dead when a defender or an attacker is captured by two men. He is then immobolized. The greatest thrill for the defenders came when two small boys captured Lieut. Nelson commanding officer of Princess Alice and Beausoleil Camps, who had taken sides with the attackers.

Princess Arrives

Thursday morning the boys had a rehearsal for the visit of Princess Alice. This was the occasion when the deed for the island was turned over to the Navy League and of the official inspection by Princess Alice: It was a colourful occasion. The boys were in their white uniforms and lined the path on both sides in which Princess Alice would approach the administration building. Princess Alice wore the uniform of a rear admiral and was very gracious, stopping to talk to some of the boys on the way. As soon as the Princess stepped ashore the Royal Ensign was run up to the masthead and stayed their until she embarked again. It was a signal honour for the camp because the Royal Ensign is only seen where and when Royalty is present.

Happy Gang

The last day at Camp was a busy one, starting at 6 a.m.. There was a hurried breakfast after which the boys assembled their kit. The first boat load, which included the Welland and Saint Catharines divisions left camp for Midland at 8:30 a.m. The Peterborough Corps boarded the boat at 11.30 a.m. In Midland a route march with the band was started about 1:30 p.m. At 3 p.m. the train left for Peterborough.

Friday night 2,100 sandwiches of all kinds were made for the boys to eat on the way home. The Peterborough Corps had about 300 of them as well as oranges for each boy. After having eaten these sandwiches the boys bought out the general store at Blackwater Junction during an hour wait there. The store keeper came out after the rush was over with a bewildered expression and it could be imagined that he was saying to himself, business was never like this before.

At Lindsay just to make the trip more exciting the train pulled out without the conductor and was a half mile down the track before the trainman could bring it to a stop.

As the train rounded the bend at Jackson's Park the boys started to yell. They had had a good time but were glad to be home again.

Their Solicitors herein.

ON AND AFTER THIS DATE, AUGUST 9, 1943, I will not be responsible for any Debts incurred in my name other than by myself.—B. Reid.

Beautiful Throw

(Continued from Page 6)

The Camp team got that one back in their half. With one out Morgan drew a pass and advanced on a wild pitch. McKerrigan was tossed out by Wilson, Morgan going to third. McIlveen was passed. A wild pitch scored Morgan and advanced McIlveen to second. Parsons was safe on Jones' fumble, McIlveen going to third. When Parsons tried to steal second Eddie Starr tossed him out.

The Soldiers made it an even ball game in the sixth. Walker bunted safely to start it off and Dalton drew a walk. Morgan moved them up with a sacrifice bunt to Wilson. McKerrigan rolled to Crowe, Walker being held at third. McIlveen hit safely to short scoring Walker but Dalton was caught between third and home on the play and run down.

The Military Training Centre outfit missed a good chance in the seventh when they filled the bases on an error by Ellis. Sandulak's single through short and a pass to Walker but with two out Dalton rolled to Heal to retire the side.

Then came the Stewart toss home in the eighth to save the ball game for the Battery. Morgan opened the inning with a line double over Bob Crowe's head. McKerrigan rolled to Crowe, Morgan going to third. Then McIlveen laced - fly to centre which Stewart gobbled and then nailed Morgan as he tried to score after the catch.

HERE AND THERE IN SPORTS

By The Canadian Press

Football is in the air and on the heels of last night's announcement by Coach Brian Timmins of Hamilton Wildcats that the team's first practice will be held Saturday, officials of the Winnipeg Rugby Football Club announced a two-team, or possibly a three-team, league will operate in Winnipeg this year.

At the same time, Coach Dave Sprague of Ottawa Combines, new entry in the Ontario Rugby Football Union's senior series, said he expected to have his charges out for a Saturday workout.

In Winnipeg it was stated that two teams—R.C.A.F. and a composite club embracing members of H.M.C.S. Chippawa, United States Army personnel, the Canadian Army and civilians—were definitely in. The Canadian Army may have its own entry if a survey of player personnel reveals enough material.

It is not known, however, if the Winnipeg league will enter into Interprovincial play with Regina. Club members have suggested exhibition contests with North Dakota and Minnesota teams.

At Hamilton the veteran Timmins stated a number of last year's Wildcats, Senior O.R.F.U. entrants, were expected back in harness. He said he would have an idea as to his club's potential strength after the initial workout.

Will Play In 1944.

Connie Mack said at Philadelphia yesterday that he sees no reason why big league baseball should be discontinued in 1944. At the same time he revealed he already is planning for his Athletics for next season.

He said 95 per cent. of the United States and its soldiers and sailors all over the world wanted the game continued.

Stan Musial is still leading the National League hitters but a familiar figure identified as the veteran Joe Medwick made quite an entrance into the league leading batters' list this week.

Medwick, batting champion in 1937 when he was with St. Louis Cards was hitting only .272 when Brooklyn traded him to New York Giants recently but he has been belting the ball so persistently he has raised his average to .304 and now is tied for eighth place.

In the American League Luke Appling of Chicago leads with .333 and needs only seven more hits to land him among the few players, still active, who have made 2,000 or more hits in their career.

Make Your Own Draperies for Your Home

DECORATIVE CURTAINS

How smart these curtains look on the window! Any window, no matter how plain it might be, can be turned into a decorative object with a little work on your part.

Don't think you immediately have to go and buy some smart new curtains for that unattractive window you have, because you will find them expensive, maybe. If you cannot afford to buy curtains why not make your own! They are not difficult to make and you will be tremendously pleased with the result.

By making your own smart curtains and draperies you add a touch of individuality to your home.

Our 32-page booklet will help you choose the right material and then gives you complete, clear directions of how to make various styles of curtains from a graceful swag valance to plain draperies.

Don't feel backward because you haven't made them before because you will be amazed at how simple it is to do.

For your copy of NEW IDEAS IN MAKING CURTAINS AND DRAPERIES send 15 cents in coins or stamps to the Peterborough Examiner Home Service. Be sure to write plainly your name, address, and the name of booklet.

East Emily News

Mrs. David Belch of Omemee spent this week visiting with her friend, Mrs. William Howden.

Mr. and Mrs. Charles Hicks and family of Niagara Falls spent the week-end with Mr. and Mrs. George Carew.

Mr. and Mrs. Albert Yelland were visitors to Lindsay on Saturday.

Mr. and Mrs. Ira Switzer attended the Thompson re-union at Stirling on Monday.

Miss Marion Storey of Toronto spent the week-end with her parents, Mr. and Mrs. E. Storey.

The many friends of Mrs. Sayward Switzer are very sorry to learn she is confined to the hospital, having undergone a serious operation.

Mrs. Vincent Franks spent this week the guest of friends in Ottawa.

Miss Marion Rea of Omemee spent the week-end visiting with Mr. and Mrs. Esmond Storey.

Tired Of Waiting

ORANGEVILLE, Aug. 11 (CP).—Back in 1873 the town of Orangeville built an umbrella-shaped tower on the town hall for a bell and a clock. Neither bell nor clock were ever installed and now the council has ordered the tower be demolished.

Finds Meeting Costly

BRANTFORD, Aug. 11 —(CP)— A London citizen who visited Brantford met two strangers one of whom said he was from Ottawa the other from Kansas City, but the meeting cost the Londoner $312. He told police they started tossing pennies for stakes which mounted steadily.

BARCLAY ON BRIDGE

WRITTEN FOR THE EXAMINER

By SHEPARD BARCLAY

"The Authority on Authorities"

DESPERATE PLAY RIGHT

THERE ARE times when you must play with desperation as your motivating force, as ordinary moves bear no promise of working. Declarers show that principle when trying for unlikely divisions of the hidden cards of a certain suit or suits since their contracts are hopeless unless those conditions exist. Defenders should do likewise when it appears that normal defensive tactics could not head off the contract.

North: ♠K 10 7 4 ♥J 8 6 ♦A 8 5 4 ♣9 2

West: ♠J 9 5 ♥4 ♦J 9 6 ♣J 10 8 6 4 3

East: ♠A 8 ♥K 10 5 3 2 ♦K Q 10 ♣A 7 5

South: ♠Q 6 3 2 ♥A Q 9 7 ♦7 3 2 ♣K Q

(Dealer: South. East-West vulnerable. North-South, part score of 30.)

South	West	North	East
1♥	Pass	1♠	Dbl
Pass	2♣	2♦	Pass
3♠			

A very fine defensive player in the East counted himself for two tricks with his black aces, probable also two in diamonds, for his side's book, but probably none in hearts because of South's opening bid. The likelihood that his partner could take any trick seemed so remote as to be non-existent, so far as high cards are concerned. But there was a slight chance that West might have a heart singleton, which appeared to be a desperate chance, since East could stop the trump drawing with the spade A.

So East led the heart 2—which might fool the declarer in some way—instead of the fourth-best 3. North let this run to his 8, then led the spade 2 toward the Q. East came right in with the A and led the heart 3. When West ruffed this, the contract was doomed, as East was certain to take two tricks in diamonds plus one in clubs.

If East had made the normal lead of his diamond K, and North played the trump suit the winning way, no tricks would have been taken by the defense except the four which East counted in his own hand, and so the contract would have been made.

* * *

Tomorrow's Problem

North: ♠9 3 ♥A K Q 2 ♦K Q 5 4 2 ♣8 4

West: ♠A J 7 4 ♥6 4 ♦9 ♣A J 10 9 6 5

East: ♠Q 10 ♥J 8 7 5 ♦A J 10 6 3 ♣3 2

South: ♠K 8 6 5 2 ♥10 9 3 ♦8 7 ♣K Q 7

(Dealer: East. North-South vulnerable.)

How should North play, in a contract of 2-Hearts doubled by East, if the club A takes the Q, the diamond A takes the Q, the diamond J is ruffed by the heart 4 and the club J is returned?

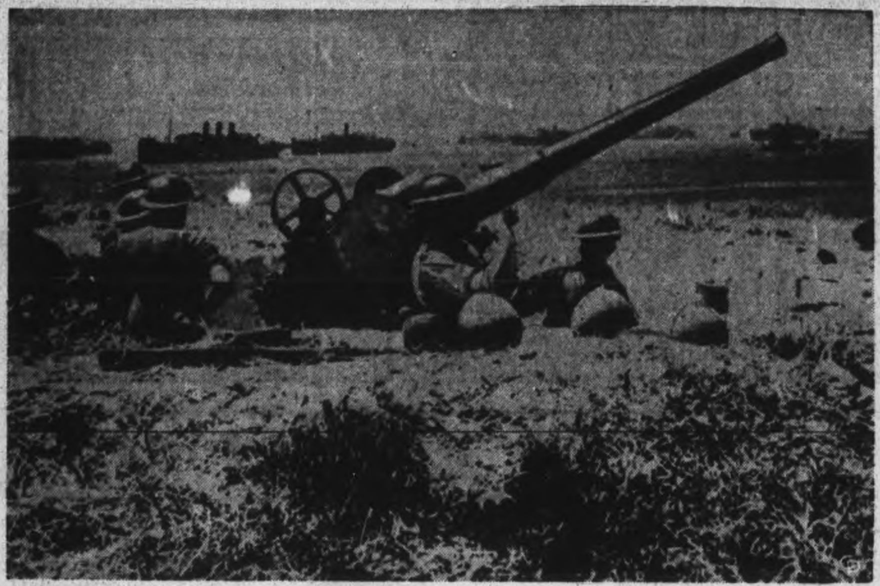
Turned Against Its Former Masters



Members of a British coastal defence unit shown manning a captured Axis anti-aircraft gun which defended the harbor installations at Syracuse, Sicily. The guns were in perfect working order when taken and now stretch protective arms over the Allied shipping which may be seen jamming the captured harbor.

Hun Explosives Slow Up Drive

ALLIED HEADQUARTERS, North Africa, Aug. 11 (AP)—The retiring Germans have begun a lavish spending of their supplies, particularly explosives and equipment, in a large-scale effort to retard the Allied advance in Sicily.

Until the last day or so they apparently tried to conserve their stores because of the difficulty of receiving more from the mainland.

But since the collapse of the Mount Etna line they have been shooting the works. Huge quantities of explosives have been used.

Roads running through the mountains are being systematically choked with avalanches loosed by the dynamiting of overhanging cliffs.

Bridges and culverts are being blown up and narrow defiles blocked.

Consequently the final push toward Messina may be slow.

Burned To Death

SUDBURY, Ont., Aug. 11 (CP)—Richard Stanley Burgess, 29, died in hospital today from burns suffered August 1 when the engine of his automobile exploded. Cause of the explosion was unknown.

Two Teen-Age Boys Die In Hospital Ten Hours After Drinking Glass Of Beer

MONTREAL, Aug. 11 — (CP)—Two teen-aged boys died in hospital early to-day from the effects of poison which police believe may have been given them in a glass of beer.

Morgue and police officials said they heard a report that the boys, Marcel Roy, 14, and Marcel St. Jean, 15, had accepted a glass of beer yesterday from a stranger and that it was thought some acid had been placed in the glass.

The boys were admitted to hospital yesterday afternoon. Roy died shortly after midnight and Jean died about four hours later.

No date has been set for the holding of an inquest, pending result of police investigations.

Kent County Men Backing Thompson

CHATHAM, Ont. Aug. 11 (CP)—A movement has been started in Kent County to urge Lieut.-Col. George A. Drew to include W. G. Thompson of Blenheim, if he forms the new Ontario Cabinet, with the portfolio of Minister of Agriculture. Petitions among the farmers are being signed and the Kent Federation of Agriculture has endorsed the proposal.

Mr. Thompson running as a Progressive Conservative, defeated the Liberal, Douglas Campbell, in the recent election in East Kent.

Russian Industries Match Those In U.S.

MOSCOW, Aug. 11 (AP).—Russian war plants "compare favorably" with those in the United States, according to Admiral William H. Standley, United States Ambassador, who has just completed a four-day tour of inspection of Soviet tank factories and steel mills in the Ural mountains industrial region.

Standley said that "very effective work is being done" and that he was "very much impressed" by Russia's eastern war industries.

Standley said food was abundant wherever he went.

"The people not only looked well fed but they know what they are doing. They looked lean and wiry, but I saw no signs of emaciation or overwork. There seemed to be ample housing facilities everywhere I went," he declared.

Food From British

Sicilian children flock around a British soldier who shares his rations with them in the town of Palazzolo.

Explosion Traps Four Miners

LETHBRIDGE, Aug. 11 (CP).—Twenty hours after an explosion and cave-in trapped four colliery workers in the Keralta Coal Mine on the west bank of the Old Man River near here Monday afternoon, rescue workers, toiling in squads of five under extremely cramped and hazardous conditions had failed to reach the men.

The trapped men are Sam Crabb, overman; William King, mine electrician; John Zubrey, miner; and J. Penta, miner.

Six men reached the surface and safety after a large section of the drift mine had been badly shattered and plugged with debris by the blast.

Cooked The Beef

ST. THOMAS, Ont., Aug. 11 — (CP)—W. A. Johnson, a farmer of Bayham Township, set out for market with a choice side of beef, but when he reached here the beef was well-roasted. A cigaret butt, believed to have been tossed by a passing motorist, set fire to his vehicle.

Hon. J. L. Ralston Claims Casualties Light In Sicily

OTTAWA, Aug. 11 (CP). — Defence Minister Ralston said today casualties "sustained by the Canadian army in Sicily have been moderate in proportion to the number of troops involved."

The statement was made in a release from defence headquarters containing the minister's comments following his return yesterday from a 10-day visit to the United Kingdom.

He gave no indication of the number of casualties but said they were considered moderate, "in view of the particularly heavy and bitter fighting which prevailed in the first 25 days of the Sicilian campaign."

While in the United Kingdom he conferred with Prime Minister Churchill, Sir James Grigg, Secretary of State for War, officers of the Imperial General Staff, Lieut.-Gen. A. G. L. McNaughton, Canadian Army commander, and senior officers at Canadian military headquarters in London on matters relating to the manning, equipment, training and employment of the Canadian active army.

He also visited a number of the Canadian units and formations and said the spirit of all ranks, which he found keen on previous visits, had been raised to great heights by the news from Sicily regarding the achievements of the Canadian force there.

The Minister also noted satisfaction on the part of the people of Great Britain regarding the Canadian army's exploits.

The British people, he said, have always shown the warmest feeling towards the Canadian armed services and on this visit, wherever he went, people seemed to have taken a personal pride in the fact that Canadian troops have unmistakbbly proved themselves from the moment they took to their landing craft right up to Aderno and beyond. He said that Canadians were receiving prominent and widespread attention in the British press.

Airmen Spot Glowing Fires For One Hundred Miles

By ALAN RANDAL
Associated Press Staff Writer

LONDON, Aug 11 —(CP Cable)—Mannheim and Ludwigshafen must have taken a real pounding from Canadian and British-manned bombers dnuring last night.

Canadian air crews returning to their various stations said the fires caused by the bombs were so large the glow could be seen more than 100 miles on the journey home.

Clouds over the target made it difficult to determine accurately the amount of damage caused by the bomb loads.

An R.C.A.F. communique called the attack "heavy." It added that R.C.A.F. fighters on intruder operations during the night attacked airfields and railways in France, destroying one enemy aircraft in combat.

Destroys Plane.

Later the Air Ministry announced this plane was destroyed by FO. F. W. Hallwood of Winnipeg and his plane-mate, an English sergeant, in a mosquito plane.

In the Mannheim-Ludwigshafen raid two Canadian bombers were lost.

Sgt. Maurice Renaud, mid-upper gunner from Victoriaville, Que., said after landing early to-day that he had counted 50 separate fires as he left the target and when 30 miles away he could still see them spreading.

Fires Spread

Sgt. Mike Wood of Greenbank, Ont., was among crews reaching the target early and it was then a mass of dull yellow fires "turning to bright red before we left."

PO. Lindsay Vogan, who helped his squadron batter Mannheim in Wellington's before it was converted to Halifaxes, considered the defences were much weaker than during earlier attacks.

Sgt. Bill Cameron of Sarnia, Ont., skipper of a Halifax, said the job done on his 10th operational trip was "first rate." His plane was hit by flak but none of the crew was hurt. Among other Canadians in his crew was Sgt. Bev. Schark of Sarnia.

Lots of Flak

Other airmen reported heavy flak concentration near the French coast on the return trip.

Sgt. Ed. Griffin of London, Ont., was in one crew.

"We saw a number of nightfighters but they left us alone and we had no trouble bombing the target," said Sgt. Basil Edwards of Delia, Alta. His crew included Sgts. Bob Merrit of Collingwood, Ont., and Cliff Pollard of North Bay, Ont. It was the seventh trip for the team.

Trimmed Twice

KITCHENER, Ont., Aug. 10 (CP).—J. Albert Smith, Liberal candidate in Waterloo North in last week's Ontario election, Saturday had the experience of being "trimmed" twice in a week by the same man. Mr. Smith was beaten at the polls by John Cook, C.C.F., and Saturday he had a hair cut—a nice, neat trim. Who did it? You guessed it, Mr. Cook.

If You Suffer 'PERIODIC'
FEMALE PAIN
Which Makes You Weak, Cranky, Nervous—

If you, like so many women and girls suffer from cramps, headaches, backache, "irregularities", periods of the blues — due to functional monthly disturbances—

Start at once—take Lydia E. Pinkham's Vegetable Compound. This effective liquid not only helps relieve monthly pain but also tired, weak, nervous feelings. This is because of its soothing effect on ONE OF WOMAN'S MOST IMPORTANT ORGANS.

Taken regularly—Lydia Pinkham's Compound helps build up resistance against such symptoms. Thousands upon thousands report help. Also a fine stomach tonic. Made in Canada.

Funeral Wednesday For Ted Phillips

SARNIA, Ont., Aug. 11 (CP).—Funeral services will be held to-morrow for William Edward (Ted) Phillips, 47, well-known nautical authority along the Great Lakes who died at his home here Sunday.

Born at Clinton, Ont., he came to Sarnia 40 years ago. He was active in yachting circles and commodore of the Sarnia Yacht Club.

Mr. Phillips wrote numerous articles for nautical publications and at the time of his death was working on a full-length novel with a Great Lakes background.

He is survived by his widow and a son, Robert Q. Phillips.

Oranges, Duty Free

WASHINGTON, Aug. 11 (AP).—Canada has extended duty-free imports of oranges for the remainder of the year, the United States Commerce Department reported today, as part of a program to hold down food prices in the Dominion.

Imports of oranges from the United States normally are tariff free only during the first seven months of each year and thereafter are dutiable at the rate of 35 cents a cubic foot.

No Fear Of Soviets

NEW YORK, Aug. 11 — (AP).—Declaring that his country lies "under the guns" of Russia, Dr. Edouard Benes, President of the Czecho-Slovak Government, said yesterday he did not "fear Soviet interference in my country's way of life after the war."

Sicily Casaulty List To Be Ready Saturday

OTTAWA, Aug. 11 (CP).— The first casualty list arising out of the operations of Canadian troops in Sicily will probably be issued Friday night (August 13), it was learned at defence headquarters today. It is expected to contain between 75 and 100 names and will be followed by other lists, possibly on August 16 and August 19.

In a statement today Defence Minister Ralston said casualties in Sicily have been "moderate in proportion to the number of troops involved."

Bethany News

Miss Laura Hutchinson of Toronto, is vacationing at the home of her sister, Mr. and Mrs. Herbert Kennedy, South Line.

Messrs. Gordon Jarvis and Ralph Rowland of the Air Force staff at Lachine, Que., spent a short leave at their respective homes this week-end.

Decoration service was observed at the Fallis' cemetery on Sunday afternoon.

Mrs. Alfred Driver will return to her home here on Thursday from a ten day visit with her son Douglas and other friends in New Toronto.

Killed In Sicily

HAMILTON, Aug. 11 (CP)—Mrs Helen Anderson has received notification that her husband, Pte. Hugh Reid Anderson, R.C.R., 28, was killed in action in Sicily on July 18.

"See Here, Sergeant Hargrove"

Sergeant Marion Hargrove, the correspondent in China of Yank, the army weekly, is shown leading two steers, a gift from the citizens of a Chinese province to the 14th U.S. air forces, through the streets. Sergeant Hargrove of course will be remembered as the author of the best-selling "See Here, Private Hargrove."

GERMANS WITHDRAWING FROM SICILY

Reds Tighten Stranglehold On Kharkov City; Brisk Action At Smolensk

New Thrust Along Dnieper River Basin Menaces Huns In Donets; Soviet Airmen Taking Terrific Toll

By HENRY C. CASSIDY—Associated Press Staff Writer

MOSCOW, Aug. 12—(AP).—The Russian stranglehold on Kharkov tightened today as Red Army troops drove within 7½ miles of the big Ukrainian city from the northeast and severed the Poltava-Kharkov railway, main lifeline of the defending Nazis, over a 10-mile stretch west of the nearly encircled bastion.

(The BBC reported that Kharkov is under fire from Russian guns. The broadcast quoted a late message from the front.)

The big drive against Bryansk rolled ahead through fresh German tank divisions, rallied in a desperate effort to halt the advance.

Perfect co-ordination of Soviet tanks, infantry, artillery and aviation was an important factor in the high-speed rush to envelop Kharkov, Red Star, army newspaper, reported.

Soviet infantry and artillery were waging battle against Nazi strongholds while tank forces by-passed garrison towns to sever communications and capture settlements in the hills around the enemy bases.

East of Kharkov, where Red Army forces were fighting their way tenaciously into the city's suburban districts, the Germans were reported felling cherry and apple trees to construct pillboxes among the ruins of the villages.

Cut In Behind.

Yesterday's thrust toward the Dnieper also threatened German forces in the Donets basin, where large units of the Nazis are deployed from 100 to 200 miles to the south-east. Carried further, the Soviet advance would cut in behind these forces to render their positions untenable.

German-held railway stations, trains and troop columns below Kharkov were blasted by Soviet airmen, apparently in an attempt to cut off retreat. A special Russian communique said Lozovaya, Barvenkova and other stations on the vital Kiev-Stalino Line were bombed and strafed.

The Russian advance was nearest Kharkov at the vilage of Cherkasskie Tishki, 7½ miles to the north-east. Other Russian forces were closing in from points 12 miles to the north, 30 miles to the west and 22 miles to the south-west. Kharkov, lying in an open plain, appeared doomed by these combined threats.

Gain 12 Miles.

In frantic efforts to relieve the city, the Nazis threw in several tank divisions, the Moscow communique said, but the Russians crashed through, capturing 50 populated places in a 12-mile drive. In the town of Akhtyrka, 42 miles south of Sumy, 1,600 Germans were killed, 36 tanks demolished, and 260 trucks destroyed. Captured booty included nearly 200 trucks.

Capture of Vodynaya demoralized the Germans, who fled in headlong retreat after fierce hand-to-

REDS REACH

American Planes Blast German Cities

LONDON, Aug. 12—(CP)—American four-engined bombers attacked Gelsenkirchen, Wesseling and Bonn in Germany's Rhineland today and U. S. Army Air Force headquarters said 25 of the big four-engined bombers were lost in the three-day daylight assault.

The bombers shot down more than 20 enemy fighters, a communique said, and escorting Thunderbolts and Spitfires knocked down three others.

"Large formations" of Flying Fortresses attacked synthetic oil factories at Gelsenkirchen and Wesseling and struck at other industrial targets at Bonn, said the bulletin, issued jointly by the U. S. Army's European Theatre headquarters and the British Air Ministry.

The German Radio claimed that target in the Rhineland, particularly Bonn, 15 miles southeast of Cologne, were hit by the American raiders. The Nazi broadcast said a strong force of four-engined bombers made the attack, taking advantage of excellent cloud cover in their swing down the Rhine.

"The raiders were spotted before reaching the French coast," the German Radio added. "They were intercepted and many heavy air battles were fought above the clouds."

The broadcast said the raiders concentrated their heaviest attack against the "inner city" of Bonn, which has a population of approximately 100,000.

Bonn, the target of five R.A.F. raids since the war began, is known chiefly for its university and as the birthplace of Beethoven It is a large railway centre on a Rhine Valley line which forms one of Germany's most important north-south communications systems. Its industries include a factory producing light alloys, flour mills and warehouses.

The last previous attack by United States heavy bombers based in Britain was on Kassel, German locomotive production centre July 30.

An Air Ministry communique did not list specific objectives of the Night-raiding Mosquitos.

Coastal observers said the daylight force appeared to be fairly large.

In other operations by the R.A.F. during the night, mines were laid in enemy waters and railway targets in France and the low countries were attacked. One night bomber was reported missing.

German planes retaliated last night in the heaviest raid on Britain in several weeks when about 10 raiders dumped incendiaries on an unnamed southwest coast town.

Eight persons were killed and a number were injured when bombs destroyed a number of dwellings and stores and damaged two schools, a church and a number of shops.

EXTRA!

STRATFORD—W. Angus Dickson, Liberal, today was declared re-elected to the Ontario Legislature for Perth constituency which has been in doubt after the Ontario General Election Aug. 4. His re-election brings the number of Liberals in the 21st Legislature to 15.

OTTAWA—The Federal Government expects that the Montreal aircraft strike involving 20,000 workers there will be settled within 24 hours.

Premier King Extends Warm Welcome To Churchill

The Churchill family, faces wreathed in broad smiles, are greeted on their arrival in Canada on Tuesday by Prime Minister Mackenzie King. LEFT to RIGHT: Mrs. Winston Churchill, Prime Minister Churchill, Mr. King and Subaltern Mary Churchill in the uniform of Britain's A.T.S. The official announcement of Mr. Churchill's arrival stated that he would confer later with President Roosevelt and the combined chiefs of staff of the United States and the United Kingdom.

Severe Damage Done At Terni

By DANIEL DE LUCE
Associated Press War Correspondent

ALLIED HEADQUARTERS IN NORTH AFRICA, Aug. 12 (AP).—American four-engined bombers in strong force heavily bombed Terni, an important railway manufacturing centre 50 miles north of Rome, yesterday in the resumption of large-scale Allied attacks on the Italian mainland.

"The damage was severe," an official statement said, adding that "later photographs showed rolling mills were badly damaged a boiler house probably damaged, a large group of workshops hit, a jute factory almost completely destroyed, two trains left burning and hits scored on both the gas works and the Royal Arms factory."

German Focke - Wulf 190s and Messerschmitt - 109s and Italian Macchi 202s attacked the big Flying Fortress formation.

It was the first time Terni had been attacked by Northwest African bombers and it marked the return of the heaviest Allied bombardment power to targets in the heart of Italy after several days of concentration on enemy communications for supply evacuation in Northeastern Sicily and the toe of Italy.

Heavy attacks in that area continued, with Allied air fleets striking against railways and highway bridges near Angitola and Marina di Catanzaro in the Ital-

Hundreds Of Injured Canadian Soldiers Arrive At Halifax In Big Hospital Ship

HALIFAX, Aug. 12 — (CP).—Several hundred Canadian soldiers and airmen, invalided home mostly as a result of accidents in Britain and illness, arrived here to-day aboard Canada's hospital ship, the former Lady Nelson. Some of the airmen are convalescing from injuries suffered in action.

American soldiers who saw action in North Africa came with the Canadians and will continue to the United States by train.

Most of the Canadian soldiers were injured in accidents in Britain while training for the coming offensive in Europe.

All were glad to get back home after several years in Britain, but regretted being left behind when other Canadians went to Sicily.

Cpl. Lloyd Coffin of Collingwood, Ont., was injured in an explosion while on training manoeuvres in Britain. It is good to see Canada again, he said, but "I'd like to be over there when the fun starts."

"So Mr. Churchill is here in Canada. I bet that means something else will soon start again," exclaimed one of the men.

They were all waiting to get their English money changed to Canadian currency, and all said they were anxious to get home "to see the family."

Churchill Leaves Canada En Route To Unknown Spot

NIAGARA FALLS, N.Y., Aug. 12—(CP).—Mr. Churchill crossed to the American side of the Falls today after a sightseeing trip of 1½ hours on the Canadian side of the cataract.

He was accompanied by his daughter, Subaltern Mary Churchill of Auxiliary Territorial Service, and a large party.

Mr. Churchill, who crossed to the U.S. by automobile, boarded his special six-car train after a brief stay on the American side.

Before boarding his train the Prime Minister gave the "V" salute.

Prime Minister Churchill left one of his cigars behind him today when he left Niagara Falls, N.Y., and a unidentified little Negro boy is the proud possessor.

As his special train drew out of the station, Mr. Churchill, standing on the back platform, saw the lad running down the track after it. Smiling, the Prime Minister drew out his gold cigar case, extracted a cigar and tossed it to the lad. Earlier, in boarding the train, Mr. Churchill handed a little girl the band off a cigar.

Tipped off apparently by his visit to Niagara Falls, Ont., a large crowd cheered the Prime Minister and he responded with the "V" sign.

Sturdy Japanese Fight To Death

ALLIED HEADQUARTERS, The Southwest Pacific, Aug. 12—(AP).—The tenacious quality of the Japanese fighting man is being demonstrated anew within the slowly diminishing area where the enemy is holding out on northern New Georgia.

The battle for Munda ended a week ago today. On that day, United States infantry and marines overran the 4,500-foot airstrip.

Until Munda's capture, Bairoko Harbor to the north of it on the Kula Gulf was technically the supply port for the airfield garrison although in actuality Bairoko was cut off from communication with Munda in mid-July by United States jungle troops. But with Munda's fall, Bairoko's military importance declined and, indeed, the area constituted a potential death trap.

American forces already had one paw set against Bairoko, moving on it from the northeast after putting ashore at Rice Anchorage on July 5.

With Munda's fall, another American force began advancing northward from the airfield, joined the force which came down from the northeast, and effected an encirclement.

Despite this seemingly hopeless situation from the Japanese standpoint, the enemy is putting up fierce resistance.

Today's communique reported widespread air activity against Japanese shipping. It told of the sinking of a 1,500-ton ship, serious damaging of a 2,500-tonner and damag-

STURDY JAPANESE

Eighty Axis Ships Shuttling Across Messina Strait; Rearguard Hampers Allies

Record Umbrella Of Anti-Aircraft Fire Used To Combat Air Force Attacks; Nazis Trying To Save All Heavy Equipment

By NOLAND NORGAARD—Associated Press Staff Writer

WITH THE BRITISH 8TH ARMY IN SICILY, Aug. 12 — (AP).—German evacuation of troops and equipment from Sicily to the Italian mainland was reported to be in full swing today with at least 80 vessels plying night and day across the Messina Strait under a record umbrella of anti-aircraft fire which was growing steadily in intensity.

Strong German rearguards, well entrenched with mortars, machine-guns and artillery, and extensive road demolitions continued to make progress slow for the Allied armies converging on Messina and the evacuation beaches while the bulk of the German troops were being withdrawn.

Determined to save all possible equipment, the German command was reported to have decreed that "the passport to Italy is a gun," meaning that troops must bring their weapons along if they want places in the boats at Messina.

Use Heavy Guns.

British forces advancing along the east coast encountered a skeleton enemy force in a strong line covering the only avenues of approach with heavy mortar fire and a battery of possibly 16 88-millimetre guns.

The narrow, winding mountain roads the Germans were defending made it extremely difficult to dislodge them.

In the centre the key German base of Randazzo has been brought under heavy and light artillery fire. A British 8th Army column is reported more than half way along on the 10-mile road between Bronte and Randazzo while American troops fighting eastward along the road from Cesaro are reported to be three miles from the town.

2 Villages Fall.

On the east coast the villages of Prajola and Zafferana Etna, on the eastern slopes of Mount Etna, fell into the hands of the 8th Army.

(The daily communique, as received in New York, referred to capture of a "village south of Projalo and Zafferana Etna. This dispatch presumably is based on later information.

(The communique again did not mention Canadian troops and there has been speculation that Maj.-Gen. Guy Simonds's 1st Division is resting following its month-long drive from its Pachino beachhead to the slopes of Mount Etna).

The Americans had to fight their way ashore to launch an assault on Cape Orlando at dawn Wednesday and were met immediately by strong German counter-attacks, reports to Headquarters said to-day.

American warships and fighter-bombers covered the landing, pouring shells, bombs and machine-gun fire into German detachments as they surged down the beach to give battle.

Surprise Lacking

The surprise element which contributed to the success of the outflanking of the San Agata-Cesaro line from the sea at the week-end was lacking, but the Americans broke up the counter-attacks, and a field dispatch said they had "successfully established a bridgehead."

The action, near the mouth of the Naso Rover, 40 miles due west of Messina, probably trapped large German forces within a 10-mile area between the main American army attacking frontally along the north coast and the landing party at the rear.

Egihth Army vanguards now are 15 miles north of Catania and within 10 miles of Taormina, the port

EIGHTY AXIS

Mary Churchill Delighted With Niagara

By HAROLD FAIR
Canadian Press Staff Writer

NIAGARA FALLS, Ont., Aug. 12—(CP). — Prime Minister Churchill and his daughter Mary today visited this border tourist centre and then motored across the lower arch bridge over the Niagara River to Niagara Falls, N.Y.

The Prime Minister and his daughter who arrived at Victoria Park station in a six-car special Canadian Pacific Railway train, viewed the Falls area before motoring across the river. Mrs. Churchill remained in Quebec.

They saw the Falls, which Mary pronounced 'absolutely wonderful' the Whirlpool and the monument to General Sir Isaac Brock killed in a battle during the War of 1812.

For the British Prime Minister it was no new sight but for Mary the tour was one that kept her chuckling with delight. She bought souvenir postcards at one point.

"My lad, I saw the Falls before you were born," Mr. Churchill told The Canadian Press when asked if he had been here before. "They have been going quite a long time."

There in 1900

Later he came over and told me he had seen them first in 1900. Asked if they had changed much, he said he had never seen them so green at the top.

Mr. Churchill and his party went to the Falls directly from station where their arrival, news of which had been strictly secret, was witnessed by only a scattered crowd.

Maj. Gen. C. F. Constantine, officer commanding military district No. 2 (Toronto) and Mayor George R. Inglis of Niagara Falls were there to welcome him. A guard of scarlet-coated Royal Canadian Mounted Police was lined up on the platform.

Cmdr. C. R. Thompson, Mr. Churchill's aide, was first out of the train followed by Mary Churchill, a subaltern in Britain's Auxiliary Territorial Service, who was wearing her uniform which had two pips, denoting her rank, on her shoulders.

She told Mrs. Inglis, wife of the Niagara Falls mayor, that she nearly fell out of bed when she heard she was coming to Niagara Falls. She told the mayor that her mother was rather tired and she confided to The Canadian Press that her father had rested well on the overnight train ride.

Serves In A.A. Battery

Miss Churchill chatted for a moment with Lieut. Don Baldwin of Winnipeg, Gen. Constantine's aide. She explained to him that the two red patches at the top of her sleeve denoted her connection with an

Allies Need Post War Study Now

Russia Likely To Be Strongest Leader In Both Europe And Asia

By DEWITT MACKENZIE
Associated Press War Analyst

This column yesterday suggested that one of the problems likely to be discussed in the forthcoming conference between Messrs Churchill and Roosevelt is what policy will bring the best post-war co-operation among Britain, the United States and Russia in particular, and all the Allies in general.

This great issue, as I see it, contemplates the likelihood that the Soviet Union will emerge from the war the dominant power in Europe, and perhaps in the Orient as well. That's the way the cards are falling at present.

Now of course I don't know whether that subject will come before President Roosevelt and Premier Churchill. I just think it's so pressing that it almost inevitably must arise. Next to the winning of the war, there's no question of greater importance today. Vice - President Henry Wallace of the United States pinned the thing down with startling bluntness last March when he declared:

"Unless the western democracies and Russia come to a satisfactory understanding before the war ends, I very much fear that World War No. 3 will be inevitable."

Must Look Ahead

Mr. Wallace isn't the only one who foresees the possibility of conflicting interests. I found it all the way from England, through the Middle East, to Chungking, during my recent 35,000-mile tour. Now on the eve of the Allied conference we see this idea cropping up significantly in the British press.

The Yorkshire Post says Premier Joseph Stalin was invited to attend the conference but wasn't able to accept. The paper then warns that the "hour is at hand when it will be imperative for the United Nations to pursue a united course not only with regard to military operations but equally with regards to the politics of Europe."

The London Times—"The Thunderer"—stresses the necessity for unity among the Americans, British and Russians, and gives as a gloomy alternative "a fresh calamity for Europe." Lord Beaverbrook's London Evening Standard expresses regret at Stalin's absence from the Washington conference. The London Daily Herald says the "time has come when Britain, America and Russia should be announced with a single voice their program for the restoration of political liberty to Europe."

Russia Dominant.

What's the exact point of all this anxiety as the war rushes towards its end. We get many expressions of fear but people seem to be terrified of taking a peep into the closet to see what's there.

Actually, there's no dark secret involved and no reason why it shouldn't be discussed. Better understanding of the probem might help solve the difficulties—if any.

The point is that many astute observers throughout the world believe Russia will, as already stated, dominate Europe and maybe the Far East, because this would represent a volcanic upheaval, a lot of countries are afraid of the consequences. They are particularly fear-

Russia Follows Allied Talks

Red Leader Confers With Envoys In Moscow

LONDON, Aug. 12—(CP)—Premier Joseph Stalin conferred with the British and American ambassadors in Moscow yesterday in talks which appeared to be closely linked with the forthcoming meetings between Prime Minister Churchill and President Roosevelt.

In making the announcement, the Moscow radio offered no comment, but the timing of the meeting, coinciding with preparations in Quebec for the sixth Churchill-Roosevelt war conference, left little doubt here as to its nature.

It had been previously announced that Moscow was being informed closely on all developments in the Italian situation.

Prime Minister Churchill's trip to Canada to continue his personal war conferences with the President produced the confident hope in Britain of Italy's quick surrender and a grand offensive against the Germans before the end of 1943.

Stalin's absence, however, brought some comment from the British press.

"Other means of personal consultation must be found" if the Russian premier cannot leave his own country, the London Times commented.

Americans Raid Jap Isles

Tokyo Warns Bombing To Hit Mainland

NEW YORK, Aug. 12—(AP)—A Japanese broadcast today reported American fliers had attacked the "northern section" of the Kurile island approaches to Japan and warned:

"Further appearances of enemy planes from the north are to be expected."

In a later broadcast, the Tokyo radio identified the planes as eight heavy bombers and said the raiders were Aleutian-based.

The earlier announcement had claimed that Japanese anti-aircraft "promptly repulsed" the American attackers.

The broadcast warned the Japanese that the raid must be regarded as resulting from "positive measures" that the United States had taken to "raid our mainland, Japan, from the north.

The first bombing of Japanese territory from Aleutian-based planes was made on Paramushiru on July 20 without loss.

Airmen reurning to Attu island from that 1,530-mile round trip raid said the bombing was more difficult than the flights they had made against the Japanese base on Attu before it was retaken by American invading forces, and on Kiska, the only remaining Aleutian island still in Japanese hands.

STAFF OFFICERS AND CABINET MINISTERS ARE IN BIG WAR HUDDLE

Hank Rosevear Wins Bickle Trophy

COBOURG, Aug. 12—(ENS)—Hank Rosevear of Port Hope won the lawn bowling doubles at Cobourg last night taking the handsome Bickle Cup. Twenty rinks took part of which nine came from Peterborough and the remainder from Cobourg, Port Hope, Bowmanville and Warkworth. Last year the Bickle Cup was won by George Mitchell of Cobourg. Hank Rosevear and J. McLaughlin were first with three wins plus 8; F. Williams and Rev. W. Blake of Bowmanville were second with three wins 51 plus 1; third were A. G. Dawson and H. Williams of Port Hope with two wins 51 plus 4 and in fourth place were C. Cullen and F. Williamson, Peterborough, with one win 41 plus 14. Following were the game results:

First Game

A. Knight, Cobourg, 11, R. Holland, Cobourg 15

R. Rosevear, Port Hope, 25, R. Herman, Peterborough, 9.

J. Bennett, Cobourg, 7, J. Fitzpatrick, Peterborough 14

M. Smale, Warkworth, 5, J. Cullen, Peterborough, 32

Dr. W. Wilkins, Cobourg, 10, C. Renaud, Peterboruogh, 27

F. Williams, Bowmanville, 16, T. McMillan, Peterborough, 15

A. Dawson, Port Hope, 14, H. Coleman, Peterborough 20

J. Watson, Cobourg, 8, H. Freeman, Peterborough, 15

George Mitchell, Cobourg, 12, R. Downey, 11

N. Kingsbury, Cobourg, 15, S. Lowe, Peterborough, 13

Second Game

Knight 10, McMillan 13
Holland 2, Freeman 24
Rosevear 15, Cullen 10
Norman 10, Dr. Wilkins 17
Bennett 11, Smale 16
Fitzpatrick 19, Mitchell 13
Renaud 13 Williams 17
Dawson 20, Downey 12
Coleman 12, Kingsbury 18
Watson 26, Louve 10

Third Game

Allies Need

Continued from Page 1

ful lest communism should be thrust upon them.

Largest Country.

Russia is the world's largest country in area, occupying one sixth of the earth's surface, and having a population of nearly 200,000,000. It is virtually self-contained, possessing almost every natural resource known to man. It stretches from Europe through to the Pacific—a two-continent Empire.

Already it possesses a titanic strength which potentially would seem to be unlimited. Militarily it's virtually impregnable. Its position as a military power has been established by sensational achievements on the battlefield.

All these circumstances combine to make Russia heir to the politico-economic military domination of Central and Eastern Europe which Hitler threw away when he started out to beat the world. The Soviet influence in the Far East long has been felt, and the war will enhance it.

So there in a very sketchy way are the fundamental facts of the situation. The problem is to work out some agreement among the major powers which will prevent the circumstances from developing adversely.

ing of a third small ship in attacks by heavy bombers on small convoys in the vicinity of New Ireland—supply point for the big enemy base of Rabaul, New Britain. It also told of successes against barges, 18 of which were sunk, in the general area of Japan's menaced air base of Salamaua, on northeastern New Guinea.

Report On Japanese

TORONTO, Aug. 12 (CP)—Board of Control yesterday ordered the city's legal department to prepare a "full report" on the number of Japanese in Toronto and what supervision is over them.

Launch Surprise Sea Attack Outflanking Germans Enemy on Cape Now Trapped

Canadian Left Hook Impressive Battle Manoeuvre

By ROSS MUNRO
Canadian Press War Correspondent

CATANIA, Sicily, Aug. 10 (Delayed) — (CP Cable). — Success of the Canadian - British "left hook" on Aderno takes on greater proportions when the gemeto river battle ground on the plains south of Catania is viewed first hand. That is where the Germans created an impressive defence line of concrete pill boxes, strong points and gun positions.

I drove from Aderno along the 8th Army's fluid new front to Catania and seeing this now broken Nazi line realized more than ever before the vital importance of the wide flanking movement of the Etna line at Aderno. Without it the 8th Army might still be fighting before Catania.

The break-through at Aderno by the Canadians and the magnificent British 78th Division—a veteran of the Tunisian fighting — was a major factor in the enemy withdrawal northward here into the narrow corridor between Mount Etna and the sea.

Airports Ruined

On the outskirts of Catania a group of airdromes from which the Germans pounded Malta and Tunisia was devasted by Allied bombing and shelling. The runways were pitted, the hangars and dispersal areas shattered and 100 or more German fighters, gliders and bombers were lying wrecked.

I thought back to Tunisia where I had seen British planes riddled on the ground by the Germans. Here was full retribution and more. Next to Aderno, this was the most complete bombing I have seen in Sicily.

A road from Catania led south through the plains to the Semito River bridge where British divisions fought a series of rallant actions to establish a bridgehead. Here had been some of the bloodiest fighting in the campaign.

Nazi reserves were moved hastily from Catania to the Aderno sector to try to block the break-through, but the effort was in vain. The Etna line collapsed with the fall of Centruipe and Aderno and the enemy pulled out from the Catania front.

Driving into Catania I felt like a bush-shirted Rip Van Winkle coming down from the hills. It was the first large city with shops, office buildings, and broad avenues I had seen for two months.

Yellow-painted desert trucks of the 8th Army were moving through the streets and British Tommies were at every corner. The people seemed timid but cordial.

On a Kiosk was a poster of Prime Minister Churchill with the words, in Italian, "No matter what the difficulties and tribulations there will be born a new liberty and glory for all humanity." One citizen took pains to point it out to me.

With The Boy Scouts

News is a little late arriving this week owing to the fact that we were waiting the arrival of some American friends.

On Monday evening at the C.P.R. station, Commissioner Wolff, Scouter Earl McNabb, Patrol Leader Bill Hayward and your scribe were on hand to welcome Scouters Keller, Loomis and Richardson and eleven Scouts from Austinburg, Ohio. Following the introductions the party proceeded to one of the local restaurants where the boys were guests of St. John's Wolf Cub pack.

Mr. Bauder, the leader of the party, arrived shortly after, accompanied by three other Scouts. They had made the trip by car which will be used to carry supplies to the camp. The late arrivals went right on through to Scotsman's Point where the party will pitch camp for one week.

Those staying overnight in Peterborough were guests of Mr. and Mrs. Cunningham, Burnham street, Scouter and Mrs. Earl McNabb, Mr. and Mrs. Fraser Watson, Mr. and Mrs. Charles English, Mr. and Mrs. Gamble on Rogers street and your scribe and wife. I would just like to say a big thank you to those mentioned for their kind accomodation.

The party left today for Scotsman's Point for the remainder of this week and will camp on Loon Lake for the second week. We can only add, welcome to Canada, have a good time, and come again.

Rain again upset all our plans to go to the camp grounds and get some more work done on the hut. Received a phone call from our two Gilwell gals, who reported a good time, but were in a hurry getting things together to spend the second week up the lakes.

We were glad to welcome Jack Gray back to town, and that he attended his old pack the first chance he had. Jack is staying with friends at Chemong.

Medicine Bottles Still Wanted

Yes, we want some more medicine bottles for the local Training Centre. Medicine bottles from ½ oz. to 8 ozs. Also vaseline and other similar small jars for ointment. Just phone Mrs. Langhorne and she will arrange for them to be picked up.

St. John's Wolf Cubs

The pack met in Nicholls Oval on Friday last and a series of games were enjoyed. Potato relay, treasure hunt were the main items. We were glad to welcome our old friend, Gray Brother, into the Jungle. This week the pack will meet at Puttick's store, corner of Park and McDonnel, at 7 p.m. sharp. The following week the pack will meet again in the Oval to welcome Baloo and Raksha back to the Jungle.

Word has been received that Rex Rose, a former St. John's Cub Scout and Rover, is now in the navy; also that our friend, Jim Hooper, is down East. Les Groombridge is also down in Quebec City. We are mighty glad to welcome Gordon Clegg back to the city and trust that he will have a steady climb to real health and strength, and that at some future date we may again see him active again in Scouting. Pete Dominik came in from Trenton for Sunday and took Gord and your scribe for a trip to the Scout grounds.

Berlin Schools Moved Away To Safer Points

STOCKHOLM, Aug. 12—(AP)—German dispatches said today that Berlin's entire school system is being moved to undisclosed points in Brandenburg, East Prussia and Warthegau before the capital becomes "another Hamburg."

The dispatches said the city's president announced that all instruction had stopped, although the children have not yet been removed.

City-wide digging of slit trenches, construction of new air raid shelters, reinforcement of old ones and the building of water reservoirs, started two weeks ago, were reported continuing.

Australians Vote

SYDNEY, Australia, Aug. 12 — (CP Cable).—Australian soldiers and airmen in New Guinea and Britain, airmen training in Canada, and many sailors not in their home ports are voting now in the Commonwealth election, but counting of their votes will not begin until after polling day in Australia, August 21.

Amphibious Jab Moves Troops Nearer Messina

ALLIED HEADQUARTERS IN NORTH AFRICA, Aug. 12 (AP).—In a second amphibious flank attack on the north coast of Sicily, units of the American 7th Army have landed east of Cape Orlando and supporting naval guns have beaten off serious enemy counter-attacks, it was announced today.

The Allied headquarters communique said Cape Orlando was outflanked in the surprise attack Tuesday night.

The Americans' first amphibious flanking attack was made three days ago when sea-borne infantrymen landed at the mouth of the Rosmarino River, three miles east of San Agata, where they were joined by the main forces of the American column after the town's capture.

The enemy's forces on the cape presumably faced entrapment.

In the inland drive on Randazzo, the American 7th Army column was reported to have advanced half way along the road from Cesaro to that bitterly defended German stronghold, with the 8th Army attacking northward in close co-operation.

The Germans were fighting a strong rearguard action on the east coast, but the 8th Army driving northward toward Messina has captured a village south of Projaola and the village of Zafferana Etna, on the eastern slopes of Mount Etna about five miles from fallen Guardia.

The area of San Marco E'Alunzio on the North Coast about seven miles behind Cape Orlando has been consolidated by the northern column of the American forces.

Terni Bombed.

Terni, railway communications centre about 100 miles north of Rome, was attacked yesterday by heavy bombers from the Northwest Africa Command and bombs were reported to have struck in the railway yards and on industrial buildings.

Allied fighter-bombers, continuing their sweeps against Nazis shipping, sank four enemy vessels of the Sicilian coasts.

The communique said that one Allied bomber was missing from the operations.

A description of the American coastal operation was contained in a naval communique, which said:

"In the face of stiff enemy resistance, a second amphibious land-

Stores Cannot Force People To Buy Extra

OTTAWA, Aug. 12 — (CP). — The Prices Board today issued an order, effective immediately, making it illegal for a merchant to require a customer to buy additional goods when purchasing other goods which are in short supply. Exceptions are made for any practices of the kind which were established during or before the basic period, Sept. 15 to Oct. 11, 1941, and the order does not apply to goods distributed under Provincial direction, such as alcoholic beverages.

The order will not interfere with the sale of articles ordinarily sold in sets. The Board's announcement said there has been evidence of an increasing tendency on the part of some merchants to impose new conditions when selling goods that are in short supply.

Brazil To Send Army

LISBON, Aug. 12—(AP).—A Brazilian embassy spokesman estimated yesterday that between now and the end of the war, Brazil will send about five or six army divisions—approximately 120,000 men—overseas.

TORONTO PRODUCE

TORONTO, Aug. 12 — (CP).—Eggs: Wholesale to retail, A large 47c, A medium 46c, A pullet 40c, B 35c to 36c, C 33c to 34c, country shippers quoted graded eggs, cases free, A large 43½c to 44c, A medium 42½c to 43c, A pullet 35c, B 31½c to 32c, C 30c.

Butter: First grade solids 33c, second 30c to 31½c.

The brink of Niagara Falls is receding at the average rate of 2½ feet a year.

He Should Enlist

SARNIA, Aug. 12—(CP).—Adelard Montpetit, fined $20 and costs or one month in jail for striking a waitress when she refused to serve him in a restaurant he entered in an allegedly intoxicated condition, was heard to remark: "I'll slap that girl again if I get six months for it." The court called him back and increased his sentence to two months in jail and no optional fine.

200 Entries At Flower Show Aquarium Display Interesting

The Eastern Ontario Gladiolus Society and Peterborough Aquarium Club, holding it first annual show in the Market Hall Wednesday, was a great success and attended by a large number of flower lovers. Over 200 entries were made in the various classes of the gladiola show, and some 750 "spikes" or individual blooms were on display in the hall, including numbers of entries from outside the city. Competition was close, and the judging of the entries was in the hands of G. H. Fitch from the Dale Estate, Brampton.

The spectacle of the many-colored blooms arranged in glass containers and baskets on tables round the hall was further enlivened by 11 tanks of tropical fish which were loaned for exhibition by members of the Aquarium club. There were Siamese fighting fish, black moon fish, angel fish and "Tuxedos," hybrid swordtails among those displayed, and their bright colors mingled with the beautiful gladiola arrangements to form a truly attractive design in the hall.

Winners of prizes for gladiola exhibits entered in the show were as follows:

Class 1—Display of Gladiolas—1 G. H. Clarke, 2 H. Ball.

Class 2—Small basket Gladiolas—1 Mrs. George Benton, 2 Clarence Murray, 3 C. Barnes.

Class 3—Large Basket Gladiolas—1 H. Ball, 2 George Benton, Jr., 3 C. Barnes.

Class 4—Vase of Gladiolas—1 F. Storey, 2 H. Ball, 3 Russel Heard, Woodsville, Ont.

Class 5—Dining Table Decoration—1 G. H. Clarke, 2 H. Ball, 3 H. G. P. Benton.

Class 6—6 Spikes any variety—1 F. Storey, 2 H. Ball.

Class 7—3 Spikes alike—1 G. H. Clarke, 2 F. Storey, 3 Mrs. H. W. Hill, Omemee.

Class 8—3 Spikes different—1 G. H. Clarke, 2 Russel Heard, 3 F. Storey.

Class 9—Best display any other flowers—1 W. G. Benton, 2 H. Ball.

Class 9A—Vase any other flowers—1 Mrs. J. Mock, 2 Mr. J. Mock.

Class 9B—Basket any other flowers—1 G. H. Clarke, 2 F. Storey, 3 Mrs. J. Mock.

Class 10—1 spike white—1 F. Storey, 2 Russell Heard, 3 G. H. Clarke.

Class 11—1 spike Blush White—1 G. H. Clarke, 2 H. Ball, 3 F. Storey.

Class 12—1 spike yellow—1 F. Storey, 2 G. H. Clarke, 3 W. Jewell.

Class 13—Coral and light rose—1 G. H. Clarke, 2 F. Storey, 3 Russell Heard.

Class 14—Salmon and orange—1 F. Storey, 2 G. H. Clarke, 3 H. Ball.

Class 15—Rose and rose salmon—1 G. H. Clarke, 2 W. Jewell, 3 H. Ball.

Class 16—Scarlet and light red—1, G. H. Clarke, 2 W. Jewell, 3 W. G. Benton.

Class 17—Dark red and Maroon—1 G. H. Clarke.

Class 18—Light and deep mauve—1 G. H. Clarke, 2 George Duncan.

Class 19—Purple and deep violet—1 G. H. Clarke, 2 F. Storey, 3 Russell Heard.

Class 20—Smoke shades—1 F. Storey, 2 H. Ball.

Class 21—Conspicuous blotch—1 G. H. Clarke, F. Storey, 3 H. Ball.

Class 22—Novice—Basket of Gladiolas—1 Mrs. Hill, Omemee, Mrs. G. Vass, 3 Roy Taylor.

Class 23—Three spike Gladiolas—1 Mrs. Hill, 2 Clarence Murray.

Class 24—1 spike white shades—1 George Duncan, 2 Mrs. Hill.

Class 25—1 spike yellow shades—1 C. Murray.

Class 26—Salmon shades—1 Mrs. Hill, 2 C. Murray.

Class 27—Red shades—1 Albert Ingham 2, George Duncan.

Class 28—Smoke shades—1 Albert Ingham.

Class 29—Blotch shades—1 George Duncan, 2 Mrs. Hill.

Class 30—Vase of any flowers—1 Mrs. Murray, Bonacord street, 2 Mrs. Maynard.

Best spike in show—F. Storey.

T. Eaton Trophy—Highest number of points in show—G. H. Clarke.

C. G. S. Challenge Cup—F. Storey.

MORE ABOUT—

Severe Damage

Continued from Page 1

ian toe, while scourging bombings and strafings took a heavy toll of enemy vehicles, supply dumps and troop concentrations in the Sicilian bridgehead.

One Allied plane was missing from yesterday's operations. No enemy aircraft was reported destroyed.

R.A.F. Beaufighters attacked two schooners in coastal waters due west of Rome with cannon-fire, damaging a number.

Fire 21 Trucks.

American strafers reported 21 trucks destroyed in the Sicilian battle zone. Barracks were damaged, troop formations machine-gunned and an ammunition dump at Milazzo bombed and left burning. Fighter bombers sank four small vessels in shipping sweeps.

The railway yards at Rosarno behind the German lines also were hit and Randazzo, the enemy's besieged strongpoint, was attacked several times.

R.A.F., U.S., and South African airmen participated in these raids. Half the Angitola highway bridge was reported destroyed.

The enemy failed to intercept in these toe-of-Italy attacks and no anti-aircraft fire was encountered.

Besides its importance as a major railway junction, the Terni target includes four main highways which pass through the city, connecting it with the big Northern Italy industrial section.

MORE ABOUT—

Mary Churchill

(Continued from Page 1)

anti-aircraft battery.

A few moments later Mr. Churchill made his appearance and the small crowd cheered. Wearing a grey fedora, a light grey summer suit, with cuffs on the trousers, he had the inevitable cigar in his mouth and carried a cane. As he descended the steps of the railway car, he gave the familiar V sign.

After the welcome by Mayor Inglis, the party—followed by the press cars, drove through beautiful green Queen Victoria park to Table Rock House at the edge of the horseshoe falls.

With Niagara Falls as a whole apparently unaware of the distinguished visitors, the party drove from the Falls beneath the Rainbow bridge and along the river road to the whirlpool. Hardly anyone stood along the roadside to watch.

From the Whirlpool they went to Queenston Heights where the party saw from the Verandah of Queenston Heights restaurant the broad vista of the Niagara moving towards Lake Ontario.

Scarcely a glance did Mr. Churchill cast at the towering shaft of Brock's monument commemorating General Sir Isaac Brock who was killed trying to storm Queenston Heights in the war of 1812. He told someone it was no stranger to him and when asked if he would like to climb the 175 steps to the top replied: "Wouldn't be good for me at all."

Crosses to America

Like any tourist, Mary selected a group of souvenir postcards in the restaurant but James Brown, the man in charge of the card counter, would not let her pay.

"I'll send you a book as a souvenir," said Mr. Churchill and he asked for Brown's address. With shaking hands, Brown scrawled it out.

Mr. Churchill handed the card to an aide and said: "Send him a book and a photograph."

The Prime Minister bent down and picked up a mignonette from a big bed of the flowers at the entrance to the restaurant as the party left. The motorcade swung away from the restaurant and back up the river road to the lower arch bridge which Mr. Churchill and his party crossed at 9:45 a.m.

Later the special train also was taken across the river to Niagara Falls, N.Y.

MORE ABOUT—

Eighty Axis

(Continued from Page 1)

through which Germans forces in Central Sicily are supplied.

(The point of armed contact in this coastal thrust apparently is at or near the port of Riposto, which lies 10 miles south of Taormina.)

The new American landing behind the German lines developed as other detachments of the 7th Army consolidated positions in the area of San Marco d'Alunzio, between American-held Agata and Cape Orlando.

German shore patrols apparently were keyed up by the San Agata coup, which netted powerful fortifications and about 1,500 prisoners.

Use Fresh Troops

As soon as the fighting started the American warships trained their heavy guns on German troop concentrations and opened up. At the same instant the co-ordinate air support came into action and fighter-bomber squadrons dived on the enemy with guns blazing.

So far as was known here, the landing party has not yet established direct contact with the main American forces west of Cape Orlando.

While it was not officially stated, the principal objective of the amphibious thust presumably was to cut the main north coast road before the Germans could either retreat or move in reinforcements.

Allied field commanders are able to replace weary troops with fresh men and they are capitalizing in every way possible on the Germans' inability to do the same with numerically-inferior strength.

War Experts Continue Quebec Talks

Roosevelt Coming At Early Date For 6th Conference

QUEBEC, Aug. 12 — (CP). — Prime Minister Winston Churchill has left Quebec by train for an unannounced destination, but military staff work continued undiminished here to-day as British, American, and Canadian officers prepared for his return and the arrival shortly of President Roosevelt for the two leaders' sixth wartime meeting.

In the interim Canada virtually is being governed from this old capital of what was once New France.

Mr. Churchill and Prime Minister Mackenzie King held a joint meeting of their respective Cabinet War Committees here yesterday, and in the British Prime Minister's absence most of the Canadian Cabinet is staying here with Mr. King.

Yesterday, Mr. Churchill and Mr. King, the official host to the conferees, completed preliminary conferences at a three-hour session of the War Committees and the British War Cabinet was represented by the Prime Minister and the Lord President of the Council, Sir John Anderson. The Canadian Cabinet War Committee was represented by Mr. King and nine ministers.

Plan Another.

It was the first time such a joint meeting has ever been held and it was stated another session would take place "at a later date."

Throughout yesterday high British, American and Canadian staff officers continued discussions which are expected to occupy them and their army of technical experts and advisors for some time.

They labored, as did the joint Cabinet War Committees, in the Chateau Frontenac, the huge Quebec hotel which has been taken for a 20-day period ending August 27.

No Release Yet.

Presumably the chiefs of staff and other exxperts are working on data upon which Mr. Churchill and President Roosevelt will base their decisions for global strategy, government of occupied and liberated countries, and post-war realization of the objectives of the Atlantic Charter which was announced two years ago to-day.

There may be little news of the conferce now until President Roosevelt comes here some days hence to join with Mr. Churchill in meetings which will cover the entire field of Allied activity at sea, on land and in the air, in Europe

WAR EXPERTS
(Continued on Page 8, Column 2)

How long is 3 weeks, Ivan?

● Hitler boasted he would smash Russia in three weeks . . . Ivan's courage, resourcefulness and fighting skill have already spun those three weeks into a third year.

What is three weeks . . . what is Time itself to Ivan but a succession of minutes, each one marked by the fall of a Nazi soldier.

We have helped Ivan destroy Hitler's time-table by sending planes, tanks, guns, shells, food. It is a proud thing to share even a little in Russia's triumph to this hour.

We who make high-proof alcohol for the smokeless powder in Ivan's high explosives also have a special way of measuring Time. In our plants, wholly converted to war production, we mark the passing of each hour by the thousands of gallons of high-proof alcohol flowing from our giant stills. Three weeks, three months, three years . . . it will go on flowing until the last Axis soldier has laid down either his body or his arms . . . in *unconditional surrender!*

THE HOUSE OF SEAGRAM

ALCOHOL FOR WAR IS USED IN SYNTHETIC RUBBER, MEDICINES, SHATTERPROOF GLASS AND OTHER PRODUCTS. EVERY SEAGRAM PLANT IN CANADA AND THE UNITED STATES IS ENGAGED 100% IN THE PRODUCTION OF HIGH-PROOF ALCOHOL FOR WAR.

O-K PURE WHITE CIGARETTE PAPERS

THIS IS THE KISS SHE GOT FROM JACK

THIS IS THE YEAST SHE USED TO BAKE THE BREAD THAT GOT HER THE KISS FROM JACK

● Use FLEISCHMANN'S fresh YEAST if you bake at home—and be sure of good, wholesome bread. Always dependable — it has been Canada's favorite fresh Yeast for over 70 years. At your grocer's. Ask him for it today!

GET MORE VITAMINS — MORE PEP! Eat 2 cakes of FLEISCHMANN'S fresh Yeast every day. This Yeast is an excellent natural source of the B Complex group of vitamins.

MADE IN CANADA

Unusual Award Given Man Who Drowned

HAMILTON, Ont., Aug. 12 (CP) —Only eight times in the 50 years of Royal Canadian Humane Association awards for herioc deeds has the gold medal of that organization been issued. It is announced today that the eighth in the line has been awarded posthumously to Anthony Bennetti of Waterdown, Ont., for his heroic attempt to rescue three children from drowning in a gravel pond at Aldershot, Ont., June 18, this year.

The Association's citation reads: "Mr. Bennetti, a non-swimmer, not thinking of his own life but that of the children, jumped into the water fully clothed, to the children's rescue. When he got within a few feet of the children they all went under water."

Bronze medals of the Association are awarded to L. Bdr. William Bartlett and Jack Wilson, Burlington, Ont., for attempting to rescue two men from drowning in Lake Ontario, April 28. Bartlett and Wilson paddled out on a plank, using board for paddles, till they came alongside the two men who had been dumped from their craft in choppy waters.

They were unable to bring the men in alive, however, and were themselves in a dangerous situation when they were rescued by Robert Neilson of Burlington, who is awarded the Association's parchment certificate.

Other Parchments

Parchment certificates are awarded also to the following Ontario people:

LAC. H. J. Webb, Brantford, for a rescue from drowning in the Grand River, April 22.

John MacLean, London, Ont., for rescue of a two-year-old boy from a burning house in London, Dec. 10, 1942.

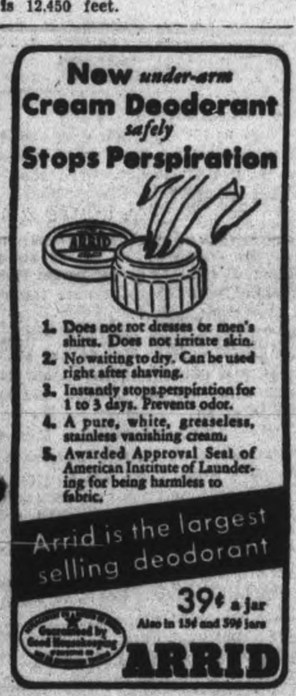
Francis H. Kilbreath, Sarnia, Ont., for a rescue in the St. Clair River, April 6.

Ernest Blackman, Seeley's Bay, Ont., for a rescue in Seeley's Bay, May 19.

William G. Dobson and E. F. J. Swindall, of London, Ont., for saving a number of persons from possible electrocution in London, March 19.

2.2 MILES

The average depth of the oceans is 12,450 feet.



Canada's Army Leaders Back From Britain

High military officials were on hand at Rockcliffe airport, Ottawa, to greet the return of Lieut.-Gen. Kenneth Stuart, Chief of the General Staff, and Col. J. L. Ralston, Minister of National Defence, from their visit to Canadian forces overseas. Pictured, LEFT to RIGHT, are Major-General H. F. G. Letson, Adjutant-General, Lt.-Gen. Stuart, Brig. P. Earnshaw, Deputy Chief of the General Staff (C), Air Vice-Marshal L. D. D. McKean, chief of the United Kingdom Air Liaison Mission, and Col. Ralston.

Mrs. Thomas Ball and Miss Marie Ball of London have been visiting Mr. and Mrs. J. D. Mills, Ranney Street.

Shoe Workers Return

MONTREAL, Aug. 12—(CP). — A settlement was reached yesterday and 500 shoe workers who went on strike Monday for higher wages, agreed to return to work today in three plants—Graceline Footwear, Lasalle Slipper Manufacturing and Fix Shoe Company.

Stalin Sees Envoys

LONDON, Aug. 12—(CP).—Premier Joseph Stalin yesterday received the British and American Ambassadors in Moscow, the Moscow radio announced last night.

CAMPBELLFORD

100 Friends Honor LAC. Fred Stephens

CAMPBELLFORD, Aug. 12 (ENS) —LAC. Fred Stephens, formerly of Seymour township and now stationed with the R.C.A.F. in Toronto was honoured by friends on Tuesday evening as nearly one hundred gathered at the home of his parents, Mr. and Mrs. Alfred Stephens to express their best wishes and present a lovely wrist watch.

Mr. Chas. Mahoney made the presentation and the address was read by Mr. Alex. Stephens who spoke of the R.C.A.F. as a branch of the service which was daily proving itself worthy of the highest traditions of the Empire.

2 Skating Stars Mourn Grandmother

PRESCOTT, Ont., Aug. 12 — (CP). — Funeral services were conducted in St. Mark's Roman Catholic Church here yesterday for Mrs. Thesera McCarthy, 83, widow of David J. McCarthy and resident of Prescott for many years, who died at her home on Sunday.

Born at Perth, she lived here from the time of her marriage.

She is survived by two daughters and three sons. Two granddaughters also survive. They are North McCarthy and Therese McCarthy, Canadian figure skating stars.

County Sells Stamps

COBOURG, Aug. 12—(ENS)—Although final figures are not yet available, it is expected that Northumberland County will attain, and possibly exceed, its objective of $2,970 (33 depth charges) through the sale of war savings stamps and certificates, it was announced by the committee handling the "Stamp Out the U-Boat" campaign. Cobourg raised $2,313,, its objective being $1,260.

Canada Important

NEW YORK, Aug. 12—(CP). — The New York Times said editorially today that the fact Prime Minister Churchill visited Canada first on his current visit to North America, "is in part a recognition of Canada's outstanding contribution to the common war, high-lighted in recent weeks by the splendid performance of the Canadian troops in Sicily."

Belmont Lake News

Miss Valda Webb of Roseneath, has returned home after spending a week as the guest of Mrs. Jim Rogers.

Mr. and Mrs. Pilling and Mr. and Mrs. C. Corbett and family returned to Peterborough on Sunday after spending two weeks in Barries' cottage.

Mr. J. Blackie and party have returned to Cleveland, Ohio, after a vacation in one of Rogers' cottages.

Mr. and Mrs. Lester and family have returned to Hamilton after spending their vacation in the Wannamaker cottage.

Mrs. Tanner and family left on Saturday for their home in Holland, N.Y.

Mr. and Mrs. Jack Lowery and Lynn Lowery and Mr. and Mrs. Milton have returned to their home in Windsor.

Mr. and Mrs. James Goldie and family and Mr. and Mrs. Gledhill, of Peterborough, were recent visitors to the lake.

Guests registered this week at Twin Oaks include Mr. and Mrs. Kendall, Oakville, Mr. and Mrs. Matthews, Hamilton, Mr. and Mrs. Kendall and Glenna Kendall, Toronto.

Miss Doris Tinnerman and Mrs. George Condint, of Toronto, are guests of the latter's parents, Mr. and Mrs. Dan Kennedy.

Mr. and Mrs. Dawson and Mr. and Mrs. Thompson of Peterborough, spent Sunday at Twin Oaks.

Mr. and Mrs. H. Collins, Mr. Fred Collins and friends were Sunday guests at 'Camp Rest.'

Jim Rogers, of Peterborough Basic Training Centre, visited his wife over the week-end at the Log Cabin store.

Mr. and Mrs. Terry Smyth and baby Sharon, of Ottawa, are vacationing in Mrs. Barbour's cabin.

Mr. J. Barrie and family returned over the week-end to Peterborough after a vacation in the 'Cedars' cottage.

On Tuesday Mrs. Prest won the prize offered for the afternoon draw at the get-together of the B.W.V. Fund. Mrs. Harper of Toronto, held the winning ticket on the pie when $5 was realized for the fund.

Mrs. Harper of Toronto, is the guest of Mrs. Prest at 'Camp Rest.'

Mr. Howard Van Tassel, who has recently been discharged from the American army, arrived Saturday after an absence of several years and will spend the remainder of the summer at his cottage.

Mr. Arthur Fennell, Registrar of Toronto University, and friends are spending this month at his cottage.

Dr. and Mrs. Baillie and boys of Toronto, are in the Baillie cottage.

Mr. and Mrs. Kennedy and Sandra have returned to Toronto after spending a week, the guests of Mr. and Mrs. Geo. Hubbel.

Miss Mabel Patterson has returned to Peterborough after spending a few days with her niece and nephew.

Misses Naylor and Bailey of Marmora, were Sunday guests of Miss Gwen Rundle.

Mrs. Porter, Mrs. Wagstaff and Miss Rosenburgh, returned on Saturday to Peterborough after spending two weeks at 'Twin Oaks.'

Mr. Lee Treholm's vacation was cut shot when he was called to make a business flight to New York.

Mrs. Mulligan of Toronto, is the guest of Mrs. Leslie Backus.

CAMPBELLFORD

Teachers' Wages Boost Rate For Township

CAMPBELLFORD, Aug. 12. — (ENS). — Township of Seymour residents will in all likelihood be paying more taxes than they did a year ago when the total rate has finally been set, because school teachers' salaries have had to be boosted in order to keep the rural schools open.

Forecasts of an increase in the total rate was made at the August meeting of the Township Council which was presided over by Reeve W. A. Rowe. It was pointed out that a saving had been effected which permitted the lowering of the township rate but this was offset by increases in the county rate. However, a net saving of .2 mills in the general rate was assured with the passage of a by-law fixing the rates as follows:

General county rate 9.2 mills as compared with 9.0 mills last year; County rate for High and Continuation Schools, 5.2 mills (4.5 in 1942); Township rate 7 mills (8.0 in 1942); General school rate 6.5 mills (6.6 last year); High School trustee rate, S.S. No. 8, 2.8 mills (4.1 last year); Debenture rate, 3.8 mills (3.9 last year).

Cancel Dog Tax.

In response to a letter from L. Akins the amount of his dog tax was cancelled. It was decided to make application to the Workmen's Compensation Board for insurance coverage on workmen in the township.

The following accounts were passed:

Bell Telephone, $2.75; D. T. Petherick, road superintendent, $48.60; A. Waters, labor, $40.41; John Petherick, labor, $24.10; K. Buchanan, labor, $24.10; Charles Bullock, labor, $35.95; George Chard, labor, $35.95; Ralph Kerr, labor, $24.10; W. Madill, labor, $40.00; Mrs. George Johnston, $32.90; Mrs. W. MacDonald, $11.40; W. K. Duncan, gravel and labor, $49.90; Mrs. J. Kelly, $6.00; Douglas Rutherford, labor, $6.50; Ted Iliffe, labor, $133.38; James Carr, labor, $106.65; James Milne, labor, 80c; John Macoun, trucking, $130.05; Allan Johnston, trucking, $101.20; W. Stephens, unemployment insurance stamps, $12.33; B. A. Oil Co., supplies, $66.75; Rowe Bros., repairs, $5.75; Mason Bros., supplies, $64.00; Roofers Supply Co., $268.20; F. E. Smith, labor, $3.60.

Man Crushed By Cars

TORONTO, Aug. 12 — (CP). — John T Macdonald of Rodney, Ontario, died in hospital yesterday a few hours after he was seriously injured when caught between two street cars in downtown Toronto.

Police said Macdonald alighted from a south-bound car on Church Street, crossed in front of it and when he noticed a north-bound car stepped back and was knocked under the wheels of the first tram.

Boosts Tally

WASHINGTON, Aug. 12 (AP).— The Navy Department boosted by 52 planes today the number of Japanese aircraft destroyed during the first 10 days of the present offensive in the Central Solomon islands. The aggregate was raised from 147 to 199 Japanese planes shot down by United States airforces and anti-aircraft units.

The American fliers lost 34 planes but 16 pilots were rescued.

Inspectors Careless

WASHINGTON, Aug. 12—(AP).— The War Department announced yesterday that faulty manufacture and inspection caused the St. Louis glider crash in which 10 persons were killed, and said two Army Air Corps inspectors have been temporarily suspended.

Dies In Sicily

Major J. H. W. T. Pope, second-in-command of the Royal Canadian Regiment, who was killed in action in Sicily. Major Pope, who was 29, had been in the Canadian Army since 1934. He formerly resided in Victoria, Quebec City and Ottawa.

COBOURG

Ration Board Ready For Books

COBOURG, Aug. 12 — (ENS) — Moving day for the Ration Board took place Wednesday when it changed quarters from the town clerk's office to the counties council committee room. The Board is making ready for the task of handing out the new ration books.

A meeting was held Tuesday night to arrange for the new books and it was attended by Mayor Jack Burnet, chairman; Mrs. Frank Spooner, Mrs. W. J. Spragge, Miss Madeline Rooney, Reeve A. Hardnden of Haldimand Township, Reeve W. Cole of Hamilton Township; Reeve H. Davidson of Alnwick and Reeve F. Banard of South Monaghan Township. Mrs. Edith Winter is the new ration board secretary, succeeding Miss Kay Shorey who has joined the W.R.C.N.S.

Hours Open

The local ration board office will be open from 9 in the morning until 6 p.m. throughout the week of August 23 to 28. In Hamilton Township the ration books will be issued on Aug. 24, 25 and 26 at the home of Archie Bowman, Baltimore; Mrs. Merwin Grieve, Cambourne; Frank Shier, Coldsprings; Ken Curtis' store at Plainville; M. F. Ames, Gores' Landing; Charles Burrison's store, Harwood; Mrs. H. Goss, Bewdley; Earnest Holdsworth, Bethel Grove.

In Haldimand township the books will be issued Aug. 24, 25, 26 at Adam's Store, Lakeport; Peter Brahaney, Burnley; Mrs. S. McBride, Centreton; Mrs. Charles Child, Fenella; Jack Johnston, Grafton; Miss Mary Broomfield, Vernonville; J. W. Winney's store, Wicklow; Reeve A. Harnden, Eddystone. In Alnwick Township the ration books will be issued at School No. 1 and 25; Township Hall, Roseneath; No. 3 School and Alderville School. The books will be handed out in Alnwick at a date to be announced later.

In South Monaghan they will be issued on Aug. 28 in the township hall at Bensfort and on Aug. 23 at South Monaghan municipal hall.

About 13,040 books will be handed out in this district.

Obituary

JOHN RUSSELL.

COBOURG, Aug. 12—(ENS).—One of Cobourg's best known figures, John Russell, died in his 81st year Wednesday after several months of poor health. He had been a resident of this town for over 20 years and was born in Hamilton township, the son of the late Mr. and Mrs. James Russell. His father was an early settler of the Plainville district.

Mr. John Russell farmed for many years until he retired and came to Cobourg to reside. For some time he served on the Town Council and was also an active worker in the United Church and a keen supporter of the Red Cross and other worthy projects.

The late Mr. Russell is survived by one daughter, Mrs. Charles M. Nichols, of Cobourg; a brother, Archie, and a sister, Helen, both of Cobourg. The funeral will take place from the family residence on William Street to Cobourg Union Cemetery, and the service will be conducted by Rev. W. P. Woodger of Trinity United Church.

Discuss Future Plans

WASHINGTON, Aug. 12—(AP).— Dr. A. Loudon, the Netherlands Ambassador, said after a meeting of the Pacific War Council at the White House Wednesday that the group discussed "future strategy" with President Roosevelt. Canada was represented by Merchant Mahoney, counsellor of the Canadian Legation.

Leaders Chat At Opening

Lieut.-Col. Margaret Eaton, Montreal and Toronto, who is in command of the 150 or more C.W.A.C.'s housed in the barracks at Washington, is pictured as she chatted with Major Ruth C. Streeter, U.S.M.C., at the official opening.

The Bye-Election Results

Bye-elections were held on Monday last in Montreal Cartier and Stanstead In Quebec, in Selkirk, Manitoba, and Humboldt in Saskatchewan, and the Federal Government was not upheld in any one of them. There are, we believe, two reasons for the result: first of all, the present federal administration has incurred great unpopularity through the restrictive laws and high taxes which it has introduced as wartime measures; and second, because the Progressive Conservative party did not put up a candidate in any of the ridings, and thus the anti-government vote was more concentrated than it would otherwise have been. Doubtless this decision on the part of Mr. Bracken was shrewd politics; it helped greatly in painting a picture of a discredited government at Ottawa; but it did not give a clear picture of Canadian political sentiment as it stands in relation to all the parties in the field.

* * *

The results invite the close attention of thoughtful Canadians. In Montreal Cartier, for example, the elected candidate was a Communist who has been jailed for his work in that interest, and who was a fugitive from the Defence of Canada laws during the first two years of this war. He ran a close race with a Bloc Populaire candidate, a member of a palpably Fascist group, whose leader, Henri Bourassa, had the face recently to hail Italy and Spain as the true Christian states of the modern world. The Liberal and C.C.F. candidates showed up very poorly beside these strange prophets. In Stanstead also, which has been a Liberal riding for many years, the Bloc Populaire man was elected. Why were the Liberals defeated in these two Quebec ridings? Because the Mackenzie King government, whatever its detractors may say, has dealt firmly with Quebec on many matters respecting the war, and Quebec does not like to be handled firmly. A spoiled child, it must have its own way or it will scream. In choosing these two strange representatives, Quebec has given the lie to those who say that the Liberal government has been choking Quebec with cream.

* * *

In the West two C.C.F. members were elected; in Selkirk, where the Hon. Joseph Thorson had a majority of 5,000 in 1940 the Liberal candidate lost his deposit. There was some hope that Mr. Bracken might stand in that riding, and the Liberals had promised not to oppose him, but he chose not to do so. Perhaps he was wise, for the popularity of Mr. William Bryce appears to be overwhelming. And in Humboldt the C.C.F. victory was decisive, though not so spectacular as in Selkirk.

* * *

No party can congratulate itself whole-heartedly on these results. The victory of the C.C.F. in the West was offset by the defeat of their national secretary in Montreal Cartier, where he came fourth in a field of five, and lost to that worst enemy of the C.C.F., the Communist party in Canada. The Liberals have taken a sound drubbing everywhere. The election of a Bloc Populaire candidate can give no satisfaction to anyone save the small group of zealots which comprises that decidedly unpopular bloc. The Communists, in spite of one success, know how limited their future is in this Dominion; at most they can aspire to become a nuisance group in Parliament. The results of the bye-elections, indeed, show little save that Canada is heading toward a jumble of parties, all of widely divergent opinion. As the Montreal *Gazette* ruefully expresses it: "It is not far-fetched to suggest that if an election were to be held tomorrow, the result might be a Parliament of particles rather than parties ... It is time for Canadians to reflect soberly upon the fate of democracy in France, where parties multiplied until freedom vanished".

* * *

Meanwhile, what of Mr Mackenzie King, whom a section of the press has declared to have been "repudiated" on the strength of these results. As he enters his twenty-fifth year as a party leader we fancy that Mr. King knows enough about the unsteady breath of popular opinion to put a proper value on such manifestations. He need not appeal to the people until 1945, and in the intervening time many things can happen. A few popular moves, a few concessions, a few taxes and restrictions lifted would turn the cold blast into a warm and spicy breeze, blowing him back into power. But wars cannot be fought by courting the people at home, and we predict that Mr. King will stick to the course which he has charted for Canada until the job is done, or until he is turned out in favour of a captain who makes fairer promises. Of his twenty-five years as a leader, more than half have been spent in power, and those who have possessed great power are sometimes glad to relinquish it. Of the man himself, we are happy to reprint this handsome tribute from the Ottawa *Citizen*:

> Whatever the next swing of the pendulum in party politics may be, Mr. Mackenzie King's record as Prime Minister is unique. He has made a distinctive place for himself in Canadian history. As he goes forward into another year of leadership, at the helm of the ship of state in Canada's most momentous year, it is a fitting occasion to set aside party differences and animosities to pay tribute to a great Canadian, William Lyon Mackenzie King.

Whatever the future may hold for him, a man of whom that can be said while he is the war leader of his country need not feel that he has been baulked of power, popular acclaim, or true appreciation.

The Old Frankenstein Muddle

A tireless fighter in A. P. Herbert's Word War, we really must fire a volley at the Toronto *Globe and Mail* for a shocking misuse of the word "Frankenstein". In its issue of Wednesday last, in a leading editorial, this sentence appears: "For his own and his party's undoing, Mr. King, intent mainly upon preserving the ascendancy of his party, went one better than Mary Shelley's hero in that he raised up two Frankensteins". Angels and ministers of grace defend us!

The writer of this sentence clearly knows that Mrs. Shelley wrote *Frankenstein, or The Modern Prometheus*, but has not read the book. If he had done so he would know that the hero himself was named Frankenstein, that he created a full-grown man, and thus did not "raise him up", and that the monster created by Frankenstein had no name.

Among illiterate and careless speakers, and among those whose chief source of cultural nutriment is Hollywood, accuracy in speaking of Frankenstein has—as the G. and M. itself would undoubtedly phrase it—"gone where the woodbine twineth". But we expect something better from a journal calling itself Canada's National Newspaper.

The Vengeance Of Goering

When, early in June, a Lisbon-to-London passenger plane was shot down by the Germans the explanation was offered that the enemy may have thought that Mr. Churchill was on the plane, and wanted to destroy him. That is possible, but hardly likely. It is not hard to find out who travels on the Lisbon planes, and recent visitors to that city are convinced that the Germans have a passenger list of every plane.

It is possible, therefore, that the attack which killed Leslie Howard, among others, was aimed at the actor. Since the outbreak of war Howard had busied himself with propaganda films, in which he was unusually successful. One of his best was a fine piece of anti-Nazi propaganda in which Howard played the part of Pimpernel Smith, an ingenious Englishman who spirited refugees out of Germany. In the last scenes of that film Howard, in his role, was shown defying the threats of Goering himself, and returning triumphantly to England.

Could the destruction of the plane in which Howard travelled have been the result of personal spite? The Nazi bigwigs are incredibly touchy, jealous and petty in such matters. Perhaps Howard paid for his screen appearance with his life, to avenge the injured self-love of Hermann Goering.

NOTE AND COMMENT

Many a German town which used to be an important railway centre has become an even more important air terminus.

Hitler is reported to be "apathetic and depressed" these days. Never mind; when the R.A.F. starts on Berlin they'll put some ginger in him.

We are constantly being advised to take war reports with a grain of salt. Now if we have always felt that a pinch of salt is greatly improved by dropping a large beefsteak on it.

Now that milkweed is worth three cents a pound we suppose that the stuff will become pernickety about its soil, choosy about fertilizers and susceptible to draughts.

An Exchange Of Letters

FOLLOWING are the texts of letters exchanged between General Charles de Gaulle and General Henri Giraud following the recent unification of Fighting French forces in North Africa, General de Gaulle's last order to the Fighting French forces, and General Giraud's first order to the French army, which we feel are of interest to the general public:

◇ ◇ ◇

FOLLOWING the deliberations of the French Committee of National Liberation, General Giraud sent the following letter to General de Gaulle:

Algiers, July 31.

My Dear General,—

"This morning we have made great strides towards the unity of our country. There are no longer two armies. There is a French army, of which you have recognized me as commander, and I thank you for it.

"Tell those who have followed you from the first day, and of whose suffering, hope and bravery I am well aware, that I know what they have done, and that I am certain of what they will do. Little by little, I am certain that with loyalty and sincerity, diverging points of view will be brought together, and we will again find ourselves, all of us, what we have never ceased to be—soldiers of France.

"I ask all of them to keep their admiration and affection for you, and to give me the confidence and devotion which the African army has always shown me, so that we may accomplish the sublime task which claims us all—the liberation of France."

To our meeting soon in liberated Metz,
Very cordially yours,
Signed: HENRI GIRAUD.

General de Gaulle replied as follows:

Algiers, August 2.

My Dear General,—

"Your letter touched me deeply, and will go right to the heart of the Fighting French forces. Since the misfortunes of the Battle of France, they have been the rear guard of our army. Circumstances of which they never despaired have been such that this rear guard has become the van guard. In the French military organization now rebuilt, they will preserve their identity, their character, and at the same time, their order.

"The French Committee of National Liberation has made you commander-in-chief of all the available forces of our army. I am sure they will follow you with all the confidence and devotion merited by the great soldier and and the great leader that you are.

"Tomorrow, with the help of God, you will lead them into the decisive battle which will liberate our country."

With fraternal greetings.
Signed: CHARLES DE GAULLE.

◇ ◇ ◇

AFTER the exchange of correspondence, General de Gaulle sent the following order of the day:

Algiers, August 2.

"Officers, non-commissioned officers, soldiers, sailors and airmen of the French Committee of National Liberation—My comrades, for more than three years now you have been fighting for our country. Events have entirely justified your attitude; the voice of France, which you never doubted, has at last made itself heard. The unity of the French army has now been re-established. All that remain of the available forces of France find themselves gathered together to march against the enemy. A glorious leader, General Giraud, has been made commander-in-chief.

"Happy at being reunited with comrades whose van guard you were, you will remain the crusaders of the Cross of Lorraine, constituting a fraternal, model unit fighting in the front lines until France is victorious.

"Later, our country will need your ardor and your enthusiasm for the immense work of renovation.

As for me, to whom you have accorded the greatest honor that a man can know, that is, to be followed, voluntarily, in effort and in sacrifice, I remain at the post where I have been called to serve, bound to you more closely than ever."

Vive la France!
Signed: CHARLES DE GAULLE.

◇ ◇ ◇

IN his turn, General Giraud sent the following general order:

Algiers, August 3.

General order number one.

"Officer, non-commissioned officers, corporals, soldiers and sailors of the French army, reunited under my command, I salute our flags and bow before our dead.

"There is a single important task: deliver France; deliver our prisoners. It is to this task that I ask you to consecrate yourselves; to direct all your spirit and all your strength. You have shown the world—our allies as to our enemies—that you wanted to fight, even without arms. You will prove to them tomorrow that you will, and can fight with whatever modern weapons there be.

"I ask you all that obedience in which consists the chief strength of armies; devotion, which creates confidence, and gaiety which inspires enthusiasm.

"France is the country of hope. I am sure that you all believe in the resurrection of eternal France. We all have our eyes fixed over there where those we love and those who love us are waiting for us, calling to us, trusting us."

Signed: GENERAL GIRAUD,
Commander-in-Chief.

Unconsidered Trifles

"It seems to me, Mary, that you're marrying very hastily. What is the policeman's name?".

"I don't know his name, but I've got his number."

◇ ◇ ◇

Teacher: "Now, Monty, can you tell me what a grape is?"

Monty: "A gooseberry that's had a shave, sir."

◇ ◇ ◇

Customer—"My goodness, eggs are high."
Grocer—"Sure, part of the war program."
Customer—"How?"
Grocer—"All the hens are making shells."

◇ ◇ ◇

Ethel: "She's sorry enough that she married him, I'll wager."

Mabel: "The idea! How can you say that? He thinks her a perfect angel, and treats her—"

"As though she really were one. He doesn't buy her anything to wear."

BRIDGE

A Lament for Musical Boxes

THE mechanical genius of the present age has decreed that if Mahomet cannot go to the mountain, then the mountain must go to Mahomet; or, in other words, if man does not want to go forth in search of music, he can stay comfortably at home and have it brought to him there. But even in those unenlightened days we had our makeshifts for the genuine article. My father nourished a passion for musical boxes of every description, and the house almost overflowed with them. Some were cunningly designed as bits of ordinary domestic furniture or objects of common use, and the visitor who hung up his hat on a certain peg of the hall rack, or who absent-mindedly abstracted the wrong umbrella from the stand, would be startled at having provoked into life the cheerful strains of William Tell or Fra Diavolo. But others were serious and solid affairs, elaborate of build, full of strange devices and bringing forth sounds of elfin delight. That delicate tintinnabulating tone, those laughing cascades of crystalline notes, that extravagance of ornament truly rococo, the comic battery of drums and other tiny clattering things, how I loved them then, and how I lament their absence now! For they would seem to have vanished utterly from the earth like a part of some submerged civilization, and though I have wandered over most of the land of their origin in search of surviving specimens, a generation has grown up to which they are almost as unfamiliar as the velocipede or spinning wheel. And yet to have them back again I would cheerfully throw into the sea or on to the dust heap most of those triumphs of modern invention which claim to be trustworthier instruments of reproduction.... Although toys, and none pretended they were anything better, they were lovely toys and harmless to offend the most fastidious ear. Hearing them render anything grave or monumental suggested tiny copies of Michael Angelo or John of Bologna done in Dresden or Chelsea porcelain, and if one could not help laughing, at all events the laughter was kindly and affectionate. — From "A Mingled Chime," by Sir Thomas Beecham. (New York: Putnam.)

The Responsibility of Us All

FIRST, to determine what we want to win, it is clearly necessary to reach substantial agreement with our Allies. Here, as in our own Revolution, agreement in detail is not necessary, or even desirable. But unless we are to repeat the unhappy history of the last war, agreement in principle must be won. Moreover, it must exist not just among the leaders of the Allies. The basic agreement I am thinking of must be established among the Allied people themselves. We must make sure that we are all fighting for essentially the same thing.

Now what does this mean? It means that every one of us has the obligation to speak out, to exchange ideas, freely and frankly, across the Pacific, across the Atlantic, and here at home. Unless the British people know the way we are thinking in America, and take it to heart, and unless we have a similar idea of what they are thinking in England and in the Commonwealth, there can be no hope of agreement. We must know what the people of Russia and China aim for and we must let them know our aims....

We have been told, for example, that private citizens, particularly those not expert in military affairs or those unconnected with government, should refrain from making suggestions about the conduct of the war—military, industrial, economic, or political. It is said that we must remain silent and allow our leaders and the experts to solve these problems unmolested.

This position threatens, I believe, to become a tight wall which will keep the truth out and lock misrepresentation and false security within. I reported to the American people when I returned last fall that in many important respects we were not doing a good job; that we were on the road to winning the war, but that we ran a heavy risk of spending far more in men and materials than we need to spend. That report was based on facts. Such facts should not be censored. They should be given to us all. For unless we recognize and correct our mistakes, we may lose the friendship of half our Allies before the war is over and then lose the peace.

It is plain that to win this war we must make it our war, the war of us all. — From "One World," by Wendell L. Willkie. (New York: Simon & Schuster.)

Comradeship Which Will Endure

ON the mutual understanding of each other by Britons and Americans the future happiness of nations depends more than on any other world cause....

Americans and Britons both, we must and will think for ourselves, and know why we do a thing before we do it. We have that ingrained respect for the individual conscience which is at the bottom of all free institutions....

I do not believe in formal alliances or in grouping nations to exclude and keep down other nations. Friendships between countries should have the only true reality of common sentiment, and be animated by desire for the general welfare of mankind. We need no formal bonds, but we have a sacred charge in common, to let no petty matters, differences of manner, or divergences of material interest, destroy our spiritual agreement. Our pasts, our geographical positions, our temperaments make us, beyond all other races, the hope and trustees of mankind's advance along the only lines now open—democratic internationalism. It is childish to claim for Americans or Britons virtues beyond those of other nations, or to believe in the superiority of one national culture to another; they are different, that is all. It is by accident that we find ourselves in this position of guardianship to the main line of human development.... But we are at a great and critical moment in the world's history....

Under the pressure of this war there is, beneath the lip-service we pay to democracy, a disposition to lose faith in it because of its undoubted weakness and inconvenience in a struggle with states autocratically governed; there is even a sort of secret reaction to autocracy. On those lines there is no way out of a future of bitter rivalries, chicanery and wars, and the probable total failure of our civilization. The only cure which I can see lies in democratizing the whole world and removing the present weaknesses and shams of democracy by education of the individual conscience in every country. Good-by to that chance if Americans and Britons fall foul of each other, refuse to pool their thoughts and hopes, and to keep the general welfare of mankind in view. They have got to stand together, not in aggressive and jealous policies, but in defense and championship of the self-helpful, self-governing, "live and let live" philosophy of life.

The house of the future is always dark. There are few cornerstones to be discerned....But of these few one is the brotherhood and bond of the English-speaking races, not for narrow purposes, but that mankind may yet see faith and good-will enshrined, yet breathe a sweeter air, and know a life where Beauty passes, with the sun on her wings....

In the climb to that mountain top of a happy life for mankind our two great nations are as guides who go before, roped together in perilous ascent. On their nerve, loyalty, and wisdom the adventure now hangs....

We shall not fail—neither ourselves, nor each other. Our comradeship will endure. — From "Addresses in America," by John Galsworthy. (New York: Scribner, 1919.)

Hard To Believe How Time Flies

AUGUST 12

1913 City Council has made arangement for a five years' supply of crushed stone.

Mrs. E. A. Cooke, sister of H. R. H. Kenner is dead at Revelstoke, B.C.

John A. McNabb of Peterborough has been elected president of the Canadian Window Trimmers' Association.

Careless campers are blamed for bad bush fires raging around Pigeon and Ball Lakes.

Rinks skipped by R. M. Waddell and J. E. Fitzgerald are attending the Dominion bowling tourney in Toronto.

1923 Board of Health decides in future to take specimens of milk for testing without any previous warning.

The Examiner carries a story of the departure of the first harvesters' excursion of the season.

The Peterborough Lumber Company's limits are threatened by a bush fire raging close by.

Rev. Thomas Mark of Cochrane addresses the Peterborough Royal Black Knights.

Peterborough ball club defeats Cobourg 12 to 1 in the opening game of the second half of the Central Ontario League race.

1933 One hundred unemployed picket an East City home where eviction proceedings are threatened.

A street dance sponsored by the Millbrook Agricultural Society is attended by more than 1,200 people.

Miss Whitton of Aviston has been appointed principal of the Havelock Continuation School at a salary set by the board at $1,200 a year.

Kingston Ponies even up the playoff series by defeating the Petes here 6 to 0, getting five runs off Russ Kitchen in the first innings. Yammy Jamieson pitches for the winners.

IN WAR TIME

1918 Lieut. Reginald Stratton of Peterborough has been awarded a bar to the Military Cross which he won last year.

Word has been received of the wounding overseas of Capt. T. B. Marling of Lakefield, who was one of the officers of the 93rd Battalion.

J. H. Burnham threatens to call a public meeting to protest against the proposed importation of cheap labor into Canada.

An automobile owned by P. J. Moore is struck and damaged by a street car on Charlotte street.

Skips Walter Oke and J. A. McKone of Peterborough are taking part in the Dominion lawn bowling tourney in Toronto.

A Bible Message

(From the Authorized Version)

BUT now thus saith the Lord that created thee, O Jacob, and he that formed thee, O Israel, Fear not' for I have redeemed thee, I have called thee by thy name; thou art mine....

I will say to the north, Give up; and to the south, Keep not back: bring my sons from far, and my daughters from the ends of the earth; even every one that is called by my name: for I have created him for my glory, I have formed him; yea, I have made him....

Ye are my witnesses, saith the Lord, and my servant whom I have chosen: that ye may know and believe me, and understand that I am he: before me there was no God formed, neither shall there be after me.

I, even I, am the Lord; and beside me there is no saviour. I have declared, and have saved, and I have shewed, when there was no strange god among you: therefore ye are my witnesses, saith the Lord, that I am God. (Isa. 43: 1, 6, 7, 10-12.)

◇ ◇ ◇

Be ye therefore perfect, even as your Father which is in heaven is perfect. (Matt. 5: 48.)

Letter To The Editor

NOT WELCOME ON FARMS

Editor, Examiner.

Sir,—City Dweller should read some of the discussions in some of the farm magazines about city visitors to the farm in the summer. There must be others like her who enjoy the cream, chickens, fruit and vegetables which the farmers work so hard to produce and then tell their friends how well the farmers fare. They do not stop to think that the farmers could sell what they give free to this type of unwelcome city visitor.

One farmer's wife thought that when these city women do not feel like preparing Sunday dinner they fill the car with family and friends and go off to the country for a good meal. Another was thankful the gas shortage would cut down the number of such visitors. A third wrote that she served bread, butter and milk to one family, and they never came back.

Another stated that any meal served in a farm home could be exactly duplicated on any city table. Also the average city man can earn enough to pay for the farm produce of the meal in less time than the farmer takes to grow the same materials.

Farmers' families are glad to see their relatives and close friends, but farmer wives are very tired after a week of hard work and need a rest from cooking for casual acquaintances.

City Dweller should know that country people work harder out in the air and require more food than the indoor workers. If the farm woman has to churn to get enough butter that is one more extra task for her in these busy times.

Lifelong Co-operator had better go back to the farm if he thinks it is so wonderful. He expects to pay as little for everything from the farm as he got when he lived there.

It is mean talk by such as he that is driving the girls and boys from the farms.

I agree with all that Co-operator wrote. We are tired of the cry for a ceiling as soon as the price of something that is scarce, goes up. The farmers are no further ahead because they haven't as much to sell.

G.L.

TAKE YOUR CHOICE

A nervous girl was chatting to her vicar about fishing, on which she was keen.

"Did you manage to get any fishing while you were away?" inquired the vicar.

"Oh, yes," replied the girl. "Quite a lot—mostly perch and chub, though they're not particularly nice to eat. Which do you prefer, vicar, she added, "cherch or pub?"

Two Officers Killed In Short Time

LONDON, Aug. 12 (CP).—Major J. H. W. T. Pope, of the Royal Canadian Regiment, who took over the command of that unit Monday in Sicily after its commanding officer, Lt.-Col. Ralph Crowe, had been killed in action, was himself killed shortly afterwards, his mother was informed here last night. Considered by high army officials to be one of the most brilliant young officers in the Canadian Army, Major Pope was only 29.

His wife, the former Miss Mary Kinghorn, resided at "Rayorham," Parkville, B.C., with their three-year-old daughter, Sarah. His father, Col. E. W. Pope, lives in Victoria and his mother had come recently to London from there to dispose of her home here. She is the former Margaret Marie Ginge.

Major Pope was well-known in the Canadian Army as the author of pamphlets used by basic training units, written while he was on the headquarters staff at Ottawa before proceeding overseas in July, 1941.

In September, 1939, Major Pope was promoted to the rank of captain in the R.C.R. and in January, 1940, was appointed adjutant of the Training Centre in Toronto. From this post he went to headquarters at Ottawa, where he was made a major and appointed G.S.O. 2. When he went overseas he held the rank of brigade major and graduated last year from the famous staff college at Camberley, Eng.

The first of his family, which is well-known in Canadian military circles, to give his life in the present conflict, Major Pope has two brothers, Joseph and Hugh Frances, of London, both taking basic training at Stratford.

New SANDWICH FAVOURITE

Mix equal parts of French's Mustard and butter and use as a sandwich filling. Easy and a big favourite with all! Try it in tomorrow's lunch box.

C.W.A.C.'s Take Over Famous Mansion

Where satin-gowned ladies once glittered, khaki-clad C.W.A.C.'s now gather. The Townsend mansion, elegant home of American Undersecretary of State and Mrs. Sumner Welles, is now officially the Canadian Army's girls' barracks in Washington, D.C. Some of the girls are pictured ABOVE enjoying their recreation room, which is in the huge ballroom. It is bare now except for a piano and a recording machine. From the 15-foot ceiling hang two eight-foot crystal chandeliers.

Kiska Invasion Likely At Early Date

By JOHN M. HIGHTOWER
Associated Press Staff Writer.

WASHINGTON, Aug. 12 (AP).—Prolonged silence on American military activity in the north Pacific raised new speculation today over the imminence of an invasion of Japanese-held Kiska Island.

The last reported action at Kiska was 12 days ago, when a naval force shelled defence positions for the eighth time in July.

Usually well-informed quarters here profess to be without information on the fighting in the Aleutians since then, and cite the weather as a possible explanation for the apparent inactivity. In the past, fog and storm have made operations impossible for several days at a time but except in mid-winter have not caused a halt of as much as 12 days.

Keeping Quiet.

One explanation discussed unofficially is that the American commanders in the Aleutians have been gathering their forces for a final campaign to reconquer Kiska. Another is that any operations which might be in progress preliminary to such a campaign are not being disclosed for strategical reasons.

Whatever Tokyo finds out about its beleaguered garrison, therefore, must come from Kiska itself and the Japanese there might be heaving trouble furnishing adequate reports. Their communications equipment, like all their other installations, must have taken a heavy beating in sea and air assaults.

Reconquest of the island has been a subject of speculation ever since the Japanese occupied it early in June, 1942. The prospects of an ... greatly

... friends in Peterborough and Smith.

Mr. and Mrs. W. Sykes, of Warkworth, spent Wednesday at the Clysdale home. Master Eddie returned with them after a holiday with his grandparents.

Master Allan Forsyth returned on Saturday after a two weeks' holiday with his grandfather, Jas. Collins, of Keene.

Mr. and Mrs. Max Telford, of Peterborough, were week-end guests at the Tedford home.

Mr. William Tighe visited his brother, Mr. Ed. Tighe, North Douro, who has a broken jaw.

Mr. and Mrs. Roy Barrett, of Fenelon Falls, were Sunday guests with Mr. Raymond Armstrong.

Sunday guests with Mr. and Mrs. Percy Hall were: Mr. and Mrs. Ronald Clements and family, Mr. and Mrs. M. McManus of Peterborough, and Mr. and Mrs. Harold Clifford, of Warsaw.

Miss Barbara Harris, of Peterborough, is spending a holiday with Mrs. Armstrong.

Mr. and Mrs. Russel Mundell, of Smith, were Sunday guests at the Tedford home.

Mr. and Mrs. George Clysdale were in Warkworth on Friday.

Mr. and Mrs. Ed. Clancy and family were Sunday evening guests of Mr. and Mrs. Thomas Fitzgerald.

Mr. and Mrs. Bruce Kidd and family and Mr. and Mrs. David Nelson and family spent Sunday at Birdsall, guests of Mr. and Mrs. Pacey and Mr. and Mrs. Dunlop.

Mr. and Mrs. Bob Greer and Jimmie, of Toronto, spent last week at the Kidd home.

Landed On Cow

Flight-Lieut. Vaughan Ganderton, bomber pilot from Edmonton, Alta., made a safe but rather undignified parachute landing in southern England not long ago—he came down on the back of a cow. He and his crew were forced to bail out when their aircraft was put out of action by an enemy night fighter on the way to Cologne, and had to turn back. None of thet crew was injured by the machine-gun and cannon fire which disabled their "kite."

HASTINGS

School Section Gives Shower For Teacher

HASTINGS, Aug. 12.—(ENS).—Over 100 friends gathered at Fleming's School on Monday evening at a miscellaneous shower in honor of Miss Ena Revoir of Havelock (previous teacher of the school), whose marriage to Gerald Mulligan of Bethany will take place on Thursday evening.

During the evening Mrs. Basil Johnston presented them with a table decorated in pink and white, laden with gifts.

The evening was spent in dancing, with music supplied by James Beamish and Marvyn Preston. Lunch was served at midnight. Friends were present from Hastings, Havelock, Trent Bridge and the district.

Bishop Installed At Ogdensburg

OGDENSBURG, N.Y., Aug. 12—(CP) — The Most Rev. Bryan J. McEntegart was installed yesterday as fifth Bishop of the Roman Catholic Diocese of Ogdensburg before an assemblage that included Archbishop Alexandre Vachon of Ottawa, a Chinese bishop, nine other bishops, and 300 priests.

Bishop McEntegart takes over the Adirondack See, which covers all of Northern New York along the Canadian border from Lake Ontario to Lake Champlain and extends southward to within a few miles of the Mohawk Valley, with a 25-year record as a charity worker.

1868 "BONESHAKER"

With candid courage, the manufacturer of this rugged model called it from the first, "The Boneshaker". Rugged, even primitive though its design may seem today, this was a leading quality bicycle in the early seventies of the last century. The chain and sprocket drive was not to appear until some years later.

THROUGH the changing cycles of the 75 years since 1868 (31 years manufacturing in Canada) Libby's has sought to serve faithfully and well, whatever the stress of the times might be. Each year brings us all new problems: To Libby's September 1939 was another startling challenge to use the lessons and experiences of the past.

Libby's has weathered other wars. The problems of this one are different, more acute, but not unsurmountable.

Some Libby's products — perhaps your favourite among them—have had to be withdrawn from civilian distribution. On others, the available quantity is curtailed.

On still others, Libby's production is as great or greater than ever—for instance, Libby's "Gentle Press" Tomato Juice and Libby's Prepared Mustard—but steadily mounting demand quickly depletes your grocer's shelves.

To meet this situation as effectively as possible, Libby's strives constantly to increase production and daily endeavours to distribute available supplies on an equitable basis to every community. Meanwhile, Libby's uniformly high quality continues to distinguish every can and bottle that bears the Libby's Label.

Alsab In Action Again For Pawtucket Try

Entry in $10,000 Chicago Handicap at Washington Park, Chicago, has been dropped by Al Sabath, owner of Alsab, so that the four-year-old can make his 1943 debut against the less strenuous competition in the $5,000 Pawtucket Handicap at Narragansett Park. Alsab, who has been out of action with an injury, is pictured during workout before leaving for the east.

Pine Ridge Alex Captures Canadian Pacing Derby

NEW HAMBURG, Aug. 12. — Those who were able to attend the harness racing fiesta here on Tuesday were treated to the best afternoon's race card witnessed this season.

In every sport the crowd loves a champion, and the harness horse sport bears no exception to this display of admiration, so when Pine Ridge Alex, owned by Alex Parson, London, and driven by Lou James, won the eighth annual Canadian Pacing Derby, the enthusiasm of the spectators literally soared to new heights. Not only did Pine Ridge Alex win a portion of the money, but he lowered his record from 2:07¾ to 2:06¼— in the first heat, when he headed the game and veteran pacer Lastic Grattan, who holds the track record at 2:05¾ established a few years ago.

Canadian Pacing Derby, Purse $1,500:

Pine Ridge Alex, James	1	1	4
Lastic Grattan, Hillock	2	2	1
Miller Brooke, McDonald	6	5	2
Babe Grattan, Campbell	3	3	5
William Direct, Weiner	4	6	3
Frisky Lee, Fraser	5	4	6
Star Henley, Stroud	8	8	7
Winston Grattan, Morrissey	7	7	dr

Time—2:06¼, 2:08, 2:09¼.

Three-year-old Pace, Purse $500:

The Count, Chapman	1	1	1
Lee Peters, Hillock	2	2	2
Frisco Lee, Milton	5	3	3
Lorne Lee, Buchan	3	6	4
Bob Canuck, Tolhurst	4	4	5
Catharine Stout, Fraser	6	5	6

Time—2:13, 2:12¾, 2:10½.

Derby Trial, Purse $400:

Black Prince, Tolhurst	7	1	1
Oxford Lad, Milton	1	2	2
Giftline, Moore	2	3	4
Pine Ridge Jim, Hillock	3	4	5
Holyrood Belwin, Weiner	4	5	3
Sir John, Stroud	6	7	6
Bud Volo, Linberg	5	6	dr

Time—2:09¾, 2:08¼, 2:09¼.

Scott Memorial Trot, Purse $400:

Miss Cream Tartar, Milton	2	1	1
Darkey Volo, Toor	1	2	2
Love Call, Chapman	3	5	4
Bruce Henley, Thompson	5	4	3
Ray Harvester, Berry	4	3	6
Pandora, Pierce	7	6	5
Birdie Dale, Harvey	6	8	7
Diana Lee, Foster	8	7	8
Tommy S., McDonald	9	9	dr

Time—2:12¼, 2:11, 2:10.

Drivers Floyd Milton and Lorne Tolhurst each received $50 for lowering the previous heat record in the Derby trial.

Gunder Haegg Finishes Tour Without A Defeat

NEW YORK, Aug. 12.—(AP). — Having written two new American records into track and field annals in the course of chalking up eight successive victories in a coast to coast tour, Sweden's Gunder Haegg is ready to return home and renew his duels with Arne Anderson—the Swedish school teacher who lowered the International mile mark to 4:02.6 while Gunder was whipping this country's best.

Haegg completed his all victorious United States campaign last night by again taking the measure of Gil Dodds, Boston Divinity student, and Bill Hulse, New York chemist, in a mile race at Randall's Island.

The stage was all set for what Amateur Athletic Union officials hoped would be Haegg's greatest performance, but the time of 4:06.9 was somewhat of a disappointment to the estimated crowd of 5,000. Last night's gate was expected to bring the receipts of Haegg's tour to $130,000 — all of which goes to the Army Air Force Fund. Although the time was 1.6 seconds off the American record, Haegg hung up in beating the same pair in Boston, the race was one of the most thrilling as the flying Swede registered by two yards over Dodds with Hulse another three yards back. Dodds was clocked in 4:07.2 and Hulse in 4:08.2.

Haegg, who also lowered the American standard for two miles to 8:53.9 at Los Angeles, said he hoped to leave for home the week of Aug. 23 and arrive in time to match strides with Anderson at Gottenberg on Sept. 13.

"I'll be back next winter, if possible," Haegg told his American audience. "If not then, after the war and may that be soon."

Brinton Girls Defeat Motors 24-12

Scoring in every innings the Brintons managed to double the count on the Johnson Motors girls in a Girls' Softball League game at the East City Bowl on Wednesday night. The final score was 24 to 12 for the Brinton outfit.

The winners opened up with a seven-run barrage in the first inning and the issue was never much in doubt after that, although the Outboard Marines never stopped trying. Singles by Marg and Thelma Batley and Doris Walker and a homer by Beryl Lee, Brinton pitcher, were the big factors in that opening scoring surge.

The Johnson Motor girls had their big inning in the fourth when they cut loose with six hits to score five runs. Marg Smith, Marines' shortstop, powdered a homer with two on and that was the big blow of the inning.

Both clubs scored in every frame until the sixth when the Johnson Motors' run-getting terminated and they were shut out for the balance of the game.

By innings:

Brintons	721 123 25	—24
Johnson Motors	231 510 00	—12

Brintons — M. Batley 1b, M. Drumm lf, T. Batley 3b, Betty Hamblin rf, Marg Thompson 2b, Doris Walker cf, B. Lee p, R. Killen c, Agnes Weir ss.

Johnson Motors— E. Young lf, P. Ferguson rf, Helen Mark p, J. Nice c, V. Mitchell 3b L. McMillen 1b, T. O'Toole cf, Marg Smith ss, J. Withers 2b.

Umpires — Scott at the plate, Hayden on the bases.

RCAF Forms New Athletic Group

TORONTO, Aug. 11.—(CP). — Formation of an Athletic Association in No. 1 Training Command of the Royal Canadian Air Force was announced to-day. The Association was authorized by Air Vice Marshal F. S. McGill, Air Officer Commanding.

Ontario has been divided into four sections for athletic competition; Eastern Ontario, with Flt. Lt. B. Horton of Trenton, in charge; Niagara Peninsula, with FO. Jack McGill of Hagersville, in charge; Western Ontario, with FO. George Hull of Fingal in charge; and the Toronto area, in charge of Flt. Lt. George N. Duthie.

Toronto will be the locale of all championship competition in the Command. Baseball championship will be settled next week, track and field championships will be held Aug. 31, softball, tennis and horseshoes Aug. 26 and soccer and swimming Sept. 4.

Additional Sport On Pages 2, 7, 14

SPORTS — DAY BY DAY

By FRED D. CRAIG

Tonight's City Softball League battle between the Military Training Centre club and the 4th Battery will undoubtedly attract the biggest crowd of the year. The rivalry between the two clubs is high, and excitement has been mounting since the 6-6 tie game the rivals staged on Tuesday night. The windup of that battle with Soldiers lost what would have been the winning run when Joe Stewart made a great throw to the plate has had the fans talking ever since, and they will be all out tonight as the two clubs tie into each other again. It is expected that the Soldiers will call upon Jack Wilson to do the throwing for them on this occasion, while Dave Wilson will probably work for the Battery. Incidentally the boys from the camp have not been able to beat the big fellow this season, although only Joe Stewart's good right arm prevented them from turning the trick Tuesday. It will be a tight battle from the opening ball, as the two clubs battle to get the jump on the opposition. Fans and players are asked to note that the game will get under way at 6.45 o'clock, the start having been advanced fifteen minutes to give a better chance for better lighting conditions.

* * * * * *

Manager Ted Johnson's Genelecs, who have not lost a City League game in their last nine starts, winning eight and getting a draw in the other fixture, get away to a flying start in the semi-final series with the fourth-place Switchgear club last night, beating the Chambers' outfit 8 to 2. Genelecs were without George Hawks, but Don Holmes played good ball at third in his absence, and the league leaders won without a great deal of difficulty, thanks to one big inning in which they sent six runs scampering over the home station. Bill Moorhead had considerable trouble with his control, passing nine batters, but the Switchgear had even more trouble solving his delivery when they had runners in scoring position, and the result is seen in the summary which shows the losers with fourteen men left on bases. The second game in this series will be staged Friday night and Switchgear will be battling for a win and a chance to tie up the round. A second victory for Genelecs would give them a stranglehold on the series. Akers or Terry Woods will likely do the Genelecs' pitching, while Manager Chambers has not announced his starting heaver. Incidentally the Switchgear had Cal Nicholls, formerly of the Combines, at short last night, and persuaded big Ed Niziol to take over the first base duties.

* * * * * *

Some of the younger sport writers have not yet discovered that there is nothing new under the sun. A day or two ago one of the Toronto sheets took up considerable space in discussing what it called a new and brilliant piece of baseball strategy upon which the Toronto Leafs and Manager Burleigh Grimes had been working. The strategy was a nice bit of inside baseball, at that, but there was nothing new about it. We used that same play on the old T.A.S. team in the Midland League more than 30 seasons ago, and other Peterborough clubs have used it since. It is simply this: When the opposing club has a runner on first, with nobody out, the first baseman moves well into the diamond as if to get set for a bunt. Naturally with the sack left unguarded the runner edges off to a big lead. Then the catcher calls for a pitch-out, the second baseman steals over and covers first, takes the catcher's snap throw and thumps the ball on the runner trying to slide back. It is a smart play, and the T.A.S. club paid dividends on it in more than one hard-fought battle. But as for it being new—the strategy really goes back a long way.

* * * * * *

Will Renew The Brawl

Manager Frank Tunney has decided to give Earl McCready and John Katan a real chance to settle their argument as to which is the better wrestler, and so he has re-matched the two big boys for a return engagement at the Brock Street Summer Gardens next Monday night, with the time limit extended to an hour and one-half. The announcement will be received with glee by local grapple fans. This week's bout which resulted in a draw, when hostilities had to end at the close of an hour, with the two battlers all even with a fall each to his credit, was voted by the crowd as about the best argument that has been seen here, and the opportunity to see McCready and Katan battle it out to a finish will be welcome to local followers of the game. Prior to the Monday clash most Peterborough fans called McCready to take the Palermo Panther without too much trouble. Now they are not so sure. Katan showed so much power, drive and skill that he convinced the crowd that he is tough opposition, despite McCready's widely-recognized ability. We will still string along with Earl, however, and look to him to take next Monday's bout, although he may need the extra time that has been provided to turn the trick. It will be a merry cup of tea, however, and Katan will undoubtedly provide plenty of fireworks before he has to yield to the Aurora farmer. The supporting card will be worthy of the class of the main bout.

* * * * * *

Both leaders in the big show were tripped up yesterday, the Yanks dropping a game to the St. Louis Browns and the Cards being homered out of a battle with the New York Giants. However, these two slip-ups on the part of the front runners was rather overshadowed by a sudden up-rising on the part of the Philadelphia Phils, who slapped down the Pittsburg Pirates twice, a development that was decidedly painful to the Corsairs as well as injurious to their standing, for it enabled the Cincinnati Reds to climb up on even terms with them in the battle for second place. Schoolboy Rowe pitched a four-hitter to beat the league's top pitcher, Rip Sewell, 3 to 1, in the first game, and Dick Barrett came back with a shutout performance in the second which the Phils took 3 to 0. The smartest pitching achievement of the day, however, went to the credit of Steve Sundra of the Brownies, who held the Yanks to a solitary hit. It happened to be Charlie Keller's 18th homer of the season, however, so that Sundra was robbed of a shut-out, but he took the decision over the leaders by 6 runs to 1.

* * * * * *

Sporting Chile Con Carne: Lionel Holmes of the Switchgear had something of a record last night when he worked Bill Moorhead for five passes in five appearances at the plate....While this was going on one of the Brinton girls was scoring a somewhat different mark....She was up seven times during the game with Johnson Motors and she struck out exactly seven times....But she was still smiling on her last trip to the plate....The Westclox and Aircraft girls will resume their battle in the girls' loop playoffs on Monday night....The Big Bens are leading the

Moorhead Hurls 6-Hit Ball For Winners

On the strength of one big innings — the fifth — in which they bunched five hits with two costly errors for a total of six runs, Manager Ted Johnston's Genelecs got away to a good start in their semi - final playoff series with Switchgear on Wednesday night, beating Murphy Chambers' club 8 to 2.

Outside of that one disastrous frame it was an even enough ball game.

Bill Moorhead was Manager Johnston's pitching selection and in spite of lack of control, the Genelecs pitcher came up with a six-hitter and was particularly effective with runners in scoring position. Moorhead passed nine batters including Lionel Holmes 5 times in a row but when the ducks were on the pond the Genelecs tosser tightened and the necessary hit was never forthcoming. As a result Switchgear had fourteen men left on bases.

Bert Harrison went the route for the losers and outside of the one bad frame got by in good style. Genelecs got five of their total of ten hits in that big inning.

A couple of catches by Lionel Holmes, third baseman for the Switchgear team were a fielding feature. Jack Tucker Genelec short stop turned a similar catch into a double play.

Switchgear opened with a run in the first. Lionel Holmes drew the first of his five passes, Jamieson also walked and after Carpenter and Ashmore had popped to Mowry and Moorhead respectively Cal Nicholls strolled to fill the bases. Niziol rolled to Don Holmes who fumbled and everybody was safe, Lionel Holmes scoring. Caccavella flied out to McNabb in left.

Switchgear filled the bases with one out in the third on singles by Ashmore and Nicholls and a pass to Niziol but Caccavella forced Ashmore at the pate on a rap to Don Holmes and Eddie Whitehill fanned.

Genelecs tied it up in their half. Don Holmes walked and went round to third on two wild pitches. When Tucker bunted Holmes slid in under the throw to the plate with the run that sewed up the game. Mowry rolled to Niziol, and Playford and Cadd flied to Carpenter.

Manager Johnston's club broke up the ball game in the fifth. Don Holmes again started it with a walk and Woods bunted safely. The two moved up a notch on a wild pitch and ran home when Mowry singled to centre. The ball got away from Whitehill and Mowry ran to third on the error. Playford bounced a single past third to score Mowry. Cadd singled, Playford going to third. Giardino flied to L. Holmes and Woods also lined to the same player. Moorhead flied to L. Holmes who fumbled and Playford scored. McNabb singled to third. D. Holmes rolled to his brother who threw wide to first and Cadd and Moorhead went home on the miscue. Tucker popped to Ashmore to end the scoring carnival.

Genelecs made it 8 to 1 in the sixth. Mowry singled over second but was forced by Playford. Cadd popped to Caccavella but Giardino tripled over Carpenter's head to send the run in. Woods walked but Moorhead lifted one to Lionel Holmes.

That was all the scoring until the ninth when Switchgear came through with one. Carpenter singled past second and Ashmore doubled to left. Nicholls fouled to Mowry and Niziol rolled to Tucker, the runners being held. Carpenter then scored on a wild pitch, after which Caccavella rolled to Don Holmes to end the inning and the game.

THREE SCORE AND ELEVEN
King Haakon VIII of Norway was born August 3, 1872.

Here and There in Sport

By The Canadian Press

There's a whale of a lot of conjecturing going on at Wichita, Kas., capital of sandlot baseball—and a 20-year-old girl is the cause of it all.

The fans are wondering just how that umpire-ess in the national semi-pro tournament will handle herself when the going gets rough.

Dumont himself is skeptical. The head man of the semi-pros explained today his decision to use Miss Lorraine Henrisch, Kenosha, Wis., arbiter, was in the line of experimentation and insurance.

Miss Henrisch, 5 feet 4 and weighing 124 pounds told Dumont "I believe women can do as well as men umpires. They're taking their places in the factories and can do as well in athletic contests when it comes to decisions.

Dumont said she would be wearing the same attire as three male umpires—brown trousers, blue caps and coats, and black shoes.

The Wisconsin girl will find herself officiating in a tourney top heavy with service clubs, many of them sparkling with former major leaguers.

Ted Atkinson rode three winners at New York's Belmont track yesterday and came within a photograph of taking a fourth, the camera deciding his horse was second in the eighth and closing races. Atkinson brought in both ends of the daily double, which paid $52.50, and his third winner was Magdala, in the seventh, at $14.30 for $2.

Golf Upset.

The first upset in the U.S. women's western golf tournament was the victory of Miss Mary A. Wall of Menominee, Mich., over the favored Kay Byrne with a 2-and-1 decision yesterday at Evanston, Ill. The co-favorite, Catherine Fox of Glen Ridge, N.J., defeated Mrs. Lawrence Selz of Chicago 3 and 1.

Without a spare infielder when Third-Sacker Ken Keltner was spiked last Sunday, Cleveland Indians rushed through a $7,500 cash deal yesterday for Third-Baseman Jimmy Grant of the Chicago White Sox. Grant played for St. Paul of the American Association last year.

Ten winners in two days was the record hung up Tuesday and yesterday at the Steubenville, O., race tracy by Jockey Frankie Sheaffer, 21, Spring Grove, Pt. In yesterday's card he booted home the winning horse in six successive events. He has been riding four years.

Formerly in International League company, Pitcher Sal Maglie, Welland, blanked St. Catharines-Merritton Combines 6-0 in the Niagara Senior Baseball League at Welland last night, allowing only four hits. It was his fifth successive shutout for the Steelmen.

Soldier Athletes.

Three contestants each earned a brace of victories in the annual track and field meet of the Canadian Army Trades School at the Civic Stadium in Hamilton, Ont., yesterday. Sapper S. Klains won the two sprints; Pte. Urquhart won the field events, and Sapper R. J. Wilson captured the 880-yard race and four-mile run.

To keep his 30-year playing record intact Catcher Irish Miskimmons of Stratford Nationals, who was injured in the last inter-county fixture, took his place in the outfield of the final scheduled game at Galt last night in the ninth innings. The Nationals defeated the Terriers 8-3.

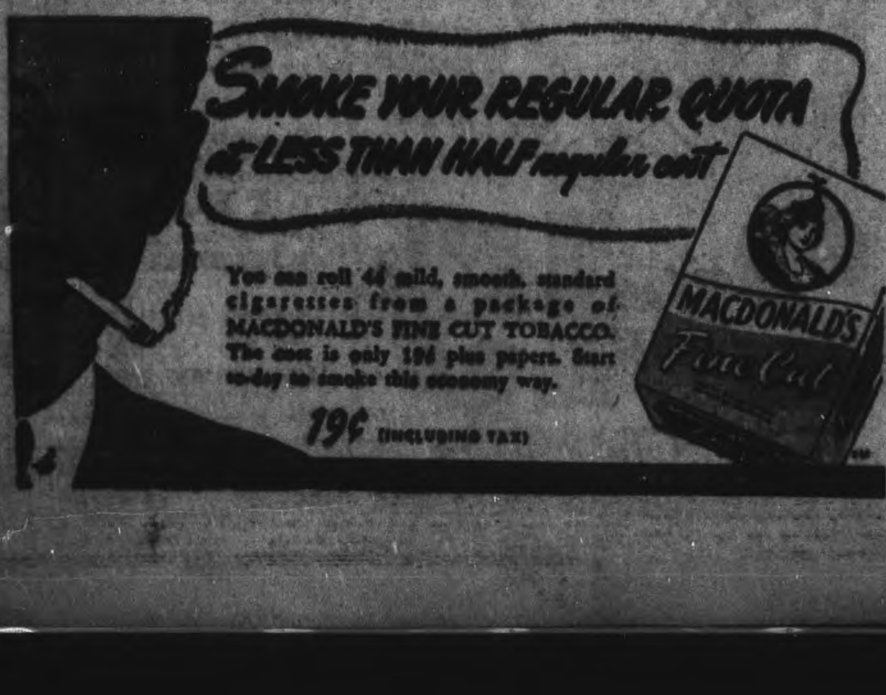
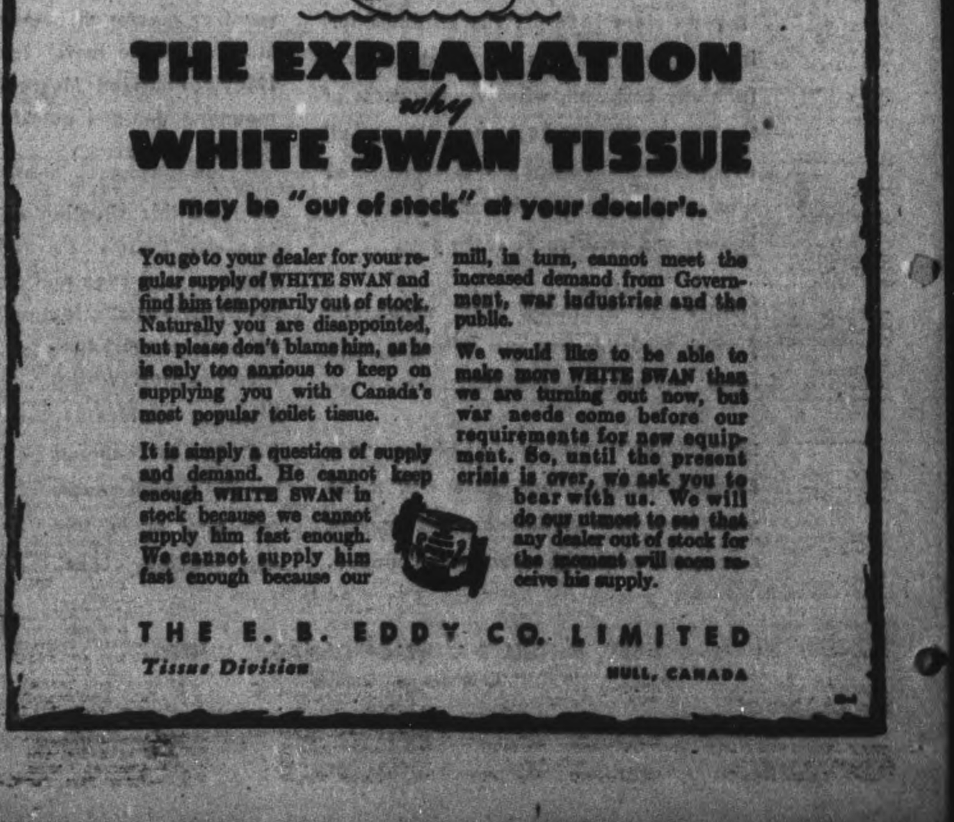
He Quit

ELIZABETH, N.J. — (AP). — Although he had fought in 20 professional bouts, Ray Rovelli, 146, of Weehawkin refused to continue his scrap with Al Davis, 147, Brooklyn, at the opening of the fourth round of a scheduled six-round match last night. The referee counted him out and awarded the decision to Davis.

Squares Series

KITCHENER — (CP). — Galt Terrier Pups equalized the inter-county junior playoff series with Kitchener Rangers at one game apiece when the visitors trounced the local nine 9-1 last night.





VOLO SONG WINS HAMBLETONIAN IN TWO HEATS, MISSES RECORD

Canadian Sport Snapshots

By CHARLES EDWARDS
Canadian Press Staff Writer

TORONTO, Aug. 12—(CP)—Must be that Montreal Canadiens are worrying about who will carry the puck for them next National Hockey League season. Baz O'Meara of the Montreal Star, discussing the proposals for hockey rule changes, commented: "Anyway, changing the hockey rules isn't the most vital necessity of hockey at the moment. The greatest necessity is hockey players who can play well enough to interest the public. And, handling the report that one of Coach Dick Irvin's pigeons had flown a record 1,700 miles, the Montreal Herald commented wistfully: "Too bad Irvin's pigeons can't skate, too."

Rear Vision:

Jimmy Ball, former Winnipeg track star, is getting a bit fed up on the story he lost the 400 metres race in the 1928 Olympics at Amsterdam by glancing back over his shoulder at the American, Ray Barbuti. Jimmy says he never looked back at Barbuti because he was never at any time out in front. Jimmy told Tony (Winnipeg Tribune) Allan the story had its origin in a photograph which caught the runners a few yards from the finish line and taken from an angle which erroneously made it appear Ball was in the lead. It also showed Jimmy's head slightly turned in Barbuti's direction.

Hall Of Fame:

City of Kingston has mailed to Canada's hockey officials a four-page pamphlet outlining Kingston's claim for establishment of a hockey hall of fame in that city. The pamphlet contains a sketch of a tablet suggested for the hall of fame as tribute to the organizations which helped develop the game. The tablet is decorated with crossed hockey sticks and a puck. The N.H.L. the C.A.H.A., all provincial associations, the U.S.A.H.A., American League and American Association are included in the honor roll.

Incidentally:

After reporting to army authorities here last week, Ralph McCabe of Belleville, Ont., was rejected on medical grounds and has returned to his pitching chores with Albany ...Archie Wilder, former amateur hockey star at Saskatoon, has won his R.C.A.F. wings and commission ...Frank Sargent of Port Arthur, president of the C.A.H.A., reports the amateur hockey executive job has been quieter this summer than for many years.

Driver Claims Trotter Set Fast Mile

By SID FEDER
Associated Press Sports Writer

NEW YORK, Aug. 12—(AP). —Volo Song, the Hambletonian "hit tune" who can run like the hot licks on a trumpet, is in the same spot to-day as the guy with a thick, juicy steak—but who can't eat it because he's mislaid his store teeth.

For, the $5,000 bargain-son of Volomite won the Hambletonian and a bankroll of $23,263.92 yesterday by taking two out of three heats. But in the heat he didn't win, he trotted the fastest mile in the 18-year history of the corn-tassel derby—and it doesn't count.

This was in the first one-mile whirl around the Empire City track where the buggy-whip classic was run this year because wartime transportation troubles forced it out of Goshen's County Fair setting for the first time in 13 years. Worthy Boy, the first Hambletonian starter for Mrs. James B. Johnson, Jr., of Rochester, Mich., won the dash in the track record trotting time of 2:02½—a mark Volo Song duplicated in knocking off the second heat, before coming back to waltz home with the third in 2:06.

But in that opening spin, Volo Song broke stride just at the start. Before Driver Ben White—better known as Mr. Trotting—could get him moving the way the book prescribes the rest of the pack was so far in front Volo looked like an early arrival for the next race. He took out after the others like Casey Jones bringing old 69 in on schedule, made up more than 10 lengths and hit the wire in third place, only a length and a half back.

Since the winner was caught in 2:02½, Volo, naturally, must have zipped a lot faster. No official bothered to put the clock on him, but White apparently carries his own stop-watch and word reached the press box later that Ben's timepiece showed the tall, dark and handsome gee-gee had ripped off the eight furlongs in 2:00½.

This is one full second faster than the Hambletonian mile mark, chalked up back in '37 by Shirley Hanover. But, while Volo has the bath-tub sized cup that shows he won— Shirley still is the record-holder.

Gentry Takes Fifteenth Win

By The Associated Press

Rufus Gentry won his 15th game of the season for Buffalo Bisons of the International League last night after being given two chances.

He started the first game of a doubleheader against the Newark Bears, but was knocked out in the first inning after facing only seven men. After the Bears won, 7-4, Gentry started the second game and pitched the Bisons to an 8-4 triumph for a split of the twin bill. Given a four-run lead in the first inning of the nightcap on Frank Heller's triple with the bases loaded, Gentry scattered eight Newark hits and fanned seven.

Montreal Royals made royal with the Baltimore Orioles in winning, 16-4. Royals scored 13 times in a big third inning. They made only seven hits, one a homer by Bob Ortiz, but were helped by five Baltimore errors.

Toronto and Jersey City split a doubleheader. Maple Leafs came from behind to take the opener, 4-3, on a single by pinchhitter Jimmy Gruzdis with the bases loaded in the ninth inning. In the nightcap Bob Wells shutout Toronto, 2-0. He limited the Leafs to seven hits and fanned five in chalking up his first victory of the year.

Syracuse defeated Rochester twice 4-3 and 2-0, in two hard-fought struggles. The opener went 14 innings before a two-run homer by Hank Sauer decided the issue. In the nightcap Jim Konstanty turned in a two-hit shutout for the Chiefs.

Yesterday's Stars

By The Associated Press

Steve Sundra, Browns—Pitched one-hit victory over Yankees, the only safety being a home run by Charley Keller.

Schoolboy Rowe and Kewpie Barrett, Phillies—Pitched twin triumphs over Pirates, Rowe allowing four hits and Barrett six for a shutout.

Nick Witek, Giants—Hit two home runs against Cardinals, second coming in tenth inning to decide game.

Luis Olmo, Dodgers—Hit triple to spark five-run rally that routed Reds.

Hirman Bithorn, Cubs, and Red Barrett, Braves—Bithorn pitched shutout in first half of doubleheader and Barrett kept hits scattered to take nightcap.

Rudy, Tigers—Hit his 19th home run for margin of victory over Senators.

Lou Bourdreau and Al Smith, Indians—Boudreau drove in four runs in first game and hit a homer in second, while Smith pitched five-hit shutout against Athletics in second.

Phillies Push Win Streak To Six Games

By JUDSON BAILEY
Associated Press Sports Writer

Philadelphia Phillies returned home yesterday for their first appearance in Shibe Park under the management of fat old Freddy Fitzsimmons and promptly swept a doubleheader from Pittsburg Pirates to extend their present winning streak to six games—matching their best string under the piloting of capable Bucky Harris—and stole the spotlight in the National League once more.

The bargain bill started at 10.30 a.m. and attracted 11,129 fans, a remarkable turnout that was enough to capture the immediate attention of baseball men. But in addition the Phillies beat Truett (Rip) Sewell, the leading pitcher of the year, 2-1, in the first game and followed through with a 2-0 shutout in the second to knock the Pirates out of their exclusive hold on second place in the senior circuit.

Mr. Rowe Again

Five errors contributed largely to the downfall of Sewell, who had won 17 and lost three previously, but the four-hit hurling of Lynwood (still called Schoolboy) Rowe was a factor of some importance to the outcome. Richard (Kewpie) Barrett officiated at the whitewashing in the second session with six-hit pitching that sparkled with eight strikeouts.

Harris, incidentally, was in the stands and cheering for the Phillies.

The setbacks for the Pirates enabled Cincinnati to move into a tie for second even though the Reds were beaten 5-2 at Brooklyn. Whitlow Wyatt and Ray Starr started out to have a pitchers' duel, but the Dodgers went on a rampage for five runs in the seventh inning to end their 10-game losing streak with a dramatic flourish.

Witek Hits 2 Homers

New York's woeful Giants turned back St. Louis Cardinals 3-2 on two home runs by Nick Witek, the second coming in the 10th inning after the Redbirds had tied the score in the ninth. Chicago Cubs divided a doubleheader at Boston. Hiram Bithorn pitched a 3-0 shutout for the Cubs in the first game, but the Braves came back to win the nightcap 6-2 behind Red Barrett for their first victory of the season over the Cubs at Braves Field.

In the American League New York Yankees were walloped hard for the second straight day by St. Louis Browns, 9-1, and for the third time this season were held to one hit. The only blow off Steve Sundra was Charley Keller's 18th home run.

Paul (Dizzy) Trout pitched five-hit ball as Detroit downed Washington Senators 3-2 with the help of Rudy York's 19th home run in the eighth inning.

Cleveland captured a twilight slugging session from the Philadelphia Athletics 10-5 with Manager Lou Boudreau and Oris Hockett each batting in four runs and then bagged a pitching battle 2-1 in the night game that followed.

Joe Dobson shutout the White Sox 10-0 while his Boston Red Sox teammates collected 16 hits and clustered seven runs in the eighth inning.

Remember When—

By The Canadian Press

Three runnings were required to decide a race at the Northern Jockey Club in New South Wales, Australia, 47 years ago today. Yellow Plush, Tom and Syndicate ran a triple dead heat, and Tom and Yellow Plush again came in together in the second running. The third time, Tom won by a nose.

He Can Run

With Regards, owned by T. D. Grimes, rates with the top handicap horses in the United States. The four-year-old thoroughbred, who led all the way for the first mile in the 1942 Kentucky Derby, only to fold and finish fourth, has been beating the top sprinters in the east regularly.

The Sports Round-Up

By SID FEDER—(Pinch-Hitting For Hugh Fullerton)
Associated Press Sports Writer

NEW YORK, Aug. 12 (AP). —Volo Song sizzled a Hambletonian mile in 2:02½......Gunder Haegg rattled it off in 4:06.9 a-foot......Looks as if the hoss is here to stay, doesn't it? But neither of them operated as fast as the sports writers who charged from Empire City to Randall's Island so they could see both......Jimmy Londos would have been a great third man for that shoving session Gunder and Gill Dodds put on around the last turn....Looked as if they were going to go 3 falls to a finish all the way to the wire.

What's Berlin, Merlin.

Andy Pafko, the Los Angeles outfielder who's leading the coast league in everything except selling hot dogs, and Red Schoendienst, Rochester's switch-hitting shortstop who can run like Haegg and Volo Song put together, are rated the class of the minor leagues this year by the big time scouts....But don't hurry, pals—Andy's all wrapped up for the Cubs....And Red's got a Cardinal trade-mark on him ....Incidentally, the scouts tell you the pitching crop in the bushes this summer is so poor it should be played under....

To-day's guest star:

Bob Stedler, Buffalo (N.Y.) Evening News: "Manager Jewel Ens (Syracuse International League chief) was ejected by Umpire Jim Tobin during the ninth inning of the second game last Friday and the Chiefs put on a five-minute demonstration.....They argue better than they perform.

Jan Valtin Soldier

BETHEL, Conn., Aug. 12—(AP).—Richard Julius Herman Kress, who under the pen name of Jan Valtin, wrote the best seller, "Out of the Night," has been ordered to report for military service August 26 at Camp Upton, L.I., New York.

Log Sinkage To Be Solved

OTTAWA, Aug. 12 (CP)—Government officials revealed today that scientists have gone to work to solve for once and all the old problem of the sinking log.

Under the stress of war and with Canadian timber in demand for numberless essential purposes of the United Nations, a determined effort is being made to halt the wastage in timber due to logs sinking on long drives from timber limits to the mill.

"The bottoms of many of Canada's most famous lumbering streams have been literally paved with thousands of sunken logs," one offical said. "This is a problem of waste which demands attention and it is being given it."

Scientific study of the problem is aimed first at establishing the relation between decay and the buoyancy of timber. This investigation is being carried out co-operatively between the Agriculture Department's Botany and Plant Pathology Division and certain pulp and paper companies.

Officials said there was little information as to the floating properties of such wood at present available, and there was little knowledge as to what losses by sinkage occur in sound wood in a given time.

"The results of the investigation will give information in regard to both of these questions, and the Division of Botany is of the opinion that it should also be possible to determine if there is any difference in the effect upon buoyancy of different types and degrees of decay," officials said.

English Wives Learn About Canada

Wives of Canadian soldiers in England are pictured at the Canadian Legion Club in London where Lady Tweedsmuir, wife of the late Lord Tweedsmuir, Governor of Canada, is showing them a map of their future homeland to which they will accompany their soldier husbands when the war is over.

Churchill Visit Means Action

BARROW-IN-FURNESS, England, Aug. 12 — (CP). — Home Secretary Herbert Morrison to-day told workers of the Vickers-Armstrong Company they can be sure that good will come out of the visit to Canada of Prime Minister Churchill.

"It is necessary that a conference should be held between us who are so closely engaged in the military operations now taking place," he said. "It is no less vital that closest consultation should take place between us and the Soviet Government.

"I am sure Hitler at this moment is saying, 'I wonder what those rascals are up to now; what new trouble is to rend.'"

He added, amid cheers, "There will be new trouble for him all right."

The minister assured his listeners that "we will settle with Japan all right." even though that country has not yet felt the full power of the Allied might.

ONE NIGHT TO BOMB

The Co' gne cathedral took almost 600 years to complete.

Now In England

Pte. Roy Hawthorne, 48th Highlanders, son of Mr. and Mrs. Percy Hawthorne, 266 Aylmer Street, has arrived safely overseas. He was formerly employed at the Board of Works.

Voting Results Favor Roosevelt

NEW YORK, Aug. 12 — (AP).—Unofficial and incomplete returns from New York's primary indicated yesterday that Michael J. Kennedy's Tammany leadership had been greatly strengthened and the American Labor Party's left wing had retained control of the party in New York County.

Results so far from the Bronx showed an apparent victory for the A.L.P Right Wing while the vote in the intra-party fight in Brooklyn still was obscure. The Right Wing has said it would support a fourth term for President Roosevelt.

Final results of the elections, marked by a light vote, will not be known for several days as all voting was by paper ballot, making the count slow in tabulation.

The victories would make Kennedy, a staunch supporter of President Roosevelt, the strongest Democratic leader here since the late Charles Murphy ruled at the turn of the century.

PLENTY RATION TICKETS?

Canada produced 283,000,000 lbs. of butter last year.

Injured In Sicily

Pte. Albert Maudsley, son of Mr. and Mrs. William Maudsley, 489 Park Street, is one of the Peterborough boys who has been wounded in Sicily. He has been overseas since 1941 and was formerly employed at Fanning's Laundry.

Friday 13th No Jinx Day

By The Canadian Press.

Sure to-morrow's Friday the 13th and undoubtedly something will happen to somebody to-morrow just as something happens to somebody every Friday or any other day, whether it's the 13th or not.

But that's all there is to it. There's never been anything historical, statistical or otherwise to prove that Friday the 13th is any unluckier for human kind as a whole than any other day. In fact lots of people have found it a very fortunate day for themselves, personally.

This bogeyman trick of the calendar appeared three times last year. Remember them? They came in February, March and November. To-morrow is its only comeback for 1943. Next year, too, it will come but once—in October. In 1945, it is down for a return engagement in April and July.

DAYS OF CH'MPLAIN

Bermuda was settled in 1609 by a party of colonists, under Sir George Somers, who were shipwrecked en route to Virginia.

MORE ABOUT—

Amphibious Jap

Continued from Page 1

ing was effected by United States forces east of Cape Orlando, on the north coast of Sicily, on the night of Aug. 10-11 under the cover of United States navy guns.

"This landing took place near the mouth of the Naso river. Heavy enemy counter-attacks were successfully beaten back with the aid of naval gun fire. Units of the United States Navy then proceeded to shell enemy positions in direct support of the operation, which is continuing."

(The Italian communique as recorded by The Associated Press from a Rome broadcast admitted that numerous buildings had been hit during the Allied raid on Terni and that losses among the population were heavy.

(It also claimed that an Allied cruiser of 10,000 tons, another of 5,000 tons and three merchant ships were hit by Axis torpedo planes.

(Violent Allied attacks continued in the centre of the Sicilian front, the Italian announcement said.

(Reggio Calabria on the Italian mainland opposite Messina was raided further by Allied planes, the communique said, claimed three had been shot down.

8th Army Active

Forces of the British 8th Army advancing northward from Bronte had moved to within a few miles of Randazzo while detachments of the American 7th army were push-eastward from Cesaro. Allied spokesmen warned, however, that German remnants had dug into the city's ruins and that further progress would be slow.

(Ross Munro, Canadian Press war correspondent with the 8th Army, reported last night that British and American forces had established contact midway between Bronte and Randazzo. However, for the fifth day no mention was made of Canadian troops operating with the 8th Army.

(Observers believe they may be resting, following their difficult, fighting advance from the beaches of Pachino to the heart of Sicily. Indicative of the tough going the Canadian troops experienced was the letter of congratulation sent Maj. Gen. Guy Simmonds, commanding officer of the 1st Division, by the British commander of an 8th Army corps.

(As quoted in a dispatch from Munro, the letter commended the 1st Division on its "magnificent fighting since you landed in Sicily."

("The landing operation went smoothly," the letter continued, "and reflects the greatest credit on your planning and training before you sailed.... You have fought (since then) continuously against stubborn German resistance by day and night. I cannot thank and congratulate enough on all these performances.")

On the north coast, within 40 miles of narrow Messina Strait dividing Sicily from the mainland, an American column was reported to have made fresh gains in the battle for Cape Orlando.

Shelling Riposto

British forces advancing up the east coast had overrun Guardia and were within striking distance of Riposto, about 35 miles south of Messina and within sight of the Italian mainland. The next major objective of the British right wing was Taormina, nine miles above Riposto and terminus of the important highway linking inland, Randazzo with the coast.

Randazzo is the last important highway junction southwest of Messina and its fall, in addition to bringing the inland Allied forces into position to threaten the northeastern tip of the island, would result in almost insuperable communication difficulties between the enemy's northern and eastern coastal forces.

The Allied inland advance faced mountain rivers raked by heavy artillery fire, dynamited bridges and roads choked by thousands of tons of dynamite-loosed debris. Fleets of Allied bombers strafed and bombed the narrow, winding roads and Randazzo itself for the fourth straight day yesterday, and returning airmen reported dwindling anti-aircraft fire there, indicating weakening resistance.

Allied air fleets in greater and greater numbers also were striking at the northern coast by day and night to make any Sicilian escape move a costly undertaking.

Reaches England

Mrs. George Alley of Trent River has received word that her son, Pte. Carmen Alley, 24, who has been stationed in London, Ontario, with the R.C.O.C., has arrived safely overseas. He is the third son in the forces, Clarence being overseas with the Highlanders, and Ralph, a prisoner at Hong Kong.

and in all Pacific areas.

Possibly they will have worked out together some basis of operation before they sit down in the conference chamber amid the army of technicians and high officials.

9 Ministers.

Meanwhile Prime Minister Mackenzie King and the nine members of his cabinet who met with Mr. Churchill are staying here. In addition to their war conference yesterday they held a routine cabinet meeting to deal with urgent orders which must be sent back to Ottawa for approval of the Governor-General.

There have been many occasions when His Excellency temporarily occupying the Vice-Regal residence in the citadel here, has given approval to orders-in-council passed in Ottawa and sent here for assent. Probably never before was the situation reversed as it is now. Mr. King is occupying the citadel residence where he was host to Mr. Churchill, Mrs. Churchill, their daughter Mary and Mr. Churchill's immediate party, all of whom will make the ancient fortress their quarters while in Quebec.

Extra air raid precautions have been taken in the form of anti-aircraft batteries, and gun crews have been established on the grassy slopes of the citadel and the Plains of Abraham at its foot, while extra military planes are reported to have been brought into the area.

German Parachutist Remains Uncaptured

MONTREAL, Aug. 12 — (CP).—Search for Eckhert Brosig, 25-year-old German parachutist who escaped from an internment camp at Monteith, Ont., earlier this week spread to Montreal yesterday as Royal Canadian Mounted Police began combing the area and surrounding districts. It is Brosig's second escape.

According to R.S.M.P. officials Brosig speaks excellent English. On his last attempt to escape he got as far as the United States border 500 miles from the camp before being captured. He was still wearing his German uniform when captured.

Officials at headquarters of Military District No. 2 said yesterday they were advised late on Tuesday by Royal Canadian Mounted Police and the Camp Commandant at the internment camp at Monteith, Ont., that the prisoner who escaped on Sunday was Eckhert Brosig and not Martin Bitterberg as previously stated.

Capture 999 Planes

ALLIED HEADQUARTERS, North Africa, Aug. 11—(AP)—The Allied Air Command said today that 999 Axis aircraft had been recovered from captured Sicilian airfields. Included in the booty were 232 Messerschmitt 109's.

The majority of these planes were wrecked when found, but a "surprisingly large number were still serviceable" and were flown to salvage centres, it was said.

On Sicilian Front

Pte. Stanley James, son of Mrs. Orval James of Peterborough, has cabled his mother that he is with the Canadian Army in Sicily. He enlisted in April, 1942, having come from Woodville, and was on active service with the Rangers, transferring to the Hastings Prince Edward Regiment. He has a brother, Leonard, in training in the Navy.

Summer Season Brings Distress

Bowel troubles, although happening at any time of the year, are more prevalent during the hot summer and early fall months.

Summer [illegible] is one of the worst troubles, but diarrhoea, dysentery, colic, cramps and pains in the intestines, or any looseness of the bowels should have immediate attention.

The action of Dr. Fowler's Extract of Wild Strawberry is pleasant, rapid, reliable and effectual in helping to check the unnatural discharges.

It has been on the market for the past 94 years, so why experiment with new and untried remedies?

Get "Dr. Fowler's" and feel safe.

MAIN STREET TOPICS

PROMOTED.

Miss B. M. Cookson, of Port Hope, has been promoted to Leading Wren and is stationed at HMCS Bytown at Ottawa. She has trained as a wireless telegrapher II in the Navy.

ILLEGAL PARKING

Offences against the parking regulations brought fines of $2 and $1 costs when writter pleas of guilty were entered in police court today by Bruce V. Gibson, Toronto, and Mrs. J. Carlisle, Peterborough.

YOUTHS ARF FINED

Charged with being drunk, two youths, Michael Collins and F. S. DeMarsh, entered pleas of guilty before Magistrate E. A. Gee in police court today and were fined $10 and $2.50 costs.

KIWANIS SPEAKER

Leonard M. Reilly of Toronto, president of the Reilly Lock Corporation, will address the Kiwanis Club at luncheon Friday in the Empress Hotel. His subject will be: "A Boy, a Friend."

CWAC RECRUITS.

Three recruits have been added to the ranks of the Canadian Women's Army Corps by enlistment at the local rcruiting office in the past week. They are Verona Loyce Stata of Lindsay, Phyllis Swinson of Kinmount and Mary Eleanor Watts of Warsaw.

FIRE REPORT

It was only a chimney fire at 621 Union street, residence of J. McIlmoyle, but when the alarm was telephoned in to the Fire Department at 7 o'clock Wednesday night they thought they had a roof fire on their hands. At 9.45 this morning a false alarm was turned in from Box 7 at Dalhousie and George streets.

FIGHTING IN SICILY

Mr. and Mrs. A. Christie, 376½ Water street, have been notified that their son, Pte. Leo Christie, who has been overseas for four years with the Hastings Prince Edward Regiment, is in Sicily and is well. Before joining the Army, he worked at the Fitzpatrick and Geraghty Markets.

ONE FIGURE OUT

An error in one figure quoted at $3,500 the sale of a house at 500 McDonnel street in The Examiner yesterday. Mrs. Walter Jones said it should have read $3,900.

CHILDREN GET COUPONS

Children reaching their 12th birthdays on or before Sept. 1 are to be provided with tea-coffee coupons in their new ration books which will be issued between Aug. 25 and Aug. 28.

STILL UP

The Bank Clearings for the week ending August 12 show an increase of $166,666 over that for the corresponding period a year ago. During this week the clearing figures have amounted to $977,090 and in 1942 they were $810,424.

INJURED OVERSEAS

Lance Sergeant Edgar Andrews, 23, a member of the Hastings and Prince Edward Regiment has been reported wounded in Sicily. His wife, who resides in Campbellford, was advised of his injury on Tuesday.

WEAR BUTTONS.

Fred G. Mann, treasurer of the British War Victims Fund, suggested to-day that all members of the Churchill Club which was formed to aid children in Great Britain, should wear their buttons while Prime Minister Churchill is in Canada.

NEW RATION BOOKS

Vacationers and travellers will be able to obtain their new coupon ration books at any local ration board or distribution point throughout Canada, it was announced today by the Wartime Prices and Trade Board. To obtain the new book the application card in the old book is filled out and turned in at any distribution point, but officials stress that the old book should be retained as there will be a period of overlap when coupons from both books will be valid. Distribution of the new book will be made during the three day period Aug. 25, 26 and 27.

7 Win Prizes At Show Draw

The draw for prizes in the British War Victims' Fund raffle conducted by the Eastern Ontario Gladiolus and Peterborough Aquarium Club in connection with the first annual show in the market hall was made last night. Two door prizes were also awarded, and sale of flowers which had been on exhibit at the show produced still further contributions to the Fund.

Prizes in the draw were won as follows: 1st, Mrs. V. Harrison, 534 Park street, ½ ton of coal; 2nd Ken Pearson, 488 Glengarry, $8 portrait framed; 3rd, W. Marlin, Yonge street, $5 War Saving Certificate; 4th, William Drury, 359 Dobbin avenue, 11-piece Pyrex set; 5th, W. J. Welch, 140 Douro, a rug; 1st door prize, Mollie Thompson, Lakefield, aquarium of fish; 2nd door prize, Edward Shaughnessy, 25 Braidwood avenue, 2 dozen gladiola bulbs.

Chinese Fined $25.00 In Prices Case

Pat Cheu, proprietor of the Victory Cafe, Simcoe street, was fined $25 and $8 costs by Magistrate E. A. Gee in police court this morning after a conviction had been registered against him of charging prices for meals that infringed the ceiling prices of the War Time Prices and Trade Board.

George Rogers, inspector for the Board, had produced two different menus obtained by him at the Victory Cafe, one in December, 1942, and the other in April of this year and stated that these showed an increase of five cents in the charge for a number of meals, including turkey and roast chicken.

Cheu in the witness box produced another menu which he said showed the prices that had been charged by him during the basic period in 1941, the figures being much the same as on the later menus. He said that he had this menu put away in a drawer and had forgotten it for some time.

"I put it to you bluntly" said W. F. Huycke, K.C., who appeared for the Wartime Prices and Trade Board, "that those figures written in look very fresh as if they were only recently inked in."

Cheu maintained that they had been made in 1941.

Hon. G. N. Gordon, K.C., who defended the accused maintained that there had been no substantial increase in prices but Magistrate Gee said that he was satisfied that the prices had been raised and that there had been an infraction of the regulations.

Mr. Gordon asked for a $10 fine but Magistrate Gee made the penalty $25, to correspond with another case of the same kind recently heard here.

There had been a snag in the case last week when the original indictment was lost.

However this morning Mr. Huycke called attention to a Peterborough case reported in the law reports in which a similar situation had arisen.

It was a manslaughter case down for hearing at the Assizes here in 1906. The indictment had been lost and Mr. Justice Anglin, who presided, had ordered that a new indictment be prepared and presented to the grand jury.

That precedent was followed today and a fresh indictment against Cheu, replacing the lost document was drawn up.

Vote Plurality For Scott 783

A plurality of 783 votes for Harold R. Scott, candidate of the Progressive Conservative party, was announced this morning by A. J. McClellan, returning officer for the riding of Peterborough, as a result of the counting last night of the returns from the deputy returning officers.

Incomplete official figures were: Scott 6,848; Captain A. L. Elliott, Liberal, 6,065; and Bruce Johnston, Co-Operative Commonwealth Federation, 4,743.

Mr. McClellan's tabulation was incomplete beacuse the ballot box from Bridgenorth had not been returned last night by the deputy returning officer at the Foresters Hall, Allan B. Mann. When all the boxes, piled up in a room in the Kresge building were opened and emptied of their electoral stationery and sealed envelopes, and the official figures from the deputy returning officers were listed, it was found that one poll was missing. It was immediately evident that this was the Bridgenorth poll, the absence of which had not been manifest up to that stage of the final procedure of electing a representative to the Legislature from this constituency.

For the purpose of compilation of the total vote, the telephoned return from Bridgenorth last week was accepted as correct until the ballot box is received.

Col. Peake Dies

CHARLOTTETOWN, Aug. 12 — (CP). — Lt. Col. Arthur G. Peake, 71, died last night at his home here. He had been in failing health the past five years following a stroke. He was a prominent farmer and fox-rancher.

He commanded the 8th medium battery, R.C.A., in the first Great War, and his son, Lt. Col. George Peake, is its commander in the present conflict.

Want Higher Status

SAINT JOHN, N.B., Aug. 12 (CP) —Raising of the status of the teaching profession and provision of "high calibre" teacher training institutions, were advocated yesterday by the Canadian Teachers' Federation meeting here, as of basic importance in any plan for education reconstruction.

MOVIE TIME TABLE

Capitol—"Five Graves to Cairo" 2.00, 3.55, 5.40, 7.35, 9.20.

Centre—"Once Upon A Honeymoon", 1.25, 4.18, 6.58, 9.37; "Roar Navy Roar", 3.38, 6.24, 9.13.

Regent — "My Friend Flicka", 1.20, 3.40, 5.35, 7.45, 10.00.

Button Avalanche

TULARE, Calif., Aug. 12—(AP).—Truck Driver Aubrey I. Norris wasn't foolin' when he went around yelling: "Buttons, buttons — who's got the buttons?" His cargo of 15 tons of buttons went showering down a highway when his truck went out of control and struck a tree. Hours afterwards, folks were still helping him pick up buttons.

French-Canadian Gets Jail Term

Ten days in jail was the penalty imposed by Magistrate E. A. Gee in police court this morning on Maurice Pelland, French-Canadian youth, after the latter had been convicted on a charge of vagrancy

Constable Gordon Trennum testified that in answer to a complaint about a man having been seen at the back of Bethany Tabernacle shortly after 6 o'clock in the morning and drinking milk from a bottle he had gone to the place and arrested Pelland. The latter he said had first denied the milk incident but later told several stories as to where he obtained the milk. Constable Trennum said that when the prisoner's effects had been examined a letter addressed to the Goodwill Apartments on Water street had been found.

"Didn't I tell you I was going to work?" asked the accused.

The officer replied in the affirmative, adding that inquiries at the Canada Packers plant had shown that there was an opening for Pelland there, but that he had never reported for work.

In the witness box the youth, who said that his home was in Three Rivers, Que., said that he had spent the night at the home of his girl friend and that morning had gone up to the Y.M.C.A. to get his work clothes. He said that he had bought a quart of milk at a Stewart street grocery the afternuoon before, had drunk part of it back of the Tabernacle and had left the bottle there. On the way to work the next morning he had consumed the rest of the milk. As to the letter in his pocket he said he had found that.

"I suppose you have heard of milk bottles being stolen," said Crown Attorney McElderry.

Magistrate Gee convicted the accused and sentenced him to jail for ten days, advising him to go to work when he got out.

Pelland said he that he had taken a course at Three Rivers and then had been sent to Genelco. He worked there until he wanted a holiday to go home. When that was refused he had quit his job.

Villagers With Cattle Must Give Up Coupons

Under slaughtering regulations of the Wartime Prices and Trade Board the position of villagers and others who are not farmers but who nevertheless keep or raise livestock to provide meat for themselves and their families, has ben clarified in an amending order issued by the board, it was stated today by W. E. Foley, local manager.

Villagers and others who do not come under the classification of farmers, but who have been accustomed to keeping a few livestock, are to be allowed to continue in this practice, provided, however, they don't raise more than two head of any kind within a year. Moreover, a slaughter permit will not be needed to kill this livestock or have it killed for them if for family use, Mr. Foley said.

They are required to register at their local ration board as meat producers and surrender meat coupons at the rate of one coupon for every two lbs. of their own livestock killed, he added.

Talks With British

LONDON, Aug. 12.—(CP).—Eric Johnson, president of the United States Chamber of Commerce, arrived in Great Britain today to study how British industry mobilized for war and for discussions with industrial leaders and union officials on close, post-war collaboration between Britain and the United States.

Ignore Mine Workers

CHICAGO, Aug. 12—(AP).—The American Federation of Labor Executive Council decided yesterday to refer the application of the United Mine Workers of America for re-affiliation to its annual convention in October without recommendation.

Bacilli Count Low At Inverlea Beach

Laboratory tests of the water at Inverlea swimming beach show a low count of colon bacilli, confirming the satisfactory estimates to the Board of Health a month ago.

Sanitary Inspector MacPherson informed the board this week that he had obtained samples of the water at several places frequented by bathers, and had them examined at the Provincial Laboratory in the city hall building by what is known as a "plate count."

"There should not be more than 100 of the colon bacilli to the cubic centimeter of water," Mr. MacPherson said. "This examination by Dr. Waite's staff showed only five bacilli to the cubic centimeter at Inverlea, and that means the public has nothing to worry about the safety of the water for swimming at that beach. Water from the canal at McFarlane avenue showed only seven, and Mark street twelve. So, the department does not need to warn the public against those swimming places. On the strength of that test they are safe enough.

But, the count in water from George street wharf was seventy-six, and it was decided to declare that place closed for swimming."

Incidentally Mr. MacPherson explained that one drop of water represents one-tenth of a cubic centimeter. And at the Provincial Labatory it was said that cultures are made of the water samples, and the count is made by using a magnifying glass.

Lindsay Council Seeking Wood

LINDSAY, Aug. 12 (ENS) — The prospects of a fueless winter sent the Town Council scurrying into a special meeting in an effort to combat the situation before the cold weather sets in.

Showing disgust at the lack of action resulting from several meetings, Mayor Charles Lamb stated that something definite must be done and advocated the buying of at least 1,000 cords of wood to help relieve shortage. As a result of his persistence, a committee of the Mayor, Reeve, Deputy-reeve and chairman of the finance committee were appointed to delve into the possibility of securing the above amount of wood and reporting to a special meeting to be held next Monday night. It was proposed to have the local fuel dealers attend the meeting.

Other business needing prompt attention was the necessity of building an office for the new Seed Export Board as set up here by a recent Ottawa announcement. After much discussion, it was decided to refer the matter to the Chairman of Industries.

The grant to the Fair Board was made without discussion and set at $250, the same as last year.

Soldier Faces Theft Charge

Wearing the Canadian Active Service uniform, Albert Selmes was arraigned before Magistrate E. A. Gee in police court this morning on a charge of stealing a truck belonging to the Wonder Bakeries and was remanded until next week at the request of the Crown.

"The military authorities will have to be notified so they can have some one present at the hearing," said Magistrate Gee.

Selmes is one of three Peterborough youths who face charges arising out of the theft of the Wonder Bakeries' bread truck. Erl Northey will be brought back from Stratford after a charge against him there of stealing gasoline has been disposed of, and a juvenile, charged here this morning, was also remanded until next week.

More Christmas Toys

LONDON, Aug. 12.—(CP).—Sign of happier times in Britain: A new Board of Trade order permits 25 per cent. more toys for Christmas this year than last.

LOANS TO BUY COAL
Fill up your coal bin NOW, urges the Government
"Fill up your coal bin today," urges the Government. Lay in coal for next winter now to help the war effort and to protect yourself against a shortage. If you are short of funds we have a plan to help you. This plan provides cash to buy part or all of your winter's coal supply. You pay us in small monthly instalments out of your income. Cost of plan is reasonable. Your dealer, too, will like Household's fuel loan plan for he will be paid in cash and will not have to guarantee payment of your account. You borrow on your own name. Learn how this plan can help you stock up on coal now. Phone or visit Household Finance Corporation of Canada, 177 Charlotte Street, Peterborough. Phone 5841.

Utilities Club Gives Aid To War Victims

At the Utilities Sub-station on Aylmer street they have a War Savings Certificate Club operating on a weekly basis, where-in twenty persons each contribute 25 cents, and a draw is then made for a war savings certificate of the $5 par value type, and the extra dollar is laid aside until five accumulate, and is then given to help the victims of air raids over Britain through the local and district fund which is operated for that purpose.

This is now under the leadership of Jim Cumming and W. H. Lytle who have both taken a considerable interest in the welfare of the fund from time to time, and this $5.00 listed today marks the second of a like amount that has come to the fund by the same method of raising.

The beauty of this type of contribution is that every cent raised goes into the war effort, giving a double purpose to their effort which is worthy of emulation.

Then in the office on Aylmer street a penny bottle is kept to take care of the odd nickels, dimes and coppers, and this was emptied to provide an extra $1.63 towards this day's receipts, this particular feature being a pet baby of W. H. Lytle, who advances the cause of its appeal on every occasion.

The personal element is kept alive through a nice $5.00 donation from "M.E.M." who has rendered help to the people of Britain in a like amount in the same manner on a number of occasions.

Two penny boxes are also listed, the old reliable at the Empress Hotel yielding another $2.25 for one week's total, and the box at Buehlers Meat Shop on George street with Miss Royea the cashier in charge, adds another $2.30 as its latest assist to the fund.

Lord Mayor's Thanks

His Worship Mayor Hamilton has received a letter from the Lord Mayor of London dated July 15 which reads as follows: "It was with great pleasure that I received the sum of £500, being another donation from the citizens of Peterborough and District towards my Empire Air Raid Distress Fund, for which I herewith enclose official receipt No. 102042.

This further generous donation is greatly appreciated, and I shall be glad if my sincere thanks can be conveyed to all who were associated with the gift.

I am deeply grateful for the splendid way in which your citizens continue to express their sympathy for those who have suffered as a result of enemy air raids."

This letter was signed by the Lord Mayor, Sir Samuel G. Joseph, and was is response to the last donation cabled to him on July 12.

Previously acknowledged	$61,501.40
Box at Utilities, Aylmer street, per W. H. Lytle ..	1.63
Utilities War Savings Club, per Jim Cumming and W. H. Lytle	5.00
Personal donation from M. E.M. receipt No. 2654 ..	5.00
Penny Box, Empress Hotel	2.25
Penny box, Buehlers Meat Shop	2.30
Total to date	$61,517.58

Special Peace Prayer

QUEBEC, Aug. 12 (CP)—Cardinal Villeneuve, Archbishop of Quebec, yesterday issued an appeal to Roman Catholics to observe next Sunday, the Feast of the Assumption, as a day of special prayers for peace.

SENTENCED

For maliciously killing a cow, an English soldier was sentenced to three years penal servitude.

War—25 Years Ago

By The Canadian Press

August 12, 1918—Hard fighting in progress on the line of Allied advance as the British-French forces took Des Loges and the French captured Gury; British airplanes bombed the Somme crossings and nearby railway junctions. British raided the enemy's Jerusalem-Shechem positions.

Navy Auxiliary Plans Tag Day

Preparations for the Navy Auxiliary tag day at the end of this month were discussed at a meeting of the auxiliary held Wednesday night.

The tag day is for the purpose of raising funds which to send ditty bags to all the Peterborough boys in the naval service at Christmas. There are some 500 Peterborough sailors to be taken care of and the task of preparing ditty bags for all of them will involve heavy expense and much work. The co-operation of the public is being urged, not only in helping to raise the funds needed, but also to prepare a complete and accurate list of the boys from the city and immediate district who are wearing the blue of the navy.

In this connection relatives of any sailors whose names have not yet been listed are asked to get into touch with Mrs. F. D. Craig, 544 Water street, telephone 5591.

One fine example of co-operation in the ditty bag campaign of the auxiliary has been reported. Four small children, Marion and Esther Brown, Nancy Neary and Alphonse Levasseur, raised $5.05 by selling tickets for a draw on a pair of pillow-cases made and donated by Mrs. James Brown, and then supplemented this amount by a little bazaar which netted $1.75 more.

The total has been turned over to the Navy Auxiliary and will take care of ditty bags for two Peterborough soldiers next Christmas.

Meat Prices Fixed

OTTAWA, Aug. 12 (CP)—F. S. Grisdale, administrator of meat and meat products for the Prices Board, last night issued an order fixing maximum prices at which various fancy meats and by-products of beef, veal, lamb and mutton may be sold in all parts of Canada, effective August 16.

Over-Crowding Common Inspector Says

A comment on overcrowding of occupancy in a few local houses is included in the report of the Board of Health by Dr. Harold Worton, V.S., who was acting sanitary inspector while R. M. MacPherson was on his holidays.

Dr. Worton said he had investigated eight or ten complaints which had come to the Department.

"The chief cause of complaints was overcrowding and lack of sanitary conveniences. The overcrowding is difficult to control during these times, but there is always the danger of slum sections. To condemn a residence after a short rental period is unfair to tenant and inspector when it is apparent it should not have been rented in the first place. This is a difficult problem to control, but if some solution could be arrived at it would be very helpful."

To the Examiner, Dr. Worton said his impression was that rooms in houses are sublet, thereby increasing the number of occupants beyond the accommodation provided in such houses.

"I investigated eight or ten places, and I recall, for example, that in one of them there were five persons living in one room."

Fowl Diseased.

Dr. Worton is occasionally called in to assist the Department as in the absence of Mr. MacPherson on vacation.

Dr. Worton's supplementary report mentioned applications from three dairy farms to sell milk in the city. They were inspected "but permits were not granted until city requirements are met."

And this is his reference to the market: "General sanitation was satisfactory. Products had a clean and wholesome appearance. If possible, some arrangements should be made to have each producer's name placed on the stand as some fowl examined were condemned due to disease. This method would enable the purchaser to receive his money back and enable the inspector to check on any future diseased birds. It would also benefit the producer in abling him to check on the spread of disease in his flocks."

After you see this all BRITISH NEWS we would appreciate hearing your comments on this new innovation.
SYD GOLDSTONE, Manager.

Unrestricted Private Enterprise Essential Postwar Stabilizer

Walter P. Zeller, of Montreal, manager of the chain of stores bearing his name was the chief speaker at Toronto today when the Canadian Weekly Newspapers Association met in conference. His address titled "Whither Post-War Canada" was timely and laden with a wealth of logic and sound reasoning that had wide appeal.

Mr. Zeller spoke at some length touching on every phase of wartime living and the steps which must be taken to keep our standard of living on an even keel when the war is over. He said in part:

Without in any way lessen our zeal to see the war carried forward vigorously to a swift and decisive conclusion, we can well consider now what steps we need to take in order to ensure that post-war Canada will be that better Canada for which we strive.

However we may differ in our thinking about the means we are to employ to get what we want, we are unanimous in knowing what it is we do want. We want, first, a land of freedom—for we are convinced that freedom is the indispensable condition of all progress. We want, secondly, a land of opportunity, a land where our resources both human and natural can find the best and fullest use, for we are determined that those days must never be allowed to return, when a man who looks for honest work can find none. Finally, we want a land where, without the loss of freedom or the restriction of opportunity, the weak and the unfortunate will not fail to secure the arm of protection. But, as Winston Churchill so truly warned, "We must beware of trying to build a society in which nobody counts for anything except the politician or official, a society where enterprise gains no reward and thrift no privileges". There can be no difference of opinion on objectives, but there appears to be considerable difference of opinion as to the methods which will enable us to attain our objectives in the shortest and best way. It is my conviction that these objectives can best be accomplished if we adhere strictly to the principles of economic freedom, commonly referred to as free or private enterprise.

What Is Private Enterprise?

In olden days, when Britain's overseas trade was being founded—the trade that circled the globe with a Commonwealth of Nations—those who sailed forth on risky voyages to unknown lands were called "merchant-adventurers." A society dedicated to free enterprise means a society which still keeps the spirit of adventure alive. It means a society free from those artificial restrictions, either by the State or by monopoly, which prevent any person who dares to take the risk, from setting forth on new economic voyages of discovery. It means a society where, within the limits of the laws and regulations enacted in the general welfare, each individual is free to plan and conduct his own affaiars, to apply his initiative and energy in any field of endeavour and to reap the rewards of his efforts. It means a society whose future is not limited to the course chartered by some fuehrer at the top. It means a society whose potentialities are the sum total of the initiative, the energy, the foresight and the courage of all its citizens together.

I should like to point out, however, that private enterprise does not mean the same thing as Laissez-faire, no more than liberty means the same thing as license. There is no need to deny the blessings of liberty to all in order to restrain the license of a few. The development of private enterprise has been accomplished by a corresponding development of social conscience and, therefore, social progress. The number of laws and regulations which now exist for the protection of the public would have seemed Utopian in the 18th Century. The abolition of the slave trade, the prevention of child labor, the enforcement of compulsory education—these and a multitude of reforms like them have all been achieved under our present system. There is nothing in true freedom of enterprise at all in compatible with true social progress and, furthermore, freedom of enterprise in no way precludes such action on the part of nations or of society as the common welfare may dictate.

Not Perfect.

There is no error more grave than to fall victim of the mistaken idea that the defense of private enterprise includes any defense whtsovere of unjustifiable privilege or of economic abuse. Decidedly not. No one contends that the system of private enterprise is a perfect system, or that we who live under it, dwell in Utopia. But it is a system which works, it works better than it used to, and we can make it work even better still. It is a fact which cannot be gainsaid that nowhere and at no time has the ordinary, average citizen enjoyed a standard of living higher than that which obtains in the great democracies where enterprise is free. Under freedom of enterprise, every generation has found itself better off than its predecessor, not only in terms of money in its pockets, but above all in terms of that ever-increasing variety of goods and services that add to the comfort, the dignity and the ease of life.

Not only has the history of free enterprise been a history of material progress, but under no other system has social progress been so rapid. The very freedom which makes it possible for private enterprise to function, also makes it possible to criticize and reform social abuse and injustice. In the past the great reformers of democracy have attained their achievements within the framework of democratic capitalism. Yet there are those who in the name of social progress, would abandon the very means by which the greatest progress has so far been made.

Essential for Political Freedom

There are those who honestly believe that we can dragoon society into being a chain gang of economic regimentation and that, notwithstanding, we shall still be free. This is not a mere academic question, a scholastic dispute for the political economists. On the contrary, it is a very practical issue that concerns the daily life of every individual. All things must be judged by results, and the results of economic regimentation are easy to see.

The lesson is written large and clear in the record of man's past. Contrary to the common adage, history does repeat itself, and in age after age, the same story recurs—every attempt to manage and direct economic life by Government control has resulted in the obliteration of freedom. The story is the same whether the principal actor is a Roman Emperor, a Spanish King, an Austrian Hapsburg, a French Bourbon, or a British Stuart. Individual freedom and economic domination do not mix. A nation cannot have both, and it must make its choice as England did in 1648 or as France did in 1789.

Indeed, we may merely look around at the world today and compare the regimented economic systems with our own. Of the various politico-economic systems that now challenge the attention, three stand forth today as pre-eminent. These are:

1. The system known in Germany as Naziism and in Italy as Fascism;
2. The system known in Russia as Communism;
3. The system of capitalism which we ourselves practise.

Under National Socialism, which is showing increasing desperation, and under Fascism, which has already shown its bankruptcy, private enterprise lingers in the show window but the State operates the cash register. One man supported by a group of puppets undertakes to dictate what everyone shall do. Of course, this one man and his puppets might make mistakes but if they do they must be covered up. Hitler is always right, and the reason he is right is because it is sudden, painful death for anyone to suggest he is wrong. Under this system there is little room for the man or woman who thinks. In fact, there is no room at all for the man or woman who thinks differently. Business associations, farmers' organizations, trade unions, service clubs and fraternal organizations all are abolished. They must be abolished because such organizations might question the actions of the man at the top. Editors and publishers — gentlemen like yourselves — are bound, gagged or tyrannized into becoming a thousand voices singing the master's song.

WALTER P. ZELLER

Clots Trade Stream

Because economic dictatorship inevitably produces clots in the lifeblood of trade and industry, the attention of the people must be diverted from observing that the economic system is no longer sound. The ruthlessness and inner contradictions of the system vent themselves first against the minorities within it and then against its neighbors in the inevitable policy of aggrandizement. And this is made possible by the merciless repression of the individual. The State, and all that it implies, becomes the helpless creature of one man and his pitiable followers. To keep it that way, resort is had to the blood bath, the firing squad, and the torture chamber and the thousand and one other horrors that are now implied by the old word "liquidation".

The Communistic system is more honest than Naziism or Fascism, in that it comes right out in the open and says private enterprise, the profit motive and private ownership of property are crimes against the State. At least there is no subterfuge as to how this system was designed to function. But here again, economic dictatorship leaves no room for political freedom, and the inevitable paradox develops that the State, which in theory exists for the masses, results in each of the individuals of whom the masses are composed becoming the mere tool of the State.

Admire Russians

We can admire the Russian people for their constancy and courage in the defense of their native land, without admiring their politico-economic system. No people in history have stood up more dauntlessly in the defence of their country. In the present fearful war, no people have more bravely borne the brunt of the battle than the Russian people, and for these qualities we whole-heartedly admire them. But this does not mean that the dark and desperate background out of which the present regime in Russia has developed has ever been paralleled in our own country. History has been kinder to us than to them, and we can be frank in expressing our gratefulness for the economic and political freedom which we have ourselves evolved, and which has given our people a standard of living many times higher than theirs. We can, I say, express ourselves frankly in admiration of our own system without injuring our alliance with or our friendship for the Russian people. Indeed that friendship can exist safely on no other basis than frankness and honesty between our two peoples.

There is another point which must be remembered if we are to judge the Russians fairly. The world has rightly been impressed with their economic strength and productivity in these times of great crisis and there is a disposition on the part of some to assume that Communist ideology has, therefore, made good its claims in practice. It should be remembered, however, that in many points, Stalinism had departed far from orthodox Marxian principles, and in no respect further, nor with better results, than in rewarding the individual on the basis of his productivity; for no society can escape the basic fact that maximum productivity can never be achieved otherwise than by the time-honored inducement of a greater profit for him who produces more. By whatever name it may be called, the profit incentive, the hope for gain or the desire to improve one's own position, is an inescapable economic law of nature.

Essential Feature

This brings us back to our own economic system. There are many who profess to admire the political freedom which is the heritage of the Anglo-Saxon people, but who now question whether their economic freedom is as great an advantage. For such people, the hope of the future lies in some form of controlled eceonomy. Among the misgivings which prompt this kind of thinking is the fear that we cannot hope to maintain the rate of industrial expansion which has characterized progressive nations for more than a century. They doubt that progress can maintain its pace. However, those who think in this way forget that similar opinions have recurred during every period of transition. Indeed, it is 145 years ago since Malthus first published his celebrated essay in which he foreboded that there would soon be more hungry mouths than the world could hope to feed. He conceived England as being economically mature and advocated not only a planned economy but also a controlled population. His arguments were convincing and were not without support, yet within 100 years the population of England increased fivefold.

Futhermore, from the dawn of man to the year 1800 A.D. the population of the world climbed slowly to something like 900 million. But after the brief century between 1800 and 1900, the population of the world almost doubled. Why? Trade, science and genius, despite the misgivings of the fearful, flourished under private enterprise, unhampered by the theories of bureaucratic sponsors, and provided, not only for survival of the increased population, but for an even-higher standard of living.

All Were Wrong

One hundred years ago Henry Ellsworth, Commissioner of Patents in Washington, was convinced that production in the United States had reached its maximum, yet that nation today can produce as much steel in fifteen minutes as the total production for the entire year, 1867. One wonders what might have happened to the world had the advocates of a controlled economy of the past been in a position to enforce their theories. Under the freedom of private enterprise, genius, initiative and invention were woven into the over-brightening pattern of human advancement. The sky became the limit of any man's ambition. Adventuring and pioneering carried civilization across the Globe. Knowledge that the man who works may win, opened new lands, pushed back frontiers, built trade, forged wealth and purchasing power and with it life became more abundant.

No one blue printed the British Empire. It grew and prospered as the result of the complete economic freedom of brave and enterprising free men. No one planned the Dominion of Canada. It grew from the untramelled efforts of pioneers who assumed risks in developing a land which commanded their unbounded faith. No Government controls presided over the industrial revolution. No State controlled economy built the factories, laid the railroads, launched the ocean liners, invented and developed the electric light, the telephone, the automobile or the airplane. These things, and a thousand like them, came from men of vision working in complete liberty under the economic freedom of private enterprise. They were spurred on by the desire to better themselves and their fellow men. They were stimulated by the profit incentive. Their achievements have gladdened the lives and illuminated the horizons of countless millions.

In Canada, of all countries, we should recall one fact. Under private enterprise has been built here one of the highest living standards in the world. It still rises. In fact, in every nation where private enterprise has flourished it has proven itself to be an economic system always in evolution, always eager for progress. Private enterprise has never pulled a set of blueprints from a drawer and said — that's that, there isn't any more.

Plotting More Grief For The Axis

In the royal palace at Palermo, Major-General Geoffrey Keyes, LEFT, General Bernard L. Montgomery, and Lieut.-General George S. Patton, Jr., study a huge map of Sicily and plan more discomfort for the remaining Axis forces in Sicily.

Teachers Protest Freezing Order

SAINT JOHN, N.B., Aug. 12 — (CP).—Delegates to the annual convention of the Canadian Teachers' Federation today unanimously adopted a resolution urging the Federal Government to amend or repeal the Order-in-Council which last June froze school teachers in their profession.

The delegates sent copies of the resolution to Prime Minister Mackenzie King and to Labor Minister Mitchell. They asked that Mr. Mitchell agree to meet representatives of the Federation as soon as possible to discuss the question.

Delegates said that the Order-in-Council had caused undue suffering to some teachers.

Another resolution urged that the policy of the Federal Government be directed towards the elimination, by international and reciprocal agreements, of all restraints to trade among nations. A third resolution urged the Federal Government to continue and extend its study of all national resources.

With Churchill

Wing Commander Guy P. Gibson, V.C., D.S.O. and bar, D.F.C. and bar, distinguished R.A.F. bomber squadron leader who blasted the Mohne and Eder dams also accompanied the Churchill party to Canada.

CCF Candidates Get Soldier Vote

TORONTO, Aug. 12 (CP).— The vote of servicemen in last week's Ontario election for Toronto St. David and Toronto Riverdale constituencies was predominantly C. C. F., it was announced last night by returning officers of the two ridings, but did not change the result as C.C.F. candidates were elected in both constituencies.

In Toronto St. David the military vote was: William Dennison C.C.F., 240; Alan Lamport, Liberal, 92, and D. R. Mitchener, Progressive Conservative, 160. The total official vote was: Dennison, 5,678; Lamport, 3,074, and Mitchener, 5,059.

In Toronto Riverdale the military vote was: Flt. Lt. L. E. Wismer, C.C.F., 250; W. A. Summerville, Progressive Conservative, 181, and W. A. Allen, Liberal, 66, with the total official vote as follows: Allen, 2,256; Summerville, 7,340, and Wismer, 7,526.

Serves In England

Pte. Joseph Casey has notified his parents, Mr. and Mrs. John Casey, 219 Rogers Street, of his safe arrival overseas. His father is a well-known rural mail carrier. Pte. Casey enlisted in the R.C.O.C. in February, and was stationed at Barriefield. He was formerly employed at the De Laval.

Legion Helps Soldiers' Wives

Mr. J. H. Sturdy, assistant director of the Canadian Legion educational services, holds forth on a subject of much interest to his audience—he is pictured telling brides of Canadian soldiers in England of their new homeland, Canada.

False Rumors Started Riots

DETROIT, Aug. 11 —(AP)— Detroit's race riots of last June 21 were not planned or premeditated, nor were they inspired by subversive enemy influence, a fact-finding committee appointed by Governor Harry F. Kelly reported today.

The committee blamed the outbreak of violence on racial tension which "was inflamed as a result of several disconnected incidents provoked by a group of Negroes."

"The looting and accompanying rioting followed the spreading of a false rumor by Leo Tipton, Negro, to the effect that whites had killed a colored woman and her child at Belle Isle," it stated.

Thirty-four deaths and nearly 800 injuries resulted from disorders which followed. Tipton is being held on a charge of inciting to riot.

"Irresponsible white and Negro youths," the report said, "were responsible for most of the casualties and the damage resulting. The ordinary law enforcement and judicial agencies have thus far adequately and properly dealt with the law violators."

LORD CLIFFORD DIES

Lord Clifford, 84, of Chudleigh, England, a radiology authority who made the colors of the infrared and ultra violet rays visible, is dead.

Fighting In Sicily

Pte. Keith Nelson, son of Mrs. H. Nelson, 735 Water street, has cabled his mother of his safe arrival in Sicily. He has three brothers serving in the armed forces in England.

Lindsay Flier Hits Nuremberg

LONDON, Aug. 12—(CP Cable)—Canadian air crews reported today that considerable nightfighter activity was met over Nuremberg in the R.A.F.-R.C.A.F. said on that German city last night, but searchlights and anti-aircraft fire lacked effectiveness.

All R.C.A.F. bombers returned safely.

Sgt. D. J. Devin of Calgary, rear gunner in a Lancaster bomber, said he saw four nightfighters in the deep red glow of clouds over the burning target, and another on the way home, but none gave any trouble.

"The defences were hardy worth mentioning," said FO. F. E. Lampin of Regina. Other Canadians on the raid included FO. C. A. Wilson of Lindsay, Ont.

With an R.A.F. Sterling Squadron was Sgt. John Copeland of Ingersoll, Ont.

Sgt. John Duval of Gravefield, Que., with 23 operational flights, reported ineffectual fire and a few searchlights.

RECEIVES AWARD

Bible Society Plans New Objective

BAILIEBORO, Aug. 12 —(ENS) —The annual meeting of the Upper Canada Bible Society was held on Sunday evening in Bailieboro United Church. In the absence of Rev. M. Rowland, the Rev. H. Malcolm acted as chairman.

Rev. Mr. Allnutt of Toronto, representative of the Bible Society, spoke of the work being done by the society and their present objective of supplying every man and woman in the Army, Air Force, and Navy, and nurses of the British Empire on active service with a copy of the New Testament, and he especially appealed for funds to carry out this worthy work.

The treasurer's report showed a sum of $58.92 collected and sent to the society from this district in 1942.

Officers were returned as follows: President, Norman Earle; secretary-treasurer, Mrs. Norman Thompson, and a committee of Rev. H. Malcolm, William Fell, the president and secretary-treasurer to meet and appoint collectors.

Personals.

Miss Helen McMahon of Toronto spent a few days at the home of her parents, Mr. and Mrs. Hillard McMahon.

Miss Jean Bickle of Bethel is spending a week at the home of Mr. and Mrs. Aylmer Dawson.

Mr. and Mrs. Donald Hobbs and infant son Kenneth of Toronto spent the week-end at the home of the latter's parents, Mr. and Mrs. Wellington Bateman.

Mrs. John White of Toronto is spending a few days visiting friends in the village.

Jacob Isbister attended the funeral of his cousin, Mrs. William Shannon, in Peterborough on Monday.

Miss Edna Johnston spent a day at the home of her uncle, Mr. and Mrs. Robert Strickland of Lakefield.

FINE RECORD

Just over a quarter of one per cent of those invalided out of the British army are invalided out because of venereal disease, Arthur Henderson, financial secretary to the War Office, informed the Commons.

Major Sutherland Wounded In Sicily

LIMEHOUSE, Ont. Aug. 12 (CP) —Major J. G. R. Sutherland, 32, who received mention in dispatches from Sicily when leading a company to occupy a ridge overlooking the town of Enna, has been wounded, according to word received by his wife yesterday.

Major Sutherland is the son of Dr. J. G. Sutherland, Limehouse, and was born in St. Catharines. In 1923 his family moved to Limehouse. He attended Georgetown High School, where he was outstanding among cadets. Attending the Ontario Agricultural College in Guelph, he completed the final year of his course at McGill University in Montreal, and was graduated with a Bachelor of Science degree.

Fraserville News

CAMPBELLFORD

St. Mary's Parish Has Large Garden Party

CAMPBELLFORD, Aug. 12 — (ENS).—The annual garden party staged by members of St. Mary's parish lived up to its reputation of other years. The affair was held on Tuesday evening and it is expected proceeds will top the $1,000 mark which was reached last year.

The main attraction was a huge bingo table which was filled with players from early evening to well past twelve o'clock when the draw on a number of special prizes for which tickets had been sold in advance of the party, was made.

In addition to people who came from all parts of Seymour and Percy township there were a number of clergymen from neighboring parishes who spent considerable time on the grounds and also visited with Rev. J. P. Collins of St. Mary's church. The visiting clergy included Rev. James Collins, Parry Sound; Rev. Dean Ferguson, Warkworth; Rev. C. J. Carroll, Norwood; Rev. J. J. Garvey, Hastings; Rev. Bernard Collins, Cedar Rapids, Iowa; Rev. Leo Rishea, Wooler; Rev. S. Lesage, Stirling; Rev. John McCarthy, Douro; Rev. Father Farrell, Marmora; Rev. John Ryan, Grafton.

The draw was made at 12.15 a.m. with Rev. Collins in charge and several young people in the audience were called upon to select the tickets. The prize winners were as follows: 1. Rheta Mahoney, $20.00; 2 Bernard Hoey, $5.00; 3 B. A. Craig, $5.00; 4 Roy Loucks, Campbellford, $5.00; 5 Richard Mahoney, Campbellford, ½ ton of coal; 6 K. O'Brien, Toronto, end table; 7 John Dunlay, Campbellford, a table lamp; 8 Mrs. E. J. Holmes, Batawa, an Adam Hat. The special draw on a walnut chair was won by Daniel J. Smith.

Cottesloe News

Good Match Mates

By ALICE ALDEN

RESTRICTIONS have been relaxed sufficiently to permit the manufacture, though as a separate item, of topcoats to match suits. In most cases the topcoats are of the type that look well over other dresses and suits as well as the original suit which they were designed to match. A suit and coat of this type modeled by lovely Elaine Shepard is a wardrobe backbone. It is of grey chalk striped flannel cut on regulation lines, which means very slim. The hat is of dark grey felt and the purse, gloves and shoes are of navy suede, a grand color combination.

Mrs. Albert Graham, 267 Westcott street, has received word that her son, Pte. Foster Thompson, has arrived safely overseas.

◊ ◊ ◊

Mrs. Alf Progett and son George of Toronto, are visiting the former's mother and sister at the home of her sister, Mrs. Albert Graham, 237 Westcott street.

ATE CATS AS RABBITS

STOCKHOLM — (CP). — Norwegians tell this one: All the cats vanished from a little town in Southern Norway. Their disappearance was a mystery until the Germans announced they would only buy rabbits unskinned.

Peterborough Girl Wed in Toronto

Pte. and Mrs. Adrian P. O'Reilly, whose marriage was solemnized on Saturday morning at St. Basil's Roman Catholic Church, Toronto. Pte. O'Reilly is the son of Mr. and Mrs. J. O'Reilly, Macpherson Avenue, Toronto, and his bride was formerly Miss Charlotte B. Sullivan, daughter of Mr. and Mrs. Dennis Sullivan of Peterborough.

Proper Care Extends Life of Refrigerator

Even with wartime shortages, we still have many different kinds of food to eat. All foods are perishable under certain conditions and spoiled food is wasted food. Once wasted food meant nothing more important than wasted money—nowadays it means lost energy, and lost hours of manpower; it means lengthening the time it is taking us to win the war. To save and use every scrap of food is thus a patriotic duty, and nothing is more helpful than a good trusty household refrigerator.

To keep a refrigerator trustworthy one must care for it. That gleaming white finish has been designed to stand a lot of food spilling and general carelessness, but most foods contain acids which will leave stains and begin the process of corrosion. To avoid this, the refrigerator should be kept scrupulously clean. The time to do the cleaning is while the defrosting is going on, and both can be done in 15 minutes. First make sure the defrosting tray is empty, uncovered, and in position, then turn the control to OFF, remove everything from the refrigerator and place a pan of hot water on the bottom shelf in the freezer. Do not use the quick-release type of ice tray for this purpose, because they usually have a thin coating of wax that will wash away in hot water.

All equipment should be washed thoroughly, first with extra-soapy suds, and then, with a cloth which has been dipped in a solution of ordinary baking soda and water, about a teaspoonful to a quart. The soap will take off all grease, spilling, and marks. The soda will counteract food odours.

Wash the walls and bottom shelf in the same way, and when the defrosting is completed, wash the freezer inside and out, wipe the refrigerator dry, refill only the number of ice trays that you will need, and start the refrigerator running.

Your refrigerator should be defrosted and cleaned before the frost is ¼ of an inch thick—or every two weeks in winter and every week in summer. Freezer frost not only harbors food odours and imparts them to fresh foods, but if it gets too thick it acts as an insulator, causing the mechanism to run more frequently. This may raise the temperature in the food compartment.

Always let hot dishes cool before putting them in your rferigerator. Avoid frequent and lengthy door openings. Immediately wash off, with all-pure, extra-soap suds, foods and liquids spilled on the inside or outside of refrigerator. Protect rubber seal and finish by always using the handle or opener to open and close the door, and wash the door seal frequently. Even perspiration from your hands will cause rubber and paint to deteriorate. Clean ice trays only with soap and water—never a metal sponge or abrasive powders. Remember the unit which contains the motor and condenser. If yours is not a sealed unit and is easily accessible, clean it with a long handled brush or vacuum cleaner attachment and if the mechanism has a fan, turn refrigerator off before cleaning.

DOROTHY DIX

COLD MEN, WOMEN SHOULD WED OTHERS OF LIKE TEMPERAMENT.

Saddest Deathbed Scene When Man Pours Out Pentup Love to Unappreciated Mate.

◊ ◊ ◊

Dear Miss Dix: My girl friend vows that she loves me, but never gives any outward expression of affection unless it is asked for. She has only voluntarily kissed me six times in six years, yet she always wants to be with me. We go to the finest places and I am continually expresing my love for her in words and deeds, but she treats me as distantly as if I were a perfect stranger.

She claims that the reason for this is that she is always tired, and I know that she does work hard as an executive in an office. What I want to know is whether or not a girl loves a fellow when she so very seldom shows him any affection? In my opinion she does not want a husband. She just wants a companion, somebody to take her out and to talk to when she feels like it. I think she likes me as a friend, but has no warmer feeling for me. What do you think?

ANXIOUS.

◊ ◊ ◊

Couple Promise Bad Marriage.

ANSWER: Evidently the girl is an introvert, while you are an extrovert, and I can think of nothing more unfortunate than for the two different types to marry. For you will be always asking her for what she is incapable of giving, and she will always be bored by your importunities and turn the back of her head instead of her lips to your kisses.

I know that the introverts say that they have as deep feelings as anyone, only they cannot express them, but, even if that were true, what good would it do you if she never showed you any tenderness, or gave any indication that she had the slightest interest in you? If a man were dying of starvation, it wouldn't be of much comfort to him to know that his wife owned a chain of food stores.

I once heard a doctor say that the most pathetic deathbed scene he had ever witnessed was that of a man who knelt by the bed of his dying wife and poured out upon her all the passionate love that he had felt for her, but had kept locked in his own breast. She was a gentle, tender, timid creature who had literally starved to death of heart-hunger. but while her husband had been kind to her in this way, while he had given her a fine house and jewels and all the things that money buys, he had never shown her any tenderness. He had never given her a caress that was not as perfunctory as if it had been bestowed by an automaton. He had never paid her a compliment, or taken her into his confidence.

And it was only when she was dying that his grief broke down the barriers of this reserve and he opened up his heart to her and told her of how he had admired her, how he had appreciated her, how he had loved her, all the things she had longed to hear and had never heard. "A faint smile flitted across her face," said the doctor, and she murmured, "If you had ever told me that, I could have been happy and lived, but it is too late now," and with that she ceased to breathe.

In the tears that many a man and many a woman shed over the coffins of their dead wives and husbands is a bitter repentance for the little tendernesses they did not show their mates, for the love they hid in their hearts, for the admiration they felt for them that they never expressed, and which would have made their marriages warm and beautiful instead of the cold, dreary stretch of flowerless and bloomless deserts that they were.

Maybe the icicle men and women are seething volcanoes within, but unless their husbands and wives are mind-readers they never know it, and, anyway, they are cold and clammy propositions to live with. They should only marry those whose temperature is as low as theirs. They are not for warm-hearted, generous-minded people who want a little return for the affection they bestow.

◊ ◊ ◊

Dear Dorothy Dix: When I was 17 I became infatuated with a boy and we went to a small nearby town and were married by a Justice of the Peace. I went straight back to my home and he to his and we never lived together at all as husband and wife. But the secret of our marriage leaked out and my family had the marriage annulled.

We moved away and the next year I met and married the man who is now my husband and the father of our 18-month-old daughter. Now I have never told my husband about that experience, because to be it is unimportant and is past, but how would it seem to him? Shall I tell him or not?

MRS. WILLIAM C. W.

◊ ◊ ◊

Wife Should Admit School Girl Folly.

ANSWER: Tell him by all means, because somehow, some way, sooner or later he will be sure to hear of it and he will bitterly resent your having kept the knowledge from him.

You have done nothing wrong. You have only been guilty of a piece of school girl folly and he should find it easy to overlook it, but your heart will be lighter and your conscience clearer if you have no secrets from him.

◊ ◊ ◊

Dear Miss Dix: I am a girl of 18, in love with a young man of 23 who has been rejected by the draft because he cannot read or write. He had a very unhappy childhood, with a father so unkind to him that he left school and ran away when he was very young and he never got any education as he just worked at any job he could. This makes him very sad, because it not only keeps him out of the army but out of all good jobs because on every application they ask about how much education he has. He is willing to do anything. Can you suggest any way to help him?

HIS GIRL.

◊ ◊ ◊

ANSWER: There is no reason why any boy should be illiterate now when there are so many night schools to which he can go. My advice to your friend is to put his pride in his pocket and enroll in one of these schools even if he does have to sit in the kindergarten class and learn his A B C's and how to write. He will find that he will progress very rapidly and soon be able to qualify for a good job.

It is never too late to learn. One of the presidents of the United States was taught to read and write by his wife.

(Released by The Bell Syndicate, Inc.)

BABY'S CONSTIPATION SERIOUS IF NEGLECTED

BABY'S daily movements are something of which absolutely accurate track must be kept. When he misses something must be done at once. Constipation is serious for baby.

Mrs. John T. Reid of Hespeler, Ont., has this to say: "Having had seven children and having used Baby's Own Tablets for all seven, can say they are the best and gentlest regulator for children — safe and effective for the tiniest infant. I give them up to 10 years of age. During teething Baby's Own Tablets were a boon to me as they cleared up at once any digestive disturbance or fretfulness."

Equally effective for simple fever, diarrhoea, upset stomach, colic, simple croup and other minor ailments of babyhood.

Quick and sure in their action. Easy to take. Harmless, and safe. Do *not* contain opiates or stupefying drugs. Each package contains analyst's certificate. Get a box today. Sickness so often strikes in the night. 25 cents. Money back if not satisfied.

Transformation Tricks

By ALICE ALDEN

BUSY GIRLS today have learned the art of transformation, adding or subtracting accessories from workaday suits so that they can go to business or be busy through the day and then step out at night, always nicely turned out. Donna Reed has set ideas when it comes to turning her workaday suit into an afterdark outfit. She uses such glamor tricks as a frilly blouse, pink suede gloves and a veil draped brown felt calot crowned with pink roses. A lapel ornament and pin complete the ensemble.

MORE SHIPS

Under a new plan to increase shipbuilding output, the British Admiralty now takes particular care to keep the workers' leaders informed of developments, explaining the importance of kinds of ships and the Admiralty's intentions in handling the 1943 and 1944 program.

Replace Sunday Roast By Hamburg Dishes

By MARY MOORE.

In a way this is an art show of masterpiece — for there are many cooks in families of two where a Sunday roast is a thing of the past and the future, who has to artfully contrive some meaty piece de resistance for Sunday on the few meat coupons she is entitled to.

I have just recently heard this angle from four different ladies—two of them brides and two of them mothers whose families have gone from home recently for various reasons: marriage, the services, jobs.

Hamburger or, to be more elegant, chopped steak, is solid meat that can be stretched an incredible amount and still delight you.

I am going to give you Hamburger Ring first because it looks so nice and like a company dish.

Hamburger Ring.

(Note: I bought a new ring mould for making headcheese and shaping other "made" dishes because minced meat and fish look so much better if attractively arranged—I am suggesting that you buy a ring mould too if you don't already have one.)

One lb. ground beef, ½ cup top or rich milk, 1 tablespoon grated onion, 1 teaspoon salt, ¼ teaspoon paprika, ½ teaspon mixed herbs are optional. Mix all ingredients well and pack into ring mould and bake at 350 deg. Fahr. for 1 hour. Invert onto platter. Service vegetable in centre of ring such as peas, ring being surrounded with cauliflower flowerets; or fill ring with finely cut green beans and surround base of ring with small whole new potatoes; or fill centre of ring with riced potatoes or corn, and surround base of ring with brocoli or long strips or boiled carrots—from here on you can think up colorful combinations.

Koenigsberger Klops.

A discouraging name but an encouraging dish!

One 1-inch slice bread, 1½ lbs. meat—½ lb. ground beef, ½ lb. ground veal, ½ lb. ground pork or pork liver, 2 eggs, 1 tablespoon butter or drippings, ¼ cup finely minced onion, 3 tablespoons chopped parsley, 1¼ teaspoons salt, ¼ teaspoon paprika, ½ teaspoon grated lemon rind, 1 teaspoon lemon juice, 1 teaspoon Worcestershire sauce. Soak the bread in milk to soften. Put the meats through meat grinder twice or have your butched do this. Mix all ingredients. Form them into 2-inch balls and drop into boiling vegetable stock or boiling water and simmer covered for 15 minutes. Skim out of the boiling liquor and measure it. To each 2 cups add paste made from 2 tablespoons melted butter or fat mixed with 2 tablespoons flour, and stir until thickened, then add salt and paprika to taste. Reheat the meat balls in the gravy and serve on platter surrounded with boiled noodles. Sprinkle generously with buttered crumbs or finely grated old cheese. Delicious.

Pat's Super Hamburgers.

These really are large flat hamburgers with bread stuffing between two of them, baked, and served with beef bravy or mushroom sauce. They made such a hit, a little to my surprise, that I think I had better pass it on.

Make very flat meat cakes about 3½ inches in diameter, flavoring them only with salt and pepper. Make a stuffing (see plain stuffing in your cook book such as for poultry) and place 1 tablespoon on each of half of the meat cakes. Cover with remaining meat cakes, pressing them together without making the stuffing run out. Bake, broil or pan fry. Serve with brown gravy, or dilute mushroom soup (canned) or tomato sauce or fried onions, or fried mushrooms. A grand dish that men like.

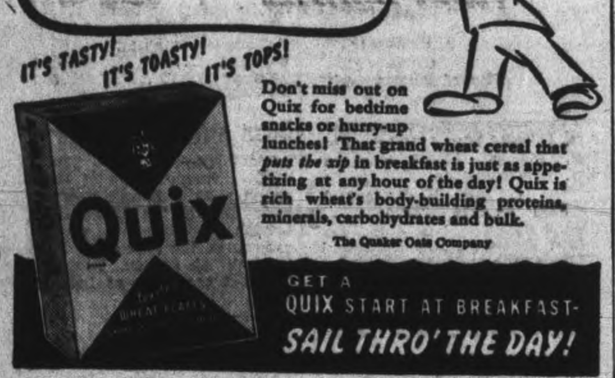
Broiled Hamburger Sandwiches.

One lb. ground beef, 1 teaspoon salt, ¼ teaspoon paprika, ¼ cup chopped slightly fried onions, 8 slices bread. Mix together the meat, salt, paprika and fried onions. Toast the bread on one side only. Spread the untoasted sides with the meat mixture. Dot the tops lightly with butter and broil them meat side up under a good heat for 5 minutes. Serve them with or without sauce or catchup—but I think creole sauce is tops on it:

Creole Sauce for Hamburger Sandwiches: To 1 cup tomato juice add ½ cup mixed finely chopped green peppers, celery, onion and pickles. Heat and pour over sandwiches when serving.

Hamburg Layer Loaf.

Don't forget this little tasty number—it is merely a very large thin meat cake—about 8 inches in diameter covered with sliced Bermuda onions, covered with another large meat cake, baked on buttered layer cake pan and served with more onions, fried.



Don't miss out on Quix for bedtime snacks or hurry-up lunches! That grand wheat cereal that *puts the zip* in breakfast is just as appetizing at any hour of the day! Quix is rich wheat's body-building proteins, minerals, carbohydrates and bulk.

The May Basket Bonnet

Helen Gales

No sewing, no elastic, no pins, to complicate this cutout felt hat which is a latticed pair of felt pancakes when off the head. Mix-mate your own colors in dewy or brave colors.

By PRUNELLA WOOD

VERSATILE as a hat can be, here is one which should charm the younger set into covering their pates prettily. It is called the May basket hat, because it is cut from felt (in two layers of contrasting color) as is a crepe paper May basket but it's worn thrown over the crown instead of being gathered about the edge for a basket shape. There is a pin money price tag on this bonnet, and as the double layers are not stitched together, one can quick-change color schemes at will, by owning several discs. The hat lies flat as a pancake when off the head, which makes it a good item for the traveller. Wear it on the back or the front of your head.

ENQUIRY COLUMN

By MARY MOORE

QUESTION: As I am a great reader of your paper and enjoy all the recipes I would like to have a recipe for putting down green peppers for winter use. I was wondering if I could cook them 3 or 5 minutes and then put them in the jar and cook them in the jar in the pressure cooker and how long I would cook them. If you could put the recipe in the paper I would be much obliged.

Mrs. A. Lebbett.

◆ ◆ ◆

ANSWER: Green peppers and pimientoes do not require pressure cooking to preserve them — 212 degrees Fahr. in hot water bath is sufficient heat.

Canned Sweet Peppers (or Pimientoes)

Select ripe, thick - fleshed peppers, free from bruises. To remove skin there are three methods: 1, immerse whole peppers in hot cooking oil at 290 degrees Fahr. for 2 or 3 minutes; or 2, place them in a hot oven of 450 degrees Fahr. for 6 or 8 minutes then dip quickly in cold water; or 3, dip in boiling water 2 minutes then in ice water 2 minutes. Slip the skins off, remove the stems and core and seeds. Then peppers are soft and pliable. Fold in flat shape and pack them into containers, and add 1 teaspoon salt to each pint. Add no liquid because the processing brings out almost enough thick liquor to cover them in can. Sterilize in hot water bath for 40 minutes after water begins to boil. Do not open, — but to seal and invert to cool.

◆ ◆ ◆

QUESTION: I saw in the paper you had some recipes for using molasses. I have some of your recipes using honey and would like those for molasses very much.

—Mrs. Alex. Lavoie.

◆ ◆ ◆

ANSWER:—

Molasses Pie

One cup molasses, 1 tablespoon flour, 1 lemon, plain pastry. Blend molasses and flour. Cut and chop lemon, and add juice, pulp and rind to molasses. Line a small pie pan with pastry and turn in the mixture. Make a thin top crust or criss-cross top with strips of pastry. Bake in a hot oven of 425 degrees Fahr. for 10 minutes, then reduce heat and continue baking at 325 degrees Fahr., for 20 minutes.

Molasses Bran Bread

One teaspoon soda, ½ cup molasses, 1½ cups sour milk, 1½ cups whole meat flour, 1½ cups bran, ½ cup seeded raisins. Dissolve soda in molasses. Add milk, flour, bran and raisins. Bake 45 minutes in a moderate oven of 350 degrees Fahr. in a loaf pan. This may be baked in smaller moulds such as baking powder cans if desired.

Molasses Crisps

One-quarter cups shortening, ½ cup sugar, ¾ cup molasses, 1 cup flour, ¾ teaspoon salt. Melt shortening. Add sugar and molasses, and bring to boiling point. Cool slightly. Add flour and salt. Drop by teaspoons on greased baking sheet and bake in moderate oven of 350 degrees Fahr. 12 to 15 minutes. Turn around finger or handle of wooden spoon to form roll WHILE STILL WARM. If they cool too much to roll put back in oven for a moment.

Molasses Doughnuts

One-half cup sugar, 1 cup molasses, 1½ tablespoons shortening, 1 well-beaten egg, 1-3 cup milk, 3 cups flour, 2 teaspoons baking powder, ⅛ teaspoon cinnamon, ⅛ teaspoon cloves, 1-16 teaspoon mace, ½ teaspoon salt, 1 teaspoon ginger. Cream the sugar and the shortening together. Add egg, milk and molasses. Mix and sift remaining ingredients. Add them to liquid mixture and mix well. Turn out on lightly floured board and roll to ½-inch thickness. Cut out with doughnut cutter. Fry in deep hot fat at 375 degrees Fahr. until dark brown. Drain on unglazed paper. Sprinkle with confectioners' sugar. These amounts make about 30 doughnuts.

Molasses Mint Taffy

Two cups molasses, 2 teaspoons vinegar, 1 ½ tablespoons butter or other shortening, ⅛ teaspoon salt, ½ teaspoon soda, 7 drops pepper mint oil (peppermint oil may be omitted when taffy would be merely "Molasses Taffy"). Cook molasses and vinegar in a saucepan slowly, stirring constantly, until temperature is 270 degrees Fahr., or until syrup becomes brittle when tested in cold water. Remove from fire and add butter or fat, salt and soda. Stir until mixture ceases to foam. Pour into greased pan. When cool enough to pull, pour the peppermint in the centre of the candy and draw the corners toward the centre. Remove from pan and pull until light in color and firm. Roll into a thin rope. Cut in pieces and wrap in waxed paper.

Needlecraft Pattern

612

by Laura Wheeler

SCRAP BAG SORCERY.

So colorful, so comfortable on your feet—yet, it's just a bit of scrap-bag magic. They're slippers crocheted mainly of rags, even to the soles. You just crochet and join medallions of odds and ends for the uppers and edge them with rug cotton. Pattern 612 contains directions for slippers and soles in small, medium, large size; stitches.

This Week's Best Wartime Recipe.

Contributed By Mary Moore Readers

DEAR MARY MOORE: I have a good butcher and he told me I could make my own headcheese from unrationed meat. I was very interested when he said he would order me the head and clean it ready for use. He did and this is my method of making my own—since I have a family of eight 3 times a day to feed I have to use all known methods of filling them with good food.

Pork Headcheese
(Contributed by Mrs. Ira Day)

Place a cleaned pork head in water to cover and boil until the meat separates from the bones—about 4 hours. The tongue may be cooked with the head. When thoroughly cooked take out the head, saving the liquor for future use. Chop the meat finely. Season each 5 lbs. meat with the following: 2½ oz. salt, 1 teaspoon fresh black pepper, ¼ teaspoon red pepper, 1 teaspoon ground cloves, 1 quart strained broth in which head was cooked. All should be mixed thoroughly so that proper seasoning is obtained. Pour prepared meat into shallow tin or porcelain moulds, and keep as you would fresh meat. Slice thinly for serving. I like it best when served with creamed vegetables such as scalloped potatoes, creamed cauliflower, etc.

ALEEN DAY.

◆ ◆ ◆

I'm glad you reminded me of this fine old-fashioned dish. I think many of us forget that headcheese can be made from heads—maybe our readers can persuade their butchers to buy heads and clean them for them for this purpose.

Chic Conservation

By ALICE ALDEN

THOUGHTFUL simplicity and adherence to self-imposed limitations of material mark some of the best of the new hats designed for daytime wear. Rosemary La Planche wears this lovely hat made of two shades of grey felt. The all-round brim which is turned up at each side is covered with a black lace veil with an occasional leaf motif. The hat is all-over stitched and is trimmed with two novelty clusters.

THE STARS SAY . . . .

By GENEVIEVE KEMBLE

For Friday, August 13.

An extraordinary congeries of astral forces unite to make this a day in which the business and practical energies as well as the social, sentimental, intellectual and spiritual forces are geared to high tempo and lofty objectives. Under this show of concentrated resources success and advanced ideas may be made realities in whichever channels and systallized faculties may be turned. New propositions, projects and aspirations are especially favored, including new loves and romantic adventures. Seek these with assurance.

Those whose birthday it is are on the eve of a year in which all the aspirations, ideals and practical constructive energies and faculties may find outlet for expression, albeit under high tension, and with crystallized force and initiative, for attaining the goal of the heart's desire. Particularly are the emotional, artistic, social and creative avenues of expression under keen stimuli for accomplishment. New and significant things are favored, with the romantic urges and love emotions seeking fulfillment in high adventure, or perhaps spiritual attainment and joys.

A child born on this day may have many diversified talents, of creative and artistic or mystical expression.

TROPICAL MOVIES

KINGSTON, Jamaica — (CP).—The first educational film to be made in Jamaica was recently completed. It deals with the resources of the country and their conservation.

Births Marriages In Memoriam Cards of Thanks Deaths

BIRTH

PAYNE — To Mr. and Mrs. Herbert Payne of 273 Romaine Street, at St. Joseph's Hospital, on August 10, 1943, a baby girl, a sister for Margaret and Arlene.

IN MEMORIAM

JONES — In loving memory of Robert Jones who died August 12, 1941.

There's a face that is haunting
us ever,
There's a voice that we're longing
to hear,
There's a smile we'll remember
forever,
Though we try to forget every
tear,
There's a sad but sweet remembrance,
There's a memory fond and true,
There's a token of affection, dear,
And heartaches still for you.

—Ever remembered by wife and daughters.

REA—In loving memory of a dear Husband and Father, Albert E. Rea, who passed away August 12, 1941.

Peacefully sleeping, resting at last
His weary trials and troubles are
past,
In silence he suffered, in patience
he bore,
Till God called him home to
suffer no more.

—Ever remembered by wife and family.

CARDS OF THANKS

Mr. Herbert Hooten wishes to thank the Doctor and Nurses of Nicholls Hospital, also friends for their kindness shown him during his illness.

Mrs. J. W. H. Dalliday and family wish to extend their sincere thanks to all those who called, sent cards, and flowers or showed any kindness during their recent sad bereavement.

Port Hope Rink Captures Trebles Prize

Augmented by entries from Lindsay, Cobourg and Port Hope, the Peterborough Ladies' Lawn Bowling Club held their annual "trebles" tournament yesterday afternoon and evening.

Under ideal bowling conditions, the bowlers were sent away promptly at two o'clock and before the supper hour had arrived there were only five rinks that had won both games.

In the third and last round the bowling was of a high order and the spectators were not slow to recognize the ability of the players.

Clever Bowling.

Without taking anything from the other bowlers we believe that the Mrs. McTaggart-Mrs. Donnelly game was about tops. They played shots that would do credit to any man bowler. There was only one shot difference at the end of the regulation twelve ends.

And that last shot of Mrs. Dyer's on the extra end in the game with Mrs. Wilson, not only gave her rink three wins and third place but by defeating Mr. Wilson it gave Mrs. Wilson's rink high score for one win.

And then another highlight was the big seven Mrs. Martin got on the twelfth end from Miss Cuthbert of Lindsay to give her second place.

Some Overtime.

There were several games that went into overtime and that helped to add interest to the tournament.

The games were well handled by Geo. Gimblett, chairman of Open Tournament committee.

The ladies' committee of Mrs. W. Hepburn, Mrs. N. Killingbeck, Mrs. H. Wilson and Mrs. R. Dyer deserve great credit for putting across this, if not the largest, one of the best on record.

NOTICE

Notice to Creditors

IN THE MATTER OF THE ESTATE OF JOHN JAMES NORTHEY, Late of the Township of Smith, in the County of Peterborough, Farmer, Deceased.

NOTICE IS HEREBY GIVEN, that all Creditors and others having CLAIMS against the Estate of the said JOHN JAMES NORTHEY who died on or about the 23rd Day of February, A.D 1943, are required to send to the undersigned Solicitors for the Executors of the said Estate, on or before the 7th Day of September, A.D. 1943, their names, addresses and full particulars of their Claims duly verified, and that after such last mentioned date the said Executors will proceed to distribute the Assets of the said Estate among the parties entitled thereto, having regard only to the Claims of which they shall then have received notice.

DATED at Peterborough, this 4th Day of August, A.D. 1943.

MARGARET EFFIE NORTHEY,
WELLINGTON ROBERT HENRY NORTHEY,
Executors,
By CARLEY & STANDISH,
No. 8 Bank of Commerce Block,
Peterborough, Ontario,
Their Solicitors herein.

NOTICE OF PETITIONS

I, EDWARD A. OUTRAM, as Clerk of the City of Peterborough, give Notice that I have received two Petitions, as follows:

1. From certain occupiers of Men's and Boys' Clothing and Furnishing Stores in the City asking the City Council to pass a By-law requiring all Men's and Boys' Clothing and Furnishing Stores to be Closed and Remain Closed Each Saturday Evening during the 12 months of the year at 6 o'clock in the Evening, without exception.

2. From certain proprietors of Barber Shops in the City asking the City Council to pass a Bylaw to Close all Barber Shops in the City on Saturday Evenings and on Evenings immediately preceding Public Holidays at 8 o'clock in the Evening.

These Petitions and two Lists, one setting out the names of those conducting business of Barber Shops and the other of Men's and Boys' Clothing and Furnishing Stores are open for inspection by parties interested at the Office of the undersigned and will remain open for inspection for one week following publication of this Notice.

Any objections to the names on the Petitions or the names on the List must be filed with the undersigned within the said week.

At its next Meeting the Council of the City of Peterborough will consider these two Petitions, the Lists, and Objections to the Petitions, and if the Petitions and Signatures to them are properly in order will pass the Bylaws petitioned for.

E. A. OUTRAM,
Clerk,
City of Peterborough.
DATED, August 12th, 1943.

Sailors Triumph Over Woollens

The Watercraft Sailors took their second straight win last evening at the Bonnerworth Field when they defeated a clever Dominion Woollens squad 13 to 10.

Both teams played some spectacular ball. The Wool Dyers started the scoring in the first stanza when they passed five runs across on the Sailors. The Paddle boys retaliated with one run in their half of the first, while the Woollens garnered two more in the second, but the Sailors played hard to gain two runs in the third with the score in the Woollens' favor. The Boatmakers started tack their sails in earnest, and garnered three runs, holding the Woolmakers scoreless for two innings. The Woollens scored two more, but the mighty bats of the Watercrafts started to work and when the smoke cleared away they had scored six runs.

The Woollens lost hope and scored only one more and Watercrafts duplicated. Both teams play errorless ball, good fielders chances and the infielders did well in their respective jobs. Killingbeck, ace hurler for the Sailors, allowed 12 hits, while Hughey, moundsman for the Woollens, allowed 16 scattered bingles.

The teams:

Woollens — Boucher cf, McCarrell 2b, B. Lester lf, P. Hillier c, D. Hillier 3b, Hughey p, Pelts ss, P. Lester 1b, Coughlin rf.

Watercrafts—K. Boyd lf, H. Boyd 2b, Paul 3b, Johnson c, Batten cf, Henie 1b, Thompson ss, Miller p, rf, Killingbeck p, Lundy r.

Umpires — McClennan at plate, T. Turcotte on bases.

Woollens .... 520 020 1—10
Watercrats .... 012 360 1—13

Sarnia Midgets Win

SARNIA — (CP). — The first baseball championship of the 1943 season went to Sarnia Midgets yesterday when the locals defeated London 2-0 in the final of the two games in the Western Counties Baseball Association, having won the first encounter at London 7-0 on Saturday.

Tillsonburg Through

LONDON — (CP).— Tillsonburg Pandrieds bowed out of the western counties junior baseball playdowns last night when London won the second straight game of the series 7-4. The Londoners will now take on the Dresden team for the association honors.

EARLY MARINERS

The Romans were the first to convoy ships with fast galleys.

Sports Day By Day

(Continued from Page 6)

series two games to nothing....Congratulations are in order to T. A. "Tilly" Donihee, coach of the Belleville Reliance Hockey squad, who was married last week, his bride being a Belleville girl, Miss Ruth Kyle.... Ace Adams of the New York Giants made his 50th relief appearance of the season yesterday....Incidentally he won his eighth victory....The Bums have finally ended their long losing streak. After dropping ten in a row, they turned on the Cincinnati Reds yesterday and pinned their ears back 5 to 2....In spite of an earlier start last night's game wound up in none too good light....The fact that the pitchers were somewhat shy of control had something to do with the delay....There were 14 passes altogether.

You Always Find Cheer in These Favorite Poems

AGELESS POEMS

Like a welcoming light in the dusk, an encouraging word from a friend — these lines from the loved poem by Sam Walter Foss. Do you remember how it ends?

"Then why should I sit in the scorner's seat,
Or hurl the cynic's ban?—
Let me live in my house by the side of the road
And be a friend to man."

Other poems encouraging in dark moments and full of solace are included in our 32-page booklet. Poems that are immortal because they have been read and loved by millions through the years.

Who has not heard the words from William Ernest Henley's "Invictus":

"Out of the night that covers me,
Black as the pit from pole to pole,
I thank whatever gods may be
For my unconquerable soul."

Our booklet is full of the world's best loved poems which have been read in every country, translated into every language. Some of them you know already; a few you have heard as songs. But you should read them all, for among them you will find material to cheer you on your way.

For your copy of WORLD'S BEST LOVED POEMS send 15 cents in coins or stamps to the Peterborough Examiner Home Service. Be sure to write plainly your name, address and the name of booklet.

Buckhorn News

Miss Doris Johnston of Warkworth has returned home after spending the past two weeks vacationing at the Buckhorn Lod[illegible]

A large crowd attended th[illegible] held on Friday night in the [illegible] Hall. Modern and old-time dancing was enjoyed by all. Music was supplied by Si Blewett's Orchestra.

Mrs. J. W. Milne and son Bobby of Toronto are spending some time with the former's mother, Mrs. Edwards.

The Misses Thelma and Vera Fulton of Peterborough spent Sunday with their parents.

Earl Hall, R.C.N., is spending a week-end at his home.

Mr. and Mrs. A. Olmstead and sons of Peterborough spent Sunday in the village.

Miss Marjorie Hall of Peterborough spent Sunday in the village.

Sunday guests of Mr. and Mrs. Edwards were Mrs. P. Ayotte, Mr. and Mrs. W. Brown, Berniece and Bernadette Brown, all of Young's Point.

T. M. Barr and son John of Peterborough spent Sunday at home in the village.

Miss Margaret Lavigne of Peterborough is spending her vacation with Mr. and Mrs. V. Graham.

Mrs. M. Cheshire and son Noel returned to Toronto after spending some time visiting in the village.

Grr. Glan Hall of a light anti-aircraft battery, is spending the week-end leave with his parents, Mr. and Mrs. Melville Hall.

Blood donors from Buckhorn last week included Mr. and Mrs. Charles Jones and Mrs. W. Ziroff.

Mis Victoria Barr is spending her vacation with her sister, Mrs. Cheshire in Toronto.

BARCLAY ON BRIDGE

SKILL TO CUT LOSSES

YOUR SKILL is employed in various ways on different hands. Basically, however, it serves just two purposes. One is to put points on your score. The other is to cut down, or minimize, your losses on hands which are destined to produce scores for your opponents. Over any considerable stretch of time, one counts just as much as the other, for ultimately a point saved is a point gained.

	♠ 9 3 ♥ A K Q 2 ♦ K Q 5 4 2 ♣ 8 4	
West ♠ A J 7 4 ♥ 6 4 ♦ 9 ♣ A J 10 9 6 5	N / W E / S	**East** ♠ Q 10 ♥ J 8 7 5 ♦ A J 10 6 3 ♣ 3 2
	♠ K 8 6 5 2 ♥ 10 9 3 ♦ 8 7 ♣ K Q 7	
	South	

(Dealer: East. North-South vulnerable.)

East	South	West	North
Pass	Pass	1♣	1♦
Dbl	1♠	Dbl	2♥
Dbl			

Instead of the spades, which his partner had doubled, East opened the clubs, which he had bid, leading the 3. North split the honors, playing the Q, and the A won. Not seeing the 2, and reckoning East might have had a club doubleton, West tried for a ruff himself by leading the diamond singleton. East took the Q with the A and returned the 3, West trumping with the 4 of hearts. The club J came back, dummy winning with the K.

To prevent any more hostile ruffing, North now scored the heart A and K. This left him one trump in dummy. He used it, after scoring the diamond K, to ruff the diamond 4. Next he ruffed the club 7 with the heart Q and led a spade. This made him lose the last four tricks, so he was down two.

North could have saved a trick—worth 300 points—by taking only one high trump after he was in with the club K. Counting East for four trumps because of his double, and West therefore for only two, a single trump round would have exhausted West, leaving dummy two trumps to ruff diamonds. He could have ruffed one with the heart 9, after scoring the diamond K, could have re-entered his hand with a high ruff of the club, then could have ruffed a second diamond with the heart 10. That would have been his sixth trick, and a seventh would have been sure with the heart Q. Playing thus, he would have gone down only one on his doubled contract.

Claims Potatoes Thrown In Dump

OSHAWA, Aug. 12 — (CP). — Chargest that 75 to 100 bushels of potatoes were thrown on the city dump were made by Ald. E. E. Bathe before the city council at its meeting here last night.

He made his declaration in urging that the city dump be cleaned up. Ald. Bathe stated that three weeks prior to the appearance of the decaying potatoes on the dump, they were perfectly sound and fit for food.

Ald. Clifford Harman gave evidence of other food waste and stated that on a recent visit to the city dump he had seen "loaves of bread and meat pies thrown out in heaps."

The disclosures arose during dission of an offer by a contracting firm now repairing city streets to cover the dump for $3,000, thus rendering it completely sanitary. No action was taken on the offer.

Pin ball machines were outlawed by council by the adoption of a by-law, similar to one recently enacted at Cornwall, which was upheld in the courts and found to be "air tight."

Labor Court Hears Of Discrimination

TORONTO, Aug. 12 (CP) Shortly after he was summoned by R. C. Joyne, manager of Atlas Steels Ltd., Welland, and asked about his membership in the union, he was discharged, William S. Bartol told Mr. Justice in the Labor Court at Osgoode Hall today.

The court continued hearing of the application of United Electric Radio and Machine Workers of America (C.I.O.), for certification as the bargaining agency at the plant.

David Goldstick, counsel for the applicant union, called Mr. Barton.

"In February, 1943," said Barton, "Mr. Joyne called me to his office and chastised me for soliciting members on the company's property.

He asked me if it was a foreman, Leslie Vicary, who got me into the union. I said it was not. A short time later Vicary also was let out.

"He asked me if I thought the Union could do a better job of running Atlas than they did. He said that if I dropped the Union and joined the Independent I could go places in Atlas."

Cross-examined by Col. Hugh Rose, counsel for the Independent Union, intervener, Mr. Barton said he did not know it was against the company's rules to post up Union notices in the plant.

Bensfort News

Mr. and Mrs. Lorne Harris and son recently spent a week at New Liskeard.

Word has been received from Pte. G. H. Anstey that he is now with the Canadian Army in Sicily.

Mr. and Mrs. C. Barnard and girls were Sunday guests of Mr. and Mrs. A. Armstrong.

Miss Frances Hall has returned to Peterborough after spending two weeks with Mr and Mrs. Jim Hall.

Mrs. Lloyd Atcheson who is ill in Nicholls Hospital is making speedy recovery.

One Last Look

An Italian prisoner in Sicily wears a woeful expression as he stares through an open window of the train carrying him toward an internment camp. It's his last look at his homeland for the duration of the war.

New European Attack Likely To Start From Britain

By JAMES F. KING
Associated Press Staff Writer

LONDON, Aug. 12 (AP) — New blows of unprecedented force against the Axis by land and air—possibly from Britain this time — were forecast here today as the impending Churchill-Roosevelt war strategy conferences stirred a flood of speculation and conjecture.

(In Washington Mr. Roosevelt would not say when or where he would meet with Mr. Churchill, now at historic Quebec in conference with Prime Minister Mackenzie King.)

With Italy virtually beaten to her knees, it was generally regarded as certain that the forthcoming talks between the British Prime Minister and the American President would deal primarily with putting a quick end to the Italian campaign so that the Allies can turn their full attention to Germany.

Ease Russia

The next move was expected to be on an even broader scale than the successful Sicilian invasion, with the objective of forcing Germany to withdraw a substantial part of her troops from the Russian front.

The possibility that Germany may be defeated this year is being discussed—even though cautiously—in all quarters, and the fact that Premier Joseph Stalin has committed large armies to his present summer offensive underscores this hope.

Indications that Britain may be the scene of major military operations are:—

1. Reports that large areas of Britains coastline will be barred to visitors in the near future.

2. Arrival in Britain of substantial reinforcements of fully-trained Canadian and American troops together with a great increase in the number of available air bases.

3. A noticeable influx of high-ranking Allied officers from other war theatres, together with a heavy increase in railway traffic throughout Great Britain.

Creation of a new military command even more comprehensive than the combined command in the Mediterranean for military tasks on the European mainland was suggested by The Times as a possible major objective of the Churchill-Roosevelt conference.

"The Allies have gained so much during the summer that even the widest and most far-sighted plans are in danger of being outmoded by events," The Times said.

Cavan News

Misses Annie and Mary Tinney visited at Sandy Lake last week.

Mr. R. O. Staples, B.A., B.T.Aed., is spending some holidays with his parents, Mr. and Mrs. R. S. Staples. Osborne has been inspector in Glengarry County for the past five years, and is now going to Huron County. He will live in Goderich.

Mr. and Mrs. Herb. Leigh of Toronto are holidaying at the White residence.

Mrs. Bell, with her son, Mr. Burton Bell and his wife, and grandson, Kenneth, of Toronto, were guests of the former's sister, Mrs. David White, last week.

Mr. and Mrs. T. Flavelle of Toronto, are visiting with Mr. and Mrs. Melville Carr, the former's son, Sgt. Albert Flavelle and LAW. Ruby Grantham, both of Trenton, were week-end guests also.

Guests at the home of Mrs. H. Braithwaite are Mary, Teresa and Paul Costello of Ennismore. Mr. and Mrs. Newt. Fee, with children Donald, Arnold and Malcolm, of Mount Pleasant, were also guests on Sunday.

Mrs. Ray Fry visited with her uncle, Mr. Fred Watson, of Fenelon Falls last week.

Typhus Raging Near Hamburg

NEW YORK, Aug. 12 —(CP). — BBC said today a breakdown in the Nazi transport machinery has held up the evacuation of Berlin. It quoted Stockholm reports.

"Evacuees must prove that they will be cared for in some other part of Germany and as 80 per cent are unable to do so, chaos has resulted at the evacuation offices," continued BBC.

The broadcast said:

"Sanitary and feeding arrangements at camps near Hamburg are described as very unsatisfactory. and there are reports of cases of typhus. The German radio last night said: 'Hundreds of thousands of people are being driven out to wander about in the country outside, looking for asylum. Many a problem can for the time being be solved only in an imperfect way. Many of the refugees must be satisfied with inadequate accommodation.'

"A Lisbon report say the mass evacuation of the big German industrial centres in the north and west has disrupted Hitler's police system. Tongues are reportedly loose, and criticism of the authorities is rife. Already many old personal scores are being paid off without any ill effects to the avenger."

Electrocuted

OTTAWA, Aug. 12 — (CP). — The Munitions Department announced to-day that Lawrence Peters, married and the father of four children, was electrocuted this morning at the S. Maurice Chemical Company plant at Shawinigan Falls, Que., where he was employed as an electrician. No further details were available.

Heroic Women Of Russia

Two of Russia's front line nurses are shown munching on chocolate bars that came to them from Britain, which supplies many of the luxuries enjoyed by Red Army warriors. These nurses go into the fighting lines with the Red Army. Nurse Anya Vesnicheva, LEFT, won a medal for "liquidating" 17 Germans. With her here is Nurse Antonina Dogina. When not nursing they take a turn behind a gun.

50,000 People Hand Over Coupons

LONDON, Ont., Aug. 12 (CP).—Fifty thousand residents of Western Ontario have returned ration coupons to cover meat they have stored in lockers, according to figures released here today by W. Harold McPhillips, prices and supply representative.

The number was far in excess of that first anticipated when the ration administration of the board ordered that all meat stored in public lockers be declared and that meat coupons be returned.

In the Western Ontario region declarations of stored meat were made to London, Windsor and Kitchener offices.

Ease Restrictions On Advertising

OTTAWA, Aug. 12 (CP)—Labor department officials said today that Selective Service regulations restricting advertising for labor have been modified in respect to certain categories and such advertising may be undertaken with the approval of the service.

Advertising for help will be permitted in cases of institutions such as hospitals and asylums, and by the Dominion Civil Service Commission. Persons seeking to employ women of more than 60 years also may advertise.

The service reserves the right to prohibit advertising where a shortage exists.

TAKE THAT TIRED LOOK OFF YOUR FACE!

Not Vitamins—but Iron—May be what You Need To Put Pep In Your Step and Fresh Sparkle in Your Eyes.

If that constantly tired feeling has got you *looking* down in the mouth as well as acting that way—try Dr. Williams Pink Pills.

Persistent fatigue that finds you as weary in the morning as if you had had no sleep, that makes you too listless to eat, that stales your energy, is often caused by a lowering of the iron level in your blood. This condition may also have a further reaction on health, for without sufficient iron your body may not be able to get the full advantages of the vitamins and protective food elements in what you do eat.

Don't let this state of affairs go on and on until you are really sick. Get Dr. Williams Pink Pills today from your druggist — see how good it feels when you pep up with more iron in your blood.

This Nearby Farmer Has High Praise For Syntona

Suffered 18 Months From Awful Pains in Arm and Leg Muscles, Nervousness, Backache, Loss of Sleep, Declares Syntona Gave Him Grand Relief.

MR. WILLIAM CASTLE

"I am glad to give a public recommendation for Syntona because in all my life I never took anything that gave such marvellous relief," said Mr. William R. Castle, well-known farmer of Denfield, Ontario.

"For the past 18 months I had awful pains in my joints and across the small of my back. I'd get severe cramps in the muscles of my arms and legs. Many times the pain was so bad it would take some time before I could straighten out. They would often awaken me at night, then I'd become very nervous and couldn't get back to sleep.

"Besides this trouble, I suffered a lot with my stomach. Food caused gas pains, shortness of breath, and belching up of hot sour liquid. I was subject to dizzy spells, spots darting before my eyes, and frequent sick headaches.

"I read in the paper so often what other people were saying about Syntona that I finally got some and began taking it. In a very short time I noticed that my stomach felt better. I could eat regular meals without having trouble with gas, sour stomach or acid-risings. Then the aches and pains began to go away. Now I am glad to say I am entirely free from those awful muscle cramps, backache, and sore, aching joints. I haven't been troubled with dizziness, spots before my eyes, or headache since. I sleep soundly at night, and feel better in every way.

"I give Syntona full credit for helping me this way and recommend it very highly to everyone else who is in the same condition that I was."

Make up your mind to try this famous Herbal compound. Syntona is sold and recommended in Peterborough at Elliott's Drug Store.—(Advt.)

AMERICANS HIT ROME SECOND TIME

Ralston Says Canadians Ready To Go

Zero Hour Near; McNaughton Voices Confidence

By DOUGLAS AMARON
Canadian Press Staff Writer

LONDON, Aug. 13 — (CP Cable) —The Canadian troops in Britain, hardened, well-equipped and confident their road leads to Berlin, have reached the zero hour of preparations for invasion.

For a month they have watched with envy and pride the achievements of the 1st Division in Sicily at the same time undergoing training, some of it secret, for operations which will match those of their fellow-Canadians.

The days of conditioning are over for most of the troops in this country. Their training is pointed now to a definite objective, suggesting the part the Canadians are to play in the invasion of Europe's mainland has been decided.

Asked if one Canadian armored division would require a further long period of training before being sent against the enemy, Lt.-Gen. A. G. L. McNaughton, commander of the Canadian Army, replied: "I would be ready to put this division into action to-morrow."

Will Hit Europe

Where the Canadians will be used still is a matter only the highest political and military authorities know, but Prime Minister Churchill's visit to Canada, following the visit to this country of Col. J. L. Ralston, Canadian Defence Minister, is viewed by the average Canadian soldier as an indication something is brewing for the divisions still here.

Many of the troops in casual conversation have expressed the hope they can "crack" the enemy from the west rather than from the south. The lads who fought at Dieppe have a score to even on

Milan Bombing Heard In Switzerland

By FRANK BRUTTO
Associated Press Staff Writer

ON THE SWISS-ITALIAN FRONTIER, Aug. 13—(AP)—The R.A.F.-R.C.A.F. attack on industrial Milan early today was described by that city's newspapers as "the most violent" of the war, with destruction sown in all parts of the city.

The alarm sounded shortly after midnight and the all-clear was not given until 2 a.m. Bombers swept over the city in waves and were met by the most intensive anti-aircraft fire yet put up by Milan's batteries.

From Chiasso, Swiss town on the Italian border, Italian night fighters could be heard in the air. Two planes were distinctly seen falling in flames as the whole sky glowed with the effects of numerous explosive and incendiary bombs.

The Milan newspapers asserted that one of the spires of the city's noted cathedral was hit. The famous Palazzo Marino on the Piazzo Della Scala, seat of the municipality, was burned to the ground, the papers added.

They also said that whole blocks of buildings were levelled and that the number of victims was believed to be great. A bomb was reported to have destroyed the fountain in the Piazza Fontana as well as the Fontana hotel.

The electric railway station was destroyed and the main railroad station was also hit, the newspapers continued, but not badly.

The region around the Porta Venezia suffered the heaviest damage, it was said.

Match Famine

WINDSOR, Ont., Aug. 13—(CP).—Soon the day may come when a "Got a match, Bud?" plea will stand about as much chance of success as "Got an extra gallon of gas, or an extra pound of butter or a thick, juicy steak?" A wholesale tobacco firm reports it has been out of matches for a month, and many corner grocers can no longer stock them.

Navy Releases Lt. Henry Ford

DETROIT, Aug. 13.—(AP).—Lieut. Henry Ford II has been released from active duty in the United States Naval Reserve to enable him to take up important duties at the Ford Motor Company.

The eldest son of the late Edsel B. Ford was placed on the inactive list on July 26.

Shortly after the death of Edsel Ford last May 26, Henry Ford, now 80 years old, resumed the presidency of the Ford Motor Company and Henry II was re-elected to the board of directors. The younger Henry Ford is 25, married and the father of two daughters.

Naso, Brolo Captured By Americans

Randazzo Totters; Prisoners Exceed 130,000 For Campaign

ALLIED HEADQUARTERS, NORTH AFRICA, Aug. 13.—(AP).—Allied authorities announced today that the United States 7th Army had captured Cape Orlando, the German coastal stronghold which was outflanked by an American landing from the sea Wednesday.

The fall of the cape, little more than 40 miles west of Messina, came after American troops to the east and west had established a junction and overrun the adjacent towns of Naso and Brolo.

Axis prisoners now exceed 130,000, it was announced.

Take General

Among the captives was a General Fiumara, second in command of the Italian Napoli (Naples) division, who was reported captured yesterday "with donkey." It was not stated whether Fiumara was riding the beast.

The Americans went forward eight miles along the northern coast through Cape Orlando, while the British 8th Army advanced four miles on the east coast, threatening Taormina.

Both Allied wings were within 35 miles of Messina, whose beaches were the scene of an increasing enemy evacuation movement to Italy.

Randazzo, the central anchor of the Germans' rear guard line, was menaced from the flanks.

The occupation of Randazzo was in sight.

Allied troops fought with the Germans on the outskirts of that mountain-top town, which was littered and broken by repeated aerial bombardments and steady shelling from artillery batteries.

Allied airmen who cruised above the sector yesterday reported they saw exchanges of small arms fire close to the town. The German garrison, by its tenacious stand, apparently is inviting on a smaller scale the same fate that befell the Nazi army at Stalingrad.

More Escape

The enemy's evacuation to the Italian mainland quickened its pace yesterday afternoon, when from 35 to 50 vessels of various kinds were seen at one time in the narrow, heavily-defended straights. The withdrawal started at least 10 days ago.

(Ross Munro, Canadian Press war correspondent, said in a dispatch from the 8th Army front that a considerable portion of three mauled divisions—the Herman Goering, the 15th armored and the 29th motorized—apparently might get away.

(Munro said that the northeastern tip of Sicily "is certainly no Cape Bon," that narrowness of the strait, heavy anti-aircraft concentrations and the wide dispersion of the troops on the beaches were in the enemy's favor.)

The veteran British 50th Northumbrian division crashed through four miles on the east coast just below Taormina after British naval guns had raked the enemy's positions at Cape Ali, which is on Messina Strait between Taormina and

Sound Advice

SOMEWHERE IN NEW GUINEA, Aug. 13—(AP).—The corporal of an Australian unit lost in the jungle related: "I was idly turning over the New Testament and happened upon a passage in Acts (16: 13) saying: 'And on the Sabbath we went out of the city by a river side'." It was Sunday. The lost unit accepted the advice as a guide to safety.

Burma Conquest Problem For Churchill

By JOHN M. HIGHTOWER
Associated Press Staff Writer

ASHINGTON, Aug. 13.—(AP). —The prospect of new Allied offensives in Northern Europe and Southern Asia in the next few weeks apparently poses for Prime Minister Churchill and President Roosevelt a problem of selecting new operational commanders at their Quebec conferences.

Most important of these because of its direct bearing on a drive for final victory in Europe is that of commander-in-chief in the European theatre. The other is that of commander-in-chief of the forces which eventually — probably this fall—will have the difficult task of reconquering Burma from the Japanese.

The pattern followed in all British and American operations to date makes it clear that if and when the big push begins it is almost certain to have a single directing head.

Should General Dwight D. Eisenhower be chosen there is some belief that he would have general direction both of the continuing Mediterranean operations and the promised thrust into Northern Europe.

No One Named.

Speculation as to the selection of a British General for the European command revolves principally around Britain's two most victorious Generals of this war—General Sir Harold Alexander, now deputy commander under Eisenhower and chief of military government in Sicily, and Gen. Sir Bernard Montgomery, commander of British forces in Africa and Sicily.

The position to be filled in the Asiatic theatre grows out of the shift in British commands in India last spring. At that time General Sir Archibald Wavell was promoted from commander-in-chief of British forces to Viceroy, which removed him entirely from the military organization. General Sir Claude J. E. Auchinleck succeeded to commander-in-chief.

It was announced, however, that no appointment was then being made of a commander to handle operations in the field. This is the job which is still open. The American opposite to General Auchinleck is Lt.-Gen. Joseph Stilwell, commander of American forces in the area and a veteran of last year's Burma campaign.

Jamaicans Badly Fed

KINGSTON, Jamaica, Aug. 13—(CP Cable). — The Labor Office announced yesterday it is investigating reports circulated here recently that hundreds of Jamaican laborers in the United States are underfed and living under unsatisfactory conditions. It was not indicated where the reports originated.

Red Troops 5 Miles Off Kharkov

Pile-Driver Push Continues At 5 Vital Spots

By HENRY C. CASSIDY
Associated Press Staff Writer

MOSCOW, Aug. 13.—(AP).—Battles around Kharkov, Great German Ukraine base, approached final stages to-day as German defences about the city crumbled under the blows of the Red army.

Counter-attacking fresh German reserves were unable to dislodge Soviet troops threatening the city from the north and east, which had advanced at one point to within five miles of the city. The Russians were said to be gathering for a final assault.

(The Berlin radio reported the Russians were throwing in "ever new divisions, tank brigades, artillery regiments and airforce squadrons" as fighting on the whole eastern front was "increasing in violence.")

Main Battle Line.

The newspaper Red Star reported the main battles were raging along the Kharkov-Poltava rail line. The enemy here was throwing in fresh reserves, including all sorts of special units operating as infantry to stem the Soviet advance.

Soviet tanks operating ahead of the main masses of troops gave the Germans no breathing spell or a chance to arrange their forces.

The capture of Kilontaev, 30 miles up the Vorskala river from Poltava, threatened that German base. Operations there run along a wide bulging front stretching west from Kharkov and jutting across the Kharkov-Poltava railroad and back to the district west of Akhtyrka.

Storming in toward Kharkov, Soviet forces to the south have taken the town of Chuguev, 22 miles distant. The Moscow announcement, recorded here by the Soviet Monitor, said the Nazis were in headlong retreat in that area. The nearest approach to Kharkov was to the northeast.

RUSSIAN TROOPS

Il Duce Drowns?

NEW YORK, Aug. 13.—(CP).—The New York Post to-day said that "according to reports in circles frequently very well informed, Benito Mussolini, Italy's ex-Duce, drowned like a trapped rat during a vain attempt to escape from Italy."

The Post continued:

"Mussolini, it was said to-day, embarked in a submarine from an Italian port, probably Leghorn, within a short interval after his political downfall.

The submarine reportedly was spotted by Allied airmen, who bombed it repeatedly and sent it to the bottom."

Canadian Manned Mosquitos Lash City of Berlin; R.A.F. Raid Wrecks Milan

By ERNEST AGNEW—Associated Press Staff Writer

LONDON, Aug. 13 — (AP). — One of the war's most desructive night and day aerial assaults against key Axis citadels thundered to a climax today with both Rome and Berlin attacked in the same day and Milan and Turin pounded in the heaviest attack ever made on Northern Italy. American bombers of the Northwest African Air Force struck by daylight in their second raid on the Italian capital after Britain-based R.A.F. and R.C.A.F. night bombers hit the northern Italian industrial cities and swift Mosquitos stabbed at the German capital.

A special air communique from North Africa gave few details, but it was believed that the blow at least equalled that of last month's attacking formations of 500 bombers and 200 fighters, the greatest ever to take the air in the Mediterranean.

In Great Strength.

The Air Ministry said the long-range attack on northern Italy was made "in greater strength than ever before."

First reports said 13 bombers were lost in all the widespread night operations but a later Air Ministry announcement disclosed that two of these had landed safely. R.C.A.F. headquarters said two Canadian aircraft are missing.

Hammering home Prime Minister Churchill's warning that Italy would be "seared, scarred and blackened from end to end" if she remains in the war, the night's operations probably put 1,000 or more fighters and bombers into the air.

The heaviest onslaught of the war against Northern Italy coincided with an attack on Berlin by swift Mosquito bombers. Damage to the German capital was not immediately announced. It came a few hours before today's raid on Rome, announced by Allied Headquarters in North Africa.

Berlin, whose people have been warned to expect mass Allied attacks with the approach of longer nights, had been bombed 67 times previously, the last time in May.

Part of the German capital's population is being evacuated in anticipation of the forthcoming assaults, and air raid trenches are being consructed hurriedly within the city to supplement the inadequate shelters. The government itself is reported to be preparing to leave the capital.

The night raids followed daylight attacks on three German Ruhr and Rhineland cities yesterday by Am-

SPEEDY MOSQUITOS
(Continued on Page 8, Column 2)

Allies Gain On Sicilian Fronts

American sea-borne troops have surprised enemy units on the island's north coast after landing behind their positions between San Agata and Cape Orlando, forcing them out of the towns and taking San Fratello and Naso. The British Eighth Army has occupied Acireale, and attempting to form a junction with Yanks near Randazzo.

Daring Canadian Sappers Filter Through Hun Lines

By ROSS MUNRO
Canadian Press War Correspondent

WITH THE CANADIANS IN SICILY, Aug. 3 — (Delayed) — (CP).— Royal Canadian Engineers are doing daring work behind the German lines at night, making their way over mountain trails to carry out reconnaissance for Canadian advances. Here are two of their current exploits:—

During the fighting in the Agira area, Lieut. Don Love, Winnipeg, and five sappers, Bernie Berry and E. R. Poffley, both of Kingston, Ont., Ed. Taggart, Earl Clapp and Art Dube, all of Ottawa, passed through the German lines after dark, planning to lay mines at a bridge.

When they got to the bridge they found German patrols roaming around and they couldn't get close enough. It was daylight by this time so they lay low in German-held country all day.

The next night they wandered about some more and finally, their mission accomplished, they got back to the Canadian lines.

Blew Up Bridge

Telling me this story, the commander of the Divisional Engineers said the men carried only light rations with them.

Another behind-the-liner is Sgt. R. R. (Russ) McPhee of Montreal, who did a big job under fire when the R.C.E. built a new bridge at Leanforte. McPhee, 37, a welder in Montreal before going to England as a sapper in December, 1939, casually mentioned his patrol experiences when telling about the bridge building.

I talked to McPhee while he was waiting to be introduced to Gen. Sir Bernard Montgomery at divisional headquarters. Montgomery talked to him about the Leanforte bridge and then Montgomery, Maj.-Gen. G. G. Simonds, Canadian divisional commander, and McPhee had their picture taken together.

Caught In Barrage

"We got mighty close to the German lines and then our own artillery began to shell the hill held by the Germans," said McPhee. "We were right at the bottom of it and got behind some rocks like a flash. We had known there was going to be a barrage, but we didn't think it would be right where we were.

"We certainly saw what our guns can do. As soon as the shells began to plough up the hill the Germans were running like rabbits all over

DARING CANADIAN
(Continued on Page 2, Column 3)

Canadian Fliers In Big Raids

LONDON, Aug. 13 —(CP Cable) — Squadrons from the Canadian bomber group helped the R. A. F. lay on its heaviest attack against Italy during the night — a two-pronged aerial assault which coincided with a Mosquito raid against Berlin.

Canadian bomber group squadrons participated in the smash at Milan while other Canadians, notably those serving with R.A.F. Stirling squadrons, took part in the blasting of Turin.

The planes left their bomber command bases early in the evening, and for more than an hour could be heard droning over the London area in great numbers. Many of the explosive - loaded planes were so low they could be plainly seen, and people in the streets paused to cheer them on their way with a shouted "Good Luck."

Pacific Drive Gains In Power

ALLIED HEADQUARTERS, The South-west Pacific, Aug. 13—(AP) —Shattering air blows even greater than those which helped rout the Japanese from the Southern and Central Solomons, were predicted by that area's Air Force General as United States jungle troops, sloshing forward in weather so bad that planes were grounded, moved to erase the last enemy resistance on New Georgia.

The prediction of more powerful air blows came from Maj.-General Nathan F. Twining at his aircraft headquarters in the Solomons.

The report, minus details, that "our ground advance continues" against the enemy garrison at Bairoko Harbor on the Kula Gulf coast of New Georgia, was contained in to-day's communique from Allied Headquarters.

Gen. Twining said the current Pacific offensive has reached "the second quarter of the game with our forces possessing the ball and with an impressive score behind them," and that the Japanese can expect even more power in the next quarter.

To date in the current offensive, the American Air Force has downed more than 350 enemy planes, these losses excxeeding its own by better than four to one; has sunk a cruiser, at least two desroyers, and a seaplane tender; and has loosed impressive tonnages of bombs, on the enemy's defences at and around Munda prior to the airfield's capture.

Aircraft Strike Nears End

Some Return, All Employees Back Monday

MONTREAL, Aug. 13. — (CP).— After being idle a week, some of the machines in the big aircraft factories in this area began turning today as representatives of labor, Government and employers studied terms of a settlement that will see 20,000 workers resume their jobs. Full employment will not be reached until Monday.

Union spokesman announced the return to work at a meeting here last night at which a joint statement from Labor Minister Mitchell and Munitions Minister Howe was read. The statement said the National War Labor Board had agreed to review the question of cost-of-living bonus adjustments—the point at issue—for employees and to receive a formal application from the workers for such a review after the men have returned to their jobs. The board will consider whether the men are legally entitled to some adjustment of bonuses paid prior to March 23.

The settlement proposal was recommended to the men at a mass meeting last night and they voted to go back to work "as soon as possible" and await the results of the further steps of conciliation.

6th War Conference Tops All Others

Fortunes Of War Favor Allies On All Fronts Across World

By DEWITT MACKENZIE
Associated Press War Analyst

The gods of war certainly are smiling on the great and going concern of Churchill, Roosevelt and Co., as the senior partners prepare to begin what probably are their most important conversations since the first historic conference on the Atlantic in the parlous days of '41.

Things military are going exceedingly well. There are great international political problems to plague the chiefs, but the matter of immediate concern presumably is where and when the Anglo-American Allies can best swarm aboard the European continent and capitalize the successes of the Red armies before opportunity takes a nose-dive.

Things could scarecly be going better on the two land fronts and the one air front of the European theatre. That certainly should facilitate the difficult decision the President and the Prime Minister must make.

Reds Keep Going.

On the crucial Russian front there has been no slackening in the Red offensive which threatens to force the Huns to withdraw their entire thousand-mile battle line, with the key positions of Orel and Belgorod already well behind the advancing Soviet front, the great fortified railway centre of Kharkov, still farther south, is threatened with encirclement. The Nazis are in a precarious position. Thus far there is no indication that the Reds are weakening in the striking power necessary to permit continuation of their drive to crack the German line and precipitate a rout.

Should the Russian assault lose steam before the western Allies are able to take major action to divert further Nazi strength from the eastern front, then the opportunity for a quick Allied coup de grace might be swallowed up in the bad weather of autumn, and the war would be protracted. That's a contingency the conference between Messrs. Roosevelt and Churchill is calculated to to meet.

Sicily Almost Won

In Sicily the end of Axis resistance is near. Already the fiercely-fighting Germans are admitting defeat by the withdrawal of troops across the narrow Strait of Messina to the mainland. They are pulling out in small craft under a canopy of anti-aircraft fire to ward off the ceaseless attack by Allied war planes which are taking a bloody toll.

One more strong point remains to be taken by storm before the collapse of the Axis position of Randazzo, near the centre of the enemy front, about which one of the hardest battles of the whole Sicilian show is being waged.

Even more encouraging that the Sicilian success is the status of the Anglo-American aerial bombardment of western Europe and Germany. That assault, unprecedented in its terrific force, has as its purpose the reduction of the Reich to impotenace by destruetion of its war industries, supply centres, naval bases and land communications of all sorts.

So by and large, the Allied Chiefs should be pleased with the set-up as they sit down at the conference table.

Calgary Flier Wins D.F.C.

Anti-Sub Patrols Bring Coveted Award

OTTAWA, Aug. 13.—(CP).— Air Force Headquarters ast night announced award of the third Distinguished Flying Cross to be won by a member of the R.C.A.F. serving at an operational station in Canada to Flt. Lt. F. C. Colborne, of Calgary, and made public the award of two George medals and four British Empire medals to R.C.A.F. personnel serving in Canada.

Flt. Lt. Colborne was awarded the D.F.C. in recognition of his long service of anti-submarine patrols off the east coast of Canada.

A George medal has been awarded PO. John F. Williams of Port Dover, Ont. Williams was decorated for swift action in saving a valuable part of a train load of gasoline destined for war purposes and Lyon for heroism in the disastrous fire at the Knights of Columbus hostel in St. John's, Nfld.

Also awarded G.E.M.'s were Sgts. J. A. Tunstall and L. G. Mayhew.

Sgts. Mayhew and Tunstall are cited together for their part in assisting PO. illiams in extinguishing ing a tank car blaze which Williams had sighted from the air.

AMERICAN AMPHIBIOUS ATTACK IN NORTH SICILY GAINS GROUND

U.S. War Experts Expected At Quebec Soon

By JOHN DAUPHINEE
Canadian Press Staff Writer

QUEBEC, Aug. 13—(CP)—High-ranking United States officers are expected to arrive in this old St. Lawrence city soon to augment the expert military staffs already conferring on major strategy matters to be brought before Prime Minister Churchill and President Roosevelt when they come here for their sixth wartime conference—probably next week.

The British and Canadain chiefs of staff already are in Quebec, along with some American officers. But the chief American military officials had not arrived late last night. It was anticipated they will precede Mr. Roosevelt to Chateau Frontenac, big hotel commandeered by the Canadian government as conference headquarters.

Churchill Missing

Prime Minister Churchill yesterday crossed the border into the United States at Niagara Falls after

Ralston Says

Continued from Page 1

that front and feel that "an invasion to stay" will give them the chance they want.

Col. Ralston during his visits to the troops earlier this month reiterated time and again that there is much fighting to be done before the war ends. Sicily is but the beginning, he said, and Europe still has to be cracked both north and south.

The men to whom Col. Ralston first gave this warning—troops of an armored division—had just completed a tough exercise in which the opposition was a Polish armored division, part of which was used to help prepare the Canadian 1st Division for the Sicilian campaign.

In Mimic Warfare

For three days the Canadians and Poles waged "war" on barren moors, tanks against tanks, infantry against infantry. Conditions were as realistic as they can be during training.

Gen. McNaughton, Gen. Sir Bernard Paget of the British Army, Lt.-Gen. E. W. Sansom, commander of a Canadian Corps, Maj.-Gen. F. F. Worthington, commander of a Canadian division, and other high-ranking British and Allied officers spent some time watching the scheme and Gen. McNaughton in an interview spoke highly of the Canadian troops.

In many ways, he said a scheme such as this presented greater problems than actual combat, for movement was restricted by farmland areas in which there could be no fighting. As a result there had to be rigid umpire control which led to artificiality.

Gen. McNaughton said the Sicilian campaign showed that the Canadian Army's training methods were "eminently correct." Senior army officers with whom he conferred in Sicily told him to "carry on" this type of training.

Italy Nearly Through

LONDON, Aug. 13—(CP).—Radio France in Algiers said in a broadcast last night that the secretary of the Italian Embassy in Istanbul had declared publicity that Italy would be out of the war in 10 days.

the place. They were in a hell of a state about it. Toll and I were just as scared as the Jerries, but we lay there watching. I'd far sooner be under German mortar fire than the fire of our guns for where the Germans land two or three mortars we seem to let go with 200 or 300.

"During the night we got mixed up with some machine-gunners who whipped tracers at us, but you can see the stuff coming. That saying that you can duck the bullets is perfectly true."

Fruit Crop Rated 75 p.c. Normal

COBOURG, Ont., Aug. 13.—(CP). —Crop production in Northumberland County is not only good but much better than was anticipated two months ago, according to H. B. Banbury, county agricultural representative. The encouraging outlook has been brought about by favorable growing weather since late seeding. Hay crop was so large that barns everywhere are filled and stacks have been erected.

Volunteer labor from the urban centres has played an important part towards this end. The grain crop, said Mr. Banbury, is fairly good despite a lot of rust which has prevented much grain from maturing.

The fruit crop in Northumberland is about 75 per cent. normal. The labor situation is fair and by no means acute at the present time, Mr. Banbury stated.

War–25 Years Ago

By The Canadian Press

August 13, 1918—British Government officially recognized Czech-Slovakia as an Allied nation. French forces captured most of the Lassigny tableland including Belval and positions of Canadians, Australians and British improved; 80,000 prisoners taken since July 18.

Lex Robson Will Add Lot Of Color

Bob Gray, 1943 Millar Trophy winner, will have serious competition in more ways than one, when he goes after the top money in the Kawartha Lakes 54 hole Invitation Tournament, August 21 and 22, at the Kawartha Golf and Country Club.

Bob's wine colored golf trousers caused much comment during the Millar matches, and certainly made him an easy golfer to follow, against the green background of the Islington course.

Taking a page from Bob's book, Lex Robson, professional at the Kawartha Club, came out Saturday be-decked in a pair of golfing trousers, that are, to say the least, dazzling. Your guess is as good as the next one, as to their color, but believe me, there is plenty of it. Color I mean. If you conjure up a shade between a bowl of tomato soup and an extremely rusty piece of iron pipe, you will come pretty close.

The trousers didn't bother Lex's game, however. As a matter of fact they may have been some help in his shooting the 6565 yard Kawartha course in 68, three under par.

The course will be in the best shape ever for the tournament and with the top notch Ontario pros, augmented by some of the better shot makers from Quebec, this will be the biggest sports event of its kind ever to be held in this district. The entire proceeds from the tournament will go to the Kinsmen's Club Milk for Britain Fund.

U.S. To Revise Manpower Plan

WASHINGTON, Aug. 13 (AP).—Action which may retard and minimize the drafting of fathers in the United States is expected to be announced on Sunday by War Manpower Commission - Selective Service officials.

The line to be taken probably will be aimed at adapting draft operations to the manpower problem by giging draft-eligible men an inducement to shift into vital war production work. It was described as about the ultimate W.M.C. move short of a general labor-draft.

1. Broadening the "non-deferable" list so holders of certain jobs in specified activities would be subject to call first, regardless of how many children they have, unless their induction would mean "extreme hardship and privation" to dependents.

2. Granting super-eligibility for occupational deferment to certain jobs and to certain industries engaged in direct production of war goods and machines.

Thus, draft-age men would have an incentive to get out of non-deferable jobs to avoid speedy induction.

Naso, Brolo

Continued from Page 1

Messina.

8-Mile Gain

A famous American division ripped off the eight-mile gain on the north coast, occupying Cape Orlando, Naso and Brolo, while American warships steamed ahead and wrecked enemy railway and highway communications as far east as Marina di Patti, 28 miles due west of Messina.

Of the campaign total of more than 130,000 prisoners, about 100,000 were taken by the Americans.

With enemy resistance at Randazzo obviously in its last hours and the sea-girt German flanks crumbling rapidly, the overall picture appeared bright with the promise of swift and final conquest of the remaining fragment of Sicily.

Incessant Allied attacks ground down the rear German troops, who have been fighting without relief one of the fiercest rear guard actions of the Mediterranean war.

The fall of Cape Orlando and Naso gave the Americans control of the lateral road running south to Randazzo and reduced escape routes of the Germans at Randazzo to one—the highway eastward. The British advance up the east coast was an evergrowing threat of complete entrapment of this Nazi force.

Development of small arms fire about Randazzo indicated that British and United States forces were closing their trap from three sides, north, west and south.

An Allied officer expressed doubt that the enemy evacuation of Sicily had yet reached the "full scale," but said the Allied Air Force and warships seeking to halt the traffic had an extremely difficult task.

The Germans have concentrated hundreds of heavy and light guns along both shores of the channel, which is only two miles wide at one point, for defense against both air and surface raiders.

R.A.F. officers have said that the anti-aircraft fire sent up by these batteries is equal to that in the Ruhr Valley.

Nevertheless, both airmen and sailors of the Allied forces are defying this artillery to stab repeatedly at the stream of troops and equipment moving through the bridgehead.

SOUTHERN ICE CAP

There is enough ice in Antarctica to encase the entire world in a layer 120 feet thick.

Former Douro Airman Missing After Crash

DOURO, Aug. 13 (ENS)—P.O. J. C. Allen of Douro, has been reported missing by the Eastern Air Command Headquarters, after the wreckage of his plane was spotted Thursday, off the south coast of New Brunswick.

Born in Douro, P.O. Allen lived there until he was 5 years old and then the family moved to Edmonton, where his wife and two children now reside. In civilian life, he was a lawyer, and he trained in Edmonton before coming to Trenton in the spring to follow up his air force course. While at Trenton he paid a visit to Douro renewing acquaintances. A brother, Lieut. E. B. Allen is serving overseas.

New Alsike Seed $10 A Bushel

TORONTO, Aug. 13—With reports that Canada will play an important role in furnishing seed to enable occupied European countries to restore their farm lands, it is interesting to note that the first 1943 alsike seed is beginning to reach markets in Canada. An executive of one of the large Toronto seed firms reports that the seed is selling at $10 a bushel for best quality cleaned alsike.

With regard to the crop prospects, the dealer states, it is very indefinite as to the size of the current crop, and it is purely a matter of conjecture as to whether growers will reach the objective set by the Canadian Department of Agriculture. He was unable to give any reason for the possible failure of growers to reach the 5,000,000-pound objective, adding that within a few weeks dealers will be able to estimate more fully the size and quality of the new crop.

LAWN BOWLING

There was a time, and not so long ago, when any rink scored a seven end on their opponent it was considered big lawn bowling news, but now as we see it, it is considered just another end played.

Looking over our records we find that less than six seven-ends have been scored up on our greens within the last week.

And just to keep in the running Bob Hendry got the "natural" last night, playing against Bill Ashby. Who will be next?

We're asking the bowlers who intend to play in tonight's twilight doubles to please be out on time—7 o'clock.

It is rather unfortunate that some of our lady bowlers are not taking more interest in the skips and Vice's competition and the Leads and Seconds competition.

We find looking over the personnel of the rinks that many of them have as high as 50% subs and some are not even playing at all.

It's hardly fair to the club or the committee. After all it is being done for their benefit.

The ladies committee have asked us to announce that entries will be received by the committee for the ladies "Globe Doubles" up until Tuesday evening next. If you are interested in this competition make your entry, and be prepared to go all the way.

Answering our query of the other evening—The only contest in which you must play players in their given position is in a mixed rink tournament, the ladies play lead and vice, while the gents play second and skip.

In all other competitions you may turn your rink inside out if you wish.

Men's Scores—

R. Hendry 33, W. Ashby 11
J. McDonald 25, G. Sorenson 12
H. Clegg 11, V. Selkirk 17
T. Ryan 22, R. Hutchinson 13
H. Darling 16, J. Harrison 14
C. Elliott 13, L. Loftus 22

Ladies Section

Skips and Vice-Skips

Mrs. Beatty won from Mrs. Greenslade.
Mrs. Coleman won from Mrs. Martin

Mrs. Renaud won from Mrs. Arnold.

Leads and Seconds

Mrs. Darling won from Mrs. Reed.
Mrs. McWilliams won from Miss Patterson.

Drew Stresses Value Of Postwar Flying

TORONTO, Aug. 13 — (CP)—Swinging into its second day, the Canadian Weekly Newspaper Association 24th annual convention in Toronto embarked upon an ambitoius series of trade discussions today topped off with a luncheon at which John A. Stiles, chief executive commissioner of the Boy Scouts Association, was to be guest speaker.

Attendance of editors and publishers from all parts of Canada from Newfoundland and the United States broke records in their wartime convention—"warvention for short—numbering more than 300. Last night's trophy banquet gave Lt.-Col. George A. Drew, Ontario premier-deignate, an estimated audience of 350 for his first public adress since his Progressive Conservative party headed the polls in Ontario's election.

In his speech, carried over a Dominion-wide CBC radio network, Col. Drew urged that Canada join in some form of postwar empire air transport system. He said there was no subject which required franker discussion than that of postwar commercial aviation—"there is no use attempting to hide the fact that air transporaion and military air power are two sides of the same coin."

"Geography has given us opportunities in air transport unequalled by any other nation," he said. "We can only devlop those opportunities as they should be developed within an empire air partnership."

Col. Drew said the brighter war outlook and the present Quebec Conference emphasized the need for immediate and "well-informed" decisions regarding Canada's post-war course.

The people of Canada themselves would have to make vital decisions if their representatives at the peace conference were to take their proper place in such decisions.

Where Do We Stand?

"The very thing we must decide beyond all question, before our representatives make any commitments on our behalf, is the real nature of the relationship which is going to exist between Canada, Great Britain, the Commonwealth and other parts of the British Empire," he said.

"It is of the utmost concern to every Canadian that we do reach clear decisions soon upon our future within the British partnership."

Col. Drew praised Canada's war effort, but said that the Dominion alone could have accomplished "little or nothing." Working as a partner with other Empire units "we have become a mighty force for the destruction of evil."

Any Government with which he was associated, Col. Drew said, would have no part, large or small, in the liquidation of the British Empire.

Awards Given.

At the winner 12 awards, symbolic of leadership in various fields of Canadian weekly newspaperdom, were presented.

Winner of the Mason Trophy for "best all-round paper," in the 2,000 circulation and over class, was the Vernon (B.C.) News. Two other British Columbia papers topped their respective classes—the Powell River News taking the Charles Clark Cup for papers of 1,000-2,000 circulation, and the Creston Review the Hugh Savage shield for papers between 500 and 1,000 in circulation. The Alameda (Sask.) Dispatch was adjudged best all-round paper among weeklies of less than 500 circulation.

Roy P. MacLean, publisher of the Kelowna, B.C., Courier and current C.W.N.A. president, opened the three-day conference yesterday with an address of welcome and remarked on the vital role played by Canadian weeklies in the nation's war effort.

Obituary

MRS. ALFRED POOLEY

Mrs. Alfred Pooley, the former Cecelia Delorme, of 282½ Sherbrooke street, died Thursday evening at St. Joseph's Hospital after a short illness. She was 25 years old.

Born in Peterborough and residing here all her life, Mrs. Pooley was the daughter of Mrs. Mary Delorme and the late Stanley Delorme. She was a member of St. Peter's Cathedral.

She leaves to mourn her loss her husband, Sgt. Alfred Pooley, overseas, and two daughters, Rosemary, 4, and Alfreda, 3. Surviving also are a brother, Pte. A. G. Delorme, overseas, and four sisters, Mrs. H. Coulson, Mrs. P. Killen and Mrs. A. Parnell, all of Peterborough, and Pte. Reta Delorme, of Kingston.

The funeral will be held on Monday at 9 o'clock from the J. J. Duffus funeral parlors to St. Peter's Cathedral. Interment will be in St. Peter's Cemetery.

ROOM AND BOARD —By Gene Ahern

Cape Orlando Captured By U.S. 7th Army; Escape Barges Take Beating

Allies Advance In Centre And Along Coast Nearing Town Of Randazzo Key Hun Communications Centre

ALLIED HEADQUARTERS, North Africa, Aug. 13—(AP).—Allied headquarters announced today capture of Cape Orlando and the occupation of Naso and Brolo as the main body of the United States troops cut through to a junction with the amphibious forces.

Naso lies two miles south of the tip of Cape Orlando; Brolo is four miles east of the Cape. The operations involved crossing of the Naso River, the communique said.

Both at the centre and on the east coast there were further gains, despite stiffening resistance from the suicide rear guards which the Germans have left behind to cover their withdrawal from the Messina bridgehead to Sicily.

The 8th Army reached the village of Trearchifari, on the east coast, three miles south of Riposto, and is threatening Giarre, the communique said.

Near Maletto.

"Northwest of Mount Etna, after bitter fighting north of Bronte, the 8th Army succeeded in making an advance towards Maletto in co-operation with the (U.S.) 7th Army troops, who are now four miles from Randazzo on the Cesaro road," it stated. "American mobile forces covering the left of this advance on Randazzo made considerable progress across the mountain today."

The position of these mobile forces was not defined, but advices from the front yesterday indicated some American ground forces were then within three miles of Randazzo, bomb-battered mountain town which is the key to German communications in the central sector.

"Great naval activity in support of the armies still continues on the north and east coasts of Sicily," a naval bulletin announced, and it told of a series of blows from the sea at German traffic routes and troop positions during the week.

Navy Active

British and American warships rained shells on the enemy's Sicilian bridgehead almost to the outskirts of Messina in steady bombardments, it was announced here.

Batter Ships.

Allied Planes, swarming over the narrow Messina Strait which separates the island from the main-Axis evacuation barges and their land, were taking a heavy toll of occupants despite a terrific anti-aircraft barrage laid down by hundreds of guns, reports to Headquarters said.

The narrowness of the Strait made it likely the Germans would save a considerable portion of their remaining divisions and equipment from annihilation. It was estimated they were using 500 anti-aircraft guns to throw a steel umbrella across to the mainland. The strength of the canopy increased as the retreating forces brought up additional guns.

Ross Munro, Canadian Press war correspondent now with the 8th Army, reported last night that the Germans were using about 80 craft in the evacuation, adding, "some of this small number are lost daily, despite the terrific Axis anti-aircraft barrage over the Strait."

He also reported that orders left behind by the withdrawing Germans decreed that Italian troops were to be ruthlessly brushed aside and driven from the roads to clear a path for the retreat on Messina.

Munro wrote that the Germans first began moving technical forces across into Italy late in July and that now combat troops were being withdrawn steadily and even the suicide rear guard units were be-

Make Reform Party

WINNIPEG, Aug. 13 — (CP).—John Bracken, National Progressive Conservative leader said in an address here yesterday that he was aiming to make the party one of rational reform.

Cheese, Produce and Livestock

WINNIPEG GRAIN.

WINNIPEG, Aug. 13 — (CP). — Wheat futures moved irregularly in dull trading yesterday on the Winnipeg Grain Exchange and at the close values ranged unchanged to ½ cent a bushel lower.

Purchases amounting to 400,000 bushels and credited to Eastern interests and mills featured the session. Some selling for American account was observed in the December and May. Hedging was light.

Business in the cash wheat market was on a fair scale with shippers taking the bulk of 500,000 bushels of Nos. 2, 3 and 5 Northern traded. Eastern domestic feeders took odd carlots of cash oats and barley.

Winnipeg Futures.

CHEESE BOARD

CAMPBELLFORD, Aug. 13 (CP) — Boarded 2,285 boxes white cheese. All sold, 20 cents per lb. F.O.B. Campbellford.

TORONTO FRUIT

TORONTO, Aug. 13 — (CP). — Wholesale fruit and vegetable prices were unchanged here today with the following exception:

Domestic: raspberries 22c to 23c pint; Lawton berries 22c to 23c pint; peaches, No. 1 80c to 90c, No. 2 50c to 60c, No. 3 40c to 50c; Leamington tomatoes 50c to 65c; staked tomatoes, six quarts, 50c to 60c; plums, leno baskets $1.00 to $1.25.

HOG PRICES

TORONTO, Aug. 13 — (CP). — Liveweight were down 10 cents at Chatham and prices unchanged at other bacon-hog markets reporting early today.

Live weight: Chatham $12.

Dressedweight: Brantford $16.30 plus transportation, Hull $16.40 plus transportation, Hamilton $16.75 delivered, London $16.60 delivered, Stratford $16.60 delivered.

MONTREAL PRODUCE

MONTREAL, Aug. 13 — (CP).—Canadian Commodity Exchange.—Spot: Butter, Que. (92 score) 33c to 33½c; Eggs, B.I. Eastern A large 45c to 46c; A medium 44c to 45c; A pullets 36c to 37c; E-B 33c to 34c; E-C 29c to 30c.

Futures: Butter, Nov. 34¼c to 34½c; Eggs, Aug. 44cB.

TORONTO PRODUCE

TORONTO, Aug. 13 — (CP).—Spot Eggs: Wholesale to retail A large 47c, medium 46c, pullet 40c, B 35c to 36c, C 33c to 34c, country shippers quoted graded eggs, cases free, A large 44c, medium 43c, pullet 35c, B 31½c to 32c, C 30c.

Butter: First grade solids 33c; second solids 30c to 31½c.

Hog Quotations In Peterborough

FRIDAY, AUGUST 13

Hogs — $16.25 plus transportation.

Sows — $14.00 plus transportation.

Eggs — A large 37c; A medium 36c; A pullet 30c; B grade 28c; C grade 25c.

Cream — Special 43c; No. 1 42c; No. 2 39c (including Government bonus). If delivered 2c extra.

The Quaker Oats Company quotes Ontario Winter Wheat No. 1, $1.10; No. 2 $1.10; No. 3 $1.08; milling oats 62c; buckwheat, 60c.

WARNING
COAL WILL BE SCARCE NEXT WINTER !!!

Prepare your home now for adequate warmth with smaller fuel consumption

TO SAVE COAL CHECK THESE POINTS

✓ HOW TO GET MORE HEAT
Pipes and furnaces must be clean; and grates in good order. If one or two rooms are hard to heat, you are wasting fuel. A minor adjustment can probably remedy this. Have a competent man check your heating system, and make necessary repairs. Insulate your furnace and pipes where necessary.

✓ HOW TO AVOID HEAT LOSSES
Storm windows and doors must fit snugly and be weatherstripped. Lack of storm windows can cause as much as 20% heat loss. Caulking should be done around windows, doors and in cracks in brick work (some hardware stores have caulking guns for rent). Broken glass should be replaced, and loose panes puttied. Small expenditures on such work will save much fuel.

✓ HOW TO SAVE STILL MORE
You can save fuel and money by having your home properly insulated. It is a proven fact that in many homes lack of adequate insulation (including storm windows) results in unnecessary consumption of fuel—up to as much as 50%. Watch for later instructions on how to fire your furnace properly.

HAVE YOUR HOME INSPECTED FOR HEATING AND INSULATION DEFECTS

Get advice now! Skilled workmen and supplies are scarce. If you delay in getting your home ready for winter you may not be able to get the services you need.

Save one ton in five

"SALADA" TEA

Vacate Notice Changed To Six Months

OTTAWA, Auf. 13.—(CP).—The Prices Board announced to-day that revisions in wartime rental regulations regarding housing accommodation will become effective throughout Canada Oct. 1, and will provide, among other changes, that a minimum of six months' notice to vacate will replace the minimum of one year's notice now required if landlords want to live in tenanted accommodation purchased by them after Dec. 10, 1942.

The revised order, the Board said, maintains the ceiling on rents but is designed to make easier the part of tenants and landlords in the administration of rent control, and "give greater certainy of position to each."

The revised order provides that an application for an increase in rent will be more generally limited to situations where the tenant is receiving more value for his rent than he was on the bosic date, and authorizes appointments of "local rentals appraisers," who are empowered to deal with applications for changes in rent.

Persons on a weekly tenacy of self-contained units will be given the same protection as those on monthly or yearly tenancies, and roomers and boarders will be brought under the price ceiling in a section known as "shared accommodation."

Previously, landlords who acquired accommodations before December, 1942, were fixed with a minimum of three months' notice; now new and old landlords are placed on the same footing. For personal occupancy, a landlord previously could be required to go to court and prove he needed the accommodation.

Special Feature.

Under the new order, a bona fide owner may occupy his own property as a residence merely by giving the prescribed length of notice. To prevent abuses, it is provided that an owner will not be permitted to rent to another party or sell within a year of getting possession without first obtaining a permit from a rentals appraiser.

These permits, the Board said, will be granted where, through a change in the landlord's circumstances during the year, hardship would result otherwise. Provision is made for applications for increased maximum rentals where the annual rental is less than twice the total of taxes and water rates payable by the landlord.

The order provides that tenants may be dispossessed for three reasons: personal occupancy by the landlord or members of his immediate family; a division of the accommodation so it will house more people; and obnoxious behaviour by tenants or their sub-tenants.

Ten Per Cent Boost

The revised order provides a 10 per cent increase in maximum rental where the tenant is sub-letting more than two rooms. Applicaions for increases of maximum rental also may be made if the rental of any unit in a multiple family dwelling is less than the rental generally prevailing for similar units in the same building, or if the landlord spends 10 per cent or more of the assessed value of the accommodation for reservations.

If a landlord desires accomodation as a home for at least a year for himself, his father, mother, son, daughter or daughter-in law—the last because of the number of women whose husbands are overseas—he must give his tenant a minimum six months' notice to vacate.

"But eviction," the Board's announcement said, "cannot take place in the winter in the case of a monthly lease. Special forms are provided by the Board for these notices, and the accommodation must not be sold or rented during the one year without the rentals appraiser's permission."

Churchill Delights Residents Of Niagara Falls

Niagara Falls, Ont., known to thousands of honeymooners throughout the world, was host to Winston Churchill and his daughter, Subaltern Mary Churchill. They are pictured ABOVE coming out of a Niagara restaurant after viewing the Falls.

Cheese Volume Drops Again

CAMPBELLFORD, Aug. 13. — (ENS).—Members of Campbellford Cheese Board once again discussed the merits of once-a-month meetings Thursday night but arrived at a stalemate and for the fourth time this season resolved to continue meeting every two weeks.

Thirty-one factories offered cheese for sale and a total of 2,285 boxes or 33 less than at the last meeting, were boarded. The offerings were all white and ten buyers divided the board at the ceiling price of 20 cents f.o.b. Campbellford. Selections were as follows:

V. Spencer, for Belleville Cheddar Cheese, 179; Grant Anderson, for Silverwood's, 238; J. S. Cook & Son, Belleville, 231; H. Tremaine, for Swift Canadian, 233; W. S. Stiles, for P. W. McLagan Co., Ltd., 228; Roy Walker for Olive & Dorion, 260; W. D. Bedell, for A. A. Ayre Co., 225; P. J. Murphy for Hodgson & Rowson, 231; W. H. Bailey for Lovell & Christmas, 230; A. J. Meyers for Flavelles Lt., 230.

Factories boarded as follows (all white)—Avonbank 90; Beaver 88; Brae 33; Crow Bay 94; Cedar Creek 77; Empire 84; Hoards 71; Ideal 89; IXL 24; Kimberley 58; Menie 103; Percy (Warkworth) 74; Rylstone 125; Stanwood 41; Trent Bridge 90; Trent Valley 180; Woodlands 60; Maple Leaf 91; Bobcaygeon 70; Burnley 93; Daisy D 90; Indian River 45; Killarney 70; Ormonde 75; Pine Grove 70; Selwyn 45; Silverwood's 50; Warsaw 62; Warminster 50; Oakdale 24; Port Perry Creameries 69.

Tiny Baby Strangles Caught In Bed Jacket

LONDON, Aug. 13 — (CP)—The Baby John McConnell, 17-month-old son of Col. Alex Fordyce and Mrs. Fordyce, of Ottawa, died late last night at the home of his mother's parents on Richmond street, when he apparently fell from his bed and was suspended off the floor by his sleeping jacket.

Col. and Mrs. Fordyce had come with their child to the home of her parents, Mr. and Mrs. J. E. McConnell, yesterday from their home in Ottawa to spend a couple of weeks here.

City firemen were immediately called and worked on the child for two hours without success.

Warkworth News

Mrs George Hardinge, Toronto, is spending a few days with Mr. and Mrs. Harry Smith and also is visiting other friends.

Mrs. Wilmer Willis, Lanark, is a guest of Mr. and Mrs. O. B. Phillips.

Misses Clarence and June Hutchinson and Elizabeth Meiklejohn, Evelyn Reddon and Clara Huycke and Evelyn Denike are holidaying at Presqu'ile Point.

Mrs. George Cockburn is visiting Mr. and Mrs. T. S. Baker, Campbellford.

Born—To Mr. and Mrs. Cecil Cornelius, Wednesday, August 11, a daughter.

Maj. L. W. Clarke Dies

TORONTO, Aug. 13 — (CP). — Maj J. W. Clarke, associate engineer with George S. May, Ltd., died in his hotel room here yesterday. Chief Coroner Smirle Lawson said death resulted from natural causes.

Capt. Lyell Gets V.C.

LONDON, Aug. 13—(CP Cable).—The posthumous award of the Victoria Cross to Cape. Lord Ly[illegible]l, 29, of the Scots Guards was announced last night.

A Gasoline Hog

SAN FRANCISCO, Aug. 13 —(AP).—Myron T. Jacobson, pleading with OPA officials for extra mileage ration stamps, fumbled for a paper in his pocket and out fell coupons good for 100 gallons of gasoline. Assistant United States Attorney Valentine G. Hammack filed an information in Federal Court charging Jacobsen with illegal possession of the stamps.

Churchill Lauds General Of 1812

NIAGARA FALLS, Ont., Aug. 13 (CP)—Prime Minister Churchill, student and exponent of war, was puzzled at historic Queenston Heights today as to why Gen. Sir Isaac Brock attempted to scale the Heights in the war of 1812 with a handful of men.

This was one of the subjects he discussed while on the verandah of the Queenston Heights Restaurant, it was disclosed by Maxim T. Gray, Niagara Parks Commission manager.

Mr. Churchill inquired also why no big monument had been erected to Gen. Sir Roger H. Sheaffe who recaptured the Heights from the Americans although a tall column had been placed on the Heights to honor Gen. Brock who lost his life in the attempt. It was explained to Mr. Churchill that a small marker had been erected by the Historic Sites and Monuments Board to honor Gen. Sheaffe.

Mr. Churchill suggested that no large monument had been erected to commemorate Gen. Sheaffe's exploit "because he wasn't killed."

SELWYN

Family Picnic Given For Capt. Roy Crapp

SELWYN, Aug. 13—(ENS)— On Thursday about thirty-five of the immediate relatives of Captain and Mrs. Roy Crapp, who were home on vacation from his station, journeyed to Sandy Lake where they held a family picnic in their honor. The occasion also marked Ray's thirty-fifth birthday.

Mrs. Stanley Northey prepared a large birthday cake, topped with thirty-five candles, which was placed in the centre of the table. The picnicers arrived at noon and after dinner all joined in playing games and swimming.

Capt. and Mrs. Crapp left on Monday to return to his post where he is an instructor in the R.C.A.F.

Personals

Mr. and Mrs. Andrew Wilson of Young's Point spent a few days with their son and daughter, Mr. and Mrs. Clayto[illegible] Fitzgerald.

Sgt. and Mrs. Russell Elliott and daughters, Patricia and Gail, have been holidaying at Mrs. Elliott's parent's cottage on Mud Lake.

Miss Opal Preston spent a few days recently with Mr. and Mrs. Norman Stockdale and family.

Mr. and Mrs. Ballard and family of Toronto visited with Mr. and Mrs. C. J. Whitmore recently.

Music Teacher Dies

WINNIPEG, Aug. 13 — (CP).—Mary Lang Robertson, 70, twice president of the Manitoba Registered Music Teachers' Association, died here yesterday after several months' illness. A native of Belleville, Ont., Miss Robertson had been prominent in the musical life of Winnipeg for 30 years.

American Labor Rebuffs Lewis

CHICAGO, Aug. 13 — (AP). — John L. Lewis' surprise offer to lead his United Mine Workers back into the American Federation of Labor was logged to-day as a routine order of business for the Federation's annual convention.

The A.F.L. executive council, empowered to grant charters, decided instead to refer Lewis' application without recommendation to the Boston convention in October.

President William Green conceded this was unusual action for the council, but declined to amplify his interpretation. Few could find any measure of comfort for Lewis in the decision and none would be surprised if he withdrew his application rather than leave it to an open forum where he had no vote and no voice.

A series of circumstances added up to an interpretation that the decision was a rebuff to Lewis:

1. A proposal to offer him re instatement if he agreed to drop District 50, the U.M.W.'s miniature labor movement, was rejected.

2. Green said the A.F.L. committee would meet with Lewis again only if Lewis sought such a meeting.

3. The decision to make no recommendation to the convention, an unusual event in A.F.L. practice.

Cobourg Briefs

COBOURG, Aug. 13.—(ENS). — The standing of the girls' softball league has Campbell's in first place with seven won and none lost; C. Y.O. is next with five on the winning side and three lost; Dye Works three wins and four defeats; Ontario Hospital two wins and six losses, tied with Cobey.

Captain Henry Winter, son of Mrs. Harold Winter and the late Mr. Winter of Cobourg, who is convalescing in a hospital in England, had the experience of seeing first-hand some of the work from the Cobourg Red Cross. In a letter to his mother, Captain Winter said that a fellow patien[illegible], who comes from Toronto, was issued with a suit of pajamas and Henry was both surprised and pleased to see that they bore the label of the Cobourg Red Cross.

Mobile R.C.A.F. recruiting unit arrived in Cobourg Thursday afternoon to seek enlistments for aircrew and the women's division of the air force. Flight Lieut. T. Prdye and his staff were on hand to look after the applicants. They came here after a successful recruiting period in Peterborough. The R.C.A.F. is very badly in need of men for aircrew and also recruits for the women's division, it was pointed out.

Norman Kingsbury of Cobourg, has purchased the Soules Block, just west of Fitzgerald Apts. on King street. The block consists of two stores and the large living accommodations above them. Mr. Kingsbury will have three apartments made above the stores.

The Ladies' Auxiliary of the 47th and 36th Battery have announced that the proceeds from the collection at the band concert amounted to $31.50, the funds going to assist them in their work. The Auxiliary expresses its thanks to the members of the band, assisting artists and all those who contributed.

Civilians Suffocate

STOCKHOLM, Aug. 13.—(AP).—Dispatches from Germany said today that hundreds of persons suffocated in air raid shelters during the heavy bombing of Hamburg, and that the city's entire shelter system would have to be revamped to provide emergency oxygen supplies.

Allies Break Black Market; Arabs Unhappy

By MAURICE DESJARDINS
Canadian Press War Correspondent

TUNIS, July 25.—(Delayed). — (CP).—Tunisian Arabs didn't particularly welcome the removal of the Axis from North Africa. Under the Axis regime Arabs in the city of Tunis made stacks of francs through their black market operations. Allied occupation put an end to all that and there is much Arabian unhappiness about the whole thing.

Rationing still continues in Tunis under Allied control, but it is lavish compared with rationing under the Axis. The black market hasn't disappeared altogether, but it has become several shades lighter.

Rations were so minute until May that the civilians of Tunis who had the means dealt with unscrupulous Arabs who demanded and got the eqivalent of $2.50 for a pound of sugar and $1.60 for a bar of soap.

Consequently, Arabs, who never had much use for sugar and soap themselves, strolled through the streets brandishing bank-rolls that would choke a camel.

Dislike Frenchmen.

There is in Tunis a strong Arab Nationalist Movement whose motto is: "All Frenchmen to the sea." The movement, called "Destour," is headed by Mohammed Bourguiba, an Arab lawyer married to a Frenchwoman.

During the six months of Axis regime, the "Destourians" annoyed the French by being nice to the Germans. Arabs gave the "Heil Hitler" salute to the marching German troops and made them gifts of oranges.

Furthermore, the "Destourians" who hitherto had never concealed their dislike for the Italians, welcome Mussolini's soldiers with open arms.

The "Destour" movement flourished under the blessing of Germans, Italians and the pro-German former Bey of Tunis. When the Allies took over hundreds of "Destourians" were placed under arrest. On July 14, General Mast freed 250 of them. General Mast is the present Resident of Tunis, and at one time was General Giraud's companion in Nazi prison camps.

Execute Missionaries

CHUNGKING, Aug. 13 (AP). — A Chinese press report to-day said that the Japanese have executed three Canadian missionaries at Hsuchow, in Kiangsu province, after several months of imprisonment and torture. The report gave no names or any clue to the identity of the alleged victims.

Father And Son Go Gunning For Hitler

A "gunning" father and son combination is in the making here as Sgt. E. C. Hopkins, LEFT, and his son, Douglas Lloyd, pledge a common desire at the Ottawa recruiting centre. The father, in the R.C.A.F. since 1940 as a clerk accountant, has remustered for training as an air gunner. He is is 38. Douglas, who has been working as a civilian aircraft mechanic at an Elementary Flying Training School, has enlisted as standard aircrew and hopes to be an air gunner like his dad. Their home is at 159 Prospect St. South, Hamilton, Ont.

(RCAF Photo)

Cobourg Gunner Talks To Queen

By DOUGLAS AMARON
Canadian Press Staff Writer.

SOMEWHERE IN ENGLAND, Aug. 12 — (CP Cable).— Canadian infantrymen and anti-aircraft gunners helped guard the country estate at which the King and Queen spent five days recently with the Princesses Elizabeth and Margaret Rose, it was disclosed yesterday.

It was not the first time Canadians have taken over the Royal guard for the Dominion's troops were previously posted at both Buckingham Palace and Windsor Castle.

During their stay the Canadians were quartered on the estate and many of them met Their Majesties personally.

On the Sunday before they returned to London, the King and Queen inspected the guard, the gunners and a company from the Central Ontario Irish Battalion. The Princesses accompanied Their Majesties as they walked through the ranks, talking with many of the troops.

Sgt. F. Pearse of Cobourg was one of the gunners to whom the Queen spoke. Her Majesty also chatted with L.-Sgt. Robert Davis, an Irishman who lived in Sudbury Ont., from 1936 until he came overseas.

Ships Reach Port

LONDON, Ont., Aug. 13 (CP).—Paris radio, in a broadcast recorded by the Associated Press, claimed today that two cruisers, two aircraft carriers, five destroyers and two torpedo boats have arrived at Gibraltar in a damaged condition.

No More Hot Water

OTTAWA, Aug. 13 (CP)—As a means of conserving coal, Munitions Minister Howe last night appealed to business building owners to cut off at once the supply of hot water to their tenants.

U-Boat Sinks 3 Ships In Norwegian Fiord

STOCKHOLM, Aug. 13.—(AP).— —The Swedish Norwegian Press Bureau reported from Oslo to-day that new information had disclosed that a British submarine, in a daring foray into Oslo Fjord was responsible for the Easter attack on five ships in Oslo Harbor.

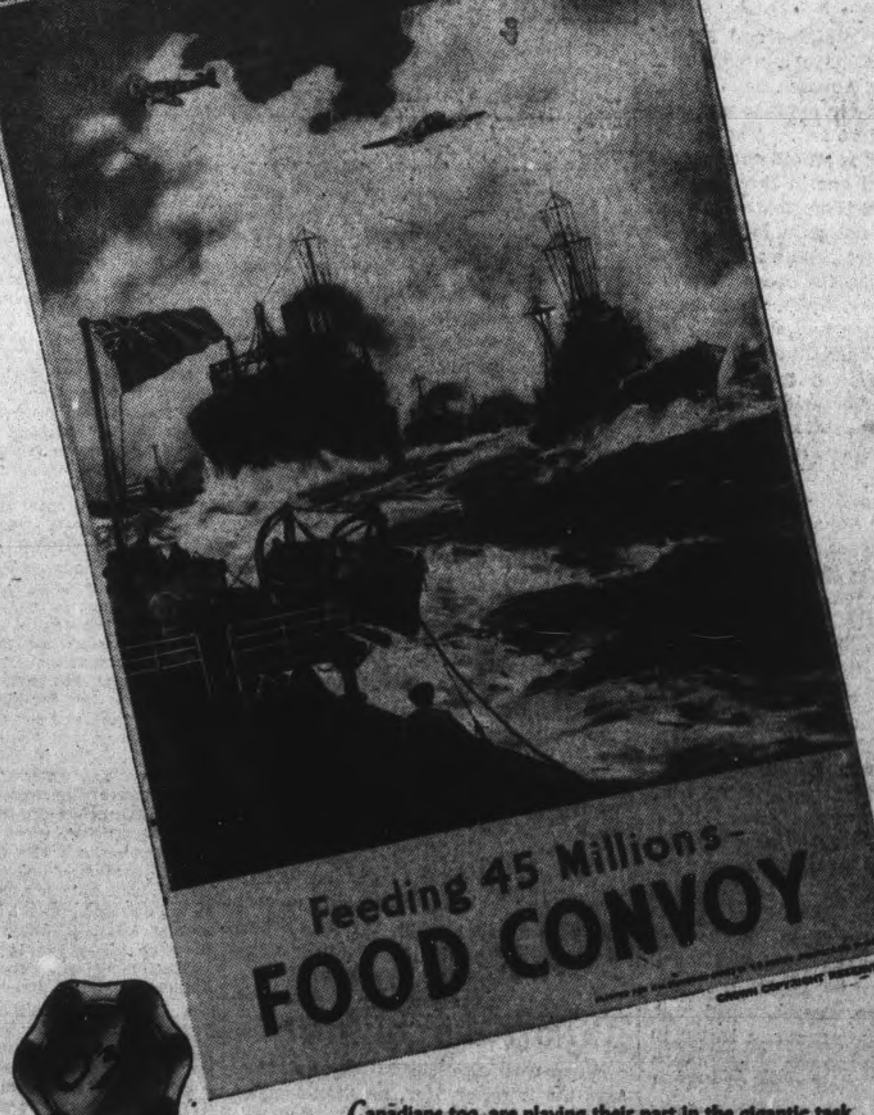
Three boats were sunk and two were damaged by torpedoes.

The Germans first believed that saboteurs were responsible and arrested about 12 men.

Higher Rates Remain

MONTREAL, Aug. 13 — (CP).—The order-in-council which suspended reduced railway fares for week-end and holiday travel has been extended to Feb. 15, 1944 it was announced to-day by T. C. Lockwood, Controller of Transport. The original order covered a trial period from last April 15 to Aug. 15.

O'Keefe's BREWING COMPANY LIMITED is proud to reproduce from the current series of British War Posters, this tribute to the men of the Merchant Navy who carry food and munitions to embattled Britain.



A limited number of full colour reprints, size 10" x 15", of this poster are available, free. These reprints carry no advertising and are suitable for framing. Write asking for Poster No. 1, to "Poster", O'Keefe House, Toronto.

Canadians too, are playing their part in the gigantic task which this British poster depicts. You take part when you accept the need for sacrifices—when you voluntarily cut down your own purchases. As you keep your own needs to a minimum so do you release food to feed Britain.

Let The Allies Agree

It is to be hoped that the matter of a closer agreement with Russia on matters vitally concerned with the war will be discussed by Mr. Churchill and Mr. Roosevelt when they meet for their impending conference. At present the western democracies and the Soviet Union have different ideas about three things: first, the matter of a second front; second, the post-war status of Poland and the Baltic states; and third, the post-war status of Germany. It would be well to agree upon a course of action before the western democracies and Russia drift too far apart.

• • •

The Russian paper *Pravda* has brought up the matter of the second front again, and it is clear that what Russia means by a second front—and all she means—is an attack on Europe from across the Channel. That would distract great bodies of Nazi troops from the Russian front, and would afford the Russians the greatest amount of relief. Our strategists know that it would cost heavily in lives, and the Russians know it too. But they have paid a very heavy price for holding the Germans since they entered the war, and they are impatient of any suggestion that their allies balk at a similar sacrifice.

• • •

Our strategists, on the other hand, want to play the game with more finesse. They have shown in North Africa and Sicily that they can beat the Germans with brains, and they hope to use their brains to get their forces to Germany with as few losses as they can manage. They now stand ready to disorganize and terrorize Italy, and probably to bring about its collapse without much bloodshed. Their actions hitherto have forced the Italians to withdraw troops from France, Russia and the Balkans, and the Germans have had to replace those troops, thus diverting large numbers of men from the Eastern front. The Russians may not like this sort of strategy, but they cannot say that it doesn't work.

• • •

As for the Baltic states and Poland, Russia seems to have a notion that Great Britain and America want to preserve their identity in order to use them as "buffers" against her. The idea of the "buffer state" is an old one and, we think, an outworn one in these days of air fighting. And if we feared Russian ideas we should not gain anything by preserving buffer states between Europe and Russia, for ideas travel as easily as germs and in much the same way. Russia, which has not had much diplomatic experience under its present regime, does not seem to believe that the western democracies can wish to protect the Baltic states and Poland merely because they said that they would do so. After all, the protection of Poland was our initial excuse for going to war. We must induce Russia to take a friendly attitude toward these states if we are to get rid of this cause of suspicion.

• • •

The matter of a policy toward Germany is perhaps the most vexing of these three points of disagreement. Russia has announced that she is not interested in destroying Germany, or even all military force in Germany, considering such action "inadvisable from the point of view of the future". She wants to "free" Germany from her present regime. Now Britain and America, on the contrary, want to give Germany such a beating that she will not want to go to war with them again, on any pretext; they also mean to see that her means of raising new armies and new war machines are utterly wiped out. They want to give Germany a thorough acquaintance with the sort of aggression which she has so often directed against others.

• • •

The quicker these matters are settled, the better for all the United Nations, for Germany's military position grows worse every week, and she will not be slow to seize an opportunity to drive a wedge into the unity of the Allies on a political matter. Such disunity would not save her from defeat, but it might make it possible for her to wangle an easier peace than if all the United Nations were moved by the same aims of war. The Russians are open to argument, and they are realistic. If our case is presented to them reasonably, we may hope for their close co-operation in the political field, as we have had it on the field of battle.

Queer Fish In Peterborough

This district has long been famous for its fishing, but few people know—indeed we did not know it ourself until Wednesday last—that there is a flourishing group of aquarians in this city and that they have most interesting collections of tropical and unusual fish. The exhibition at the Market Hall on Wednesday was an eye-opener for most of us.

An aquarian is a fish-fancier, and he keeps his prizes in a tank called an aquarium. An aquarium may be of palatial propertions, and the property of a municipality or a Zoological Society, or it may be a modest private affair. The humblest sort of aquarium is a gold-fish bowl. Some of the privately-owned aquariums in this city must be of a good size.

The hobby of keeping an aquarium is a fairly demanding one. There is more to it than sitting in an armchair watching the fish swim. The water in the tanks must be kept at the proper temperature, and for sea-fish it must be turned into sea-water by the addition of salt, potassium chloride, calcium chloride, magnesium chloride, magnesium sulphate and bicarbonate of soda in proper proportions; it is also a good idea to add a little sea-water if you can get it, for sea-water contains an undefined ingredient which fish need. Sunlight must be kept from reaching the aquarium in too great strength, for fish do not care for sun. And the fish must be kept from developing all those fungoid diseases which spoil their beauty and eventually kill them. An aquarian who has a fungoid infection in his aquarium is a worried man. Add to these tasks the jobs of changing and aerating the water, and feeding the fish what they like, and it will be seen that it is more trouble to keep one Amazonian angel fish than a St. Bernard dog.

We are glad that there are aquarians in Peterborough and we congratulate them on a fascinating and beautiful exhibition. Every man ought to have an interest apart from his work, and the more widely diversified these interests are the better it is for everyone. Collecting and studying rare fish is one of the most civilized and intelligent pursuits we have heard of in a long time, and we hope that it will flourish and grow here.

Today Is a Taboo Day

Today is Friday the 13th, and in spite of the fact that it is payday for a great many people it is popularly thought to be unlucky. In an attempt to find out why this is so, we consulted a work on superstition by Professor Herbert Jennings Rose, an eminent authority on anthropology, to see what he had to say about it.

The professor's idea is that Friday the 13th is a combination of two "taboo days", which we have inherited from very ancient times. The earliest savage cultures of which we have any knowledge distinguished certain days in the year as magical days, so fraught with spiritual powers and influences that they should not be desecrated by common pursuits. The best thing to do on such days is to lie low and pretend that you aren't there; then perhaps nothing bad will happen to you. Many people think that Friday is a bad day upon which to begin a journey or a new enterprize; many people think that the thirteenth of the month is an unlucky day. Therefore, when Friday the 13th comes around many of us modern savages expect trouble, and sometimes we get it.

The survival of ancient superstitions in modern life is always interesting. We reject them on a basis of reason, but something deep within us retains a respect for them. Reason is, after all, a comparatively weak attribute of the human mind, and we use it often to justify what we believe because prejudice, training or instinct bids us believe it. Although in some respects our civilization is as high as any which has ever appeared on this earth, the persistence of superstitions and taboo days is a reminder of our savage inheritance.

NOTE AND COMMENT

When Goering stews in his own juice, says the Windsor *Star*, he should make quite a sizzle.

Hitler is now reported to be a mere figurehead. Which means that the figure is a 0.

The first daily newspaper was printed in China in 713 A.D. And two days later Old Subscriber wrote to the editor complaining about the decline in the quality of his sheet.

National Unity – Its Implications

By ANTOINE d'ESCHAMBAULT
(In "Culture", Quebec)

THE problem of living together, for Canadians of both races, is humanly possible and even remains relatively simple as long as there arises no issue of national importance to which we re-act differently. It is then that we see how little we really have in common. Individually, because of our mutual human qualities, we get along well enough; collectively or nationally we fail to agree. The purpose of these few lines is to search why this should be so and to suggest a remedy to the situation.

We are the result of two different philosophies of life which have been handed down to us from the start and have been gradually strengthened by tradition and education. Let us examine the influence of both upon the issues mentioned above.

◇ ◇ ◇

OUR views on education are not as opposed as may appear on the surface. When we became divided on education it was mostly for other reason, political or otherwise. The French Canadian, far from being opposed to learning, has the reatest respect for knowledge and especially for culture. The Anglo-Canadian is not, in education, the utilitarian he is often described to be, nor does he believe today in what has been called "godless schools" although he finds himself often handicapped in supplying controversy actually is not so much on the religious instruction in his schools. I believe the relation between religion and education, their divorce or mutual compenetration, as on the role and purpose of education itself.

The Anglo-Canadian looks at education in relation to the social role of man, that is, in view of his future function in a society where he will soon meet competition and even rivalry. Education must consequently closely adapt itself to the needs of the hour and the guiding principles will be those commanded by the very conditions of life. There is little time for mental development and gradual assimilation with the crowded programmes of studies in our Anglo-Canadian schools. Educators know that most of it cannot be absorbed by immature minds but they have to follow suit, hoping at the best that the more intelligent students will find time, in later years, for real mental formation. There is a tendency in Anglo-Canadian educational circles to underestimate the human and really formative element in education. There is great earnestness in wishing to give every one, whether rich or poor, an equal chance.

◇ ◇ ◇

THE French Canadian on the other hand looks at education as an element of personal formation and general training and feels that specialized subjects should come later in life, when the mind is more mature. Hence his emphasis on culture and liberal arts. His answer to those who claim he is losing precious time is that he is building for life; non scholae, sed vitae discimus. The result is that the Anglo-Canadian student, although less developed mentally, is probably immediately ready to do more useful things although his competitor of French tongue will use his culture and training to advantage later on. From this one can conclude that the Anglo-Canadian educationist has a lot to learn from the French-Canadian system and the French Canadian would find advantage in trying to adapt his programme to changing conditions, and not blame the Anglo-Canadian if French-speaking graduates are not always prepared to tackle any job. I am of those who believe in the superiority of "classical" studies, but I can see the difficulty of the situation and think educationists of both sides could at least try to understand the mutual views of each. So much for education and educational policies.

The subject upon which Canadians in general are actually most divided is patriotism and national ideologies. Here a distinction is in order. There are Engish-speaking Canadians, usually of more recent origin, who envisage Canada solely in relation to the British Empire, and who frown upon anything that might, from far or near, assert Canada's political independence. Although numerically few, these ultra-loyalists exercise a great influence through many agencies such as Empire Leagues and Educational or Immigration societies. They are failing in their main objective, which is to create a servile devotion to the Empire, but they are at least successful in retarding the natural growth of Canada and stripping our national soul of what might make it really Canadian. Beside these flag-wavers stands the average Anglo-Canadian who cares little for the Road to Mandalay but whose patriotism is rather hesitant, if not incoherent. He is afraid he may be accused of lack of loyalty to King, flag, and Empire, if he becomes too much of a Canadian. The result is that his patriotism seems to lack vigour and the best proof is the growing feeling among Anglo-Canadians of the inevitability, and advantages, of annexation to the United States.

◇ ◇ ◇

THERE is little doubt that French Canadians in general would rather see Canada remain free from international entanglements, even within the Commonwealth. Rightly or wrongly, the French Canadian is apprehensive lest Canada be used for purposes that will, in the long run, work against all concerned and especially against himself. If it is true, as Disraeli has said, that nations are governed by sentiment, one can easily understand his attitude. Left to fend for himself, he has to think of his survival, and can only count on his own resourcefulness and vitality. He does not feel he should sacrifice his future security to some problematic new world in which his own place will be indeed very small. No wonder he resists imperialistic tendencies. He resents the fact that Anglo-Canadians are not in sympathy with his views and attitude. He fails to appreciate the delicate position of Anglo-Canadians in that respect. Inclined to be an individualist by nature, he is furthermore afraid of the corrosive influence of American civilization and way of life. Thus he is, by the force of things, led to isolate himself within the precincts of his own culture and way of life.

It should not be difficult for Canadians of both races to come to some understanding on principles of sociology and their application to the needs of the country. It is possible and likely that among French Canadians the trend may be along domestic and family lines while it may take a more strictly social turn among Anglo-Canadians, but when applied to various communities and influenced by special conditions these differences will probably be lessened. Provided the principles are sound, and their application left to local initiative, there should be no great opposition.

◇ ◇ ◇

MY CONCLUSION is rather simple. We must by all means learn to understand each other better. The French Canadian has no right to isolate himself in this country of his forefathers. His principles are sane and the country needs his contribution. He should be heard oftener in national conventions, in congresses and meetings, and spend more time sitting on committees where so often general policies affecting the country at large are formulated. He will find, to his great surprise, how welcome he will be and how courteous the English-Canadian intelligentsia can be. He can do much in moulding a truly Canadian public opinion. Let him be patient, kindly and perseverant. And let the Anglo-Canadian be generous enough to admit, for all practical purposes, the bi-racial character of this country and half of our problems will be solved. Let him learn to think of this country first and above all. Unless these principles are lived up to, we shall never have a nation, our differences will be aggravated to the point where life in common will become exceedingly difficult, and we shall transmit to our descendants a country uncertain of its aims, doubtful of its future, split by so many cleavages that unity of purpose will be impossible. It may mean the slow death of national feeling and the disappearance of Canada.

THE UNSEEN AUDIENCE

Advertisements Calling Names

OUR contemporary has expressed a distaste for the "piker" advertising now employed by the R.C.A.F., and we most heartily agree. A girl in civilian clothes is shown watching a parade of Women's Division, R.C.A.F., marching by and she says: "I had better quit being a piker."

This is all very well and it may even be effective advertising. But the Government's handling of our manpower and womanpower has been so faulty, so fitful, so thoroughly uncourageous that it ill becomes any Government department to try to pass the word "piker" on to all girls who have not yet enlisted in the Armed Forces.

Many a girl tried to enlist in the Armed Forces months and years ago and was turned down because there was no room for her. And many of these have since taken jobs in industry, in business, on farms, in hospitals. Many more have inherited the task of running private homes where aged folk have no servants or where families of workers have no one to prepare meals. In Ottawa the Civil Service alone has employed tens of thousands of girls in work that the R.C.A.F. can hardly call unessential and can certainly not classify as a hideout for "pikers."

We have no quarrel with the R.C.A.F. for trying to get recruits for its very valuable Women's Division. Indeed it is all too apparent that the R.C.A.F. is badly in need of recruits at this time. But there are ways open to the R.C.A.F. that are infinitely more capable of supplying the need than resorting to name-calling.—Ottawa Journal

To Call Him Poor Is A Libel

(MONTREAL GAZETTE)

ALEXANDER POPE, in his famous "Essay On Man", had this to say of the Red Man:

Lo, the poor Indian! whose untutored mind
Sees God in clouds, or hears him in the wind;
His soul proud science never taught to stray
Far as the solar walk or milky way;
Yet simple nature to this hope has giv'n,
Behind the cloud-topped hill, an humbler heav'n.

Many years after those lines were penned, the Canadian chiefs, Poundmaker and Crowfoot, were flourishing, and they would have given the laugh to the thought that the Indian's was an untutored mind. The Caughnawaga Indians hard by Montreal, who know their religion and who can build bridges and skyscrapers with any man—perhaps better—would pity anyone who asserted that they are unlettered. As a matter of fact, the Canadian Indians understand politics and can practice them in their councils; they also know their rights and privileges.

A few days ago Roxy Hamilton, member for Rupert's Land in the Manitoba Legislature, said that the Indians of the Far North were in a sorry state, that for one thing the hospital services extended to these "first Canadians" were inadequate—wretched, in fact. Now comes to the rescue Hon. T. A. Crerar, Minister of Mines and Natural Resources in the Dominion—who knows as much about Indians as any authority—with the declaration that conditions are not as bad as Mr. Hamilton indicates. True, doctors and nurses may be lacking in Indian territory, but the same lack prevails in the settlements of the whites. C'est la guerre. As for tuberculosis, Canada this year is spending $400,000 for the protection of the Indians against this malady. That is not neglect.

There are about 130,000 Indians in Canada, and they are minors under the law whose affairs are administered by the Indian Affairs Branch of the Department of Mines and Resources, under the authority of the Indian Act. Reserves are set aside for them and the bands thereon are under the supervision of local agents. The branch is a guardian which controls education, cares for health, and advises as to agriculture and other pursuits. Any Indian may become enfranchised, but when he does he ceases to be an Indian under the law; he is just another Canadian. The Dominion's record of treatment has been good, and the Government is always willing to listen to complaints and act upon them when necessary. The Red Man never lacks champions, witness Roxy Hamilton's statement, and Hon. Mr. Crerar's answer.

Quebec Spotlight

(By J. F. SANDERSON, Canadian Press Staff Writer)

QUEBEC, Aug. 13.—(CP).—Walking down St. Jean street, with ears open:

Rumor Department—For days, Quebec has known all about this conference. For instance: The Pope is coming with a peace offer from the Badoglio Government in Italy.... A barber down the street definitely and positively shaved Joseph Stalin.... "Maybe Stalin isn't coming, but know for sure that Molotov will be here".... And, of course, Chiang Kai-Shek will make it four.... The King and Queen, the Princesses and the whole Government of Britain, together with all members of the House of Commons and House of Lords, are moving to Quebec which will become the headquarters of the British Commonwealth.... The Allies are going to hold their first public trial of a war criminal: Mussolini.

Yes, all this in Quebec—the rumor-mongers had it.

A Contrast—The last big day in Quebec's long and storied history was the arrival here of the King and Queen in 1939 to start their tour of Canada and the United States. When they arrived, a newsroom functioned on the dock, cameras clicked and lights flashed—every moment was a story.

When Prime Minister Churchill arrived in Quebec last Tuesday, not a newspaperman was present, there were no pictures, no radio descriptions—all in the name of security. A Laconic communique told the world—but you couldn't prove it among the 150 newspapermen assembled in Quebec who had been kept at a distance.

The Press Room—Walking through the lobby of the Clarendon Hotel, among newspapermen from many parts of the world, drawn to Quebec by the conference:

There's Frank Noel, Associated Press photographer, telling of being torpedoed by a Japanese submarine in the South Pacific and six thirst-tortured days in a lifeboat.

And there's the American newspaperman who is trying to figure out how he can hire one of Quebec's famous caleches, take a ride around the city—and get away with it on his expense account.

Hard To Believe How Time Flies

AUGUST 13

1913 City Council passes a bylaw providing for the erection of an incinerator on Townsend street.

Rupert H. Bradburn, home on a visit from Los Angeles, says that the Japs in California are violating the Alien Property Act.

Jack Patte, while fishing in Chemong Lake, hooks and successfully lands a 20-pound maskinonge.

An epidemic of typhoid has broken out in the vicinity of Bethany and some serious cases are reported.

Four-year-old J. A. Bayes falls off street railway wharf into the Otonabee River and is drowned.

1923 A number of bad forest fires are still raging in the northern part of the county.

Hundreds of visitors attend the celebration at the Exhibition Grounds staged by the Royal Black Knights.

Campbellford Council has voted the additional money necessary to complete the erection of a new High School.

Peterborough ball club wins and plays a draw in a double-header with the Oslers of Toronto. Punch Derry of Cobourg pitches one of the games for the Petes.

1933 No trace has so far been found of James Freeburn, who has been missing for several days after hiring a canoe at Kawartha Park.

R. R. Hall says that the Trent Canal uncompleted is like a warehouse building without a roof.

A diving platform erected at the foot of Dublin street by Ald. F. J. Tuggey is opened.

Rev. W. E. Hopkins discussed Mahatma Gandhi and his program in an address to the Rotary Club.

With Lefty Sturgeon pitching, Sugar Bowl team defeats Harrison's 13 to 7 in the first game of the City Softball League final series.

IN WAR TIME

1918 This has been one of the hottest days Peterborough has experienced in 25 years with the thermometer climbing to 98.

Late today a violent storm did considerable damage to the oat crops throughout the district.

Employees of the C.G.E. have asked the Arbitration Board that they be graded accurately according to the work done.

William Buller, former mayor, has been elected chairman of the Board of Health.

Mrs. Jacob Isbister, a former resident of Peterborough, is dead at Winnipeg.

A Bible Message

(From the Authorized Version)

AND Jacob was left alone; and there wrestled a man with him until the breaking of the day. And when he saw that he prevailed not against him, he touched the hollow of his thigh; and the hollow of Jacob's thigh was out of joint, as he wrestled with him.

And he said, Let me go, for the day breaketh. And he said, I will not let thee go, except thou bless me.

And he said unto him, What is thy name? And he said, Jacob. And he said, Thy name shall be called no more Jacob, but Israel: for as a prince hast thou power with God and with men, and hast prevailed.

And Jacob asked him, and said, Tell me, I pray thee, thy name. And he said, Wherefore is it that thou dost ask after my name? And he blessed him there.

And Jacob called the name of the place Peniel: for I have seen God face to face, and my life is preserved. (Gen. 32: 24-30.)

Letter To The Editor

PRICE CONTROL IN NEWFOUNDLAND.

Editor, Examiner.

Sir,—I would like to correct a short note appearing in your August 11th issue which states that there is no price control in Newfoundland.

I think that you will find that a price control has been set up on many articles. The reasons for high prices in Newfoundland are high freight rates and demurrage charges as well as the inflationary tendency caused by unparalleled high wages. For instance, anthracite varies in price from 19 to 27 dollars a ton, depending on demurrage, but the dealer is not allowed an excessive profit. These facts I know to be true. I am from Newfoundland and receive weekly papers from there. Even in peace-times prices in Newfoundland are higher than here in Canada; insularity has its drawbacks at all times; 80 cents a dozen for eggs is not uncommon. However, Income Tax in Newfoundland makes up for high prices to a great extent—just compare the tax rates and see! However, there is no doubt that we here in Canada are better off; I would be the last to deny it.—Yours truly,

BALFOUR DUDER.

Unconsidered Trifles

Private—"Here! Hold my gun a minute, will you?"

Officer—"Hey! I'm a lieutenant."

Private—"That's okay. I'll trust you."

◇ ◇ ◇

"Jones pictures the delights of country life so vividly."

"Yes?"

"That I am constrained to conclude he wants to sell his place."

◇ ◇ ◇

Seeing her former suitor at a party, a girl decided to snub him.

"So sorry," she murmured when the hostess introduced him, "but I didn't get your name."

"I know you didn't," said the unabashed former suitor, "but you certainly tried hard enough."

◇ ◇ ◇

"In whose reign do we first hear of railways, Mary?" asked the teacher.

"In Solomon's," promptly replied the child.

She was asked to think again, but persisted in her original statement and the teacher then inquired why she thought so.

"Because," said Mary, "we are told in the Bible that the Queen of Sheba went to Jerusalem with a very great train."

Date Transformation

New York Dress Institute

The skirt of this dancing frock is white marquisette over a white slip. The fitted bodice with softness above the midriff is black taffeta, as are the flower appliques on the skirt.

By PRUNELLA WOOD

THIS flattering dancing frock (summery) at the moment, but with its taffeta top a good winter model, too) is the essence of what the 'teen-agers like best for date transformations.

The off-shoulder neckline, the long, swirling skirt, the worldly (so they hope) black treatments, add up to a stagline success.

When a girl is old enough to go out to evening parties, she has the natural sense to retire crisp tailoring for the day, and go as feminine as possible. That's the formula for this frock.

DINNERS OF THE WEEK

By MARY MOORE

SUNDAY

Rolled Tendersweet Ham
Cauliflower au Gratin
Shredded Green Beans
Blackberries and Cream
Sponge Cup Cakes Coffee

MONDAY

Sliced Cold Ham Sweet Pickles
New Potatoes in Jackets in Parsley Cream Sauce
Vegetable Marrow Rings
Applesauce Pudding (see note)
Tea

NOTE: Since apples are here and nearly every household should have a big bowl of applesauce in the ice-box all the time you can dip into it for this good Applesauce Pudding: Place 3 cups sweetened applesauce in bowl and beat into it 3 egg yolks, 1 teaspoon grated lemon rind, ½ teaspon vanilla, 2 teaspoons lemon juice. Pour these into baking dish. Make a meringue by beating the 3 egg whites and adding 6 tablespoons sugar, ⅛ teaspoon salt, and ½ teaspoon vanilla. Heap it upon the pudding mixture. Stand the dish in a pan of hot water and bake at 300 deg. Fahr. for 15 minutes. Serve very hot or very cold with cream.

TUESDAY (Meatless)

Noodles with Creamed Eggs
Broccoli
Peach Cobbler Cocoa

WEDNESDAY

Beef and Kidney Pie
Tossed Green Salad: Head Lettuce, Cucumber, Parsley
Hot Water Mayonnaise
Ice Cream Oatmeal Cookies
Coffee

THURSDAY

Breaded Veal Slices
Shredded Beets Cooked in Double Boiler
Baked Potatoes
Sliced Tomatoes and Lettuce
Lemon Chiffon Pie Tea

FRIDAY

Baked Stuffed Fish (see note)
Broiled Halved Tomatoes
Baked Summer Squash
Quick White Cake
Iced or Hot Cocoa

NOTE: For a cleaned and washed and dried 3-pound fish you will need the following amount of dressing: 1½ cups soft bread crumbs, 2 tablespoons of chopped onion, 1½ cups of chopped parsley, 2 tablespoons of chopped parsley, 1 beaten egg, ½ teaspoon of salt, ⅛ teaspoon of paprika, and enough milk to make a loose dressing. Fill the fish, sew the side together with coarse needle and thread. Bake fish in pan on parchment paper (to facilitate lifting) at 350 deg. Fahr. for 45 minutes (15 minutes to pound). Garnish with lemon wedges dipped in chopped parsley.

SATURDAY

Sliced Head Cheese
Casserole of Shredded Yellow and Green Beans in Cheese Sauce
Corn on the Cob
Straind Applesauce (see note)
Store Cookies Coffee

NOTE: The new apples are too tedious to peel so wash them very well, cut in quarters, removing any worm holes or bruises, nearly cover with water, bring to boil covered and when tender, strain through colander. To 3 quarts apples (when fresh), add 4 saccharin tablets and 1-3 cup sugar or 1 cup sugar. Add the saccharin and sugar after applesauce is strained.

THE STARS SAY . . . .

By GENEVIEVE KEMBLE

For Saturday, August 14

SUDDEN, stirring and breath-taking events are forecast from the prevailing mutual and lunar aspects of this day. It is one of those times in which to "expect the unexpected" and grasp whatever great fortune or unpredictabe turn of the affairs, may present itsef. All phases of life may be involved, but with the emphasis on the romantic, adventurous and extraordinary or revolutionary. Intuitions or "hunches" may play a major role in this whirlwind state of affairs. But don't be carried off our feet into vital errors or regrets. Keep poised and wary.

◆ ◆ ◆

If It Is Your Birthday.

Those whose birthday it is may look for a year of the unusual, unprecedented and unpredictable, descending with lightning force and precipitancy on all the phases of life, personal as well as business. It is an uprooting force, radical and far reaching, but of unforeseen benefits, favors and adventures. Elopements or startling matrimonial experiences may occur under this vibration. There are likewise mystical, spiritual, artistic and creative expressions, under inspirational urges, with the intuitions and strange leads dependable. But meantime don't be carried away to the extent of being duped or misled. Keep feet on the earth though the head and heart are in the clouds, and benign fortunes should ensue. Push new plans.

A child born on this day may have many unusual talents and graces, with personal charm and allure, as well as spiritual, intellectual and creative abiities possibly of unique character.

Bale To Be Shown

A special meeting of the Ladies' Auxiliary to the Canadian Legion was held Tuesday evening to make plans for the showing of an overseas bale which is to be held Wednesday, September 8, at the home of Mrs. Cooke, Westcott street. Plans were also discussed for the delegates who are to attend the convention of the provincial command, to be held in London, Ontario, in October.

◆ ◆ ◆

Mulligan—Revoir

HAVELOCK, Aug. 13.—(ENS).—Knox Presbyterian Church was the scene of a pretty summer wedding on Thursday evening at seven o'clock when Ena Mae Flora, eldest daughter of Cpl. and Mrs. H. G. Revoir, was united in marriage to Gerald Eugene, son of Mr. and Mrs. Gervin Mulligan, of Bethany, by Rev. W. E. Smyth, of Warkworth.

The church was beautifully decorated with baskets of cut flowers and ferns, and the Wedding March was played by Mr. Keith Morden, Reaboro. During the signing of the register Mrs. C. E. Snider, of Toronto, sang "O Perfect Love."

The bride was given in marriage by her father and she wore a gown of old ivory net and lace over taffeta, made on princess lines, with a short train. Her veil of embroidered silk tulle was in cornet shape, caught with orange blossoms, and she carried an arm bouquet of Briarcliffe roses.

Miss Isobel Rutherford, Colborne, was maid-of-honor, frocked in a floor-length, heavenly blue shadow sheer with long full sleeves and trimmed with pearl chips. Her head dress was of embroidered blue tulle and she carried a sheaf of pink gladioli.

Miss Jean McArthur, Campbellford, cousin of the bride, was bridesmaid and wore a floor-length primrose sheer, trimmed with gold sequins and matching shoulder-length tulle veil, and she carried a bouquet of mauve gladioli. The bride's sister, Miss Helen Revoir, was junior bridesmaid in a floor-length, shell pink sheer gown with shoulder-length tulle veil and an arm bouquet of white gladioli. The best man was Mr. Ralph Mulligan, Bethany, brother of the groom, and the ushers were Cecil Revoir and Verne Mulligan, brothers of the bride and groom respectively.

After the ceremony a reception was held at the "Woodlawn" in Campbellford for about 40 guests. The bride's mother received, wearing a gown of dove rose shadow sheer, with a hat of white lace straw and a corsage of Bettertime roses. The groom's mother also received and wore a gown of Rosemaria rose with black accessories and a corsage of Talisman roses.

Later the bride and groom left for a honeymoon trip through the Muskoka Lake district. For travelling the bride wore a gold silk jersey dress with matching accessories and a cream flannel coat. Upon their return they will live at Bellwood where the groom is school principal.

Needlecraft Pattern

GAY PANSY DOILIES.

Add sparkling color and beauty to your luncheon table with this doily set in smart oval shape. Pansies form a "charmed circle" for both the centrepiece and individual doilies; the edges are buttonhole-stitched. Use natural colors. Pattern 600 contains a transfer pattern of an 11 x 17 inch motif and two motifs 5½ x 8¾ inches.

Price Control Ration News

The Women's Regional Advisory Committee, Consumer Branch, Central Ontario, Wartime Prices and Trade Board, answers questions put to this paper regarding price control and ration regulations.

◆ ◆ ◆

Q.—Do I have to fill in the card at the back of my ration book before I get ration book No. 3?

A.—Yes. By surrendering this application card (properly filled out and attached to your old ration book) to the ration distribution officer in your district, a new book will be issued to you. The new ration books will NOT be mailed. They must be called for at the distributing centres. When filling out the application card at home, make sure that your serial number, including letters and figures shown on the front cover of your ration book is clearly written on the card as well as other particulars. This serial number is your ration book identification for the duration. Your old ration bok will be handed back to you intact by the distribution officer just as soon as the serial number has been checked; remember it still contains coupons that are good.

Q.—Isn't there a ceiling price on eggs?

A.—Yes, definitely. Housewives should not pay more than the following maximum retail prices established for communities in Central Ontario, for grade A large eggs in cartons: Toronto, 58c; Barrie, 57½c; Bracebridge, 59c; Hamilton, 58c; Lindsay, 57½c; Niagara Falls, 58c; Orillia, 57½c; Oshawa, 57½c; Parry Sound, 59c; Peterborough, 57½c; St. Catharines, 58c; Welland, 57½c. Maximum retail prices for grade A medium eggs are set at two cents a dozen less than grade A large; while grade A pullet eggs are five cents a dozen less than grade A large. Slight differences in prices may occur at certain points because of added transportation costs.

Q.—Will it be possible for me to get tea coupons for my little girl who will be 12 years old in November? As there won't be any more books until April, I wondered if it would be all right for the local ration board to tear out the coupons from August to November. I find it very hard to get along on one ounce a week as there are only the two of us.

A.—As your daughter will not be 12 years of ag hen ration book No. 3 is issued, all tea coupon sheets will have to be removed from her ration book.

DOROTHY DIX

WOMAN WHO DOESN'T PRETEND FOUND BEYOND ALL CRITICISM

Writer's Advice to Homely Ones to Change Type Ignores Men's Desires for "onest Wives

A NOTED writer on that always absorbingly interesting topic to women about how to be beautiful though homely advises them to change their types. Alter their personalties. Cultivate a fresh line. Put on a new act. Dress differently. Comb their hair another way. In short, make themselves over after a different pattern.

To many women this is superfluous advice so far their outer selves is concerned. They have spent the best years of their lives and untold strength and energy and money in trying to circumvent Nature and make themselves something they were never intended to be. Also, they have demonstrated that while the leopard may not be able to change his spots, it is no trick at all for a woman to camouflage hers.

Daughters Strangers to Mothers

All of us have seen our fat friends turn into emaciated string-beans. We have seen their hair go every color of the spectrum, from platinum to scarlet. We have seen pale, anemic girls' cheeks suddenly bloom with roses, and husky, healthy girls turn as pallid as a sheeted corpse, until we have reflected that it is a wise mother who knows her own daughter at sight these days.

Also, it is just as common for women who all seem to have sheep blood in them, to follow any leader in their way of thinking and talking as it is for them to take a reef in their skirts if they are wearing them short or to let down their hems if street-sweepers are the fashion. Our grandmothers swooned at the sight of a mouse. Like as not granddaughter is a lion-tamer. One season all the girls are angels, the next they are toughs. Two or three years ago girls boasted that they could drink men under the table. Now, thank Heaven, they are going in strong for tomato juice.

And so it goes, and the ability of women to take on a new incarnation even in this is conceded but my contention is that it is a mistake for them to change their types, as this eminent authority suggests, because their new personalities never fit them. They bag and sag in vital places, or pull at the seams, as borrowed clothes do, and are sure to give way at critical moments.

Naturally Quiet Girl Can't Be Funny

A quiet mouse of a girl, for instance, realizes that she doesn't make any splash in society and that some other girl, who has quicksilver in her veins and wit on her lips and who says and does outrageous things, is always the life of the party. "Ha," say the mouse to herself, "vivacity is the thing! I'll be giddy." But when she tries it her antics fall flat. She isn't a cute younster, bubbling over with funny stories. They just seem vulgar.

Same way with the big girl who tries to imitate the baby-child type. She is something to make strong men weep when she rolls her eyes and looks through her curls and asks fool questions, and when she curls up on a sofa or sits on her feet she doesn't look like a kitten you want to pet. She resembles nothing so much as a performing elephant.

Hence, my advice to my sister-women is not to attempt to change their types, but to be themselves. Find out what are their strong points and reinforce them, but not to try to make themselves something they are not and can never be.

Should Not Step Out of Character

Don't pose as a highbrow if you are a lowbrow. Don't pretend to be rich if you are poor. Don't brag about your dates if you are a wallflower. Under Heaven there is no woman so ridiculous as the one who carries about wherever she goes some abstruse book, yet who doesn't even read the daily papers. None who so fills us with pity and contempt as the one who takes paying guests for company, and only works in a store because she is so tired of society. None so forlorn as the girl who tells about the millionaires she refused to marry, yet never has a date.

Be yourself. There is no charm in the world more compelling than sincerity. The woman who is just herself, from her clean gray hair down to her comfortable shoes; who doesn't pretend to be younger than she is, or richer than she is, or more intelligent than she is, is beyond all criticism.

So is the girl. Many a girl in trying to imitate the kind of a girl she thinks attracts men, loses the man she might have had, for men loathe pretense and are afraid of it. What they are looking for in a wife is an honest girl who is what she is and will stay that way so they will know what they are getting when they marry her.

You Women Who Suffer From

HOT FLASHES then CHILLY FEELINGS

If *you*—like so many women between the ages of 38 and 52—suffer from hot flashes, weak, dizzy, nervous feelings, distress of "irregularities", are blue and depressed — start taking Lydia E. Pinkham's Vegetable Compound *at once*. It's one of the most effective medicines you can buy that's made *especially for women*.

Pinkham's Compound does more than relieve distress. Taken regularly —it helps build up resistance against such symptoms. It also is a fine tonic for the stomach!

Thousands upon thousands of women—rich and poor alike—have reported benefits. Time and again Lydia Pinkham's Compound has proved some women's happiest days can be during their "40's". Helpful for younger girls, too! Made in Canada. *Worth trying!*

CUT OFF FROM LOVE

but he doesn't know why

● The girl of his dreams—is lost to him!

Love cannot blossom where "B.O." spreads its blight.

Yet *anyone* can be guilty of "B.O." without knowing it. Why take chances? Bathe with *Lifebuoy*—the one popular soap especially made to stop "B.O."

You'll love Lifebuoy's rich, velvety suds. They're mild and gentle, yet extra cleansing. That clean invigorating scent tells you you need not fear "B.O." Though Lifebuoy's scent disappears before you're dressed, its protection *remains!*

FROM HEAD TO TOE IT STOPS "B.O."

PARSONS HURLS 2-HIT BALL AS SOLDIERS TROUNCE 4th BATTERY

Hurler Deserved Shut-out Game

Behind two-hit pitching by Tom Parsons, the Soldiers moved out in front in the City League semi-final series with 4th Battery Thursday night by defeating the Gunners 6 to 2.

Parsons did not allow a hit until the seventh inning when Joe Stewart doubled and the only other blow off his service was a double by Nels Foster in the final frame. In both cases the hit was followed by an error that allowed in a run, so that the former Omemee and Plaza pitcher should have had a shut-out on his brilliant performance, one of the best of the season.

The Battery were minus Eddie Starr, Art Heal and Ned Vitarelli, who were absent on holidays, and Manager Dormer had to use a revamped lineup with Honey Tompkins pressed into service as a catcher. The winners were without second baseman Sandy Sandulak and his place was taken by Ossie Anderson, whose hitting incidentally played a big part in the Soldier victory.

Les Burton, moved in from left field to play third base for the gunners, handled a lot chances smartly around the difficult corner.

Once again, however, it was Joe Stewart who contributed the feature fielding play. He came tearing in in the ninth inning to make a shoestring catch of Mason's line drive to short centre field and doubled Tom Parsons off third.

Offensively it was the tail-end of the Soldier batting order that gave Bob Crowe, youthful pitcher for the Battery, the most trouble, and it was Herrick, Anderson and Mortimer, the last three players in the Camp list, who scored all six runs credited to the winners.

Soldiers filled the bases with three walks in the first inning but Crowe got out of the hole by fanning Mason with the cushions all populated.

However the winners broke loose in the second. Herrick opened with a single over third and Anderson singled to centre, sending Herrick to third and taking second on Stewart's wide throw to the keystone station. Doug. Mortimer rapped a

SPORTS — DAY BY DAY

By FRED D. CRAIG

Manager Ted Johnston of Genelecs is expected to start either Ronnie Akers or Terry Woods against Switchgear tonight in an effort to open out a commanding lead in the City League playoff semi-final series between the first placers and the fourth-slot holders. Genelecs took the first game 8 to 2 and a second win would give them a firm grip on the round. Nobody realizes that fact more than Manager Murph Chambers' Switchgear performers, who know that they have to win tonight or find themselves behind the 8-ball. They declare that when the returns are all in they will be found to have squared the series with a win in this important battle. Switchgear contend that their attack is likely to be more powerful than it was Wednesday night when fourteen runners died on the bases for lack of timely hitting. Manager Chambers has not announced his pitcher for this tussle. The game will get under way sharp at 6.45 o'clock, and it is important that officials and players should be on hand sharp on time.

* * * * * *

Battery and the Soldiers will meet tomorrow (Saturday) evening for the third time this week, and the clash should be about the most exciting of the series. The two clubs played a tie game on Thursday night, but Thursday the Soldiers caught the Gunners with a weakened team and handed them a trimming for the first time this season. Now the Battery are faced with the necessity of grabbing off the Saturday game to even up the series and get back into the running. For this important game they will have all their regulars back except Ned Vitarelli, who is holidaying, and they hope to square accounts with the boys from the Military Training Centre. Either Johnny Walker or Jack Wilson will do the gunning for the Soldiers, while Manager Dormer of the Battery is expected to shoot Dave Wilson in as this is a contest the Artillery squad have to win unless they want to find themselves in the position of being two down and faced with the task of taking three in a row to qualify for the finals. The game is called for 6.45 o'clock and should rate a big Saturday crowd. The battles between Battery and the Soldiers have been among the best of the season, and this clash should be no exception.

* * * * * *

McCready Tickled

The opportunity for another crack at John Katan with the time limit extended to ninety minutes is welcomed by Earl McCready. The Aurora grappler was not any too well pleased with Monday's bout here. He believes that Katan got away with a strangle hold instead of a legitimate chin lock to take the second fall and even up the match, and then the time limit of one hour robbed him of a chance to go on and win the battle. When the two meet here Monday night in a resumption of their warfare McCready declares that he will be able to prove to the satisfaction of everybody that he is a better mat artist than the powerful Katan. The Panther on the other hand says there was no need of prolonging the match, and that he expects to take two falls from McCready inside the hour limit anyway. Katan points out that he had the edge on the Aurora farmer over most of the route in Monday's bout, and adds that if he had not got a bit careless and left himself open to one of Earl's famous flying scissors holds he would have taken the decision. The Panther is counting upon his head holds and chin locks to turn the trick for him. He argues that these tactics had McCready badly worried, and adds that he will give him plenty of that kind of stuff. It should be a wow of an argument, and the manner in which the return match is being discussed by the fans indicates one of the largest crowds since the grunt-and-groan game was revived here.

* * * * * *

Peterborough softball fans will be interested in learning that the Preston Rivulettes, who eliminated the local Westclockers from the provincial playdowns last season after an exciting series, have no league this summer and have been playing a program of exhibition games to keep in shape for the Ontario series. Incidentally the Rivulettes have not been beaten. The Galt Reporter thus tells of their latest triumph: "Preston Rivulette ladies' softballers kept their win record intact here last night when, in an exhibition game with the smart Guelph Coronette performers, they chalked up a 10-3 win. The Rivulettes, who will shortly move into competition play for the provincial softball title, have been playing exhibition games this summer to round into trim for the important coming series. While only outhitting Guelph by three blows the Rivulettes spaced two home run clouts, one by Hilda Ranscombe and another by Ruth Dargel in their assortment, while they capitalized on scoring chances. Hastings, Guelph pitcher, who has proven a problem to the locals in past seasons, struck out six local batters, but was found for 15 safeties, including the two home run blows and doubles by Mary Esch and A. Petrinka. Petrinka and Ernst shared the mond work for Preston, Petrinka pitching the opening five innings and Ernst the remaining four. Both local pitchers showed to fine advantage, being at their best with runners on the sacks."

* * * * * *

Another For Cooper

In the big show yesterday Mort Cooper, ace pitcher of the St. Louis Cards moved a game closer to the coveted 20 wins mark when he came up with a three-hitter against the New York Giants and won the argument 4 to 1, his 16th triumph of the year. He would have had a shutout if Manager Mel Ott had not pickled one of his Sunday pitches for his 18th homer of the season. And speaking of homers, Mister Rudy York of the Detroit Tigers is really turning on the heat in the matter of four-masters. For most of the season it has been looking as if 25 home-runs would take the honors for the year, but York has suddenly opened up a campaign that threatens to sweep well beyond that mark. All he did yesterday was to come through with his 20th and 21st circuit clouts of the year, the first with one on and the second with the bases loaded. Altogether York drove in six runs against the Washington Senators and Detroit had no trouble annexing the decision 10 to 3. It was a win for White and the losing pitcher was Wynn. Rookie O'Neill came up with his second win when Boston defeated Chicago White Sox 10 to 6.

* * * * * *

Brooklyn Dodgers have managed to win two games in a row. Yesterday Kirbe Higbe came up with one of his best efforts of the whole campaign. It was his first shutout of the season, and in blanking the Cincinnati Reds 3 to 0 and outpitching Johnny VanderMeer, he retired eight of the Reds by the strikeout route. And those fantastic Phils reeled off their seventh straight victory, defeating the Pirates for the third time in a row. The final count was 4 to 3. It was the 12th game the Phillies have won out of 16 starts since stout Freddy Fitzsimmons took over the controls. The Pirates, of course, did not like it at all and four of them, including Manager Frankie Frisch, were banished for battling with the umpires....In the American loop Bobo Newsom tried to take a decision from the New York Yanks, but was out-voted, the Browns going down to a 6 to 2 defeat. The veteran was wild and was finally yanked in the eighth after walking in two runs.

* * * * * *

Sporing Chile Con Carne: Tom Parsons' feat in holding the Battery to two hits last night was the best pitching performance of the season.... The big fellow should have had a shutout....One interesting feature of the game was the fact that Tony McIlveen rolled out to Ellis at first base four times in a row....Les Burton, hauled into the infield for the night to fill one of the gaps in the inner guard, played good ball at the difficult corner....Sub-Lieut. Nels Foster, R.C.N.V.R., played left field for the Battery and got one of their two hits....Aircraft and Westclox will play the third game in the Girls' Softball League senior finals at the Bowl on Monday night. With the Big Bens two games in front this

HAVELOCK

Doubles Taken By Campbellford

HAVELOCK, Aug. 13 — (ENS). The second mixed doubles bowling tournament was held here on Wednesday afternoon and evening on the C.P.R. Greens. Sixteen entries were on hand and were comprised of 9 from Campbellford, 2 from Belleville, 2 from Stirling and 3 from Havelock. Dr. H. L. Scott and Mrs. Scott of Campbellford were the winning pair of first high with three wins, having a total of 37 points with a score of 44. Their prizes were an end table and a casserole.

Second high with three wins was won by Mr. and Mrs. L. B. Taylor of Campbellford, who had 33 points with a score of 39. They were presented with a tackle box and a tray with a cup and saucer.

Two Wins.

A Belleville pair, Mr. and Mrs. C. Argue, were high with two wins, having 34 points and a score of 50. Their prize was the same as the second prize. Mr. and Mrs. E. A. Sloggett of Campbellford were high with one win of 26 points and a score of 38. Their prizes were a stool and a set of ovenware.

Many Military Teams

WICHITA, Kans. (AP)—The 1943 tournament of the National Baseball Congress opens here tonight with a record entry list and President Raymond Dumont predicted that 125,000 fans would witness the games during the course of the two-weeks' schedule. Military service teams, with former pros, predominate.

Lou Nova Washed Up

NEW YORK (AP)—Following his poor showing against Lee Savold at Chicago, Lou Nova, the veteran California heavyweight, is washed up as a contender, according to fistic authorities, although it is agreed his career can be rated a financial success.

Canadian Sport Snapshots

By CHARLES EDWARDS
Canadian Press Staff Writer

TORONTO, Aug. 13 (CP)—Aubrey (Dit) Clapper will be one of the judges in the "Miss War Worker" contest at Belleville, Ont., this year. Wait till Art Ross hears that one! One false move by Clapper and Boston Bruins of the National Hockey League will be looking for a new captain and assistant coach...They say the losing candidates in a beauty contest can hand out a real stiff body-check.

Oily Bolds!

August football practice will be something new in the east this year. For years, when the west sought an earlier opening of the eastern grid schedule so the national final could be played earlier, eastern officials replied an earlier opening was impossible because, for one reason, the players won't turn out for practice during the hot weather...Times must have changed because they're already at it in the east while the west has yet to decide who's gonna play and why...Toronto Oakwood Indians have been out conditioning several times. Ottawa Combines and Hamilton Wildcats start drills this week-end...Hamilton comes up with the tip-off that FO. Lou Hayman will be coaching Toronto R.C.A.F. Hurricanes again this fall...Hayman was in Hamilton this week arranging purchase of some former Hamilton Tiger equipment on behalf of the Dominion charmpions.

Hoss-tracized

Dink (Montreal Gazette) Carroll says Bob Gray, Toronto golf pro, might have had a tournament career matching the best in United States if he had concentrated a little more. When Gray was 19 he went south for the big Florida tournaments, finished third in his first and hit the prize money in several others. "But it seems the horses were running at Hialeah at the time and Bob is a guy who likes the beetles. That's where his prize money went and, finally, his clubs. He hocked 'em to raise the ante to get back what he'd lost and the bookmakers got it too." That ended his most promising bid in the big time.

Incidentally:

Apparently the Canadian lightweight champion, LAC. Dave Castilloux, is going to get a crack at Leo Shans, the lad Johnny Greco twice battered around United States rings...Benefits of the rubber shortage. The 140-mile Winnipeg-to-Kenora annual bike grind has been suspended for the duration.

Stamford Purses Take Big Jump

TORONTO, Aug. 13—The condition book for the first seven days of the coming Stamford Park meeting, at Niagara Falls, Ont., which operates from Saturday, Aug. 2[illegible] until Monday (Labor Day), Sept. [illegible] shows that approximately $30,00[illegible] in purses will be distributed [illegible] horsemen. This is an increase [illegible] nearly $3,000 over last year.

During the first seven days of [illegible] meeting there will be 13 races [illegible] $500, 31 carrying a purse value [illegible] $600, three at $700, one at $1,000 and one at $1,200.

The features for the first week of racing are as follows: On opening day is the $1,200 Inaugural Handicap. This race, for 3-year-olds and upward at six furlongs, will bring postward all the "top" sprinters stabled on the grounds. The field will include Fred Schelke's Shepperton, considered star handicap performer in the Province; the Stamford; the Lundy Lane Handicap; the Lewiston Handicap; the Peach Blosom; the St. Catharines Handicap, and the $1,000 "Honeymoon Bridge" Handicap.

CINCINNATI LOSES TO DODGERS BUT RETAINS SECOND PLACE TIE

The Sports Round-Up

By SID FEDER—(Pinch-Hitting For Hugh Fullerton)
Associated Press Sports Writer

NEW YORK, Aug. 13—(AP)—Sailor Dom and Soldier Joe DiMaggio are howling for active service . . . Figure they didn't sign up to play baseball . . . Dom's applied for sea duty once before and was turned down . . . and Joe wants a gun instead of a bat.

Headline: "Rudy York hits 20th and 21st homers."

He's Rudy York and all the hurlers
Say his bat puts their hair in curlers.

Dis-a and Dat-a

Gunder Haegg, who tried to convince the sports writers of his kiss-and-make-up policy several weeks ago, unconvinced them again right after his last U.S. race Wednesday . . . Gunder and Gil Dodds and several sports writers were invited to a local smorgasbord . . . But when the host brought the scribes in, the Gravie Galloper hollered, "I don't want anybody around" . . . The scribes who weren't anxious about the clambake in the first place, walked out . . . and the most embarrassed man in the house was brother Dodds.

Today's Guest Star

Frank Ward, Youngstown (Ohio) Vindicator: "The Brooklyn Dodgers are departing almost daily—and so are the Dodger fans."

Who's Dipsy Now

By Casey Stengel
(As told to John Drohan, Boston Traveler)

Somebody's been saying Pittsburgh Rip Sewell's new dipsy-doo pitch is too slow to be effective with men on base . . . It doesn't make any difference when he pitches against my Braves . . . He only gives us three hits anyway . . . It's the screwiest pitch I ever saw.

Come, Come, Mr. Summers, Who's Out?

Attentive audience waits ABOVE, for words of wisdom from the lips of Umpire Bill Summers in Fenway Park, Boston. Red Sox Catcher Roy Partee is demanding a decision from Summers as to whether Stan Spence or Johnny Sullivan of the Senators, both hugging third base, is out. Spence was trapped between third and home but scrambled back to third safely, only to find Sullivan perched there. Partee tagged them both and Summers ruled Sullivan out.

Phillies Beat Pirates Third Straight

By JUDSON BAILEY
Associated Press Sports Writer.

The Phillies are throwing smoke screen around the conflict now going on in the National League.

The only thing of importance still to be decided in the senior circuit is second place, and this is the dispute which the Phillies, who are not concerned, are clouding up with their smoke.

Last night for the first time in more than a decade the Philadelphia National League Ball Club fashioned a seven-game winning streak.

They beat Pittsburg Pirates for the third straight time 4-3 after the bold Buccaneers had taken a 3-0 lead and in spite of the fact that the Phillies were held to five hits. Ron Northey hit a two-run homer in the fourth and a cluster of three singles in the seventh produced two more runs.

Four Are Banished.

It allowed Cincinnati Reds to continue in a tie for second place with the Pirates and so incensed the latter that Manager Frank Frisch, Pitchers Bob Klinger and Hank Gornicki and Infielder Al Rubeling all were banished from the game for protesting Umpire Tom Dunn's judgment of a ball in the fourth inning.

Cincinnati, which came to Brooklyn two days ago in third place, lost its second successive game to the Dodgers 3-0, but thanks to the Phillies continued in the tie for second to which they advanced yesterday.

Johnny Vander Meer, who never has beaten Brooklyn in its own ball park since his second no-hitter in 1938, started for the Reds yesterday and except for the first inning pitched shutout ball. The only trouble was that in the opening frame he walked two men, usually reliable Eddie Miller made an error, and two singles followed for three runs. Kirby Higbe, pitching five-hit ball and fanning eight, blanked the Reds for his eighth win.

Cards Smear Giants.

Meanwhile, St. Louis Cardinals conquered New York Giants 4-1 with Mort Cooper pitching three-hit ball for his 16th triumph. One of the blows against him was Mel Ott's 15th home run.

Boston Braves again beat Chicago Cubs 3-2 in 12 innings on a triple by Elmer (Butch) Nieman and fine pitching by Al Javery.

In the American League New York Yankees turned the tables on St. Louis Browns after consecutive lop-sided setbacks and won a night game 6-2 behind rookie Charlie Wensloff's six-hit hurling. Newsom, who hasn't won a game in six starts for the Browns, forced in two of New York's runs with walks.

Rudy York hit to home runs to bring his total to 21, matching his production for the entire 1942 season, as Detroit Tigers thumbed Washington Senators 10-3 behind five-hit hurling by Hal White and Emmett O'Neill.

Lou Boudreau had a perfect turn at bat with four hits, two of them triples, as Cleveland nosed out Philadelphia Athletics 4-3 and Chicago White Sox divided a double-header with Boston Red Sox. Boston took the first game 10-6 with Bobby Doerr batting in three runs, two on a homer, but a triple by Luke Appling in the 14th led to a 7-6 triumph for Chicago in the nightcap after Joe Cronin of Boston had hit his fifth pinch home run of the year.

Player Migration Worrying Hockey Mogul

PORT ARTHUR, Aug. 13—(CP)—Frank Sargent, president of the Canadian Amateur Hockey Association, believes that the migration of midget and juvenile hockey players to junior clubs across the country may have a grave effect on the future of the game.

Mr. Sargent made this statement last night following an announcement that three Port Arthur minor league players had been signed to play with Port Colborne juniors next winter.

As to what steps the C.A.H.A. might take against migration of midgets and juveniles, he was not prepared to say. The matter would be discussed at a meeting of Association officials in Toronto today he added.

ALL-OUT FOR RUBBER

ZOMBA, Nyasaland — (CP). — The territory of Nyasaland is taking a census of its wild rubber trees and it is even penetrating private gardens in the townships.

Toronto Trims Orioles 7 to 5

By The Associated Press

Ed Klieman is having a tough time trying to win game No. 20 for Baltimore Orioles in the International League.

Twice he has attempted to gain that elusive victory, but first Buffalo and then Toronto, last night, rebuffed him.

The Orioles twice gave Klieman a lead last night, but the 19-game winner couldn't hold it as the first-place Maple Leafs came from behind to win, 7-5, in the first game of a twin bill. Baltimore led at 2-1 and again at 5-3, but the Leafs tied it at 5-5 and sent Klieman to the showers in the sixth. To add to Klieman's woes he was beaten by Red Cress, Toronto's utility veteran, who started his first game of the season.

Baltimore gained a split, however, as Smoll pitched a five-hitter in the nightcap for an 8-4 triumph.

Newark Bears backed up Walter Dubiel's seven hit pitching with a 15-hit attack to wallop Rochester, 7-1. Gene Corbett, Russ Derry and Ed Levy each banged out three hits. Dubiel, in chalking up his 13th victory of the year, had a shutout until the ninth when the Red Wings bunched three hits with an error for their lone tally.

Buffalo came up with three runs in the ninth on two hits, two bases on balls and an error to beat Syracuse, 3-1. A scheduled doubleheader between Jersey City and Montreal was postponed.

Yesterday's Stars

By The Associated Press

Mort Cooper, Cardinals—Pitched three-hit ball against Giants for his 16th victory.

Kirby Higbe, Dodgers—Shut out Reds on five hits.

Rudy York, Tigers—Hit two home runs, second with bases loaded, as Detroit downed Senators.

Charley Wensloff, Yankees—Held Browns to six hits as New York gained first triumph of western trip.

Ron Northey and Coaker Triplett, Phillies—Northey's two run homer and Triplett's pinch single figured importantly in victory over Pirates, for Phillies' seventh straight win.

Lou Boudreau, Indians — Made four hits, including two triples, for perfect day at plate as Cleveland beat Athletics.

Equals Record

NEW YORK (AP)—Scoring his first victory since 1941 when he won the Hambletonian Stakes, Bill Gallon, owned by R. H. Johnston of Charlotte, N.C., equalled the track trotting record of 2:02 1-2 at the Grand Circuit meeting at Empire City track, New York, in taking the trotting derby in two heats.

Gable In Raid

LONDON, Aug. 13 — (CP). — Capt. Clarke Gable, the former movie star, rode in the leading Flying Fortress of the U.S. group which attacked Gelsenkirchen yesterday and returned to base unhurt although the enemy anti-aircraft fire cut 156 holes in his ship.

Gable stood during the entire 6-hour flight between the pilot and co-pilot, shooting movies for a gunnery training film.

MOVIE TIME TABLE

Capitol—"Five Graves to Cairo" 2.00, 3.55, 5.40, 7.25, 9.30.

Regent — "My Friend Flicka", 1.30, 3.40, 5.35, 7.45, 10.00.

May Be The Best Of National Pack

PITTSBURGH, Aug. 12—(CP)—Who's the better shortstop—Marty Marion of the Cardinals or Eddie Miller of the Reds?

That question, put up to members of the Pittsburg Pirates during the rceent St. Louis-Pittsburgh series, created enough noise to put a Brooklyn Rooter's outburst to shame.

The majority of the Pirates thought Marion was the classier of the two—but the arguments for Miller were long and loud, particularly because of the .983 fielding record the Cincinnati star hung up last year when he made only 13 errors in handling 748 chances. Marion trailed Miller last year, and also is slightly behind this season in fielding. "Marion is very good," piped Honus Wagner—the owner of the most conspicuous pair of bow legs on the bench, "But I pick Miller because he has been around longer and has more experience. He plays the batters better. Manager Frankie Frisch cast a loud vote for the Cardinal. "Marion was hot against us—robbed us out of three games with his habit of making impossible pick-ups and throws."

Remember When—

By The Canadian Press

James J. Jeffries retained his world's heavyweight boxing title with a 10-round decision over James J. Corbett 40 years ago tonight. Jeffries, who had been Corbett's sparring partner in 1897, lost his title to Jack Johnson, first negro title-holder, in 1910 after almost five years of idleness.

Face Milk Shortage

TORONTO, Aug. 13 (CP).—R.S. Lick of the Ontario Milk Producers' League said yesterday the Province is heading toward a milk shortage and that London, Hamilton and cities in the Niagara Peninsula are taking steps to cope with it.

Cattle Prices Drop 35-50 During Week

TORONTO, Aug. 13.—(CP).—Cattle prices dropped 35 to 50 cents a hundredweight on most grades in trade on Toronto livestock market this week, with bulls as much as 75 cents lower. Calves, hogs, sheep and lambs were steady.

Buyers, large and small, applying pressure, managed to force cattle prices down to within an estimated 25 cents a hundredweight of comparable beef ceilings. Weighty steers were down 35 to 50 cents a hundredweight, at $12.60 to $12.75 for tops with most sales below $12.50. Butcher steers and heifers closed at $10.50 to $12. Fed yearlings were $12 to $13.25. Butcher cows closed at $8 to $9.50 with canners downward to $5. Bulls closed at $9.50 to $10.25 for butchers with light bolognas at $7.50 to $9. Heavy holdovers were in order and there were still a few hundred stockers unsold. Good stock calves sold steadily at $12.50 to $15.50 and the pick of the stockers were also steady at $12 to $12.50. Plain kinds sold lower at $8 to $11.50 a hundredweight. Good milkers and springers were unchanged at $125 to $160 each.

Calves sold steady at $15 to $15.50 for choice with common vealers downward to $10 and grassers mostly $9 a hundredweight.

Lambs Strong.

Hogs mostly on the yards at $16.25 to $16.90 dressed. Sows were mostly $14.50 dressed with a few at $15.

Good ewe and wether lambs sold at $16 to $16.25 with closing sales mostly at $16. Bucks were $1 a hundredweight discount. Sheep were unchanged at from $5 to $9.50 a hundredweight with some good light ewes at $9.75.

MORE ABOUT—

Russian Troops

Continued from Page 1

Kill 1,800 Nazis.

In the Bryansk sector, the communique said the Soviet attackers pushed to a point six miles east of Karachev and 25 miles southeast of Bryansk itself. Moscow claimed 1,800 Germans were annihilated in that sector.

Gains also were reported west and southwest of Kromi, between Orel and Karachev. Soviet Guards stormed into Dmitrovsk-Orlovsky, which the Germans had transformed into a strongly fortified bastion, and smashed enemy resistance after fierce fighting. More than 2,000 German officers and men were slain in this engagement, while the Russians captured 12 tanks, 16 guns, 23 mortars, 200 machine guns, 1,500 rifles, ammunition dumps and depots of other war materials.

On the Kharkov Salient the Germans were reported using fresh forces rushed from Germany in an attempt to stem the Russian tide, and had even ordered technical units and engineering detachments into the front lines.

Narrow Escape Lane

The Kharkov escape corridor has been narrowed from 60 to 37 miles during the past 48 hours, and as the struggle for the city entered its ninth day advices from the front indicated the Nazis would fight to a finish rather than attempt a strategic retreat. Their losses were heavy, according to the Soviet communique, 3,000 officers and men being killed in two days of battle. Nearly 500 prisoners and 36 tanks were taken.

As the Russians moved in on a semi-circle which surrounded three-quarters of the city more than a score of towns and villages fell into their hands. Red troops captured 100 trucks and 17 tanks.

West of Kharkov Soviet columns were fanning out toward Poltava and Sumy, nearing the high-water mark of their February drive.

Soviet bombers roared overhead to blast Poltava, setting large fires and disorganizing German troop movements. Little German air opposition was reported.

First Boat Underway

HAMILTON, Aug. 13 (CP)—The first hull was foated yesterday into the new outfitting and arming centre established in Hamilton harbor by the Toronto Shipbuilding Company. Other naval vessels will be sent here for completion to join the U-boat hunt.

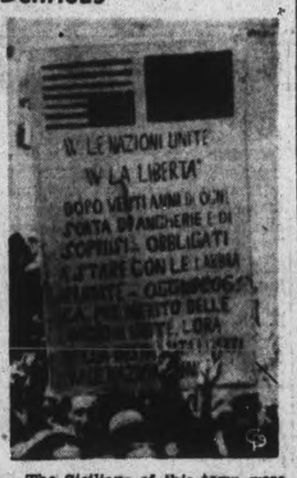
RECTAL SORENESS AND PILE TORTURE QUICKLY RELIEVED

If you are troubled with itching piles or rectal soreness, do not delay treatment and run the risk of letting this condition become chronic. Any itching or soreness or painful passage of stool is nature's warning and proper treatment should be secured at once.

For this purpose get a package of Hem-Roid from McDermid & Jury or any I.D.A. or other drug store and use as directed. This formula which is used internally is a small, easy to take tablet, will quickly relieve the itching and soreness and aid in healing the sore, tender spots. Hem-Roid is pleasant to use, is highly recommended and it seems the height of folly for any one to risk a painful and chronic pile condition when such a fine remedy may be had at such a small cost.

If you try Hem-Roid and are not entirely pleased with the results, your druggist will gladly return your money. —(Advt.)

Delirious



The Sicilians of this town were so delirious with happiness at their liberation from the Axis yoke that they put the American and British flags upside down on their welcoming poster to greet the victorious Allies. A reasonable translation is as follows: "Long live the United Nations. Long live liberty. After 20 years of anger and disappointment...forced to remain silent...today rings, thanks to the United Nations, the hour of liberty. Long live the United Nations."

First Export Seed Office To Be Opened

LINDSAY, Aug. 13 (ENS)— The first export seed office to be organized in Canada will be opened in Lindsay by the Seed Product Board of Oshawa with the appointment of Fred Perrin of Oakwood, as manager. The new office will handle all specified seeds either for export or resale and will complete arrangements in the issuing of profit participation certificates purchased by them.

It is expected that similar seed offices will be opened throughout Canada in an effort by the Government to utilize to the best purpose the production of alfalfa and clover seeds.

The Lindsay office is the first one of its kind to be opened in the Dominion and Mr. Perrin through his experience with the Hogg and Lytle Company of Oakwood, one of the most prominent exporting companies of Canada, has been chosen as manager. Through the new office all seed dealers handling the specified seeds, either for export or resale in the Domestic market, may complete arrangements authorizing them to act as Agents of the Special Products Board in the issuing of profit participation certificates to producers of seed purchased by them. The agricultural department has emphasized that seeds purchased by the new office on export account will be established at a level sufficiently below domestic ceiling prices to permit free movement of seed to meet domestic requirements.

To Buy Seed

The seed export office is charged with the important duties of purchasing and disposing of all surplus of certain seeds, particularly clover seeds, grown in Canada. Sales of these seeds will be made to Allied Governments and to private importers in Allied Countries where permitted, only in a volume that will insure adequate supplies being available for the Canadian requirements.

erican heavy bombers.

Two of the Canadian bombers raiding Milan failed to return to their bases.

At the same time R. C. A. F. fighters on intruder patrol attacked, without loss, airfields in Northern France.

The daylight raids were directed at synthetic oil plants at Gelsenkirchen and Wesselring and industrial targets at Bonn.

Fighter Umbrella

Providing protection for the big planes were R.A.F., R.C.A.F., and other Allied fighters, with a Canadian squadron being credited with downing one Messerschmitt. It was shared by Wing Cmdr. J. E. Johnson, English leader of the squadron, and Flt. Lt. Walter Conrad of Bedford, Que.

That pair also shared one damaged, while Flt. Lt. R. D. Phillip of Toronto damaged two others.

German planes hit back at England last night, bombing the coastal district of East Anglia and causing some damage, it was announced. There were no reports of casualties.

During R.A.F. night sweeps across the Channel, 19 locomotives were shot up by intruder patrols and two enemy vessels, a mine sweeper and an E-boat were sunk by fighter-bombers in the Dover Strait, the Air Ministry news service announced.

One Mosquito pilot penetrating inland as far as the Rhone Valley damaged eight locomotives and caused one entire train to explode.

Airfields at Dijon and Saint Dizier, and blast furnaces near St. Omer were bombed.

Mass Escape Planned

TIMMINS, Aug. 13 (CP)—Officials of the prisoner-of-war camp at Monteith, 40 miles east of here, from which Eckhert Brosig, 22-year-old German parachutist, escaped Sunday, said yesterday guards had uncovered plans for a mass escape from the camp. Brosig has not yet been found.

Attack On Japan May Be Topic At Quebec Talk

LONDON, Aug. 13 — (CP). — Moscow announced officially today that Soviet participation "was not and is not envisaged" in the forthcoming Churchill - Roosevelt conference at Quebec, and the first London reaction was that the talks would deal primarily with the war on Japan.

In a broadcast recorded here by the Soviet Monitor, the official Soviet news agency Tass said it had been authorized to state that foreign reports Russia would attend the conference "are based on a misunderstanding."

"The Soviet Government," the statement said, "did not receive an invitation to be present at the meeting, and because of the nature of the conference the participation of anyone representative of the Soviet Government at the meeting in Quebec was not and is not envisaged."

Stalin Advised.

Some London quarters thought the reference to the "nature" of the conference significant.

Since Russia is not at war with Japan, it is not likely that the Soviet would be invited to any conference concerned chiefly with the fighting in the Pacific.

The wording of the Moscow announcement made it seem clear, however, that Premier tSalin had been given advance details of the conference. In this connection, it was recalled that the British and American Ambassadors conferred with Stalin this week.

As a matter of fact, there was some thought the Ambassadors may have warned the Soviet Marshal of the possibility of an impending Japanese attack on Russia.

Gen. Sir Douglas Brownrigg, writing in the London Evening News two days ago, said it probably was not too far-fetched an idea to suggest the Japanese constitute "the secret weapon" at which Reichmarshal Hermann Goering has been hinting.

Reports out of Germany to neutral countries, too, have indicated that something of a bombshell is in the wind, and there appears much doubt that Germany herself is in any position at the moment to strike effectively.

Time To Strike

Brownrigg pointed out that for a year "Japan has done little to help Germany" and then asked:

"Is not now the moment for the idle armies of Japan in Manchuria to do their stuff—to make Stalin take his eye off the European ball, to make him falter in his offensive and is is not in Japan's own interest to strike while Germany still stands?"

(Although there will be no Russian representation at the Quebec conference, a CBC London correspondent broadcast that he believed "a high-ranking Russian" would reach London in September and "be empowered to negotiate on matters of the greatest importance." There was no official confirmation.

Three Fatally Shot Over Love Affair

DETROIT, Aug. 13 — (AP). — Three persons, including a police patrolman, were dead today after a shooting followed by a gun battle in a street of suburban Ecorse.

The dead: Patrolman John Hessler 56, Arthur Nightingale 34, and Edward Goodell 37, all of Ecorse.

Patrolman Robert H. McWhirter said that he fatally wounded Goodell in the gun battle after Goodell had shot Hessler through the head in resisting arrest.

Goodell was being sought in connection with the slaying two hours earlier of Nightingale, who police said was shot down in the doorway of a rooming house while in the company of Goodell's estranged wife.

Cape Orlando

Continued from Page 1

ing reduced in size.

The suicide detachments, although relatively small in numbers, were firmly entrenched in natural fortifications, especially in the interior Randazzo sector, and the Allied pursuit of the main German forces was delayed further by demolished bridges and debris-filled roads.

Many Wrecked Vehicles.

Germans retreating from the Randazzo sector north of Mount Etna have been forced by the incessant Allied air attacks to move convoys only at night. Knocked out vehicles have been abandoned at the rate of about one every 50 feet, an escaped Allied prisoner said.

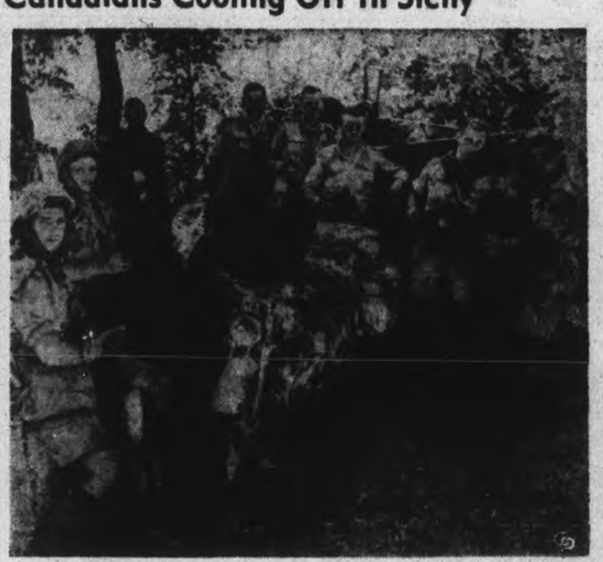
Berlin admitted the Sicilian retreat, but Capt. Ludwig Sertorius, Nazi military commenator, termed it a "systematic new disengagement movement by German and Italian troops?"

(For the sixth day no mention was made of the activities of Maj.-Gen. Guy Simonds' Canadian 1st Division, and observers speculated those troops might be resting following their hard fighting from the beaches of Pachino to the slopes of Mount Etna.)

Lands Nice 'Lunge

LAKEFIELD, Aug. 13 — (ENS). —Mrs. George Jackman of Lakefield had a real thrill and fisherman's luck on Tuesday morning. While fishing with her husband in a boat a short distance from Tiny Hill's Island in Lake Katchewanooka, she landed an 11½ lb. lunge on a trolling line.

Canadians Cooling Off In Sicily



Canadian troops fighting in Sicily take time out for a few minutes in the shade and to wash some of the Sicilian dust from their tonsils. LEFT to RIGHT are Lieut. W. W. Wilson, Woodstock, N.B.; Lt. B. A. Kennedy, Stevens, N.B.; Sergt. P. A. Daly, Milltown, N.B.; Pte. J. Savoy, Plaster Rock, N.B.; Pte. W. Hanson, Milltown, N.B.; Pte. P. H. Grant, Four Falls, N.B.; Pte. M. Williamson, Carlingford, N.B.; Pte. C. B. Chiasson, East Bathurst, N.B.; Lance-Corporal R. A. Greig, St. John, N.B.; and Pte. W. Springer, Chatham, Ont. The men are from the Carleton and York regiment.

Cigar Smokers Facing Famine

NEW YORK, Aug. 13 — Cigar smokers are slowly puffing their way into an era of scarcity. Some popular low-priced smokes are hard to get already, and the next two years will lead toward a "crisis." Principal reason: America's reserve of Sumatra wrapper tobacco is being exhausted.

Manufacturers aren't worried about "innards" for their cigars. Plenty of filler can be found in Northern States and Cuba; the binder is domestic tobacco. But the silky leaf which makes the outside skin of a cigar is increasingly hard to obtain.

The 1941 Sumatran crop was hustled here before Pearl Harbor. No one knows exactly how long it and previous stocks will last, but importers believe the supply in the hands of manufacturers and dealers may hold out—with stretching—for one and a half to two years.

New England tobacco growers boosted domestic output of wrapper leaf this year, and the country as a whole probably produced 1.3 million pounds more than last year. That's one-fourth as much as was imported in a good pre-war year.

Ernest Johnson Killed In Sicily

CORDOVA MINES, Aug. 13 — (ENS). — L/Sgt. Ernest Johnson, son of Mr. and Mrs. German Johnson of Cordova Mines, was killed in action July 25, presumably serving in Sicily with the Hastings Prince Edward Regiment according to word received by his parents.

L/Sgt. Johnson enlisted when war broke out and went overseas with the first contingent of Canadian troops. He was married in England, May 30, to a Welsh nurse and was 24 years of age.

Besides his parents he is survived by six brothers Charles, Roy, Carson and Wilbert all of Peterborough; Harry serving with the Haldimand Rifles, and Burness, a farmer at Malone. There are six sisters Hazel, Olive and Vera of Havelock, Jean of Ajax, and Oda and Iva at home.

ACROSS SPANISH MAIN

Argentina was discovered in 1516 by Spanish explorers headed by Juan Diaz de Solis.

Here Before

U.S. War Experts

Continued from Page 1

an overnight stay at the Citadel, summer residence here of Canada's governors-general. Newspapermen were not permitted to speculate on this present whereabouts.

It was anticipated, however, that he will return to Quebec in a few days to resume conferences with Prime Minister Mackenzie King who is remaining here with a quorum of his cabinet.

Once Mr. Churchill and Mr. Roosevelt are both here, the meeting likely to be known in future as the "Quebec Conference" will get down to business.

Tuesday, Mr. Churchill and the Lord President of the British Council, Sir John Anderson, representing the British War Cabinet, met here with the War Committee of the Canadian Cabinet in a joint session lasting nearly three hours.

It was offiically stated after that meeting that "a further joint session will be held at a later date."

In States Now.

This week's conferences between Mr. Churchill and Mr. King are considered to be of the utmost importance to the Dominion, but the general impression is that they are separated to some degree from "the Quebec Conference."

Discussion now being held among British, Canadian and some American military authorities—the leading Amercan officers had not arrived last night—are considered to be of a preliminary nature.

It was recalled that during the last session of the Canadian Parliament, Mr. King told the House of Commons in a reference to the Casablanca Conference that Canada—as only one of more than 30 United Nations—could not expect to be an equal party with the United States and Britain at meetings between Mr. Churchill and Mr. Roosevelt to which all the United Nations were not invited.

Another In Series

There has been no indication that this conference is different from the five which have preceded it in this respect. To most observers here the fact the conference is being held in Canada is incidental—that this Quebec meeting is one of the wartime series of Roosevelt-Churchill conferences and that primarily it is a United Kingdom - United States affair.

Mr. Churchill—and probably Mr. Roosevelt, too—are certain to keep in close touch with Mr. King, their host at the citadel. That much is taken for granted. But the concensus is that the big decisions will be matters for the British Prime Minister and the President, in consultation with their combined chiefs of staff.

It was noted, in this respect, that the original official announcement of Mr. Churchill's arrival on this side of the Atlantic referred specifically to "discussions" with Mr. King and to a later "conference" with President Roosevelt and the combined chiefs of staff of the United States and the United Kingdom.

That some joint British-American-Canadian sessions may be held was considered a probability, however.

Germany Retaliates Cuts Swedish Trade

STOCKHOLM, Aug. 13 (AP).—Germany has cut off Sweden's commercial trade with Italy by refusing to transport Swedish goods to the Reich's railways, an official statement disclosed to-day.

It came a week after Sweden announced the transport of German troops and war materials over Swedish railways between Germany, Norway and Finland would be discontinued this month.

Sweden principally shipped Italy celloluse for artificial silk which was processed into textiles which Italy exported to Sweden. The Swedes also received fruit from Italy.

Restock Preserves

HAMILTON, Ont., Aug. 13 (CP) —George Beattie, Barton Township game and fisheries overseer, has released a large number of young pheasants from the provincial bird farm at Codrington, Ont., to restock the district's game preserves.

De Marigny Says Not Near Oakes Since March 29

By E. V. W. JONES
Associated Press Staff Writer

NASSAU, Bahamas, Aug. 12 — (AP). —A statement by Alfred de Marigny flatly denying that he killed his millionaire father-in-law Sir Harry Oakes, was read yesterday at a preliminary hearing for the yachtsman.

Maj. Herbert Pemberton of the Nassau police told of arresting de Marigny nearly 12 hours after Sir Harry's bludgeoned and burned body was found July 8 in a bedroom at his oceanside villa, Westbourne.

Stayed Clear

He then read the statement by de Marigny after the charge was lodged.

"It's a ridiculuos charge as I have no reason to do it," Pemberton quoted the accused man.

"I can swear I have not seen Sir Harry since March 29.

"I have not been in Westbourne for two years.

"That is all I have to say."

Earlier, Pemberton had testified that he left a strong guard over the room where the body was found. He told of meeting de Marigny, who is charged with murder, on the first floor of Westbourne, and instructing him:—

"Under no circumstances are you to go upstairs."

Fingerprint Found

Previous witnesses at a preliminary hearing for De Marigny have testified that a fingerprint of the son-in-law was found on a screen ner Sir Harry's bed where the body was found.

Capt. E. W. Melchen of the Miami police quote De Marigny as saying that he had not entered the estate, Westbourne, for three years until he hastened there upon learning of the killing.

Melchen added that the screen was under guard when he took De Marigny upstairs July 9 for an interview.

Not There

Pemberton said the screen was left in the death room until Melchen and another Miami officer, Caut. James O. Barker, arrived on the scene.

Alfred F. Adderley, special prosecutor asked Pemberton whether De Marigny went upstairs during the 19 hours that the officer remained no duty at the estate after the crime was discovered.

"No, sir," Pemberton answered emphatically.

The small courtroom again was crowded for the continuation of the preliminary hearing.

Lands Overseas

Word has been received that Cpl. B. M. Kearney has arrived overseas, after training at Peterborough and Camp Borden. He enlisted in Kingston and was formerly employed at the C.G.E. as a truck driver. He is the son of Mr. and Mrs. Frank High Kearney, 700 Ross Street, and his wife resides in Peterborough.

It Might Work

COLORADO SPRINGS, Colo., Aug. 13 — (AP). — Sheriff Sam Deal weeded a railroad section worker's garden—and pulled up eight rows of marijuana. The worker, held for Federal narcotics authorities, said he wanted to feed the marijuana seed to his canaries to improve their warbling.

Tough Stokers Build Pretty Chapel

A SCOTTISH PORT, Aug. 13—(CP) — When Chaplain Harry Ploughman of Plaster Rock, N.B., first arrived at H.M.C.S. Niobe, headquarters of the R.C.N. overseas, he was a little disappointed that there wasn't a chapel in the establishment.

The problem, the Navy said in an overseas press release today, still worried him when he went to London to attend a convention, and some of the sailors decided in his absence to do something about it. The planners were reputedly the "toughest eggs" of the entire fleet—the stokers.

Organized and directed by Warrant Engineer J. H. Powell of Dartmouth, N.S., they found a disused store room three decks above the quarter-deck and went to work. They painted the room, giving it a cream ceiling, and Cobalt blue walls, and decorating it with silver Fleur-de-lis figurings.

Shipwright Bill Drone of Guelph, Ont., and Stoker W. Dingle of Spanish Ship Bay, N.S., built altar. Lieut. F. D. Wickett, son of a Victoria organist, overhauled the organ. Chief engine room artificer Jack Peakman, of Calgary, fashioned a brass cross, some 16 inches high, in his shop.

The padre returned to get what he described as "one of the nicest surprises" of his life. "The fine thing about it," he said, "is that the boys did all the work themselves. There wasn't one phase of the job that somebody wasn't willing to tackle."

Although an Anglican clergyman, he says the Chapel "serves all denominations," and when the Roman Catholic priest visits the establishment the padre puts the chapel at his disposal.

FINLAND'S FORESTS

Lumber is the most important industry in Finland.

ITCH STOPPED in a Jiffy —or Money Back

For quick relief from itching of eczema, pimples, athlete's foot, scales, scabies, rashes and other externally caused skin troubles, use fast-acting, cooling, antiseptic, liquid D. D. D. Prescription. Greaseless, stainless. Soothes irritation and quickly stops intense itching. 35c trial bottle proves it, or money back. Ask your druggist today for D.D.D. PRESCRIPTION.

HIGH SCHOOL EDUCATION NO LONGER REQUIRED to join the R.C.A.F.

YOU don't need a high school education to win your wings now. The R.C.A.F. is prepared to provide you with the education necessary to make you eligible for aircrew. This is your chance to team-up with the hard-hitting comrades of the skies in the big drive for Victory. Yes!... you can be in a fighting man's uniform at once. Make your decision right now! Enlist, for aircrew, today!

Planes and Schools are Ready to Train You Quickly

No more delay getting into aircrew. Basic training begins at once. Skilled instructors are waiting. Fast planes are ready.

The Peterborough Examiner

VOL. LXXXVIII, No. 36 | PETERBOROUGH, FRIDAY, AUGUST 13, 1943 | PAGE 9

MAIN STREET TOPICS

OSHAWA MAN WINS

Bruce Stewart of Oshawa was the winner of the pair of pillow cases offered as a draw prize by four young children who raffled off the cases to make some money for the ditty bag fund of the Navy Auxiliary.

FIGURES REVISED.

Not that a few votes here and there make any material difference, but the final count of votes in the provincial election was revised to-day to give H. R. Scott a majority of exactly 800. The totals were: Scott 6,884; Elliott 6,084; Johnston 4,763.

OUT OF ACTION

The road oiler which caught fire at Lake and George streets Thursday morning and set fire to oil on the road resulted in severe damage done to two tires. Replacements will have to be purchased before the oiler can be used again, and it was stated that these will be difficult to obtain.

FALSE PRETENCES

Information has been given to the police that a group of three and five girls are making improper solicitations on behalf of the British War Victims' Fund and the Red Cross Fund under the name of the secretary of the War Victims' Fund. Mr. Mann advises no authorization has been issued to them, and citizens are asked to immediately telephone the police when approached by them. Children desiring to work for war charity funds should secure the proper authorization from the person responsible for the issuing of such.

WEST HASTINGS.

The returning officer's count of the vote in West Hastings was: Arnott (Prog. Con.), 6,530; Bews (C.C.F.), 2,994; Vanderwater (Lib.), 4,107.

TOO INQUISITIVE

A little bird which lets its curiosity get the better of him got himself in a jam today. Reginald Harran, who has a store in Ashburnham, painted a bicycle and put it out in the yard to dry. When he and his next door neighbor, David Forsyth, went out to look at it, they found a small bird stuck fast in the paint with its wings flattened out. After considerable tugging, Mr. Forsyth loosened it and in a few minutes it flew away.

DRAWS REMAND

Donald Armstrong, charged in police court this morning as a second offender drunk told Magistrate R. B. Baxter that he could not recall a previous conviction in March. At the request of Inspector James F. Reid, Armstrong was remanded in custody until tomorrow with bail fixed at $100. His request for an adjournment was unsuccessful.

NOT EARL NORTHEY

In connection with the police court story in regard to the theft of a truck from Wonder Bakeries which appeared in last night's Examiner a typographical error resulted in the wrong name being used. The boy who is being held by the Stratford police is Carl Northey, Simcoe street, and not Earl Northey, as the name appeared in the report of the case.

Maintenance Group At CGE Plant Raise $105.06 For War Victims

Everyone admires something that speaks of progress or advancement, no matter what field of endeavor it might be related to, and particularly in the industrial world this perhaps applies with greater significance.

It was in January, 1941, that the Maintenance Department of the Canadian General Electric Co. Ltd. with H. H. May as foreman, first began to help the sufferers from air raids over Britain through the Peterborough and District British War Victims Fund, their contribution at that time amounting to $12.06.

Since that time their vision and largeness of heart has grown considerably, for commencing in May of last year when they added another $25.00, they have really gone to bat in a manner that reflects considerably to their credit, being one of the outstanding achievements on behalf of the fund to come from any department in the city's large industrial plant.

A great deal of the credit for this from a leadership standpoint goes to Miss Mabel Dulmage, who has kept steadily at work in passing the box around on Saturday mornings, assisted by Lewis Simpson, in which the whole department shares from a co-operative standpoint, the net result of which to date shows that his one group has now reached a total of $372.58 raised for the fund, the greater portion of which has been gathered in since a year ago last April, a very creditable record indeed.

Boat Trip Helps

Their latest achievement has been the raising of the splendid sum of $105.06, which is listed today, this having been raised in the usual manner, with Miss Dulmage taking a leading part, assisted by a surplus coming as the result of a boat trip which this group had from Young's Point last Saturday around Stoney Lake, stopping at Mount Julian for the evening meal in which Walter Nattress and Lorne Latchford assisted Mr. Simpson, and Miss Dulmage also played a part in helping on the work to assist the fund.

Last year one of their contributions was helped in a similar manner by a boat trip, but the results could in no way compare with this latest donation, for it exceeds the best previously given by well over $30.00, and when one considers that there are only 105 employees in this department, one can readily see that their per capita average is over $3.50, a feature which is outstanding when compared to other similar groups.

Only two days ago the contributions received from the C.G.E. Co. Ltd. and the Genelco Ltd. plants went above the $5,000 mark, and this start on another thousand dollars is given a splendid get-away with an over 10 per cent beginning, the total that the two plants have now raised to his date sanding a the impressive sum of $5,112.75, the largest of any to be received for the fund from any one particular source.

Honor Churchill.

Down in the two plants there are many who are members of the Peterborough Churchill Club, and the secretary of both the fund and the club would suggest that members wear their membership button to honor his visit to this country, and at the same time there may be many others who would like to become associated with the club, for which purpose all the employees in the plants need to do is to get in touch with H. A. Cranfield, supervisor of the Industrial Service Department, who is in a position to supply a limited number of both membership cards and buttons, and in so doing they will have the satisfaction of not only paying a tribute to one of the greatest leaders the Empire has ever known, but also they will be giving 100% of help with their dollar to the victims of air raids over Britain, made possible because the limited supplies on hand are all paid for, and this objective is something which would give the Prime Minister of the Mother of Parliaments much satisfaction.

Naturally, what has been said in the foregoing may apply to citizens in general who are either members of the club or might at this time wish to become associated with it.

Saturday's Market.

This Saturday the regular stall on the Market will be operated by Mr. John E. Parker of Norwood, and anyone wishing to offer donations in kind for sale may do so by taking them to the stall. There will also be another effort in progress with Annie Blackburn and a young Finnish boy selling tickets on a quilt made, donated and sponsored by Mrs. Stewart on Aylmer Street.

Must Have Woodsmen

MONTREAL, Aug. 13 — (CP) — Francois Faure, president of the Quebec Forest Industries Association, said here yesterday that if the Provinces pulp and lumber companies are to implement promises they made to Ottawa to deliver 150,000 cords of fuel wood for the coming winter, the Federal government must immediately furnish "at least 6,000 men from the armed forces or elsewhere to work in the woods."

Cologne Badly Hit

LONDON, Aug. 13—(CP).—Eighty per cent. of the central city and 75 per cent. of the other built-up district on the west bank of the Rhine at Cologne were destroyed and about 80 factories damaged in the last three air attacks on that German city, the Air Ministry news service announced today.

Hooper's Confectioner
Wish to inform their customers that the three stores will be closed from August 16 to August 21 inclusive.

Gordon Suggests Financing Hospital Needs

It may be a little surprise to members of the Nicholls Hospital Board to know that Alderman Gordon, critic of "ways and means" and background but not of the institution itself and its service, moved the resolution at the special meeting of the council last night, recommending a debenture bylaw for financing the present needs of the hospital.

Those needs, as recently announced, are a new ironing machine to cost $3,550, and the painting of the exterior of the building.

City Treasurer Shaver told the council the only way in which the money required by the Hospital Board could be raised by the council at this stage of the municipal year was by issuing debentures for a period of five years. Mr. Shaver said the old ironing machine had done duty for more than thirty years and that the building had not been painted in ten years. Hence, there was no reason why the cost of the machine and work should not be extended over a time that would be a great deal less than the life of ironer and paint.

Part of Maintenance.

Alderman Bradburn objected that painting was part of maintenance and not a capital expenditure, and should be paid out of current expenditure. His amendment to the Gordon motion provided for debentures to meet the cost of the ironing machine, and that the painting job be considered in next year's demand from the Hospital Board.

Alderman Bradburn argued that, any way, it was unlikely that the Board could get the work done this year, because painters were too busy. They had a "backlog' of jobs calling for attention. "They won't promise to start on a job of any size in less than two weeks," he said.

Alderman Dutton Lauds Police

Appreciation of the quickness with which the local police acted in connection with the theft of a truck from the Wonder Bakeries on the early morning of August 8 is voiced in a letter addressed by Ald. James Dutton of Wonder Bakeries to Chief Constable Samuel Newhall.

Alderman Dutton wrote as follows:

"I am writing to express my appreciation of the diligence and the co-operation of the members of your department in helping to locate one of our trucks stolen from the plant during the early hours last Monday.

Detective Sergt. Meagher has just been in to return to me the gasoline ration coupon book and has assured me that the truck has been safely returned to Peterborough and that the offenders are now under arrest. I shall be grateful if you will extend to the officers concerned my sincere thanks and appreciation of their efforts."

Catholic Social Is Great Success

A splendid crowd attended the annual lawn social held under the auspices of the Immaculate Conception Church on Thursday evening, and although there was the constant threat of rain, the social was a great success.

The country store which featured several beautiful patchwork quilts as prizes was well patronized, and shortly after eleven o'clock, a draw was made for eight cash prizes and a Hudson Bay blanket.

Following are the prize-winners: James O'Dette, 133 Sophia Street, $10; Mary O'Rourke, 442 Driscoll Terrace, $5; Marjorie Armstrong, 638 Armour Road, $5; Betty Wyatt, 422 Rogers Street, $5; Mrs. J. Cacavella, 678 Armour Road, $10; Rupert Brady, 177 Douro Street, $5; Paul Gilbert, 631 Centre Street, $5; R. J. (Bobbie) McCormick, 565 Rogers Street, $10; Hudson Bay blanket, No. 773, Ella Murray, Armour Road.

5 More Constables Sworn To Office

Five new members of the Peterborough detachment of the Ontario Voluntary Constabulary were sworn in before Magistrate R. B. Baxter in police court this morning.

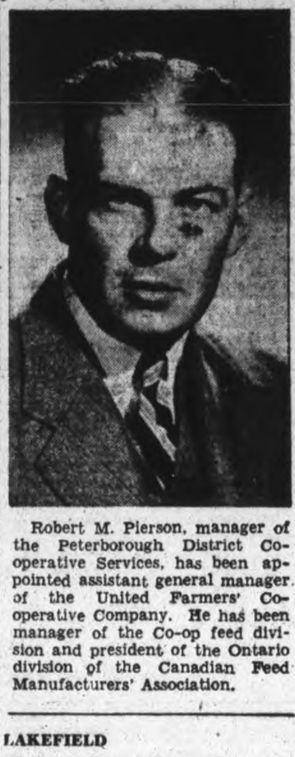
The new auxiliary officers who took the oath as special provincial constables were presented by Provincial Constable Price Morris.

They were: Douglas McPhea, toolmaker, 368 Downie street; William Telford, farmer, Smith township; Roland Magee, clerk, Gordon avenue; Arthur Reed, inspector, 489 Glengarry avenue, and Arthur White, tool-maker, 92 Bruce street.

Lake Boats On Duty

MONTREAL, Aug 13 (CP)—Possibility that more of the Canadian Lake freighters will seek service on the Atlantic this winter was voiced yesterday by Steamship officials who said that many more of the canal-sized freighters were being armed.

New Appointment



Robert M. Pierson, manager of the Peterborough District Co-operative Services, has been appointed assistant general manager of the United Farmers' Co-operative Company. He has been manager of the Co-op feed division and president of the Ontario division of the Canadian Feed Manufacturers' Association.

LAKEFIELD

Charles Birch Hurt In Battle

LAKEFIELD, Aug. 13 (ENS). — Pte. Charles J. Birch, second son of Lance Corporal Charles Birch and Mrs. Birch has been reported wounded in Sicily on July 21 according to word received by his parents Wednesday.

PTE. CHARLES BIRCH

"Nature and extent of wounds are not yet available," the War Office telegram added.

Born in Point Anne twenty-two years ago, Charlie has lived in Lakefield since he was six years old, attending both Public and High Schools here. He enlisted at Peterborough early in 1940 with the Hastings and Prince Edward regiment, First Contingent and was with a Bren gun carrier outfit. Going overseas later in that year he had been in England until June 1943 when his unit was sent to Sicily for the big push.

His father is with the Veteran's Guard at Port Arthur.

Hoarded Groceries Gets Month In Jail

James W. Gray, convicted Monday of accumulating groceries beyond the reasonable amount required for his household, to-day was sentenced to one month in jail and fined $100 and costs or two months additional.

Among items found at his home were: 30 one-half pounds of coffee; 24 tins of soup; 21 jars of corn syrup; 200 pounds of sugar and 25-gallon drums of gasoline.

Two Local Youths To Be Sentenced

Two youths who were under remand for sentence on charges involving the theft of a radiator cap appeared before Magistrate R. B. Baxter in police court this morning and were allowed to go on adjournment until Monday morning when they will be dealt with.

The two, Donald LaFonte and Donald Moore had pleaded guilty to respectively receiving and stealing the radiator cap.

"I have been informed that this boy LaFonte is on very necessary work in a local plant and is needed there" said Crown Attorney V. J. McElderry, K.C. "If he will undertake to get back to work immediately I am willing to consent to an adjournment until Monday. As the other boy is involved in the same affair, it would be only fair to make the same concession in his case."

Magistrate Baxter allowed the two youths to go on adjournment, provided they returned to work at once. He warned them that they must appear on Monday for sentence.

Dam Break Felt Later

QUEBEC, Aug. 13 (CP) — Wing Commander G. P. Gibson, V.C., D.S.O. and Bar, D.F.C and Bar—just plain "Dambuster" to Prime Minister Churchill—in an interview on his 25th birthday yesterday said he doesn't think the full effect of the May 17 raid on the Mohne and Eder dams will be felt by the enemy until late next month.

THREE DIVISIONS

The rocks composing the earth's crust are grouped by geologists into three classes — igneous, sedimentary, and metamorphic.

Annexation Talks Deadlocked Till Monaghan Makes Proposal

Not until North Monaghan, by resolution of its municipal council makes some definite proposal of annexation by the city of a suburban strip of the township will Peterborough make any move toward negotiations.

This was the decision of the city council at a special session last night after hearing a deputation, Bruce Johnston, township clerk, and Councillor W. J. Grady, convey their council's suggestion that the two municipalities, on their joint initiative, begin discussion of details of the project.

Alderman Cotton briefly summarized the city council's attitude.

"Let North Monaghan pass a resolution asking for annexation of part of the township to be determined, and we will appoint a committee to confer with theirs."

"You'll never get it," said Mr. Johnston.

"North Monaghan council is avoiding the responsibility of offending some of the people who live in the area on the western border of the city," said Alderman Gordon.

"If North Monaghan does not want annexation, why should we do anything, about it?" Alderman Sands commented.

Previously, Alderman Dutton had moved, seconded by Alderman Glover, "that we accede to the request of North Monaghan council and appoint a committee to confer with theirs on the question of the proposed annexation, its terms and area and other matters.

It was defeated on a division of 5-4. Those who voted with Alderman Dutton and Glover were Aldermen Sullivan and Mark, and opposing were Aldermen Cotton, Gordon, Curtis, Bradburn and Sands. Alderman Swanston was not present.

The council's policy in the inter-municipal conversation which preceded last night's meeting was renewed in Alderman Cotton's motion which simply recommended to the township that they start the ball rolling, by definitely committing their council to asking for annexation.

No Time to Write

Bruce Johnston introduced the subject of the deputation's visit with an explanation that after the strenuous affairs of the provincial election last week, in which he was the C.C.F. candidate, he had taken a few holidays. He was absent from the township council's meeting last Monday night when a committee was appointed "to ask the city council to appoint a similar committee to confer and work out an agreement in regard to annexation."

Mr. Johnston said he had not arrived home until late yesterday and did not have time to send the city council a copy of the township resolution. The members of the authorized township committee are: Reeve M. H. Johnston, Deputy-Reeve A. W. Archibald and Councillors Grady and James S. Roberts.

Some of the suburban residents have been saying to members of Monaghan council "you're not going to sell us down the river," Mr. Johnston stated, and the council had decided to ask the city for a conference by committee in the possibility of arriving at an agreement that would be satisfactory to both municipalities, and that finally this agreement would be submitted to a vote of the ratepayers of the area to be designated for annexation.

Wish of Majority

Mr. Johnston expressed the opinion that the agreement would be supported by a majority of the residents affected. He also said Councillor Roberts lives in the western suburb, and had made enquiries among some of the people in that section, and apparently most of those to whom he had spoken were inclined to the view that it did not make much difference whether they "came into the city."

"I suppose," remarked Alderman Gordon, "that the smaller property owners are not against it but the larger ones are."

Alderman Bradburn pointed out that the council had not received from the township a request for annexation.

"I think the deputation should have a definite area to submit to this council," said Alderman Gordon. "Nothing definite has been submitted to us yet."

"Shouldn't there be a resolution from the township suggesting annexation," Alderman Dutton remarked.

Mayor Hamilton: "We asked them for one at the meeting at the Court House several weeks ago but I don't think they agreed on it."

Promised Request

"They certainly agreed at that meeting they would hold another meeting of their council and that a request would be made," Alderman Gordon recalled.

It transpired in the discussion, and as mentioned by Mr. Grady, that the township council had discussed last Monday night the proposed "request" approach to the project, but the council failed to agree on that plan, but appointed a committee and decided to ask the city to do likewise. Then, the joint committee could go into the involved details of boundaries, financial terms, and so on.

Alderman Dutton said the two committees could discuss the matter, each report back to its council for approval, and then later if an area was decided upon the agreement could be submitted to the people of that area.

"Let the township decide their own policy and come and tell us what they have done," said Alderman Gordon.

"Would it require a vote by the city?" Alderman Glover enquired.

"The city council could decide it," Alderman Bradburn said.

Mayor Hamilton said he might be guilty to some extent of the committee proposal by being in favor of the two municipalities discussing the problem in which both were interested.

Preferred Committees

"We thought," said Mr. Grady, "that the two committees could go into the details, and finally we would have something to offer the people in the area outlined; we could take a vote on it and then it would be up to the city."

"But, you haven't passed a resolution asking us for any annexation," Alderman Gordon repeated.

"There has been no request that a certain section be annexed," Alderman Bradburn emphasized.

"That detail of the question has not been discussed," Mr. Johnston answered.

"The business way of going at it," said Alderman Sullivan, "would be in first having a request from the township."

Alderman Gordon suggested that it would be an easy matter to test suburban opinion by petition, but Mr. Johnston said that a prerequisite to that method would be definite information for the people, and that information could not be obtained until the city's position was made known.

Alderman Dutton said there was no doubt the township council was acting in good faith, and Alderman Cotton mentioned again the Court House meeting. "It was understood then that the township was going to make a request, to the city for annexation of some portion, and they haven't done so."

Mayor Hamilton: "We asked them for that, but it seems they have not been able to agree about it."

Avoided Decision

Alderman Gordon: "I think they should do it. We are not getting anywhere with these committee meetings. As I see it, Monaghan council did not want to take a definite position one way or the other on this matter of annexation."

Mr. Johnston: "The question was left wide open for discussion by both councils."

Referring to the Cotton motion, suggesting that Monaghan make a request for annexation, Mayor Hamilton asked Councillor Grady "what do you think of that?"

Mr. Grady hesitated a moment and answered: "That's up to the whole council to decide."

The visit of the Monaghan deputation last night added another familiar chapter to discussions which developed out of the city township's Wartime Housing problem in which the city became involved on several points of necessary services, but especially school accomodation for children living in the Hatton group of new houses.

City's Policy

From the beginning of these conversations members of the city council assumed the attitude of not even seeming to be the proponent of annexation. Expressions at previous meeting were to the effect that the city was averse to any opinion in the township that the bigger neighbour was trying to take a bite out of the "more desirable" strip of suburban property. This aloofness was repeated last night in the stand that the initiative must come from the township, at least to the extent "of requesting annexation" as a preliminary to discussion of boundary of any area that might finally be defined by agreement, with terms of settlement of details of debentures or other financial involvements.

DANISH CURRENCY

The monetary unit in Denmark is the krone, with an average value of 20 cents.

Fred A. Cripps Wins 5 Awards

The Photographers Association of America has awarded Fred Cripps of the Cripps Studio, 376½ George Street, five merit awards for portraits submitted in its annual contest.

The portraits, four in number, are entitled "Rev. E. C. Moore," "Captain," "Political Candidate," and "Gambler's Retreat." "Political Candidate" received an additional merit for exceptional excellence, and has been chosen as one of the pictures to represent the Association's Loan Collection.

Entries from all States of the Union and Provinces of Canada are accepted in this annual contest, and seven is the maximum number of merit awards given out in any one year. Winning of 25 such awards by a photographer earns for him the Association's degree of Master of Photography. His awards this year, coupled with winning portraits submitted in other years, now give Mr. Cripps a total of 10 merit awards earned towards this degree.

Safely Overseas

Pte. Ralph F. Thompson of the R.C.O.C. has arrived overseas, according to word received by his wife and baby who live at 242 Dublin Street. Until he enlisted in June, 1942, he was employed at the C.G.E., and he trained at the Hamilton Trade School and Barriefield. Pte. Thompson is the son of Mrs. A. Graham, Westcott Street.

Col. C. Jennings Dies Suddenly

Veteran officer of the Salvation Army, in which she served with her husband in many Ontario and Quebec corps before coming to territorial headquarters here, Lt.-Col. Catherine Jennings, widow of Lt.-Col. Alfred Jennings, died yesterday of a heart attack at the home of J. T. Braund, 728 George street, in Peterborough, where she had been on holidays. She was 74.

Mrs. Jennings entered Salvation Army work in Belfast, Ireland, in 1889 and served in the United Kingdom until she was transferred to Canada in 1893. In September of the following year she married Capt. Alfred Jennings. Both served for 37 years at various points in Ontario and Quebec before being assigned to headquarters here. Both retired in March, 1931, but continued their association with the Toronto Temple Corps. Her husband died last November.

The funeral will be held Saturday afternoon in the chapel of A. M. Miles, 30 St. Clair avenue west, Toronto, with Commissioner Benjamin Orames, Salvation Army, conducting the service. Interment will be in Mount Pleasant Cemetery. Surviving are three sons, Alfred William, Charles Albert, Walter Alexander; two daughters, Mrs. J. McArthur, Adjutant Lucretia Jennings, all of Toronto.

President Won't Act

CHICAGO, Aug. 13—(AP).—President Roosevelt has declined to use his wartime powers to order increased diversion of Lake Michigan water through the Calumet-Sag Canal which city officials requested to prevent pollution of Chicago's water supply.

General Manager

MONTREAL, Aug. 13 (CP) — James P. O'Loghlin, 59, Canadian general manager for the past 20 years of the 20th Century-Fox Film Corporation, died in hospital yesterday after a brief illness.

Name Metheral Wood Agent On Roving Job

A. G. Metheral, welfare officer, steps back into a former successful role of official wood forager for the community of Peterborough.

He did not know about the new job and responsibility until the Examiner met him this morning, and told him that the council at its special session last night had turned upon the fuel problem with evidence of sincere and firm purpose to pile up some wood in Peterborough before winter.

The council is talking of buying up to 5,000 cords, and even at $10 a cord that would entail an investment of $50,000.

It seems that local fuel dealers have failed to reach a working agreement among themselves, and according to consumer opinion some, if not all, the dealers are keeping a shifty eye on the prospects of business after the war, maintaining present goodwill by affectionate consideration of order from old customers and directing appraising conjecture upon those who are strangers at the counter.

No Profit

"We have the money to buy wood and we are in a position to sell it at cost," said Alderman Gordon when Mayor Hamilton introduced the wood project last night.

Mr. Metheral's experience in buying wood during the depression recommended him through the opinion of Alderman Dutton for a roving commission through the wood country north and east of Peterborough. In the meantime questions of war-time limits on haulage distance, price ceilings and so on will be considered, but the primary object of the council is to get wood into the city, "even if we may have to sell it at a loss."

"We couldn't get a better man than Mr. Metheral," was the Dutton compliment.

Alderman Bradburn said he thought there was merit in a suggestion of the Examiner the other day that the city appoint a man with authority and some expense account to canvass the country for wood to be delivered to Peterborough.

Alderman Cotton said he believed there was wood in the country if it could be obtained.

"There must have been 50 cords roll down the Lakefield Road past Nassau today," he remarked.

The council's desire for immediate action was indicated in its decision not to wait upon bylaw authority and approval from the Department of Municipal Affairs.

A Gordon-Cotton resolution instructed City Solicitor Huycke to draft a bylaw permitting purchase of wood and payment for it, appointing Mr. Metheral agent 'to go out and see what he can do.' Application is also being made to the Wartime Prices and Trade Board for a permit to act as wood dealer.

Guns Beat E-Boats

LONDON, Aug. 13—(CP).—The War Office disclosed yesterday that a coastal defence version of the famous six-pounder anti-aircraft gun has been in service for four years and had proved effective against enemy torpedo and E-boats.

Wounded Go By Air

A BRITISH HOSPITAL, North Africa, Aug. 13—(CP). — Approximately half the Canadian casualties in Sicily have been evacuated to hospitals in North Africa by air.

Births Marriages Deaths In Memoriam Cards of Thanks

BIRTHS

PATERSON— On August 12, 1943, at Oshawa General Hospital, to the Reverend and Mrs. J. Douglas Paterson (nee Frances Dawson) a daughter.

DRUMMOND — At Nicholls Hospital, on Wednesday, August 11, 1943, to Cpl. and Mrs. Charles Drummond, a son.

ENGAGEMENT

The engagement is announced of Irene, daughter of Mr. Thomas Mark to Pte. Ross Tiers of Hamilton, only son of Mr. and Mrs. Walter Tiers of Fenelon Falls, Ontario. The marriage will take place very quietly the latter part of August.

DIED

POOLEY Mrs. Alfred—282½ Sherbrooke, formerly Cecilia Delorme, at St. Joseph's Hospital, Thursday, August 12, 1943, aged 25 years.

Remains will rest at the J. J. Duffus Funeral Home until Monday, August 16. Mass will be offered for the repose of her soul at St. Peter's Cathedral at nine o'clock. Interment in St. Peter's Cemetery.

REID, Benjamin — At Nicholls Hospital on Friday morning, August 13, 1943.

Funeral Sunday, August 15 at 2:30 p.m. from the home of his son, Harry, Lot 17, Concession 5, Otonabee. Rev. George Murray officiating.

IN MEMORIAM

SARGENT — In fond and loving memory of our dear mother Hannah Sargent, who passed away, August 13, 1940.

But some sweet day we'll meet again,
Beyond the toil and strife,
And clasp each other's hand once more,
In Heaven, that happy life.
— Ever remembered by his family.

CARVETH — In loving memory of our dear brother, Walter Carveth, who passed away August 15, 1942.

Days of sadness still come o'er us,
Tears in silence often flow,
But memory keeps you ever near us,
Though you died one year ago.
— Ever remembered by his Sisters, Amanda, Ida, Rose and Lily.

CARD OF THANKS

Mr. J. W. H. Dalliday and family wish to extend their sincere thanks to all those who called, sent cards, and flowers or showed any kindness during their recent sad bereavement.

Hurler Deserved

(Continued from Page 6)

double over third, scoring Herrick and Anderson and taking third on the throw to the plate. He scored while Miller was tossing out Dalton. Morgan rolled to Burton and McKerrigan was out on Burton's running catch of his foul fly.

There was no further scoring until the sixth when Soldiers chased in two more. Anderson and Mortimer both beat out bunts down the first base line and moved up on a wild pitch. Dalton rolled to Miller and Anderson scored on the play. Morgan struck out but Tompkins missed the third one and had to throw the Soldier pilot out, Mortimer scoring. McKerrigan flied to Stewart.

Parsons did not allow a hit in the first six innings and only three Battery players reached first, on walks. However, Joe Stewart opened the seventh with a double to right and took third on Herrick's wide throw to that corner. Foster rapped to McKerrigan and was safe when Morgan dropped the shortstop's throw, Stewart crossing the plate. Ellis sacrificed and Miller drew a walk but Tompkins was tossed out by Parsons and Wilson rolled to Anderson.

Soldiers got that one back in the first half of the eighth. With one away Mortimer was safe on Jones' fumble. Dalton dropped a single into left. Morgan flied to Foster but McKerrigan doubled to left centre to score Mortimer. McIlveen rolled to Ellis, for the fourth time in succession.

The Battery managed to pick up a second run in the final frame. With one out Foster doubled to left, the second hit off Parsons, Ellis rolled to Anderson who threw past Morgan at first, Foster scoring and the hitter going to second. Miller, however, rolled to Morgan and Tompkins' fly to Herrick in short right ended the ball game.

NOTICE

SHERIFF'S SALE OF LANDS
County of Peterborough

Under and by Virtue of a Writ of Fieri Facias issued out of the First Division Court of the County of Peterborough and to me directed against the Lands and Tenements of JOHN CHRISTIE, Defendant, at the suit of GEORGE NEWCOMBE GORDON, Plaintiff I have seized and will offer for Sale at the Sheriff's Office, at the Court House, Peterborough, on MONDAY the Fourth Day of OCTOBER, 1943, at 10 o'clock A.M., All the right, title, interest and equity of redemption of the said JOHN CHRISTIE in to or out of the following Lands and Premises, namely:

"In the Township of Asphodel, in the County of Peterborough, and being the North Half of Lot 17 in the 1st Concession of the said Township of Asphodel and that part of Lot Number 18 in the First Concession of the said Township lying South of the right-of-way of the Canadian Pacific Railway."

DATED at Peterborough, this 26th Day of June, A.D. 1943.
JOHN A. HARSTONE, Sheriff.

Katan-McCready To Meet Again

John Katan and Earl McCready, two of the mightiest Canadians to ever step on a wrestling mat, will meet here in a re-match next Monday night and this time they will have a full ninety minutes in which to settle their differences. When they met here the other night both of the big matmen were going strong at the end of the one hour time limit. Neither man seemed the least bit likely to give in as the hour found them battling like Trojans, but an hour-and-a-half will more than likely produce a definite winner. McCready was particularly disappointed that he had not finished off the surly Katan and stated that after the match that another thirty minutes would have made it possible for him to apply the final fall. Actually there were several times towards the close that Earl was within an ace of winning particularly when he managed to get his famous rocking-chair splits on the Palermo Panther. But big Katan has been around and proved his ring generalship by going to the ropes in the nick of time. In any case they come back on Monday night over the extended time and judging from the applause that attended their first bout, the best crowd of the season will be on hand to see the final conclusion.

HERE AND THERE IN SPORTS

(By the Canadian Press)

Youthful players from the East dominated the women's Western Amateur golf tournament at Evanston, Ill., yesterday when Catherine Fox of Glen Ridge, N.J., and Dorothy Germain of Philadelphia qualified for the semi-finals.

Miss Fox, 18 years old, came from behind to wring victory from Marjorie Row, formidable Detroit player, one up. Miss Germain, 19, had a comparatively easy day when she eliminated Miss Ann Casey of Mason City, Ia., 5 and 4. Prominent also was Miss Mary Wall of Menominee, Mich., after her surprise win over Miss Kay Byrne of Rye, N.Y., the previous day, but Miss Wall had to go all out to score one up in 18 holes in defeating Jeanne Cline of Bloomington, Ill.

In the women's western open last June, Miss Fox and Miss Germain were semi-finalists in different brackets and both failed to reach the final stage. Today they meet each other.

Brings $75,000

In a dispersal sale at Keeneland track, Lexington, Ky., yesterday, Grand Slam, former turf champion now at stud, was sold for $75,000 to Henry Knight of Alamhurst farm, Jessamine County, Ky. Eleven of Grand Slam's progeny won $107,700 in 1942.

Confessing they had used a battery on Tib in the third race at Washington Park Tuesday, Jockey Bowman and former jockey Chester Jedlinski were yesterday fined $200 and costs in a Chicago police court. The fines were suspended when they said they were broke.

In a track and field program of 20 events at No. 4 R.C.A.F. wireless school, Guelph, yesterday, the outstanding athlete proved to be M. W. O'Connor of Montreal who rolled up a championship total by winning the century, 220 and 440-yard dashes.

London On Top.

The Inter County Baseball Association has reached the seasonal stage where the organization of playoffs is necessary in the senior and intermediate "A" groups. London and Stratford seniors stand first and second while Galt and Waterloo are battling for third place. The fourth and fifth clubs in the final standing will play for the right to enter the O.B.A. intermediate "A" playdowns.

William Smith, at 30 Aberdeen Avenue, west of Normal School, on Thursday, August 26th, at 1:30: Walnut Antique China Cabinet, Studio Couch, Mahogany Buffet, Duncan Fife Drop-leaf Table, Centre Table, Fine Cabinet Radio, Piano, Tables, Chairs, Large Ice Refrigerator, Gas Stove, Sewing Machine, Aluminum Fireless Cooker, Chest of Drawers, Cupboards, Beds and Mattresses, Bedding, Camp Beds, Large Quantity of Dishes, etc., Fine China and Glassware, including lovely Tea Set, Pictures, etc. A Sale well worthy of your attention — Gordon Hancock, Auctioneer. Telephone 5021.

AUCTION SALE FOR MR. WALLACE Houle, 2 miles South of Keene, Tuesday, August 21: Good Horses, Young Cattle, Cows one fresh, Implements, etc. See posters.—Gordon Hancock, Auctioneer. Telephone 5021.

Tennis Series Will Soon Be Completed

The following for the first round of the Quaker Mixed Doubles Tournament has been completed and the following is a list of the matches:

Miss R. Johnstone and R. Charlton vs. Miss M. Lawless and J. Cote.

Miss R. McKee and G. Ross vs. Mrs. I. Martin and R. Johnston.

Miss J. Moore and G. Scott vs. Mrs. B. Wasson and A. Conlin.

Mrs. D. Clysdale and H. Macdonald vs. Miss A. Langley and W. Wright.

Miss M. MacPherson and H. Wilson vs. Miss M. Duncan and W. Elmsley.

Mrs. H. Rutter and A. Rutter vs. Mrs. L. Bonney and A. Bonney.

Mrs. F. Patte and J. Patte vs. Mrs. L. Bonney and A. Bonney.

Miss P. Lawless and G. Blais, bye.

In the first round of the men's singles, Ralph Charlton won by default over W. Trotter, W. Elmsley defeated J. Cote 6-4, 6-3. A. Rutter defeated John Cote 6-0, 6-0; George Blais defeated Gord Duncan 6-0, 6-1, and George Scott advanced into the second round on a default by D. MacHoull. The remaining matches between F. Conlin and R. Johnston and G. W. Ross vs. Jack Patte must be played this week-end or these names will be scratched.

In the men's doubles, some very competitive tennis was produced in some of the matches. George Scott and G. Ross finally defeated Horace Fisher and Howard Macdonald 6-1, 2-6, 6-2. G. Blais and R. Charlton defeated F. Conlin and R. Johnston 6-0, 6-4. Walker Jones and J. Patte defeated W. Elmsley and A. Rutter in a long drawn-out battle 3-6, 6-4, 6-4. W. Wright and H. Wilson defeated Jean Cote and Jack Cote 6-4, 6-4.

In the ladies' singles, Mrs. D. Clysdale defeated Miss B. Sedgewick 6-1, 6-1. Mrs. Wasson defeated Miss M. Lawless 6-1, 6-2; Miss M. Duncan advanced to the second round on default by Mrs. H. Rutter, as did Miss Jean Moore on default by Miss A. Oliver. Miss Peggy Lawless won on default from Miss B. Siscoe and Miss Ruth Johnstone defeated Miss Agnes Dixon 6-0, 6-2. Miss M. MacPherson defeated Miss A. Langley 1-6, 7-5, 6-4, in one of the best games in the first round which lasted almost as long as a very hectic session when Miss Ruth McKee finally defeated Miss Patty Jane Pocock 11-13, 6-1, 6-4.

In the ladies' doubles, Mrs. Wasson and Miss Patty Jane Pocock defeated Mrs. D. Clysdale and Miss Peggy Lawless 6-3, 7-6, 6-4. Miss Ruth Johnstone and Miss Agnes Dixon defeated Miss M. Duncan and Miss M. Lawless 6-3, 6-2. Weather permitting, Miss M. MacPherson and Miss A. Langley should play Mrs. R. Duncan and Mrs. L. Clark, and Miss Ruth McKee with Miss Jean Moore must play Mrs. B. Sedgewick and Miss B. Siscoe over the coming weekend or these matches will be scratched.

Sports Day By Day

(Continued from Page 6)

should be one of the most exciting tussles of the year....Manager Joe Cronin of the Boston Red Sox has certainly been demonstrating this season what a pinch-hitter should do when called upon. Five times during the campaign when Cronin has elected to bat for some one he has come through with a homer....Rudy York has hit eight homers so far this month....The Detroit slugger has a chance of beating his own mark of 1937 when he made 18 in August.

Look After Your Dog Well and He'll Be Happy

IRRESISTIBLE!

Who could resist a cute puppy such as this one? So many people love dogs but they don't know how to care for them. They either shower too much attention on them or neglect them unheedingly.

Every dog has the right to lead a happy life and it is up to his owner to see that he doesn't lead "a dog's life." If you love your dog, care for [illegible] the right way.

Our 32-[illegible] to care for [illegible] establish an [illegible] schedule for fe[illegible] about housebreaki[illegible] you want to train your dog. [illegible]ooklet gives you the simple rules as well as the intensive, for making your dog mind and do tricks. It includes nine easy dog tricks. It also tells how to keep your dog's coat clean, glowing and healthy.

If you are thinking of buying a dog and are not sure of what breed you want, be sure to consult the booklet. It describes the different dogs' temperaments and which are better for city life.

For your copy of HOW TO CHOOSE AND CARE FOR YOUR DOG send 15 cents in coins or stamps to the Peterborough Examiner Home Service. Be sure to write plainly your name, address, and the name of booklet.

Bethany News

Mrs. William Phillips was a business visitor to Lindsay on Tuesday.

Miss Ruth Rowland, of Toronto spent the week-end at her home here with her parents, Mr. and Mrs. Walter Rowland.

Miss Joey Lever of Toronto and a friend arrived in Bethany on Monday to visit her mother, Mrs. Charles Reynolds, and small sisters Peggy and Katherine.

Mr. and Mrs. Harry Spencer of Lotus were business visitors to Bethany on Monday.

Mr. and Mrs. Stevenson of Lindsay were Sunday guests of Mr. and Mrs. Charles Smith, Glengarry road.

Mr. and Mrs. William Cordingly of Toronto, Mr. and Mrs. Stamp and small daughter of Toronto, spent the week-end with their sister, Mrs. Lenard Driver and family.

Mrs. T. Purvis and grand-daughter, Mary Ferguson, of Cannington returned on Monday, after making an extended holiday with Mr. and Mrs. Stark, Front street.

Miss Doris Driver, Wilson street, was hostess for an afternoon lawn party at her home on Friday. Guests were her nieces and nephews from their farm home north of the village, and other small school companions. Those present were: Grace, Audrey, Bobby and Morris Driver, Dorothy and Bert Ginn, Joyce and Joan McGill of Montreal, Betty Waddell, Margaret Lowes, Olive, Morley and Levi McGill, Bobby Ryley and Jack Neal.

Erect Coal Shed

WINDSOR, Ont., Aug. 13 —(CP) —Add wartime concessions: Windsor City Council's public works committee has stretched building restrictions to permit erection of a tool and coal shed on Lincoln road in view of the difficulty in purchasing coal a binful at a time.

BARCLAY ON BRIDGE

WRITTEN FOR THE EXAMINER

By SHEPARD BARCLAY

"The Authority on Authorities"

TRY YOUR OWN SUIT

WHEN THE opponents' bidding, plus your own holding, makes you suspect that your partner had opened the bidding with either a pure psychic or at least a badly shaded bid, it is often best to lead your own pretty fair suit against their No Trump contract, especially if you have only a singleton of his. When you hold something better than a trick in high cards, it is likely your partner would lack adequate re-entries to bring in his suit, in which the declarer has indicated he has no particular fears.

North: ♠ 5; ♥ K Q 10 7 5; ♦ 8 4 2; ♣ J 10 3 2

West: ♠ A K 9 2; ♥ J 9 8 4; ♦ 7 5 3; ♣ A K

East: ♠ Q 4 3; ♥ A 6 3; ♦ A J; ♣ 9 8 6 5 4

South: ♠ J 10 8 7 6; ♥ 2; ♦ K Q 10 9 6; ♣ Q 7

(Dealer: North. Neither side vulnerable.)

North	East	South	West
Pass	Pass	1♠	1 NT
Pass	3 NT		

North led the spade 5, and thus helped the declarer, as this left him three entries to the dummy and eliminated any guess in the spade suit, the 10 falling to the A and a finesse against the J being virtually marked. It didn't take him long to plan. He saw four spade tricks and two in the red suits, plus maybe three or four in clubs. He scored the club tops, led to the spade Q and sent a club to North. Unfortunately for North, the latter now chose the heart K instead of a diamond return. The A took this, a second club was given up to North, and game was now sure, as the spade finesse worked after the diamond A won the return.

Defense of this hand would have been easy if North had opened his heart K, and South's 2 on it had caused a sound switch to a diamond, either at once if the declarer ducked the first trick or later, when North first got the lead from either a club or a heart. That switch would have destroyed declarer's entire timing, and would have been virtually obligatory, instead of to a spade, when the spade Q was seen in dummy in addition to the stoppers proclaimed by West's bid of No Trumps.

• • •

Tomorrow's Problem

North: ♠ 4 2; ♥ K Q 8 2; ♦ Q 9 8; ♣ K 7 6 2

West: ♠ 10 8 5; ♥ 10 7 4 3; ♦ K 10 4; ♣ J 10 8

East: ♠ A Q 7; ♥ A J 6 5; ♦ A 2; ♣ Q 9 5 4

South: ♠ K J 9 6 3; ♥ 9; ♦ J 7 6 5 3; ♣ A 3

(Dealer: West. North-South vulnerable.)

Council Finds Ice House In Poor Shape

HAVELOCK, Aug. 13 (ENS).—Attention was drawn to the dangerous condition of the ice-house owned by Mr. William Fraser, Belmont, at the August meeting of the Village Council on Monday evening by Councillors Sanderson and Martin, the Clerk is to notify Mr. Fraser to this effect.

Reeve E. W. Seeney presided over the Council meeting and those present were Councillors Leeson, Sanderson, Martin and Ketchen.

In the correspondence read, was a letter from Mr. V. J. McElderry, regarding the matter of W. Akins and S. Rylott and on motion by Councillors Sanderson and Martin it was decided that Clerk Puffer write Crown Attorney, drawing his attention to the fact, that the municipality was receiving no share of convictions under the Ontario Temperance Act and did not feel it should be called upon to pay fees, when action was placed against it.

T. P. Lancaster was present and requested the Council to take some action to obtain a share of coal for the citizens of the municipality, and on a motion by councillors Leeson and Ketchen, the Clerk was instructed to write the Fuel Controller and explain the situation.

Mr. Barak Hubel's offer of $10 for Lots 32, east side of Queen Street and Lot 19, West side of Concession street was accepted.

The Clerk was requested to prepare deeds to Harry Tinney for lots he purchased, also to Barak Hubel for the lots he is purchasing.

A request from the Ration Board for the use of the Town Hall for the distribution of No. 3 Ration Books on August 27 and 28, was granted, on motion by Councillors Martin and Sanderson.

The report of the Relief Officer was accepted and the account for 6.56 ordered paid.

On a motion by councillors Sanderson and Leeson, all the accounts were ordered paid, except that from V. J. McElderry and the Ration Board, until the amount is received from the Government.

General Accounts

W. J. Akins, salary and phone, $87.50; Non-Skid Paving Company material, $40.29; V. J. McElderry, fees, Akins and S. Rylott, $11.70; C.P.R. Co., freight on oil, $12.93; Imperial Oil Co., for repairing George Street, $61.00; Harry Tinney, cutting weeds, $9.00; Albert McGowan, cutting weeds, $21.00; J. J. Buchanan, street work $8.40; Local Ration Board, expenses for June $24.98; H. B. Puffer, part salary as tax collector, postage, phone, P.O.B. rent, etc. $52.90; J. A. C. Allan, account to date $2.21; George Davidson, sharpening picks, $1.00.

Council adjourned until September 13.

Marmora News

Miss Helen Nayler is visiting relatives at Lindsay.

Mr. Vernon Green of Ottawa is spending holidays at his home here.

Mr. and Mrs. J. French moved on Wednesday to Sine.

Frank Grant of the R.C.A.F., Guelph, spent the week-end at his home here.

Mrs. Zed La Fontaine of Tweed spent Thursday with her sister, Mrs. M. Clement.

Mr. and Mrs. Charles McInroy spent Tuesday in Peterborough.

Killed In Sicily

Lieut.-Col. Ralph M. Crowe, 32, officer commanding the Royal Canadian Regiment, who was killed in Sicily while leading an advance against a strong enemy position. He is a native of Guelph, Ontario.

Jake, Bill Flying Pals Inseparable Even In Death

By JOSEPH MORTON

AN AMERICAN BOMBER BASE IN SICILY, Aug. 13 — (AP). — They're talking here about a new immortal sergeant—a gunner who staked his life on his word.

He name was Jake. His passion was a battle-stained bomber in which he fought. His best friend was Bill, his pilot. I can't tell you their full names until their families are notified. Together they came out of the Mideast with the British 8th Army—from El Alamein to Tunisia to Sicily.

Almost every day Jake repeated this vow: "If Bill ever goes down, I'll go with him."

Yesterday, in the smoky skies over Eastern Sicily, he lived up to that promise.

A German cannon sent an explosive shell into the plane, killing the co-pilot and gravely injuring Bill. Jake left his gunner's turret at his friend's summons and flew the bomber while the other crew members bailed out. No pilot himself, Jake kept the ship righted while Bill tried to get free. The plane exploded with both still aboard.

The navigator bombardier, Lieut. Gabriel Dumont, of Skowhegan, Me., one of the three who safely bailed out, told this story:

"We were in formation, bombing Randazzo and had just finished the run over the city when the plane was hit by flak. Down below the bombardier's compartment I heard the shell strike—not much more than a thud. The interphone system went out.

"I started along the catwalk back to the pilot's part of the plane. The floor was wet and slippery with blood.

"When I got to the upper part of the plane I found it filled with smoke. Bill was flying it still.

"There was a hole 18 inches wide on the side of the cockpit. The co-pilot was slumped in the seat. The shell had entered under him, exploding almost between his legs. Both legs were severed and his stomach was ripped open. There was not enough left to put a tourniquet on. His clothes were blown off. A minute or two later he died.

"Bill seemed stunned, but was doing his best to keep the plane going. Some of the cables were cut and he had no aileron control. He was flying with only the elevators and a small rudder trim. No wonder we had cut out of formation.

"Bill's right leg was hit, but he refused first aid. He said we'd spin if he left the controls even 10 seconds. Then he called for Jake. I knew he was bent on getting the plane back. Bill crash-landed once in Alamein on nothing but the nose-wheel and tail-skid without damaging anything more than the prop. He thought he could do it again.

"Well, Jake came down from the turret and wedged himself in between Bill and the co-pilot. He took over the controls and was doing a pretty good job keeping us going. I gave him the heading back to the field, but it seemed impossible to turn the plane. Pretty soon we were heading straight for the sea.

"When we got close to the water Bill decided it was time to bail out. He gave the orders and three of us jumped. Before I hit I saw the plane crash offshore and explode. It went down in a hurry.

"The way I figure it, Bill was too stunned to make it. He may have been jammed in his seat. Jake went down fighting to keep the plane under control. His parachute was on the navigator's table behind him. I don't think he ever intended to leave without Bill."

Mice Moved In

ROCKWOOD, Ont., Aug. 13—(CP).—Poor church mice! The housing shortage seems to have reached even their small lives, causing them to take up abode in a cassock at St. John's Anglican Church here. Keith Hamilton put his hand into the cassock's pocket during last Sunday's service and found six mice quite at home there.

General Urges More Sacrifice

CAPE TOWN, Aug. 13 (CP)—Interpreting the voting of the people in the recent South African general election as evidence of a determination to carry on regardless of hardship or sacrifice, Prime Minister Smuts in a speech at Port Elizabeth said the stage had been reached when more would be demanded of the people of the Union. Humanity would demand from South Africa her contribution of universal suffering, said Gen. Smuts.

Referring to the sudden collapse of Mussolini's tyranny in Italy the prime minister said it was the direct result of the military and political programs of the United Nations. It was a calculated sequel to a well-conceived and brilliantly executed plan which had its political as well as military aspects.

"This astonishing and rapid development finds its origin in the victories gained in east and north Africa," said the Prime Minister. "They shattered the morale of the Italian army and the confidence of the people in Mussolini's leadership."

In reference to the native question Gen. Smuts urged the problem of native Africans should be tackled. "Do not think we shall succeed as a united European South Africa unless we can satisfy our consciences in our relations between black and white," he stated.

South Africa's Soldiers

Eleven hundred South African soldiers, many wearing the crusaders cross, emblem of Gen. Montgomery's 8th army, have arrived in Cape Town. Among them are engineers who have been away three years with the South African forces. The party also included 178 prisoners of war repatriated from Italy. All looked fit says Reuters and there were few grumbles about treatment by Italians.

The court of inquiry appointed by the department of defence to look into rioting by colored troops at Laingsburg, Cape Province, has found that the rioting was spontaneous and that no organized attack was made at any time upon Europeans as such or against property.

The court found that not more than 50 soldiers were involved and that their behavior was due to excessive drinking and to smoking dagga. Stricted enforment of military travelling discipline is recommended.

Features of Elections

Final election results are Pro-war 107, Herenidge (Nationalists) party, 43. The government majority includes 89 United Party representatives, nine labor, seven Dominion and two independent. Three members representing native voters are not included in these figures. Gen. Smuts has a clear majority over all parties of 28 and a pro-war majority of 64, excluding native representatives.

Main features of the election were: all members of the cabinet have been retained, all Africaner party candidates have been defeated, including N. C. Havenga. In Free State they lost to the Malanites (Nationalists) and in the Transvaal to the government. Speaker Ernest Jansen was defeated by 150 votes in Vryheid.

On behalf of the Nationalist party two attempts were made to obtain an interdict against counting of soldiers' votes on the ground of incorrect filling of voting papers but were dismissed. The number of votes affected was less than 200. The opposition claimed that 25 per cent of the soldiers' vote was accrued to them.

Canadian Chinese

Albert Mah, Canadian-born of Chinese parents, born in Prince Rupert, B.C., was a civilian pilot in air observer schools at Edmonton and Quebec, for Canadian Pacific Air Lines for two years. He flew east from Canada, and has been accepted by China National Aviation Corporation as a pilot to fly from India to Chungking. He hopes in some way as yet undisclosed to aid his mother and sister who are in Jap-held part of China.

Marmora News

Mrs. Percy Gray received a cablegram from her son, Sgt. Robert Gray, who is an original of the Hastings and Prince Edward Regiment, stating that he is in Sicily and quite well.

Mr. Walter McWilliams of Rochester, N.Y., and Miss Helen McWilliams of St. Thomas are visiting their sister, Mrs. Art Eggleton, and Mr. Eggleton and other relatives here.

Miss S. M. Ford and Mrs. R. Garbutt of Belleville are holidaying at Tipperary Hotel, Crowe Lake.

Sergt. Clare O'Neill of Petawawa is spending a few days with his parents, Mr. and Mrs. George O'Neill.

Week-end guests included Miss Joan Shannon and Mrs. Genevieve Hughes of the W.R.C.N.S., Toronto, with the former's parents, Mr. and Mrs. J. A. Shannon; Mr. and Mrs. J. Rambough and daughter, Carol Ann of Orillia, with relatives here; Tom Bedore of Belleville with his parents, Mr. and Mrs. Wilbert Bedore; Pte. William Prentice of Kingston with his parents, Mr. and Mrs. W. Prentice.

Mr. and Mrs. A. M. Jones, Mr. and Mrs. Ford Woodhouse, Mr. and Mrs. Maurice Barlow and Miss K. Gaffney are occupying Mrs. Dan Shannon's cottage at Crowe Lake.

After spending a furlough at his home here, Able Seaman Arnold Caldwell has returned to his station.

Mrs. Lillian Seeney and child of Toronto are visiting her mother, Mrs. Clara Hamilton.

Fewer Raid Victims

LONDON, Aug. 13 (CP).—Civilian air raid casualties in Britain during July were 167 killed and 210 injured, it was announced today.

LAKEFIELD

Council Clamps Curfew Law Over Village

LAKEFIELD, Aug. 13— (ENS).—After a debate of several months village councillors and Chief Garnet Samis solved the curfew problem and have instructed the chief to enforce it at 9:30 in the summer and 9 o'clock after November 1.

"This will save me a lot of trouble," commented the chief. "I have been getting a lot of arguments on this issue when it seemed that the village was unable to pass such a law. Now I'll clamp down."

Not Assessed

Councillor Dave Millar reported a prospective buyer for a lot and Clerk E. H. Northey in a check-up of the area discovered that three lots in the area of the desired property were not assessed. Members again mentioned the advisability of a reassessment.

Sid. Hutt appealed the decision on his pool room license and brought to light the fact that no license had been paid since 1937 and Clerk Northey produced the by-law which stated the first table was to be assessed $20 and each additional one $5 per year. There was considerable debate as to what should be done in collecting the arrears and Reeve Scriver decided the back taxes were uncollectable. Hutt was let off with a tax of $25 for this year, two tables being let go free on his plea of considerable less business.

W. C. Grant presented a new traffic by-law embodying all the latest Provincial By-Law additions and some of the Department suggestions. This received the sanction of the council and will go to the Department of Highways for final approval.

Speed Limit

Chief Samis reported complaints regarding speeding in the park and suggested a by-law setting a low speed limit there. On advice of W. C. Grant that a charge of careless driving could be laid without a by-law being passed the council ordered signs up showing speed of 15 miles per hour in that area, and instructed the chief to lay charges against culprits.

A bright note was introduced in the clerks report of a rebate of $173.73 on the street lighting.

Chief Samis reported labour very hard to get for weed cutting and stated one youth put on the mower did a very poor job but that the man doing the park was proving very satisfactory. He stated many citizens owning vacant lots had reported that they had tried unsuccessfully to get someone to cut the weeds.

Reeve Scriver requested the clerk to check on all tax arrears in an effort to get them settled as soon as possible, threatening tax sales in most flagrant cases.

Lease Lots

Clerk Northey reported two more lots leased in the park for cottages, the deal being made with Toronto men. This brings total to four for this year. The foundations for the buildings will be laid this fall providing the council sanctions the plans for the cottages.

Under this scheme the leasee pays $30 down to cover a lease at $10 a year. The fee is $10 a year after that and the lease is renewable every 10 years. Taxes must be paid on the cottages as well. Park revenue so far this year has been approximately $239. Several citizens who have had gardens torn up by numerous dogs complained and the council decided that dog owners must tie their dogs until September. Owners are to be notified.

The matter of painting the outside of the town hall was brought up and unanimously approved, the clerk being authorized to call for tenders, the interior will be done next year.

Accounts Passed

Accounts to the value of $900.57 were passed as follows on motion by Councillors Graham and Millar:

Township of North Monaghan, calcium chloride $140; G. Wanamaker, Hall lawn, $4.90; Lloyd Allan, streets, $2.45; Thos. Martin streets $5.60; Wm. Ruttle, streets $13.65; Albert Hopkins, streets, $7.35; Chief Samis, first half salary, $51.20; Martin Holland, park pillow cases 98c; S. J. Charlton, Lloyd's Insurance $14.00; Mr. T. Martin, park work $14.20; Chief Samis, last half salary $51.20; E. H. Northey, July salary, $50.00; Wm. Edwards sanitary fees $11.55, Bell Telephone, Hall $3.80, police $2.03, Wm. Ruttle, Hall $2.80, streets $29.40; Percy Hockaday, grading $3.50; Ernest Turl, Hall grass $1.05; E. H. Northey, Hall $11.20; park $1.25; Hydro Electric Hall, rk streets $142.01; William Watson, July, park salary $50.00; Garnet Samis, tent damage in park, $8.35; P. H. Darling $7.00; Wm. Edwards, sanitary fees, $14.30 Wm. Edwards, park, Hall, dump, $17.30; Roy Bullock, repairs $37.85, Porter Co., relief $30.00; F. L. Erskine, bulbs, Hall, $5.80; Chief Garnet Samis, car expenses, $10; Stan Richardson, spreading calcium chloride, $54.45.

Pembroke Woman Dies

TORONTO, Aug. 13 — (CP). — Miss Eliza B. White, a member of one of the most prominent families in Pembroke, Ont., died in hospital here yesterday. Her grandfather, the late Peter White, was founder of the town of Pembroke in 1828. Miss White had lived in Toronto for 28 years.

Houses Built Rapidly

EDMONTON, Aug. 13 — (CP).—Victor T. Goggin of Toronto, managing director of Wartime Housing, Limited, said yesterday completion of the construction program for 17,500 houses across Canada is in sight.

Canadians Make Friends In Sicily

German propogandists would have liked to have been able to tell the world that Allied treatment of Sicilian civilians was that of a swaggering conqueror. But such scenes as this completely shatter Axis hopes of a propaganda victory. Here, Cpl. H. Whitaker of the Royal Canadian Signals, of Winnipeg, Man., gives candy and biscuits to a Sicilian boy.

News Blackout Shrouds Citadel

QUEBEC, Aug. 13 (CP).—Pending the start of the Quebec conference proper, when Prime Minister Churchill returns and President Roosevelt comes here, a virtual news blackout has settled down over Citadel Hill and the Chateau Frontenac.

Those still conferring here, including the combined chiefs of staff of Britain and the United States and Prime Minister Mackenzie King who with a part of his Cabinet is administering the government from here, resist appeals for news as sturdily as the citadel stood off its attackers in the early days of its history.

Mr. King had a long private conference with the British Prime Minister Tuesday evening and yesterday the two met with their War Cabinets—the Cabinet War Committee in the case of Canada—for a three-hour discussion at which Mr. Churchill is reported to have given an intimate picture of the war as a whole and joined in discussion of the particular contribution Canada has made and will make in the future.

These conversations will be resumed later.

It is understood that top conferring officers from the United States have not yet arrived but that they may be expected to precede President Roosevelt and his immediate party.

There was no official news today, verbal or written, and there has been no official or even unofficial announcement from any responsible authority on the absence of any representation from Russia and China which, with Britain and the United States, make up the "Big Four" of the 30-odd United Nations whose destinies are the subject of the conference.

Today the correspondents were visited in their headquarters by a spokesman from the Wartime Information Board who was able to say only that "military conversations" are still proceeding within the closely-guarded Chateau; that the Canadian Prime Minister remained in Quebec; and that there has been no meeting of the Canadian cabinet war committee today.

Most members of the war committee of the cabinet who met with Prime Minister Churchill at Quebec yesterday are back at their offices in Ottawa today.

(The only two who did not return are Prime Minister Mackenzie King and Air Minister Power who represents a Quebec City constituency a report from Ottawa said.)

Labor To Vote

TORONTO, Aug. 13. — (CP). — [illegible]yees in three Ontario plants [illegible]ed in war work will vote next [illegible] to determine their collective bargaining agency, it was announced to-day.

Workers at the Fahralloy (Canada- Limited plant at Orillia will cast ballots on Monday, August 16, under the direction of Prof. Jacob Finkelman, Registrar of the Ontario Labor Court. The following day voting will take place at the Canada Machinery and the Galt Malleable Iron and Steel plants at Galt, Ont.

Education Fails To Curb Drink Traffic

ROSENEATH, Aug. 13 (ENS). — The highlight of the meeting of the United Church W.M.S. on Tuesday afternoon was an address by Mrs. A. J. Campbell on 'Stewardship.' Mrs. Campbell is the society's temperance and peace secretary, and before launching into her address proper she commented briefly on the work of her department. That education had failed to curb the drink traffic, that legislation might, provided we knew how to go about it, was the opinion of the speaker.

Peace she said was what we are all praying and working for, a complete and lasting peace, fair to all suffering humanity the world over. "Dare we hope that another year might bring into being the principles laid down by Churchill and Roosevelt," were the closing remarks on the subject.

Of stewardship she said, a steward is a loyal partner and trusted representative of an other. Stewardship must be practised in all activities of life; what it would mean in the business, industrial and religious world was well brought out in detail by Mrs. Campbell previous to summing up stewardship thus: God owns everything, He invites men to subdue the earth and possess it; man is a steward to administer his possession as a sacred trust, and stewardship of each life can only be judged by taking into account its highest possibilities.

The meeting was held in Mrs. Andrew Brown's home and the president, Mrs. R. Crego, presided.

During the business session it was decided to contact an outside speaker for the autumn thankoffering service, and a number of articles were brought in for the December bazaar. An interesting program consisted of a solo, 'More Love to Thee,' sung by Mrs. J. N. Blodgett, of Toronto, a guest of Mrs. A. Hill. Two readings, 'Her Son is Missing,' and 'A Word of Cheer' by Mrs. A. Halstead and Mrs. M. Davey, respectively; a song by little Mary Halstead and a current events contest by the president.

Afternoon tea was served by the hostess at the close.

Women May Be In

LONDON, Ont., Aug. 13 (CP)—Officials of the National Selective Service office here said yesterday a sixth compulsory transfer order may be issued by the Dominion government, more sweeping than the first five and possibly including women.

GENERAL RETREAT STARTS IN SICILY

Fierce Fight Rages In Kharkov City

Germans Retreat Along 500-Mile Front

MOSCOW, Aug. 14—(AP)—The Red Army has battered its way into the streets of Kharkov from several directions and obtained a firm vice-like hold about that Ukraine steel centre, front-line dispatches said today.

To the north where Russian forces had piled on another offensive in the graduallly-developing summer campaign, two other German defence hubs, Bryansk and Smolensk, were menaced by the smashing of strong fortifications in the Spas Demensk sector.

In the central sector, the Red Army was reported to have advanced steadily along the railroad from Orel toward Bryansk and heavy fighting was reported at Karachev, only 28 miles from Bryansk.

The new offensive, near the western-most point in the Russian lines, was a two-pronged thrust north and south of Spas Demensk, 85 miles southeast of Smolensk.

Gain 13 Miles

The Russians said that one column had pushed 13 miles in the last three days to take the town of Pavolino, 73 miles from Smolensk. Other Soviet troops were 60 miles north of the city in the Velikie Luki area.

The advance was accompanied by what was described as a powerful artillery attack which shattered German defences and permitted the Russians to break through and capture 100 villages. More than 2,000 Germans were killed in the fighting, the communique said, and quantities of war material were captured.

Smash Counter

In the Akhtyrka sector northwest of the city, a German counter-attack was beaten back with heavy losses, the communique said. Hundreds of Nazi dead were left on the field and 26 enemy tanks were destroyed. In other sectors more than 4,000 Germans were killed in recent fighting, the Russians said.

The advance on Bryansk, the Russians said, was continuing steadily in the face of stubborn German resistance. They said the Red Army had developed its attack with infantry and tank units supported by planes.

More than 20 villages were taken in yesterday's fighting around Bryansk, including the district centre of Shablikino, southeast of the key town of Karachev.

British Ambush Jap Column

NEW DELHI, India, Aug. 14—(CP).—Land patrol action in which British parties ambushed and killed nine Japanese and air raids in which two locomotives and 40 railway cars were ripped apart by cannon and machine-gun fire in the Mandalay and Kyinguan areas of Burma were announced to-day by a British communique.

Hurricanes, dipping over the Mayu Peninsula in the Akyab sector bombed and machine-gunned many enemy hutments and sampans it added.

The patrol clashes occurred near Buthedaung and in the Chindwin river area.

Meanwhile Maj. Gen. Clayton L. Bissell, commander of the U. S. 10th Air Force, said that the Force had delivered 70 per cent. more tons of bombs on Burma last month than in June, despite the monsoon, "for which our people gained a profound respect."

Her Unlucky Day

SEATTLE, Aug. 14—(AP). —It wasn't Friday the 13th to Kathleen Aumen. It was her 10th birthday. Kathleen invited her playmates in yesterday to help her celebrate. One of the little girls found a small bore rifle on a table and pulled the trigger. The bullet struck and killed Kathleen.

Lt. Bob Hamilton Mentioned In Sicily Push

By ROSS MUNRO
Canadian Press War Correspondent

WITH THE CANADIANS IN SICILY, Aug. 3 (Delayed)—(CP)—Backing up the 200-mile push of Canadian infantry, tanks and guns, the Royal Canadian Army Service Corps did a superlative job of hauling thousands of tons of gasoline, ammunition and supplies to the frontline to keep the advance rolling.

Day and night, since landing a few hours after the assault troops, truck drivers, dispatch riders, jeep drivers, platoon, company and headquarters officers have worked with little sleep to ensure that the forward troops received what they needed.

In Canadian-made three-ton trucks which stood up magnificently to the pounding they've taken on terrible mountain roads, tireless R.CM.A.S.C. drivers have driven from 500 to 3,000 miles in the past three weeks. Despatch riders herding convoys up the line have gone just as far and done hundreds of long runs with messages.

The R.C.A.S.C. and "Q"—Quartermaster—organization has been the behind-the-front mainstay of the Canadian advance.

Commander of the Divisional R.C. A.S.C. is a Calgary Lieutenant Colonel. Headquarters officers include Maj. Lou Diehl, Hamilton, Ont. They were closely linked with "Q" branch of divisional headquarters headed by a London, Ont., and Montreal Lieutenant Colonel.

The quartermaster branch of headquarters gets the front-line requirements for gasoline, ammunition and supplies and the R.C.A.S.C. gets them up from the base.

One of the companies doing these tremendous hauls through rougher country than on any other part of the front is commanded by Maj Bob Robarts, London, Ont.

With the Colonel, I went around the forward R.C.A.S.C. companies and dumps, talking to officers and drivers who have worked themselves close to exhaustion to maintain the advancing troops so well.

Needed Water

After a bridgehead was established shortly after dawn of July 10, R.C. A.S.C. vehicles began to come ashore with supplies and trucks immediately followed up the infantry and tanks. Gasoline got top priority, then came ammunition. The assault troops had taken ashore 24 hours' rations and so the R.C.A.S.C. didn't have to truck food forward until the second day. But water had to go up right away.

Only a small number of vehicles were available at first but gradually more were landed to keep supplies going to the front which was moving 20 to 30 miles ahead daily.

After the Canadians passed the coastal plain and got into the hills and mountains of central Sicily the R.C.A.S.C. job really got tough.

Every officer I spoke to praised the drivers, many of whom went four, five and six days without even taking off their boots. They grabbed sleep in their trucks while spare drivers spelled them off. Some round trips from the front to the base and back were 250 miles at some stages of the advance and they took 17 hours of steady going.

At the front and the base they generally got hot meals while main-

Gordon Says Prices On Increase

Advises Citizens To Co-operate Or Face Inflation

TORONTO, Aug. 14.— (CP). — Donald Gordon, Prices Board chairman, said to-day that wartime controls are losing the active public support they receieved under the stimulus of possible defeat in the war.

"The cold fact is that we are not succeeding in holding down these costs (which lead to inflation)," Mr. Gordon said in an address prepared for delivery before a luncheon meeting of the annual convention of the Canadian Weekly Newspapers Association.

Asking that newspapers continue to stress the need of maintaining controls to prevent wartime inflation, the Board chairman said that if he were summarizing the present situation it would be thus: "The world war front looks promising and our home war front is far from happy."

Public Let Down.

When there was the prospect of possible defeat or at least a long-delayed victory, controls had active public support.

"Everybody now is thinking of victory and a great deal of wishful thinking is being indulged in about an early peace, with a quick abandonment of wartime restriction," he contued.

"Unfortunately, this let-down of public support comes at the very moment when the need for control is more vital than ever. The cumulative effect of shortages of civilian supplies and raw materials, machinery and manpower is exerting more pressure now than at any time since the begining of the war.

"Many people fed-up with restrictions and controls are tending to let selfishness rule their judgment, forgetting that in so doing they not only weaken the drive needed for the knock-out punch to our enemies, but as well they risk losing the benefits they have achieved by their forbearance and co-operation up to the present time."

Labor Wants More

Mr. Gordon said "pressures" were making themselves felt on every side, and he referred to them as follows:

1. "Labor is militant and demanding wage adjustments all along the line. Notwithstanding the wage ceiling many thousands of wage increases are being demanded, and as one wage adjustment after another is made it is reflected immediately in the costs of production, which, in turn, means the pressure on the price ceiling is rapidly becoming insupportable.

2. "Food prices are creeping steadily upwards as the agricultural industry insists upon, and obtains, higher prices under the emergency of curtailment of essential supplies."

3. "With few exceptions business and industry keep their eyes on profit margins and jealously protest any move to limit or control them.

"Others traffic illegaly to get more than their legitimate share of available supplies. Generally speaking, our courts deal leniently

GORDON SAYS

Safety Device

NEW YORK, Aug. 14 (AP). —No longer will Chief, Dalmation dog-mascot of fire engine company 20, fall off the truck and have to run the rest of the way to a fire. Chief bounced off the truck so many times that firemen built a special cab on the running-board to keep the dog on the truck.

17 Canadians Shoot Down 220 Axis Planes

Written For The Canadian Press by Flt. Lt. Basil Dean, R.C.A.F.

LONDON, Aug. 14.—(CP).—Seventeen Canadian fighter aces of the present war have accounted for more than 220 enemy aircraft.

They flew in operations ranging from Dunkirk and the Battle of Britain to the Sicilian campaign. Between them they have won at least 34 decorations for gallantry.

Early in the war a young Canadian fought his way into "ace" category. He was Willie McKnight, a pilot officer in the R.A.F from Calgary, who flew in the famed "all-Canadian" squadron led by Wing Cmdr. Douglas Bader, D.S.O. who was then a squadron leader.

Over Dunkirk and in the Battle of Britain McKnight destroyed 16½ enemy aircraft and won the D.F.C. and Bar. He was reported missing following one of the early R.A.F. Sweeps over France.

With him in those early days flew another Canadian, Sqdn. Ldr. P. Stanley Turner, D.F.C. and Bar, of Toronto, who is also in the R. A.F. Turner, now leader of the City of Windsor Spitfire squadron in Sicily was a Flight Commander in the "All-Canadian" squadron when Bader commanded it. He now has a total "bag" of 14 enemy aircraft destroyed.

Served in R.A.F.

During 1941, before air training plan graduates had the opportunity to pile up big scores, a third Canadian in the R.A.F. Sqdn. Ldr. E. F. J. Charles, D.F.C., and Bar of Lashburn, Sask., was achieveing a big reputation. At the most recqent count Charles had destroyed 13 enemy aircraft. He is still flying on operations.

The furious air fighting over Malta during 1942 gave great opportunities to crack fighter pilots and it is known now that 25 per cent of all fighter pilots on the island during its great bombing ordeal were Canadians. Several achieved outstanding records.

Malta Theatre

Leader of them all, of course, is FO. George Beurling, D.S.O., D.F.C., D.F.M. and Bar, of Verdun, Que. He has 29 destroyed.

A remarkable ace of a different kind was Sqdn. Ldr. R. C. (Moose) Fumerton, D.F.C. and Bar of Fort Coulonge, Que. A night fighter pilot he destroyed 13 enemy aircraft, all during darkness.

Wing Cmdr. Mark Brown, D.F.C. and Bar of Glenboro, Man., who was killed in action in Africa early last year, had destroyed 18 enemy aircraft when he gained the Bar of his D.F.C. His total is known to be more than 20.

Sqdn. Ldr. R. W. (Buck) McNair, D.F.C., and Bar, of North Battleford, Sask., has a score of 12 destroyed.

Austrian City Bombed First Time

American Planes Flatten War Industries

LONDON, Aug. 14 — (CP). — American heavy bombers, striking deep into Hitler's hitherto almost unreachable southeast European war industries, yesterday attacked Wiener Neustadt 30 miles south of Vienna in former Austria, a Middle East communique disclosed today.

It was the first time since September, 1942, when Russian planes bombed Vienna, that Allied bombs had fallen on Austria.

There were few details of the attack, beyond the statement that factories, an assembly plant and hangars had been hit.

The announcement from Cairo did not reveal the base from which the heavy assault was made, but the long-range planes could have dealt the blow from Cap Bon, 800 miles from Wiener Neustadt, or from airfields of Cirenaica, 1,100 miles away.

The heavy raids coincided with other shattering blows dealt yesterday on Rome by American heavy bombers, and followed up heavy overnight attacks by the R. A.F. and R.C.A.F. on Milan and Turin in Northern Italy and a raid by Mosquito bombers on Berlin.

The Saturday Italian communique, broadcast from Rome and recorded by The Associated Press, said that 218 persons were killed and 570 injured in yesterday's heavy bombing of Rome's railway facilities.

An Italian underground radio urged Italians to overthrow the Government of Premier Pietro Badoglio quickly and stop such raids as yesterday's.

"The destruction of our towns as proved by yesterday's raids is the bill we Italian people have to pay for this stubborn blindness," the broadcast said.

The R.A.F.-R.C.A.F. night attack on Milan and Turin, carried out while speedy mosquito bombers were smacking Berlin, was officially described as the heaviest of the war on Italian objectives.

The Rome radio said the British and Canadian airmen over Milan used a new type of incendiary bomb containing about 15 gallons of an inflammable liquid and "to these the worst destruction by fire must be ascribed."

In the Rome raid, the American precision bombers flying in waves showered explosives on the San Lorenzo and Littorio railway yards—the same targets partly wrecked in the first Rome attack July 19.

Without a Loss

Some 40 and 50 enemy fighters rose to the combat, but the Americans poured more than 500 tons of bombs on their targets and returned to their African bases without loss of a plane.

As in the first raid, the airmen were carefully instructed to avoid religious or historic landmarks in the Eternal City.

(The Swiss Telegraphic Agency relayed a dispatch saying the Church of Our Lady of Lortte was reported badly damaged.)

The Rome radio claimed places

AERIAL BLOWS
(Continued on Page 14, Column 4)

Messina Strait Is Under Fire From Navy, Airforce Blockbusters Smash Ships

ALLIED HEADQUARTERS, North Africa, Aug. 14 — (AP). — Pelted by everything from blockbusters to machine-gun bullets from the air and artillery fire from the sea, the German army has begun a full-scale evacuation in an effort to save as much material and manpower as possible from the wreckage of Sicily for the battle of Italy. With their centre caved in by the Allied capture of Randazzo, north of Mount Etna, the Germans put their evacuation machinery into full swing, it was announced to-day. They were retreating behind a strong rearguard which fell back rapidly in front of victorious British and American infantry attacks.

Sweeping to within 34 miles of Messina in virtually all sectors, the Allies captured Piraino on the north coast, Floresta in the central sector, and Riposto, Giarre and Milo on the east coast.

Scramble to Escape

An Allied commentator, confirming previous field reports of the German withdrawal, said there no longer was any question but that the Germans' sole aim was to escape to the Italian mainland with as many troops and as much equipment as possible.

Allied aerial reconnaissance showed that ships crossing the narrow, bomb-tossed Messina Strait were arriving empty and departing loaded.

The Strait was under constant fire from British light warships and coastal craft and from the fleets of Allied bombers shuttling back and forth through that "Flak Alley" with their loads of 2,000-pound blockbusters and cannon and machine-gun ammunition.

R.A.F. and Canadian Wellingtons dropped two-tonners on ports on both sides of the strait and laid strings of them along the beaches where enemy infantry was seen wading to the boats.

The overall picture in the narrowing Messina bridgehead began to resemble the German collapse at Cape Bon in Tunisia last May, but with this chief difference: the German retreat was orderly and a weary German rearguard was offering a fierce covering resistance.

But the British and American infantry was stabbing in and making inroads, particularly in the central sector where the fall of Randazzo had made the whole area untenable.

It appeared doubtful if the enemy would be able to extricate his heavy equipment and get it across the strait, despitte the employment of every delaying device known to modern warfare.

As they near the coast the Allied troops probably will come under the batteries of 15-inch shore rifles erected on the Italian mainland to beat off Allied warships and lay down a curtain of steel before the evacuation operation.

These giant guns, throwing 2,400-pound shells a distance of 20 miles, have been in action, and naval reconnaissance indicated that there were several groups of them near the Italian toe.

"The battle of Sicily is not quite over, but those boats I saw today are the enemy's admission that we have won it," said the commanding officer of an R.A.F. photographic squadron.

Although met by a hail of anti-aircraft fire the Allies lost only four aircraft in all operations yesterday. They accounted for 10 enemy planes.

China Smiles—After Six Years Of War

A picture made at a reception held by Generalissimo Chiang Kai-Shek in Chungking, July 21, 1943, showing the Generalissimo smiling benignly at a young Chinese war orphan who shyly returns the smile. And after six years of war!

U.S. President Reiterates Atlantic Charter Pledges

WASHINGTON, Aug. 14—(AP).—President Roosevelt, declaring the Allies now "stand upon the threshold of major developments in this war," reaffirmed his belief today in the Atlantic charter pledges to establish world freedom.

In a formal statement commemorating the second anniversary of the signing of the charter, the President said the Allies are determined to gain "total victory" over the Axis and recognize as enemies not only Germany, Italy and Japan, but all "forces of oppression, intolerance, insecurity and injustice."

His partial statement follows:

Today, on the second anniversary of the signing of the Atlantic charter, I would cite particularly two of its purposes and principles on which we base our hopes for a better future for the world.

First—Respect for the right of all peoples to choose the form of government under which they will live. When the Atlantic charter was first signed, there were those who said that this was impossible of achievement. And yet, today, as the forces of liberation march on, the right of self-determination is becoming once more a living reality.

Second—World-wide collaboration with the object of security, for all; of improved labor standards, economic adjustment and social security.

We are now fighting a great war. We fight on the side of the United Nations each and every one of whom has subscribed to the purposes and principles of the Atlantic charter.

Today, we stand upon the threshold of major developments in this war. We are determined that we shall gain total victory over our enemies, and we recognize the fact that our enemies are not only Germany, Italy and Japan: they are all the forces of oppression, intolerance, insecurity and injustice which have impeded the forward march of civilization."

Allies Storming Salamaua Base

ALLIED HEADQUARTERS, THE SOUTHWEST PACIFIC, Aug. 14—(CP)—Much of Salamaua, Japan's vital air base on northeastern New Guinea, lay in smoking ruins today, devastated in 45 minutes yesterday by 177 tons of bombs dropped from Allied heavy bombers.

Debris littered the waterfront of the one-mile long Isthmus on which Salamaua juts into the Huon Gulf. The big airdrome, two miles inland, was the scene of widespread damage. Chinatown and the village of Kela, which faces Salamaua across a bay, were covered with dust and smoke.

Whether this Friday, the 13th, raid presages capture of Salamaua by American and Australian jungle troops, now only five miles to the south at Bobdubi, remains to be seen.

Salamaua, which the Japanese occupied in January, 1942, is only 150 miles south and west of Japanese-held New Britain.

EXTRA!

TORONTO, Aug. 14—(CP)—Premier Nixon said today his Liberal government will resign next Tuesday and Lt. Col. George A. Drew, Progressive Conservative leader will be sworn in as Premier the same day.

Huns Will Not Surrender In Italy

Sicilian Campaign Gives Germans Fighting Chance To Reach Home

By DEWITT MACKENZIE
Associted Press War Analyst

We have in Sicily the seemingly paradoxical spectacle of the Germans battling to a bloody finish against the Anglo-American advance, whereas in the vastly important struggle for Tunisia—Hitler's last toe-hold in North Africa—the Nazis surrendered wholesale when cornered.

It is suggested by some writers that this reversal of form in the German ranks is due to recognition that the Reich now is in dire peril and must be defended to the death, whereas the Nazis troops in Tunisia didn't regard that zone as vital to the Fatherland.

Different Answer.

Having seen the Boche in operation in two wars, I don't believe that's the answer to the phenomenon in Sicily. Rather I think that General Montgomery gave the key when he remarked to me in North Africa last December:

"The German is a good soldier and will fight, though I believe it is true that once you get him down he cracks up."

As I see it the Germans quit in Tunisia, not because that country wasn't vital to their master but because they realized that continuation of the struggle was equivalent to suicide. They had no hope of beating the Allies and they had no hope of escaping from the trap into which they had been pushed.

Fair Chance

The situation in Sicily, however, is quite different, despite the fact that the Boche know they haven't a whisper of a hope of holding the island. While they fully recognize that they must "abandon ship," they undoubtedly believe, (1) that they have a fair chance of pulling off a Dunkerque and escaping to the mainland (in fact some of them already have made the bloody passage of Messina Strait), and (2) that once they are on the mainland they will ultimately be able to join the German troops which are holding the line of the Po River in Northern Italy in force.

In short, the German soldier doesn't look on the Italian adventure as suicidal, despite the fierceness of the struggle. That doesn't necessarily mean he thinks the Fatherland is headed for victory. He may or may not believe that. However, he probably thinks—and not without reason—that he has a chance of fighting his way back into German and coming through the war alive.

Think Of Home

The same psychological reaction undoubtedly inspires the Nazis who are fighting so fiercely against the onrushing Reds in Russia. The Hitlerites know that they have a chance of getting back home.

So far as concerns the Italian situation, even if the Badoglio Government should surrender and the Allies are able to overrun the lower three-quarters of the peninsula rather easily, there still must be a terrific fight along the defences of the Po, if the Allies choose to force the issue. And behind the German army of the Po there is the great Brenner Pass for retreat in to the Reich.

This characteristic of the German folding up "once you get him down" is something to keep well in mind these fast-moving days.

Allies To Confer In Russia

Diplomats Will Keep Stalin Posted

LONDON, Aug. 14 — (CP). — British and American statesmen are expected to visit Russia within the next few weeks, the Daily Telegraph said to-day, asserting at the same time that there is no misunderstanding between Great Britain, the United States and Russia.

On the contrary, the Daily Telegraph said, "close collaboration is being maintained with Moscow" on all phases of Allied war policy. The newspaper did not identify the British and American representatives who would go to Moscow possibly after the Churchill-Roosevelt war strategy conference.

While some newspapers expressed disappointment that Premier Stalin had not been invited to the Quebec meeting, others maintained it was perfectly logical, in asmuch as it was believed that one of the main topics on the agenda would be the situation in the Pacific, in which Russia as a neutral could not be exepected to take an active part.

The News-Chronicle said flatly that while stalin was not invited to Canada the Kremlin had been asked to participate in a three-way conference at a more convenient place but had "found it impracticable at the present time."

Farm Labor State Desperate

Forecast Next Year's Crop Greatly Reduced

TORONTO, Aug. 14. — (CP).—The monthly crop report of the Ontario Department of Agriculture to-day said the labor situation on Ontario farms "is becoming more acute and is described by some as 'desperate.'"

The situation has been aggravated by the late season, periodic rains and heavy hay crops, said the report, adding that care of hoe crops and many other farm jobs are being neglected.

"Women and children are taking the place of men. Farmers and their families, in many instances, are becoming weary and are determined to cut down production accordingly next year. Farm commandos have assisted to some extent with seasonal work in areas situated adjacent to urban centres."

Yields of wheat are disappointing and the grain is shrunken, the report said, while "reports indicate that production of spring grain in almost every county and district is likely to be much less than last year."

Pastures were better than average but have lost much of their feeding value due to maturity. While milk production dropped considerably, the decline was not as great as in previous years.

PLANS COMPLETE AT QUEBEC FOR MOMENTOUS WAR CONFERENCE

Staff Chiefs Arrive For War Talk

Eden Expected To Take Part At Later Date

By C. R. BLACKBURN
Canadian Press Staff Writer

QUEBEC, Aug. 14 (CP) — Combined Chiefs of Staff of the United Kingdom and the United States are here today to prepare for the momentous sixth war conference of Prime Minister Winston Churchill and President Franklin Roosevelt.

The American section arrived late yesterday.

How soon the two leaders will be here has not been revealed but Mr. Churchill is expected back from the United States soon and President Roosevelt is expected either to accompany the British Prime Minister or follow closely after.

In the Chateau Frontenac, conference headquarters, the Chiefs of all the armed forces of the two major democracies today began their work together—planning what may mean new and crushing blows for the Axis powers in Europe and in the Pacific.

Secrecy of their actions and their movements, except for dribbles of news from press officials, is being maintained as in the case of all conference activities since the commandeered Chateau was closed to press and public last Monday.

Last night there was speculation that one more prominent British political figure may arrive before the actual Churchill-Roosevelt confenence begins—Foreign Secretary Anthony Eden.

There was no official confirmation but one conference spokesman said there are "some odds" he will come.

The United States chiefs of staff who arrived late yesterday afternoon were Admiral William D. Leahy, United States Navy, Chief of Staff to President Roosevelt; General George C. Marshall, Chief of Staff, United States Army; Admiral Ernest J. King, Commander-in-Chief, United States Fleet; and General H. H. Arnold, Commanding General, United States Army Air Force.

With them were Gen. Brehon B. Somervell, Chief of United States Army Service Forces; Brig. Gen. John R. Dean, secretary to the United States Chiefs of Staff; and Capt. Forrest Royal, United States Navy, deputy secretary.

They were met by Lit.-Gen. Kenneth Stuart, Vice-Admiral Percy W.

OBITUARY

MICHAEL CROUGH.

The largely attended funeral of Michael Francis Crough was held in Toronto on August 10 from St. Anselm's Church to Mount Hope Cemetery. The requiem mass was sung by Rev. Father Maloney, his cousin, and he also performed the graveside service.

The flowers and spiirtual tokens showed the esteem in which he was held by his many friends in Toronto and Peterborough.

Born in Ennismore he was a successful farmer, later retiring to Peterborough and then going to Toronto.

He leaves to mourn his loss his widow, Caroline Moher, and seven children, Clarence, Vera, Cecil, Mona, Mary, Carrie and Blanche; one sister, Mrs. W. Moher, Toronto, one brother Edward Crough of Peterborough.

The pall-bearers were his four sons-in-law: Henry J. Murphy, Arthur E. Guy, Joseph E. Brioux, Leonard E. Dore, Harry J. Moher (nephew), and Joseph O'Rourke.

Two Views In Catania After City Fell To Allied Might

Sicilian residents of Catania are shown (TOP) clapping their hands in welcome as Allied troops, British and Canadian, rolled into Catania after the stubbornly defended city had fallen. BELOW, Axis prisoners taken in the battle clear away rubble from streets of the battered city. Radiophoto from Canadian Army Film Unit, via U.S. Signal Corps and W.I.B.

2 Belmont Men Wounded

HAVELOCK, Aug. 14 — (ENS). —Two soldiers from Belmont Township, Pte. Delbert Barker and Sgt. Vincent Fitzpatrick, have been reported wounded in action during the fighting in Sicily, and both were serving with the Hastings and Prince Edward Regiment.

Pte. Delbert Barker, 22, is the son of Mr. and Mrs. Garton Barker of Belmont. He enlisted on May 8, 1942, with the Prince of Wales Rangers, and stayed with the until Rangers, and stayed with the unit until he went overseas in September of 1942. Shortly after his arrival, he transferred to the Hastings-Prince Edward Regiment and his parents received word that details regarding his wounds would follow.

He was raised and educated in Campbelford as a boy, and before enlisting he was employed at the Woollen Mills here.

Sgt. Vincent Fitzpatrick, 32, is the son of Mr. and Mrs. Perry Fitzpatrick of Cordova, and details regarding his injuries are not yet available.

Enlisting September 4, 1939, in the Hastings-Prince Edward Regiment, Sgt. Fitzpatrick trained at Madoc and Picton, and went overseas in 1939 with the 1st Canadian Division. He has lived in Cordova all his life, and before joining the Army he worked at the Cordova Mines.

Gordon Says

Continued from Page 1

with offenders against wartime controls, conveying the impression that such offences are an understandably human weakness which ought not to be punished too severely.

"I say definitely that inflation is no imaginary condition — we have all the circumstances and pressure which create inflation right here—now!

"We must fight tooth and nail to prevent these pressures being translated into a price inflation. We are in the greatest possible danger of failing to do so."

Seeks Press Support.

Declaring that the state of public morale was largely in the keeping of the press, Mr. Gordon said that he believed too much emphasis was placed on the "burdens, dislocations and so-called sacrifices of war." The majority of Canadians living at home were better off than they ever were before the war. None of the horrors of conquest had been visited on Canadian homes.

"We cannot afford in wartime to be sentimental and soft-headed," he said. "Yet every report of a shortage, temporary or otherwise, becomes front page news and everyone rushes around to blame this person or that person for stupidity or lack of foresight, and so on."

He did not suggest the press refrain from criticism, for "plenty of situations" badly needed such a stimulating and cleansing force. The news on the home front should not be looked at as much through peacetime spectacles, "and it should be possible to get a better wartime perspective in regard to certain reports and criticisms."

The press should explain that orders and regulations are expedients arising out of emergencies beyond control, and the devices used could not remove the emergency but only ease and equalize its impact on all.

BUT SO FAR AWAY

The diameter of the moon is 2,160 miles.

Peterboro Soldiers To Get Cigarettes

At the soldiers cigarette bingo held in Legion Hall on Friday night the following names of Peterboro soldiers serving overseas were drawn out of the box. Each soldier will be sent a carton of 300 cigarettes.

Pte. J. Allan, Pte. F. A. Brand, Lieut. Gordon Clarke, LAC. J. F. Cupoli, Gnr. W. B. Clark, L/Cpl. G. Collins, Gnr. T. W. Dixon, Sgt. Pilot A. B. Harle, Pte. G. K. Johnstone, Gnr. H. Martin, Major H. G. Mason, Gnr. S. Montgomery, Pte. J. G. Pruner, Pte. M. Packenham, Sgt. L. D. Pugh, Pte. A. E. Read, Spr. E. Sullivan, Drv. W. G. Saunders, Rflm. W. J. Spenceley, Sgln. R. C. Thirnbeck, Trpr. A. Young.

Lt. Bob Hamilton

Continued from Page 1

tenance crews went over the trucks.

On the way up the line, the R.C. A.S.C. companies in addition to gas and ammunition carried medical supplies and mail, which is beginning to reach the front now, as well as reinforcements for frontline units.

On the way back to bases the trucks haul salvage like gasoline tins and ammunition boxes, give lifts to minor wounded and take back mail and also carry prisoners of war. It's a round-the-clock business.

Peterborough Officer

R.C.A.S.C. personnel also are driving Canadian ambulances. Troop carrying has been another R.C.A. S.C. task. Several times Maj.-Gen. G. G. Simonds had to move thousands of troops 20 or 30 miles in quick time and called on the Service Corps.

Getting up shells for the barrages is one of the most laborious jobs and in one company doing most of this work is Lieut. R. M. Hamilton, Peterborough, Ont.

I talked to ammunition truck drivers, including L. Cpl. Albert Greeman, Woodstock, Ont., and Pte. Edwin Tooker, Brantford, Ont. They said the worst featureof the whole job was the clouds of dust on the roads.

Robarts' group concentrates on bringing up rations but becomes a general clearing house for the division, handling mail bags, transport of prisoners and reinforcements, and practically anything else that crops up.

I met some of the hardest driving despatch riders including Cpl. Harry Pickles and Pte. Dan McDonald, both of London, Ont., who had gone more than 2,080 miles in less than three weeks.

The senior N.C.O. of the company is Sgt. Maj. Gordon McWaine, London, Ont., and one driver is Pte. Joe Goegan, Ingersoll and Port Colborne, Ont.

R.C.A.S.F. fitters are an important cog in the organization for they are frontline garagemen, keeping the vehicles going. The drivers themselves do a lot of maintenance. Among fitters here is Pte. Norman Henderson, Windsor, Ont.

With Allied air superiority the roads are not attacked very frequently by enemy aircraft and convoys have had a comparatively safe time. Not a truck has been lost through enemy action.

Italians In London

LONDON, Aug. 14—(CP). —The Daily Herald said to-day that Professor Gastano Salvemini of Harvard University and Count Carlo Sforza of New York City, two leaders of the Free Italian movement in the United States, had arrived in London with a few other Italian exiles.

CAMPBELLFORD

Visiting Team Defeats Bowlers

CAMPBELLFORD, Aug. 14. — (ENS). — Stirling players bested Campbellford in a jitney tourney staged here last night when twenty players from the neighboring town came over for an evening of bowling. The visitors took home five of the eight prizes offered by the local club, which also entertained them to a lunch at the conclusion of the evening.

Before the tourney was begun, a spider was called and this was won by Mrs. M. B. Sayers of Campbellford. Winners of the ladies' prizes were Mrs. L. B. Glover, Campbellford 27; Mrs. W. Whitty, Stirling, 26; Mrs. Burgiss, Stirling, 26; Mrs. W. S. Wiggins and Mrs. J. D. Mills, both of Campbellford, tied with 23, and the former won the draw. Men prize winners were Bill Whitty, Stirling, 32; Earl Fox, Stirling, 29; Dr. Helliwell, Stirling, 28; L. B. Glover, Campbellford 28.

The twenty visiting players plus 28 local members made up a total of twelve rinks and President W. A. Kingston presented the prizes, following which W. T Elliott, president of the Stirling Club, responded briefly.

MORE ABOUT—

17 Canadians

Continued from Page 1

Most successful R.C.A.F. Spitfire pilot over Malta was Flight Lt. Henry Wallace McLeod, D.F.C. and Bar of Regina, with a score of 13 destroyed at the time he left the island.

Flt. Lt. F. E. Jones, D.F.C., of Cloverdale, B.C., destroyed seven over the island.

In Malta Flt. Lt. L. Gosling, D.F.C. and Bar of Battleford, Sask., began piling up a score towards the end of the campaign and his total at the time of his second award stood at 10. He now is missing.

Sqdn. Ldr. V. C. Woodward of Victoria, B.C., a Canadian who joined the R.A.F. in 1938, has destroyed 20 enemy aircraft and now holds the D.F.C. and Bar.

Another ace is George Hill of Pictou, N.S., who is fighting in Sicily at the head of a R.A.F. fighter squadron. His score at the last count was 13 destroyed.

Wing Cmdr. James E. Walker, D.F.C., and two bars, of Edmonton, is the only member of the R.C.A.F. to be awarded the D.F.C. three times. He led a R.A.F. Spitfire squadron in the North African campaign and accounted for 10½ enemy aircraft destroyed.

Also in the North African campaign was Flt.-Lt. J. F. Edwards, D.F.C., D.F.M., of Battleford, Sask., whose record at the time of his D.F.C. award stood at eight enemy aircraft destroyed.

Top-scorers of the R.C.A.F. wing in Britain are Sqdn. Ldr. Hugh Godefroy, D.F.C., of Toronto, the squadron commander, who has six to his credit, and Flt. Lt. H. D. Macdonald, D.F.C., also of Toronto, who has destroyed eight.

Probably the most brilliant fighter pilot who ever flew with the R.C. A.F. in Britain was Flt.-Lt. Don Morrison, D.F.C., D.F.M., of Toronto, now prisoner of war. Morrison was awarded the D.F.M. July this year, several months after he had been shot down over France, and the citation recorded the fact he had destroyed 15 enemy aircraft.

LOW VOTING AGE

Suffrage is extended to all men and women 18 years of age in Brazil.

District Cheese Given High Rating

CAMPBELLFORD, Aug. 14 (ENS) —Cheesemen of this district can well be pleased with the quality of their product at the present time according to H. R. Bain, chief dairy instructor for Western and Central Ontario who was guest speaker at a meeting of the Northumberland County Cheese Producers' Association held here on Thursday evening. He told the gathering at least 85 per cent of the cheese graded here this week had been 94 score or better. "It was the nicest lot of cheese I have seen anywhere in Ontario," he said, adding that in his opinion production should hold up well during the fall months "if there are not too many cows go out of the country."

Admitting that one of the chief problems at the present time was the decrease in production Mr. Bain offered the suggestion that if it was the government's plan to have cheese made during the coming winter some announcement should be made of the fact at an early date so an opportunity would be provided to get plants in condition for cold weather manufacture. "We made a lot of cheese for the 25 cent market last year, but they were not as good as they would have been if factories had been better prepared for winter production."

The output of cheese had dropped only 7 per cent in Ontario during the month of June, whereas in Quebec production had fallen off by 50 per cent and in other provinces, where cheese is only made when the price is very attractive, the drop off was lower still he said. Returning to the question of winter production Mr. Bain said he could recall when in Western Ontario they ran a higher score in the winter months (December to April) than during the summer period. "But," he emphasized, "this can only be done when the factory is in condition."

Test Valuable

The sediment test, was in his opinion accomplishing its purpose as seen by the improving tests which were being handed in. He felt that if everyone would do their share along the production line there would be no trouble in passing the test and keeping the standard up to any point desired.

President Hector Arnold, who presided for the meeting gave a brief summary of what had transpired at the quarterly gathering of directors of the Ontario Cheese Producers' Association held in Belleville. He told the meeting that price and production had keynoted the discussion in Belleville and said that although little of a concrete nature had been accomplished he regarded it as one of the best meeting the directors had ever had since it resulted in a good healhty discussion of matter pertaining to the industry. The price had come in for a good deal of criticism and every county with the exception of Frontenac (which was ahead in June) reported lowered production.

Main reason for calling the meeting of the County Association here on Thursday was to decide what was to be done about fair prizes this fall. Members agreed at the outset that both Campbellford and Warkworth fairs should receive the usual grant of $20 to go to prize winning cheese exhibits but it required some discussion before it was decided what to do in the case of Roseneath. Since there was not as much cheese shown there some felt the grant should not be so high. One thing that made Campbellford attractive to exhibitors, eight of whom exhibited last year, was the fact they could easily move the cheese from the fair display to the grading station in town. The matter was finally settled with a motion whereby the Board would contribute $20 to each fair providing at least four factories exhibited or at the rate of $5 per factory if there were less than four exhibitors. Another piece of routine business concerned Board fees and on motion of Mr. Fred Barnum the Producers' Association will again pay them.

Bailieboro News

Pte. Elwood Hie of Cobourg who was killed in Sicily, July 23, was a nephew of Fred Hie of this village.

Mrs. George Carruthers and daughter Helen of Fenella visited their aunt Mrs. William Parsons.

Misses Barbara and Shirley Campbell, June and Joyce Snowell Betty Joan Howson, Margaret Dawson and Betty Rutherford spent Wednesday afternoon with Miss Eileen Gainer of Centreville.

Mrs. Fuller of Hamilton is spending a few days with her sister Mrs. Richard Thompson.

Miss Haskin of Toronto has been employed as teacher of the Senior School Room for the coming term.

Regular church service will be resumed in the United Church on Sunday evening at 7:30 when Rev. M. Rowland will return.

New ration books will be issued at South Monaghan municipal hall on Monday, August 23.

With teams and labour a number of ratepayers and the trustees, straightened and graded the roadway to the school grounds on Wednesday.

An exciting ball game was played on the new ball diamond on Wednesday evening between Harwood and Bailieboro. The score was 16-4 in favour of Bailieboro.

MERCHANTS OF TYRE

Palermo, Sicily, was founded by the Phoenicians.

Sicily Rearguard Smashed; All Mount Etna Region Overrun In Two-day Push

ALLIED HEADQUARTERS, North Africa, Aug. 14 — (AP). — German evacuation of Sicily now is in full swing, it was announced officially to-day, and resistance now is mere rearguard action which British and American armies are rapidly overcoming. The announcement from Allied Headquarters followed up earlier field reports to this effect. Headquarters only yesterday had said, however, that "no full - scale evacuation has yet started."

The Allied troops in Sicily have advanced on all sectors, the daily communique said.

The British 8th Army thrusting up the east coast has taken Riposto, 10 miles south of Taormina, while Americans have overrun Floreta, inland midway between captured Randazzo and Cape Orlando, and Piraino on the north coast.

The advance brought all of Mount Etna into Allied hands.

New 9th Army.

At the same time it was disclosed that the American 9th Division — heretofore not known publicly to have been in action in Sicily — was the first to take Randazzo. It was followed by the British 78th Division.

The communique said also that the British coastal forces had overrun Giarre, which lies just southeast of Riposto, and Milo, a village on the eastern slopes of Mount Etna.

Enemy rearguards retreating from Randazzo to Taormina, about 20 miles away, were being steadily pursued by the central Allied forces, the announcement said, adding that stiff resistance was being encountered from the suicide German detachments.

In capturing Piraino, the Americans had swept about three miles beyond Brolo, which well earlier in the week to an amphibious flanking attack behind the German defences at Cape Orlando.

Randazzo fell yesterday to a flanking American force which swung over the roadless mountains north of the key highways junction and smashed the stubborn German resistance at bayonet point, a headquarters announcement said.

As the British and American coastal columns converged on Messina, reports indicated increased German efforts to evacuate their beaten army.

GENERAL RETREAT

CAMPBELLFORD

WA Zion Branch Has Anniversary

CAMPBELLFORD, Aug. 14. — (ENS).—Twenty-nine years ago the Zion branch of the United Church W.A. was formed at a meeting held at the home of Miss Susie Wright and on Thursday members met there again to commemorate the occasion. There were 46 ladies present and the president, Mrs. Albert Petherick, president for the meeting, which included a lengthy business session and program.

Following their practice of contributing to the general upkeep of the church, it was decided the branch would pay for the re-painting of the floor and appointed a committee empowered to arrange for the work to be done. An invitation to be guests of the English Line W.A. for a joint meeting to be held at Mrs. Garnet Grills' on August 18 was accepted.

Following the announcement a month ago of the cancellation of the annual tea in favor of a free-will offering, the secretary pointed out that to date about $15 had been contributed, thus putting the branch well on the way to its objective of $25. Another war-time measure will be put into effect with the next meeting when the serving of lunch by the hostess, a regular monthly feature, will be discontinued.

Mrs. Petherick read a communication from the secretary of the Canadian Air to Russia Fund, who expressed thanks to the group for the large box of clothing and eight lovely blankets they had contributed.

Cheese, Produce and Livestock

WINNIPEG GRAIN.

WINNIPEG, Aug. 14 — (CP). — Wheat futures moved around previous closing levels in dull trading yesterday on the Winnipeg Grain Exchange, and at the close ranged unchanged to ¾ cent a bushel lower.

United Kingdom interests were reported to have taken Canadian flour equivalent to 20,000 bushels of wheat. This brings the amount of grain worked to the United Kingdom in the past two days to nearly 700,000 bushels.

Buying for American account was reported in rye futures, where the values improved ⅛ to ⅞ cent a bushel.

The Quaker Oats Company quotes Ontario Winter Wheat No 1, $1.10; No 2 $1.10; No 3 $1.08; milling oats 62c; buckwheat, 60c.

Early Apples Seen On Market

Corn on the cob at 30 cents a dozen, Red Astrakan apples at 90 cent a peck, and if that sounds slightly on the steep side there are Yellow Harvests and Duchess at 70 cents.

Some persons wouldn't cart home corn if they got it for nothing, but diversity of taste makes the produce market go, and it was going with a busy hum this morning.

Apples coming to market have been suggesting to some housewives that if other fruits are going to be disappointingly light they might turn a skilled and facile hand to apple confections "to be done down" for the winter.

Potatoes were in the groove at their ceiling, $2.25 a bag and plenty of them along the vegetable row. Tomatoes were 10 cents a pound or 75c for the six quart basket. And huckleberries were again $3 for the eleven quart basket.

Farmers tell a doleful story in these days of fruition, but even a glance along the outdoor counters at the market are evidence that the weather has done well for the market gardeners, the men who grow carrots and beets and broccoli and onions and marrows.

Current Events Topic At W.I. Meeting

ROSENEATH, Aug. 14 (ENS).— Thursday was "Canada Day" in the local W.I. when the regular meeting of the society was held in the town hall. Mrs. R. Thackeray was hostess and Mrs. Earl Waldie, president, presided.

Current events, those in Canada most prominent, were presented by Miss Jessie Johnson, and Aureen Brown read "Canada." Mrs. Charles Sandercock in a paper entitled "Canadian Women," commented on the loyalty of Canadian Women in observing rationing regulations. Rural women, she observed have carried an ever increasing burden in the increased production of butter and eggs for Britain; in the conservation and re-modelling of used clothing, and doing a man's work in the farms. In addition they have done much Red Cross sewing and knitting.

Miss Doreen Nichol presented information regarding good financing in the conservation and remodelling of used clothing in a paper on this subject.

The program in charge of Mrs. C. Sandercock included a piano solo "Evening Star" played by Doris Robins; "A Canadian birds contest" arranged by Mrs. Frank Brown and won by Mrs. James Brown's group; a reading "Noble Thoughts" by Marjorie Sandercock, and song contests arranged by Mesdames E. Sandercock and E. Waldie. Patriotic songs varied the program.

During the business period members named on a committee to interview the council, regarding cleaning the hall previous to painting the floor, were: Mrs. E. Waldie, Mrs. Harold Taylor, Mrs. S. Thackeray, Mrs. F. Adams, Mrs. C. Thackeray and Mrs. E. Sandercock.

A letter of thanks for a potted plant was read from Mrs. J. Coyle.

Mrs. S. Thackeray, secretary-treasurer reported $30.20 in the treasury.

Yarn to be knitted into articles for ditty bags was distributed among the members.

It was decided to paint the village identification signs placed at each entrance to the village.

The September meeting will feature a display of cut flowers with a prize offered for the best bouquet. Mrs. F. Brown and Mrs. J. W. Pacey form a program committee.

A vote of thanks was tendered the hostess, who served refreshments at the close.

Roseneath News

Miss Gertrude McCracken of Cobourg is holidaying with Mr. and Mrs. Lewis Lockhart.

Edward Bull of Regina a member of this community in his youthful days, and a veteran of the Boer War is holidaying at Rice Lake.

Rev. E. H. and Mrs. Unstead have arrived at the parsonage following a holiday period.

Mrs. I. C. Brough of Toronto is a week-end guest of Mr. and Mrs. Frank Brown. Mrs. Brough made many friends in this community some years ago while visiting her daughter, Mrs. Harold Hershey and Dr. Hershey.

Sgt. G. Martinell of Kingston, Mrs. Martinell and young son Kenneth and Joseph Martinell of Kendal spent Friday with her parents Mr. and Mrs. H. Blodgett. Mrs. Martinell and baby are remaining for some time.

PLANS COMPLETE AT QUEBEC FOR MOMENTOUS WAR CONFERENCE

Staff Chiefs Arrive For War Talk

Eden Expected To Take Part At Later Date

By C. R. BLACKBURN
Canadian Press Staff Writer

QUEBEC, Aug. 14 (CP) — Combined Chiefs of Staff of the United Kingdom and the United States are here today to prepare for the momentous sixth war conference of Prime Minister Winston Churchill and President Franklin Roosevelt.

The Amer· ·n section arrived late yesterday.

How soon the two leaders will be here has not been revealed but Mr. Churchill is expected back from the United States soon and President Roosevelt is expected either to accompany the British Prime Minister or follow closely after.

In the Chateau Frontenac, conference headquarters, the Chiefs of all the armed forces of the two major democracies today began their work together—planning what may mean new and crushing blows for the Axis powers in Europe and in the Pacific.

Secrecy of their actions and their movements, except for dribbles of news from press officials, is being maintained as in the case of all conference activities since the commandeered Chateau was closed to press and public last Monday.

Last night there was speculation that one more prominent British political figure may arrive before the actual Churchill-Roosevelt confenence begins—Foreign Secretary Anthony Eden.

There was no official confirmation but one conference spokesman said there are "some odds" he will come.

The United States chiefs of staff who arrived late yesterday afternoon were Admiral William D. Leahy, United States Navy, Chief of Staff to President Roosevelt; General George C. Marshall, Chief of Staff, United States Army; Admiral Ernest J. King, Commander-in-Chief, United States Fleet; and General H. H. Arnold, Commanding General, United States Army Air Force.

With them were Gen. Brehon B. Somervell, Chief of United States Army Service Forces; Brig. Gen. John R. Dean, secretary to the United States Chiefs of Staff; and Capt. Forrest Royal, United States Navy, deputy secretary.

They were met by Lit.-Gen. Kenneth Stuart, Vice-Admiral Percy W.

STAFF CHIEFS

OBITUARY

MICHAEL CROUGH.

The largely attended funeral of Michael Francis Crough was held in Toronto on August 10 from St. Anselm's Church to Mount Hope Cemetery. The requiem mass was sung by Rev. Father Maloney, his cousin, and he also performed the graveside service.

The flowers and spiirtual tokens showed the esteem in which he was held by his many friends in Toronto and Peterborough.

Born in Ennismore he was a successful farmer, later retiring to Peterborough and then going to Toronto.

He leaves to mourn his loss his widow, Caroline Moher, and seven children, Clarence, Vera, Cecil, Mona, Mary, Carrie and Blanche; one sister, Mrs. W. Moher, Toronto, one brother Edward Crough of Peterborough.

The pall-bearers were his four sons-in-law; Henry J. Murphy, Arthur E. Guy, Joseph E. Brioux, Leonard E. Dore, Harry J. Moher (nephew), and Joseph O'Rourke.

Two Views In Catania After City Fell To Allied Might

Sicilian residents of Catania are shown (TOP) clapping their hands in welcome as Allied troops, British and Canadian, rolled into Catania after the stubbornly defended city had fallen. BELOW, Axis prisoners taken in the battle clear away rubble from streets of the battered city. Radiophoto from Canadian Army Film Unit, via U.S. Signal Corps and W.I.B.

2 Belmont Men Wounded

HAVELOCK, Aug. 14 — (ENS). —Two soldiers from Belmont Township, Pte. Delbert Barker and Sgt. Vincent Fitzpatrick, have been reported wounded in action during the fighting in Sicily, and both were serving with the Hastings and Prince Edward Regiment.

Pte. Delbert Barker, 22, is the son of Mr. and Mrs. Garton Barker of Belmont. He enlisted on May 8, 1942, with the Prince of Wales Rangers, and stayed with the until Rangers, and stayed with the unit until he went overseas in September of 1942. Shortly after his arrival, he transferred to the Hastings-Prince Edward Regiment and his parents received word that details regarding his wounds would follow.

He was raised and educated in Campbelford as a boy, and before enlisting he was employed at the Woollen Mills here.

Sgt. Vincent Fitzpatrick, 32, is the son of Mr. and Mrs. Perry Fitzpatrick of Cordova, and details regarding his injuries are not yet available.

Enlisting September 4, 1939, in the Hastings-Prince Edward Regiment, Sgt. Fitzpatrick trained at Madoc and Picton, and went overseas in 1939 with the 1st Canadian Division. He has lived in Cordova all his life, and before joining the Army he worked at the Cordova Mines.

MORE ABOUT—

Gordon Says

Continued from Page 1

with offenders against wartime controls, conveying the impression that such offences are an understandably human weakness which ought not to be punished too severely.

"I say definitely that inflation is no imaginary condition — we have all the circumstances and pressure which create inflation right here—now!

"We must fight tooth and nail to prevent these pressures being translated into a price inflation. We are in the greatest possible danger of failing to do so."

Seeks Press Support.

Declaring that the state of public morale was largely in the keeping of the press, Mr. Gordon said that he believed too much emphasis was placed on the "burdens, dislocations and so-called sacrifices of war." The majority of Canadians living at home were better off than they ever were before the war. None of the horrors of conquest had been visited on Canadian homes.

"We cannot afford in wartime to be sentimental and soft-headed," he said. "Yet every report of a shortage, temporary or otherwise, becomes front page news and everyone rushes around to blame this person or that person for stupidity or lack of foresight, and so on."

He did not suggest the press refrain from criticism, for "plenty of situations" badly needed such a stimulating and cleansing force. The news on the home front should not be looked at as much through peacetime spectacles, "and it should be possible to get a better wartime perspective in regard to certain reports and criticisms."

The press should explain that orders and regulations are expedients arising out of emergencies beyond control, and the devices used could not remove the emergency but only ease and equalize its impact on all.

BUT SO FAR AWAY

The diameter of the moon is 2,160 miles.

Peterboro Soldiers To Get Cigarettes

At the soldiers cigarette bingo held in Legion Hall on Friday night the following names of Peterboro soldiers serving overseas were drawn out of the box. Each soldier will be sent a carton of 300 cigarettes.

Pte. J. Allan, Pte. F. A. Brand, Lieut. Gordon Clarke, LAC. J. F. Cupoli, Gnr. W. B. Clark, L/Cpl. G. Collins, Gnr. T. W. Dixon, Sgt. Pilot A. B. Harle, Pte. G. K. Johnstone, Gnr. H. Martin, Major H. G. Mason, Gnr. S. Montgomery, Pte. J. G. Pruner, Pte. M. Packenham, Sgt. L. D. Pugh, Pte. A. E. Read, Spr. E. Sullivan, Drv. W. G. Saunders, Rflm. W. J. Spenceley, Sgln. R. C. Thirnbeck, Trpr. A. Young.

MORE ABOUT—

Lt. Bob Hamilton

Continued from Page 1

tenance crews went over the trucks.

On the way up the line, the R.C. A.S.C. companies in addition to gas and ammunition carried medical supplies and mail, which is beginning to reach the front now, as well as reinforcements for frontline units.

On the way back to bases the trucks haul salvage like gasoline tins and ammunition boxes, give lifts to minor wounded and take back mail and also carry prisoners of war. It's a round-the-clock business.

Peterborough Officer

R.C.A.S.C. personnel also are driving Canadian ambulances. Troop carrying has been another R.C.A. S.C. task. Several times Maj.-Gen. G. G. Simonds had to move thousands of troops 20 or 30 miles in quick time and called on the Service Corps.

Getting up shells for the barrages is one of the most laborious jobs and in one company doing most of this work is Lieut. R. M. Hamilton, Peterborough, Ont.

I talked to ammunition truck drivers, including L. Cpl. Albert Greeman, Woodstock, Ont., and Pte. Edwin Tooker, Brantford, Ont. They said the worst featureof the whole job was the clouds of dust on the roads.

Robarts' group concentrates on bringing up rations but becomes a general clearing house for the division, handling mail bags, transport of prisoners and reinforcements, and practically anything else that crops up.

I met some of the hardest driving despatch riders including Cpl. Harry Pickles and Pte. Dan McDonald, both of London, Ont., who had gone more than 2,080 miles in less than three weeks.

The senior N.C.O. of the company is Sgt. Maj. Gordon McWaine, London, Ont., and one driver is Pte. Joe Goegan, Ingersoll and Port Colborne, Ont.

R.C.A.S.F. fitters are an important cog in the organization for they are frontline garagemen, keeping the vehicles going. The drivers themselves do a lot of maintenance. Among fitters here is Pte. Norman Henderson, Windsor, Ont.

With Allied air superiority the roads are not attacked very frequently by enemy aircraft and convoys have had a comparatively safe time. Not a truck has been lost through enemy action.

Italians In London

LONDON, Aug. 14—(CP). —The Daily Herald said to-day that Professor Gastano Salvemini of Harvard University and Count Carlo Sforza of New York City, two leaders of the Free Italian movement in the United States, had arrived in London with a few other Italian exiles.

CAMPBELLFORD

Visiting Team Defeats Bowlers

CAMPBELLFORD, Aug. 14. — (ENS). — Stirling players bested Campbellford in a jitney tourney staged here last night when twenty players from the neighboring town came over for an evening of bowling. The visitors took home five of the eight prizes offered by the local club, which also entertained them to a lunch at the conclusion of the evening.

Before the tourney was begun, a spider was called and this was won by Mrs. M. B. Sayers of Campbellford. Winners of the ladies' prizes were Mrs. L. B. Glover, Campbellford 27; Mrs. W. Whitty, Stirling, 26; Mrs. Burgiss, Stirling, 26; Mrs. W. S. Wiggins and Mrs. J. D. Mills, both of Campbellford, tied with 23, and the former won the draw. Men prize winners were Bill Whitty, Stirling, 32; Earl Fox, Stirling, 29; Dr. Helliwell, Stirling, 28; L. B. Glover, Campbellford 28.

The twenty visiting players plus 28 local members made up a total of twelve rinks and President W. A. Kingston presented the prizes, following which W. T Elliott, president of the Stirling Club, responded briefly.

MORE ABOUT—

17 Canadians

Continued from Page 1

Most successful R.C.A.F. Spitfire pilot over Malta was Flight Lt. Henry Wallace McLeod, D.F.C. and Bar of Regina, with a score of 13 destroyed at the time he left the island.

Flt. Lt. F. E. Jones, D.F.C., of Cloverdale, B.C., destroyed seven over the island.

In Malta Flt. Lt. L. Gosling, D.F.C. and Bar of Battleford, Sask., began piling up a score towards the end of the campaign and his total at the time of his second award stood at 10. He now is missing.

Sqdn. Ldr. V. C. Woodward of Victoria, B.C., a Canadian who joined the R.A.F. in 1938, has destroyed 20 enemy aircraft and now holds the D.F.C. and Bar.

Another ace is George Hill of Pictou, N.S., who is fighting in Sicily at the head of a R.A.F. fighter squadron. His score at the last count was 13 destroyed.

Wing Cmdr. James E. Walker, D.F.C., and two bars, of Edmonton, is the only member of the R.C.A.F. to be awarded the D.F.C. three times. He led a R.A.F. Spitfire squadron in the North African campaign and accounted for 10½ enemy aircraft destroyed.

Also in the North African campaign was Flt.-Lt. J. F. Edwards, D.F.C., D.F.M., of Battleford, Sask., whose record at the time of his D.F.C. award stood at eight enemy aircraft destroyed.

Top-scorers of the R.C.A.F. wing in Britain are Sqdn. Ldr. Hugh Godefroy, D.F.C., of Toronto, the squadron commander, who has six to his credit, and Flt. Lt. H. D. Macdonald, D.F.C., also of Toronto, who has destroyed eight.

Probably the most brilliant fighter pilot who ever flew with the R.C. A.F. in Britain was Flt.-Lt. Don Morrison, D.F.C., D.F.M., of Toronto, now prisoner of war. Morrison was awarded the D.F.M. July this year, several months after he had been shot down over France, and the citation recorded the fact he had destroyed 15 enemy aircraft.

LOW VOTING AGE

Suffrage is extended to all men and women 18 years of age in Brazil.

District Cheese Given High Rating

CAMPBELLFORD, Aug. 14 (ENS) —Cheesemen of this district can well be pleased with the quality of their product at the present time according to H. R. Bain, chief dairy instructor for Western and Central Ontario who was guest speaker at a meeting of the Northumberland County Cheese Producers' Association held here on Thursday evening. He told the gathering at least 85 per cent of the cheese graded here this week had been 94 score or better. "It was the nicest lot of cheese I have seen anywhere in Ontario," he said, adding that in his opinion production should hold up well during the fall months "if there are not too many cows go out of the country."

Admitting that one of the chief problems at the present time was the decrease in production Mr. Bain offered the suggestion that if it was the government's plan to have cheese made during the coming winter some announcement should be made of the fact at an early date so an opportunity would be provided to get plants in condition for cold weather manufacture. "We made a lot of cheese for the 25 cent market last year, but they were not as good as they would have been if factories had been better prepared for winter production."

The output of cheese had dropped only 7 per cent in Ontario during the month of June, whereas in Quebec production had fallen off by 50 per cent and in other provinces, where cheese is only made when the price is very attractive, the drop off was lower still he said. Returning to the question of winter production Mr. Bain said he could recall when in Western Ontario they ran a higher score in the winter months (December to April) than during the summer period. "But," he emphasized, "this can only be done when the factory is in condition."

Test Valuable

The sediment test, was in his opinion acomplishing its purpose as seen by the improving tests which were being handed in. He felt that if everyone would do their share along the production line there would be no trouble in passing the test and keeping the standard up to any point desired.

President Hector Arnold, who presided for the meeting gave a brief summary of what had transpired at the quarterly gathering of directors of the Ontario Cheese Producers' Association held in Belleville. He told the meeting that price and production had keynoted the discussion in Belleville and said that although little of a concrete nature had been accomplished he regarded it as one of the best meeting the directors had ever had since it resulted in a good healhty discussion of matter pertaining to the industry. The price had come in for a good deal of criticism and every county with the exception of Frontenac (which was ahead in June) reported lowered production.

Main reason for calling the meeting of the County Association here on Thursday was to decide what was to be done about fair prizes this fall. Members agreed at the outset that both Campbellford and Warkworth fairs should receive the usual grant of $20 to go to prize winning cheese exhibits but it required some discussion before it was decided what to do in the case of Roseneath. Since there was not as much cheese shown there some felt the grant should not be so high. One thing that made Campbellford attractive to exhibitors, eight of whom exhibited last year, was the fact they could easily move the cheese from the fair display to the grading station in town. The matter was finally settled with a motion whereby the Board would contribute $20 to each fair providing at least four factories exhibited or at the rate of $5 per factory if there were less than four exhibitors. Another piece of routine business concerned Board fees and on motion of Mr. Fred Barnum the Producers' Association will again pay them.

Bailieboro News

Pte. Elwood Hie of Cobourg who was killed in Sicily, July 23, was a nephew of Fred Hie of this village.

Mrs. George Carruthers and daughter Helen of "enella visited their aunt Mrs. William Parsons.

Misses Barbara and Shirley Campbell, June and Joyce Snowell Betty Joan Howson, Margaret Dawson and Betty Rutherford spent Wednesday afternoon with Miss Eileen Gainer of Centreville.

Mrs. Fuller of Hamilton is spending a few days with her sister Mrs. Richard Thompson.

Miss Haskin of Toronto has been employed as teacher of the Senior School Room for the coming term.

Regular church service will be resumed in the United Church on Sunday evening at 7:30 when Rev. M. Rowland will return.

New ration books will be issued at South Monaghan municipal hall on Monday, August 23.

With teams and labour a number of ratepayers and the trustees, straightened and graded the roadway to the school grounds on Wednesday.

An exciting ball game was played on the new ball diamond on Wednesday evening between Harwood and Bailieboro. The score was 16-4 in favour of Bailieboro.

MERCHANTS OF TYRE

Palermo, Sicily, was founded by the Phoenicians.

Sicily Rearguard Smashed; All Mount Etna Region Overrun In Two-day Push

ALLIED HEADQUARTERS, North Africa, Aug. 14 — (AP). — German evacuation of Sicily now is in full swing, it was announced officially to-day, and resistance now is mere rearguard action which British and American armies are rapidly overcoming. The announcement from Allied Headquarters followed up earlier field reports to this effect. Head quarters only yesterday had said, how-ever, that "no full - scale evacuation has yet started."

The Allied troops in Sicily have advanced on all sectors, the daily communique said.

The British 8th Army thrusting up the east coast has taken Riposto, 10 miles south of Taormina, while Americans have overrun Floreta, inland midway between captured Randazzo and Cape Orlando, and Piraino on the north coast.

The advance brought all of Mount Etna into Allied hands.

New 9th Army.

At the same time it was disclosed that the American 9th Division — heretofore not known publicly to have been in action in Sicily — was the first to take Randazzo. It was followed by the British 78th Division.

The communique said also that the British coastal forces had overrun Giarre, which lies just southeast of Riposto, and Milo, a village on the eastern slopes of Mount Etna.

Enemy rearguards retreating from Randazzo to Taormina, about 20 miles away, were being steadily pursued by the central Allied forces, the announcement said, adding that stiff resistance was being encountered from the suicide German detachments.

In capturing Piraino, the Americans had swept about three miles beyond Brolo, which well earlier in the week to an amphibious flanking attack behind the German defences at Cape Orlando.

Randazzo fell yesterday to a flanking American force which swung over the roadless mountains north of the key highways junction and smashed the stubborn German resistance at bayonet point, a headquarters announcement said.

As the British and American coastal columns converged on Messina, reports indicated increased German efforts to evacuate their beaten army.

GENERAL RETREAT

CAMPBELLFORD

WA Zion Branch Has Anniversary

CAMPBELLFORD, Aug. 14. — (ENS).—Twenty-nine years ago the Zion branch of the United Church W.A. was formed at a meeting held at the home of Miss Susie Wright and on Thursday members met there again to commemorate the occasion. There were 46 ladies present and the president, Mrs. Albert Petherick, president for the meeting, which included a lengthy business session and program.

Following their practice of contributing to the general upkeep of the church, it was decided the branch would pay for the re-painting of the floor and appointed a committee empowered to arrange for the work to be done. An invitation to be guests of the English Line W.A. for a joint meeting to be held at Mrs. Garnet Grills' on August 18 was accepted.

Following the announcement a month ago of the cancellation of the annual tea in favor of a free-will offering, the secretary pointed out that to date about $15 had been contributed, thus putting the branch well on the way to its objective of $25. Another war-time measure will be put into effect with the next meeting when the serving of lunch by the hostess, a regular monthly feature, will be discontinued.

Mrs. Petherick read a communication from the secretary of the Canadian Air to Russia Fund, who expressed thanks to the group for the large box of clothing and eight lovely blankets they had contributed.

Cheese, Produce and Livestock

WINNIPEG GRAIN.

WINNIPEG, Aug. 14 — (CP). — Wheat futures moved around previous closing levels in dull trading yesterday on the Winnipeg Grain Exchange, and at the close ranged unchanged to ¾ cent a bushel lower.

United Kingdom interests were reported to have taken Canadian flour equivalent to 20,000 bushels of wheat. This brings the amount of grain worked to the United Kingdom in the past two days to nearly 700,000 bushels.

Buying for American account was reported in rye futures, where the values improved ½ to ⅞ cent a bushel.

Early Apples Seen On Market

Corn on the cob at 30 cents a dozen, Red Astrakan apples at 90 cent a peck, and if that sounds slightly on the steep side there are Yellow Harvests and Duchess at 70 cents.

Some persons wouldn't cart home corn if they got it for nothing, but diversity of taste makes the produce market go, and it was going with a busy hum this morning.

Apples coming to market have been suggesting to some housewives that if other fruits are going to be disappointingly light they might turn a skilled and facile hand to apple confections "to be done down" for the winter.

Potatoes were in the groove at their ceiling, $2.25 a bag and plenty of them along the vegetable row. Tomatoes were 10 cents a pound or 75c for the six quart basket. And huckleberries were again $3 for the eleven quart basket.

Farmers tell a doleful story in these days of fruition, but even a glance along the outdoor counters at the market are evidence that the weather has done well for the market gardeners, the men who grow carrots and beets and broccoli and onions and marrows.

Current Events Topic At W.I. Meeting

ROSENEATH, Aug. 14 (ENS).— Thursday was "Canada Day" in the local W.I. when the regular meeting of the society was held in the town hall. Mrs. R. Thackeray was hostess and Mrs. Earl Waldie, president, presided.

Current events, those in Canada most prominent, were presented by Miss Jessie Johnson, and Aureen Brown read "Canada." Mrs. Charles Sandercock in a paper entitled "Canadian Women," commented on the loyalty of Canadian Women in observing rationing regulations. Rural women, she observed have carried an ever increasing burden in the increased production of butter and eggs for Britain; in the conservation and re-modelling of used clothing, and doing a man's work in the farms. In addition they have done much Red Cross sewing and knitting.

Miss Doreen Nichol presented information regarding good financing in the conservation and remodelling of used clothing in a paper on this subject.

The program in charge of Mrs. C. Sandercock included a piano solo "Evening Star" played by Doris Robins; "A Canadian birds contest" arranged by Mrs. Frank Brown and won by Mrs. James Brown's group; a reading "Noble Thoughts" by Marjorie Sandercock, and song contests arranged by Mesdames E. Sandercock and E. Waldie. Patriotic songs varied the program.

During the business period members named on a committee to interview the council, regarding cleaning the hall previous to painting the floor, were: Mrs. E. Waldie, Mrs. Harold Taylor, Mrs. S. Thackeray, Mrs. F. Adams, Mrs. C. Thackeray and Mrs. E. Sandercock.

A letter of thanks for a potted plant was read from Mrs. J. Coyle.

Mrs. S. Thackeray, secretary-treasurer reported $30.20 in the treasury.

Yarn to be knitted into articles for ditty bags was distributed among the members.

It was decided to paint the village identification signs placed at each entrance to the village.

The September meeting will feature a display of cut flowers with a prize offered for the best bouquet. Mrs. F. Brown and Mrs. J. W. Pacey form a program committee.

A vote of thanks was tendered the hostess, who served refreshments at the close.

Roseneath News

Miss Gertrude McCracken of Cobourg is holidaying with Mr. and Mrs. Lewis Lockhart.

Edward Bull of Regina a member of this community in his youthful days, and a veteran of the Boer War is holidaying at Rice Lake.

Rev. E. H. and Mrs. Unstead have arrived at the parsonage following a holiday period.

Mrs. I. C. Brough of Toronto is a week-end guest of Mr. and Mrs. Frank Brown. Mrs. Brough made many friends in this community some years ago while visiting her daughter, Mrs. Harold Hershey and Dr. Hershey.

Sgt. G. Martinell of Kingston, Mrs. Martinell and young son Kenneth and Joseph Martinell of Kendal spent Friday with her parents Mr. and Mrs. H. Blodgett. Mrs. Martinell and baby are remaining for some time.

Not only can no laboratory produce a blade of grass, men do not even fully understand its nature: The heavens declare the glory of God; and the firmament showeth his handiwork. —Ps. 1: 2.

Warning Heard Years Ago Has Parallel Value Today

By REV. E. R. JAMES

AMOS, THE PROPHET OF SOCIAL RIGHTEOUSNESS.

Amos said, I am not a prophet nor the son of a prophet.—Amos 7: 14.

A political scholar reminds us that this is the age of "The Masses." It is the turn of the common people to rule. Amos, a man of the fields, is speaking to us. He lived more than twenty-five hundred years ago.

He has dared to preach in the King's chapel a sermon of the approaching disaster to the nation. Naturally the Court Preacher, the Dean of the cathedral, rebukes him and tells him to go back to his stony hils of Judea and not disturb the culture and dignity of the cathedral by his rantings.

The answer of Amos rings down the centuries: "I am not a prophet, nor the son of a prophet; I am not an emotional man; I have not been trained to pass into a state of ecstacy. I am but a herdman. Yet the Lord spake to me; therefor I must speak. His words burn in my heart."

Amos is a shepherd feeding his flocks on the hills of Tekoa. He has pondered upon what he has seen of the city life of the people in the market places where he sold his wool. Luxury abounded in the land. Yet there was much poverty. Profiteering was common; the poor were ground down. Luxury and poverty dwelt side by side.

In striking contrast to this you must remember that Israel was religious people. They kept the Sabbath; offering sacrifices and "trampling the Lord's Courts" as Isaiah remarks cynically.

Can you imagine how the authorities laughed at the thought of captivity and similar horror. The prophet spoke of Assyria being the rod of punishment. How absurd. Israel was carried away into capday. Assyria was separated from Israel by hundreds of miles of burning wilderness. Invasion from such a quarter was but the figment of the imagination of a lonely man. How modern. Yet it was so and Israel was carrietd away into captivity by the Assyrians.

Why? Because the religious life of the people was essentially heathen. The worship of Jehovah was a veneer. The people believed that Jehovah would be satisfied with an outward religious ceremony. Do you read your Bible; say your prayers; go to church regularly? Why? What is your motive?

The sin of Israel lay in the fact that they expected Jehovah to protect them because the land was His and they were His people. They believed that they could force Jehovah to bless them. Is that the reason you say your prayers and go to Church regularly? When sorrow or trouble comes are you amazed and hurt? Did you not in your heart of hearts expect to be free from such troubles and sorrows because you were faithful in your religious obligations? Did you expect God to save you from trouble and distress?

This is the heathen principle which sent Israel into captivity. It is the deadly sin of religious people. It is a cancer which eats into the very heart of millions of so-called Christians.

True religion and worship means that God's Spirit enters into your heart and turns your thoughts towards your brethren and neighbors. The Spirit of God is righteous. This is revealed by the parable of the plumb line. Amos 7: 7.

God desires you to deal righteously with your neighbor; to be just and upright in all your dealings.

The strife between labor and capital would quickly disappear if men did their duty towards the other. This is the new truth that Amos reveals to his people and the generations to come. It is still vital. God is a righteous God and desires His worshippers to be righteous one toward another. "Let righteousness run down as a mighty stream." Amos 5: 24.

WHAT DOTH THE LORD THY GOD REQUIRE OF THEE, BUT TO DO JUSTLY AND LOVE MERCY AND TO WALK HUMBLY WITH THY GOD.

God Provides for Israel In Wilderness Pilgrimage

By NEWMAN CAMPBELL.

(The International Uniform Lesson on the above topic for August 15 is Exodus 16, 17, the Golden Text being Matthew 6: 11: "Give us this day our daily bread.")

On the 15th day of the second month after leaving Egypt, the Isratelites came to the wilderness of Sin, which lay along the western borders of the peninsula, opposite Mt. Sinai. It was largely sandy waste, with little pasturage for the cattle. The people began to be hungry and remembering what abundant food they had been accustomed to in Egypt, and probably forgetting the cruelties they had suffered, they began to complain bitterly.

Moses went to the Lord with this trouble, and He said He would rain bread from Heaven for them. They should gather just enough for each family for five days, and on the sixth day they should gather enough for two days, as they must do no work on the seventh. In the evening great flocks of quail flew over so the people would have flesh at night and bread in the morning.

See how ungrateful the children of Israel were for the Lord's bounty, and how they tried to cheat. Some gathered only what was enough for their daily needs, as they were told, but others gathered more than they needed. They were punished, however, for what they saved from one day to the next went wormy and became foul smelling so that it could not be eaten. On the sixth day they gathered enough for two days, as the Lord had said no manna should fall on the seventh day. The manna saved for the Sabbath did not go bad, but was good next day. Some disbelievers actually went out on the Sabbath to gather manna, although they had been told there would be none, and the Lord was angry and said to Moses: "How long refuse ye to keep My commandments and My laws?"

Ate Manna 40 Years.

Moses took a pot and filled it with manna, at the Lord's command, and laid it up "before the Lord, to be kept for your generations." The children of Israel ate manna for 40 years "until they came to a land inhabited."

The peoplet then journeyed to Rephidim, and pitched their tents, but there was no water there, wherefore they again scolded Moses and asked him why he had brought them out of Egypt to die of thirst in the wilderness. Calling on the Lord, Moses was told to take his rod and the elders and "behold I will stand before thee here upon the rock in Horeb; and thou shalt smite the rock, and there shall come water out of it, that the people may drink.'

Moses did so and named the place Massah and Meribah because of the unbelief of the children of Israel, saying, "Is the Lord among us or not?"

Next they were attacked by the Amalekites, who were their own kinsmen through Esau, Jacob's brother, who apparently were jealous when they saw the land invaded by these thousands of Israelites.

Moses told Joshua to choose men and go out and fight the Amalekites ,and he, Moses, would stand on top of a hill with his rod and watch. Aaron, his brother, went with him and Hur, who is said to have been Miriam's husband.

The fight was bitter, and when Moses held up his hand the Israelites prevailed, but when his hand dropped Amelek won.

Hands Grow Weary.

Moses' hands were weary and he could not hold them up all the time, so Aaron and Hur sat him down on a stone, and knelt one on each side of him and held up his hands. "And his hands were steady until the going down of the sun.

"And Joshua discomfited Amalek and his people with the edge of the sword.

"And the Lord said unto Moses, Write this for a memorial in a book and rehearse it in the ears of Joshua: for I will utterly put out of remembrance of Amalek from under heaven."

The extermination of the Amalekites took place after the time of Saul and David, by a party of Simeonites in the reign of Hezekiah.

"And Moses built an altar and called the name of it Jehovahnissi, for he said, "Because the Lord hath sworn that the Lord will have war with Amalek from generation to generation."

Nuns, Priests Aid Allies

ALLIED HEADQUARTERS IN NORTH AFRICA, Aug. 14 (AP).—Gen. Sir Harold Alexander, in his capacity as Military Governor of the occupied areas of Sicily, has paid his first visit to Palermo where he conferred with Luigi Cardinal Lavitrano, it was announced today.

Ecclesiastical authorities are co-operating with the Allied Military Government and, in this connection, Gen. Alexander suggested that the priests and nuns assist in caring for the children in the area through which the war passed.

He also suggested that wherever possible schools should be re-opened and educational work continued under the direction of the church authorities.

The Golden Text

The bread from heaven.

"Give us this day our daily bread."—Matt. 6:11.

Church Groups Outline Post-War Plans

By FOSTER BARCLAY
Canadian Press Staff Writer

LONDON, Aug. 12 — (CP). — International control of armed power, mobilization of the world's resources to achieve freedom from want and immediate clarification of the United Nations' post - war aims beyond defeat of the Axis are suggested by the Churches' Peace Aims Group of Britain. The suggestions were contained in a statement airing the group's views on a "just and durable peace."

The statement set forth six main principles which the group deemed necessary for "real victory" and for a Christian basis for post-war reconstruction. It was drawn up as a reply to similar views expressed by the Federal Council of Churches of America.

It is signed by the Archbishop of Canterbury and York, the Moderator of the Church of Scotland, the Moderator of the Free Church Council, secretaries of Congregational and Baptist unions and Rev. W. J. Noble, former president of the Methodist conference. Other signatories include Very Rev. J. Hutchinson Cockburn, Master of Balliol College, Sir Richard Livingstone and Sir J. Hope Simpson.

Conflict of Faiths

"The present war is more than a conflict of nations—it is a conflict of Faiths," the statement said. "Real victory depends on the clarity of our aims beyond the military defeat of the enemy and on the completeness and sincerity ity of our dedication to those aims."

It then listed the following principles for "real victory:"

"1. We agree that the 'peace must provide the political framework for a continuing collaboration of the United Nations and in due course of neutral and enemy nations.' We hold also that the achievement of such a world political organization will only be possible if it is the expression of a unity of action wrought out in facing the complex problems of world reconstruction.

We shall be confronted with certain immediate and urgent needs, supreme among which will be the feeding of hungry people and the restoration of order. Moreover, we attach great importance to a vigorous dealing with the question of security, assuring to all peoples freedom from fear .. .. The acceptance of responsibility by the United Nations should be preparatory to the inclusion of the neutral and vanquished nations in this corporate system of world order as soon as political and psychological considerations permit.

Develop Resources

"2. We consider that a permanent aim of the nations of the world should be to develop and mobilize the resources of the earth with a view to achieving for all peoples freedom from want.

"3. We doubt the feasibility of establishing a special mechanism for the revision of treaties, but we hope that a continuing co-operation in economic tasks and in the maintenance of world order may create a readiness to negotiate together such as would enable the world structure to be responsive to the need for change.

"4. We agree that not only good government, but self-government should be the goal for all men and that the progress of backward of subject people towards complete responsibility is a proper subject of international concern.

"5. There must be an adequate international control of armed power and we hope that the present association of the United Nations may develop into a world political organization in which would be vested armed power sufficient to prevent renewed aggression, and the preparation for future wars . . . .

"6. We wholly agree upon securing to individuals everywhere the right to religious and intellectual liberty . . ."

Quints To Be Confirmed

NORTH BAY, Aug. 14.—(CP).—The Dionne quintuplets will be confirmed on Sunday by Col. the Most Rev. L. Nelligan, Bishop of Pembroke and chief Roman Catholic chaplain in the armed forces.

For years spiritual adviser to the Dionne quintuplets, Col. Nelligan is expected to arrive on Sunday at Corbeil to officiate at the ceremony and will administer the Sacrament to Yvonne, Annette, Cecile, Emilie and Marie Dionne, and also to Pauline Oliva, Jr., and Daniel, sister and brothers of the quints.

A room in the Dionne nursery, where the entire family now is living while awaiting competion of their new home, will be equipped as a chapel for the occasion.

HOME PRODUCT

ZOMBA, Nyasaland — (CP). — Spinning wheels are being encouraged in the schools of the protectorate for making thread which can be knitted into garments.

Warkworth

Mrs. Inda Timmins, Donna and Margaret, of Oshawa, are visiting Mr. and Mrs. Herb Pratt and other relatives in town and vicinity.

Mrs. G. A. Barker of Niagara Falls, is visiting her brother, Mr. W. B. Baker.

Mrs. W. G. Bowen and Miss Ina Bowen are spending a week at a cottage at Victoria Beach, near Colborne.

Mrs. Tom Dick and family of Toronto, are guests of Mrs. John Dick.

Miss Mary Frost of Toronto, is visiting her friend, Mrs. Orpah England.

Mr. and Mrs. Robert Walker visited Dr. and Mrs. C. C. Armstrong, who are confined to Belleville hospital, Thursday.

Mr. John Insley, Port Credit, is spending two weeks' holidays with his parents, Mr. and Mrs. Harold Insley.

Mrs. Andrew Maidens is spending a week with friends in Oshawa.

Study School Will Operate

The St. James U-ited Auxiliary of the Women's Missionary Society, held their August meeting at the home of Miss Mary Deyell, with fifteen members and six visitors in attendance.

The president, Mrs. W. Rose, presided and in the absence of the secretary, Mrs. A. Rowe acted.

Devotions led by Mrs. Cripps opened the meeting and this was followed by a short business session. "Thank you" cards were received from Mrs. A. G. Saunders and Mrs. Bullied.

The W.M.S. Summer School for Leaders to be held at the Ontario Ladies College, Whitby, was announced for August 30 to September 3 and an invitation extended for a representative to be sent from St. James Auxiliary.

The new study book "For All of Life" was introduced and Mrs. A. Hunter appointed to take charge during the coming year. The Blue Book was also announced ready for subscriptions.

It was decided to hold the usual Self Denial meeting in September.

Departments were reported as follows: Temperance by Mrs. Beavis; Christian Stewardship, a program on the "Christian Stewardship of Time" led by Miss Deyell assisted by several members was greatly enjoyed and included "God's Plan for the Use of Time" outlined by various portions of Scripture read by Mesdames E. L. Woodley, S. Hanlon, A. Hunter and K. Sloane, and the department of systematic giving presented by Mrs. F. W. Craik in an interesting reading.

A delightful change in program was given by little Barbara Wallace in her solo composed of several brief choruses. She was accompanied at the piano by Mrs. G. Wallace.

"The Gospel According to You" was an inspirational challenge given as a reading by Mrs. G. H. Rowe.

During a social hour dainty refreshments were served by the hostess and the vote of thanks was extended by Mrs. Woodley.

God Provides for His People — ILLUSTRATED SUNDAY SCHOOL LESSON — By Alfred J. Buescher

Scriptures—Exodus 16, 17

The children of Israel, wandering in the wilderness, grew hungry and reproached Moses and Aaron for bringing them thither; but the Lord sent manna in the morning and quail in the evening so they were fed.

Every day the children of Israel were told to gather enough manna for one day only, but some gathered enough for two days, disobeying the Lord, but what was left of it had worms in it and stank.

Later they lacked water and again complained bitterly to Moses and Aaron, but the Lord told Moses to take his rod and to smite a rock and water would come out of it, and he did so before the elders.

Moses stood on a hill to see the Israelites fight Amalek; when the rod was held up Israel won; when down, Amalek, so Aaron and Hur held up Moses' tired hands until Israel won.

Hitler Still Rules Germany

The widely circulated rumour that Adolf Hitler had been set aside in favour of a triumvirate made up of Goering and the heads of the German army and navy has not been supported by any further news of the kind, and in Berne and London it is doubted if there was ever any shadow of truth in it. The suggestion has been made that the Germans themselves set the rumour in motion in order to arouse foolish confidence and thus weakness—in the Allies. Far-fetched as this notion sounds, there might be truth in it. The Germans are fond of such dodges, and are inclined to over-estimate their efficacy. But for the present it is as well for us to assume that Hitler is still Fuehrer of the Reich and supreme commander of the German forces, and as full of devilment as ever.

But Germany is in a tight spot, and the government is not taking its usual pains to conceal the true facts from the people. The Germans know that the Russian campaign is going against them—a decided change of tone from the days when they were given a blanket assurance that they would smash every force which opposed them. In addition to this bad news, the press admits that the Sicilian campaign is not going well, and as Sicily was much touted as an invincible bastion of the European Fortress, this news must be dashing to German spirits. The German press even goes so far as to say that the prospect of an invasion of Europe is menacing; the days when they scoffed at that idea have gone.

This bad news comes to Germany at a time when living conditions are becoming markedly less comfortable, if not actually perilous. The job of looking after hordes of evacuees from bombed cities engages the attention of hundreds of officials; the threat to Berlin has created a strong apprehension; the destruction of Hamburg has sobered German pride. Swiss newspaper correspondents report that 90 per cent. of that city lies in rubble, and hundreds of thousands of people are homeless. Goebbels has had to repudiate the suggestion that Berlin itself will be evacuated by the government offices, although there are plenty of rumours that such an evacuation is in progress. And—the crowning ignominy—Goebbels bids the people of Germany to be as brave in the face of bombing as the British were. And, as a sop, he predicts violent reprisals on Britain with a "secret weapon" of unexampled horror and ferocity.

If Hitler is still at the helm in Germany, he has a reserved seat for the sort of show which comes but rarely—the decline and fall of an empire. The situation of Germany at present can hardly be compared with that of 1918, but comparisons in these matters are poor guides. Germany still has 200 first-rate divisions for the defence of her soil, and will doubtless make a bitter fight of it, but the end is inevitable. There is cause on our side for sober confidence and optimism, but not for any loose idea that the war has been won. That the victory will be ours we do not doubt, but much depends on the way in which that victory is achieved.

The Wartime Eisteddfod

A Canadian Press despatch from Bangor, in Carnarvonshire, North Wales, informs us that yesterday Dafydd Owen was crowned Bard at the Royal National Eisteddfod. To most of our readers, we know, this will have little meaning; to Welshmen it is news of the highest importance.

The Eisteddfod is a festival which the Welsh people hold every year, at which contests are held in the arts and crafts, music and literature taking the chief places. It is a festival of the greatest antiquity, far antedating the Christian era, and accounts of these festivals are contained in the most ancient of Welsh records. In the Eisteddfod it is possible to see a living tradition handed down from a Britain which existed long before the Angles and Saxons, or the Romans, or the Normans invaded that island. And it is the strength of the continuing Eisteddfod tradition which has made it possible for the Welsh people to keep their language, their individuality and their art while living side by side with the more powerful English, and under English rule since the time of Edward I. The National Eisteddfod has had its ups and downs, but since the days of the Napoleonic Wars it has gone on from strength to strength with each passing year. Before the present war it attracted an attendance of 10,000 and more each year, for the whole week of its duration.

The great moment of the Eisteddfod comes on the Friday of the week, when the prize for poetry is awarded, and the winner is proclaimed a Bard of Wales. To win the Bardic Chair for a year is the highest ambition of thousands of young Welshmen, and the ceremony is a solemn one. The standard is high, the judges are strict, and the reward is glory only; there is no prize money to attract contestants. Welshmen who remember the Eisteddfodau of the First Great War will recall the intensity of feeling at the Chairing in 1917, when the Chair was empty and draped with black, for a Welsh poet who had won the prize and fallen in battle in the same week. But this year Dafydd Owen, formerly a newspaper reporter and now a theological student, has enjoyed the full glory of his hour, and has heard the Eisteddfod cry, "Y gwir yn erbyn y byd" — The truth against the world—ring in his ears.

Is there another country in the world, we wonder, where 10,000 people can be gathered to hail a fellow-countryman as a poet?

Public Health In Peterborough

We should like to draw attention to one aspect of the Public Health service which this city provides for its citizens, and which we should like to see more widely used and appreciated. It is the arrangement by which clinics on child-care are held at various points in the city, giving information without charge on the health of children taken there, and providing innoculations—also without charge—against many of the more dangerous diseases of childhood.

The benefits of this system are obvious. Any mother, whatever her circumstances, is able to get expert medical advice about her child's diet, or growth or whatever may be troubling her. She can also have it innoculated against such diseases as diphtheria, which used to be the terror of childhood, but which can now be controlled. She can make use of the free clinics to see that her child grows up healthy and strong, and thus evade one of the most pathetic consequences of a low income.

The clinics exist. Now we must persuade people to use them for their own good and for the good of the community. Please spread this information wherever it may be needed; information about the location of clinics may be had from the Department of Health, which is 5424 in the telephone book. A service of this kind is only of value to a city when it is used to the greatest advantage; its value when so used cannot be calculated.

Scylla And Charybdis—Modern Style

Since their decision to flee from Sicily German troops have been making what escape they can across the Straits of Messina, covered by their own anti-aircraft fire and harried mercilessly by our planes. Reports have it that about a thousand Germans a day make the journey to the Italian mainland. This is a small taste of Dunkirk for the Axis, and the United Nations are making the taste as bitter as they can.

Readers who recall their Homer will remember the ancient perils of the Straits of Messina: on the Sicilian side was the peril of Charybdis, the whirlpool which thrice daily drew in and spouted out water, scattering ships and men in a welter of destruction; on the Italian side stood the hideous sea-monster Scylla, with six heads, twelve feet, and with snarling dogs' heads springing from her loins. Seamen dreaded the passage of the Straits of Messina, for those who escaped one peril might fall into another, and "to pass between Scylla and Charybdis" has for centuries been an expression symbolic of a perilous venture.

The old legend will recur to the Germans with the utmost force now. If they stay in Sicily they will meet certain destruction; if they fly to Italy they may at any time find themselves in an unfriendly land, swarming with United Nations troops and with Italians who seek to destroy them. The Germans are between Scylla and Charybdis indeed, and they may think themselves lucky if they make the passage and come out of it alive.

NOTE AND COMMENT

Storks, we read, make themselves useful by devouring plagues of locusts. And occasionally they deliver similar plagues.

An Epistle To The Philistines

By SAMUEL MARCHBANKS

ON WEDNESDAY I began a review of Philip Wylie's "Generation of Vipers" which is an Epistle to the Philistines of the North American continent. . . . It is Mr. Wylie's belief that modern man is precisely the same creature as was the man of 3000 years ago, or the man of the ages which we call medieval; man has learned nothing of any great importance in the intervening time about himself, his true nature, and his relation to his fellows. But he has learned much that is new about the physical world, and he has acquired a power over nature which, great though it is, is only a shadow of greater power to come. The problem is: how is this wretched creature man, with his lack of self-knowledge, going to employ his great new powers? Part of the answer is obvious: he will make war with scientific skill and with ingenious machines, but he will make his wars for the same old reasons and with the same old savagery. He will seek ease and comfort, and he will employ his ease in the same old foolish or vicious ways. He will invent new methods of travel and communication, but he will go on the same silly jaunts as he did in horseback days, and he will talk the same silly and superstitious twaddle as he talked around his turf fires a thousand years ago. Mr. Wylie says—and who will contradict him?—that unless Man develops subjectively as well as objectively he will have a great fall, and all the king's horses and all the king's men will not be able to put poor, vain, boneheaded Man together again.

◆ ◆ ◆

HOW IS this subjective growth to be brought about? By following Christ, says Mr. Wylie; by following Christ, and by either neglecting or regenerating the Christian churches, for as they stand they will not do. True, they give man much that he likes, but they do not give him what he needs, which is a means of knowing himself. Neither dogma, "social outlook", nor evangelical binges of emotion will help man to find himself. He must make the search alone; fight the battle alone; enjoy most of the fruits of conquest alone: and he must, like Christ, be prepared to reject the churches and formalized teaching, and seek truth as he sees it. Mr. Wylie, it need scarcely be explained, regards Christ solely as a remarkable man, and not as a god, and expresses regret that Christ was unable to express himself in the terminology of modern science. What rows this raises between Mr. Wylie and the clergy is no business of mine; as he is a preacher's son, however, he cannot be accused of knowing nothing about the church.

◆ ◆ ◆

MR. WYLIE'S boldness in attacking the church is as nothing to his boldness in attacking the great institution of American Motherhood. The vitriol which he pours upon the grey head of Mom, as he calls her, will undoubtedly be returned a thousandfold by the women's institutions of his native land. But it will be hard to deny that the North American tendency is to stress the relationship between Man and his mother at the expense of the vastly more important relationship between Man and his mate. A nation which is tied to its mother's apron strings may perhaps be virile, but it is not adult; a nation which pays exaggerated attention to the opinions of women will acquire a feminine character, and we have no record of a nation which has risen to greatness through squaw-government. Mom will have to take a back seat, says Mr. Wylie, and give up her attempt to gauge the whole country to her own level of intelligence.

◆ ◆ ◆

NO AMERICAN institution of any importance escapes this author's lash. Educators he accuses of teaching obvious nonsense because that is easier than teaching children to think, and far less dangerous; indeed, education he condemns as a means of transferring "subjective feudalism"—a farrago of false values and attitudes—from one generation to another. He favours individual enterprise and condemns both communism and socialism, but he urges business men, who pride themselves on their practicality, to acquire a sense of responsibility for the influence which they wield over the life of the nation, or prepare for the destruction which their grasping methods will surely bring them. The list of institutions and classes which Mr. Wylie condemns and urges to repent would extend far beyond the limits of this column, but his book is no hotch-potch of aouse. It is the honest heart-cry of a man who sees his fellows rushing toward an abyss, and seeks to stop them. I recommend it highly to any reader who does not imagine himself, and the world he lives in, to be perfect. It is calomel for the bilious soul.

Unconsidered Trifles

Sailor—"You've heard of Naples, the famous Italian port, haven't you?"

Tailor—"No! How much is it a bottle?"

◆ ◆ ◆

Chaplain: "How could you have the heart to swindle people who trusted you?"

Prisoner: "But, parson, people who don't trust you can't be swindled."

◆ ◆ ◆

He was a strict teetotaller, but unfortunately had a very red nose. One day a customer said to him, "I say, old man, what is wrong with your nose?"

"Nothing at all," replied the red-nosed one. "It is simply blushing with pride because it does not stick itself into other people's affairs."

◆ ◆ ◆

"And so you are the noble fellow who rescued my wife at the risk of your life?" said Mr. Tightfist. "Take this shilling, my brave fellow, as an expression of my thankfulness."

"All right, guv'nor, thank ye," and then he added softly: "You know better'n I do what your wife's worth."

◆ ◆ ◆

Genial, hearty-mannered George Luks, the well-known artist, was long on friendliness, but a bit short of diplomacy.

One night at a party he saw among the late arrivals an extremely tall but very beautiful woman, and in a voice that could be clearly heard through the room, sang out, "The later it gets, the bigger they come!"

"Mr. Luks," said the subject of his remark a little later "I know you are a great painter, and that allowances must be made for genius, but do you think it kind to draw attention to a girl for something that is not her fault?"

"You're right," contritely answered the artist, "and to make up for it, I'll paint your portrait. And don't think that I haven't a studio big enough to paint you in!"

LIFE'S DARKEST MOMENT

THE QUESTION PAPA DREADED IN WORLD WAR I

Capital Closeups

By JAMES McCOOK, Canadian Press Staff Writer

OTTAWA, Aug. 14—(CP).—Tradition says that the place where immigrants are received should be dull and dreary. But when newcomers from the world of plants are received in the Dominion they are given their place in one of Ottawa's proudest beauty spots—the Dominion arboretum at the Central Experimental Farm.

Distinguished plants which have become Canadian by adoption have passed through this colorful port of entry, where they are examined, their abilities studied and their points of weakness and merit placed firmly on the record.

Take one, for instance, the Siberian pea tree (Caragana), introduced to Canada as an experiment. Agriculture scientists placed it amid the flowers and trees of the arboretum and watched it flourish. Given their approval, it was distributed throughout the country. Today, it is widely grown, especially in Western Canada.

Prime Minister Churchill when in Quebec is at home in a land with which his family has ancient association. John Churchill, the Duke of Marlborough, was the third governor of the Hudson's Bay Company when the fur wealth of the Canadian north was being traced by 17th century traders and sailors.

John Churchill's governorship was graced with some prosperous years for the pioneer Canadian company. In 1688, a dividend of 50 per cent. was declared.

The modern port of Churchill on Hudson Bay, and the river of the same name, recall the service to the fur trade of a man whose greater fame, as recorded by the statesman-author who is his descendant, was won on the battlefield.

The people of Canada are a good deal older than they used to be—and that no Irish-ism.

The Bank of Canada has issued a little graph showing the population by age groups in years between 1881 and 1941. The line for those of 65 years and more was away down low in 1881, showing less than five per cent of Canadians in this age group. In 1941, it had risen to more than six per cent.

At the other end of the scale, those of less than nine years of age represented about 26 per cent. of the population in 1881 and about 18 per cent. in 1941.

Niagara Falls and Parliament Hill are supposed to have been responsible for more camera-clicking than any other two places in Canada. With recruiting drives in full swing, it has become the accustomed thing for men and women in the services to be posed in front of the Peace Tower, and you see their pictures later on posters advertising their particular units.

Watching all the business with a pleased air are the scarlet-coated mounted police guards. They enjoyed having to see someone else have pictures taken, just for a change.

It's all very well to speak of iron rations and that kind of thing, but the hard-working Canadian likes his ice cream and more of it. In 1930, ice cream production was 8,184,626 gallons for all the year. But in 1943 at the end of July, Canadians have gobbled 10,429,699 gallons, with five months still to go.

There's An Art To Scything

By JOHN GOULD (In the Christian Science Monitor)

IT appears we have two kinds of hand scythes. One was invented by farmers for cutting hay and grain and is a purposeful implement about which much can be said—some of it feelingly. The other kind was invented by cartoonists and appears in the newspapers every January first in the hands of Father Time. This cartoonists' scythe has a curious design and I have never figured it out. If a cartoonist tried to mow with it, he would make one swing and find he had cut off both legs at the hips and would be all through mowing.

I suppose the peculiar offset and twist to a sneath are not studied in art schools and the mistake is forgivable. But my own kind of a scythe was invented for mowing grass, and in the hands of the proper person does a first-rate job and needs no apologies. I am speaking of my kind with enthusiasm, for I have just come up from mowing the swale, and I am full of my subject.

Nowadays few people know how to mow well by hand, but long ago anyone around a farm could and did. Grandfather has told me how he and his brothers would line up in the field and mow all day. Each brother was a few paces ahead of the next, and their father—a seasoned veteran with mature intentions—came on the end. The steady rhythm of his mowing was a constant rear-action threat to the next son up ahead. The next son up ahead mowed very well, indeed, and his haste was communicated on up the line. Everyone mowed fast enough to keep his heels out of jeopardy, and the hay was not long in coming down.

The time came when Grandfather showed me how to do it. He lectured and demonstrated together: "Keep the point down, keep the heels down, stand up straight, don't try to cut too much, come 'way round, now 'way back. See?" The grass swished out to the left and lay in an ordered heap. The swath was all of eight feet wide and every stubble was the same length. I tried it, with the result that I brought the point up, brought the heel up, stooped over as if I were weeding carrots, tried to cut too much—and hit a rock.

This returned us to the grindstone where I lifted myself off the ground with each revolution of the handle, and Grandfather combined sharpening instructions with that lively tale of how he inadvertently started the Battle of Gettysburg by taking a pot shot at a marsh hen. Each edge must be ground at the proper bevel, and the aim is to get a "wire edge" the whole length of the blade. This is then cuffed off with a whetstone or a pine stick.

In these times a machine does all the straight work and leaves only the trimmings to a scythe. It also leaves the swales—those wet runs across a field with heavy grass and sometimes reeds or sweetflag. The hay in the swales is almost worthless, and puts a cow to the trouble of ignoring it. It makes mulch or bedding, and must be cut not only for looks, but because uncut swales grow to bushes in no time. The footing is always soggy. A man with rubber boots on one end and a scythe on the other is not the most flexible and mobile of combinations. If watched closely, he will appear to stop every few minutes and pant.

Then, too, mowing becomes progressively harder. In the early morning the grass is wet and the scythe is sharp. This is all right. But as the grass dries out it cuts less readily, and by that time the edge is wearing off the blade. The sun, of course, is going higher and getting hotter. Shortly it seems like a good time to go to the barn and find someone to turn the grindstone. It's fairly cool under a barn, and when the scythe is sharp again there suddenly come to mind a dozen things more important than mowing swale.

Hand mowing exercises portions of the body even a well educated man never knew he had, not only in one or two directions but in all directions. The only thing exactly like it is falling into a threshing machine, except that a man thus unfortunately served knows he doesn't have to get up tomorrow and do it again.

AN ODD MAN

"Chesty is one of the oddest men I ever saw."

"How so?"

"Why, when a fellow borrows a quarter and doesn't pay it back, Chesty finally admits that it is the quarter he cares about, and not the principle of the thing."

Hard To Believe How Time Flies

AUGUST 14

1913 President of the Stoney Lake Cottagers' Association says that the tango and the turkey trot must not be danced in the Juniper Island pavilion.

A new steamer wharf at Whitfield's Landing on the Otonabee River is formally opened with the County Council in attendance.

Fifteen men leave here in automobiles to fight bush fires near the limits of the Peterborough Lumber Company.

The home of Timothy McMahon, Douro Township, is destroyed by fire and the family have a narow escape.

Meredith Huycke, son of Judge Huycke, has won an Edward Blake scholarship.

1923 A tablet is unveiled in St. John's Church in memory of F. R. Yokome, late editor of The Examiner.

Robert Thomas Goodfellow, a native of North Monaghan, dies in Prince Albert, Sask.

Nine nuns take their final vows in an impressive ceremony at Mount St. Joseph.

Thirty residents of the city and district leave for the west on a harvesters' excursion.

The touring Oxford-Cambridge lacrosse team is beaten 11 to 5 in a game at Havelock.

1933 Aldermen Stocker and McIntyre are named by the Board of Health to investigate charges made by Miss A. M. Price, matron of the Isolation Hospital.

City Council decides to add 1,000 feet of grandstand accommodation to the bleachers at the East City Bowl.

A number of the city's unemployed are stick picketing a house where an eviction has been pending.

North Monaghan decides to sell wood to its citizens at $5 a cord, delivered.

Harrison's softball team evens up the City League final series by defeating the Sugar Bowl 8 to 4.

IN WAR TIME

1918 Flight Lieut. W. E. Jackson, a Peterborough member of the Royal Flying Corps is reported missing in France.

Lieut. B. F. Fisher of Millbrook is officially reported as having been killed in action.

Word is received of the safe arrival in England of Flight Lieut. Max Swanston of the Royal Flying Corps.

On a motion introduced by Fred Eason, the County Council will consider the question of joining the good roads movement at the fall session.

Patrol Sergt. Arthur Blade, who tendered his resignation as a member of the police department, has now decided to remain with the force.

A Bible Message

(From the Authorized Version)

AND one of the company said unto him, Master, speak to my brother, that he divide the inheritance with me....

And he said unto them, Take heed, and beware of covetousness: for a man's life consisteth not in the abundance of the things which he possesseth.

And he spake a parable unto them, saying, The ground of a certain rich man brought forth plentifully: and he thought within himself, saying, What shall I do, because I have no room where to bestow my fruit. And he said, This will I do: I will pull down my barns, and build greater; and there will I bestow all my fruits and my goods. And I will say to my soul, Soul, thou hast much goods laid up for many years; take thine ease, eat, drink, and be merry. But God said unto him, Thou fool, this night thy soul shall be required of thee: then whose shall those things be, which thou hast provided? So is he that layeth up treasure for himself, and is not rich toward God.

And he said unto his disciples, Therefore I say unto you, Take no thought for your life, what ye shall eat; neither for the body, what ye shall put on....

But rather seek ye the kingdom of God; and all these things shall be added unto you.

Fear not, little flock; for it is your Father's good pleasure to give you the kingdom. (Luke 12: 13, 15-22. 31, 32.)

"Competent Neighbors"

LETTER to New York Herald Tribune:

Sir,—While all of us must be content with such gasoline as may be released for our usage, it is no official's business what we do with the motor fuel after we get it.

Does a citizen burn his gasoline for any purpose he desires, and then be forced to walk, it is his bad judgment, bad luck, or what you will. He should not be questioned by any official, or stopped on the road, unless there is proof he has bought gasoline illegally through Black Market sources.

It seems fair to ask why the citizens of Canada are allotted well over twice as much gasoline a year as we are with no restrictions on its use: when most of their motor fuel comes from our country. The officials of the O.P.A. are making chaos of our social and economic scene. They might well take several leaves from the book of our competently governed neighbor to the north, and this is true of other departments of the Federal Government.

PETER VREDENBURGH.

Farmingdale, N. J.

Shakespeare's Mind

WHAT state of mind is most propitious for creative work? The mind of an artist, in order to achieve the prodigious effort of freeing whole and entire the work that is in him, must be incandescent, like Shakespeare's mind. There must be no obstacle in it, no foreign matter unconsumed. The reason perhaps why we know so little of Shakespeare—compared with Donne or Ben Jonson or Milton—is that his grudges and spites and antipathies are hidden from us. All desire to protest, to preach, to proclaim an injury, to pay off a score, to make the world the witness of some hardship or grievance was fired out of him and consumed. Therefore his poetry flows from him free and unimpeded. If ever a human being got his work expressed completely, it was Shakespeare. If ever a mind was incandescent, unimpeded, I thought, it was Shakespeare's mind.—From "A Room of One's Own," by Virginia Woolf. (New York: Harcourt Brace.)

R.C.A.F. Activity Heaviest At Nuremberg

By GEORGE KITCHEN
Canadian Prss Staff Writer

OTTAWA, Aug. 14 (CP)— Highlight of the week for R.C.A.F. squadrons operating in Europe was the massive raid Tuesday night on Nuremburg, important German armament and engineering centre and a vital railway junction, it was indicated today in the regular R.C.A.F. communique covering the week ended August 12.

R.C.A.F. Halifax squadrons operating as part of the force of the Bomber Command, flew to the target over a cloud-covered route.

Many Fires

But as the aircraft approached Nuremberg the weather cleared and the crew was able to see "large concentrations of fires and many violent explosions from the great weight of high explosives and incendiary bombs, more than 1,500 tons of which were dropped in three-quarters of an hour."

The communique added: "The German night fighters made a determined effort to intercept our bombers, particularly on the way out to the target when there was bright moonlight above the cloud, but notwithstanding this our casualties were extremely light."

Bad Weather

Operatings of R.C.A.F. fighter and bomber squadrons were curtailed during the early part of the week by unfavorable weather.

On Saturday night R.C.A.F. Mosquitos of fighter command on intruder patrols attacked enemy airfields and railways in France. In daylight Monday, railway targets in the Paris area were attacked by Mustangs while Spitfire squadrons of an R.C.A.F. fighter wing took part in sweeps over Northern France.

The R.C.A.F. bomber group operated Monday night in bomber command's heavy attack on Mannheim-Ludwigshafen, the important German industrial and communications centre on the Upper Rhine. Considerable opposition from enemy fighters was met both en route and in the target area.

Intruder Patrols

In conjunction with the Mannheim raid, R.C.A.F. fighters carried out intruder patrols, attacking a number of enemy airfields and other ground targets in France and destroying one enemy fighter in combat.

Wednesday night Wellington aircraft of the bomber group laid mines in enemy waters, and that night Canadian fighters on intruder patrols attacked railway targets in France. One enemy fighter was destroyed by Spitfires during offensive Thursday.

Britain Starts Probe

LONDON, Aug. 14 (CP).—Switzerland, as the protecting power of British interests in Axis and occupied countries has been asked by the British Government to investigate reports that Italy is transferring British prisoners of war to Germany.

The Daily Express, in a Berne, Switzerland, dispatch reported 2,500 prisoners had been moved in one group recently and said, if this were true, it might have an adverse effect on conditions imposed on Italy if she surrenders.

Wives Press Change

SARNIA, Ont., Aug. 14 (CP).—Thirty-one Sarnia City employees are petitioning to have Friday made their official pay-day "so our wives car do their shopping early Saturday morning."

Branded With Ink

PORT STANLEY, Ont., Aug. 14—(CP).—No longer will fair damsels attending Port Stanley summer ballroom have their delicate hands branded with dark ink as indication that they have paid the requisite admission fee. Henceforth invisible ink, visible only in ultra-violet light, will do the trick—and, incidentally, obviate the alleged malpractice of transferring the mark to other hands and so gaining free admission.

Five Graham Brothers Of Lakefield Serve Canada Overseas

Five sons of Mrs. I. Graham of Lakefield are now serving overseas. LEFT to RIGHT are: L.-Cpl. Beverley Graham, who is with the First Radio Location unit and who will have been in Great Britain two years in September. Beside him is L.-Cpl. Allan Graham, who is with the Forestry Corps in Scotland, and has been overseas more than two years. L.-Bdr. Westley Graham, with the R.C.H.A., has arrived safely across the Atlantic, as has his brother, Pte. Elmer Graham, who is with the R.C.A.S.C. The fifth brother, Theodore Graham, is somewhere in the Pacific.

Airmen Overseas Get Flying Decorations

OTTAWA, Aug. 14 —(CP)— Air Force headquarters last night announced award of five Distinguished Flying Crosses and 14 Distinguished Flying Medals to members of the R.C.A.F. serving overseas.

Among the winners of the D.F.M. were four men who have been commissioned since the action for which they were decorated.

The awards:

D.F.C.

Flt. Lt. E. S. Baker, Calgary.
Flt. Lt. J. G. McNeill, Calgary.
F.O. J. H. Foy (since reported missing), Toronto.
F.O. R. G. Carter, Toronto.
F.O. D. L. Giggey, Saint John, N.B.

D.F.M.

Flt. Sgt. H. E. Patch, Vegreville, Alta.
P.O. H. H. Rich ·dson, Winnipeg.
P.O. L. M. McKinnon, Revelstoke, B.C.
P.O. B. B. Hosick, Toronto.
Flt. Sgt. J. E. Dorie, Cornwall, Ont.
Flt. Sgt. C. L. Morton, Berkeley, Calif.
Flt. Sgt. Alfred G. Paulton, Windsor, Ont.
Flt. Sgt. A. P. Fast, Langley Prairie, B.C.
Flt. Sgt. B. H. Moroney, Sudbury, Ont.
Flt. Sgt. R. G. Craft, Brantford, Ont.
Flt. Sgt. H. Beckwith, Winnipeg.
P.O. F. A. Sutherland, Toronto.
Flt. Sgt. F. M. Tutton, Edmonton.
Sgt. B. D. Boynton, Calgary.

Italian-Hun Relations Steadily Worsening

BERNE, Switzerland, Aug. 14.—(AP).—Signs multiplied to-day that Iatly is stepping away from Germany in an effort to approach the Allies and democracy—for the latter, said the newspaper La Stampa of Turin, is the country's urgent need to-day.

Dispatches indicated that the Italians looked anxiously toward Quebec and the forthcoming conferences between Prime Minister Churchill and President Roosevelt, hopeful that the conferences would supply the means to get out of the war.

The widening rift between the Axis partners was becoming so apparent that the Milan correspondent of the Zurich Die Tat, in a dispatch passed by the Italian censor, said he could "no longer speak of good Italian-German relations."

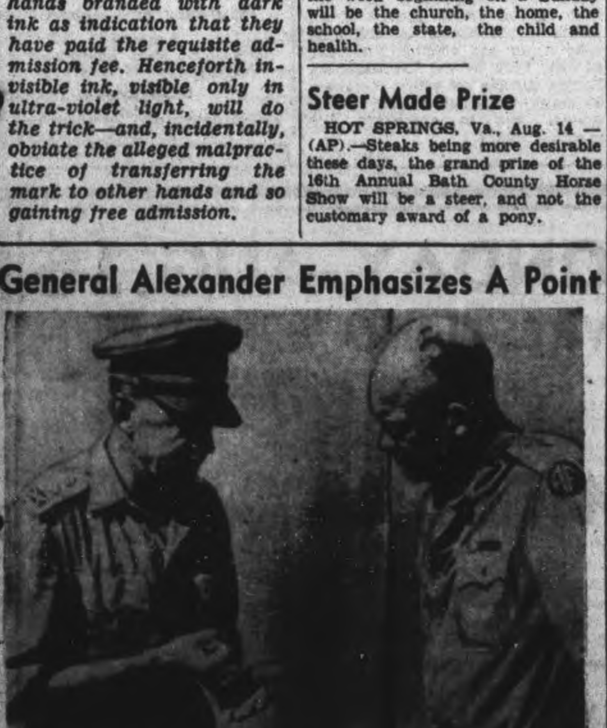
Education Week

SAINT JOHN, N.B., Aug. 14 —(CP). —Education Week will be observed throughout the Dominion from November 7 to 14, it was decided yesterday by the constitution and policy committee of the Canadian Teachers' Federation, in annual convention here. Topics for discussion for each day during the week beginning on a Sunday will be the church, the home, the school, the state, the child and health.

Steer Made Prize

HOT SPRINGS, Va., Aug. 14 —(AP).—Steaks being more desirable these days, the grand prize of the 16th Annual Bath County Horse Show will be a steer, and not the customary award of a pony.

General Alexander Emphasizes A Point



The morning after Mussolini found himself out, General Sir Harold Alexander, commander of the British forces, and General Dwight D. Eisenhower, RIGHT, American commander, met in Tunisia to discuss the latest development. Gen. Alexander seems to be illustrating a point as he pounds his fist.

Toronto Ponders Tree Cutting To Help Fuel Shortage

TORONTO, Aug. 14—With practically no fuel wood available for sale within a 200-mile radius of Toronto, Mayor F. J. Conboy yesterday suggested the possibility of cutting down city trees to alleviate the local fuel shortage this winter.

Instructions to explore the feasibility of the scheme have been issued by the mayor to Property Commissioned Graham Bland and Tracy leMay, commissioner of city planning and city surveyor.

The mayor's action was taken on receipt of a report from the two commissioners who stated a survey of the Parry Sound and Haliburton areas, "where normally large quantities of fuel wood are produced annually" revealed that no fuel wood was available.

The number of city-owned trees on streets and parks was placed at 250,000 by a city hall official.

"I don't think we will cut down all the city-owned trees," Mayor Conboy stated, "but it might be possible to cut down a good many of them." He added they might serve a better purpose in the furnace than "standing by the roadside."

Lack of seasoned cordwood for fuel was attributed by the commissioners to:

1. The lack of manpower for cutting wood fuel in the bush. Many experienced cutters have in the last two years found it profitable to quit cutting wood and enter work both less arduous and more profitable and it has been found impossible to replace these men, the report points out.

2. Most of the hardwood being cut is sold to chemical companies for the manufacture of wood products vitally necessary in the production of war materials.

Orders running into thousands of cords are going unfilled as large operators are unable to cut the wood, the report states. Even wood-burning communities are having difficulty in obtaining an adequate supply of wood, although large quantities of uncut wood stand in the bush within easy reach, the commissioners stress.

Referring to a suggestion that the city purchase fence rails and old buildings on abandoned farms to be used as fuel wood, the commissioners declare "there is nothing to support such a proposal."

Only possible source of wood for the city was seen through the purchase of wood lots or cutting rights on Crown lands, coupled with contracting for the cutting of this wood. However, the obstacle of insufficient manpower and lack of dry wood would still have to be overcome, the report adds.

Old C.P.R. Conductor Dies After Long Term

NORTH BAY, Ont., Aug. 14. — Alexander M. Moore, 80, retired Canadian Pacific Railway conductor and a resident of North Bay for half a century, died at his home here yesterday.

Born in Rolph township, Mr. Moore came to North Bay as a youth, entering the employ of the C.P.R. He retired as a conductor in 1928.

Mr. Moore is survived by his widow, the former Agnes Pullen, one daughter, Mrs. Jack Hunter of North Bay, and four sons, Lorne, North Bay, Flt.-Lt. A. H. Moore, St. Hubert, Que., Cpl. Alden Moore, Brockville, and L.-Cpl. Archie Moore, overseas.

HOME GUARD AT WORK

LONDON — (CP). — The War Office announced it had no objection to Home Guards wearing their uniforms at work when Guardsmen go right from work to parades and otherwise would not have an opportunity to change from civilian clothes to uniforms.

Shorten School Year

HALIFAX, Aug. 14—(CP).—The Council of Public Instruction announced today that all schools in Nova Scotia would open September 8, nearly a week late, this year and close a few days earlier next spring to rcduce the school year to 190 days from 200 days.

Moving Packing Shipping Storage

Department Of Agriculture Urging Schoolboys Pick Milkweed Leaves

OTTAWA, Aug. 14 — (CP). — The nimble fingers of Canadian school children are confidently expected to undo some of the harm caused the United Nations when the Japanese grabbed Far East rubber-producing areas.

Agriculture Department officials yesterday said they anticipated that children would be major contributors to the milkweed collection drive. And milkweed probably means more tires and other essential rubber supplies for the armed forces.

Large-scale experiments now are under way to determine the value to the rubber industry of a gum obtained from milkweed, and experiments have indicated it will be "extremely useful" for blending with certain types of synthetic rubber.

The National Research Council at Ottawa has erected a pilot plant to obtain "a considerable quantity" of gum for large-scale semi-commercial tests, and the Agriculture Department has undertaken to obtain in 1943 from wild plants a minimum of 100,000 pounds of dried milkweed leaves for processing.

Through co-operation of the Ontario Education Department, pupils in rural schools are being urged to strip milkweed leaves, dry them at home and take them to school after classes resume in September. The collection should begin at once, officials said, before leaf fall begins.

Payment will be made at the rate of three cents a pound plus a small bonus for especially dry, high quality material. Cheques will be sent to the inspectors to be distributed to the teachers, who may have the money used for school purposes, for the Red Cross, or paid to the individual pupils at discretion.

Correspondent Finds Canadians Resting

TORONTO, Aug. 14 — (CP). — Peter Stursberg, CBC war correspondent, reporting to-day from Algiers said that the fact that the Canadians have not been mentioned in recent Allied communiques does not mean they are no longer in Sicily, "but just what they are doing is a military secret."

Stursberg added that when he left Sicily a few days ago the Canadians were "resting up after the capture of Aderno."

Farmers Warned Buy Feed Grain Now

TORONTO, Aug. 14 (CP). — A V. S. Milburn, secretary of the Ontario Federation of Agriculture said today that if farmers do not buy and store Western grain now "the shortage will be reflected in a decrease of hogs, beef cattle, poultry and dairy products production during the fall and winter."

Mr. Milburn said both the Federal and Provincial Departments of Agriculture have given financial assistance in the way of subsidies to help farmers in the purchase and carrying charges of carloads of Western grain. He added that farmers should take advantage of available transportation facilities before delivery of the new Western crop makes demands on these services.

Corn 12 Feet High

GANANOQUE, Ont., Aug. 14 —(CP). — Leonard Anglin, Brewers' Mills district farmer, claims the country's tallest corn. Silage corn on his Pine Grove farm this week measured a full 12 feet in height, with well-developed ears six feet up the stalk.

IN THE SAME WAY that a prize fighter depends on his legs, a modern assault force depends on the speed and skill of the Army Service Corps. Day and night, with danger in the air, under foot and on every side, these fighter-drivers carry troops, ammunition, food, fuel, water and other supplies from base to battle line.

Each member of the Corps is trained to handle his truck or a gun with equal ease; to operate radio equipment; to find his way through strange country by map, by compass, or by the sun and stars. In spite of mud, sand, mines, bombs—these soldiers drive onward with their precious cargoes. Of such men, General Montgomery has said: "They always deliver the goods".

When men of the Army Service Corps meet enemy opposition, they flash into action like "Indian fighters" in covered wagon days (see illustration above). The two lead trucks swing into a road-blocking "V" while fighting men scramble from the "protective vehicle" (Number 3 in a convoy) and pour hot lead from rifles, Brens, sub machine guns, anti-tank or anti-aircraft weapons. With the enemy pinned down, the remaining drivers turn their lorries "on a dime"—and swing around to find some way, *any* way to deliver the stuff with which victories are made.

• • •

Into each of the thousands of military vehicles which roll away from Ford of Canada assembly lines goes the finest work of skilled automotive specialists. The rugged, powerful vehicles are made and tested with the most exacting care—because Ford of Canada workers are determined these Canadian-built machines will distinguish themselves under fire in the expert hands of the fighting Army Service Corps.

"Canadian Industry must keep open a 'direct line' of communication with the world's battle-fronts—so Canadian equipment will continue to increase in battle-worthiness as it increases in quantity."

Pounding Into Home Plate

An excellent action shot showing the horses as they thundered into the back stretch in a race at Washington Park in Chicago, Ill. Leading the pack, and the winner, is Chicago Dr., with Jockey Bowman in the saddle. Following in his wake are Subdeb and Just Beans who finished in that order.

American Wins Singles Trophy

TORONTO, Aug. 14—(CP)— The Ontario Provincial Lawn Bowling tournment concluded here yesterday with winners being declared in doubles and singles competition.

The Townsend-Clark Doubles Trophy went to the West Toronto rink of G. A. Sage and G. F. Fleming who downed W. T. Hutchison and A. Stroud of Toronto Withrow 18-14 in a close final game. F. Beldham and B. G. Hill edged J. R. Brown and W. Brady of Detroit 16-11 to win the Birks-Ellis-Ryrie doubles.

The Rice Singles Trophy was won by an American for the second time since 1929 when it was inaugurated. J. Weir of Detroit topped N. Robinson of West Toronto 21-8 in the finals to win. T. C. Reed of Orlando, Fla., gave A. Myles of Toronto Rusholme a tough battle before he was defeated 21-10 in the Roden singles final. Myles had previously held the championship in 1938.

LAWN BOWLING

By HERB MARTIN

Despite the heavy shower that came around 5 o'clock Friday evening, rinks came from Belleville and Lindsay to help swell the entry in the first twilight doubles tournament of the season.

Although there was a pretty fair turnout, yet we believe that if the weather had been a little clearer, we would have had to hang out the "No room" sign.

Three 10-end games were played, and taking everything into consideration the bowling was real good.

We are of the opinion that a "repeat" order would go over big.

Winning Pairs.

1st—Peterborough: N. Hamley and J. Cullen—each an electric clock.

2nd—Peterborough: J. Harrison and B. Chesler—each a pair of military brushes.

3rd—Belleville: A. Wannocatt and H. Rain—each a silver tray.

4th—Peterborough: W. S. Hill and C. Lawrence—each War Savings Stamps.

5th—Peterborough: J. Detcher and J. McDonald—each War Savings Stamps.

Fights Last Night

(By The Associated Press)

Long Branch, N.J.—Bobby Jacobs, 168, Philadelphia, outpointed Billy Grant, 168¾, Orange, N.J. (8).

Worcester, Mass. — Tommy Bell, 143, New York, stopped Henry (Kid) Robinson, 182, Philadelphia (9).

Hollywood, Calif.—Manuel Ortiz, 119, Los Angeles, outpointed Leonard Lopez, 119, Mexico City (10).

San Diego, Calif.—Lupe Gonzales, 136, Mexico City, won over Donnie Maes, 131, Los Angeles, by a technical knockout (10).

Boxing Moguls Meet

MONTREAL—(CP)—For the purpose of establishing present Canadian champion of the ring, the Canadian Boxing Federation will hold a meeting in Montreal Aug. 16, it was announced last night by Frank Hogan, chairman of the Montreal Athletic Commission. The last meeting was held in 1940 at Toronto.

A WARM FRIENDSHIP FOR A COOL HOME!

You'll really want to stay home this summer and all year round, when your home has been comfortably insulated! Rock wool insulation keeps your home "livable" during hot summer months because it prevents severe heat and scorching sun rays from making an oven of your house. And in winter its effectiveness is doubly important—for it not only keeps your home evenly heated and draft-free, but cuts down your fuel consumption. Phone 4655 RIGHT NOW and find out the details of insulating!

Adali The Turk To Meet Rowdy Hogan

A strong pair of bouts to support the main wrestling feature between John Katan and Earl McCready has been signed for Monday night's renewal of hostilities at the Brock Arena. In the semi-final the tough and expeienced Ali Adali, who has been well called the Terrible Turk, gets no setup in the obstreperous Dick Hogan. The Terrible Turk is of the older school of mat manoeuvres, but has plenty on the ball and recently took the measure of Lighthorse Harry Lever, the North Dakota Flash. Hogan knows his stuff too, and can be both rugged and scientific when he wants to.

In the third match two of the most popular wrestlers to ever appear here meet again when Irish Pat Flanagan once more opposses Jumping Joe Maich of Brantford. Maich and Flanagan wrestled here twice before, and each time their bout was considered the tid-bit of the evening. Nothing, however, can take away from the importance of the main bout between McCready and Katan. These two behemoths wrestled last Monday to a one-hour draw and now they have been matched over the 90-minute limit. The result should not only be a great wrestling match, but should finally decide which of the two huge athletes is the better man.

Katan takes the attitude that if the match this week had gone another five minutes he would have had the deciding fall, but those who have watched McCready in all his matches here were agreed that the mighty "Moose" had really taken the upper hand towards the last. So it's for two out of three falls or an hour and a half, and whoever wins out can truly be counted one of the top dogs of the mat sport to-day.

HASTINGS

Merchants Planning Annual Street Dance

HASTINGS, Aug. 14.—(ENS). — The merchants of Hastings held a meeting Wednesday and decided to hold their annual street dance on Front street, Hastings, on Wednesday, August 18.

Many entertainments are being planned, such as bingo, along with old-time fiddlers, tap dancing and amateur singing. The music for the evening will be supplied by the Melody Makers, Hastings.

Class Picnic.

Mrs. Small entertained her Sunday school class at her home on Albert street, Hastings, Wednesday afternoon. Games and races were enjoyed during the afternoon. A bean contest was won by Shirley Peck and Clarine Scriver. Running race, Dorothy Fleming, Fay McGee. Hopping race by Phyllis Oitment.

The hostess, assisted by Barbara Lloyd and Clarine Scriver, served a delightful luncheon. Those present were Hazel Kelly, Phylis Oitment, Shirley Peck, Fay McGee, Clarine Scriver, Barbara Lloyd and Dorothy Fleming.

Women's Association.

The Women's Association of St. Andrew's Presbyterian church held a quilting and pot luck dinner on Thursday in the basement of the church. There were 15 ladies present. Mrs. Robert Greenly was in charge.

In the afternoon the ladies completed two quilts, one for the Red Cross and the other was sold. The ladies had a tasteful pot luck dinner, served by Mrs. William McEachine and Mrs. Harold Wilson.

Work Continues.

The ladies of the Fife Community meet at the home of Mrs. Walter Humphries to hold their regular Red Cross meeting. There were ten ladies present and during the afternoon they quilted one quilt and made a top for another, to be quilted at their next meeting, two weeks later at the same home. They also handed out yarn to do some knitting for the Hastings Red Cross. The hostess, Mrs. Humphries, served lunch to the members.

The monetary unit in Hungary is the pengo, with an average value of 20 cents.

Coaches Seahawks

New head coach of the Navy's Iowa Seahawks football team is Lieut. Don Faurot, ABOVE, former University of Missouri gridiron mentor. He succeeds Lieut.-Col. Bernie Bierman.

SPORTS – DAY BY DAY

By FRED D. CRAIG

The Military Training Centre and the 4th Battery will resume their baseball war at Riverside Park at 6.45 o'clock this evening, with the Gunners battling desperately to even up the series by grabbing off this fixture. If they fail to do so and find themselves two games to the bad there should be no excuses from the Artillery camp for Manager Dormer expects to have a full roster available tonight for the first time since the playoffs opened. Eddie Starr, Art Heal and Ned Vitarelli will be back, making it possible to field a regular infield, while Nels Foster will team up with Joe Stewart and Les Burton in the outfield. Dave Wilson is slated to do the pitching. Manager Morgan of the Soldiers is expected to send Jack Wilson in against the Gunners, although in view of the effective game Tom Parsons tossed on Thursday night the Training Centre pilot may elect to shoot him right back at the artillerymen. Parsons allowed only two hits and would not have been scored upon had not his support wavered a bit. Sandulak will be absent from the Soldier lineup, but otherwise the team should be at full strength.

* * * * * *

Third game in the best four-of-seven series between Westclox and Aircraft for the senior championship of the Girls' Softball League and the right to represent Peterborough in the Ontario playdowns will be staged at the East City Bowl Monday night and promises to be a thriller. The Big Bens are two games up on the series, and another win would give them a lead that would be almost insurmountable. Aircrafts will be battling all the way for a victory to put them back into the hunt. Under the circumstances the game should be the most exciting staged between the rivals this season, and that is covering a lot of ground. It is expected that Norma Strickland will be sent to the mound by the Aircraft, while Manager Pat Hayden of Westclox is expected to start Marg. Watson, although he might cross up the opposition by calling upon Isobel Bullock to open the offensive. Both outfits will have their strongest teams out and the game will undoubtedly bring the patrons out in droves. The two teams have staged a bunch of fine games this season and both have a big following of fans who will be on hand to see them perform in this third game of the final series.

* * * * * *

Shrimp McDougall Benefit

The City League executive announces that the playoff game scheduled for next Tuesday night between the Military Training Centre team and the 4th Battery has been turned into a benefit game for a well-known Peterborough athlete, Shrimp McDougall, who is seriously ill in a Toronto hospital. Although McDougall achieved his greatest hockey fame as a member of the Dominion junior champion Owen Sound Greys, he starred in both junior and intermediate hockey in his home-town and has helped to provide Peterborough fans with considerable entertainment. He also did his bit as a coach of local clubs, and the sporting public here will no doubt cheerfully co-operate in making next Tuesday's benefit the success it deserves to be. Every cent taken in will be turned over to McDougall, and the league officials are confident that the response will result in a substantial sum being raised for a most deserving case. The game will be a regular playoff game and as the right to go on into the league finals may hinge on the result the battle should be attractive enough in itself to pack in the customers. Fixtures between the two clubs have been among the most interesting of the season, and this should be one of the best contests carded this summer. The 4th Battery players have already started the ball rolling by donating $10 as their admission to the game.

* * * * * *

If there was any doubt as to the class of Earl McCready and John Katan or of the fact that the two grapplers are very evenly matched it has been eliminated this week, for since meeting here on Monday night McCready and Katan have each faced World Champion Wild Bill Longson and both have been successful in staying on even terms with the No. 1 man of the mat game for an hour. That furnishes its own commentary on the calibre of the two stars who clash here Monday night in the main bout of the weekly Tunney show. With a time limit of an hour and one-half arranged everything points to a long and thrilling struggle between two very powerful and clever wrestlers. The duel between the flying scissors of Earl McCready and the unconscious chin lock grip favored by the Palermo Panther promises to be a classic. There are two other good bouts on the card. The rough-house Dick Hogan is billed to meet Ali Adali, the Terrible Turk, and we would advise the latter to guard his long mustache carefully or the rowdy Housepainter will tie a knot in it. The other argument will be a return bout between Irish Pat Flanagan and Joe Maich, two of the fastest boys to appear here and they should furnish plenty of action.

* * * * * *

His 2,000th Safe Hit

Undoubtedly the feature of yesterday's doings in the big show was the fact that Luke Appling, hard-hitting shortstop of the Chicago White Sox who is leading the American League hit parade, smacked out his 2,000th hit in big league baseball. Appling needed one blow to hit that total and he lost no time in coming through, nicking Tex Hughson of the Boston Red Sox for a single on his first time at bat. A great ball player, the same Appling, and he will probably add a lot of blows to his total before he passes out from in under the main top. New York Yanks after absorbing two one-sided defeats at the hands of St. Louis, turned on the Brownies and handed them a 4 to 0 shutout with Spud Chandler handling the whitewash brush. It was Chandler's 15th victory of the season against three defeats which would seem to indicate that Spurgeon is having himself quite a year. Milo Cardini came through with a six-hitter to stop Detroit and Rudy York 11 to 3. There was only one game in the National League, Boston Braves with Danny McFayden getting the credit in a relief job nosed out the Chicago Cubs 5 to 4 in ten innings. The Braves came back with a pair of runs in the last half of the extra frame after the Cubs had opened the tenth with a run.

* * * * * *

It was just ten years ago today that Jimmy Foxx, one of the great hitters of all time, set a new American League record for runs batted in in a single game. Playing for Philadelphia Athletics against the Cleveland Indians on August 14, 1933, Foxx supplied transportation for nine Athletic runs, beating a record of eight runs batted in that had stood since 1911. Foxx came up in the first inning and belted a triple to chase in two runs. He was back up at the plate in the second frame and uncorked a homer with the bases loaded to drive in four more markers. In the fourth Foxx slapped out a double on which another counter was registered, and finally in the sixth he singled to supply the drive that resulted in two more Athletic markers. Finally Foxx came up in the final inning to take three healthy swings that hit nothing but the soft August breeze. The National League record incidentally is 12 runs batted in in one game and Jim Bottomley of the Cards set that one up nineteen years ago.

* * * * * *

Sporting Chile Con Carne: The Genelecs-Switchgear game scheduled for last night was washed out and will be played Monday night....Incidentally the City League executive will be getting the jitters soon if the playoff schedule continues to be interrupted....That was the second Genelec-Switchgear game that had to be postponed this week, while in the other bracket the Soldiers and Battery further complicated matters by playing a tie in the opening game of their series....Luke Appling is the ninth player now in the game to make 2,000 or more hits in the big league....Rookie Butch Nieman's big bat won yesterday's game for the Boston Braves over the Cubs....His homer in the tenth with a mate aboard supplied the margin of victory....Pitcher Johnny VanderMeer of the Cincinnati Reds has been ordered to report for induction into the

(Continued on Page 12)

Old Connie Mack Nearly 82 Will Take Part

By MAX KASE

NEW YORK, Aug. 14 — Man and boy Connie Mack has been part and parcel of baseball for almost three score years. First as a player, then a manager and at an age when men look longingly to a warm place at the fireside, he has continued as manager and club owner.

Connie has seen baseball emerge from scraggly playing fields to the well-manicured plush parks of to-day. He has been a vibrant force in the evolution of the game from its rowdy, gusty days to its hold on a sports-loving nation.

Will Be 82 In December

For 59 years, since the day in 1884 he caught for Meriden in the Connecticut State League, Connie has shared the fierce excitement flowing from the white-hot crucible of baseball competition. He has moulded some of the greatest teams in the history of the game. Record books are rich with memories of world series history in which he has played a lion's role.

He will be 82 in December, and time has braked his vigor and his vitality. But time can make no mark on his irrepressible enthusiasm for baseball. So that there is no cause for wonder when the Grand Old Man of the game thrills at the War Bond game at the Polo Grounds on August 26 and makes quick acceptance of an invitation to be present.

Connie is one of the 12 living members of the Hall of Fame. He is the seventh of the eight Hall of Famers invited to make an appearance on the baseball dream team being assembled for the War Bond game festivities. Babe Ruth, Tris Speaker, Honus Wagner, Eddie Collins, Walter Johnson, and George Sisler are others who will be present.

"It is one of the finest things I can think of," Mack said in acceptance. "I wouldn't miss this opportunity for anything. Just think of the appeal of having such grand stars of baseball together at one occasion. I am grateful for being asked."

Connie in Final West Play.

Conie Mack will be with his Athletics in Chicago on their final swing of the West on August 25, but the hurried trip back East fails to daunt him.

"I'll be there," Connie promises, and this is a bond of performance.

The Hall of Famers will just be one of the festivities which bring together an All-Star team of the leading Giants, Yanks and Dodgers in the War Bond League against an outstanding service team.

A most ambitious Billy Rose — staged entertainment program is on tap. Irving Berlin and Jimmy Cagney head a super-duper array of talent from the screen, stage and radio, and beautiful Carol Landis, who has been touring soldier camps throughout the country entertaining United States fighting men, enlisted on the program. So, too, did Ralph Bellamy, the picture star, and Lucy Monroe, the songstress. Others already on the program are Ethel Merman, Milton Berle, Fred Waring and his glee club, Morton Downey, and Cab Calloway.

Remember When–

By The Canadian Press

Jockey Joe Dyer, leading rider on Quebec circuit tracks, showed peak form four years ago today by bringing home a trio of winners. Dyer had mounts in each of seven races, running third in two and fourth and fifth in the others.

Germans Feel Bombs

LONDON, Aug. 14.—(CP).—German Propaganda Minister Paul Joseph Goebbels, writing in the Voelkischer Beobachter, acknowledged the Allied air offensive is causing the Germans "many difficulties and sorrows," but declared it could not decide the war, the German radio said yesterday in a broadcast recorded here.

Barefoot Golf Players

Here and There in Sport

By The Canadian Press

Jackie Callura of Hamilton, Ontario, yesterday found himself facing a legal opponent at New Orleans when a petition for a writ of attachment was filed in Civil District Court in connection with an alleged financial transaction.

The petition was entered by Joseph Bagnato of Toronto against the featherweight boxing champion and his manager, Leo P. Bradley of Providence, R.I., with Hypolite Guinle, fight promoter of New Orleans cited as garnishee. It was alleged that Callura and Bradley executed a promissory note for $15,000, on June 1, 1940, payable to Bagnato one year after date at 6 per cent interest. It was claimed that neither interest nor principal had been paid.

Callura is in training at New Orleans for a 15-round match in defence of his title against Phil Terranova, the bout being scheduled to take place there on Monday night.

Chalky Wright, exfeatherweight champion, did not join the maritime service as scheduled yesterday after all. The Draft Board at New York ordered him induced into the U.S. Army instead and told him to report on August 28.

16 Entries.

The annual Scottish doubles lawn bowling tournament for married couples, created 16 years ago at Preston, Ont., by R. B. Osgood, attracted 16 entries this year from Galt, Ayr, Guelph, and Preston. The winners were Mr. and Mrs. George Arthur of Preston, with Mr. and Mrs. Amos of Guelph second.

Officers Meet

Officers of the Canadian Amateur Hockey Association held a closed meeting in Toronto last night and no statement was issued after the session. To-day President Frank Sargent of Port Arthur and his associates will discuss playing rules with N.H.L. representatives.

Boost Breeding.

The recommendation that each track pay a minimum of three per cent of the added money of all stakes to the breeder of the winning horse was adopted yesterday at New York by the Thoroughbred Racing Association which comprises 33 major turf clubs in the United States. It's to encourage the breeding industry.

Players Drafted.

Pitcher Johnny Vander Meer and Infielder Bert Haas of the Cincinnati Reds have been drafted for the U.S. amed forces, it was revealed at Cincinnati yesterday. If they pass their physical tests they will be in uniform on September 15.

The Preston, Ont., Industrial Softball League has had to postpone its playoffs because most of the 92 players involved have been attending the Reserve Army camp at London. Four teams will be able to resume operations next week, it was stated last night.

In their last scheduled game of the Niagara Senior Baseball League at Meritton last night, the St. Catharines Combines took Crowland into camp 6-2. The Saints wound up in third place and will meet Port Colborne in the first of the playoff series.

Clocks Back An Hour

LONDON, Aug. 14.—(CP).—British double summer time ends tomorrow and effective at 12.30 a.m. all clocks will be turned back one hour. Britain will then be five hours ahead of Eastern Daylight Time instead of six.

Fruit Prices Set

OTTAWA, Aug. 14.—(CP).— The Prices Board last night issued an order establishing maximum prices for all grades of peaches, pears and plums throughout Canada, and announced a subsidy arrangement to enable canners to pack a proportion of the crop.

NIEMAN, HOMER SOCKING ROOKIE GIVES BOSTON WIN OVER SOX

Canadian Sport Snapshots

By CHARLES EDWARDS
Canadian Press Staff Writer

TORONTO, Aug. 14—(CP)—The McIntyre Curling Club near Timmins, Ont., is holding a mid-summer bonspiel Aug. 23-26 with proceeds to be used for the purchase of cigarets for Timmins boys overseas. Used to be that the curlers played the game all winter and talked it all summer. Now, maybe there's be no time for talk. E. P. Atkinson of Toronto, honorary secrtary of the Dominion Curling Association, says to the best of his knowledge, this will be the first summer bonspiel ever held in Canada. St. Paul, Minn., set a precedent with a summer 'spiel last month.

Curlers from Timmins, Schumacher, South Porcupine, Dome Mines, Iroquois Falls and Kirkland Lake will participate in the McInytre event with the entry restricted to 62 rinks. Six sheets of ice are being installed and there will be five draws daily. Six-end games will be played in the preliminaries, 10-enders in the finals of both consolation and main events.

An interesting feature is the night shift draw for miners working from 7 p.m. to 3 a.m. They will curl from 12 noon to 5 p.m. in line with the regular winter practice at McIntyre where the rink is used almost 24 hours daily as the various shifts leave work.

The idea for the summer 'spiel came indirectly as result of the summer figure skating school conducted at the Porcupine Skating Club at McIntyre The six-weeks course winds up next week.

A Little Late

Harry (Calgary Albertan) Scott reports a letter from Gus Rorais, athletic director of Detroit Lions Football League, asking the whereabouts of Paul Rowe, the Victoria boy who became a sensational plunging back with Calgary Bronks before the war. It seems somebody told Dorais that Rowe would do the Detroiters some good. Very true(too, but Rowe now is a captain with the Canadian arm overseas.

Incidentally:

Owen Griffiths of the Montreal Gazette says the one big questioo before the C.A.H.A.-N.H.L. hockey rules committee meeting in Toronto this week-end is to have face-off spots in the neutral zone... Jimmy Einarson, Winnipeg sports authority known to the newspaper trade as the "Portage Avenue Pinkerton" is in the navy, heading for Montreal.

Remillard In

NIAGARA FALLS, Ont.—(CP)—Pat Remillard, leading Canadian jockey this season, has arrived for the 14-day meeting at Stamford Park which opens Aug. 21. P. G. Demetre, managing director, has announced that all service men and women will be admitted free during the meet.

High School Boy Catches In Pacific Loop

LOS ANGELES, Aug. 14 (AP).—Here's a new saga of Billy the Kid. He is, for the purpose of exact identification, Billy Sarni. Only 15 years old. Not yet out of high school.

Yet, he's the first string catcher of the Los Angeles Baseball Club, a team hat is running away from the pack in the Pacific Coast League.

A series of accidents projected the Beardless Billy into the spotlight. First, Eddie Fernandes was injured, and a few days later Billy Holm went out with a split finger. The Angels didn't have a catcher.

In desperation President Clarence Rowland went to Sarni's parents. They had intervened against flattering offers from various Major League Clubs — Pittsburgh Pirates, Boston Red Sox, Cleveland Indians and Chicago Cubs. Billy, they reasoned should stay at home and in school. But Rowland was persuasive, and, aided and abetted by a $10,000 bonus one of the highest ever made by a Class AA baseball club won over the parents.

Sarni joined the Angels the next day and in his first time at bat smashed out a home run.

Billy has played 12 games and is batting a neat .321. He has thrown out 11 runners trying to steal bases. Three times men trying to score have charged into him, bounced back and been tagged out. He's still calling signals, and the veteran Los Angeles pitching staff isn't shaking its collective head at them, either.

The boy's father, Florine Sarni, a semi-pro performer, who never could quite make the professional jump, has been his constant tutor while he performed on the Los Angeles high school sandlots. Billy himself is a strikingly handsome chap with a beautifully tapering body, weighs 165 and is 5 feet 11 inches tall, fair skin and dark brown eyes.

ROAD FOR BIRMINGHAM

BIRMINGHAM — (CP). — The City Council has approved a scheme for the construction of a road at least 110 feet wide round the centre of Birmingham.

Chandler Blanks Browns For 15th Win

By JUDSON BAILEY
Associated Press Sport Writer

Elmer (Butch) Nieman, a rookie outfielder for Boston Braves, may never get to be known as one of the major leagues' outstanding performers, but right now he is providing the finest clutch hitting in baseball.

In the last week he personally has decided four important games for the Braves, yesterday hitting a two-run homer in the 10th inning to beat Chicago 5-4 and force the Cubs back into seventh place in the National League.

Last Saturday Nieman hit his second home run of the season in the ninth inning to beat Brooklyn, on Sunday he smashed a ninth-inning double to down the Dodgers again and Thursday he tripled in the 12th inning to beat the Cubs.

This rate's as a pretty good week's work for the former Kansas State football star who came up from the Eastern League last spring with a .207 batting average and more than justifies his presence in the clean-up slot in Boston's batting order. Although his batting average is .274, 18 of his 55 hits have been for extra bases.

The Braves-Cubs game yesterday was the only contest in the National League to escape inclement weather, but the American League had a full program highlighted by the Cleveland Indians winning their sixth straight and taking undisputed possession of second place. The Tribe clustered its 10 hits off Don Black for three-run rallies in the fourth and seventh innings to beat Philadelphia Athletics 6-4.

Cleveland was unable to gain on New York Yankees, however, because Spud Chandler pitched a 4-0 shutout. Chandler allowed nine hits, two more than his teammates made, but he kept the blows scattered while New York's collection included a home run by Ken Sears and three timely doubles.

Luke Appling, veteran shorstop of Chicago White Sox, bagged the 2,000th hit of his career with a single that drove in a first-inning run and Chicago went on to clip the Boston Red Sox 3-2 on a two-run homer by Tommy Turner in the second inning.

Appling joined eight other players still active in the major leagues who have topped the 2,000 hurdle. Sharing the honor are Paul Waner, who has passed 3,000, and Dick Bartell, Joe Cronin, Doc Cramer, Chuck Klein, Billy Herman, Mel Ott and Joe Medwick.

Rudy York, who had hit seven home runs in his last six games, was stopped by Milo Candini's six-hit pitching as Washington Senators walloped Detroit Tigers 11-3 with eight of their runs coming in the first two innings. The Senators thus moved past the Tigers into third place.

The Sports Round-Up

By SID FEDER—(Pinch-Hitting For Hugh Fullerton)
Associated Press Sports Writer

NEW YORK, Aug. 14.—(AP). — Bobby Feller is throwing his fast ball with an ack-ack gun on the Transatlantic run now....Been under a couple of Nazi plans attacks, too...And Alf Vanderbilt, the hoss boss, has completed his training and has his P-T boat, headed for the big show, too....Manager Bill Daly says in order to cure Lee Savold of his New York fear complex he's going to have Savold train in every night club in town for two weeks....Nice work if you can get it.

Today's Parboiled Parlay.

Looks like Bournmont in the Travers at Belmont, Alsab in the King Philip at Narragansett and Anticlimax in the Sheridan at Washington....Throw in Chuckle in the Colonail at Garden State for a laugh....Then walk home.

Headline: "Nieman's hits win four for Braves."

The batting spree of young Butch Nieman
Has ol' Case Stengel all a beamin',
If he keeps hitting in the clutches,
Ol' Case'll throw away his crutches.

Bouncing Around.

Since Fritzie Zivic flattened Young Kid McCoy, the odds of his Aug. 23 fight with lightweight Boss Bob Montgomery in Philly have faded to 11-10 and pick 'em. Montgomery was a hot 1 to 2 with the bookies before....The Yankees have polished up shortstop Don Savage of their Newark Bears' farm and put a $30,000 price tag on him ....Already turned down the Senators on one bid.

RECLAIM SHIP

The Stokesby, a torpedoed British 7,000 ton steamer, has been reclaimed and is on active service again after lying at the bottom of the sea for 16 months.

Royals Handed 3-0 Shutout

By The Associated Press

Crip Polli has been around long enough to know all the answers and last night he unfurled his knowledge for the benefit of Montreal Royals and hurled Jersey City Giants to a 3-0 victory.

It was the 12th triumph for the veteran whose teammates have won only 47 times all season.

The contest went only seven innings, being carded as the first half of a twin bill. Weather conditions, however, didn't permit the second game to get under way.

The twin bills involving Newark at Rochester and Buffalo at Syracuse also were postponed. They were the only games scheduled.

Nap Reyes' smashing double to centre field gave the Jerseys one run in the first inning, scoring McClure who had singled and moved to second on Juan Torres' sacrifice.

Two more counters were registered in the fourth, the big blow being another two-base poke by Jim Steiner.

Last night's postponements made doubleheaders necessary for all teams today. Oddest arrangement is at Syracuse where the first game gets under way at 2 p. m. and the second at 6:30.

CUBA'S SUGAR

Cuba is the largest sugar producing country in the world.

Yesterday's Stars

By The Associated Press

Butch Nieman, Braves: Hit two run homer in 10th inning to turn back Cubs.

Spud Chandler, Yankees: Kept nine hits spaced to shut out the Browns.

Luke Appling and Tom Turner, White Sox: Appling collected his 2,000th hit of major league career, a run-scoring single, and Turner hit homer with one on to beat Red Sox.

Ray Mack, Indians: Made three hits and batted in two runs in victory over Athletics.

Milo Candini, Senators: Pitched six-hit ball to tame Tigers.

Canadian Army No Longer In Front Lines

By ALAN RANDAL
Canadian Press Staff Writer.

LONDON, Aug. 14 —(CP Cable) — Canadians apparently are no longer fighting in Sicily and it is believed in London they are the subject of Canadian-British discussions now on how they should be used — as a complete Canadian Army or broken up and integrated into British Armies in future actions.

I think it can be said that Canadian authorities are desirous that treir troops be used as a complete army.

In any event this is a tremendous question for the Dominion which all along has believed it would be represented in the field by the Canadian Army as a whole.

It is considered here that this question may have been the reason why Col. J. L. Ralston, Canadian Defence Minister, raced home after only a few days in Britain. When the Minister arrived it was believed he would stay some time and it is understood here his business is still to be cleaned up so he is likely to return shortly.

Not In Action

While it has not been announced just what disposition has been made of the Canadian 1st Division which made such a fine showing in first few weeks of the Sicilian campaign, it is obvious they have not been in recent action.

From Algiers, Louis V. Hunter, Canadian Press war correspondent, has written that the Canadians are believed to be resting. In the London Bureau the first question our editors asked was, "What is Hunter trying to tell us?" Maybe he was not trying to tell anything, but it was realized he was writing against censorship and security and was unable to say much, and if the Canadians are not fighting it is obviously factual that they are resting.

Deciding Fate

But here and there there is a feeling that there is something more to the Canadian inactivity than the need of rest and perhaps some ground for conjecture that the Canadians were pulled from the line while discussions took place as to their ultimate disposition in the armed line-up of the United Nations.

There is a feeling among Canadian army men who have recently participated in one exercise after another in Britain — some of them secret—that they will be used in an assault against Hitler's European fortress.

Want To Be Together

Undoubtedly the use of the Canadian Army must be high on the agenda of Mr. Churchill's discussions with Canadian leaders at Quebec.

Canadian war correspondents who move with the troops in Britain say the men want to fight as a whole also and feel they will eventually. On all sides army men ask correspondents what the Canadians are doing in Sicily now and are as puzzled as anybody as to why the Canadians are not included in reports of the Sicily clean-up assaults.

Maple Products Down 29 Per Cent In 1943

According to a preliminary estimate, there was a considerable decline in the production of maple syrup and maple sugar in the four producing provinces in Canada in 1943. The crop is estimated at 2,058,200 gallons of syrup and 2,416,000 pounds of sugar, a total of 2,299,700 gallons, when calculated as maple syrup. This falls short of the 1942 crop of 3,250,600 gallons, by 950,900 gallons, or 29 per cent.

The 1943 crop moved into market rapidly at higher prices than in 1942, the bulk of the sales being made direct to the consumer. The total value of the crop is estimated at $5,750,000, a decrease of $966,300, or 14 per cent. compared with the 1942 crop which was valued at $6,716,300.

Doesn't Support Baby

STRATFORD, Ont., Aug. 14 — (CP).— Charged with non-support of his two-year-old daughter, who lives with her mother in Stratford, Percy Elgie, Brantford, was to-day sentenced to six months' definite and one year indeterminate by Magistrate J. A. Makins.

New Red Ambassador

MOSCOW, Aug. 14 — (CP). — Appointment of Fedor T. Gusev to the post of Ambassador of the Soviet Union to Great Britain, succeeding Ivan Maisky, was officially announced to-day. He was released from his duties as Minister to Canada and no successor has been announced for that post.

IMPROVED

ANTALGINE

is a safe remedy, which acts promptly, reduces fever soothes the nerves and stabilizes the system in general.

ANTALGINE does not affect the heart nor digestion. It is a specialized prescription, in small capsule shape, easy to take with a glass of water.

ANTALGINE is the medicine highly recommended in cases of: headaches, neuralgia, backache, lumbago, stiff neck, rheumatic pains; toothaches, colds, grippe, sleeplessness, fatigue, nervous depression, overwork; also to relieve pains before and after tooth drilling and extraction, female complaints, PERIODIC PAINS and other cases where a sound pain reliever is advisable.

If you have never used ANTALGINE try it and you will be delighted with the real effectiveness of this well known scientific remedy.

Buy a 25c box, sold everywhere, and read the circular enclosed in each box. Do not accept substitutes.

Insist on Antalgine (36)

Made History In Quebec City When He Met Canada's Ministers

History was made in Quebec City when Prime Minister Churchill met members of the Canadian Cabinet. Churchill is pictured as he greeted Air Minister C. G. Power. LEFT to RIGHT, the other members include Hon. C. D. Howe (between Power and Churchill), Hon. Ian Macdonald (to Churchill's right), Premier Mackenzie King, Sir John Anderson, Hon. T. A. Crerar, Hon. J. L. Ilsley, and the Hon. J. L. Ralston.

25,000 Machine Guns Finished In Windsor

WINDSOR, Ont. Aug. 14 (CP)— Officials at the government-owned Border Cities Industries, Ltd., war plant here announced today the completion of the 25,000th Browning machine gun.

Fulfilment of the present contract now is near, officials said, and plans already are under way for new work. Retooling already is well advanced in the planning stage.

Nature of the next product to be produced was not revealed.

COTTESLOE

WMS Group Studies Stewardship Question

COTTESLOE, Aug. 14 — (ENS). — The W. M. S. held its August meeting at the home of Mrs. Fred Girven with Mrs. John Gallagher in charge of the theme, "The Christian Stewardship of Time."

The program was followed with questions and answers given by Isobel Girven, Mesdames Girven, Toms and Blakley. Mrs. Webster read 'This is Our Father's House'. Mrs. Forsyth had the Study Book and was assisted by Mesdames John Gallagher, Kidd, Girven, Webster, Toms, Jos. Gallagher, Blakley, and Isobel Girven.

Mrs. Gallagher closed the meeting with prayer and Mrs. Girven served lunch and a happy half-hour was spent. The next meeting will be at the home of Mrs. John Gallagher.

Full Co-operation

TORONTO, Aug. 14 — (CP).— Canadian operations in Sicily have been successful because "each army service has gone full out to do its share," Maj. Gen. Guy Simonds, commander of Canadian troops in Sicily, said in a recorded broadcast on the CBC National network last night.

Wash Car 55 Times

MOLINE, Ill., Aug. 14 (AP). — Two Moline boys, 13 and 14 years old, each must wash a police squad car 55 times for sounding a false fire alarm. Neither was able to pay his fine of $55 and costs after pleading guilty, so they agreed to wash it out at $1 a wash.

15 R.C.A.F. Fliers On Missing Boat

VANCOUVER, Aug. 14 (CP)—A Royal Canadian Air Force supply boat carrying 15 persons and plying in British Columbia coastal waters has been missing for several days and despite widespread search no trace of the vessel has yet been found, an official R.C.A.F. announcement said last night.

The statement said the search will be continued until the boat is found or it is positively known she foundered.

The Vancouver Sun said the vessel was the former fishboat B.C. Star.

Next-of-kin of the 15 crewmen and passengers have been notified.

The R.C.A.F. statement said those aboard were:

Sgt. Philip Eric Olsen, Vancouver, master.

Sgt. Charles G. Glover, North Vancouver, Mate.

AC2 Morris Daniel Onuski, Coniston, Ont.

AC2 Gilbert Campbell McFadyen, Sarnia, Ont.

Flt. Sgt. W. E. Mitchell, North Vancouver, chief engineer.

LAC. Frederick Nack, McElhaney, Sask., oiler.

LAC. Clarence James Sherlock, Vancouver, cook.

Sgt. W. M. MacNeill, Sydney, N.S., wireless operator.

Sgt. J. C. Slater, Sidney, B.C.

Sgt. J. D. Hearfield, Vancouver.

Flt. Sgt. R. H. Drouillard, Galiano Island, B.C.

Cpl. T. L. Polec, Winnipeg.

AC2 T. Volhoffer, Southey, Sask.

LAC. G. L. Stead, Dundas, Ont.

AC1 Garnet Arthur Davies, Vancouver.

Lakefield Farmer Leaves District

LAKEFIELD, Aug. 14—(ENS).— A very pleasant evening was spent at the home of Mr. and Mrs. William Beatty, Lakefield Highway, on Tuesday evening, in the form of a presentation to Mr. and Mrs. Jack Bickell who are moving to Peterborough this week.

Mr. Bickell was born on the farm on the 5th Line, where he lived till five years ago, when he and his wife moved to the farm on the highway which he sold recently to Mr. William Beatty, formerly of Peterborough.

The evening was spent in community singing, readings by Mrs. J. Murphy and Mrs. R. Charlton, piano solo by Joyce Godfrey, guitar solo by Ralph Beavis, speeches by Reeve G. McIlmoyle, ex-Reeve H. Coons and several others.

An address was read by G. Mullen and H. Beavis presented the couple with a lovely floor lamp, a gift from friends and neighbours. Another sing-song followed and the evening was brought to a close by serving lunch.

Investigate Traitors

ALGIERS, Aug. 14 — (AP). — French Committee of National Liberation yesterday created a special commission to begin immediately an investigation of the cases of Frenchmen who collaborated with the Axis.

Artillery Officer Casualty In Sicily

BRANTFORD, Aug. 14 (CP).— Lieut. Charles H. (Chuck) Waterous, son of Mrs. L. M. Waterous and the late Logan M. Waterous, was killed in action in Sicily, his mother has been officially notified.

Chuck Waterous was one of Brantford's most popular and capable young artillery officers. A member of the 54th Field Battery, R.C.A. (R.), he left here in February, 1941, going to Petawawa where he took an intensive artillery course before proceeding overseas.

He was engaged to Miss Barbara Ross, a lieutenant in the Canadian Red Cross Corps, who sailed from Canada with a Canadian contingent recently. She and Lieut. Waterous were to have been married when she arrived in Britain, but Lieut. Waterous sailed for Africa, Sicily bound, two weeks before she arrived.

Lieut. Ross is at present serving with No. 5 hospitl unit, British North Africa force.

Pope Visits Ruins

LONDON, Aug. 14 — (CP). — The Rome radio said that Pope Pius XII. visited the areas of the Italian capital bombed in Friday's Allied aerial assault.

The Pope made his visit immediately after the planes had departed, the broadcast said.

British-Canadian Contact In Caltagirone

British and Canadian soldiers greet each other in the main square at Caltagirone, Sicily, after sweeping into the town from opposite sides.

APSLEY

Council To Examine Drainage Complaint

APSLEY, Aug. 14 — (ENS). — The Municipal Council of Burleigh and Anstruther met in the Town Hall, Apsley, on Saturday with all the members present. Routine business was conducted in addition to the following more important items.

On motion of Councillors Booth and Wilson the clerk was instructed to write the provincial engineer at Port Hope re complaint of Arch. Downing that his well had become contaminatted, which he claimed was due to the diversion of a drain near his property when the Department of Highways put in a new system of drainage for the village.

Garfield Elliott asked the Council to open part of the concession near his property to afford him access without trespassing on his neighbor's land.

On motion of Councillors Booth and Wilson, the Reeve and Councillor Tucker were authorized to interview Mrs. Blackwell with the object of obtaining a temporary right-of-way for Mr. Elliott.

The Workmen's Compensation insurance policy was renewed with Lloyds for one year, on motion of Councillors Wilson and Tucker.

The mill rate for the year 1943 was set at 35 2-10, on motion of Councillors Wilson and Booth, and Mrs. B. McFadden was reappointed tax collector of the 1943 roll, on motion of the same members.

The 1942 collectors' roll was ordered to be returned at the next meeting of Council, on motion of Councillors Booth and Tucker.

Several by-laws were passed regarding the collecting of taxes, the collecting of school levies, appointing the tax collector, and admitting S.S. 1 South Burleigh into the township school area.

The road superintendent's pay list for July amounting to $143.10 was approved for payment on motion of Councillors Wilson and Booth.

Council adjourned to September 4th.

Lakefield News

Lance Corporal Noreen Birch of Alwynton Barracks, Kingston, is spending the week-end with her mother Mrs. Charles Birch.

Mr. and Mrs. Edward Aubrey and Brian of Toronto are spending a week at Mr. H. A. Kidd's cottage at the Park.

Mr. and Mrs. Walter Walker, Sandra and Karen were guests this week with Provincial Constable Wallace G. Hendren and Mrs. Hendren in Minden.

Mrs. R. Nicholls, Mrs. J. Nicholls and baby Bonnie are spending the summer at their cottage in the Park.

Mr. and Mrs. D. O'Connor, Lindsay, visited their daughter, Mrs. George Baker on Sunday.

Miss Florence Orr is spending this week in Peterborough with her cousins.

Mrs. John Kidd, Peterborough, and Miss Pearl Kidd of Toronto, were renewing acquaintances in the village on Wednesday.

Master Dennis Baker is visiting his grandparents, Mr. and Mrs. D. O'Connor in Lindsay.

Denise Doubt returned home from Brantford this week.

Mrs. William Croft is holidaying in Buckhorn this week.

Miss Tot Stuart of Montreal is holidaying with her mother Mrs. Grace Stuart.

Evangelist C. E. Tatham, Mrs. Tatham, Lois and Grace spent the week-end in Muskoka.

Sausage Prices Set

OTTAWA, Aug. 14 — (CP). — The Prices Board last night issued an order, effective August 23, establishing maximum prices for fresh sausages, bologna-style sausages, and weiners for all parts of Canada, and said the prices will reflect those of the basic period in 1941.

Export Permits For Grapes And Cabbages

OTTAWA, Aug. 14 (CP).— The Trade and Commerce Department announced today that export permits will be required for the shipment from Canada of certain fruits and vegetables and said the action on cabbage and grapes resulted from light crops.

On and after August 16 permits will be required for shipments of pectin and fresh cabbages, tomatoes and grapes to any destination outside Canada.

Export permits also will be required for the shipment of birch and maple logs, lumber and flooring to any country except the United Kingdom.

The Department said the light vegetable and fruit crops indicated that cabbage and grape supplies would not meet home demands. Tomatoes are in particularly heavy demand for canning and preparing tomato juice.

Short fruit crops also have created a heavier demand for pectin, used to save fruit in jam and jelly making, resulting in a growing shortage of this commodity.

"The critical timber situation" was given as the reason for tightening export control over birch and maple exports.

The Department also announced that the export permit requirement will be dropped for imported fruits, other than apples, peaches, pears, plums and cherries when they are being sent to any part of the British Empire or United States.

"While the movement of imported fruits through Canada is not particularly large, this exemption will be helpful to shippers of fresh oranges, lemons, bananas, etc., to destinations like Newfoundland," said the Department.

Soldier Cools Off

Here, resting on the side of a steep hill during their advance from Valguarnera to Enna is a member of a Bren gun crew of the Princess Patricia's Canadian Light Infantry. Enjoying a drink of water is Pte. Stephen Wallace of Victoria, B.C.

French Ace Dies

LONDON, Aug. 14 — (CP). — A Berlin broadcast heard today by The Associated Press said Gen. Louis-Alphonse Picard, 63, former chief of the French Air Force general staff, has died.

Gen. Picard, who headed the French Air Force during the days before France's fall, was replaced in late 1940 by Gen. Robert Odic.

Argentine Spies Get 3 Years At Buenos Aires

BUENOS AIRES, Aug. 14 (AP). —A federal prosecutor recommended prison sentences of one to three years last night for six Nazi spies arrested last year after the United States government supplied detailed proof of Axis espionage in Argentina.

The men, arrested last December, pleaded builty and involved the former naval attache of the German embassy, Capt. Dietrich Niebuhr, who was recalled by his government on the request of Argentina last January.

The men faced a maximum penalty of six years in prison. They are Ottomar Mueller, 40-year-old German resident of Argentina for 18 years; Martin Schneider, 52, a naturalized Argentine citizen of German origin who has lived in Argentina 30 years; John Jacob Napp, identified by the Argentine press as the leader of the Axis agents in the country; Walter Alfred Friewald, a Paraguayan citizen; Helvecio Ortelli, a Swiss born resident of Argentina for the last 18 years; and Luther Von Reichembach, a German who lived in Argentina 17 years.

R.C.M.P. Find Loafers

OTTAWA, Aug. 14 (CP). Arthur MacNamara, director of National Selective Service, said yesterday in an interview that municipal, provincial and Royal Canadian Mounted Police are being used in some parts of Canada to round up "young loafers and vagrant jobless" for compulsory work placement.

DONT DISCARD IT — WE CAN REPAIR IT

Consult the following Merchants for your Repairs Problems

The Peterborough Examiner

VOL. LXXXVIII, No. 37 — PETERBOROUGH, SATURDAY, AUGUST 14, 1943

MAIN STREET TOPICS

SEEN ACTION.

Mr. and Mrs. Harry Manley, of R.R. No. 8, Peterborough, have received a cable from their son, Gnr. Hugh D. Manley, telling of his arrival in Sicily.

WARTIME RACKETS

Arthur Haskell, general manager of the Toronto Better Business Bureau, Inc., will be the speaker at the regular luncheon of the Peterborough Rotary Club on Monday. He will address the club on "Wartime Rackets and How They Are Eliminated."

ONLY TWO NAMES.

In the first casualty list issued after the fighting in Sicily by the Government, only two names of men from Peterborough and district appear. They are Pte. Bernard Joseph Armstrong, whose sister, Mrs. Annie London, lives at Mill Bridge, reported as slightly wounded, and Cpl. Howard Shaw, son of Mrs. Annie Shaw, 66 Young Street, Peterborough, slightly wounded. A further list is expected next week.

BANCROFT MAN FINED

Lingham Martin, Bancroft, was fined $10 and $2.50 costs on a drunk charge by Magistrate E. A. Gee in police court this morning after he had entered a written plea of guilty to the offence.

YOUTH IS FINED

James Cross, 18, charged in police court this morning with having been drunk Friday night, denied the accusation. "I had only two glasses of beer" he told the court. However the youth pleaded guilty to a charge of having created a disturbance and on that count was fined $5 and $2.50 costs.

RELICS OF THE PAST.

The display of gold jewellery featured in the window display of Elsie Bennett's jewellery store is a strong reminder that gold heirlooms are in demand. The display includes a number of lockets, one still containing original pictures heavy, old-fashioned brooches and bracelets, earrings, and necklaces.

Final Analysis Gives Scott 800 Plurality

A final analysis of the voting in the riding of Peterborough on Wednesday, August 4, giving H. R. Scott, Progressive Conservative, a plurality of 800, provides the exact details on the basis of city wards, and county townships and villages, together with the returns from the soldiers' camps.

The incomplete figures on the night of the election gave Scott 680 votes more than the Liberal, Captain A. L. Elliott. Bruce Johnston was the C.C.F. candidate.

The official summary for the riding follows:

Vote In the City

	Ell.	John.	Scott
South	637	823	902
Centre	281	234	384
West	856	630	1,002
North	678	674	1,051
East	563	400	551
Adv. Poll	9	4	16
Total	3,024	2,765	3,906

How County Voted

	Ell.	John.	Scott

MichaelGahagan Hurt In Battle Sicily Campaign

Word has been received today that Pte. "Mike" Gahagan, son of Mrs. Georgian Gahagan and the late Mr. Gahagan, 494 Sherbrooke Street, was wounded in Sicily July 25.

From the time he was 16, Pte. Gahagan was interested in the Army

PTE. MIKE GAHAGAN

and belonged to the Prince of Wales Rangers, and enlisted with an artillery unit, transferring to the Hastings Prince Edward Regiment upon his arrival overseas in October, 1942.

Two brothers are also serving overseas. "Pat" Gahagan is with his brother in Sicily with the H.P.E.'s and Martin is with the Stormont, Dundas and Glengarry Highlanders in England.

Grain Tangled By Heavy Rain

Million dollar rains have invariably been mentioned on the credit side of the agricultural balance sheet, but the accounting should also include entries in the debit column.

These August rains, according to several farmers are chiefly in the red. They are on the minus and subtractive side of the statement as the year's work reaches its climax. Farmers say the weather these days is like the cow that kicked the bucket of milk, and it wasn't a full bucket, either.

"Not half a crop," is Art McIntyre's estimate and another word he used was "poor."

"I saw wheat threshed yesterday that was so damp you could pack it into a ball in your hand, and thta was before that heavy five o'clock rain came," Mr. McIntyre said.

The continuing moisture of August and its heat create an atmosphere to start sprouting in the wheat.

Will Dawson said the crop was taking on the general outline of disappointment.

Acres of oats are tangled, the stalks are short, and on the general rating of the grain in this district they are decidedly below last year in both quantity and quality. There are bound to be bright exceptions, but that is the common estimate.

Brinton Workers Pass $800 For War Victims

To be constantly thinking of the welfare of others, and particularly those in need may be considered quite a virtue, and of any group of people who might lay claim to such a trait, it is the employees of the Brinton-Peterboropgh Carpet Co. Ltd., for they have steadily kept on the job of taking a weekly collection to help various war charities on pay days since the close of the year 1940.

In December of that year when the Peterborough and District British War Victims' Fund began to function, through the leadership of Reg. Kingdon this was inaugurated, the supervision of it since then having passed through a number of different peoples' hands, and today's contribution of $8.00 marks the 60th time that their name has appeared in this column on behalf of the fund, a record in itself which fully bears out the assertion of their continuous thought for others in the helping along of the general war effort through the fund.

By far the largest part of this has come from the very smallest of odd change in the pay envelopes, giving a practical demonstration of what the united efforts of a group can accomplish with each one taking only a small part, for the total they have now given to the fund stands at the impressive total of $805.91, something that the fund management is most happy to pay a real tribute to, for it has been a source of encouragement to know that this group could regularly be depended on to give the fund and the objects it seeks to serve a real helping hand.

Norwood Helps

From Norwood through D. B. Cutcliffe, manager of the Royal Bank, and fund representative in that place comes two penny box collections from the boxes in the Royal Bank and John Weir's stores. There has been continuous help for the fund for a long time through the same medium.

Two personal donations are listed, one of them from "E.H." whose name has appeared many times in this column, and this is the third summer that William Taylor of Crawford's Grove has given support to the fund, through the sale of flowers from his garden.

Should Get Permit

It has been drawn to the attention of the secretary of the fund that appeals have been made by a group of three and five young girls under his name. No such authorization has been issued to this particular group at all in any shape or form, and citizens will do both these youngsters, and also those who have already done such splendid work in the past, a good turn by immediately advising the police, so that this irregularity may be made to cease.

Boys and girls with every good intention may secure the necessary permit called for under the war Charities act, all they need to do is to show evidence of their good intentions and contact the fund management at headquarters in the Examiner office.

Previously acknowledged	$61,622.64
Box at Royal Bank, Norwood, per D. B. Cutcliffe	3.04
Box at John Weir's store, Norwood	.28

Total to date	$61,636.46

JOSEPH MADILL DIES.

Joseph Madill, Lot 1, Concession 8, North Monaghan, died early this morning at his home. A private funeral service will be held there Monday at 2 o'clock, going to Springville United Church for a public service at 3 o'clock. Rev. A. H. McConnachie will officiate and burial will be made in Little Lake Cemetery.

Allan Park In Sicily

Lieut. Allan Park, formerly of the Prince of Wales Rangers (A) and now with the Hastings-Prince Edward Regiment, has been in artion in Sicily since the beginning of the Canadian fight. Up to the present time he has been reported unharmed. Lieut. Park is the son of Lt.-Col. and Mrs. M. H. Park.

Now Overseas

Mrs. Arthur P. Andrews, formerly Margaret Prude, 482 Wellington Street, has received word of the safe arrival of her husband overseas. He is with the R.C.O.C. and was formerly employed at the Peterborough Automotive Supply. Pte. Andrews is the son of Mr. and Mrs. Golden Andrews of Norwood.

Kiwanians Told Value Of Boys' Work

Half the wrecks of life and the human failures come about because the man who was once a boy lacked encouragement and the kind of guidance that would have given him enthusiasm when he was growing up, it was said on Friday by Leonard M. Reilly of Toronto, president of the Reilly Lock Corporation, addressing Kiwanians.

Yet the remedy for this was so very simple, Mr. Reilly said, and with the unselfish expenditure of a little time and effort, lending a helping hand, asking interested questions, giving encouragement through kindly words, a young lad's entire outlook and attitude towards life could be kept healthy, or if it had gone sour, could be returned to normal.

Mr. Reilly praised the work of the service clubs and the Big Brother and Big Sister movements as evidence that the members of organizations like these were aware of the importance of working for the advancement of the young, and he referred with pleasure to the contribution of Peterborough's Kiwanis Club in its sponsorship of the Sea Cadets. "But," he added, "if work like this is important in times of peace, it is doubly so now."

Speech Important.

The "power of speech," Mr. Reilly thought, was a most important factor in building up the confidence and enthusiasm of growing boys in the incidental contacts of everyday life, and a few kindly words or a challenging idea imparted to them costs little or nothing and could mean so much to them. A chance meeting like that people might soon forget and never realize its possibilities, but to a small boy it might have a sifnificance utterly undreamed of.

"Every boy has his heroes, and it is easy for us to lend him our personality as a source of inspiration and a guide in his journey from boyhood to manhood. The boys of to-day are the leaders of to-morrow, and thus the work of men now bears a direct influence upon the future of the community.

Need Parents.

"It is so easy for a boy to go wrong when his parents are not around; it is a boy's natural tendency to want to do what he should not," the speaker said, and here especially the members of service clubs could perform a job of vital significance.

"The boys who at 14 are declared 'delinquent' and sentenced to reformatories because of mistakes they made through lacking guidance are mare than likely to have begun a criminal career," Mr. Reilly said. "We are confronted by a real challenge. Let us always be true friends to the Boy."

The speaker was introduced by John Hayward, and John Pierce moved the vote of thanks.

Sunday Band Concert In King Edward Park

March .... Imperial Echoes
God Save the King.

C.G.E. Experts Harness Electrons Tiny Invisible Energy Particles

Few branches of modern scientific development have stirred public imagination so deeply as the new science of electronics. Partly because of its extraordinarily successful use in many secret war weapons, partly because of the remarkable promise which it holds for the peacetime future, electronics is today arousing spontaneous interest and curiosity everywhere.

So great has this interest proved and so insistent has been the demand for information regarding the nature and possibilities of electronics, that Canadian General Electric Company—one of the Dominion's largest and most active specialists in the electronics field — has just issued a most attractive book — "Electronics—a New Science for a New World"—in which the whole fascinating story of electronics is pictured and described.

Stated simply and straightforwardly, electronics is the science of the electron—one of the fundamental particles of matter and electricity from which the universe is built up. Electrons are far too small to be seen, even with the best microscopes. Thirty thousand trillion trillion of them weigh less than one ounce. Yet science has learned to direct and control these tiny particles. Through electronics is has set them to work for man.

Manifold Uses

Already electronic tubes have given us radio. They are serving us in factories that process the things we use and eat and wear. They are active in the physicians X-ray. They are fighting our battles in every theatre of the war. Tomorrow they will play a part in providing us with television, in heating and cleaning our homes, in protecting us against disease and in a multitude of labour-saving, efficiency-increasing tasks throughout industry.

Thanks to electronics, ships and planes can be guided to safety through the densest fog. The surgeon can examine the submicroscopic structure of the body tissue. The fireman can "smell" smoke in a home far across the city. The steel worker can detect flaws in battleship armourplate. The cosmetician can match lipstick colour. Electronics can aid the textile manufacturer, the printer, the potter, the miner, the bottler of drinks and the packager of foods.

Vacuum Tube Essential

It has taken years of work by some of the world's best scientists to bring the new science to its present stage of development. In 1897 the great English physicist Sir J. J. Thomson declared that atoms were made up of tiny, unseen particles of electricity, now called electrons. Later scientific research revealed the presence of other constituents of the atom clustered together in a nucleus around which the electrons revolved. The discovery that these whirling electrons could be divorced from the influence of the nucleus by means of the vacuum tube, and put to work, laid the foundation of the Electronic Age.

Today, across the world, hundreds of types of electronic tubes serve man's command. They range in size from tiny globes to long cylinder tubes, 25 feet tall. Yet even now, in laboratories throughout the world, research is wresting new secrets from the electron. Electronics is extending, to undreamed of limits, the power of the human brain and senses. It is enabling mankind to see what eyes have never seen, hear what ears have never heard, accomplish what never before could be accomplished.

Faithful Blood Donors Continue To Appear At Weekly Clinic

The number of people reporting at the Blood Donors Clinic remains in the sixties with a total of 129 donors for the clinics Monday and Wednesday. There is no clinic tonight. Many of the blood donors have completed from three to five donations and are anxious to see that the plasma is ready for the soldiers overseas.

Lakefield Boy Sicily Casualty

LAKEFIELD, Aug. 14—(ENS).—A second Lakefield boy, one of over a hundred from the village in the army, Pte. Douglas James Holmes has been reported wounded in Sicily.

His mother, Mrs. J. L. Holmes, received the news in a telegram from the War Department on Wednesday. The message briefly stated Private Holmes had been wounded in action, nature and extent of wounds to be disclosed later.

Born in Burgessville, Oxford county, in 1921, he resided in Smith for the past twenty years, where he obtained his public schooling.

He went overseas with the Hastings and Prince Edward Regiment in July, 1940, where he trained until the invasion of Sicily.

On Dedember 26, 1942, he married May Eames, in Surrey, England.

His father, Pte. J. L. Holmes, is stationed at the Peterborough Training Centre, and his mother operates their farm in Smith.

Crosses Atlantic

Mrs. W. Sollitt, River Road South, has been notified that her brother, Gnr. Everett Bertrand, has arrived overseas. For a time before his enlistment, he was employed at the McIntyre Mines in Timmins.

Injured Overseas

Lance-Sgt. Edgar Andrews, whose wife resides in Campbellford, has been reported wounded in Sicily, where he was serving with the Hasting Prince Edward Regiment.

Thirsty Citizens Contribute Heavy Fines

Magistrate E. A. Gee's customers in police court this morning were of a thirsty type.

Donald Armstrong pleaded guilty to a charge of having been intoxicated and also admitted a previous conviction. Accordingly he was fined $50 or a month in jail. He intimated that he would have to take the latter, adding that he had a wife and two children.

"I hate to see a young man with a wife and family go to jail," commented Magistrate Gee.

Leonard Tobin was also fined $50 with the alternative of a month in jail when he pleaded guilty as a second offender to having been drunk. The magistrate pointed out that he had been given every chance to raise the money for his fine, having been granted a series of adjournments.

Howard Innis who was out on an adjournment on a drunk charge pleaded guilty to having been intoxicated last night and also guilty to the original charge. He was fined $10 on each count with an alternative of 15 days in jail, the sentences to run consecutively so that he too will go to the county bastille for thirty days.

"Why don't you get a job in the brewery?" Magistrate Gee asked the accused and Inspector Reid suggested that a distillery might be a more appropriate place, adding that Innis was beyond redemption.

War—25 Years Ago

By The Canadian Press

August 14, 1918 — French troops captured Ribecourt on the Oise River, menacing enemy communication centre of Noyon; Germans abandoned Beaumont, Hamel, Serre, Puisieux and Bucgivy on the Ancre front as the British gained ground along the Lys River.

August 15, 1918—Canadian forces captured Damery and Parvillers, the French completely occupied Lassigny heights and the British crossed the Ancre River; 34,000 prisoners and 700 guns seized since August 8. British troops' arrival in Baku via Persia announced.

Earlier Council Promised Hospital Funds

The municipal council of Peterborough in 1890 expressed assurance to Mrs. Charlotte J. Nicholls "of the support of the citizens at all times in supplementing the income from the endowment fund if that may prove insufficient for the maintenance of the Hospital in an efficient and effective condition."

Alderman Dutton quoted this resolution at the special meeting of the council Thursday night. It was moved by W. H. Moore, K.C., and seconded by Adam Dawson.

James Stevenson was mayor of the town and the municipal clerk was a man named Macdonald. Alderman Dutton said that he was unable to decipher Mr. Macdonald's christened name.

Not Binding

Alderman Gordon quoted the civic axiom that the council of one year cannot bind its successor, but Alderman Dutton said the council of 1890 quite clearly expressed its "assurance" that if operating deficits occurred in future years they would be paid by the citizens.

Alderman Dutton remarked that the resolution was at least of interest to the people of today as representatives of that posterity contemplated in the virtual promise made to Mrs. Nicholls.

The text of the resolution follows: "At a meeting of the Town Council of the town of Peterborough held on the Third Day of February A.D. 1890 it was unanimously resolved That the Municipal Council of the Town of Peterborough assembled place on record an expression of its sense of gratitute to Mrs. Charlotte J. Nicholls for her magnificent gift to the further sum of Thirty five thousand dollars to the Endowment of the Nicholls Hospital thus raising that fund to Fifty thousand dollars and for the noble and very suitable Hospital Building erected by her at a cost of upwards of Thirty thousand dollars now bearing her name with the beautiful grounds adjoining which she has dedicated to the benevolent and Christian purpose of relieving the suffering and healing the sick in the Town of Peterborough.

That this Council convey to Mrs. Nicholls its appreciation of this manifestation of her great concern for the unfortunate; and of her love to the citizens of Peterborough among whom she has so long lived and who will always speak her name with thankfulness and affectionate remembrance for that God put it in her power and in her heart to do this beneficent act.

Will Help

That this Council feels quite confident it can assure Mrs. Nicholls of the support of the citizens at all times in supplementing the income from the Endowment Fund if that may prove insufficient in order to the maintaining of the Hospital in an efficient and effective condition; and that this Council will always co-operate with the Trustees of the Fund in doing everything necessary for the permanent safety of the splendid grant made by Mrs. Nicholls for the support of the Nicholls Hospital.

That this Resolution be presented on behalf of the Council to Mrs. Nicholls by the Mayor, and the Mover and Seconder W. H. Moore and Adam Dawson respectively."

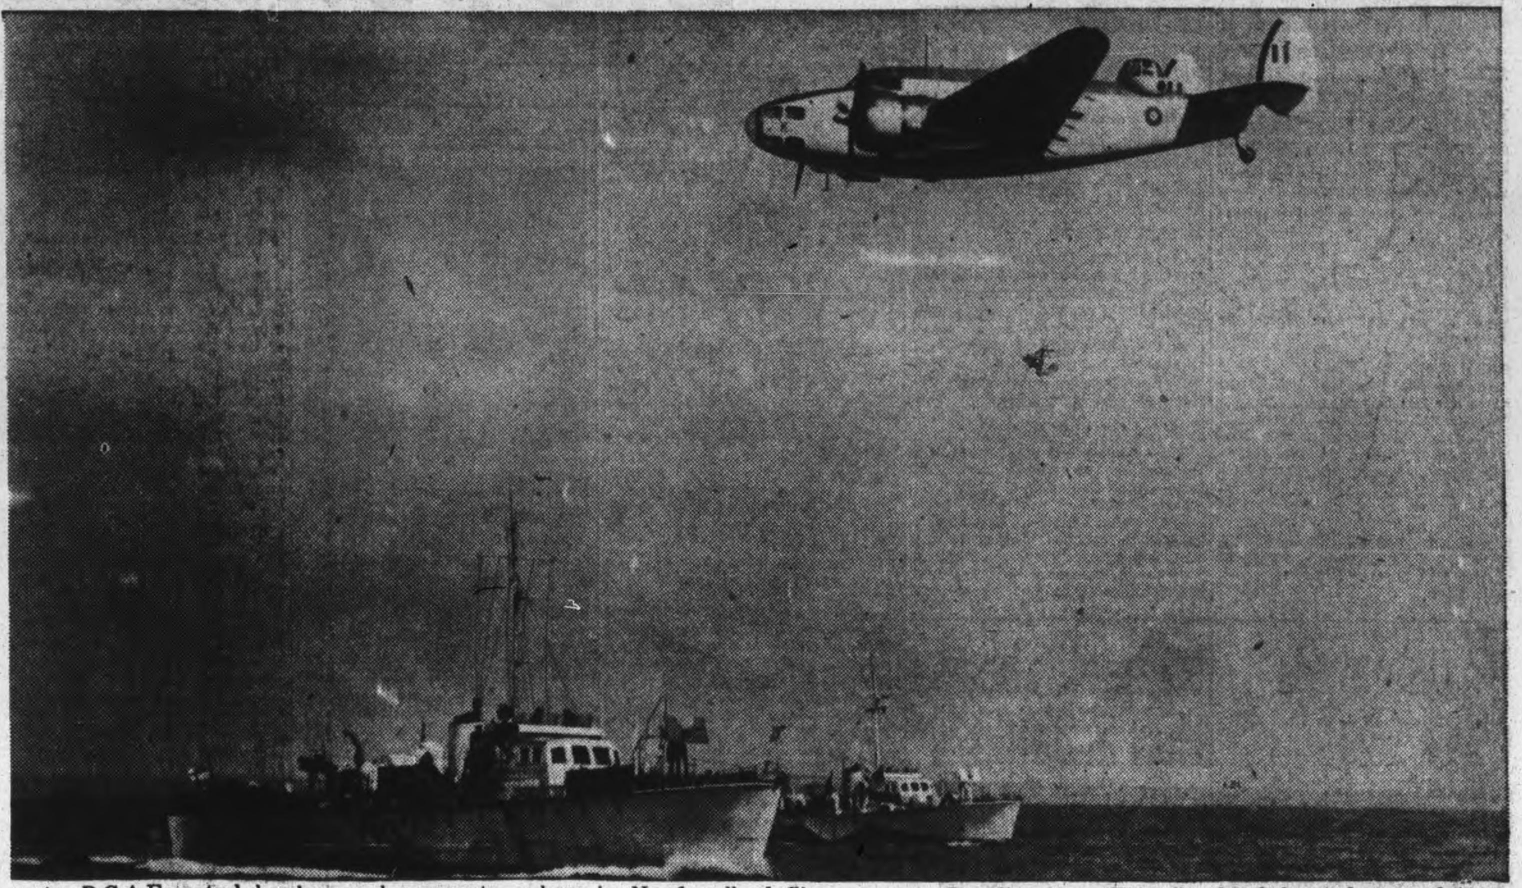
Canadians In Newfoundland Guard Atlantic Coast Against Sea and Air Attack

Newfoundland is Canada's advance post in the war against German submarines. On a point on her lonely coastline two Canadian soldiers scan sea for signs of the enemy while beyond R.C.A.F. and Navy craft sweep Atlantic ship lanes.



An R.C.A.F. patrol bomber on her way to a base in Newfoundland flies over two Canadian Navy Fairmiles headed out for sea duty.

Bren gun carriers are directed through a Newfoundland village by a Canadian soldier after a day of coastal patrol duty. Newfoundlanders are co-operating fully with our troops in defense of their homes against attack by sea or air.

Two members of R.C.A.F. Women's Division plot movement of Allied troops, planes, ships on large operations chart, giving complete picture of island defenses.

L/Cpl. M. G. Boutilier, Halifax, and Gnr. I. J. Ganon, Notikewin, Alberta, set up their Bren gun behind two "killicks", stone anchors used by Newfoundlanders.

Canadian service chiefs in Newfoundland discuss the problems of defending area under their command. Left to right, Commodore H. E. Reid, R.C.N.; Major-General L. F. Page, D.S.O., Canadian Army, since replaced and Air Commodore (now Air Vice-Marshal) F. V. Heakes. They are known unofficially by the name "Cricket Club".

The two Canadian soldiers on opposite side of page with Bren gun, and a friend, Gnr. H. Griffen, Madoc, Ontario, hitch lift from a friendly Newfoundlander.

Mrs. Edward Cook shares a cup of her rationed tea with three Canadian Army privates, L. Perron, St. Eustache, Que.; A. Lapierre, Dorchester, Que., and A. Boutilier, Montreal. All civilians are friendly to Army.

Aircraft detection instructions are given by F/Lieut. Hal Graham to civilians in store owned by George Kennedy. Newfoundland's Aircraft Detection Corps act as coastal "eyes" for Air Force patrol bombers.

Canadian Army and R.C.A.F. co-operation extends right into the ranks. On a Newfoundland air port a fighter pilot, O. K. Morgan, Hamilton, Ont., talks shop with three soldiers in Bren carrier.

Nelson Marsden Married Overseas

Pte. Nelson Marsden of the Stormont, Dundas and Glengarry Highlanders, and his Scottish bride, the former Nancy Vincent of Edinburgh, Scotland, daughter of Mr. and Mrs. Vincent of Edinburgh. Pte. Marsden is the son of Mr. and Mrs. Joseph E. Marsden of Clarady.

Each pair good for 1 to 2¼ lbs. meat.

Coupon Ration Book No. 3 to be issued August 25-27.

Sweater Girls Help Conserve Fuel

Once upon a time the sweater was just an article of wearing apparel, donned chiefly to keep off the icy blasts of winter. Then Lana Turner came along and invested the sweater with the tinsel glamour of Hollwood, thereby adding the "sweater" girl to that Hall of Fame which already contains "The Gibson Girl" the "It Girl' and the 'Oomph Girl". But now the Sweater Girl has it all over his sisters in glamour, for she's going to help win the war.

In fact, since the Prime Minister has declared the coal situation a National Emergency, sweaters are probably going to be pretty important in our lives. Rigid measures will have to be adopted in order to make sure there is enough coal available to supply all essential needs, and that may possibly mean cooler houses and office buildings this winter.

This doesn't mean we're going to freeze, or die of pneumonia this winter. It merely means that instead of wearing thin frocks, suitable to the hot-house atmosphere which has often prevailed in public buildings, as well as in homes, milady will wear warmer clothes, and probably more of them. It seems highly probable that sweaters will form an important part of her wardrobe, an important weapon of defense against drafts and lowered temperatures.

There will be plenty of sweaters for her choose from, in fine-quality pure wools, and a bewildering variety of colours. The comfortable torso - length sweater with long sleeves will be the prevailing style, with pull - overs probably leading cardigans in popularity. There will be sweaters for all occasions, and for all people, priced to suit all pocket-books. The sweater-girl, bless her h-art, is now a patriot.

Mr. and Mrs. J. Woodville Cowper of Baltimore have announced the engagement of their eldest daughter, Louise Mildred, to Archie Edward Wanless, of Phelpston, son of Mrs. James Wanless of Phelpston. The wedding is to take place the latter part of August in St. John's Anglican church, Harwood.

◇ ◇ ◇

Out of town guests at the Woodman-Follis wedding, which takes place today at All Saints Church, are Sgt. and Mrs. H. Cheesman and daughter of London, Ontario; Mr. and Mrs. A. Woodman of Stony Creek, Mr. and Mrs. M. Harvey of Hamilton, Mr. and Mrs. W. Armstrong of Lakefield, Mr. Reg. Murduff of Lakefield, and Mr. and Mrs. James F. Gilbert of North Bay.

◇ ◇ ◇

Yvonne Follis Entertained

Prior to her wedding, which takes place today in All Saints church, Miss Yvonne Follis, Reg.N. was entertained by friends and associates. Mrs. Charles Hotson, King George street, was hostess at a miscellaneous shower and Miss Mary Wainwright, Reg.N. and Mrs. W. Brown, George street, were joint hostesses at a miscellaneous shower. Miss Worlitz, Reg.N. and Mrs. Stuart Curry were joint hostesses at a china shower held at the Nurses' residence at Nicholls Hospital.

◇ ◇ ◇

Ena Revoir Entertained

HAVELOCK, Aug. 14.—Two prenuptial showers were held this week in honour of Miss Ena Revoir prior to her marriage. On Tuesday evening Mrs. Wm. Laing was hostess at a miscellaneous shower, when about 25 ladies were present. Musical selections, community singing and contests were enjoyed during the evening and Mrs. H. Revoir were contest winners. The bride-elect received many lovely and appropriate gifts, for which she thanked her friends, after which dainty refreshments were served.

On Wednesday evening, Mrs. Basil Johnson, assisted by the trustees and pupils of Flemings school in Seymour township held a miscellaneous shower in the school. About 75 guests attended and the evening was spent in dancing, with the music provided by Mr. W. H. Preston and his son. Miss Revoir was the school teacher during the past year and she received many lovely gifts of linen, pyrex, silver and cooking utensils, for which she expressed her appreciation.

Refreshments were served at midnight, and dancing resumed for a couple of hours.

◇ ◇ ◇

Personal Shower

A personal shower was held at the home of Miss Mary Sullivan, 666 Downie street in honour of Miss Emily Liddell whose marriage to Herb Bromley takes place today at All Saints' Church. Among those present were:

Misses Eileen Jeffries, Jean Hair, Audrey Livingstone, Beryl Fowler, Ruth Harris, Inga Roy, Barbara Ann Roy, Lillian McMahon, Patricia Scollard, Olga Preston, Joan Gardiner, Rita Leahy, Sally Metcalfe, Agnes Sullivan, Mrs. Douglas Macpherson.

Those who sent presents but were unable to be present: Misses Hazel Kearney, Dorothy M. Theobald, Lila Kennedy, Angeline Burns, Ann Staunton, Grace Marshall, Anne McCormick, Ruth Liddell, Isabel Delahaye, Myrtle Drain, Vera Franks, Margaret Hickson, May Caird, Kathryn McTeague, Lil Walsh, Ruth Hawthorne, Nancy Gill, Audrey Rose, Mrs. Malcolm Cavanagh, Mrs. Harvey White, Mrs. Willard Rehill.

Whole Family Now Overseas In Services

By DENISE DALTROFF
Canadian Press Staff Writer.

LONDON, Aug. 14 — (CP) — The job of cooking at a Canadian Women's Army Corps barracks in London is in the capable hands of Canadian women such as Pte. Minnie Howe of Winnipeg and Pte. Marie Crawford of Victoria, B.C., both married and by no means the only representatives of their families serving in the forces.

Pte. Howe has two sons in the Canadian Army in Britain, Harry 22, and Jimmy 20. June, a twin sister of Jimmy, is in the C.W.A.C.'s in Canada.

Pte. Crawford enlisted in the C.W.A.C.'s in August, 1942, and joined her husband, Pte. William Crawford, member of the Royal Canadian Ordnance Corps, in Britain early this year. Their son, William, also is here, as a staff sergeant in a reconnaissance unit. Their daughter Mary was in the C.W.A.C.'s for a year as a transport driver until receiving a discharge because of ill-health.

Professor's Cook.

Before the war Pte. Howe was a housekeeper and cook for 28 University of Toronto professors. Used to cooking for large families, she was right at home in the barracks' kitchen with its huge brick range. She joined the C.W.A.C.'s in July 1942, and came to Britain three months ago.

"There isn't much difference between the food we get at home and here," she said. "We get a good quantity though it isn't quite as varied as at home. There aren't any particular Canadian dishes we make for the girls and we cook mostly to a schedule."

Evening Meal.

The main meal of the day is cooked in the evening because many of the girls work away from the barracks during the day and eat in the canteens. Lunch at the barracks consists of cold meat and salads or macaroni and cheese. For dinner, though, there is meat, potatoes, vegetables and pastries.

The cooks at the barracks work in shifts of 24 hours on and 24 hours off. Most of them, like Pte. Howe, like to wander around London on their off-duty periods, discovering the old and odd-looking alleys and buildings to be found on London's side streets.

Woodman-Follis Nuptials At All Saints'

The wedding took place today in All Saints' Anglican Church, decorated with ferns and gladioli for the occasion, of Velma Yvonne Follis, Reg. N., daughter of Mr. and Mrs. H. E. Follis of Napanee, Ontario, to Cpl. Earl A. Woodman, R.C.A.F., son of Mr. and Mrs. Albert Woodman of Stoney Creek, Ontario. Rev. W. A. Filer performed the ceremony, with Mrs. W. A. Logan at the organ and Mrs. Melville Shadgett singing "Because" during the signing of the register. The bride is a graduate of the Nicholls Hospital School of Nursing.

The bride was lovely in a floor-length gown of white sheer with a lace yoke and collar and long full sleeves. Her veil of embroidered bridal net fell from a Queen Anne coronet and she carried a bouquet of white gladioli and bouvardia. Mrs. H. Cheesman, sister of the bride, was matron of honor, in a floor-length blue sheer gown with an embroidered bodice and long full sleeves. Sylvia Follis was junior bridesmaid in a charming gown of floor-length apricot taffeta. Both carried colonial nosegays, the matron of honor having pink roses and baby's breath, and he bridesmaid forget-me-nots and Johanna Hill roses.

The best man was Mr. Maurice Harvey of Hamilton, and the ushers were Sgt. Hugh Cheesman, R.C.O.C., London, and Mr. Eric Edmondson of Peterborough.

After the ceremony a reception was held at the home of the bride's grandmother, 508 Patterson street, a which her mother received in a gown of French blue with navy accessories. She was assisted by the groom's mother, who wore grey crepe with black accessories. Both wore corsages of pastel shaded sweetpeas.

When the couple left on a trip to Haliburton the bride was wearing a two-piece powder blue dress with navy accessories, and a corsage of sweet-peas. They will live in Montreal, where the groom is stationed.

Fashions

JUNIOR MISS CHOICE

DOROTHY DIX

WAR WORKERS MAY FIND SEX NO SUBSTITUTE FOR PROFICIENCY

Meanwhile Tragedies, Heartaches of Wi--s at Home Continue as Conflict's Price

◇ ◇ ◇

DEAR MISS DIX: My husband works in a defense plant and has become infatuated with a woman who works there, too. We have been married for several years and this is the first time he has ever been unfaithful to me. I love my husband and would hate to see an end to my marriage, but since he has met this girl he has been inconsiderate of me and has taken the attitude that if I don't like it, I know what I can do.

It seems to me a shame that all the good work that women are doing in the factories in taking the places of the men who had to go away to fight, should be undone by just such situations as this. Surely we all know that the majority of men now left in factories are married, and the women who work with them should conduct themselves accordingly.

I realize that all the women who are working in factories are not out to have a good time with some other woman's husband, but the ones who do are giving a bad name to all the women who work with them.

What should I do, Miss Dix? Shocld I just sit tight and hope he will get over it, or should I leave him and try to make a new life for myself?

—A PUZZLED AND UNHAPPY WIFE.

◇ ◇ ◇

Evil Women Begin Stealthy Search

ANSWER: Isn't it tragic that good and evil are so inextricably mixed that it seems that we can never have the one without the other? One of the few glimpses of the silver lining of the black war cloud has been the chance it has afforded so many women of breaking away from the narrow life to which they were bound and striking out into a world that was full of opportunities for them.

Women who had thought that they were doomed to a lifetime of household druggery have found out that they have mechanical gifts they never suspected and have been taught new skills. Women who toiled for a meager wage found themselves earning undreamed of salaries. Women who had never had a decent dress in their lives are able to buy imported finery. So many frustrated ambitions realized. So many longings gratified. It seemed to many of them that they had entered a woman's He--n on earth.

And then the serpent crept into this Eden in the guise of sex. Where so many men and women were thrown together, trouble began. The evil women, the man-hunters began their stealthy search for the men with the big pay envelopes. The wolves commenced prowling around among the lambs seeking whom they devour. Good, domestic men began casting their eyes on pretty little girls who were half as old as their wives and weighed two-thirds less. Good girls who meant no harm fell in love with good-looking married men with a keen line. Women who had been faithful wives and good mothers were swept off of their feet by the men with whom they worked who were so different from their prosaic husbands.

And homes are being broken up. And children half-orphaned. And girls started on the downward path. And hearts broken. And lives wrecked. And what seemed woman's opportunity, may be her undoing. And what's to be the end of it all, only God knows.

Maybe the matter will settle itself, as it seems to have done in the many factories and businesses in which men and women have worked together for years without any more than the usual amount of heart casualties. Maybe it is

BIRTHS

VALLANTYN — At Nicholls Hospital on Friday, August 13, 1943, to Mr. and Mrs. R. A. Vallantyn a daughter.

EMERY — To Mr. and Mrs. Eric Emery (nee Louise Coles) on Thursday, August 12, 1943, at St. Joseph's Hospital, the gift of a son.

ENGAGEMENT

Mr. and Mrs. G. E. Adams of Port Colborne announce the engagement of their only daughter, Luella Jeanne McColl to William Arthur Loughman, son of Mr. and Mrs. W. P. Loughman of Toronto. The wedding to take place early in September.

DIED

REID, Benjamin — At Nicholls Hospital on Friday morning, August 13, 1943.
Funeral Sunday, August 15 at 2:30 p.m. from the family residence, Otonabee. Rev. George Murray officiating.

IN MEMORIAM

SERVIUS — In memory of Mrs. John Servius.

Oh heart that hungers love to find,
The dear ones hid away,
God, every broken link shall bind,
And give them back some day.
Day by day we saw you fade
And gently sink away;
Yet in our hearts we often prayed
That you might longer stay.
—Sadly missed by her Husband and Daughter.

SMYTH — In loving memory of my dear Mother, Pearl Smyth, who passed away, August 14, 1940.

Her weary hours and days of pain
Her troubled nights are passed,
And in my aching heart I know,
She has found sweet rest at last.
— Ever remembered by her Daughter, Aileen.

FLEETWOOD—In loving memory of a dear Father who passed away, August 14, 1935.

"And while he lies in peaceful sleep,
His memory we shall always keep."
—The Family.

CARVETH— In loving memory of a dear Husband and Father who passed away, August 15, 1942.

A precious one from us has gone,
A voice we loved is stilled,
A place is vacant in our home,
Which never can be filled.
—Lovingly remembered by Wife Bella, and Son Russell.

SMYTH — In loving memory of a dear Wife, Pearl Smyth, who passed away three years ago today, August 14, 1940.

Three years have passed, since that sad day
The one I loved was called away;
God took her home, it was His will,
But in my heart she liveth still.
—Ever remembered by her Husband, William Smyth.

SMYTH — In loving remembrance of our dear Mother, Mrs. William Smyth, who passed away August 14, 1940.

A beautiful memory, dearer than gold,
A mother whose worth can never be told;
Years may pass, but memories stay,
As near and as dear as yesterday.
— Ever remembered by her Son Keith and Daughter - in - Law Reta.

CARD OF THANKS

The family of the late Mrs. Catharine Pearson wish to thank their many friends for the beautiful spiritual and floral bouquets and for the many acts of kindness during the sickness and death of their mother.

Dorothy Dix

(Continued from Page 11)

the newness of men and women, who have never worked together before that makes them peculiarly attractive to each other, as novelty always is, and that when a pretty girl going to work beside a man is just a matter of routine he will be no more interested in her complexion and her figure than he would be in a boy helper. And maybe women will find out that in factories, as in offices, they cannot substitute sex for good work, and that it pays better to know how to do their jobs than it does to try to vamp their bosses.

But in the meantime there are the tragedies like yours, poor, bewildered, unhappy wife, of having a good reliable husband turn philanderer. That is a heartache you will get over. But my advice to you is to be patient with him and wait for his infatuation for this girl to wear itself out, as it almost surely will. He will soon find out that he has nothing in common with her and everything in common with you, and come back to you a chastened and repentant sinner.

If you can, laugh the matter off. Pretend that you consider it a joke. Don't cry. Don't nag. Don't reproach him. Just give him a chance to come to his senses.

◇ ◇ ◇

DEAR DOROTHY DIX: I am a young man in my early twenties. I have a good job with good pay now, but I am not sure whether I will have it after the war is over because I think that the returning soldiers will get all the jobs.

I am engaged to a very sweet girl whom I love very much, and she loves me, but I am afraid to marry on account of the uncertainty of the future, though she thinks this is silly. I know that if I once took the step everything would work out alright, but I seem to lack something that would enable me to go through with it. Can you give me any encouragement? —HESITANT.

◇ ◇ ◇

ANSWER: Evidently what you lack is backbone. Perhaps your girl can supply that if you marry her. A lot of men are dependent on their wives for their courage. Many a coward is bucked up to do a man's part in the world by a brave wife. So if the girl is willing to take a chance on you, you had batter grab her and rush with her to the altar.

If you are waiting to make any move until you are sure what is going to happen in the future, you will never get anywhere, because nobody can foresee what is going to take place tomorrow. We have to take chance on that. If you are doing a good job in your present work, it is not likely that your employer will liquidate you at the end of the war.

Anyway, many of the men who went to the war will never come back, and many who do come back will have learned new skills and will not want to go back to their old jobs. And, too, there is always plenty of work for men who want to work and who are proficient.

THE STARS SAY . . . .
By GENEVIEVE KEMBLE

For Sunday, August 15

SUNDAY'S horoscope holds augury of great activity, both public and private, with affairs of church and clergy prosperous. But there may be some sort of opposition or disagreement with superiors and as well a tendency to extravagance, waste and indulgence. All should endeavor to stabilize for endurance and permanency. Exercise good judgment and foresight, with prudence expenditures as well.

Those whose birthday it is may have the opportunity for putting their affairs on a firm and enduring basis, with future security and economic freedom the main objective. Diligence, concentrated effort sound tactics and foresight should effect this end. However, there may be want of cooperation from superiors or employers, extravagance and unwarranted outlay or expenditures may prove detrimental. Slow but sure is the slogan.

A child born on this day may have excellent qualities of character and sound abilities and aspirations although excessive generosity may lead it to extremes in indulgence and expenditure.

◇ ◇ ◇

For Monday, August 16

MONDAY'S astrological forecast may not be interpreted as favorable. A definite danger from an uprooting and separative influence, precipitated by unfortunate quarrels, tempers, passions and emotional impulses or erratic moves, may prove devastating on circumstances, the fortunes, the health and peace of mind. All call for restraints, reason and moderation.

Those whose birthday it is may draw down upon themselves a sudden disruptive and injurious state of affairs, undermining their prospects for success, happiness and peace of mind. This by a tempestous attitude, overenergetic use of the forces and faculties, as well as indulging in passionate and erratic impulses and emotions. It is an uprooting and separative force, precipitated by what might be turned into highly constructive channels, by restraint self-control and calm decisions. Such devastation may have regrettable reactions on the physical and nervous well-being.

NOTICE

Notice to Creditors

IN THE MATTER OF THE ESTATE OF LUCIA ADEE BOOKHOUT, Late of the City of Peterborough, in the County of Peterborough, Widow, Deceased.

NOTICE IS HEREBY GIVEN, that all Creditors and others having CLAIMS against the Estate of the said LUCIA ADEE BOOKHOUT, who died on or about the 1st Day of May, A.D. 1943, are required to send to the undersigned Solicitors for the Executrix of the said Estate, on or before the Ninth Day of September, A.D. 1943, their names, addresses and full particulars of their Claims duly verified and that after such last mentioned date the said Executrix will proceed to distribute the Assets of the said Estate among the parties entitled thereto, having regard only to the Claims of which she shall then have received notice.

DATED at Peterborough, this 7th Day of August, A.D. 1943.
KATHERINE SILLS,
Executrix,
By CARLEY & STANDISH,
No 8 Bank of Commerce Block,
Peterborough, Ontario,
Her Solicitors herein.

IN THE MATTER OF THE MUNICIPAL ACT AND IN THE MATTER OF A PROPOSED BY-LAW OF THE CORPORATION OF THE CITY OF PETERBOROUGH FOR THE STOPPING UP AND CLOSING OF ALLOWANCES FOR HIGHWAY AND SELLING THE SAME TO DOMINION WOOLLENS AND WORSTEDS LIMITED.

NOTICE IS HEREBY GIVEN, Pursuant to Section 498 of The Municipal Act, that the Council of the Corporation of the City of Peterborough proposes to consider and if deemed advisable to pass at its Regular Meeting to be held at the Council Chamber in the City Buildings, in the City of Peterborough, on Tuesday, the 7th day of September, 1943, at 7:30 o'clock p.m., a By-Law to Stop Up and Close Cordach Avenue as shown upon Registered Plan Number 121 for the City of Peterborough and that part of Cambridge Street lying North of the Northerly limit of McDonnel Street according to Registered Plan Number 121 for the said City of Peterborough, and to sell the said allowances for road above described to Dominion Woollens and Worsteds Limited.

AND TAKE FURTHER NOTICE That before passing the said By-Law at its Meeting to be held at the time and place above-mentioned the Council of the Corporation of the City of Peterborough shall then and there hear in person or by his counsel, solicitor or agent any person who claims that his land will or might be prejudicially affected by the said By-Law and who applies to be heard.

DATED at Peterborough, this 6th day of August, A.D. 1943.
E. A. OUTRAM,
Clerk.

30 Tourneys

NEW YORK—(AP)—The Professional Golf Association has mapped out a full schedule of 30 tournaments for the Fall and Winter months, commencing with the victory open at Chicago Sept. 2-5, then to Minneapolis and other western centres before swinging to the southern states.

You Can Get Slim Again by Low-Calory Dieting

"TIME TO STOP THIS GAINING!"

Yes, getting fatter and fatter! Last year's suit won't go on unless a lot of weight comes off.

"But dieting takes so much will power!" No, it doesn't — not these days, with modern low-calory diets of three square meals a day with desserts!

Just see the tasty lunch we've pictured. On your diet you can eat such lunches and still lose two pounds a week . . for they have few of those fat-making calories. Consomme, a delicious chicken sandwich, berries with cream add up to only 380.

You have only to keep away from high-calory dishes. Imagine if you ate for lunch a club sandwich, oozing fattening mayonnaise. Why, that alone amounts to 609 calories.

Be sylphlike again! Our 32-page booklet gives calory chart and 42 tasty reducing menus based on healthful protective foods. Has a 3-day liquid diet to start you off. Tells how to gain.

For your copy of THE NEW WAY TO A YOUTHFUL FIGURE send 15 cents in coins or stamps to the Peterborough Examiner Home Service. Be sure to write plainly your name, address and the name of booklet.

North School News

Mrs. T. Peoples, Miss Dorothy Peoples of Norwood were recent visitors with Mr. and Mrs. F. Jenkins and family.

Misses Eileene and Marjorie Cross spent a few days last week with their aunt, Mrs. E. Sykes of Campbellford.

Miss Emma McLaughlin, Reg. N. of Sick Children's Hospital, Weston, is spending a few days this week at her home here.

Miss Lillian McLaughlin has returned after spending the past week at "Do-Little" cottage, Belmont Lake. She was accompanied by Misses Margaret Voyer, Beryl Rice and Hildred Akens.

Miss Maude Morton of Peterborough is visiting with Mrs. W. Burgess, Miss Ruth Burgess.

The Rev. Mr. Clelland and Mrs. Clelland visited last week with friends here.

Mr. and Mrs. E. McLaughlin accompanied Mr. and Mrs. Stanley Miles of Havelock to Stoney Lake on Sunday, where they visited Mrs. Fred Miles and Mr. Raye Miles.

Mr. and Mrs. Charles McConnell attended the annual McConnell reunion in Cobourg Sunday.

Miss Anna Would of Toronto spent the week-end at her home here. She was accompanied back by her sister, Jean.

Mr. Charles Baker of Peterborough spent last week with his parents, Mr. and Mrs. R. Baker.

Mr. and Mrs. Harry Would of Toronto were recent visitors with Mr. and Mrs G. Would.

Friends and neighbours of Mr. James Simpson are sorry to hear of his illness in the Belleville hospital.

Misses Julia McLaughlin and Reta Emon, Peterborough, spent Tuesday afternoon at the former's home here.

Mr. and Mrs. Russell Buchanan spent the week-end with friends in Toronto.

Mr. and Mrs. E. McLaughlin, Miss Emma McLaughlin spent Wednesday with relatives at Stoney Lake.

Mrs. W. Burgess spent Tuesday with her brother, Mr. Samuel Buck, of Donegal.

BARCLAY ON BRIDGE

WRITTEN FOR THE EXAMINER

By SHEPARD BARCLAY

"The Authority on Authorities"

HEED HIS WARNINGS

WHEN YOUR partner bids a couple of suits and then, after you show that you like No Trumps, he rebids the lower to show he has suits of at least five cards in length, he is giving you a warning. Don't treat him as somebody who is trying to take the bid away from you. He is not your enemy, but your partner. And, if he is a sound bidder, he is merely trying to picture his holding to you, to let you decide the declaration. So, unless you are well fixed with honor strength, especially in the other two suits, you had better try one of his suits.

	♠ 4 2 ♥ K Q 8 2 ♦ Q 9 8 ♣ K 7 6 2	
♠ 10 8 5 ♥ 10 7 4 3 ♦ K 10 4 ♣ [illegible] 10 8	N W E S	♠ A Q 7 ♥ A J 6 5 ♦ A 2 ♣ Q [illegible] 5 4
	♠ K J 9 6 3 ♥ 9 ♦ J 7 6 5 3 ♣ A 3	

(Dealer: West. North-South vulnerable.)

West	North	East	South
Pass	Pass	1♣	Pass
Pass	Dbl	1♥	1♠
Pass	1 NT	Pass	2♦
Pass	2 NT	Pass	3♦
Pass	3 NT		

How risky that last bid was, especially with only a single stopper in clubs, and with the heart stoppers sitting under the opener's holding. East did some careful figuring, and then led his heart 5. Reckoning that he probably could get his partner into the lead once in some suit or another, he reckoned this would enable him eventually to take two tricks in hearts, plus his other two aces, plus the one his partner would get, beating the contract. He was right. North could not possibly set up nine tricks before west scored with the diamond K, whereupon a heart return made it work out as East expected.

If North had listened to his partner's bidding description of his hand, he would have realized that shortage in hearts and clubs would prevent many losers in those suits, and that a diamond contract should have been makable at the level of three. It would have been, with correct play, if the trump suit was guessed right. The defenders could have taken two tricks in trumps, one in hearts and one in spades, but no more, whereas the No Trump game contract never had a chance.

Casualty List Shows 74 Wounded

OTTAWA, Aug. 14 — (CP). — The first casualty list resulting from operations of the First Division of the Canadian Army in Sicily, issued last night — more than a month after the Canadians landed on the big Italian island as part of the famous British 8th Army, July 9 — contained the names of two soldiers reported to have died from wounds and 74 reported wounded.

Other casualty lists based on Sicilian losses will be issued over the next few weeks from Defence Headquarters, each containing approximately the same number of names, 75 to 100.

Although Canadians were in some of the heaviest fighting on the island, it has been stated their casualties were light.

The two men reported dead in the first list were Cpl. James Bryon Henry, 23, of Calgary, Royal Canadian Corps of Signals, and Pte. George Henry Groves, 23, of Winnipeg, a member of an infantry unit.

Of the wounded, four officers and 12 other ranks were described as "seriously wounded," 43 other ranks as "wounded" and one officer and 12 other ranks as "slightly wounded."

The list — the 338th army casualty list of the war—brought the unofficial total of reported army casualties to 1,213 dead, 821 missing and 3,419 prisoners of war. Most of the previous casualties were suffered at Hong Kong in December, 1941, and at Dieppe last August.

Listed as severely wounded in yesterday's announcement were Capt. Sydney Wilford Thomson of Salmon Arm, B.C.; Lieut. Garner Stevens Lynch, Montreal; Lieut. Andrew Walter Roy, Halifax, and Lieut. Leitch Scott, Toronto.

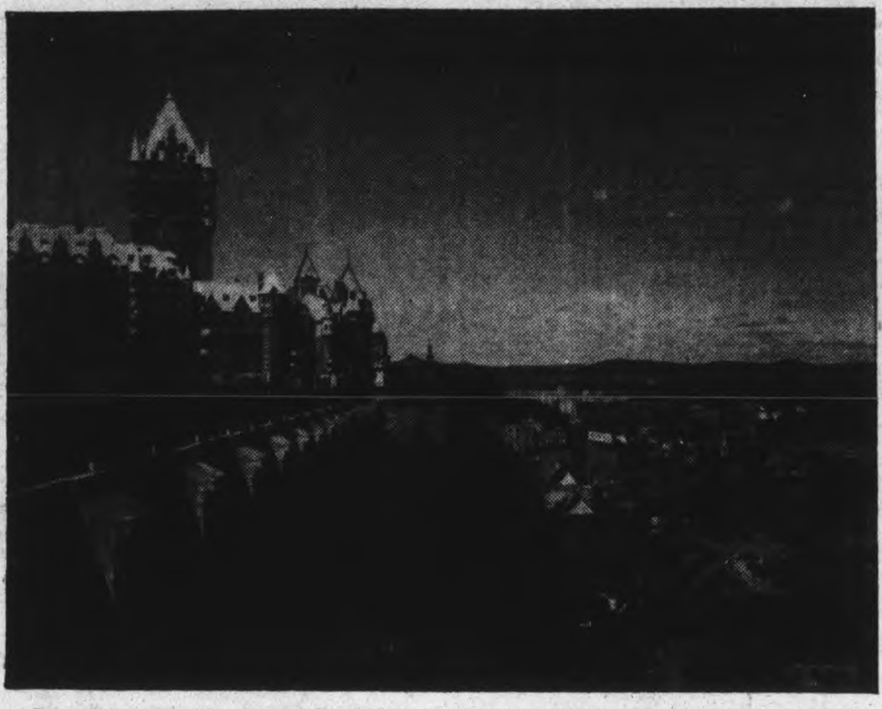
Nazis Appeasing Party Enemies

MADRID, Aug. 14 — (AP). — Travellers arriving in Spain from Berlin reported to-day that Heinrich Himmler, head of the German Secret Police, has been ordered to stop terrorizing anti-Germans. Despite their dislike of the Nazi Party, these Germans are reported willing to co-operate in defending the Fatherland against the Allies.

These travellers said it was also "quite possible" that certain Jews might be asked to co-operate with the military by taking technical war jobs from which they previously had been banned by the Nazi Party.

Reichsmarshal Herman Goering was said to have been designated as the army's contact man with the Nazi Party in effecting these reforms.

History Being Made In Ancient Capital



Dominated by the baronial Chateau Frontenac, world-famous Canadian Pacific hotel, Quebec City is the scene of the present history-making conference between Prime Minister Churchill, President Roosevelt and Prime Minister Mackenzie King. The foreground of this picture shows part of Lower Town, the old section of the city which abounds in atmosphere, and the mighty St. Lawrence River. The meeting between the Allied leaders is the first to be held in Canada.

MORE ABOUT—

Staff Chiefs

Continued from Page 1

Nelles and Air Marshal L. S. Breadner, Canadian Chiefs of Staff, respectively for Army, Navy and Air.

British Leaders

The British Chiefs of Staff came to Quebec last Tuesday afternoon with Prime Minister Churchill. They include Gen. Sir Alan Brooke, Chief of the Imperial General Staff; Admiral of the Fleet Sir Dudley Pound, First Sea Lord; Air Chief Marshal Sir Charles Portal, Chief of Air Staff; Lt.-Gen. Sir Hastings Ismay, Chief of Staff to the Prime Minister; and Vice-Admiral Lord Louis Mountbatten, Chief of Combined Operations.

The Canadian Chiefs of Staff have for several days been in conference with the United Kingdom chiefs, presumably on matters affecting particularly the role to be played in future operations by the Canadian Army overseas.

There were rumors today that the Canadian 1st Division after its gallant share in the Sicilian campaign as part of the British 8th Army, would be moved back into the main Canadian army, which would then have an opportunity of entering any future assaults as a complete unit.

Such officials as could be reached refused to discuss the rumor.

Now that the conference requires only the presence of Mr. Churchill and Mr. Roosevelt to make it complete it is expected the Chiefs of of Staff will concentrate on data and recommendations to be laid before the two Allied leaders when they are ready to complete their work here.

It is not expected any inkling will be given the public as to the plans drafted at the forthcoming conference, so far as strategy is concerned; but important announcements may be made as to decisions on the attitude to be taken toward capitulating enemies, government of occupied or liberated lands, treatment of the war guilty and peace objectives.

Premier Is Host

Prime Minister Mackenzie King, official conference host and participant in discussions held with the British Prime Minister and Chiefs of Staff here Wednesday, last night entertained the conferees who are already here, in the Chateau Frontenac.

This afternoon he will entertain newspaper, picture and radio men and women, here to cover the conference, at a reception in the Citadel, vice-regal residence and the place where he entertained Mr. Churchill when they are both here later.

Quebec's city fathers are seeking to arrange a public official reception for President Roosevelt when he arrives but it is not known whether security control will permit such a demonstration.

This evening all the conferees—and reporters too—are invited to a special performance of the Canadian Army Show.

MORE ABOUT—

General Retreat

Continued from Page 1

Headquarters announced that 130,000 prisoners had been taken during the campaign, but the total did not include ace German grenadiers believed trapped at Randazzo.

On the north coast, German motorized infantry were fleeing along a road strewn with their own dead to escape another entrapment, similar to the two already effected by the Americans in amphibious landings. The American capture of Nazo and Brolo in the amphibious landing which led to the fall of Cape Orlando placed that column 33 air miles from Messina.

MORE ABOUT—

Aerial Blows

hit included the Palazzo Madama, ancient seat of the Italian Parliament, and the Palazzo Carignano.

Another broadcast said Pope Pius XII, who also is bishop of Rome, visited the bombed areas immediately after the raiders left.

(A dispatch last night from Associated Press correspondent Frank Brutto at the Swiss-Italian frontier said thousands of Italians clustered around the Pope and shouted for peace.

(Stefani, Italian news agency, said the Pope was the object of tumultous manifestations both at Lodi Place and St. John Lateran Church, where he knelt amidst immense crowds for prayers.)

Obituary

BENJAMIN REID.

After a long illness, Benjamin Reid of Otonabee, passed away on Friday in his 82nd year. He was born in Otonabee and had been a life-long resident and was a well-known member of the community.

Mr. Reid was the son of the late Henry Reid and Mary Ann Yarham and during his lifetime, he was a member of Bethel United Church.

Surviving are his wife, formerly Mary Borland, three daughters, Margaret of Windsor, Annie and Effie at home, one son, Harry of Otonabee and two grandchildren, Harriet and Agnes Reid.

The funeral will be held Sunday at 2.30 p.m. from the family residence in Itonabee with Rev. George Murray officiating. Interment will be in Fife Cemetery.

Rubber Plant Ready

ST. CLAIR, Mich., Aug. 14 — (CP). — William Tyson, chief engineer of the Canadian Synthetic Rubber Company said yesterday the Polymer Corporation plant at Sarnia would be in operation within a few weeks.

Killed In Action

Lance-Sergeant Ernest Johnson of Cordova Mines has been announced killed in action with the Hastings Prince Edward Regiment in Sicily, on July 25. He is the son of Mr. and Mrs. German Johnson.

Little Helpers Enjoy Picnic

ROSENEATH, Aug. 14 — (ENS). A combined meeting and picnic of St. James' Church W.A. and Little Helpers was held on Wednesday afternoon at Mrs. E. Timlin's home. The president, Mrs. Edgar Braithwaite presided.

The treasurer, Mrs. J. S. Brown reported $44.10 on hand and announced a donation of $5.00 from a former member, Mrs. W. Robins, now of London, Ontario. Mrs. W. Houghtailing, E.C.O.D. treasurer, reported $1.50 as the amount on hand. Letters of acknowledgment for boxes sent overseas were read from J. Pacey, J. Arber, and Clark Lapp. The members were asked to bring the fall egg donation to the September meeting in Miss Jessie Johnson's home.

The Little Helpers' picnic was held on the lawn. The hostess, secretary of this department, was in charge. A program of sports included boot and shoe race, foot races, a number of contests, a fish pond and lawn croquet, also candy scrambles for young and old.

Prayer by the rector, Rev. J. Lennox, concluded the afternoon's activities. A picnic supper followed. There were 50 present.

Has V Soles

HALIFAX, Aug. 14—(CP). —If Robert John Bailey gets the barefoot habit he will leave the sign of victory behind him wherever he walks. Parents of the two-months-old boy, Mr. and Mrs. John Bailey, say he was born with a clearly marked "V" on the sole of each foot.

Mexico Does Business

MONTREAL, Aug. 14.—(CP). — Mexico has bought 30 carloads of dredging equipment from Canada, according to Carlos Calderon, Mexican Consul General. He said the equipment is consigned to the Mexican Department of Marine and is being shipped from Toronto.

Fishermen Find Lunge Luck Good

TRENT RIVER, Aug. 14 (ENS) —Trolling near Slaughter island 2 miles east of Trent River village on Sunday, Jack Garneau of Trent River hoked and landed a 23-pound River hooked and landed a 23-pound largest lunge caught at this resort this summer, and was hooked on a spoon bait.

William Copp and Bruce Longmuir of Havelock landed a 20-pound maskinonge at Mud Lake on the Trent River, 3 miles east of Trent River village on Monday last, and a 12-pound lunge was taken from the same waters the same day by Mr. Ball of Belmont Lake.

The death occurred at Trent River on Wednesday, August 4, suddenly, while on his vacation, of John William Ward, aged 47, of 264 Maplehurst avenue, Toronto. He was in good health prior to his death and his passing was unexpected. The remains were taken to Curtis Funeral parlors at Havelock and sent on to his home in Toronto where interment was made on Saturday.

Personals

Lieut. R. J. Umphrey is home on furlough.

Mrs. Cranham of Toronto arrived at her summer resort, Cedar Isle Lodge on Sunday last to spend a few weeks.

Nurse Dies

TORONTO, Aug. 14 (CP) — Mrs. Margaret Olive Jones, widow of the late William C. Jones, former Toronto and Ottawa Collegiate teacher, died Thursday at her home here after four weeks' illness.

A native of Napanee, Mrs. Jones was a registered nurse. She graduated from Kingston General Hospital.

Interment will be in Mount Hope Anglican cemetery.

Queen's Fund Mounts

MONTREAL, Aug. 14.— (CP).— National total of the Queen's Canadian fund was announced last night at being $1,372,628.

TREASURER'S SALE OF LANDS FOR TAXES

COUNTY OF PETERBOROUGH

TO WIT:

BY VIRTUE OF A WARRANT made under the hand of the Warden and Seal of the County of Peterborough and to me directed bearing date the 8th Day of June, in the year of our Lord One Thousand Nine Hundred and Forty-three I am commanded under the authority of the Statutes in that behalf to levy on the land hereinafter mentioned and described, for the arrears of taxes due thereon, with the costs as hereinafter directed by the said Act. Therefore, I give notice that unless the said arrears and costs are sooner paid I will proceed to Sell, by Public Auction, at the Court House, in the City of Peterborough, on the Fifth Day of October, 1943, at the hour of Ten o'clock (D.S.T.) in the Forenoon, the said Lands or so much thereof as may be necessary for the Taxes, and all lawful charges incurred, in and about such Sales, and the collection of the Taxes.

A List of the Lands for Sale for Arrears of Taxes will be published in The Ontario Gazette on Saturday, July 3rd, 1943. Copies of the List of Lands for Sale may be had in my Office.

Reds Beyond Karachev In New Push

4 Fresh Divisions On Heels Of Fleeing Huns

MOSCOW, Aug. 16.—(AP).—Four Red army divisions pushed ahead from the captured German bastion of Karachev on the 26-mile road to Bryansk to-day after severing the last main line of escape for Nazi troops trapped in the Orel salient.

The Communist party newspaper Pravda said that the Soviet forces were cutting through dense forests, seeking to prevent the Germans from organizing adequate defence lines on the Desna river.

Karachev fell, Pravda said, when four Russian divisions stormed strong Nazi fortifications on the hills commanding the approaches to the city and then pursued the fleeing Nadis into the streets of the burning town.

The occupation of Karachev closed the main line of escape for Germans remaining in the Orel salient following the Russian's lightning drive westward.

The size of the enemy force encircled could not be estimated immediately but earlier dispathes indicated that the Germans failed to retire a large number of men and war machines from the Orel front before the base at Karachev was cut off.

Take Much Material.

A considerable stock of war materials and many prisoners were captured, said the Russian war bulletin. The battle citation by Premier Stalin gave the 16th and 84th Infantry Divisions of Guards and the 238th and 369th Infantry Divisions the privilege of adding the name "Karachev" to their unit designations.

In fighting northeast of Karachev other Soviet troops were said to have captured 50 towns, including the district centre of Khvastovichi. The Germans lost 3,000 killed, 28 tanks and 18 heavy guns in the fighting, the Soviet communique declared. The advances covered from 3½ to six miles over a curving front, the start of an encirclement drive such as that which led to the fall of Orel.

Eighty miles to the north in the

REDS CAPTURE
(Continued on Page 8, Column 3)

Pity His Parents

CHICAGO, Aug. 16.—(AP)—Jimmy Waranius celebrated his sixth birthday by chinning himself 28 times perfectly. Then he spelled a few words like pseudonym and surreptitious, multiplied a few double numbers, and topped off his program by a couple of back somersaults.

Inhuman Nazis Butcher Red Prisoners

By HENRY C. CASSIDY
Associated Press Staff Writer

ORFL, Soviet Russia, Aug. 15 — (Delayed)—(AP) — Under a pale moon shining over a wall of the Orel prison, Allied Correspondents witnessed one of the most gruesome sights of this war in the opening of a mass grave where Soviet authorities said the Germans has cast about 5,000 bodies of their Russian victims.

These authorities, conducting a careful investigation of this and other evidences of the Germans in Orel, said most of the victims were Red Army men who died of starvation while being kept in the grim, two-storey, brick prison or were shot in the back of the head behind the prison wall.

No agreement exists between the Soviet Union and Germany like the Geneva convention on the treatment of prisoners of war, but Soviet authorities indicated a belief the German conduct violated even the the natural, unwritten laws of humaneness.

Although there have been numerous charges of German atrocities during the war, this was the first evidence laid open to British, United States and other Allied correspondents in Russia.

Part of a long ditch under the fence was open, exposing a heap of bodies looking more like burlap bags than the remains of human being. The bodies were placed one by one on a wooden table for study to determine the cause of death.

So far no documents were found to establish the identity of any of the victims, but most of them wore the clothing of Red army men.

The main ditch was 100 yards long, six feet wide and 10 feet deep with the dead in layers of five. There were seven smaller trenches not yet opened.

Doctors who started work on Aug. 6. the day after Orel was recaptured, drew up a separate protocol for each body to be submitted to a commission.

Mosquitos Hit Berlin Sunday Night

City Of Portsmouth Raided By 25 Planes

LONDON, Aug. 16 (CP)—Milan, Italy's greatest industrial city, was hit for the third time in four nights by R.A.F. bombers last night and accounts from neutral sources indicated it was an area of desolation and panic.

As the bombers took the long trail over the Alps, R.A.F. Mosquito bombers again raided Berlin.

Carrying forward the attack, a strong force of heavy bombers today flew over the coast of Britain in a two-hour long formation accompanied by a procession of fighters. They returned shortly before noon and smaller bombers took up the attack.

Last night's attack on Milan was made in the bright light of a full moon. Targets in the city and the suburbs were plastered with bombs which set fires visible at the Swiss frontier hours after the attack was ended.

A Midnight Raid

The first wave of heavy R.A.F. bombers roared in over Milan just 10 minutes before midnight. The entire action lasted an hour.

The Mosquito attack on the German capital, details of which were not immediately announced, gave Berliners a taste of things to come.

An air ministry communique said today a number of enemy fighters were encountered by the Milan-bound bombers and at least two were shot down.

"Other aircraft were engaged in extensive minelaying in enemy waters," the communique added.

R.C.A.F. Mustangs and Mosquitoes were active in the night's operations, staging intruder attacks on enemy airfields and railway targets, while Wellington bombers laid mines in enemy waters.

The night raiders were followed across the English channel early this morning by a great fleet of Allied daylight bombers. Observers on the British southeast coast said the bombing formations, accompanied by fighters, streaked across at intervals for almost two hours.

The new R.A.F. blow sustained a steady British-American air offensive that included raids Saturday night on Milan and Berlin, on the Axis airfield at St. Omer, France, in daylight yesterday, and on six enemy airdromes in France and Holland at dusk.

Strong forces of heavy bombers, roaring across the channel at the latest hour they have ever raided Europe, blasted the six airfields, officially described by the United States 8th Air Force as "Germany's most important operational fighter airdromes in Wetsern Europe." American marauders hit St. Omer.

In an attack against Abbeville the American bombers were escorted by Canadian fighter squadrons. Other R.C.A.F. planes took part in sweeps Sunday from the coasts of Holland and Belgium to the Brest peninsula.

All Canadian aircraft returned safely.

Civilians Move Out

Swiss dispatches to London morn-

MOSQUITOS HIT
(Continued on Page 2, Column 4)

21 Piglets

WENTWORTH, Mo., Aug. 16.—(AP).—America is producing—even Farmer Floyd Jones' sow has caught the spirit. In a patriotic gesture, what with meat shortages and rationing, Mrs. Sow presented the country with 21 pigs. That makes 58 pigs in four litters.

48 Jap Planes Toppled Into Pacific Ocean

ALLIED HEADQUARTERS, THE SOUTHWEST PACIFIC, Aug. 16—(AP)—Allied warplanes shot down 48 Japanese aircraft—23 of them bombers—over the Southwest Pacific battlefront yesterday.

This success, reported in today's communique from Allied headquarters, was achieved at a cost of only 5 Allied planes and no more than three pilots. The ratio of nearly 10 to 1 bettered by far the all-over score of approximately 4 to 1 established in the six weeks since the start of the Allies' new Pacific offensive.

In a weekend of almost ceaseless activity, the Allied air forces also:

Attacked without loss the great Japanese-held oil port of Balikpapan on the east coast of Borneo, flying a record round-trip of more than 2,500 miles to set huge fires among refineries, reservoirs and tank ships.

Dumped 99 tons of explosives yesterday on enemy positions around Komiatum, south of Lae, New Guinea.

Heavily machine-gunned the enemy's central airdrome of Kahili on Bougainville in the northern Solomons, damaging many grounded aircraft;

Complete Program

Bombed Vila, Japan's last remaining airfield in the Central Solomons;

Raided enemy-held villages and possible supply centres on New Britain and New Guinea;

Sank or damaged 19 more Japanese supply barges off the coasts of those islands.

In the strictly aerial combat yesterday, Americans of the Solomons air command accounted for 12 dive bombers and 22 fighters against a loss of two planes.

Thirty-seven of the enemy craft, intercepted as they winged southward toward the New Georgia fighting zone, were shot down in the neighborhood of Vella Lavella island. The other seven were knocked out over their home base of Kahili.

The air war, for the moment, dominated the Pacific fighting scene. On New Georgia, American troops were reported closing a pincers from north and south on an enemy centre of resistance three or four miles below the Japanese base at Bairoko. There was no detail as to the strength or effect of the movement.

Dispatches direct from New Guinea said Allied troops, in renewed fighting Saturday, had improved their positions on ridges overlooking Tambu bay, a few miles from Salamaua.

MAKE-UP OF DAIL EIREANN

The House of Representatives in Ireland, known as the Dail Eireann, consists of 139 members elected by adult suffrage.

Milan Burns; Citizens Demonstrate

Shouting Crowds March Demanding Peace

CHIASSO, ON THE SWISS-ITALIAN FRONTIER, Aug. 16 — (AP). — Milan workers marched through the burning ruins of that once-great industrial city in a new demonstration for peace early today, telephoned reports to the frontier here said.

These reports added the demonstration began at 6 a.m. to-day, about five hours after the end of the latest R.A.F. raid on the city.

Disregarding armed guards thrown about the burning and smoking areas, the demonstrators picked their way through the rubble in the streets, raised cries that the war should be ended and shouted against those who caused it, the reports added.

The debris in the streets of the the city was said to be 15 to 30 feet high. Milan has about ceased to exist as a city, said persons arriving at the frontier from there.

These travellers asserted two towers of the Cathedral had collapsed, the Sorresco Palace was destroyed and the Royal Palace damaged. In the heavily-attacked Scala Farina freight yards, rails stuck up like uprooted trees.

A Terrific Raid

The industrial area was heavily plastered with bombs loosed by R.A.F. bombers that drove through violent anti-aircraft fire last night to give the Northern Italian industrial centre its third drubbing in four days.

Fire brigades were reported unable to cope with the fires started by the hail of bombs. Axis troops said, travellers arriving here, were mounting a rigid guard everywhere in an effort to check the confusion as thousands upon thousands of the inhabitants continued to flee the city, mostly pushing toward this frontier.

Many of the refugees were reported without food or shelter.

A report to the newspaper Die Tat of Zurich said many of them "cursed the old as well as the new government and even the King."

The R.A.F. attack lasted exactly an hour, and a Swiss telegraphic agency said the Allied bombers went over in waves to bombs the city and its suburbs, especially in the direction of Brianza where the Germans have installed heavy concentrations of anti - aircraft batteries.

After the attack, the glow of fires started by the bombing at Milan could be seen at the Swiss frontier despite an intervening heavy fog.

EXTRA!

LONDON—The Vichy radio announced that Allied planes had attacked Paris this morning for half an hour. The broadcast said two sections "in the Paris area" had suffered heavy damage with numerous casualties.

OTTAWA—Lieut. Francois LaFleche, son of War Minister LaFleche, has been wounded while fighting in Sicily with the Royal 22nd Regiment.

Umbrella Of Allied Planes Whittles Ferry Fleet As Axis Speeds Evacuation

ALLIED HEADQUARTERS, North Africa, Aug. 16 — (AP). — The Allied aerial onslaught against the enemy's dwindling Messina bridgehead raged unceasingly yesterday and squadrons struck Italian mainland objectives both north and south of Rome, it was announced today. R. A. F. and Canadian Wellingtons, with blockbusters among their loads, pitted the railway yards at Viterbo, 40 miles north of Rome, and started fires. The seaplane base at Lake Bracciano, 15 miles north of Rome, and the coastal railway lines south of the capital also were raided, a communique said.

In all the widespread operations by northwest African squadrons, five planes were lost. Three of the enemy's planes were destroyed.

Co-ordinated with the blows of the northwest African squadrons was an attack Saturday night by Middle East R.A.F. Liberators and Halifaxes on the railway installations, freight yards and Messina Strait ferry terminus at San Giovanni. A Cairo communique said the attack resulted in many hits and the kindling of fires.

Middle East Beaufighters bombed a Nazi landing ground and a quayside building at the Greek port of Kalamata, 110 miles southwest of Athens. The Cairo bulletin said runway and gunposts were hit. From both the Kalamata and San Giovanni operations, all planes returned.

Use Power Boats.

Many attacks were made on Messina Strait, where small fast ferries and power boats whisked beaten German and Italian forces from Sicily to the Italian mainland in trips of 15 or 20 minutes.

Almost every type of Allied aircraft was pressed into the gigantic continuous attack.

At the foot of Italy, bombers with fighted escort bombed the freight yards at Marina Di Brancaleone and Sapri, the junction of Sibari and bridges and tunnels in the vicinity of Porto Di Stalletti and Bianco.

From dawn yesterday until dawn to-day, beaches, ports, roads, bridges and railways in the vicinity of Messina Strait were targets of Allied explosives.

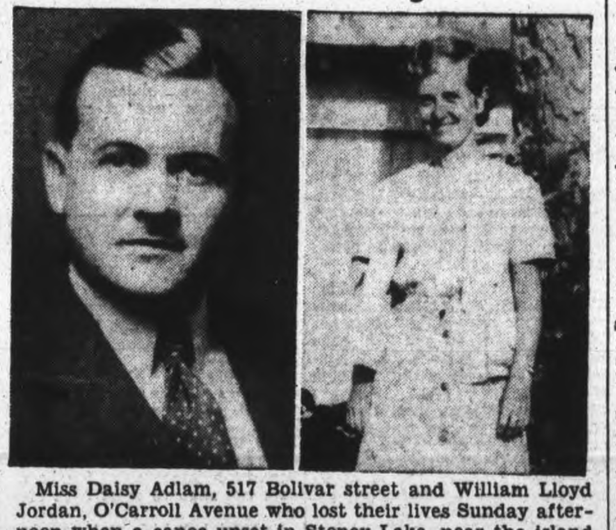
Victims Of Double Drowning



Miss Daisy Adlam, 517 Bolivar street and William Lloyd Jordan, O'Carroll Avenue who lost their lives Sunday afternoon when a canoe upset in Stoney Lake, near the island of Mrs. A. L. Davis, a mile west of McCracken's Landing. Both were members of the staff of the Peterborough Lock Manufacturing Company.

Americans And 8th Army Overrun Axis Rearguard

By RELMAN MORIN, Associated Press War Correspondent

ALLIED HEADQUARTERS, North Africa, Aug. 16.—(AP).—British 8th Army troops have raced forward to capture taormina, strategic harbor and road junction; American troops are overruning the Axis rearguard in the vicinity of Milazzo, and it was officially stated the end of the Sicilian campaign "now is at hand."

The Germans are in flight.

The Americans, pushing up between 12 and 15 miles, advanced well beyond Barcellona to within heavy artillery range of Messina and it was assumed this main escape hatch is under ground fire as well as aerial bombardment.

Barcellona lies six miles south-southwest of Milazzo and 16 miles west of Messina.

Leave Italians

All indications are that the Nazis have pulled out even their delaying parties and left Italian units to face the climatic British and American push.

The British 8th Army and the American 7th Army are advancing as rapidly as blow-up roads and diminishing resistance permits. The campaign is less than six weeks old.

The British captured Taormina, on the east coast 28 miles by road from Messina; Castiglione, eight miles inland; and the town of Kaggi.

(Admitting that Axis forces are quitting Sicily, the Berlin radio declared nevertheless, in a broadcast recorded by NBC, that the Messina Strait is heavily guarded and firmly in German hands. "Anglo-American attempts to stop the ferrying service (to the Italian mainland) will be futile," it said.)

The arrival of detachments of American forces in the vicinity of Milazzo denied the Axis the use of its valuable evacuation area, including not only the port facilities but beaches suitable for loading

DoubleDrowning At Stoney Lake

Finding of an overturned canoe near the island of Mrs. A. L. Davis a mile west of McCracken's Landing, Stoney Lake, on Sunday afternoon, led to the discovery of a double drowning which claimed the lives of two Peterborough residents.

The victims were:

Daisy Adlam, 40, of 517 Bolivar street;

William Lloyd Jordan, 43, of 256 O'Carroll avenue.

Both were members of the staff of the Peterborough Lock Manufacturing Company where Jordan had been employed for a number of years as accountant.

Miss Adlam had been holidaying for two weeks at "Lily Bent," the summer resort operated by Wm. Pearl near McCracken's Landing. Mr. Jordan, his wife and several children were spending the day at the same resort.

DOUBLE DROWNING

Red Guerillas Scourge Nazis

By HENRY C. CASSIDY
Associated Press Staff Writer

OREL, U.S.S.R., Aug. 16 (AP) — Mikhail Petrovich Romashin, the greatest of Russia's Guerillas, whose band has been the scourge of Germans in the Bryansk region, says the partisans have been playing an important part in the current Red Army offensive.

Although the Guerillas abandoned large-scale operations to save the local population from mass reprisals, Romashin said Sunday they are still operating in small but effective groups, derailing trains, blowing up bridges and hampering the movement of enemy troops and supplies.

Co-ordination between the Red Army and the Guerillas, he said, was effected by the partisans themselves, who carry radios, hear communiques and know the best time and place to strike.

Romashin, 38, has been decorated as a hero of the Soviet Union for his leadership of one of the largest Guerilla organizations. He returned through the German lines to become Mayor of Orel.

He told foreign correspondents his most famous job was blowing up the "Blue Bridge" over the Desna river near Bryansk.

Provost Staff Gains Honors

OTTAWA, Aug. 16 —(CP)—Dispatches from Sicily telling of the activities of provost troops with the 1st Canadian Division have set Royal Canadian Mounted Police officials here thinking about No. 1 Provost Company, serving with the division. The company was formed by the R.C.M.P., and consists of members of the force on leave without pay.

Of the original 125 policemen who went overseas with the company, a considerable number have gone on to higher ranks; some 40 have obtained commissions either in the provost corps or other units, the R.C.M.P. announced today. Two of the original members of the company have attained rank of lieutenant-colonel.

Seven are majors or acting majors, and 15 are captains. Four members of the original company have lost their lives—one at Dieppe—and a number have been returned to Canada with injuries.

On Last Lap

By RELMAN MORIN
Associated Press War Correspondent

ALLIED HEADQUARTERS, North Africa, Aug. 16. — Allied vanguards closed to within artillery range of Messina to-day and, although German shore batteries opened up against the British 8th Army from the Italian mainland, it was officially stated that the end of the campaign "is at hand."

The U.S. 7th Army overran Axis rear guards in the vicinity of Milazzo, 14 miles west of Messina.

British troops struck northward through Taormina to a point 15 miles

Bag 90 Subs In 3 Months

Axis U-Boats Take Terrific Mauling

WASHINGTON, Aug. 16—(AP)—Axis U-boats have been destroyed at the rate of about one a day for the past three months in Allied sea offensives an official announcement says.

More than 90 enemy submarines were sent to the bottom during May, June and July.

Prime Minister Churchill and President Roosevelt in a joint statement issued during the weekend, said:

"Our offensive operations against Axis submarines continue to progress most favorably in all areas, and during May, June and July we have sunk at sea a total of over 90 U-boats, which represents an average of nearly one U-boat a day over the period."

The Prime Minister and the President called for an intensified offensive against the U-boats, warning that the enemy still has great reserves of submarines. The battle must be continued relentlessly both a sea and in the shipyards, they said.

Shortly after the Churchill-Roosevelt statement was issued, the United States Navy reported the sinking of seven more Japanese vessels and the damaging of five others by American submarines. The report raised to 217 the number of Japanese vessels sunk since the United States entered the war. Twenty-nine ships have been listed as probably sunk and 63 as damaged.

Weather Important Factor in War Plan

Allies Must Work Fast To Deal Hitler A Knock-out Blow This Year

By DEWITT MACKENZIE
Associated Press War Analyst

While Messrs. Churchill and Roosevelt will go into conference at Quebec surrounded by an atmosphere of general success, there's a trick military problem which may give some trouble, and that's one of time—whether there is still enough good fighting weather left this season to enable the Allies to take full advantage of Hitler's unhappy position, especially on the Russian front.

In short the question is whether we are going to be able to get at the Fuehrer with both fists while he is showing signs of being hurt, or whether the bell at the end of this round will give him a breathing spell.

Another six or eight weeks will see the weather in the European theatres going sour. Fighting will still continue, of course, but it will be greatly impeded. This will be particularly true of the Air Forces, which will face days on end when little or nothing can be done.

What the parley at Quebec will have to figure out is where the western Allies can best strike in the remaining good weather so as to assist the great Red drive. The Russians of course want a land front opened up in France, and the western Allies also want to get at that as soon as possible. That's the operation which would do Hitler the most harm right now. But is it feasible?

An invasion of France is a tremendous operation from enemy viewpoint. It will require a vast assemblage of fighting men, warships and transports, and equipment of all sorts.

Need Vast Army.

Obviously it takes time to assemble the wherewithal for such an undertaking, and the Mediterranean operatons have been employing much equipment, and perhaps troops, which would be needed in England for an invasion across the channel.

It takes time to move such an outfit. Unless some of it has been shifted, in anticipation of the speedy conclusion of the Sicilian campaiagn, there certainly isn't much time left before the autumn weather sets in.

Still, it strikes me that there's no reason as yet to abandon hope that the western Allies can stage an invasion of France this season, and perhaps carry out other measures in the Mediterranean at the same time. We are piling up striking power in all theatres fact and it may be that a realignment of the invasion forces and equipment could be carried out with sufficient speed to just about get under the wire

Lower Lake Region — Moderate to fresh winds; partly cloudy with scattered thundershowers. Tuesday: Fresh winds; fair and comparatively cool.

Ottawa and Upper St. Lawrence Valleys — Moderate to fresh winds; partly cloudy, with scattered thundershowers.

Unusual Mishap

HAMILTON, Ont., Aug. 16—(CP)—Joseph Briggs, 50, today suffered injuries to his left thigh while working in a local factory. He was removed to the General Hospital where his condition was reported as fair.

Briggs told police that after he finished brushing a mould, he threw the brush to the ground and jumped down. The handle of the brush bounced upright penetrating his left thigh just under the abdomen and emerged at the back just below his left hip.

Nazi Luftwaffe Knocked Out

Allies Enjoy General Air Supremacy

By ROSS MUNRO
Canadian Press War Correspondent

SOMEWHERE IN SICILY, Aug. 16—(CP Cable) Air Marshal Sir Arthur Coningham said in an interview Sunday that the German air force has been "knocked out" and the Allies will continue to have tremendous air superiority at the end of the war, with that superiority steadily increasing.

"The Luftwaffe is a beaten force to all intents and purposes," Marshal Coningham told war correspondents. "It is out and will continue to be out as long as we continue to obey normal air rules."

"In the fighting on the English channel front some small pockets of the Luftwaffe put up quite a good show, but in the fighting in the Mediterranean the German air force steadily went down," he added.

"The air has been filled with hungry Spitfire pilots who go for everything with wings on. You ask what has happened to the German air force? Well, It has been knocked out. Their bomber efforts here are very half-hearted now. As for the Italian air force, one or two fighters appeared but it has more or less packed up."

PRELIMINARY CONFERENCES BEING HELD BEFORE ROOSEVELT COMES

Resume Talks At Quebec; Premier Back

Churchill Mum On Discussion With Roosevelt

QUEBEC, Aug. 16 (CP)—In two Quebec buildings—one a vast hotel and the other the Citadel, summer residence of the Governor-General—the military and political leaders of the major democracies meet this week to draft another act of the greatest drama in history: Elimination of the Berlin-Rome-Tokyo Axis.

The combined chiefs of staff of the United Kingdom and United States have been together since Friday night, working out technical details with the aid of an army of experts, uniformed and civilian.

Prime Minister Churchill is here, having returned yesterday from Hyde Park, N.Y., where he spent three days with President Roosevelt. Mr. Roosevelt is coming later.

Once they are together in this 300-year-old city on the St. Lawrence river the sixth formal Churchill-Roosevelt conference will begin.

Within three minutes of his arrival at the Citadel yesterday from the six-car special train which brought him from Hyde Park, Mr. Churchill was hard at work in his map room. He conferred with Prime Minister Mackenzie King—host to the conference on behalf of the Canadian government—and lunched with the British Chiefs of Staff.

Expect Welles

That he conveyed to Mr. King and his highest military advisers the results of his formal talks with Mr. Roosevelt was taken for granted, although there was no official statement to that effect.

Undoubtedly this information will be carefully considered by the British officials so they will be prepared to deal promptly with any important problem once the final stage of the meeting here is reached.

Rt. Hon. Anthony Eden, British Foreign Secretary, is coming at some stage of the meeting but there has been no indication yet just when he will be here. Perhaps Mr. Roosevelt will be accompanied by high governmental officials. It is expected, for instance, that Mr. Eden will carry to Moscow and perhaps Chungking a report on the conference, and there has been speculation that Sumner Welles, United States Under-Secretary of State, will ac-

Addresses Kiwanis

Leonard M. Reilly, of Toronto, president of the Reilly Lock Corporation, addressed Kiwanians at luncheon in the Empress Hotel Friday. The title of his talk was "A Boy; a Friend," and he spoke of the help and inspiration a growing boy can get from kindness and encouragement on the part of his elders.

Declare Rome Open City; Italian Ruse

Allies Must Get Ample Proof Terms Fulfilled

By JAMES F. KING
Associated Press Staff Writer.

LONDON, Aug. 16 — (AP). — Belief in the Italian declaration of Rome as an "open city" was merely a trick by Premier Marshal Pietro Badoglio to spare it from further bombardment appeared to be growing in Great Britain to-day and Lord Beaverbrook's London Daily Express bluntly demanded that Allied air attacks be continued until Italy quits the war.

There has been no official comment in London on the Italian declaration and none was anticipated in the absence of Prime Minister Churchill now in Quebec. The Rome radio itself warned Italians they could expect immunity. The London Daily Mail heard an Italian broadcast which reported the Prefect of Rome had issued orders to halt an influx of civilians seeking residence in the city under the impression it is a safe haven from Allied bombs.

3 Good Reasons.

The London News Chronicle listed three reasons the proposal should not be accepted:

"First," the News Chronicle said, "because in circumstances of total war what might constitute an open

small craft.

The thrust through Barcellona essentially isolated both Milazzo and the sandy cape bearing its name.

Move Up Fast

Forward elements of Gen. Sir Bernard Montgomery's 8th Army were less than 25 miles from Messina.

The joint British and American line running through central Sicily was slightly farther away, but was advancing at about the same rate as the Allied forces on the flanks.

The Italians had been ordered to hold a five-mile line running inland from Roccalumera, 18 miles south of Messina, the documents disclosed.

Official dispatches said numbers of Germans donned civilian clothing and attemptaed to infiltrate Allied lines to reach the rear area. Many were captured.

Military booty included 293 75-millimeter guns as well as some larger artillery pieces and 188 tanks. The number of prisoners was not announced, mainly because they are being rounded up too fast for counting. More than 130,000 were held last week.

MORE ABOUT—

Umbrella

Continued from Page 1

"There is no comparison between Messina Strait and Dunkirk," said a senior R.A.F. officer.

"The Strait can be crossed in 15 minutes and as a result the enemy naturally prefers to get out during the darkness, but we have made quite a hole in his ferry fleet," he said, adding::

"Fighter and bomber pilots have given the barges and ferries no rest during any minute of daylight, and even near misses do much to cripple small ships and render them useless for immediate operations.

A Flak Umbrella.

"For the flak umbrella over the Strait, the enemy has stationed more guns than we had in the whole London adtillery barrage in 1940."

Reaching out from Africa to Viterbo, R.A.F. and Canadian Wellingtons concentrated "scores of tons of bombs on cutting the northern route out of the capital," it was officially stated.

"This task was completely achieved at Viterbo, despite the fact that this important strategic rail junction lies adjacent to a well defended air field. Several sticks of bombs fell along the railroads and 4,000-pounders burst in the marshalling yards."

DOROTHY DIX • • •

HOME IS MORE PEACEFUL WHEN COUPLE CONSIDERS FINANCES.

Woman Nagging Mate Brings to Herself Fate She Deplores; Man Causes Trouble, Too.

◆ ◆ ◆

If husbands and wives could be induced to look at marriage from a financial standpoint and to realize that it affected their pockets as well as their hearts, there would be more peaceful homes, and more married couples making an honest effort to get along amiably together.

For, curiously enough, almost all husbands and wives think of their marriages solely from the emotional angle, and they consider them successes or failures according to whether they are happy and congenial or not. Apparently it does not occur to them that whether they fight like the Kilkenny cats or coo together like suckling doves has any bearing on their health, or their ability to make money, and is the chief determining factor in whether, when they celebrate their silver wedding, they will be sitting pretty on Easy Street, or permanently located on Poverty Flat.

Insurance Against Failure.

Yet such is the case. And if there were no other reason for husbands and wives to make every possible attempt to adjust themselves to each other, and to keep the love light burning on their hearthstones it would be found in the fact that it is the best insurance that they can take out agains premature old age, nervous breakdowns, and bankruptcy.

And if you don't believe this assertion, look around among your acquaintances and you will see that the ones who keep young and gay and optimistic and who are prospering in their affairs are the happily married; whereas the disgruntled are sour and dyspeptic and have acquired worry wrinkles and hump shoulders before their time.

No woman can lie awake at night thinking up the mean things she is going to say to her husband when he comes home, and get up rested and refreshed the next morning. No man can relax and gather up fresh courage and strength for the next day's struggle with the world, in a home that is a perpetual battle ground in which he hasn't even a fox hole in which to crawl for protection.

When wives throw cold water on all of their husbands' plans and aspirations, and then they belittle them and complain that their husbands are such poor business men they cannot make money like Mr. Jones or Mr. Smith, they think that they are only using a wife's prerogative to find fault with the man to whom she is married.

Nagging Women Injure Their Own Chances.

They do not realize that they are bringing upon themselves the fate they deplore, because they are destroying their husbands' faith in themselves and killing their initiative and they are fiivng their status as failures with other people.

Nor does the man who has that kind of a wife feel that he has any reason to break his neck trying to get her the things she craves, and that she would never even say "thank you" for, anyway. It is the wives who continually build their husbands up, who buck them up when their own courage falters, who keep them happy and contented whose husbands are the world's go-getters. They achieve the impossible trying to justify their wives' faith in them.

And it pays a man just as much in dollars and cents to be a good husband and help make a happy home as it does a woman. Haven't you noticed that when a middle-aged man starts to philander he almost always begins to slip financially, and that the end of his woman-chase is at the bottom of the scrap pile? It isn't only because his mind is so preoccupied with some cutie that he neglects his work, or because he disgusts his old friends or because he makes

Mosquitos Hit

Continued from Page 1

ing newspapers reported Milan was "one gigantic ruin" from the heavy raids of Thursday and Saturday nights.

These reports said thousands were trying to get out of the blasted metropolis where the populace has repeatedly demonstrated for immediate peace.

The German Air Force, meanwhile, lashed a south coast town, which was later identified by a Berlin broadcast as Portsmouth, with the heaviest assault in two years last night and lost five of some 25 raiders sent over in this and other scattered raids on coastal towns.

The raiders came in singly scattering their bombs over widely-sepadated parts of the city and causing faidly heavy casualties including a number killed.

The heaviest damage was inflicted in the working class section of the port, which was hard hit in previous raids.

Mosquito bombers raided Berlin Saturday night, giving residents of the German capital a taste of what may come with the approaching longer nights.

Saturday night's R.A.F. attack on Milan was on a smaller scale than the raid Thursday night, described officially as the heaviest air blow of the war on Italy. The major Saturday night target was the Breda armament works in the northeast industrial suburbs.

Toronto Man Drowns In Kushog Lake

LINDSAY, Ont., Aug. 16.—(Special.)—The third drowning to take place in the North Haliburton district occurred on Sunday afternoon when Rolland Marriott, aged 39, of 47 Doncaster avenue, Toronto, was drowned while swimming in Kushog lake, 10 miles north of Minden.

Accompanied by his young niece, Miss Barbara Hazelton, Marriott dived out of a boat and failed to re-appear. Miss Hazelton swam to shore and summoned aid. Marriott was found by Harold Sedgwick of Stanhope township in 8 feet of water. Artificial respiration was applied for several hours and while at one time it was thought that Marriott showed signs of reviving, life was finally declared extinct by Dr. Agnes Jamieson of Haliburton, who attended.

The tragedy ended a holiday that Marriott and his wife had been spending at a cottage owned by W. Prentice of Kushog Lake. It is the third drowning in Kushog and Hall's Lake within the last two weeks. He was an employee of the Lake Simcoe Ice Company of Toronto.

HASTINGS

Pte. Jack McCarthy Wounded In Battle

HASTINGS, Aug. 16 — (ENS).—Mr and Mrs. William McCarthy, of Hastings, received word that their youngest son, Pte. Jack McCarthy, was wounded in action on July 18, with the Hastings and Prince Edward Regiment, in Sicily.

The extent of wounds is not yet available, but a telegram arrived the same day to his parents, saying: "Am well and safe; please don't worry; all my love."

Jack was one of the first boys to go overseas, joining the Army in 1939.

OBITUARIES

FRANK N. RUTHERFORD

LONDON, Ont., Aug. 16—(CP)—Frank Norman Rutherford, 64, of Fenelon Falls, Ont., died early this morning of a heart attack at the home of his daughter, Mrs. W. J. Sutherland, where he had been visiting for the past three weeks.

Mr. Rutherford was born in Fenelon Falls and had been a trustee in bankruptcy at Ottawa for 25 years prior to his retirement three years ago. He lived a life-long Conservative, well known athlete and hockey enthusiast in his younger days.

DAISY ELIZABETH ADLAM

Daisy Elizabeth Adlam of 517 Bolivar street died Sunday in a drowning accident at Stoney Lake. She was 40 years old.

Miss Adlam was the daughter of Mr. Seth Adlam and the late Lily Edward and lived here all her life. Employed at the Peterborough Lock Co., she was a member of Trinity United Church and sang in the church choir. She was a member of Elizabeth Parker Auxiliary and of the Queen Alexandra Circle, I.O.F.

She is survived by her father and by a sister, Mrs. Frank Petheridge, (Florence) of Peterborough.

The funeral will be held on Wednesday at 2 p.m. from the Nisbett Funeral Home, 347 Charlotte street, with Rev. E. W. Young officiating. Interment will be made at Little Lake Cemetery.

WILLIAM LLOYD JORDAN

William Lloyd Jordan of 256 O'Carroll avenue died Sunday in a drowning accident at Stoney Lake. He was 45 years old.

Born in Toronto he had lived here 7 years and then was employed at the Peterborough Lock Company. He served overseas in the last war and was a Sgt. Major of the 4th Field Battery (R), Peterborough.

He leaves to mourn his loss his wife, formerly Gladys Barney, and three daughters and two sons: Mrs. Harold Campbell (Eileen), and Margaret and Lydia, all of Peterborough; John, R.C.N., and William of Peterborough. Also surviving is a sister, Mrs. Winnie Boyd of Toronto.

The funeral will be held on Wednesday at 3:30 p.m. from the Nisbett Funeral Home, 347 Charlotte street, with service conducted by Rev. F. W. Craik of St. James United Church. Interment will be at Little Lake Cemetery.

8th Army Nearing Messina; Castiglione Falls; Americans Menace Milazzo

ALLIED HEADQUARTERS IN NORTH AFRICA, Aug. 16 — (AP). — The British 8th Army has captured Taormina on Sicily's east coast only 28 road miles from Messina and on the north the Americans have thrust to the vicinity of Milazzo, it was announced to-day. British troops also have overrun the towns of Kaggi and Castiglione. Castiglione is inland from Taormina. American 7th Army units pressed forward in the central sector east of Randazzo, the communique said. A rapid American thrust to the neighborhood of Milazzo, on a promantory about 14 miles west of Messina, has denied "the enemy the use of this important evacuation port," the bulletin declared.

"Contact has been light throughout the day," the announcement added, "and the enemy continued to rely on mining, demolitions and road blocks to delay our advance. Our engineers have proved equal to the task set them and the roads, bridges and tunnels are being rapidly repaired."

Delaying Action

(The Italian High Command claimed that Italian and German troops, flanked by the Peolritani Mountain range which is the backbone of the dwindling Messina bridgehead, delayed the advance of Allied forces yesterday, but made no claim to have stopped them.

(Axis fighters were declared in the communique, broadcast from Rome and recorded by the Associated Press, to have intercepted numerous airformations over Messina Strait and shot down five Spitfires and three Curtiss fighters.

(Torpedo planes also claimed to have sunk two Allied steamers of 12,000 tons and blown up a medium-sized merchantman in the Western Mediterranean.

(Italian motor torpedo boats sank a Royal Navy light cruiser yester day off Cape Spartivento, the communique said.)

The Allied Air Forces ranged ahead of the rapidly advancing ground forces, to-day's Allied com-

Kawartha Wins Inter-Club Match Trophy

In the return match for the Glover-Dobbin Trophy, the Kawartha golfers were entertained at the Peterborough Club Saturday. The first match was played at the Kawartha Club two weeks ago, with the Kawartha members inning by a 25 point margin.

The said 25 points, which they carried into the second match was the margin by which they returned the Trophy to the Kawartha Club, the final score Saturday being tied, 41½-41½. Last year Peterborough Club won the Trophy by a three-point margin.

A great deal of talk was heard, before, during, and after the match about the coming professional and amateur tournament, at the Kawartha Club next week-end. A large number of the Peterborough Club and Kawartha Club amateurs have said they would play, and then stay to see the 25 or 30 expected pros play their match.

Pro entries continue to come in, the lataest being James Patton and Stan Horne of Montreal. A number of top Toronto amateurs have entered and word is expected to-day or to-morrow from Phil Farley, who is just about the hottest amateur in Canada right now. This match is important enough to bring a contingent of Toronto sports writers down, and already reservations have been made for them for the week-end.

It will be the biggest golfing event ever held in the district and the entire proceeds go to the Kinsmen Club Milk for Britain Fund.

CAMPBELLFORD

Veterans Hold Annual Parade To Cenotaph

CAMPBELLFORD, Aug. 16 (ENS) —Legion members were joined on Sunday afternoon by the local branch of the I.O.O.F. No. 248 in holding their annual decoration day service here at the cenotaph.

Lodge members, who each year attend cemeteries for the purpose of placing flowers on the graves of departed members, were lead in their parade by the Midland Regiment Band and after a brief stop at the Church of England Cemetery they proceeded to Mount Pleasant where the ritual of placing the flowers was carried out. This part of the service was conducted by P. N. G.s Morley Tanner and Earl Craighead with the assistance of Mr. Howard Ashley of Stirling who attended together with several other members of that lodge.

Parade To Cenotaph

Returning to the armouries the parade was joined by Legion members and from there proceeded to the cenotaph where wreaths of flowers were placed by Major J. M. Bygott and Rev. G. N. Maxwell. Several members of the local Ministerial Association including Rev. G. N. Maxwell, Rev. W. J. T. Hicks, Rev. H. B. Bryant and Rev. E. A. Wicks, assisted with the service and the band provided music which accompanied the singing.

Mayor F. F. Long introduced the speaker. He said that a year ago he had suggested the war clouds would be brighter by the time another year had rolled around and now he felt the gathering would agree that this had ccme true. The speaker of the day, Rev. E. A. Wicks spoke of the value of affection in the home and suggested that the affection of people, one for the other was greater today than it was before the war. He referred to for a revivial of spiritual values and cited the fact that less than a third of the children in Canada were attending Sunday School as a reason for some effort being directed along this line.

Following his remarks the Last Post was sounded by Buglers W. Lowe, E. Godden and W. Batman. After a minute's silence Reveille was played.

DELICIOUS AND EASY-TO-MAKE ALL-BRAN MUFFINS

No sugar needed—yet this recipe produces muffins that are gems of tasty goodness. KELLOGG'S ALL-BRAN does the trick—gives them the delectably crisp texture and delicious taste no ordinary bran can equal.

KELLOGG'S ALL-BRAN MUFFINS

2 tablespoons shortening
½ cup corn syrup
1 egg
1 cup Kellogg's All-Bran
½ cup milk
1 cup flour
½ teaspoon salt
2½ teaspoons baking powder

Cream shortening and corn syrup thoroughly; add egg and beat well. Stir in ALL-BRAN and milk, let soak until most of moisture is taken up. Sift flour with salt and baking powder; add to first mixture and stir only until flour disappears. Fill greased muffin pans two-thirds full and bake in moderately hot oven (400°F.) about 30 minutes. Yield: 8 large muffins, 3 inches in diameter, or 12 small muffins, 2½ inches in diameter.

FENELLA

Ditty Bag Project Started By Ladies

FENELLA, August 16 — (ENS) — Mrs. Harry Hutchison was hostess on Thursday afternoon to the Fenela W.I. Twenty-seven ladies were present.

The president, Mrs. Frank George, conducted the meeting. Mrs. C. Leach, secretary read reports and correspondence which included a letter of appreciation from Mrs. G. Jewell for fruit sent during her sickness. War work financial report and correspondence was given by Mrs. C. Childs, war work secretary.

Mrs. W. I. Montgomery offered her home to cut a bolt of flannelette for Red Cross pyjamas with Mrs. F. George, Mrs. C. Leach and Mrs. Montgomery helping to cut them. Several ladies volunteered to complete them. Mrs. M. Lonsberry was appointed auditor in place of Mrs. Childs.

It was decided war work secretary should be paid from proceeds raised for war work. Plans were made to fill four ditty bags for the Cobourg Branch of the Navy League. A special collection was taken to purchase articles for these. Donations from non-members will be accepted as each bag is to be valued at approximately $3.50. Mrs. C. Childs, war work convener and committee, Mrs. B. McDonald, Mrs. W. H. Sandercock and Miss Ruby Adams were appointed to fill the bags.

Mrs. M. Lonsberry offered her home for the September meeting. The grandmothers to have charge of the program. Rev. F. Honey of Baltimore is to be invited as guest speaker. First and second prizes will be given for the best living room bouquet of flowers.

The war work collection amounted to $182. Mrs. Francis Minor was program leader. A paper was given by Mrs. M. Adams, "The Old Time Religion"; a reading by Mrs. Jewell written by Mrs. Warren Atchison, Dartford; also readings by Mrs. W. H. Sandercock and Mrs. Minor; Mrs. R. Cowling gave a contest.

Mrs. R. Cowling moved a vote of thanks to the hostess after which lunch was served.

Teaching Order Stays

OTTAWA, Aug. 16—(CP). — R. E. Shaul, chairman of a delegation representing the Canadian Teachers' Federation, last night told the Canadian Press that the delegation "got nowhere" so far as repeal or amendment of the order "freezing" teachers in their jobs was concerned when it interviewed Labor Minister Mitchell and Selective Service Director Arthur MacNamara yesterday.

Wolf At Door

DALLAS, Tex., Aug. 16. — (AP).—You wouldn't expect to find a wolf outside your door in bustling times like these, but Mrs. J. E. Britton did. It was asleep in her front-porch swing. Animal shelter employees who captured the wolf said it probably was chased there by dogs.

Teachers' Federation Elects Woman Head

SAINT JOHN, N.B., Aug. 16 — (CP)—Miss Beryl Truax, Westmount, Que., was elected president of the Canadian Teachers' Federation when the election of officers was held at the close of the afternoon session here today.

She is succeeded as vice-president by Dr. E. Floyd Willoughby, Winnipeg, Man.

C. N. Crutchfield, Shawinigan Falls, Que., was re-elected for his 10th consecutive term as secretary-treasurer of the federation.

Other members of the executive are O. V. B. Miller, Fredericton; John C. Johnson, Sydney, N.S.; Miss Estelle Bowness, Summerside, P.E.I.; R. C. Paris, St. James, Man.; W. S. Lloyd, Biggar, Sask; D. E. Pope, Montreal; J. H. Mitchell, Toronto; L. B. Stubbs, Kelowna, B.C., and Dr. Clarence Sansom, Calgary, Alta.

COBOURG

Women Predominate In Rotary Winners

COBOURG, Aug. 16.—(ENS.) — Mrs. Charles Brooks of Cobourg, won the first prize in the Cobourg Rotary Club carnival. The carnival, which was held on the public school grounds, was well patronized. Reuben Freeman, president of the club, was master of ceremonies at the draw. Winners were as follows:

Axminster rug, valued at $50, won by Mrs. Brooks; Cogswell chair, H. Jones, Cobourg; Cogswell chair, Mrs. A. Mascell, Colborne; nest of tables, Mrs. Ruth Westley, Cobourg; bedroom chair, Miss May McCaughey, Cobourg; occasional chair, Miss Martha Owen, Cobourg; Ottoman, Miss Shirley Holman, Cobourg; Ottoman, Harry Field, Cobourg; coffee table, Mrs. E. Bolter; rug, Mrs. O. Linton, Harwood; rug, A. Pagett, Peterborough, and rug, Rex. Fleming, Cobourg.

Egg Prices Up 1 Cent

CAMPBELLFORD, Aug. 16 (ENS) —Eggs—Prices for ungraded eggs were up one cent over the preceeding week here on Saturday when produce dealers offered the following delivered quotations: A Large 41c; A medium 40c; A Pullet, 32c; B grade 31c; C grade 27c.

Cream — Delivered prices for churning cream continued at Special 43c; No. 1 grade 42c; No. 2 grade 39c. One cent less for truck cream.

Butter—Prices to retailers in pound prints: No. 1 grade 34c; No. 2 grade 33½c.

Want Price Adjustion

TORONTO, Aug. 16 — (CP). — The Ontario Beef Cattle Producers' Association at a recent meeting suggested a reasonable spread between prices of feeder cattle and ceiling prices on finished beef be set if cattle feeding is to be stimulated.

SWEDISH TANKER SUNK

CAPE TOWN — (CP). — The Swedish tanker Pegasus has been sunk off the South African coast according to the German overseas radio quoting a Stockholm Reuter message.

Triple Yolk Egg

TORONTO, Aug. 16.—(CP). —Two yolks in an egg are fairly common but Mrs. S. Kermerman of Toronto was surprised when she cracked "a large ugly egg with a slight bump on one end," to discover it contained three yolks. Egg dealers said such an egg was one in 100,000,-000.

COBOURG

Final Returns Made In Northumberland

COBOURG, Aug. 16.—(ENS.) — T. F. Hall K.C. returning officer for the riding of Northumberland and Durham, has announced the totals for the three candidates in the provincial elections, as compiled after the ballot boxes were opened during the week-end at his office here.

William Goodfellow, Progressive-Conservative, obtained a total of 7,412 votes; John Callahan, Liberal, 5,276 and Harold Dunk, C.C.F., 1,178, which gives Goodfellow a majority of 2,136, the largest majority ever polled in election history in this riding. The totals by municipalities were as follows:

Campbellford, Callahan 313, Dunk 262, Goodfelow 611; Cobourg, Callahan 890, Dunk 250, Goodfellow 1,190; advance poll, Callahan 23, Dunk 7, Goodfellow 25; Township of Alnwick, 135, 15 and 190; Township of Brighton, 363, 31 and 509; Cramahe Township, 380, 52 and 499; Haldimand Township, 617, 40 and 485; Hamilton Township, 519, 101 and 763; Murray Township, 478, 90 and 569; Percy Township, 466, 42 and 626; Seymour township, 411, 119 and 637; South Monaghan Township, 63, 33 and 137; Brighton Village, 294, 39 and 448; Village of Colborne, 194, 22 and 274; Hastings, 157, 32 and 186; military camps and internment camps, 54, 43 and 83.

Victory Gardens Beginning To Show Results

OTTAWA, Aug. 16 (CP). — The man with the hoe has begun his triumphant march from the Victory Garden to the root cellar and the fruit-canning table.

The Agricultural Supplies Board, said with pride today that 350,000 Canadians, in town and country, probably would harvest some 500,-000,000 pounds of vegetables when their year's work is done.

With the caution born of experience of the disasters that may lie between good prospects and the actual harvest, the Board officials confined themselves to saying that as things stood the wartime gardens enterprise was "highly satisfactory." When the anticipated crops have been gathered they indicated their enthusiasm would be less restrained.

Officials said that reports from across the Dominion indicated the amateurs' gardening program, while successful in general, had hardly been roses all the way. But they were cheerful about that aspect of the program, and cited an axiom of the Agriculture Department that people "learn to grow by growing."

Some Disappointments

There had, they said, been as many disappointments in potatoes as in anything, but the majority of gardeners were just as pleased with their production as one department official who, himself a wartime gardener, reported an average of about three pounds of potatoes for each root.

In spite of the amateurs' activities, officials said, there was little prospect that the 38,000 market gardeners and others selling fruit and vegetables would be affected. Because of increased purchasing power among civilians and the gigantic requirements of the fighting services, markets for all production at fair prices were expected.

Dehydrating plants also are expected to take substantial quantities of vegetables.

N.S. Gets More Liquor

HALIFAX, Aug. 16 — (CP). — Doubling of Nova Scotia's hard liquor quota starting Monday was announced yesterday by A. S. Mahon, chief of the Liquor Commission. Instead of 26 ounces monthly Nova Scotians will be permitted to buy 52.

Nothing To Show The Japs Now

These are high Japanese officers during their recent visit to the German front lines in Russia. No doubt they were impressed at the recent German defeats at the hands of the Russians. Those "wonderful" weapons the Germans are telling them about are not doing them a bit of good now.

Legion Members Plan Decoration Of Graves

MARMORA, Aug. 16 (ENS).—At a special meeting of Marmora Branch No. 237 Canadian Legion held in the Legion room on Thursdaly evening plans were made for the holding of the annual grave decoration service.

The parade will assemble at 2:30 p.m. on Sunday, August 22, at the memorial and graves of deceased comrades in the Protest and Sacred Heart cemeteries. The villagers have also been asked, as in the past few years to decorate plots of late members of their families at the same time to give the decoration a community complex.

It is hoped that a special speaker will be secured to give the main address of the afternoon.

Married Men 27-30 In New Call-up

OTTAWA, Aug. 16 (CP) — Men reaching the age of 18 this year and married men up to 30 years of age now are subject to call for compulsory military service under an extension of the callable classes announced by Labor Minister Mitchell over the week-end.

The new orders drop the minimum callable age from 19 to 18, but provide that men shall not be served with notice to report for medical examination until they reach the age of 18 years and six months.

The extension makes married men between the ages of 27 and 30 subject to call for the first time. Previously married men up to 25 were made liable to call, and as the classes go by date of birth those who were 25 when the previous extension was made now are 26 and still liable to call with their birth-year class.

No estimate was available of the number of men who may be obtained for the armed forces under the change in regulations. About 100,-000 men turn 18 in a year, and all of these who are physically fit and have not enlisted in the armed forces voluntarily will be callable.

The number of married men in the age group from 27 to 30 who may be called also depends on the number who have enlisted. It is not expected to be large, because all men married since July, 1940,

The Revolution Of Our Time

Everyone seems to be agreed that the political and economic conditions which existed in the greater part of the world for the ten years preceding the outbreak of war were reprehensible, and in the last two years many men have spent much of their time in evolving theories of political and economic action for the years after the war is won. The theories are remarkably divergent: the only point of agreement appears to be that a change is needed. At present the struggle for supremacy in this field of thought seems to be going to those who advocate fairly drastic alterations both in politics and economics; the moderate thinkers are losing ground because they appear to be on the defensive. What will come of the struggle no one is competent to predict.

• • •

Last week one of the most able of the moderate thinkers in Canada, Mr. Walter P. Zeller of Montreal, addressed the Canadian Weekly Newspapers Association, taking "Whither Post-War Canada?" as his theme. Mr. Zeller is the head of a large business, and knows what wartime controls can do to business; he has also had experience in the making of controls, for he was at one time a prominent member of the Wartime Prices and Trade Board. He does not expect to see government control of business vanish immediately after the war, but he wants to see it go as quickly as possible; he is a vigorous advocate of private enterprise as the backbone of national business. But he is not by any means a defender of private enterprise in all its manifestations. In business, as in everything else, freedom is not a synonym for license. But freedom for private enterprise, in his view, gives an outlet for individual energy and ingenuity which is denied by government planning and state control of trade. Planning may easily degenerate into regimentation, and in a regimented state no class fares well. Mr. Zeller finished his speech with a warning to labour that a regimented economy meant regimented labour.

• • •

A contrary view may be found in the recently-published volume, *Reflections On The Revolution Of Our Time*, by Professor Harold J. Laski, the brains of the active socialist movement in Great Britain. The world must bring about a "revolution by consent," says Mr. Laski, or it will drift to one of two extremes: either the iron dictatorship of a Communist revolution will seize the democracies, or an equally unpleasant Fascist revolution will bring about a dictatorship of the Right. In neither case will the great body of citizens benefit; indeed, they will lose heavily. But the alternative to these two exremes is a planned revolution toward a form of Socialism which will give the widest possible opportunities to every citizen which are compatible with the general good.

• • •

Neither Mr. Zeller nor Professor Laski make any mention of what seems to us to be the really important point, which is this: no form of government is better than the men who comprise it. A plutocracy may be a welter of abuses, with privilege out of all reason for the few and hardship for the many, or it may be a very comfortable and well-organized state; it all depends on the nature of the plutocrats. And a Socialist state, with a planned economic structure, may be a smooth and competent machine, or it may be a tyranny of inefficient, irresponsible, pension-worshipping bureaucrats; it all depends on the nature of the bureaucrats. The institution of monarchy lasted for many thousands of years because a great number of kings were competent and humane administrators; many a commonwealth organization has gone to the wall because the partakers of it have lacked talent or integrity, or both. What we need more than a good system is a supply of good men. Good men can make almost any system work for the benefit of the whole community. Not tricky new systems, but brighter politicians in our principal post-war need. An improvement in politicians would be revolution enough for anyone.

Troubles Of a New Party

The C.C.F. is still a new party in Canada, and it is having its troubles in adjusting its particular brand of socialism to the country's taste. But apparently it has already discovered how ill-informed and how short of memory the majority of voters are. Recently C.C.F. leaders have been telling the public that their party has always been strongly in favour of collective security as exemplified in the British Empire and the League of Nations, conveniently forgetting its obstructionist attitude when this war broke out and Canada had to make her decision whether to enter it or not. And having forgotten what happened three years ago, it is very likely that many people have also forgotten the C.C.F. convention in Winnipeg in 1934, when Professor Frank Underhill wrote thus of the party's beliefs in the Winnipeg *Free Press:*

"No Canadian armed force should be sent overseas under any circumstances. We must resolve never again to send Canadian armed forces overseas to take part in hostilities of any sort, whether or not the purpose of the hostilities is declared to be the defence of Canada, or the British Empire, or the League of Nations, or of democracy, or of freedom. Such declarations are mere booby traps to induce us to bury 50,000 Canadians once again in France and Flanders.

"No pledge by Canada to assist in applying the sanctions of the present League. As a matter of fact, the sanctions part of the League machinery has recently suffered a complete paralysis, but as long as it exists in the present state of Europe it is dangerous."

The word Socialism, as G. D. H. Cole has said, "has been used in shifting senses as the situation facing it changed". Yes indeed. Socialism, which seems so clear and logical on paper, becomes muddy and confused in action, much like the old parties which it seeks to supplant. And in pointing out booby traps to others it prepares booby traps for itself.

Canadian Squalor

We Canadians do a great deal of boasting about our country; we love to refer to it as a land of opportunity—a fresh new land where everything is done in the best and most modern way—a land which has discarded the prejudices of the Old World. Before the war, when our people visited Europe, they frequently returned with tales of the dirt in Italy, the crowded living in France, the inadequate plumbing in England; and they told these tales with the conscious superiority of people who ordered things better than that in their own country.

W. L. Clark, columnist of the Windsor *Star*, invites us to turn our eyes inward and consider these facts about Canada, gathered in two of our largest cities. In Montreal 4,216 homes were studied, filling in all 60 city blocks, and it was found that 32 out of every 100 of them had a bathtub, and only 11 out of every 100 had hot-water plumbing; 34 out of every hundred had water closets. There were vermin of all sorts in 55 out of 100, and in 10 out of every 100 there was permanent dampness. In 9 out of every 100 rooms there was no sunlight.

And now let us turn to Ontario, where a survey was made of 1332 homes in Toronto. In that number of dwellings 175 households occupied either one or two rooms, and 999 were considered quite unfit for people to live in; 800 of the homes had no bath and 202 of them had outside privies.

During the recent campaign the C.C.F. was ridiculed in some quarters because it promised bath-tubs to farmers. That is one part of the C.C.F. program which has our wholehearted support. We want to see bath-tubs and proper plumbing in city homes, also. Cleanliness, which is said to be next to godliness, is next to impossible in thousands of Canadian homes, urban and rural.

And until we clean up the squalor which exists under our noses—for the reports from Montreal and Toronto do not mean that piggeries exist only in those cities—let us refrain from self-righteousness about the squalor of Europe.

NOTE AND COMMENT

Among other wild movement on foot, we must name the meetings of local jitterbugs.

Politics make strange bedfellows — that is to say, they all use the same bunk.

"Churches May Cut Services To Save Fuel", says a headline. What about a few hellfire sermons as a substitute for coal?

A vitamin in the B group, which is used for making TNT, will also restore the colour of grey hair. But it is not recommended for hotheads.

President Roosevelt has asked neutral nations not to give asylum to Mussolini. But what about giving Mussolini to an asylum?

Farming News and Views

By
HON. DUNCAN MARSHALL

THERE is a good deal of alarm in the United States about a food shortage in that country if the promises to ship food abroad are fulfilled. This has been a bad crop year in many parts of the country to the south, as it also has been in Canada. In the Middle West of the U.S. millions of acres of crops have been destroyed by floods. Their wheat crop will be down by from 20 to 40 per cent, and already large shipments of oats and barley have been made from Canada for feed but the feed situation is likely to grow worse towards the end of the year and to reach the peak of its shortage about February.

There is not a farmer in this country who does not remember, as a boy, that when we had a short crop and too many beasts to feed, that we had an anxious twenty-eight days in February. Many of us remember 1891 and 1892 —how the barn floors were swept for every bit of chaff which would help to nourish some cattle beast.

Conditions reached such a state in the United States that President Roosevelt removed Secretary of Agriculture Claude R. Wickard from the post of Food Administrator, and appointed Chester C. Davis in his place. Mr. Davis comes to the position with a reputation as a capable organizer, but he has come on the job rather late for this year's production.

There are twenty-five million people in the United States better able financially to indulge their appetites in beef, lamb, bacon and poultry than they have been for many years. Price ceilings were rather late in being imposed in the U.S. and the result has been, we are told, black markets to no end. Eight per cent of the Republic's production of food must go to lend-lease and 27% is required to feed the army.

We are only beginning now to find out the food difficulties of this war and we may have some very uncomfortable experiences with them. Britain has been up against this problem for three years now and has made an heroic struggle. We are so far from where the war rages that we find people very impatient when they cannot have their choice of food. They may be forced to suffer a little yet.

◇ ◇ ◇

A LIVESTOCK authority in England recently expressed the opinion that the forced reduction of breeding pigs in England by about 50% might turn out to be a blessing in disguse. An auctioneer at a pig sale expressed a similar opinion. That is because pig breeders in Britain have been careful, when reducing their stock, to carefully cull them and keep the very best type to meet the pork demand in the Old Land. Pigs are prolific breeders and it will not take very long to increase the breeding stock, and if only the best are left to breed from there is bound to be great improvement in the pig stocks of Britain.

There is a good lesson in this which all farmers should heed. These are good times to get rid of any culls you have in all kinds of meat animals on your farm. There is a demand for meat at present which will pay good prices. Later on there will be greater discrimination as to quality and then you should have the best.

◇ ◇ ◇

THE Government of Canada will have to deal in a serious manner with the fuel shortage in Canada. The demand for fuel this winter is going to exceed the supply and many people are going to live in homes with lower temperatures this winter. The cutting of wood on farms can relieve this situation to some extent. There is no labor to cut wood with cross-cut saws, but that has been a thing of the past for some time. There are days following a rain when farmers could fell a few trees and get them trimmed so that as soon as the ground freezes they can be skidded out and taken to some place near the buildings where they can be cut into stove lengths by a saw rigged for that purpose. Dead trees should be cut first but good green hardwood will burn pretty well if it is cut and piled properly. Farmers for one reason or another have burned green wood in winter quite frequently. If you have some dry wood to mix—about half and half—it makes a good fire. Numbers of people may be glad to have green wood to burn before next winter is over, and every cord farmers put up will help to keep, either themselves, or some one else warm during the cold weather of which Ontario gets a fair share.

◇ ◇ ◇

FARMERS are finding out by practical experiments at home that they get much better results from the use of commercial fertilizer if they have a fair supply of banyard litter to use in conjunction with it. If you can keep your land reasonably fertile with manure, and have the soil well supplied with humus, your results from an addition of commercial fertilizer will be much greater and infinitely better for the land than if you are trying to farm with heavy applications of chemical fertilizer. Young clover ploughed in will greatly help as it puts vegetable matter into the soil and keeps the physical condition of your land in a more productive state, but barnyard litter cannot be quite equalled. This is one of the reasons why livestock farming is all important in maintaining the fertility of your soil.

◇ ◇ ◇

THE future demand for food is indicated by the purchase, by the United States Government, of all the exportable corn from the Dominican Republic up to July 1st, 1945. The amount will not be large as the Republic only contains 12,365,000 acres. The Dominican Republic is part of the island of Hispaniola in the British West Indies, the other part of the Island is Hayti; the Island is quite close to Cuba. The Dominican Republic has a President, a Senate and a Chamber of Deputies, and has full self government. Its chief products are sugar, cocoa beans, coffee, maize (corn) tobacco, honey and starch. There is a good deal of mahogany lignum-vitae and fine furniture woods in this Republic. Do you remember in your public school days when the teacher had a black, heavy, round ruler and we were told it was made from lignum-vitae?

In the conservation and distribution of food we are going to learn some geography before we get very far into this problem. The Dominican Republic is going to become known through its food products.

◇ ◇ ◇

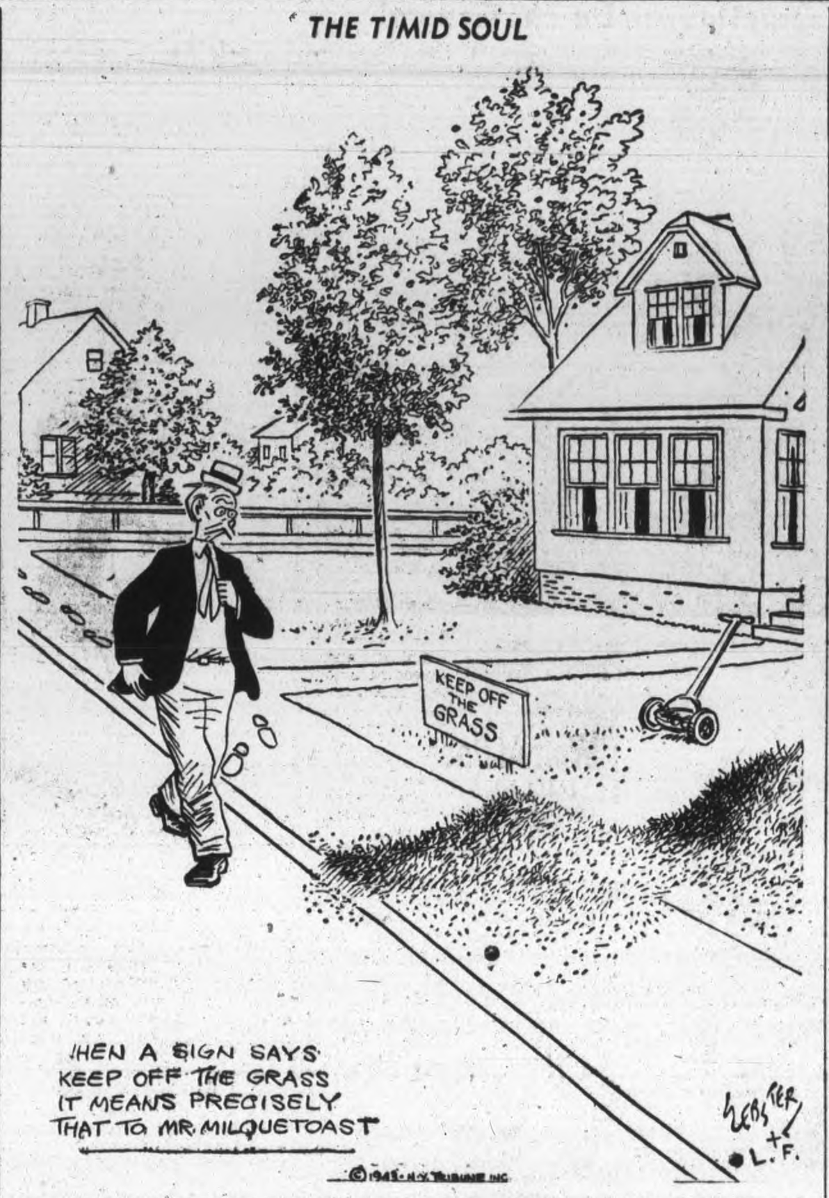
CROP prospects continue quite good on the Prairies. There is need for rain in central and southern Alberta but Northern Alberta crops are good. Saskatchewan and Manitoba are progressing favorably. Most of the wheat was headed out in July. The United States spring wheat is doing quite well, and recent hot weather has brought the corn along.

It is estimated that when this crop is harvested there will be over 400 million bushels of wheat stored on farms. This is a very large amount for farmers to take care of and it is only because of the favorable climate in Western Canada and the lack of vermin, particularly rats, that it can be taken care of at all in such quantities.

◇ ◇ ◇

WITH the amount of grass and weeds that will fill the stubble fields this year, about the only way it can be effectively dealt with will be by ploughing twice this fall. The first ploughing should be quite shallow and turned flat, then cut up with the disc and when the field has sprouted and shows green with weeds, ploughed deep so as to bury all the trash. It is well nigh impossible to tell a man how to plough. He must know what he wants and must know the "art". Good ploughing is demanded by the kind of crop season we have had. The plough is the most important implement on the farm, and care in cultivation plays a great part in the conservation of our farm fertility. We often speak of land being well-farmed. This is a very comprehensive expression and means that we have not only treated it well with fertilizer but that we have also dealt with its physical condition by cultivation so as to bring out its best efforts in crop production.

THE TIMID SOUL



Reading Is A Means, Not An End

LO, A PARABLE! A certain man, having bought a large, elaborate, and complete manual of carpentry, studied it daily with much diligence and regularity. Now there were no cupboards in his house; his dining-table consisted of an arrangement of orange boxes, and he had scarcely a chair that was not a menace to the existence of the person who sat upon it. When asked why he did not set to work, and, by applying the principles of the manual, endeavour to improve the conditions of his life and of the lives of his wife and children, he replied that he was a student, and he plunged more deeply than ever into the manual of carpentry. His friends at length definitely came to the conclusion that though he was an industrious student, he was also a hopeless fool.

By which I wish to indicate that there is no virtue in study by itself. Study is not an end, but a means. I should blush to write down such a platitude, did I not know by experience that the majority of readers constantly ignore it. The man who pores over a manual of carpentry and does naught with it is a fool. But every book is a manual of carpentry, and every man who pores over any book whatever and does naught else with it is—deserving of an abusive epithet. What is the object of reading unless something definite comes of it? You would be better advised to play billiards. Where is the sense of reading history unless you obtain from it a clearer insight into actual politics and render yourself less liable to be duped by the rhetoric of party propaganda? Where is the sense of reading morals unless your own are improved? .... Where is the sense of reading poetry or fiction unless you see more beauty, more passion, more scope for your sympathy, than you saw before?—From "Things That Have Interested Me," by Arnold Bennett. (New York: Doubleday, Doran.)

Quebec Parley May Shorten War

(By KIRKE L. SIMPSON, Associated Press War Analyst)

THE outer walls of the Axis fortress of Europe were collapsing in the east and south and its roof was newly pierced by deluges of Allied bombers on this mid-August week-end, but it is on an impending new mobilization of Canadian, British and American military braintrusters in Quebec that world attention centres.

Under personal direction of Prime Minister Churchill and President Roosevelt, top ranking Allied air, sea and ground warfare experts are gathering in Quebec to chart new war directives for the global struggle. They are set to take time by the forelock again and map new blows at the Axis while the enemy still reels back from the defeats inflicted in Russia, in Sicily and on the sea fronts.

Strategic decisions designed to lop months off the duration of the war on all fronts are to be expected. But they will be disclosed only as each new Allied slash in the mounting cumulative attack develops weeks or months later.

There are several essential factors in the war situation that tend to reveal in broad outline matters which the experts are considering. The means to achieve desired strategic ends now are available to the Allies as never before.

WAR PARALYTIC

Mediterranean victories that have made Italy in a matter of weeks an impotent, tottering war paralytic on German hands instead of a helpful ally are yet to be exploited fully. One of the latest tangible clues as to the effect of the hammering of Italy is Saturday's Rome announcement that the Italian Government had taken steps to declare Rome an open city without further delay.

Moreover, there was evidence that the Allies are winning in another phase of the war. Prime Minister Churchill and President Roosevelt announced jointly that 90 U-boats had been sunk in May, June and July and that new ships completed by the Allies in 1943 "exceed all sinkings from all causes by upwards of 3,000,000 tons." This development supplements reopening of the short Mediterranean route to the Indian Ocean and the Middle East.

That is a matter of supreme consequence for the war planners gathering in Canada. It vitally bears in the time element of what they can hope to do by cutting weeks off the period otherwise necessary to organize and deliver new and heavier blows to add to Axis misery on any front around the world.

When the strategic conference in Quebec ends, its chosen spokesman unquestionably will say, as Mr. Churchill said of the meeting three months ago, that taking enemy weight off Russia still is a prime Allied objective. The absence of Rusian leaders from the Council of War in no way alters that.

EXPECT IMMEDIATE ACTION

London commentators read into a Moscow announcement that Russians had not been invited to the parley and did not deem Russian participation necessary because of its "nature," an indication that the primary Allied purpose in the deliberations in Canada is to step up the attack on Japan. There is every reason to believe that the Indian Ocean-Pacific front will come in for concentrated attention with that in mind.

No realistic appraisal of the possibilities inherent in the Russian summer offensive, however, permits the conclusion that it will not stand foremost among the new factors with which Allied leadership is called upon to deal promptly. The Moscow statement can be more easily translated as a Russian intimation that immediate Allied action to complement the vast and menacing Red army summer assault is expected by Russia.

By implication it is a new Russian call for the opening this year of an Allied Western front against Germany. And Allied successes in Sicily, not only in the territory so quickly swept clear of the foe, but in the weaving of an international mixed force of a unity in command and staff work, makes a western invasion attempt a far less risky venture.

Germans And Hitler

In the autumn of 1929 I remarked to a German statesman that I had heard from Munich that Adolf Hitler was gaining ground. He snorted in derision. "That," he said, "is the sort of mistake that foreigners make. Hitler can never achieve a position in this country for three reasons: First, he speaks with a Bohemian accent, which makes him funny; secondly, he acted as a police spy upon his comrades, which puts the army against him; and thirdly, he showed cowardice at the time of the Ludendorff putsch, which exposes him to universal contempt. No. I can assure you of this; Hitler is impossible as an influence on German life. If you knew German better, you would see that any such idea is fantastic.—Harold Nicolson in The Spectator).

Hard To Believe How Time Flies

AUGUST 16

1913 Hottest weather of the summer hits Peterborough with the mercury climbing to 98.

S. Dickson Hall has returned from his annual buying trip in the European fashion centres.

G. A. Brethen loses a world champion Holstein cow, valued at $3,000 when the animal is the victim of sunstroke.

George Sloan is the contractor for the new May's School in North Monaghan.

Barbara Tennant, former resident of Peterborough is leading woman for the Eclair American Company.

1923 Farmers of the district are disturbed over the exodus of farm labourers to the West.

T. C. Ephgrave has been awarded the contract for the $20,000 addition to the plant of the De Laval Company.

Congregation of St. James' Church holds a reception for the new pastor, Rev. J. D. Richardson and his wife.

There were traces of frost last night with the thermometer dropping to the 40 degrees mark.

In a Central Ontario League playoff game at Belleville the Petes defeat the Grand Trunks 3 to 2 with Heckman outpitching Williams.

1933 Vernon Beavis, popular right-fielder of the Peterborough Central Ontario League ball club is dead.

John White, Belmont township, is drowned in Crowe Lake when he goes to the rescue of his wife who got into difficulties while bathing. Mrs. White was saved

It has been decided to add a fifth form to the course in the Lakefield High School.

Ward Wright of Peterborough is the principal winner at the annual Lakefield regatta.

Skip J. Skitch of Cobourg wins the Stratton Trophy in the annual Peterborough Lawn Bowling tournament.

IN WAR TIME

1918 Pte. Phillip Russell who enlisted here with the 247th Battalion has been wounded in France.

Word is received that Lieut. Vernon Armstrong has been wounded overseas.

Butter was selling at from 47 to 50 cents a pound on the market here today.

The Lakefield council is considering the advisability of buying motor-driven fire apparatus.

The Canadian Chatauqua has opened its sessions in a large tent in Central Park.

A Bible Message

And, behold, there was a man which had his hand withered. And they asked him, saying, Is it lawful to heal on the sabbath days? that they might accuse him.

And he said unto them, What man shall there be among you, that shall have one sheep, and if it fall into a pit on the sabbath day, will he not lay hold on it, and lift it out? How much then is a man better than a sheep? Wherefore it is lawful to do well on the sabbath days.

Then saith he to the man, Stretch forth thine hand. And he stretched it forth; and it was restored whole, like as the other. Then the Pharisees went out, and held a council against him, how they might destroy him.

But when Jesus knew it, he withdrew himself from thence: and great multitudes followed him, and he healed them all; and charged them that they should not make him known: that it might be fulfilled which was spoken by Esaias the prophet, saying, Behold, my servant whom I have chosen; my beloved, in whom my soul is well pleased: I will put my spirit upon him, and he shall shew judgment to the Gentiles.... A bruised reed shall he not break, and smoking flax shall he not quench, till he send forth judgment unto victory. (Matt. 12: 10-16, 20.)

Unconsidered Trifles

Ma: "I don't know what we'll ever make of Tommy—in everything he's always at the foot."

Pa: "Make a chiropodist of him."

◇ ◇ ◇

"What's the first thing you do when you clean your rifle?" asked the corporal.

"Well, sir," replied the recruit, "first I look at the number to be sure I'm not cleaning someone else's."

◇ ◇ ◇

The tender-hearted young lady was on her first fishing expedition. She watched her escort pull a healthy-looking trout out of the bubbling brook.

"But isn't it cruel?" she asked.

"Naw," replied the angler scornfully. "He likes it. Look at him wagging his tail."

◇ ◇ ◇

Macpherson took his gramophone back to the shop.

Said the assistant: "It is most unusual to have a machine returned after a year's use. What's wrong with it?"

"The needle's broken," explained Macpherson.

◇ ◇ ◇

The new customer walked into the store.

"How many chickens have you today?"

"Oh, about six, ma'am."

"Tough or tender?"

"Some are tough and some tender."

"Well, I keep boarders. Pick out three of the toughest, please."

To this unusual request, the delighted grocer complied at once, saying, "Here are tough ones."

Whereupon the customer coolly laid her hand on the others and said, "Then I'll take these."

◇ ◇ ◇

An Englishman and a Yankee were walking from Oak Point to Winnipeg and on their way they came to where a road branched off, and at the side of the road was a sign telling which road to take to reach the city and it also said that anybody that cannot read should inquire at the farm house at the other side of the road.

The Yankee laughed, but the Englishman only looked hard at the sign and said nothing about it. However, before they reached the city he started to laugh and the Yankee asked him what he was laughing about.

Between bursts of laughter the Englishman managed to gasp: "I say, what if the farm folk should be out?"

Bromley-Liddell Nuptials At All Saints'

The wedding took place in All Saints' Anglican Church on Saturday of Emil Letitia, daughter of Mr. and Mrs. Elmer Liddell, Armour road, to Herbert Bromley, eldest son of Mr. and Mrs. Herbert Bromley, Gladstone avenue. Rev. W. A. Filer performed the ceremony against a background of gladioli and ferns and Mrs. W. A. Logan presided at the organ. During the signing of the register Miss Jean Harran sang "Because."

Given in marriage by her father, the bride was charmingly attired in white brocaded sheer over satin, fashioned on princess lines with a sweetheart neckline and a long train. Tiny covered buttons fastened the bodice at the back from neck to waist. Her heart-shaped veil of white net was caught with white flowers and she carried a bouquet of dark red roses and bouvardia. Miss Ruth Liddell was her sister's bridesmaid in a floor-length gown of pink taffeta with puff sleeves and long pink mittens. She wore a cap of pink flowers, from which veiling fell to her shoulders, and carried a bouquet of pink Bettertime roses.

Mr. Alex Ellis was best man and the ushers were Mr. Kenneth Wyatt and Mr. Adam Sands.

A reception was held at the home of the bride's parents, where Mrs. Liddell received in a printed silk frock with black and white sailor hat. She was assisted by Mrs. Bromley, mother of the groom, who wore teal blue with a beige picture hat. Both wore corsages of cream and red roses.

When they left for Niagara Falls on a wedding trip, the bride was wearing a two-piece dress of romance blue with white accessories and a corsage of Bettertime roses. They will live at 523 Aymer street.

Eva F. Revoir Is Wed To Gerald Mulligan

LIFFORD LINE, Aug. 16 (ENS)—A wedding of interest to Lifford took place on Thursday August 12 in Havelock Presbyterian Church when Eva Flora Revoir, eldest daughter of Corporal and Mrs. Revoir of Havelock was united in marriage to Gerald Eugene, second son of Mr. and Mrs. Gervin Mulligan of Lifford in the presence of about forty guests as well as a host of church associates and other friends of the bride.

Wedding music was played by Mr. Keith Morden of Reaboro, a friend of the groom who was teacher of Reaboro School last year. The bride taught a school at Hastings for the last year, both bride and groom graduating from Peterborough Normal School one year ago.

The bride looked charming in a white bridal costume and veil, and wore a beautiful rope of pearls, the gift of the groom. She was attended by Miss Isobel Rutherford of Colborne, who wore a blue sheer dress with matching veil, and by two bridesmaids, Miss Jean McArthur of Campbellford, her cousin, and Miss Helen Revoir, her sister,

Mrs. Robert Parnell and Mrs. J. Thorburn were joint hostesses at a miscellaneous shower at the former's home. Her associates at Genelco presented her with a pair of crystal bedroom lamps prior to her departure.

◇ ◇ ◇

Macfarland-Harris

St. John's Church was the scene on Thursday of the wedding of Thelma Doris Lyda May, daughter of Mr. and Mrs. Charles Harris, to Pte. Wilmot Andrew Macfarland, son of Mr. and Mrs. Raudolph Macfarland. Rev. E. C. Moore officiated.

Given in marriage by her father, the bride wore a long gown of blue satin and white flowered sheer with a shoulder length veil of tulle net caught with orange blossoms, and carried a bouquet of American Beauty roses. Her sisters, Misses Patricia and Lillian Harris, were maid of honor and bridesmaid respectively. Patricia was gowned in white organdy with pink accessories and Lillian in white net over taffeta with blue accessories. Violet Harris was flower-girl in a frock of pink angel-skin. All the attendants carried bouquets of gladioli. Mr. Mark Sculy was best man and the usher was Mr. Henry Foster, cousin of the bride.

A reception was held at the home of the bride's parents, where her mother receivd in airforce blue with a black felt hat. The groom's mother, who also received, wore black facinet with a hat of black velvet. Both wore corsages of roses.

The young couple left on a trip to Fenelon Falls, the bride wearing old rose crepe with matching accessories.

Menzies-Sisson Vows Taken At All Saints

The wedding took place in All Saints' Church on Saturday of Mary Mildred, daughter of Mr. and Mrs. Cecil Sisson, to Donald McGregor, son of Mr. and Mrs. Thomas Menzies. Rev. W. A. Filer officiated and the church was decorated with gladioli, phlox and ferns. Mrs. W. Logan played the wedding music and during the signing of the register Mr. Victor Coleman sang "Because."

The bride, given in marriage by her father, looked lovely in a floor-length gown of white sheer. Her long veil was held with a coronet and she carried a bouquet of red gladioli. Mrs. Archie Menzies was matron of honor, wearing a gown of blue net with a small flower hat, and carrying a bouquet of pink gladioli. The best man was Mr. Archie Menzies and the ushers were Mr. Gordon Beavis and Mr. Newton Hamilton.

After the ceremony a reception was held at the home of the groom. The groom's mother, who also received wore a gown of rose brocaded sheer with navy accessories.

Later the bride and groom left on a wedding trip through Western Ontario.

Marjorie Boyle Marries Donald Douglas

George Street United Church, decorated with huge bouquets of gladiolus, was the scene on Saturday for the wedding of Marjorie Elma, daughter of Mrs. Dorothy F. Boyle and the late Henry J. Boyle to Donald Warren Douglas, son of Mr. Daniel Douglas and the late Mrs. Douglas. Rev. J. H. Sutcliffe officiated and Miss Lenore Skitch played the wedding music, playing "Because" during the signing of the register.

Given in marriage by her uncle, Mr. Charles Boyle of Lindsay, the bride was charming in a street-length gown of white sheer with lace insets at waist and neck and a heart-shaped veil of white net. She wore a single strand of pearls and carried a bouquet of deep red roses. She was attended by her sister, Miss Dorothy Boyle, and by Miss Frances Merritt, both of whom wore frocks of heaven blue sheer with lace peplums and bodices, Dutch caps of matching net trimmed with white lace and single strand pearl necklaces. They carried bouquets of pink gladioli tied nosegay-fashion with white ribbons.

Mr. Alex Chivas of Oshawa was best man and the ushers were LAC Charles Daering and AC2 Edward Freeman.

A reception was held at the home of the bride's mother, who received in a dress of turquoise blue crepe and black straw hat trimmed with white flowers, wearing a corsage of pink roses. Later the happy couple left on a motor trip to Toronto, the bride travelling in a two-piece cinnamon dotted crepe suit with a beige chesterfield coat and matching accessories.

bankers distrust his judgment. There is some psychic reason for it. Maybe it is what we call conscience. Anyway, it is what happens.

Woman Retaliates by Spending.

Not many men, perhaps connect their wives' bills at the shops with their grouchiness and ill-temper, but many a wife revenges herself for the cruel and insulting things her husband has said to her by going on a spending orgy. And every doctor knows that most of his best paying patients are women who have nothing the matter with them except husbands who never say a tender or loving thing to them, or do a thing to make them happy, and who are as cold and indifferent to them as they are to any of the other household gadgets that make them comfortable.

And, most of all, it pays to make a happy home for children in which they can grow up with two parents, working together in harmony, to start them on the right road in life. The men and women who do that never have to pay their youngsters out of scrapes. They save themselves not only many a dollar, but many a heartache.

SOME DAY THERE'LL BE PLENTY

● The present scarcity of the materials that go into the making of Cadbury's Dairy Milk Chocolate creates many problems. The most urgent problem is to meet the ever-increasing demand.

● Much of the Cadbury's Chocolate that used to be on the counters in Canada is now going to the members of our Forces both here and Overseas.

● We know it is harder for you to get this, your favourite chocolate, but when you do get some, you will be sure to find the same delicious Cadbury goodness that you have always enjoyed.

● We join with you in hoping the day will soon come when once again there will be plenty of Cadbury's for everyone.

SOLDIERS NOSE OUT BATTERY 5-3; GENELECS BEAT GEARMEN 16-12

Heavy Hitting Battle; 2nd Genelec Win

In a game in which the ceiling price on hits and runs was a dime a dozen Manager Ted Johnston's Genelecs took a strangehold on their semi-final City League series with Switchgear at Riverside Park Saturday afternoon by outscoring Murph Chambers' athletes 16 to 12. It put them in front two wins to none on the round.

The rival clubs slammed out a total of 35 hits, eighteen of them credited to the winners and the barrage included ten doubles, a triple and a homer. Everybody on both sides except Pitcher Ron Akers and Outfielder George Maloney of Switchgear got at least one hit. It was that kind of a game.

Twice in the early stages Switchgear fought back after being down three runs and the teams were all tied up with six runs each at the end of the fourth but from then on the winners were putting on the pressure.

Neither starting pitcher was in there at the finish. Ron Akers who opened for the winners lasted until the eighth but took a real lacing before he was finally lifted. Up to that stage the Switchgear batters had combed him for a total of 15 hits and on top of that he had issued five bases on balls. Terry Woods finished the game.

Jim Millar started for the Switchgear. He could not get the ball over for McNabb and Don Holmes the first two batters to face him but got it over too well for Jack Tucker who promptly plastered a long homer to deep left centre and three runs were in. Playford singled and Cadd doubled after that Millar finally got the side out with no more damage done. Bert Harrison went to the hill-top in the second and he too was hit hard over the rest of the route. It was certainly not a pitchers' day.

After that bad start Switchgear got a run in their half of the first on Carpenter's double and Niziol's single and came back to tie it up in the second on a single but Robertson, Harrison's triple and Carpenter's fielder's choice.

Doubles by Mowry and Cadd with a pass to Playford and an error gave Genelecs three runs in the third to take the lead again but Switchgear promptly sewed it up with a trio of markers in the fourth. Harrison singled, Carpenter walked and after Jamieson and Niziol had flied out Ashmore and Nicholls strolled forcing in Harrison and Lionel Holmes singled to left, scoring Carpenter and Ashmore.

However a couple of errors and a single by D. Holmes put Genelecs in front 7 to 6 in the fifth and they added three more in the sixth and three in the first of the seventh to make the total 13 to 6. Switchgear got two in their half of the seventh to cut down the gap slightly but Genelecs opened the eighth with a pair of counters.

SPORTS – DAY BY DAY

By FRED D. CRAIG

With Aircraft and Westclox hooking up at the Bowl tonight in the third game of their senior Girls' Softball League playoffs there will undoubtedly be an old-time crowd out to see the battle. The two rivals have staged some thrilling battles this season and with the Big Bens out in front of the series with two wins and no losses there should be plenty of excitement in this important clash. Aircraft will have to come through tonight or find themselves faced with the task of taking four games in a row from the league leaders. They will be out there with the strongest lineup possible, battling for a victory that will put them back in the running. On the other hand Pat Hayden's team are anxious to get a firm grip on the series and they, too, will be fighting all the way for a win. Neither club has announced its pitching choice for tonight but the crystal ball seems to indicate that Norma Strickland will get the call for the Aircraft with Marg Selkirk in reserve and that the Westclockers will follow their usual custom of opening with Marg Watson on the firing lineup with Isobel Bullock ready to take over the pitching duties if her services should be needed. The fourth game of the series is slated for Wednesday night.

* * * * * *

The City League trail is dangerously near to an end so far as the 4th Battery and the Switchgear clubs are concerned. Both of them find themselves in the tough spot of being two down in the best-of-five sami-final playoff rounds and both have to win three games in a row against tough opposition to keep their chances alive. The Switchgear players, outslugged in a knock-em-down and drag-em-out battle with Genelecs Saturday in a game that saw 28 runs scored and 35 hits made before the league leaders won 16 to 12, have their last chance tonight when the third game of the round will be staged. Switchgear have to come through with a win or hang up their sweatshirts for the season. Manager Chambers has not decided just what pitcher will start this all-important tussle. As for Genelecs it is probable that Terry Woods who finished Saturday's argument after Ronnie Akers had run into heavy weather will get the assignment. Genelecs who have not been beaten in ten City League starts are hoping to wind up the series and sail into the final round on the strength of three straight wins. They say they got a bad game out of their systems Saturday and still had enough power to win and predict that they will return to form tonight and end the argument. The game is called for 6.45 o'clock.

* * * * * *

Should Be A Record

If anything were needed to ensure the success of tomorrow night's Shrimp McDougall benefit game between the Military Training Centre club and the 4th Battery it has been supplied by Saturday night's peppery game between the two clubs; voted by the fans as one of the best of the season. With the Soldiers well out in front in the best-of-five series the Battery is faced with the task of having to win Tuesday night to stay in the running and that is a situation that makes the game stand out as one of the highlights of the campaign. The Gunners have apparently struck a hitting slump at the worst possible time for in the last two playoff games they have been held by Tom Parsons and Jack Wilson to the meagre total of five hits, two Thursday and three in the Saturday game, a total that just about equalled the rate at which Eddie Starr himself was powdering the pill over most of the schedule. The Battery players claim that they will dig up some of their usual power Tuesday night and will prolong the series. It should be a whale of a ball game and with all the proceeds going to the family of Shrimp McDougall who is in a serious condition in hospital. The City League executive are confident that not only the regular softball fans but the sporting fraternity generally will be on hand to set up a record crowd and build up a gate that will be a real help. Shrimp McDougall has done a lot for sport here and this is a chance for the community to respond.

* * * * * *

The biggest question tonight in regard to Frank Tunney's weekly wrestling show at Brock St. Summer Gardens is whether Earl McCready can keep away from the punishing chin-lock hold favored by John Katan. If he can, local fans expect to see him take the Palermo Panther readily for they figure that the Aurora grappler is a better all-round wrestler than Katan and that his power, knowledge of the art and greater speed will enable him to demonstrate his superiority by giving him two falls within the ninety-minute time limit. Katan's "unconscious" hold however is a dangerous bit of wrestling strategy. He used it effectively the other night against McCready here and incidentally it was just as successful against Wild Bill Longson, world champion, in a recent bout. The title-holder did not like the grip a little bit. The general complaint is that Katan instead of keeping the pressure on the chin, a legitimate hold, slyly slips it down lower and turns it into a strangle. However, if the Panther has been guilty of that kind of stuff he has been smooth enough with it to fool the referees. Tonight's bout should be one of the toughest staged here this summer, and will pack in the customers. The supporting card will be lively. We have an idea that Ali Adali, the Turkish grappler is in for a rough passage when he hooks up with Housepainter Hogan, whose wrestling technique is skulduggery at its worst and who will undoubtedly trot out his meanest stuff for the benefit of the Turk. As for the Pat Flanagan-Joe Maich bout that speaks for itself. Those boys can move but quickly and there should be no dull moments when they are in action.

* * * * * *

They're Getting Distance

For some reason or other the long-ball hitters in the big leagues have been coming more prominently to the fore recently. For a long while it looked as if 25 homers would be ample to win the home-run record for the year. Now it will take 30 at least judging by the pace that is being set by Rudy York who in the first game of a double-header yesterday smashed out two circuit clouts to run his total for the season up to 28. At the rate he is going York might easily run his total well over the 30 mark. Other sluggers are teeing off with considerable success, too. Stan Musial of the Cards came through with a pair yesterday, his third in two days, Charlie Keller of the New York Yanks who was picked as the likely home-run champ came through with his 19th in a game against the Chicago White Sox. Bill Nicholson of the Chicago Cubs, cuffed his 17th circuit clout. Bobby Doerr, hard-hitting second baseman of the Boston Red Sox pickled one of Denny Galehouse's best pitches for a round-tripper Sunday, his 13th of the season and Nick Etten hammered No. 11 Saturday to help the Yanks defeat St. Louis 2 to 1.

* * * * * *

Outside of these long-distance smashes baseball in the big leagues over the week-end produced little out of the ordinary. True Rip Sewell of the Pittsburg Pirates came a step closer to the 20-win mark when he nicked his 18th triumph with a four-hitter as the Corsairs swamped the Boston Braves 11 to 1. Another feature was the fact that after winning seven straight the Phillies ran into two double defeats over the week-end. They were beaten 8 to 2 and 2 to 1 by the Pirates on Saturday and the Chicago Cubs hit them twice in the same place with scores of 5 to 2 and 3 to 0 Sunday. Bithorn pitched the first game for the Cubs, grabbing off his 15th win of the year and Paul Derringer tossed the shutout effort. In the American League Tommy Bridges of the Detroit Tigers bobbed up with a six-hitter to beat the Philadelphia A's and cop his tenth win of the season, as against three losses. Bridges cannot work as often as he used to but given his proper rest between games, he is still a decidedly useful performer.

Sporting Chili Con Carne: There was considerable jockeying between the two clubs in Saturday night's game and the harmony was not

(Continued on Page 10)

Wilson Pitches Smart Game For Camp Team

Military Training Centre ball club made it two straight in their City League semi-final playoff series with 4th Battery at Riverside Park Saturday night when they nosed out the Gunners in a tight and interesting battle by 5 to 3. Soldiers now need only one more win to eliminate the Battery and go into tre league finals. The two clubs meet again Tuesday night and the game has been set apart as a benefit for Shrimp McDougall, Peterborough hockey player who is seriously ill.

When the Camp club defeated the Battery Thursday night Tom Parsons limited the artillerymen to two hits. Fireball Jack Wilson did almost as well Saturday night, holding the Battery to three safe blows. The Soldier pitcher was inclined to be wild passing seven batters but he was effective in the pinches.

Dave Wilson for the Gunners came up with a fine brand of pitching too, holding the Soldiers to seven singles and only once did they get more than one in any one inning. Wilson, however, was the victim of a bad break in the second frame when the winners scored four unearned runs after two batters were out, a costly error paving the way for the big frame that meant the ball game. The winners were held to one run after that but the damage had been done for Jack Wilson refused to allow the Gunners much leeway.

It was a good exhibition all the way with both clubs turning in some smart fielding, although there was no particular spectacular defensive play.

Soldiers salted the game away in second. McIlveen struck out to start with but Anderson drew a pass. Mason flied to Joe Stewart for the second out. Herrick however singled to centre and Mortimer walked, filling the bases. When Wilson dumped a harmless-looking roller to third the Battery looked to be out of the hole but the bounder got away from Vitarelli and also rolled past Heal into left. Anderson and Herrick registered on the error. Then Starr loafed on a short passed ball and Mortimer dashed home with another run. Dalton beat out a bunt and Wilson carried the fourth run of the frame over. Morgan popped to Starr to end the big inning.

The Battery got one back in the first of the fourth. With one out Honey Tompkins walked, went to second on a wild pitch and ran to third while McKerrigan was tossing out Burton. Starr cut a single past Dalton to score Tompkins. Stewart got a life when McKerrigan dropped his high popper but Foster was retired on strikes.

Soldiers evened that one up in thei half. Herrick drew a pass, went to second on Mortimer's secrifice bunt, moved to third when Tompkins was tossing out Wilson and came home when Dalton beat out a high bounder to Tompkins. Morgan walked but McKerrigan drove a fly to Stewart.

The Gunners made it 5 to 2 by scoring a run in the fifth. With one out Vitarelli and Wilson walked. Heal flied to Morgan but Tompkins cut a single through Anderson, scoring Vitarelli from second. Burton got a pass filling the bases but Eddie Starr's best was a tap to Dalton who stepped on third to force Tompkins.

Battery came back with the last run of the game in the sixth. A pass to Foster with one out started things. Ellis forced Foster on a roller to McKerrigan but Vitarelli walked, and Wilson dropped a single into centre, scoring Ellis. Heal flied to Morgan to end the inning.

(Continued on Page 10)

PUBLIC CALLED ON

WARMINSTER, England (CP). — Domestic staff difficulties at Warminster hospital made it necessary to make a public appeal to town residents to undertake part-time service to enable the institution to carry on.

Here and There in Sport

By The Canadian Press

Joe Krol, Windsor, London and Hamilton athlete, will shift his team sport activities, having signed a pro contract to play football with the Detroit Lions in the National Football League, coached by Charles E. (Gus) Dorais, former mentor of University of Detroit squads.

One of the outstanding team athletes of wartime Canada, Krol made his early mark as an interscholastic gridder at Windsor, later graduating to the Mustangs of the University of Western Ontario to figure on the latest intercollegiate senior championship team in 1939. Later, he migrated to Hamilton and recently had been playing baseball with the Hamilton Co-ops who were beaten in the National Congress tourney week before last. He has departed from this team to prepare for his pro career. Meanwhile, Tony Golab took similar steps from Windsor to Sarnia and thence to Ottawa Rough Riders after which he enlisted in the R.C.A.F., becoming a pilot, and is now in the overseas theatre of war.

Krol is adept at basketball and made his mark with the Western Mustangs in the college court game but his first love is football in which he is an effective broken-field runner and forward passer. He played the U.S. code at Windsor.

Long Shot

In a field day for long shots at Saratoga's transplanted meeting on Belmont track, New York, Saturday, Mrs. Barclay Douglas' entry, Eurasian, copped the 74th running of the Traves Stakes, oldest horse racing fixture in the U.S., the colt paying $15.20 for $2.

Dorothy Germain, 19, of Philadelphia, captured the women's western amateur golf title at Evanston, Ill., Saturday, defeating Mary Agnes Wall of Menominee, Mich., 5 and 4, over the 36-hole route. Miss Germain was the first eastern to win the event in 43 years.

Joe Kelley Dies

Joe Kelley of Baltimore, once renowned in the Canadian end of organzied baseball as manager of the Toronto Leafs, died at his home Saturday night after a year's illness. His fame as an outfielder started with the old Baltimore Orioles along with John McGraw, Wee Willie Keeler and Hughey Jennings.

With war workers and members of the armed forces banned from playing unless stationed in Scotland, the Scottish soccer season was featured by upsets in league openings Saturday, some of the clubs finding it necessary to do without their guest stars of last year. The same situation is expected to develop in the English League which opens Aug. 28.

Cops Are Licked

Baseball greats attended the Old Timers vs. Police ball game at London, Ont., to thrill the crowd of 4,000, the feature guest being Connie Mack, 81-year-old president of the Philadelphia Athletics who addressed the fans. Former diamond stars present included Honus Wagner of the Pittsburgh Pirates and George (Money) Gibson of London. The Coppers were licked 15-5.

A member of Canada's last Olympic team, Mrs. Gordon Kerr of Winnipeg Saturday won the Women's Western Canada Wrigley mile swim at Saskatoon, covering the distance in 17 minutes 58 2-5 seconds. Doug Lemin of Edmonton took the men's mile.

Sports Menu

TONIGHT, AUGUST 16

Men's City League:

Genelecs vs. Switchgear, Riverside Park, 6:45 o'clock. Semi-final playoff.

Ladies' League:

Aircraft vs. Westclox, East City Bowl, 6:45 o'clock. Final playoffs.

Wrestling:

Earl McCready vs. John Katan, 8:45 o'clock, Brock Street Rink. Two other bouts.

TUESDAY, AUGUST 17

Men's City League:

Soldiers vs. Battery, Riverside Park, 6:45 o'clock. Semi-final playoff. Entire proceeds of gate go to Shrimp McDougall benefit fund.

Athlete Scores

LONDON — (CP Cable). — FO. Frank Hanton of Kenora, Ont., scored a "goal" and a couple of "assists" on Saturday night during an R.C.A.F. sweep over Rennes, France. Hanton, wingman of the Kenora Thistles, Memorial Cup hockey finalists in 1940, shot down an ME-110 and damaged another Nazi plane and a locomotive in one trip.

Ecuadorean Wins

RYE, N.Y., — (AP). —Francisco Segura of Ecuador, now a college student in the States, won the Eastern National Grass Courts Tennis title yesterday in straight sets by defeating Lieut. J. R. Hunt of the U.S. Navy. Margaret Osborne of San Francisco won the women's title by defeating Doris Hart of Miami in two sets.

Hockey Moguls Change Passing Rule

TORONTO, Aug. 16.— A major change in playing rules was adopted at a joint rules committee meeting of the National Hockey League and the Canadian Amateur Hockey Association here Saturday.

The new rule permits the defending team to make forward passes to centre ice without incurring an offside penalty. A red line two inches wide, to be known as the "centre line" will be drawn across the rink at centre ice to indicate the new zone. All other markings on the ice remain the same as last year.

Ease "Icing" Plays.

In the event an attempted pass from a defending player to another player on the same side at the "centre line" goes beyond the red penalty shot line, it will not be considered icing the puck and play will continue.

Other minor changes were made in clarifying playing rules and they will be released when adopted by both associations. The C.A.H.A. has approved them and they will be presented to the N.H.L. Board of Governors at the next meeting.

Text of the new rule follows:

In marking a hockey rink a new red line two inches wide to be known as the "centre line" will be drawn across the rink at centre ice and that the defending team be permitted to make forward passes to this new line without incurring an offside penalty.

Up to Linesman

If in the opinion of the linesman an attempted pass is made by a defending player to the "centre line" to another player of the same side, and the puck shall go beyond the red penalty shot line, it shall not be considered as "icing" the puck and play shall continue.

All other markings as of last year will remain.

Art Ross of Boston presided at the meeting and other N.H.L. representatives were: Frank Boucher, New York; Clarence (Hap) Day, Toronto, and Jack Adams, Detroit. The C.A.H.A. was represented by W. A. Hewitt, Toronto; A. Therier, Montreal; E. V. Johnson, Winnipeg and Arthur Sargent, Port Arthur.

LIFTING THE LEVEL OF LIVING

THE luxuries of yesteryear are commonplace today. Through past years Canadian manufacturers have done two things consistently, with the aid of bank financing. They have steadily improved their products and decreased their prices . . . at the same time raising the general level of wages . . . to put better living within the means of ever more Canadians. War disrupts this process . . . but after Victory it will go on, with this Bank contributing to such progress its essential financial services.

RIP SEWELL GETS 18th WIN BEATING BRAVES 11-1 IN DOUBLE BILL

Canadian Sport Snapshots

By CHARLES EDWARDS
Canadian Press Staff Writer

TORONTO, Aug. 16—(CP)—Now the football shoe is on the other hoof. Detroit Loins of the National Football League are definitely in the market for Canadian grid talent. Manager Gus Dorais got a disappointment when he learned Paul Rowe, the former Calgary backfield ace, is in the army now but he has strings out for a couple of other Canadian stars. Joe Burns of the Windsor Star says Dorais is interested in Joe Krol, former Western University and Hamilton backfield whiz, and Les Lear, shifty lineman of Winnipeg Blue Bombers. Burns says Krol has indicated a willingness to listen.

Scurr-ilous:

Doug Scurr of the Chatham News looks gloomily at prospects for the next National Hockey League season. He figures the manpower shortage will put N.H.L. hockey definitely below the service brand in entertainment value and he reasons: "Wouldn't you rather see a game with a number of N.H.L. stars of the past few years participating under Army, Navy or Air Force colors than watch a bunch of juveniles and juniors mixed with some veterans substitute shinny for the real thing?"

Incidentally:

Even service hockey may find the going tough next winter. Dave Dryburgh of the Regina Leader-Post says "it looks like curtains for senior hockey in Saskatchewan for the duration and the next move will be up to the juniors. They have waited patiently for this day and are primed to swing in with a Regina-Moose Jaw-Saskatoon circuit. With no senior opposition, the kids can't miss next winter." Dave's comments signal break-up of that powerful Regina Army team of last winter led by Murray Armstrong and Don Metz.

The Sport Chute:

Hockey has disappeared for the duration in Peterborough, Ont., where the 40-year-old Brock Street rink has been sold for $20,000 for use as an all-season dance pavilion. While the rink has outlived its usefulness Peterborough fans regret the passing of "the old ice box" where many great hockey players showed in action... After the war Peterborough hopes to build a modern rink and ice plant... Big Bunny Wadsworth is expected to try a football comeback this season with Ottawa Combines after a year's absence from the game... A bulwark of those great Moncton Hawks hockey teams of a decade ago, Len Burrage is back in Moncton looking for employment.

AGING TOO FAST

EXETER, England — (CP). — Because girls of 15 are painting their faces and acting like adult women, the Exeter Standing conference of Women's Organizations has demanded women police patrols to guard their moral welfare.

Big Ed Klieman Chalks Up 20th Victory

By the Associated Press.

Apparently all Ed Klieman, Baltimore's competent pitcher, needed to win his 20th International League game of the season was the knowledge he would be given a trial in the big leagues next spring.

Repulsed twice for the elusive 20th game after having chalked up his first 19 while losing only four, Klieman came through yesterday ith a five-hit, 3-2 verdict over Buffalo only a few days after Cleveland had expressed its desire to look at the youngster in 1944.

Buffalo took the first game of the double-header 6-1.

In the day's other games, Rochester and Jersey City divided as did Newark and Montreal, while Syracuse scored four times in the first frame of its single contest with Toronto for a 4-3 verdict.

Lajeskie Starts.

The Rochester-Jersey City games were a "hello and good-bye" affair with Eddie Mack playing his final games for the Red Birds before reporting to Columbus of the American Association and Dick Lajeskie, 17-year-old $10,000 shortstop, making his debut with the Little Giants.

Mack has been traded for Jack Sturdy, scheduled to report tonight.

The Jerseys were checked in the first 9-3, the defeat being the 17th of the season for Bill Voiselle. In the nightcap, however, they hammered a quartette of pitchers for 15 hits and a 14-5 triumph.

Ed Levy was the hero of the Montreal-Newark battles, getting three blows as the Bears garnered the first game 8-4, and getting his team's entire collection of hits as the Royals won 1-0, behind Bob Chipman's brilliant pitching in the second game.

Double-header sweeps featured Saturday's play. Jersey City won a pair from Montreal, 3-1 and 3-0, Baltimore landed on the league-leading Leafs 4-3 and 4-1, Newark walloped Rochester 6-2 and 10-5, and Syracuse took the measure of Buffalo 2-1 and 7-5.

Detroit Trims Athletics In Two Games

By TED MEIER
Associated Press Sports Writer

The ending of Rip Sewell's two game losing streak and the booming home run bat of Rudy York supplied the headlines for the major leagues yesterday.

After losing two in a row to the Cardinals and the Phillies, Sewell finally won his 18th game for Pittsburgh by beating the Braves, 11 to 1, and gaves the Pirates a split of a twin bill. He yielded only four hits and also banged out two hits and stole two bases.

The Braves knocked the Pirates out of a second place tie with Cincinnati by taking the opener, 5-1 for Jim Tobin's 10th victory.

York Gets Two Homers

York connected for two homers—his 22nd and 23rd—as Detroit beat Philadelphia Athletics twice 5-4 and 3-2. He now has clouted 10 homers during August and needs only nine more to set a major league record for the most in one month.

Cincinnati beat the Giants twice 5-4 and 6-5, to take undisputed possession of second place. A ninth inning double by Bert Haas won the opener. Lonnie Frey's sixth inning single drove in the deciding tally in the nightcap.

Charley Keller's 19th homer and Joe Gordon's two-run triple helped New York Yankees wallop Chicago hite Sox, 7-2, for Ernie Bonham's 11th victory. But the Sox got a split by taking the nightcap, 4-3, on successive homers by Joe Kuhel and Vince Castino in the seventh inning.

Dodgers Lose.

With Stan Musial and Ray Sanders each smacking two homers St. Louis Cardinals walloped Brooklyn, 11-3, for the eighth straight time in the first game of their second bargain bill, but the Dodgers broke the spell by winning the second game, 4-3, in 10 innings.

Cleveland ran its winning streak to eighth by beating Washington, 6-2, behind Vern Kennedy's six-hit twirling, but the Senators abruptly ended the streak by winning the second game 4-0, as Milt Haefner came up with a six-hit shutout.

Chicago Cubs dropped the Phillies to seventh place by winning a double-header, 5-2 and 3-0. Hi Bithorn chalked up his 15th win in the opener.

Boston Red Sox swept their twin bill from St. Louis Browns, 3-2 and 4-0. Bobby Doerr's 14th homer helped win the opener.

Saturday's play saw some lopsided scores in the National League. St. Louis trimmed New York 11-1, but in the second game New York lost 8-0. Cincinnati took a double-header from Brooklyn 9-2 and 4-3, while Boston won over Chicago, 3-2. Pittsburg took both ends of a double-header from Philadelphia 8-2, and 2-1.

In the American League Cleveland trimmed Philadelphia 12-9. New York was edged by St. Louis 2-1 while Philadelphia took Detroit, 7-4 and Chicago blanked Boston 2-0.

The Sports Round-Up

By SID FEDER—(Pinch-Hitting For Hugh Fullerton)
Associated Press Sports Writer

Alsab isn't just about washed up, then neither are the shirts you're sending to the laundry today... His "great ruch" in the King Philip at Narragansett Saturday—against a set of strictly sprinters—carried him all the way from 8½ lengths back at the head of the stretch to 7½ at the wire.

Scatter-Shot

The Yankees have now played 74 straight games without running into that military secret you carry an umbrella for... Which comes close to being a record... After bidding in that Blenheim colt for $66,000 at the Kentucky yearling sales last week, Bill Helis, the Louisiana oil man, told pals he was ready to go to $166,000 to get him... And Mrs. E. Graham Lewis (Elizabeth Arden of the face creams), bidding against Helis, had to be flagged down by her agent—because she was all set to hit the 100 G's mark if she had to... If the United States Navy doesn't give Ensign Ted Schroeder leave to play in the tennis nationals, don't be surprised if Francisco Segura's top threat turns out to be Bob Falkenburg, the new national junior champ from California.

Dis-a and Dat-a

See where they arrested a guy in Philadelphia yesterday on a charge of stealing all the Phillies' bats from the clubhouse... What's wrong with that?—do the Phils know how to use 'em?... Don Ameche stopped off in Lexington, Ky., to buy two racehoss yearlings—one a colt by Bimlech, the other out of Lady Peace, mama of Miss Keeneland, one of this season's two-year-old filly stars ... Kicked in $4,000 for the second game.

Alsab Slips

PAWTUCKET, R.I. — (AP). — Alsab, heavily favored in the betting, failed to live up to his reputation in the $5,000 King Philip handicap at Narragansett Pier on Saturday, finishing fourth in the mile and one-sixteenth race which was won by Some Chance, owned by A. S. Hewitt.

Earl Picked To Win Over Katan

Can Earl McCready flatten John Katan in their big mat struggle which goes on at the Brock Arena tonight, over the extended time limit of ninety minutes? That's the big question that will be answered only when these two big superbly conditioned athletts have heaved and thrown each other in and out of the ring until one or other admits his opponent is the better man.

On the record of their last bout McCready might have a slight edge, but the unpredictable Katan is such a wild man at times and also is such a master opportunist that the scales may stay remarkably balanced at least for the first fifty or sixty minutes. After that many fans believe that Earl McCready's superb science and power will wear the Palermo Panther down and eventually conquer him. Adding half an hour to the hour time limit may not sound like a great deal longer, but when an athlete has given everything he has for sixty minutes, the addition of ten or even five more minutes is often too much for him. Considering the great wrestling abilities of both Katan and McCready, a great match should ensue.

Ali Adali, the current edition of the Terrible Turk, will wrestle in the semi-final. That is he will wrestle if Dick Hogan will let him. Hogan would rather make all his bouts a real rough-house. What will undoubtedly be the fastest, cleanest match on the card will be the return meet between Joe Maich and Pat Flanagan. These two are crowd pleasers of the first water and never fail to thrill the fans wherever they wrestle.

Open Partridge Season

QUEBEC, Aug. 16 — (CP).—An order-in-council recently signed by the Lieutenant-Governor, setting aside restrictions on partridge hunting in the Province of Quebec during the coming fall, appeared in yesterday's issue of the Quebec official Gazette.

The regulations permit hunting of Spruce and Birch partridge between Sept. 18 and Nov. 22, 1943.

Prince Stalls

DETROIT — (AP). — Henry (Prince) Oana, Hawaiian hurler of the Detroit Tigers, did not leave last night to rejoin Milwaukee of the American Association, as ordered by Commissioner K. M. Landis, and declared he needed some dental work here, after which he would go fishing. Landis had ruled he was still the property of the Brewers.

Coffee Shortage Due To Packing Trouble

PHILADELPHIA, Aug. 16 — Coffee has run into another bottleneck on its way to the breakfast table—a scarcity of containers.

There's plenty of coffee in the country: a normal four-months supply, or 450 million pounds of green coffee, is on hand. Ration coupons no longer get in the way. But the coffee roasters can't get enough of the proper kind of containers to fill up grocers' shelves.

Tin can't be had because all available is needed for munitions and essential war goods. Tin cans are considered the most satisfactory package for coffee, because the ground bean, vacuum-packed in airtight tin containers may hold its strength and aroma for a year.

Next choice is glass. But there aren't glass jars enough to hold all the coffee the Americans would like to buy. Coffee distributors currently are restricted in use of glass containers, to 65 per per cent of last year's use for four-months' period, from July to October. This limitation was put on coffee in order to release sufficient glass jars for the canning of fruits and vegetables, by commercial food processors as well as home canners.

Even the use of glass slows up the process of getting coffee from the roaster to the retail dealer. The production line pack coffee in glass containers at only about one-third the speed with which it can be packaged in tin cans. The operation is further slowed because the pressed-paper caps have to be sealed on the glass jars with adhesive tape applied by hand.

Paper bags, not too plentiful anyway, are no lasting help. The grocers don't like them because they are so easily damaged in handling and because they let in air and moisture and speed up the loss of strength and flavor.

Famous P.P.C.L.I.'s Patrolling

Two of a patrol of Canada's famous Princess Patricia's Light Infantry crouch behind the covering wall of a building as they seek enemy stragglers in the captured village of Agira, Sicily, which was taken after prolonged and bloody street fighting.

ROYAL CHAUFFEUR

ADDLESTON, England — (CP). —Driver T. Thomas of this Surrey village wrote his wife from the Middle East that he'd had the "time of my life." He drove the King 130 miles in one day during his recent visit.

8th Army

Continued from Page 1

munique said, and attacked the retreating enemy in the Messina area throughout the day and night.

Small craft carrying fleeing Axis troops across the Strait of Messina were bombed and shot by daring fighter-bombers in a steady series of attacks.

Medium bombers spanned the narrow channel to smack railway installations at Sapri and Sibari and hinder the progress of the Axis evacuation. A considerable quantity of rolling stock was reported destroyed and a large fire started.

Raid Viterbo.

Striking still farther from the scene of battle, Allied bombers attacked railway communications south of Rome last night, railway yards at Viterbo in Central Italy, and on the seaplane base at Lake Bracciano, above Rome.

American forces, tearing along the north coast, sped 14 miles and captured Oliveri, only 27½ miles from Messina, Headquarters said yesterday.

The Allied bomb safety line dividing enemy territory from that into which friendly forces are pushing was extended meanwhile to a point north of Taormina.

From there the line ran northwest to Francavilla and north to San Marina on the coast.

The fliers also reported seeing Allied truck convoys on the road 10 miles east of Randazzo and a sizable number of enemy vehicles going eastward on the lateral highway 20 miles to the north.

All other Axis traffic observed, they said, was retreating.

MORE ABOUT—

Reds Capture

Continued from Page 1

Spas Demensk sector other Rus- troops pushed ahead in their drive to cut the Bryansk - Smolensk railroad, the Russians said.

Serves Two Purposes

The operation would serve the dual purpose of threatening Smolensk, one of the Germans' western most bases in Russia, and to exert additional pressure on the Nazi garrison at Bryansk. The wedge driving down from Spas Demensk is aimed at Roslavl, 56 miles southeast.

The Russians said the Spas Demensk area was heavily defended by the Nazis who had prepared "all-round" defences around many of the villages which included trenches, barbed wire entanglements and extensive mine fields. Bitter fighting took place in the vicinity of the town of Berkovichi the Russians said, with many Germans being killed.

According to the Russian communique the Germans have thrown extensive reserves and armored forces into an effort to hold on to the beleaguered city of Kharkov. Although the encirclement of the great base — held briefly by the Russians after the German retreat from Stalingrad early this year—is almost complete progress in the last two days has been extremely slow.

MORE ABOUT—

Declare Rome

Continued from Page 1

city is almost incapable of satisfactory definition.

"Second, because this difficulty becomes much greater in the case of a city which like Rome at the moment is not under threat of military occupation but merely seeking immunity from air bombardment.

"Third, because in any case with every day that passes there is increasing reason to doubt the good faith of the Badoglio government."

MORE ABOUT—

Double Drowning

Continued from Page 1

Early Sunday afternoon Miss Adlam accompanied Jordan on a fishing trip to Routley's Bay, about a mile west of the Landing. They set out in a rowing canoe, that is a canoe propelled by oars. There was a strong wind blowing but the locality where they proposed to fish was well sheltered by a number of islands.

Around 6 o'clock Dr. H. P. Rogers of Toronto noticed an over-turned canoe near the Davis island. Investigaiton and inquiry revealed the fact that the boat belonged to Wm. Pearl and that it had been taken out earlier in the afternoon by Jordan and and Miss Adlam. A search of the neighborhood soon led to the discovery of the body of Miss Adlam in shallow water near the shore of the Davis island. The indications were that she had managed to swim to shore after the canoe had in some manner over-turned and that before she could pull herself out she had fallen exhausted back into the water with her face down and drowned in that way.

Soon after the finding of Miss Adlam, Gordon Crowe, Sergt. S. R. Sherin and Wm. Pearl located the body of Jordan in 12 feet of water, 30 feet from the Davis island.

Dr. Rogers and Dr. C. B. Parker, a member of the staff of the Toronto General Hospital, worked for some time trying to revive the two, particularly Miss Adlam but their efforts were unsuccessful.

Just what caused the accident will probably never be known. There are numerous cottages in close proximity to the scene of the drowning but nobody apparently saw or heard anything unusual and it was until Dr. Rogers spotted the canoe that the accident was revealed. Miss Adlam's wrist watch had stopped at 4.15 o'clock.

This was the first drowning in Stoney Lake for several summers and the first in the immediate vicinity of McCracken's Landing for many years.

Italians Leave Milan

NEW YORK, Aug. 16 —(AP). — The B.B.C. yesterday quoted a Rome radio domestic broadcast as saying that details have been completed by the prefect of Milar for the evacuation of that city which was hit heavily by the R.A.F.

Arrives In England

Mrs. Fred Clarkson, who lives at the corner of Park and McKellar Streets, has received word that her husband, who is with a tank regiment, has arrived in England. He enlisted in June, 1942, and trained at Cornwall and Camp Borden, and had previously had a milk route in Peterborough. He is the son of Jack Clarkson of Lang.

No Shotgun Shells

OTTAWA, Aug. 16 (CP).—Police Board officials said yesterday that some wholesalers and manufacturers may have supplies of shotgun shells at the moment, but prospects are there will be enough only for essential users, and it was doubtful if there would be ammunition for sporting purposes.

MORE ABOUT—

Resume Talks

Continued from Page 1

company him. In this case Mr. Welles might come here with the President.

The work to be handled at the Quebec conference of the two democratic leaders remains largely a matter of speculation for there has been little in the terse official communiques on the subject. But there is a general expectation that decisions of the meeting will relate to at least five parts of the war and post-war picture:

1—Additional, stronger combined assaults against the enemy in Europe and in the Pacific area;

2—A revision of the "unconditional surrender" terms of the United Nations, clarifying the bases on which capitulating countries may hope to deal with the Allies;

3—Methods of re-establishing civil government in areas brought under Allied control;

French Position

4—A decision on the official position of the French Committee for National Liberation which has as its leaders Gen. Charles de Gaulle and Gen. Henri Giraud;

5—Some exposition of the war aims of the United Nations, more specific than the generalized terms of the Atlantic Charter, signed just two years ago.

Before Mr. Roosevelt arrives, it was anticipated, Mr. Churchill and Mr. King will renew discussions begun last week after the British prime minister first arrived here Tuesday. The subject of these talks —like the doings of the main conference—have been kept secret but it has been considered likely the role of the Canadian armed forces in future offensives, and particularly the role of the army, has been discussed.

Mr. Churchill's special train arrived from Hyde Park yesterday morning. In contrast with the secrecy of his first arrival when he was taken secretly to the Citadel by motor, a crowd of correspondents and cameramen met him.

Obituary

WILLIAM JAMES GRANT

William James Grant of Chemong Road died at his residence on Sunday after an illness of two weeks. He was in his 80th year.

Born on the homestead the son of the late Andrew Grant and Catherine Fowler, he lived in this district all his life. He was a member of St. Paul's Presbyterian Church and of the Canadian Order of Foresters, Court Chemong. His wife, Emeline Blewett, died in 1924.

He leaves to mourn his loss two daughters and three sons: Mrs. Carl Archer of the Lindsay Highway, Mrs. Percy Crumey of Oshawa, Clare of Toronto, and Harry and Stanley at home.

The funeral will be held on Tuesday at 2:30 p.m. from the late residence, Chemong Road, with Dr. J. D. Smart conducting the service. Interment in Little Lake Cemetery.

WEEKLY WARTIME NUTRITION HINTS

Martha Logan, Swift's famed home economist, whose weekly, wartime cooking column is a regular feature of this page. Look for these valuable hints each Monday
by Martha Logan

Beefsteak and Kidney Pie

A nutritionally valuable dish you can prepare the day before and complete in 30 minutes the next day

Busy wartime housewives are coming more and more to ask for recipes that permit pre-preparation. It's a great comfort to know—when you come home late from the Red Cross, for instance—that there is a savoury beefsteak and kidney pie all ready to pop into the oven. While it cooks you can fix your face, change your dress and set the table. It would be nice, if you had a little extra time, to have a hot leafy green vegetable to go with it: but if this is impossible, a green salad—with emphasis on watercress—would complete a fine nutritionally valuable meal.

Now here's what you do the evening before to make all this possible: Soak a veal or beef kidney in cold salted water for 30 minutes. Meanwhile, cut 1 lb. (or as much as you can spare from your ration) of beef chuck or round steak into neat pieces. Slice an onion and brown slowly in saved meat dripping or lard. Now drain the kidney, remove tubes and membranes and cut into ½-inch cubes. Add meats to the browning onion and brown well on all sides. Cover with boiling water or stock. Add 1 teaspoon Worcester Sauce—pinch of thyme, savoury, marjoram or poultry dressing—salt and pepper. Simmer covered for two hours. Thicken liquid with flour blended to smooth consistency with cold liquid. Transfer to baking dish. Cover top with flaky pastry with eyelets cut for escape of steam . . . 30 minutes in a 375° oven and the pie is ready to serve. Note:—suitable vegetables may be added.

EASY FLAKY PASTE FOR MARTHA LOGAN'S BEEFSTEAK AND KIDNEY PIE
3⅓ cups sifted all purpose flour
1¼ tsp. salt
¾ cup Jewel Shortening
Ice-cold water

Measure flour and sift with salt. Cut in Jewel, using 2 knives, or a pastry blender, until pieces are reduced to size of large peas. Gradually add sufficient water to make a paste which, when lightly mixed, may be cleaned easily from bowl. Chill. Roll dough to about ⅛" thickness. Fold from top to bottom and from left to right. Repeat rolling and folding. Roll and use.

SWIFT CANADIAN CO. LIMITED

Anti-Aircraft on the job!

FREE YEAR IN UNIVERSITY
1270 young men between the ages of 17 and 22 who have university entrance and who have successfully passed physical tests will be selected for one year's free university tuition. This year will apply on their B.A. or B.Sc. on return from duty overseas. Your nearest Recruiting Office will give you particulars.

Here is your opportunity to go active with the Canadian Army which is now accepting men of 18 years of age but none will be sent on combat duty until they reach the age of 19.

Here is your chance to go on Active Service and play as full a part in this big show as your Dad did in the last one.

This war is entirely different in many of its phases from World War I . . . the Anti-Aircraft Batteries play a very important role . . . in fact, they have an amazing score against the Nazis, who are now on the run. Anti-Aircraft, as a supporting unit to all ground forces, is vitally important. Boys! here's your chance . . . Army life is really grand . . . regular hours, regular routine, good food, constant medical care, full army pay including regular dependents' allowances . . . what more could any lad ask for? The need is urgent . . . sacrifices on the part of all are essential. Parents must realize that peace and freedom can only be won if all of us are prepared to accept the fact this is only possible if we permit our boys to play their full part in this, the most vital war of all times.

The Canadian Army Now Wants Canadians Who Have Reached The Age of 18.

Enquire today at the nearest Recruiting Office.

MAIN STREET TOPICS

BACK HOME

Spr. W. A. Chambers, of the Royal Canadian Engineers, is one of 30 casualty cases which have returned to Canada. His home is in Lindsay.

FINED FOR VAGRANCY

Arrested in a car by Constable Gordon Trennum, Albert Raciot, pleaded guilty in police court this morning to a charge of vagrancy and was fined $5 and $2.50 costs by Magistrate E. A. Gee.

V FOR VICTORY

Add to the list of extraordinary findings that bring to mind an attempt on nature's part to duplicate the Allied victory sign a cob of corn grown on the farm of Allen Payne of Warsaw. Starting at one end like any other cob, it spreads out till at the top it is four inches broad and no longer round but flattened out.

GOOD HAUL

LINDSAY, Aug. 16 — (ENS)— Thieves entered a car owned by Frank Johnstone of Oshawa at Bobcaygeon yesterday and breaking open the glove box stole a purse owned by Miss Helen Johnstone. The purse contained food and gasoline rationing books, 12 War Saving Certificates and twenty dollars in cash.

GETS 15-POUNDER

Cecil Gallagher, of the Confederation Life staff solved the meat problem over the week-end when he hauled a 15-pound maskinonge out of the Quaker Oats raceway in the Otonabee River on Saturday evening. He was using ordinary crochet cotton as fishing line, with a live minnow for bait, and nad to play the fish for quite some time to get it ashore without breaking the fishing line.

ROAD WORK

Surface treatment to pavements of parts of the River Road, Warsaw Road, Chemong Road and Monaghan Road is being undertaken for the County by A. E. Jupp Construction Company of Toronto.

WANTED IN GRAVENHURST

Arrested by Officers John Naples and John Morrow early this morning on a warrant issued in Gravenhurst, charging him with the theft of a rug from a summer cottage, Wm. Starke, Water street, was taken back to Gravenhurst today by Provincial Constable Elliott of that town.

LEMONS OVERSEAS

Tpr. Bud Cooper, in hospital in England, recently received a shipment of lemons over which he and his hospital mates nearly went wild with excitement. His cigarettes and other parcels have been coming through wonderfully well. Tpr. Cooper is the son of Mr. and Mrs. H. W. Cooper of Nicholls Oval.

A LOVELY TROUT

Frank Whitehouse bagged a six-pound two-ounce lake trout in Mississaugo (Gull) Lake recently. This is one of the largest trout reported from this lake in some time. The party caught nine others, all ranging from two to three and a half pounds, and were using minnow heads as bait.

SCHOOLS OPEN

The latest word to be received by the secretary of the Board of Education regarding the opening of school is that September 7, will be the big day. This notice was received from the Deputy Minister of Education and he said that when the new minister took over there might be more details. This opening will affect both public and high schools.

Canada Packers Chest Fund Gives $100 To War Victims

One Friday morning in May of last year, housewives living within the sound of the Canada Packers plant whistle would probably have had quite a start when the said whistle blew at 11:15 a.m. and many who perhaps had come to look upon it as a signal that friend husband was on his way home to see what the neighbors had brought in for dinner, would wonder how they had come to be so much behind in their regular schedule for preparing the noon day meal.

There really was nothing to be alarmed at, in fact it was really a case for rejoicing, for this signalled a start being made whereby man forgot his own self interests for the space of fifteen minutes and devoted the sweat of his brow to doing something to help along the various assists so necessary to ensure the winning of the just cause, in this latest of atrocities visited upon the world through the selfishness of a nation who would rule by force if we sit idly by and let him do it.

The vast majority of the employees in this one plant welcomed this opportunity to do this act of service for humanity, and ever since that time, the whistle blows at 11:15 to mark this period of service for mankind in general, and then the whistle blows to again mark that this period has been successfully concluded once more until the next Friday rolls around.

These employees in this manner have been able to do a real lot of good, more perhaps than they will ever visualize, and in part, the sufferers from air raids over Britain have come in for a due share of this goodness through the city and district's own particular fund to help them, it being a real pleasure to record another contribution from them in the splendid amount of $100.00 listed today, which must cause these workers a thrill of satisfaction to know that this is the result of their fifteen minutes of work each Friday in part, to give a very practical demonstration of their loyalty to the cause, and a witness of their sincerity in a desire to be of help to those, whom the fortunes of war have adversely affected.

Life is not so short but what all people everywhere could well afford to folllow such an example as this, for such helpfulness must be the basis of any better type of civilization which the people of the world might ever hope to attain, standing pointedly out in contrast individuals and nations who can only think in terms of self aggrandisement.

Dodges Bicycle Car Turns Over

Two occupants of a motor car had a narrow escape from serious injury Saturday night when their automobile, swerving to avoid a collision with a bicycle turned over on a city street. The car was damaged considerably in the accident.

Bernard O'Toole, 40 Centre street, was driving his automobile south on George street. When he made a left turn to go east on Lake street he found himself confronted with a bicyclist travelling west on that street. O'Toole who told the police that he had been driving at 15 miles an hour, tried to avoid a collision and his machine rolled over.

Neither O'Toole nor Gerald Fitzgerald, 535 Rogers street who was a passenger in his car was injured in the spill. The doors, fenders and body of the automobile were bent and broken.

More Silk Underwear

WASHINGTON, Aug. 16—(AP)— Women's silk underwear and silk panties for babies are coming back in the United States. The War Production Board reported Sunday that 450,000 yards of silk cloth, rejected as unfit for parachutes, has been allocated to the manufacture of undergarments for women and babies.

Flier Overseas

Mr. and Mrs. W. E. Bick, of Bobcaygeon, have received a cable telling of the safe arrival overseas of their son, Sgt. Roy Bick of the R.C.A.F. Sgt. Bick graduated as a pilot from Camp Borden and went directly overseas.

4 Peterboro Men Wounded; 1 Other Killed

During the past few days the casualty lists have been steadily growing and over the week-end five more Peterborough boys have been named. Pte. Arnold Burfield has been killed in action and Pte. Bruce Burfield, Pte. Lyle Powers, Pte. Clarence William Downer and Pte. William Gray are reported wounded. All are with the Hastings Prince Edward Regiment.

Pte. Arnold Burfield is the son of Mr. and Mrs. Richard Burfield, Bethune street, and he enlisted in May of 1940, having worked with his brother Jack in the metal business. His wife and small baby reside in England and besides his parents he is survived by two brothers, Bruce and Jack, and three sisters, Mrs. A. B. Downer, and Mrs. G. Forsyth of Peterborough and Pte. Lillian Burfield of Kemptville.

Pte. Bruce Burfield, who was serving with his brother Arnold in Sicily, has been reported as wounded, but further details have not yet been received by his parents. He enlisted in March of 1940 and with the exception of a few months, the two brothers have been together ever since.

Others Wounded

Another casualty, Pte. Clarence William Downer, reported wounded, is the son of Mr. and Mrs. William Downer, 172 Lake street. He joined the Prince of Wales Rangers (AF) in April 1942 and later transferred to the Hastings Prince Edward unit. Before enlisting he was employed at the C.G.E. and took a great interest in the bowling league. His father is a member of the Prince of Wales Rangers (R) and two uncles, Arthur Downer and Thomas Foster, Sr. are overseas with the S.D. and G. Highlanders. Two cousins, Thomas Foster and John Downer are both with the Hastings Prince Edward Regiment.

Most of this bad news arrived Saturday and Mr. and Mrs. A. Powers, 823 George street, also were notified that their son, Pte. Lyle Powers, had been wounded July 25.

Pte. Powers was with the Rangers long before the unit was mobilized and when they went active he enlisted. In September of 1942, he went overseas and was transferred to the H.P.E. Regiment, which has seen plenty of tough action. The nature and extent of his wounds is not yet known. He was formerly working at Genelco.

Attended Collegiate

Pte. William Gray, Peterborough member of the Hastings and Prince Edward Regiment, has been wounded in Sicily. No particulars have so far been received as to the nature of his injuries.

The son of Percy Gray of the Bell Telephone Company, himself a veteran of the last great war, Pte. Gray was a pupil at the Peterborough Collegiate Institute when war broke out and enlisted late in 1939 with the Eastern Ontario unit. He had been overseas more than three years when he was wounded. He is a chum of Pte. Don McPherson, also reported wounded and the two enlisted together.

His parents, Mr. and Mrs. Percy Gray, are now living in Burlington. Mr. Gray having been transferred to Hamilton by the Bell Telephone Company. A brother George Gray, is still living here.

Obituary

JOSEPH MADILL.

The funeral of Joseph Madill, lifelong resident of this district, was held on Monday afternoon with private service at his late home, Lot 1, Concession 8, North Monaghan, at 2 p.m., followed by public service at 3 p.m. at the Springville United Church. Rev. Mr. Everson conducted the service and was assisted by the Rev. A. H. McConnachie. Interment was made in Little Lake cemetery.

Mr. Madill died at his home Saturday morning in his 86th year after an illness of five months. He was born in Cavan Township the son of the late John Madill and Eliza Tate, and was a farmer and dealer in livestock. He belonged to the Springville United church, was active in all church affairs, and was past Reeve of the Township and Councillor for many years. He was a member of the Orange Order.

He is survived by a sister, Mrs. Margaret Bowes of Cavan Township, and by several nephews and nieces. His wife predeceased him 12 years ago last February.

General Lauds Troops

SOMEWHERE IN ENGLAND, Aug. 16.—(CP Cable.)—Lt.-Gen. A. G. L. McNaughton, commander of the Canadian Overseas Army, paid tribute Saturday to the Canadian forces in Sicily as having brought "great credit to themselves, the army and Canada by the manner in which they accomplished tasks assigned to them."

War—25 Years Ago

By The Canadian Press

AUGUST 16, 1918—British and French troops progress towards Fresnoy-les-Roye and Fransart; in conjunction with the Canadians. French forces advanced north of the Avre River. Tank steamer shelled off Cape Hatteras, N.C. by a submarine.

More Peterborough Names Added To Canada's Casualty List

ARNOLD BURFIELD

BRUCE BURFIELD

CLARENCE DOWNER

LYLE POWERS

These four Peterborough soldiers were reported as casualties in Sicily over the week-end, with Pte. Arnold Burfield being the only one fatally injured. His brother, Bruce Burfield, —was wounded, and the two had been together in the Hastings, Prince Edward unit since 1940. They are the sons of Mr. and Mrs. Richard Burfield, Bethune street. Pte. Clarence Downer, wounded, is the son of Mr. and Mrs. William Downer, 172 Lake street, and Pte. Lyle Powers, is the son of Mr. and Mrs. A. Powers, 823 George street. All were fighting with this Eastern Ontario unit.

1 Frog Used 3 Times Trio Of Fish Caught

H. C. Strudley, of Rochester, N.Y., a former resident of Peterborough, who has just finished a fishing trip in the district, reports that one frog caught three fish for him on one of his fishing jaunts.

He was with his wife, at White Lake, near Calabogie, when he hooked a bass, and just as he hauled the bass in, the fish spit out the live frog, and Strudley could not recover it with the net, but secured a fish. A few minutes later, Mrs. Strudley yanked in another bass, using worms as bait, and the frog was coughed up by this bass, still very much alive. Strudley, immediately fastened the frog to his hook, and a husky yellow pickerel took the bait and was pulled into the boat.

On another day, Mr. Strudley lost a floating plug to a large pickerel when his line snapped, and in less than five minutes the plug popped to the surface, less thas ten feet from the boat.

Also in the party were Mr. and Mrs. Charles Gebhard, of Kenmore, New York, and Howard Nichols, of Bradford, Pa.

Need 150 Lumbermen North Of Peterboro

Orders have been placed with National Selective Service for 150 men for employment in the lumber camps north of Peterborough, it was stated to-day by W. H. L. Mellis, manager of the local employment office.

Mr. Mellis indicated that this was only a starter, and that as the season for wood-cutting advanced requests for labor were likely to double or treble the number of workers applied for to date. He said that his office had written the lumber camps asking them to forward estimates of their manpower requirements at the peak of the season, and that several replies had been received up to the present.

Last year, Mr. Mellis said, numbers of farmers went into the lumber camps after the harvesting was over, and he is hopeful that this will happen again to help alleviate the situation.

More Bombs Dropped

LONDON, Aug. 16.—(CP).— The R.A.F. and the R.C.A.F. dropped 36,700 tons of bombs on Germany durng the second quarter of 1943, more than twice the tonnage dropped in the previous three months, the Air Ministry said Sunday.

Now In England

Pte. Norman Steer, R.C.O.C., whose wife lives at 77 Park Hill road with her mother, Mrs. F. James, has arrived safely overseas. He is a cousin of William Steer, formerly on The Examiner advertising staff, and a brother, Lawrence, went overseas with him on the same boat. Prior to his enlistment he was employed at the Ford plant in Windsor.

Crop Reverse Means Tighter Belts

Estimates of Ontario's grain crop this season have declined in harvest returns to about half the yield of 1942, leaving a shortage of around 100,000,000 bushels of coarse grain for feed purposes to be transported from the West to maintain supplies of dairy products, eggs and poultry, bacon and beef cattle.

"The farmers of this province will need 200 cars of grain a day for the next six months," said V. S. Milburn, secretary of the Ontario Federation of Agriculture, to the Examiner Saturday afternoon, "that is," he added, "if we are to maintain our volume of agriculture production. "A while ago the number of cars moving east from the lakeheads were 178 a week. When the situation was brought to the attention of government authorities, it was proposed that rail haulage could be increased to 250 cars a week; but what we need are at least 200 cars a day. Last year we took 30,000,000 bushels of coarse grain from the west, and as our Ontario crop is now turning out we are convinced that Ontario will need at least 100,000,000 car loads."

That is a bare outline of the situation which is said to be developing in the east as its Ontario farmers appraise the results of their season's work.

"It will be remembered that we had an excellent crop last year," Mr. Milburn recalled. "But in spite of that home production our farmers had to buy 30,000,000 bushels from the west. A lot of this buying and delivery was left until the winter months as many farm granaries ran low. Rail transportation encountered both seasonal and wartime difficulties with a consequent shortage of feed that caused many farmers considerable anxiety.

May Reach Consumer

This general problem with its basis on the Ontario farm may reach the consumer's table before another season of production rolls around. Dairy products include milk, the fluid milk that is delivered from house to house. Eggs are also mentioned in the produce which may be crimped if feed is not plentiful. And not only dairy cattle but also beef cattle may feel a threatened feed pinch which might be translated into less meat and especially fewer steaks even than last winter.

In brief Ontario's harvest time is accompanied but what is said to be a gathering cloud on the agricultural horizon, only a small cloud at present, but regarded by those who scan the prospects with deeper doubt and apprehension as portent of sharper food restrictions than the well fed eastern consumers have experienced since the war and its tremendous food problems became superimposed on eastern economy.

Those who are disposed to take the gloomier view of agricultural realities speak in the metaphor of tighening belts and extended rationing. At the same time they wish to avoid alarmists predictions and are concentrating presents interests on helping the farmers of this province to fill their grain bins with the feed stock from the west.

Federations' Service

In his conversation with the Examiner, Mr. Milburn dealt with the immediacy of the problem which has been assumed by the Ontario Federation of Agriculture in the paradox of appealing to farmers to store up grain which they will have to buy.

"There is an incidental problem of labor at the elevators at the lakeheads.' he said. "A large number of men quit and got other jobs, but I understand there has been considerable improvement in remanning the elevators recently.

The Ontario Federation is asking its county associations for an extra special effort to impress on farmers the seriousness of the feed situation. We are undertaking this as an agricultural service. The Federation is not in the grain business, but we do know the commitments that have been made to supply food to Great Britain and our own men overseas, and we feel that simply must come first. As far as possible we are urging that orders for feed grain be placed through the local trade.

We want to build up a bank of orders that will establish the need of increased transportation into Ontario, and above all we want to see as much grain as possible delivered to our farmers before winter conditions set in."

Some Bins Filled

Mr. Milburn said that some farmers have already filled their grain bins, realizing as the planting season opened later than usual that the production of last year would not be duplicated. Other farmers still need two or three cars of grain, some only five or six hundred bushels.

"We are carrying this campaign as quickly as possible to all parts of the province. Here in Peterborough the local Federation has already held a meeting of its directors, and arrangements are being made to encourage farmers to place orders now. It is suggested that many of them co-operate in buying to get the bonusing advantages that are being provided by the federal and provincial governments. They can pool their orders with their neighbours for car lots, and unload deliveries themselves if local facilities are not available. The United States market would take all our western grain at prices from 6c to 34c a bushel above our prices, but this business has been restricted by suspension of export permits."

Mr. Milburn said that one point should be emphasized, namely there is no chance of this grain being any cheaper as the months go by.

Order pads are available at the local office of the Ontario Department of Agriculture, and the directors of the Federation have already planned an active campaign to tell the feed story to the farmers of this district who have not yet done anything about making up their own supplies for the coming winter.

Rambling Reporter

LOVELY SWIM

Three boys sailing on Lake Chemong Sunday got a little more water than they bargained for when they left shore. Dunlop Mathias (Bunny), Douglas Rafter and James Fallen (Squeak) went sailing and in the middle of a very rough lake they lost their rudder. Mathias dove into the water, fully clothed, and rescued the rudder and fixed it up and just got nicely into the boat when it capsized throwing them all into the rough water.—J.S.

2 Youths Assessed For Theft Of Cap

Fines of $5 and costs of $2 were imposed by Magistrate E. A. Gee in police court this morning on Donald Moore and Donald LaFonte, Chambers street, the two youths who last week pleaded guilty respectively to stealing and receiving a radiator cap, taken from a parked car.

Sentence in the case had been deferred until this morning.

Crown Attorney V. J. McElderry, K.C., suggested to the Court that a fine might serve the ends of justice and Magistrate Gee concurred in the suggestion.

In imposing a fine, however, His Worship reminded the youths that repetition of the offence would mean a jail sentence.

Old Opera Star Gone

PHILADELPHIA, Aug. 16— (AP) —Jennie Dickerson Bartlett, 87, opera star of the 1880's and '90's and later an actress in the legitimate theatre, died on Saturday at the Edwin Forrest Home for Actors.

Pte. Gray Injured

Pte. William Gray, serving with the Hastings and Prince Edward Regiment, was wounded in action in Sicily on July 20, according to word received recently by his mother, Mrs. Percy Gray of Burlington. The Grays formerly lived at 112 Murray Street, and Pte. Gray has been overseas three years. In a telegram sent shortly after the official notification, he informed his family that he was getting along fine.

Cheese Output Slumps On Ontario Front

Cheese production in Peterborough county during July was 33,362 pounds less than in the midsummer month last year.

That shrinkage can be contemplated perhaps more graphically in a long line of 430 cheese, or cheeses, if you prefer that plural.

The factories of this county are trailing production in the first seven months of last year by 234,452 pounds.

Here are comparative totals: Last month, 287,542 pounds; a year ago 311,904 pounds.

For seven months this year 662,415; to the end of July last year 896,866 pounds.

Northumberland county, one of the main dairy centres of this province, made 617,055 pounds of cheese last month as against 755,506 in July last year. That county's total for seven months this year is 1,756,531 pounds as compared with 2,445,955 pounds to the end of July 1942.

Simiar figures are available for this province. Cheese production in July was 16,887,057 pounds and in the same month last year 17,703,798 pounds. And for the first seven months of this year, 55,061,256 pounds as against 72,079,342 pounds up to the end of July in 1942.

A Mammoth Task.

The Ontario cheese industry is beginning to shake its head at the job of fulfilling the British contract at the present rate of underproduction. One of their criticisms stresses the unchanged price that was held out to the factory patrons this year. They say costs have advanced and the government should have obtained for the industry some adequate increase in the price for the British market this year even if it had to be by home subvention.

The industry also laments the shortage of manpower, and in the meantime the Federal Department of Agriculture has not yet sounded any alarm as to the possibility of failure in piling up on British docks all the cheese we promised.

Il Duce On Island

BERNE, Aug. 16 — (AP).—The Zurich correspondent of Dagens Nyheter says Benito Mussolini is held captive on an island "where he cannot be reached by the Germans" The name of the island was not disclosed.

PUBLIC NOTICE

The Provincial Travelling Chest Clinic will visit Peterborough from August 17th to August 25th.

Persons wishing examination will kindly make their appointment through their private physician.

Here's a simple way to clean up your old bills on a regular monthly payment plan

NEED SOME EXTRA CASH? Want to pay off old debts? Get the money you need at Household Finance, quickly and simply. Repay in small monthly instalments. No endorsers or guarantors are ever required. Any man or woman with a job is welcome to apply for a loan of $20 to $500. Just tell us a few facts about yourself and your job and which payment plan you prefer. We have many plans to fit our service to your needs. In granting loans we consider character and regular income far more important than any other factors.

$50 loan for $3.58

Payments shown in the table below include principal and interest. You pay nothing more. We have no hidden costs. Charges are made only for the time you have the money. At our rate, a $25 loan costs $1.28 when repaid in four monthly instalments of $6.57 each, but only 12c when repaid at the end of a week. A $50 loan repaid in six monthly instalments of $8.93 each costs $3.58—or if repaid in one month costs $1.00. You are welcome to repay in advance at any time.

Cash for most any purpose

You may get a Household loan to clean up old bills, to pay your doctor or dentist, insurance, taxes, repairs, to help a relative—for almost any purpose. If a loan can help you, you are invited to telephone, write or visit Household Finance.

FIND HERE THE CASH LOAN YOU NEED

CHOOSE YOUR MONTHLY PAYMENT HERE

	2 payments	4 payments	6 payments	8 payments	10 payments	12 payments	15 payments
$ 25	$12.88	$ 6.57	$ 4.46	$ 3.41	$ 2.78	$ 2.36	
50	25.75	13.13	8.93	6.83	5.57	4.73	
75	38.63	19.70	13.39	10.24	8.35	7.09	
100	51.50	26.26	17.85	13.65	11.13	9.46	$ 7.78
125	64.38	32.83	22.32	17.06	13.92	11.82	9.73
150	77.26	39.39	26.78	20.48	16.70	14.18	11.67

Funeral service on Wednesday August 18 at 3:30 p.m. from the Nisbett Funeral Home, 347 Charlotte street. Interment in Little Lake Cemetery.

IN MEMORIAM

CURTIS—Corporal Arthur Curtis 31st Battalion, died in Christie Street Hospital, August 16, 1932.

Those whom we love go out of sight,
But never out of mind.
They are cherished in the hearts
Of those they leave behind.
—Ever remembered by his Wife and Family.

CARD OF THANKS

The members of the Orange Association of the District of Emily, wish to thank Reeve, Council and business men of Omemee, as well as those who in any way assisted in the July 12th commemoration, for their co-operation and generosity.

Heavy Hitting

(Continued from Page 6)

It was 15 to 8 when the losers went to bat in the eighth and they came through with four counters. With one out Cal Nicholls singled to centre and Holmes bunted safely. Maloney whiffed for the second out but a double by Robertson and passes to Harrison and Carpenter sent two runs in, left the bases full and drove Akers out of the game. Woods took over the pitching burden and Jamieson singled to left, scoring two more runs, but Carpenter over-ran second and was out.

Genelecs added another run in the ninth and might have had more if Tucker had not hit into a double-play with the bases loaded.

Married Men

(Continued from Page 3)

have been treated as single men since the start of compulsory service.

Married Men Affected

The extension applies to men who were married before July, 1940.

The last extensions of the callable groups was made in December, 1942, when the minimum age was dropped from 20 to 19, and married men up to the age of 25 were made subject to call.

The present extension comes just three years after the start of compulsory mobilization with the taking of the national registration in August, 1940. The first call-up was of single men in their early twenties who were required to report for 30 days' training and then permitted to return to civilian life while awaiting a further call.

In March, 1941, the training period was extended to four months, and in April, 1941, an order was made requiring all men called to remain on duty for the duration of the war. Since then, there has been a progressive extension of the callable age groups until the present situation, where single men from 18 to 40 and married men from 19 to 30 are callable.

Men called up are liable to serve in Canada and its territorial waters, and in such areas beyond Canada as may be designated by Order-in-Council.

Week-end Stars

By The Associated Press

Rip Sewell, Pirates and Jim Tobin, Braves—Sewell won 18th game and Tobin 10th as Pirates-Braves split twin bill.

Hi Bithorn and Paul Derringer, Cubs—Bithorn won 15th game and Derringer pitched six-hit shutout as Cubs beat Phillies twice.

Rudy York and Tommy Bridges, Tigers—York's two homers won first game and Bridges' six-hit pitching the nightcap as Tigers swept doubleheader from Athletics.

Stan Musial, Cardinals—Musial drove in five runs to beat Dodgers in first game.

Bobby Doerr, Joe Dobson and Mace Brown, Red Sox—Doerr's home helped win first game; Dobson and Brown twirled five-hit shutout in nightcap to beat Browns twice.

Charley Keller, Yankees, and Vince Castino, White Sox—Keller's homer helped beat Sox in opener; Castino's circuit clout defeated Yanks in nightcap.

Remember When—

(By The Canadian Press)

The great Lou Gehrig equalled Everett Scott's all time major league baseball record of playing 1,307 consecutive games 10 years ago today. The New York Yankees' first baseman started his "iron man" streak June 1, 1925, and in 14 years played 2,130 consecutive games. He died June 1, 1941.

Buy First Sacker

BROOKLYN —(AP).—The Dodgers yesterday announced the purchase of first baseman Howard Schultz of St. Paul in the American Association for a reported $40,000, plus Pitcher Rube Melton and infielder Joe Orengo. Schultz is 21, weights 200 pounds, six feet and one half inches tall and has been batting .294.

Sports Day By Day

(Continued from Page 6)

enhanced greatly when Manager Morgan of the Soldiers insisted that several members of the Battery who were not wearing the regulation sweaters should don the right outfits....There was a delay while the players changed sweaters with a couple of reserves....McKerrigan and Stewart were apparently aiming at each other. Stewart hit three times to the Soldier shortstop while McKerrigan drove three flies to the Battery centre fielder....Bases on balls counted a lot in Saturday night's game....Three of the passes handed out by Jack Wilson blossomed into runs while three complimentaries issued by Dave Wilson were also cashed in for markers....Boston Braves had won five straight games before they clashed with the Pirates yesterday in the second game of a double-header....Old timers will regret the death of Joe Kelley former manager of the Toronto Leafs and last of the famous Big Four of the Baltimore Orioles....Toronto ran into tough sledding over the week-end dropping a double-header to the lowly Baltimore Orioles at home Saturday and then being combed at Syracuse in a single game on Sunday.

Aids to Poise in Public Speaking

Panicky Over Error She's Made

To the scary, inexperienced speaker her own voice is a stranger. Suddenly she hears it saying some ghastly thing she never planned—or going off into an unexpected squeak!

But this won't happen to you if you practise simple public speaking exercises at home. Make friends with your voice! Read aloud a little while each day, directing your tones to the front of your mouth.

For expressiveness, practise some simple sentence, accenting a different word each time. "They WANT to go . . . they want to GO . . . THEY want to go."

If the speech is long, don't memorize, but bolster yourself with a few notes. Also, be sure of parliamentary rules!

You can conquer stage fright! Our 32-page booklet tells how. Gives public speaking exercises for pronunciation and expression. Tells how to prepare a speech, deliver it eloquently. Has sample speeches for many occasions, parliamentary rules.

For your copy of PUBLIC SPEAKING SELF-TAUGHT send 15 cents in coins or stamps to the Peterborough Examiner Home Service. Be sure to write plainly your name, address, and the name of booklet.

Havelock News

Cpl. Harold Smith, R.C.A.F., of Dauphin, Man., arrived home on Thursday to spend a furlough with Mr. and Mrs. William Smith and Mr. and Mrs. W. Rice.

Master Ronald White, Montreal, is visiting friends here and at the Lake.

Mrs. John McQuigge has left for Hamilton, where she is visiting with her son, Harold McQuigge and family.

Mis Isabel Rutherford, of Colborne, is visiting with Cpl. and Mrs. H. Revoir.

Rflm. M. U. Menzies returned to his post after spending his furlough with his parents, Mr. and Mrs. Dan Menzies.

Mrs. Harry Sales and childen returned home to Windsor after spending the past three weeks with her parents. Her mother, Mrs. Archie McColl, accompanied her home.

Mrs. Ewart Watson and daughter Jean of Arden are spending a few days with her mother, Mrs. A. McMullen.

John Adair returned home after spending the past six weeks with friends in Oshawa.

Mrs. Florence Clark is visiting with her son, Floyd Clark and family in Rochester, N.Y.

BARCLAY ON BRIDGE

"SCOPE OF THE LAWS"

THAT IS the heading on the introduction to the new Laws of Contract Bridge which outlines their fundamental principles and purposes. Every player should understand these, succinctly stated in the following manner:

The laws are designed to define correct procedure and to provide an adequate remedy in all cases where a player accidentally, carelessly or inadvertently disturbs the proper course of the game, or gains an unintentional but nevertheless unfair advantage.

The object of the proprieties is twofold: to familiarize players with the customs and etiquette of the game, generally accepted over a long period of years, and to enlighten those who might otherwise fail to appreciate when or how they are improperly conveying information to their partners —often a far more reprehensible offense than a violation of a law.

The laws are not designed to prevent dishonorable practice, and there are no penalties to cover either intentional violations of the laws or infringements of the proprieties. When no penalty is prescribed, the moral obligation of compliance is strongest. Ostracism is the ultimate remedy when intentional offenses are repeated. Penalties are moderated to a minimum consistent with justice, and an offending player should be ready to pay a prescribed penalty graciously. Harmony and the interests of the game are best served by a uniform enforcement of all penalties, whether automatic or selective.

Occasionally complex and difficult situations may arise which cannot be satisfactorily solved by enforcing a prescribed penalty, or to which no penalty applies, though one is merited. In such instances the players should determine and follow the fairest procedure, in view of the facts of the particular case.

When these principles are appreciated, arguments are avoided and the pleasure which the game offers is materially enhanced.

(A footnote gives these examples of dishonorable practice: Using an undisclosed or secret convention; deliberately infringing any law; making a second revoke to conceal one that has been made accidentally.)

(Another footnote gives an example of an unusual situation, thus: Should an irregularity be clearly attributable to an opponent's mistake or misstatement, it should be condoned—for instance, a lead out of turn or an improper call caused by an opponent's misstatement.)

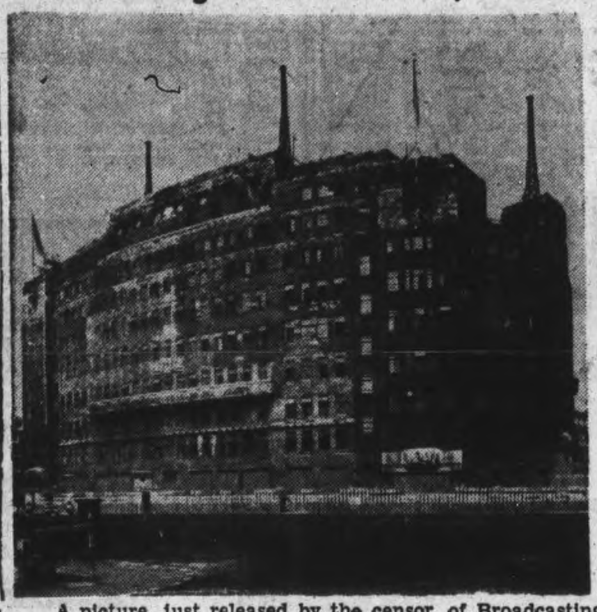
Broadcasting House Battered, Unbowed



A picture, just released by the censor, of Broadcasting House, London, home of the British Broadcasting Corporation, as it is today. Most of its surface shows where repairs have been made after bomb-damage. The skirting—painted black and white for the convenience of pedestrians in the blackout—is an anti-blast wall. Broadcasting House itself has been hit twice, but not one program has ever been off the air for a minute.

Heavy Casualties In Second Rome Raid

STOCKHOLM, Aug. 16 (AP).—The hour-long American raid on the city of Rome resulted in a "great number" of casualties, the Rome correspondent of the Swedish paper Dagen Nyheter reported today.

The dispatch said no figures were announced but that ambulances and rescue cars were extremely busy after what the Rome press described as a "massive raid."

The correspondent said the residents of the city had obviously been warned by leaflet or other method of the impending raid as many of them expected the morning attack.

SURROUNDED BY FRANCE

TEST-TUBE SOLDIER

SEARCHING, testing, fighting with test tubes in laboratories all over Canada are technicians like this, on the job early and late . . . hurrying through breakfast . . . tired at bedtime. That's when Kellogg's Corn Flakes fill the bill. So quick to serve, taste so good. Kellogg's save time . . . fuel and work too. They'll be your favourite at any hour. And they're economical! Get some tomorrow. Made by Kellogg's in London, Canada.

CAMPBELLFORD

Church Societies Hold Joint Meeting

CAMPBELLFORD, Aug. 16 — (ENS).—Interesting programs featured the monthly joint meeting of Burnbrae Ladies' Aid and W.M.S. on Thursday afternoon, which took place at the home of Mrs. Ernest Eagleson.

At the opening, the W.M.S. president, Mrs. William Hutcheon, presided, and she was assisted in conducting a short devotional period by Mrs. Donald McKay and Mrs. George Craighead. The program which followed included a reading by Mrs. William Hutcheon, a duet by Misses Marjorie and Thelma Wallace, a reading by Miss Clara Thain and a vocal duet by Misses Annie and Bernice Fry.

Mrs. Clayton Wallace presided for the Ladies' Aid meeting, and during a short business period Mrs. Oliver Willis and Mrs. James Stewart were appointed program convenors for next month. The program of the day included a piano solo by Mrs. Donald McKay; reading, Mrs. E. C. Pollock; vocal solo, Mrs. William Mathews; reading, Mrs. William Hutcheon.

Bethany News

Mrs. Richard Johnston, accompanied by her daughter Mrs. T. J. Jackson, William Jackson and their daughters Mrs. Carl Smith and Isobel spent Thursday guests of Mr. and Mrs. Milton Fallis and son Gordon on Fallis Line.

Mrs. Keegan Brown of Millbrook has been the guest of her daughter, Mrs. R. Chalice, for a few days.

Mrs. Alvin Armstrong of Oakwood and small daughters Shirley, Iris, Wanda and Aubrey, are guests of her mother, Mrs. Isaac Fallis, and Mr. and Mrs. Willie Fallis.

Mr. and Mrs. Mansel Wright, accompanied by Mrs. O. H. McGill, Brunswick, and Gibson Lowery and small daughter Nancy, motored to Chesley to spend the week-end with Mr. and Mrs. Jim Ward and other relatives in that vicinity.

Miss Annie Benson of Pleasant Point is the guest of the Misses Thompson.

Miss Winnie Nesbitt was a business visitor to Lindsay on Thursday.

Miss Lillie Thompson is the guest of her brother, Mr. and Mrs. Fred Thompson, Peterborough.

Mr. and Mrs. Wellie Fallis were the happy recipients of a lovely gateleg table, a gift from the United Church and Sunday School on Wednesday evening in honor of their recent marriage.

Leave Prisoners Alone

LONDON, Aug. 16 (CP).—A new warning to Italy to stop immediately sending Allied prisoners to Germany or Allied peace terms may become "extremely hard" was sent out by the Algiers radio in a broadcast heard today by the London Daily Mail.

100 Soldiers Killed

NEW YORK, Aug. 16 — (CP).—The B.B.C., quoting Istanbul reports, said yesterday that serious clashes between Italian and German troops in Greece caused "the death of 100 Italian soldiers among them 25 officers."

Anglicans Will Meet

TORONTO, Aug. 16 — (CP). — Anglicans from Ontario and Quebec wil gather here at a Canadian Malvern Conference August 30 to September 3 to discuss social, economic and political problems, it was announced yesterday.

For your Suit, Topcoat or Overcoat, visit our men's clothing department on the 2nd Floor.

Merchant Ships Gunned In Top Style

By STANLEY MANTROP
Canadian Press Staff Writer

MONTREAL, Aug. 16 — (CP).—The Navy calls them defensively equipped merchant ships, but ask the destroyer skipper of the last war what he thinks of Canada's new 10,000-ton merchantmen and even money says he'll tell you . . . "they've got more more guns than our old destroyers."

Lt.-Cmdr. John Smith, D.E.M.S. Staff Officer for the St. Lawrence River and Great Lakes region, says this is exactly true. The new ships are heavier armed, carry more equipment, and are capable of putting up a battle that would bring joy to the hearts of Canada's old naval vets.

An inspection of one leaves the the impression that Germany will soon have to train her pilots on a roller coaster if they expect to dent the armor of these new ships with their bombs and machine guns.

In the course of a battle, the Canadian gunners have equipment to throw enough "stuff" into the air to make the pilot think he's landed in a shooting gallery. And some of the equipment is still on the secret list.

Hard on Planes

If the pilot gets by the low level stern gun, used chiefly for anti-submarine work, he still has the high level gun to contend with, and a mighty formidable weapon it is. If he's lucky and gets through this barrage, the Navy boys have another surprise for him.

Forward of the guns the navy has installed a rocket gun that would put Buck Rogers to shame, and built by a well-known peacetime washing machine firm at that. Gunners say it's almost a sure bet to "wash up" any pilot that gets within its range. The rockets also carry enough high explosives to rip through the steel shell of a submarine.

If the attackers' luck still holds—the gunners say it won't—the navy still has another nightmare rig to toss into the pilot's path. This time it's another rocket, but one with a different job. The rocket carries two parachutes suspended on 600 yards of cable and is fired into the path of the diving plane. Once the pilot hits it the cable tangles around the propeller or wings and sends the aircraft diving into the sea.

The best feature of this equipment is the fact the pilot can't pick off the operator with machine gun fire. Everything is done from the safety of the armored pilothouse and by electrical equipment. The lookout man shouts the warning from the wing of the bridge and the man in the pilothouse pushes a button.

The Canadian gunners are all seasoned veterans of the defensively armed merchantmen and know how to handle their equipment. Some have already won the O.B.E. and other high honors for their work in bringing down aircraft or picking off the odd submarine.

But they don't all get the opportunity to use their shiny equipment. "I've been on this ship 14 months," said one gunner, "and all I've done is shine the equipment. We went through the North African campaign and never used one of the guns. That's how quiet it was."

Great Decisions Being Made In Old World Quebec

Quebec City, scene of possibly the most important conference of the war between Prime Minister Winston Churchill, President Roosevelt and Prime Minister Mackenzie King, abounds in Old World atmosphere. Among the links with the past in the Ancient Capital, the only walled city in Canada, are portals such as the St. Louis Gate pictured here. The gate was reconstructed to blend with the Norman atmosphere of the original town, a motif which was carried out also in the baronial Chateau Frontenac, world famous Canadian Pacific hotel, which is the official seat of the conference, the sixth between the President of the United States and the Prime Minister of Great Britain and the first held in Canada.

Wrecks Litter Road Taken By Canadian Troops

(William Stewart, Canadian Press war corespondent, who has been in North Africa since the start of the Sicilian invasion, now has moved to Sicily to join his colleague, Ross Munro, in reporting the activities of the Canadian 1st Division there. The first Sicilian dispatch from Stewart, a native of Riviere du Loup, and a member of CP's London staff for the last two years, follows.)

By WILLIAM STEWART
Canadian Press War Correspondent

WITH CANADIANS IN SICILY, Aug. 13—(Delayed)—(CP Cable). — Burned-out vehicles, overturned guns and scorched fields are signposts which point out the route of the Canadian advance through Sicily.

I followed the battle route of the Canadians on a 100-mile ride across valleys and up mountain roads from south-eastern Sicily to the heart of the island, then east to Mount Etna. Road markers are scarcely necessary. Evidence of the fight is scattered in the south-east where the Canadians moved quickly without great opposition following their July 10 landing on the beaches of Pachino. But up along powdery white roads leading north into the hills it is everywhere.

Blackened Fields.

Burned and twisted trucks litter the roadsides, pocked with German anti-tank and machine-gun positions, and blackened fields carved with slit trenches tell where the infantry moved up. Here and there white crosses mark the graves of fighting men. On some hang Canadian tin hats, on others deep German helmets.

Abandoned German defensive positions sit in dominating positions in the hills. Such towns as Leonforte, Assoro, Agira and Regalbuto, all of which fell to the Canadian troops, are perched grey and bleak each on its own high peak. They appear inaccessible from the distance but their narrow, flagged streets, freshly cleared of rubble, show that the war marched right through them as the Canadians rolled the Germans east along the ridge to Aderno which was to have been a stout Axis line.

Engineers Salvage

Everywhere army recovery troops are busy salvaging wrecked transport and every useable part of badly-broken vehicles whether Allied or German.

The mark of the engineer is on the roads cut by German demolition and quickly repaired. Supply traffic moves around demolished bridges over new structures.

The terrible condition of the wrecked Catania airdrome, covered with bomb craters and strewn with skeletons of enemy aircraft is a tribute to the accuracy of Allied bombings. The Railway Yards next door are also a great wreck.

Female Criminologist

LONDON, Ont., Aug. 16.—(CP).—Chemicals and microscopes have long been associated with Sherlock Holmes and other criminologists of fact and fiction but the latest to invade the field is Miss Varda Vincent, a native of London. Miss Vincent, the only woman criminologist in Canada, is a member of the medico-legal department of the Ontario Government.

Heavy Bombing May Follow Talks

By GLADWIN HILL
Associated Press Staff Writer

LONDON, Aug. 16.—(AP).— An early, large scale effort to bomb Germany out of the war, ending the conflict quicker and with hundreds of thousands fewer casualties than previously envisioned, may be one of the main topics of the Churchill-Roosevelt conference in Quebec.

High Allied air officers here have expressed belief that now is the time to do it while the Germans are reeling from a number of reverses.

Such a campaign is one of the things which could have brought about the meeting of the two leaders so soon after their last session—as well as the swift pace of the war, which doubtless outstripped their earlier planning.

Berlin Next.

One of the most significant developments of the war since their last meeting was the successful bombing out of Hamburg in a few days. Full intelligence reports of the extensive devastation just coming in are underscored by the Germans' obvious trepidation that the same thing will be tried on Berlin.

(Reports reaching Switzerland say the Nazis already have moved many of their major government offices from Berlin to Vienna, for safety, and that the Nazi authorities are considering declaring the German capital an open city to save it from the fate of Hamburg.)

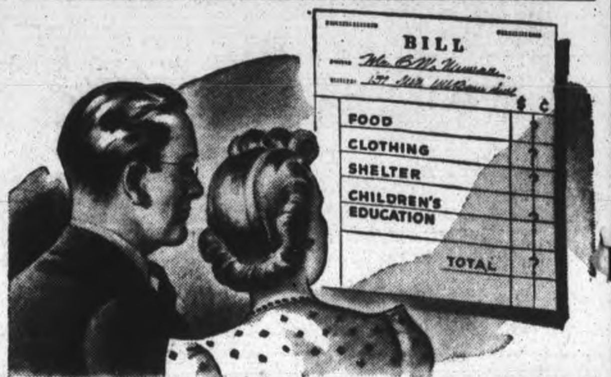
A possible clue to the topic of the Quebec meeting is the presence of Wing Cmdr. Guy Gibson who distinguished himself as a leader of the R.A.F.'s strikingly successful war coup — the sensational raids on Mohne and Eder dams.

Gibson may have been taken along

It is considered likely here that as a working flier and technical adviser to Mr. Churchill.

RUMANIA'S ORIGIN

Rumania has its origin in the union of the Danubian principalities Moldavia and Wallachia under the Treaty of Paris (April, 1856.)



Which of You Would Pay the Bills?

PERHAPS the privilege you value most in life is that of providing for your wife and family. They will never lack anything that is within your power to give.

Have you faced the possibility that your life's partner may someday be left without you? Have you provided so that you—and not she—would meet the costs of living for those who are left?

You can make such provision through life insurance. You can use it to provide a *guaranteed* monthly income that will come in with clocklike regularity.

Life insurance arranged in this way is the most convenient and practical financial protection for your loved ones it is possible to provide.

SICILY CAPTURED BY ALLIED ARMIES

Bryansk City Objective In Red Drive

Fierce Battle Still Rages For Kharkov City

By HENRY C. CASSIDY
Associated Press Staff Writer

MOSCOW, Aug. 17 —(AP)—The German front southwest of Moscow, drive on Bryansk, the hinge of the is moving at the fastest pace of any of the three current Red Army thrusts, the Russian army newspaper Red Star indicated today.

With Soviet troops meeting stiff resistance in the battle for Kharkov, other Russian divisions were moving steadily ahead toward Bryansk supported by the push further north from Spas Demensk.

Around Kharkov, Red Star said, the Germans were hurling large concentrations of reserevs backed up by units of from 40 to 50 tanks and air squadrons in an effort to improve their precarious position.

(The Soviet Monitor in London recorded a Moscow broadcast of a front line dispatch to Red Star which said "very tense battles" were raging around Kharkov.)

The Germans were meeting with little success in the counter thrusts despite the use of picked troops, Red Star said.

15 Miles To Go

The Russians driving through the shattered German defences west of Karachev are within 15 miles of Bryansk, Moscow announced last night.

The war war bulletin reported Red Army successes all along the 500-mile front from Spas Demensk, 200 miles southwest of Moscow, to besieged Kharkov. Fall of Kharkov was expected almost any time.

Russian divisions attacking on the Bryansk front, the communique said, advanced rapidly yesterday through heavily mined territory, capturing 130 villages and thrusting a spear-head well to the northeast of the city which may be the start of an encirclement drive such as the one which led to the capture of Orel.

The Russians said the Germans were paying heavily both in man-power and war material for their resistance to the Soviet advance. More than 6,000 Nazis have been

Bag 43 Planes Across Italy

CAIRO, Aug. 17.—(AP).— Large formations of United States heavy bombers bombed Axis airfields at Foggia in Southern Italy yesterday and shot down 43 enemy fighters which attempted to intercept them, a Middle East air communique announced to-day.

Eight planes are missing from the day's operations which included attacks on the landing ground at Tortorella and San Nicola in Southern Italy, the communique said.

The landing ground at Tortorella was heavily spread with bombs, several large fires were started, and railway lines alongside were hit, the announcement said.

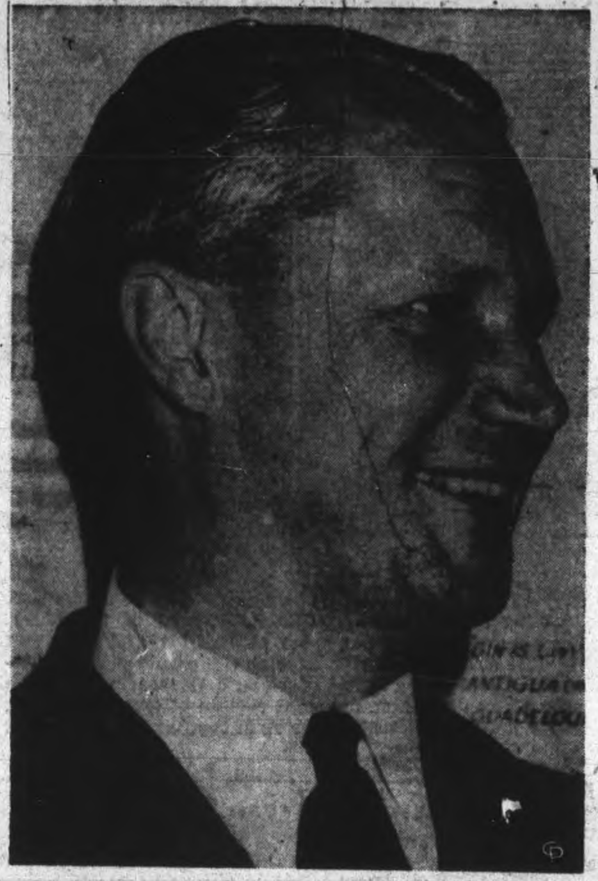
Similar results were obtained at San Nicola where workshops, administration buildings and living quarters were damaged.

Nearly 100 enemy fighters battled the raiders, the communique said.

INVASION FLEET OFF CATANIA

OTTAWA—Rome radio, in a broadcast picked up by the CBC listening post, today reported that a large Allied invasion fleet has been sighted off the port of Catania on the east coast of Sicily.

Ontario's New Premier Accepts Office



Lt.-Col. George A. Drew, Progressive-Conservative party chief and Ontario's new Premier, accepted office late Tuesday afternoon when he was sworn in by the Lieutenant-Governor, the Hon. Albert Matthews. Members of the new Cabinet were also sworn in, after Premier Harry Nixon, Liberal party head, had tendered his resignation. The Progressive-Conservatives now have 38 seats in the Legislature.

Ontario Cabinet Ministers Sworn In With New Premier

TORONTO, Aug. 17.— (CP).— Formal acceptance of the Nixon Government resignation and the swearing in of Premier-designate Lt.-Col. George Drew and his new Cabinet will take place at 4 p.m. this afternoon, it was learned today.

Lieutenant-Governor Albert Matthews will accept the resignation from Premier Harry Nixon at a ceremony at Queen's Park and will be present when Col. Drew's Cabinet is sworn in.

The Globe and Mail in a front page story to-day published an "unofficial list" of members of the new Ontario Cabinet who will be sworn in at Queen's Park this afternoon:

The list was as follows, with the name of th constituency represented in brackets:

Prime Minister and President of the Council, Lt.-Col. George A. Drew, Ontario Progressive Conservative Leader (Toronto High Park).

Attorney-General, Leslie Blackwell (Toronto Eglinton).

Provincial Treasurer, Leslie M. Frost (Victoia).

Public Health, Dr. R. T. Vivian (Durham).

Labor, Charles Daley (Lincoln).

Agriculture, Col. T. L. Kennedy (Peel).

Lands and Forests, W. C. Thompson (Kent East).

Highways, G. H. Doucett (Lanark).

Provincial Secretary, G. H. Dunbar (Ottawa South).

Member of the Ontario Hydro Commission and Minister without portfolio, G. H. Challies (Grenville-Dundas).

The Globe and Mail added: "Nothing definite was obtainable at a late hour last night as to who will take the portfolios of Education, Public Works, Mines and Fisheries. There may be some doubling up of portfolios."

Two of the members have had previous experience in the Ontario Government. Col. Kennedy was Agriculture Minister in the Government of Premier George Henry and Mr. Challies was Provincial Secretary in the same Government.

Mr. Blackwell, a Toronto lawyer, defeated former Health Minister Kirby in the August 4 election in Toronto Eglinton. With Col. Drew he would form Toronto's representation in the Cabinet. Ottawa would be represented by George H. Dunbar, member-elect for Ottawa South, who is the head of an Ottawa Business College.

Charles Daley, of St. Catharines, Ont., with his election to the Legislature in Lincoln constituency, won the seat to the Progressive Conservative Party from the Liberal ranks. He is Mayor of St. Catharines and owner of a retail grocery store.

Mr. Frost, member for Victoria, was one of Col. Drew's chief lieutenants in the Opposition during the last Legislature.

AXIS LOSE 2,000 PLANES

ALLIED HEADQUARTERS IN NORTH AFRICA—The Axis lost nearly 2,000 airplanes in a futile attempt to defend Sicily, the Northwest African air forces disclosed tonight as the campaign drew to an end.

City Of Turin Raided Fourth Night

Daylight Raids Smash Western Europe

LONDON, Aug. 17—(CP)—Large formations of R.A.F. and American bombers blasted at western Europe by daylight today after the heavyweights of the R.A.F. had hammered Turin in their third successive night assault on Northern Italy.

Reports from the British southeast coast said squadron after squadron of planes headed out across Dover Strait in mid-morning to continue a great offensive which has been under way for nearly 48 hours with only minor interruptions.

The R.A.F. attack on Turin last night represented the fourth raid on Northern Italy in five nights.

The Turin show coast the British four bombers.

Turin got what was officially called a "well concentrated" attack—which meant many tons of explosives fell upon it, although perhaps not with such a paralyzing effect as in the recent raids on Milan.

Axis troops using the main Mont Cenis railway route must pass through Turin going north.

R.A.F. fighter planes simultaneously attacked Nazi airdromes and communications in France and the lowlands, and destroyed one enemy bomber over its base.

The three previous assaults on north Italy all were directed against the industrial centre of Milan, now reported in ruins. Milan had an alert again last night but it proved a false alarm.

Flew Over London

Londoners were treated to a rare sight last night as the fleets of British bombers at the outset flew directly over the capital—a course they seldom take. Thousands ir. the streets cheered.

Minor enemy aerial activity, meanwhile, was reported over the Thames estuary and a few bombs were scattered along the coast.

Just before midnight an air raid alarm sounded in London and the sound of gunfire was heard from outlying districts. The all-clear soon sounded. It was London's first night alert since July 29.

Yesterday heavy bombers swept over France during daylight, blasting Le Bourget, Paris's main airport. Six other Nazi-held fields in France and the big steel and engineering works at Denan, near Valenciennes, were bombed. Fires and explosions were observed at the latter target.

A Wide Sweep

Poix, Abbeville, Bernay, Tricqueville, Amiens-Glisy and Beaumont Le Rouget were the other airfields on the day's visiting list. A communique reported 39 enemy planes destroyed with 20 Allied planes missing.

Covering the withdrawal from these attacks, the R.C.A.F. put in one of their busiest days in months without suffering a single loss.

They provided fighter escorts for bombers returning from Le Bourget, Triqueville, Beaumont Le Rouget and Bernay air fields as well as for those returning from the raid at

Bomb-battered Messina Falls To Speedy Americans; 8th Army Closes Gap Fast

2 American Units Divide Capture Honors

By HAROLD V. BOYLE
Associated Press War Correspondent

WITH AN AMERICAN COLUMN En Route to Messina, 12:30 a.m., Aug. 17 — (AP). — Military leaders to-day divided the honor of capturing Messina, ordering elements of two American divisions which had knocked back the Nazis all the way along the northern coast from Palermo to enter the city simultaneously.

Although the American columns and one British column closed in together for the kill, battalions of the 3rd and 45th Divisions moving in from the northwest were told to envelop and take the port.

Advancing cautiously under a bright moon, the men who fought at "Bloody Ridge," at Santo Stefano, San Fratello, Santa Agata, and half a score of other ridges and cities where the desperate Nazis fought rearguard actions travelled that last few miles to the scene of the German Dunkirk as one unit.

A Tough Campaign.

In the continuous battle up the coast they have taken successive cracks at the enemy, leap-frogging over each other into front lines, and fighting until exhausted and then dropping back for a rest.

The decision to have the divisions share in the ultimate victory came as a reward to one group of men who landed at Fedala last November and another — the 45th— who sailed from the United States to meet their first battle test under fire on the shores of Sicily on July 10.

As they cut across the peninsula toward Messina, another column continued around on the coastal road to bottle up any Axis forces trying to evacuate from the tip of the peninsula near Toree de Faro.

A third column rushed rapidly through the mountainous terrain from the south-west and British troops, after the invasion landing at Ali, swept on toward Messina Harbor along the eastern coastal road.

German resistance began to collapse in front of the main American column late yesterday afternoon after heavy long-range cannon were rushed up and opened fire against the Italian mainland, shelling Villa San Giovanni across the narrow two-mile strait.

Earlier in the day, the Nazi defences left on the ridges to slow the American advance put up a light screen of artillery, mortar and machine-gun fire of a harassing nature. Most of it came from the hills near Gesso, and its chief result was a direct mortar hit on an abandoned ammunition train near Rometta which blew up with a roar audible for miles.

But at dusk reconnaissance elements reached the intersection of the roads and in another hour had passed Gesso. Before 10 p.m., they were within four miles of Messina as the crow flies and six miles by road. The fate of Messina was then sealed and it was only a matter from there on in to proceed cautiously, because of the mines, to save needless casualties.

British Commandos Raid Coast 8 Miles Below City

By RELMAN MORIN
Associated Press War Correspondent

ALLIED HEADQUARTERS IN NORTH AFRICA, Aug. 17 (AP) — The American 7th Army surged into Messina today, writing a spectacular finish to the 38-day campaign in Sicily.

The German radio declared the last German and Italian soldiers had been evacuated to the mainland.

In the scarred streets of the sprawling hillside port of Messina troops of the American 3rd Division smashed at lingering enemy resistance in hand-to-hand fighting after reaching the outskirts at 8 o'clock last night.

They were the first to reach the city, but eight miles to the south British Commandos, after a devil-may-care landing from the sea in defiance of the enemy's guns on both sides of the Strait, had cleared the way for the approach of Gen. Sir Bernard L. Montgomery's British 8th Army.

American "Long Tom" artillery had already opened fire on the enemy in Italy across the two-mile wide Strait.

Withdraw in Italy

Fearful of immediate Allied amphibious attacks against the exposed Italian toe, Axis forces were observed carrying out demolitions in the Calabria region across the narrow waters.

The first indication of a possible enemy withdrawal up the Italian peninsula came as British naval batteries built a wall of gunfire around the foot of Italy to within 100 miles of Naples.

Meanwhile a vanguard of the British 8th Army, forced to deal with greater demolitions and to set back a strong enemy counter-attack, had leap-frogged to a point eight miles south of Messina by staging a commando-type landing.

The main force, an Allied headquarters communique said, was at Santa Teresa di Riva, approximately 20 miles south of Messina.

The complete occupation of Sicily, the entering wedge in the fortress of Europe, was only a matter of hours as the Allies wiped up hapless Italian forces left stranded by their German Allies.

(The German radio, in a broadcast recorded in London, conceded the fall of Sicily.

(It claimed German and Italian troops had been evacuated from Sicily with all their equipment "to the last machine-gun" after destruction of all military installations and harbor works at Messina.

("Not only all wounded but also several thousands of British, American and Canadian prisoners of war were brought to the mainland," it said. Maj.-Gen. Hube was said to have been the German General in Sicily.

Sea-borne Attack

(Although admitting the withdrawal was carried out in the course of "heavy fighting," the Germans pictured the evacuation as a "first-class achievement" which had "concluded the fight for one outpost of Europe.")

The advance of the Americans, 14 miles from Messina yesterday, was facilitated by a sea-borne landing. This latest landing of amphibious troops by the U.S. Navy, the fourth such attack in the last 10 days, was near Milazzo and was carried out yesterday morning without great difficulty.

Meanwhile, a naval communique announced strong Allied Naval forces were blockading the foot of the Italian Peninsula from the Gulf of Policastro, 150 miles up the west

Gets Cabinet Post

Leslie M. Frost, Progressive Conservative member in Victoria-Haliburton riding is expected to be honored with the post of Provincial Treasurer, when the new Ontario cabinet is sworn in this afternoon. He is a lawyer in the town of Lindsay, and a veteran of World War 1.

Americans Lose 419 Bombers

By ROBERT N. STURDEVANT
Associated Press Staff Writer

LONDON, Aug. 17 — (AP). — The United States 8th Air Force has demonstarted its ability to reach the heart of Germany at will with devastating daylight precision raids, Brig. Gen. Frederick L. Anderson declared today in a review of the force's combat operations which began exactly one year ago.

In that year the air force has developed from a nucleus to a powerful striking force, has showered 15,733 short tons of bombs in 82 missions on Axis targets, and has proved its efficiency by blasting European objectives in the face of the strongest opposition, Gen. Anderson said.

For a loss of 419 bombers, planes of the air froce have destroyed 1,728 enemy craft, possibly destroyed 671 and damaged 870 since a formation of 12 Flying Fortresses launched operations with an attack on the railway yards at Rouen on Aug. 17, 1942, his review said.

Win First Round

Anderson said the first year of combat had proved the defensive power of American heavy bombers against the strongest Axis fighter opcosition.

The big bombers "decisively won the first round in the daylight battle of Germany during July," Anderson said, when they

AMERICANS LOSE

Gen. Badoglio Harassed On 2 Sides

Allies At Door; Citizens Clamor For Peace

AT THE SWISS-ITALIAN FRONTIER, Aug. 17—(AP)—The three-weeks-old Badoglio government was described in reports reaching here from Italy today as squeezed between the increasing pressure of the demands of its people for peace and the adamant stand of its Germany ally that Italy remain in the war.

The government's problem of feeding and sheltering hundreds of thousand of inhabitants of bomb-blasted Milan, Turin, Genoa, Naples, Rome, and other cities was intensified by crippled communications.

Nazis Strong

An Italian diplomat was quoted as saying German-Italian relations were now so strained "it is scarcely an exaggeration to say the Third Reich henceforth intends to consider Italy as an enemy country."

The Zurich newspaper, Neue Zurcher Zeitung, said Foreign Minister Raffaele Guariglia went to Treviso, Italy, for conferences with German leaders Aug. 6 "with the avowed purpose of getting Italy out of her obligations and the war," but returned to Rome after being told by Foreign Minister Von Ribbentrop this was impossible.

The newspaper said Ribbentrop demanded fulfillment of Italian obligations in continuance of the plan of defence of Northern Italy and notified the Italian minister that Germany intended to execute the plans regardless of the consequences to Italy.

Roosevelt May Arrive Tuesday

QUEBEC, Aug. 17 — (CP). — The Governor General and Princess Alice are here for one day stay in the Citadel vice-regal residence now occupied by Prime Minister Mackenzie King, Prime Minister Churchill and Mrs. Churchill and will entertain to-night at a dinner at which observers here believed President Roosevelt will be one of the distinguished guests.

Their Excellencies came from Ottawa on private cars attached to a train. They are making their headquarters on their cars and will leave for Ottawa late tonight.

Arrival of President Roosevelt to join Mr. Churchill for the final meetings of their sixth war conference has been a subject of great speculation and no time has been made public.

But the arrival of Their Excellencies for a one day stay, their first visit to the conference centre was looked upon as a significant move at this stage.

This morning Their Excellencies received Mr. and Mrs. Churchill and Mr. King and at luncheon the Churchills were to be host in the Citadel.

At the dinner this evening Their Excellencies will be hosts to the guests whose names were not given.

Shot Governor

TOLUCA, Mexico, Aug. 17 (AP). — Fernando Ortiz Rubio, son of former President Pascual Ortiz Rubio of Mexico, was sentenced yesterday to 14 years in prison for the killing of Gov. Alfredo Zarata Albarran of Mexico State. He pleaded self defence.

Italy Faces Levelling Of Her Cities

Milan And Turin Samples Of Allied Plan While Germans In Control

By DEWITT MACKENZIE
Associated Press War Analyst

After Messina, — what?

The terrible devastation wrought by Royal Air Force bombers during the past few nights in ancient Milan, richest industrial city of Italy and next to Rome the largest metropolis of the country, may well presage its destruction, if indeed it hasn't already been virtually levelled.

That statement may come as a personal shock to a lot of people who, like the writer, know Milan well and have loved the old place. Still, war is a shocking business and this is one of the cities which must play the price of Mussolini's iniquity.

Milan not only is the centre of great war industries, but it lies north of the River Po, which runs across Northern Italy from west to east and provides the strategic line of fortifications which the Germans have manned as a defence against any Allied advance from the south. Thus this city and other unhappy places like neighboring Turin, will remain in German-held territory and be subject to continual bombardment even if the rest of Italy surrenders.

All Must Suffer

As things now stand, the Huns are likely to sacrifice all Northern Italy in order to delay the surge of the Allies toward victory.

Whether the rest if Italy must suffer a similar fate depends on old Marshal Badoglio's government.

Thus far the only thing Badoglio has done to try to save his country has been his unsupported declaration that Rome is an 'open city,' a statement which his government has the grace to admit can't be expected to save the Eternal City unless it's proven. Pending production of such proof the bombardment of Rome will have to proceed if the exigencies of war demand it. The capital not only is the strategic railway centre of all Italy, but it is filled with war industries.

There are two chances, it seems to me, that the portion of Italy south of the Po may shortly find peace.

One is that the peace demonstrations of the people may swell [illegible] such proportions the government will be compelled to surrender.

The other is the possibility that now the Germans have withdrawn as many of their troops and as much of their equipment as they can from Sicily, Hitler may release Badoglio from further Nazi bondage and let him save what he can by surrender.

Slightly Batty

SAN FRANCISCO, Aug. 17. —(AP). — Police Inspector George Page stopped a pedestrian and asked him why he was walking backward. "Because I like to read the expression on the faces of the people who are following me," replied an obviously sober man. The officer shook his head and walked off. So did the man—backwards.

Allies Plan Great Offensive

U.S. Leader Implies Heavy Bombings Will Go On

WASHINGTON, Aug. 17 (AP) — The United States and the world had from one of President Roosevelts closest confidants today a pronouncement that the initiative in the global war, now held by the Allies, "is of no value unless followed vigorously with great forces."

Broadly implying the imminence of further grand scale operations against Nazi-held Europe, James F. Byrnes stressed the success of aerial bombardment to date, but said the president had authorised him to say that "the major battles lie ahead of us, not behind us."

Some observers drew an inference from his talk that attack by air, rather than by sea and land forces against numerically superior odds, might continue to keynote offensive strategy, for the time being at least. There were indications the decision in this connection may be reached in the Churchill-Roosevelt parleys at Quebec.

Byrnes, Director of United States War Mobilization, called for greater effort and sacrifice on the home front in order to press home the initiative already gained. In return, he promised a "substantial reduction" in the cost of living necessities and gave assurance of ultimate victory.

Invasion Jitters Hit Norway

Quisling Mobilizes To Meet Allied Attack

STOCKHOLM, Aug. 17—(AP).— Thousands of members of the Norwegian police were being inducted into the armed forces to-day under a decree signed by Premier Vidkun Quisling, apparently acting under direct orders from German occupational authorities haunted by fears of an Allied invasion.

Members of Quisling's personal bodyguard, and his storm troopers were also ordered militarized under the decree.

(A London broadcast recorded by CBS and a Swedish radio announcement heard by Reuters News Agency said a state of siege had been proclaimed throughout Norway. CBS also quoted the Berlin radio as saying the Swedish newspaper Degens Nyheter had reported German troops in Norway were being heavily reinforced.)

Quisling's decree forcibly mobilizing the Norwegian police into the army also placed Norway under virtual martial law. His action followed the execution of the Norwegian civil police chief, Gunnar Ellifsen, on charges of disobedience to German authorities.

Quisling bolstered his decree by taking stern emergency steps to "maintain peace and order" in Norway as conditions in the country appeared to be growing critical.

ARMED GUARDS PATROLLING SECTIONS ON BRITISH SOUTH COAST

Coastal Area Cleared For Invasion

Hurl All Planes Into Massive Aerial Offensive

By JAMES F. KING
Associated Press Staff Writer

LONDON, Aug. 17 (AP) — Great Britain began clearing all non-residents from her barricaded coastal areas today as a conviction gripped the country that the hour is near for a powerful new blow at Hitler's European fortress.

Invasion talk was heard everywhere amid cries in both Britain and Russia for speedy opening of a second front.

From every angle new moves appeared directed at invasion, but whether in the Mediterranean, the Balkans or across the English Channel was the Allied War Chiefs' secret.

Significant, however, were these developments:—

1. Heavy and repeated air raids on Axis airfields in France — natural targets as a prelude to any new offensive.

2. Declaration of a state of siege in Norway by apparently jittery German occupation authorities.

3. Virtual isolation of Italy by severance of that country's telephone and telegraphic communications with Switzerland, giving rise to the belief important developments might be in the offing.

All-out Raids

(Dispatches from the Swiss border town of Chiasso quoted the Swiss Telegraphic Agency as saying the situation throughout Italy "remained grave, with possibility of radical changes from one moment to the next.")

4. The British War Cabinet was reported in constant session all day yesterday, keeping in direct touch with Prime Minister Churchill in Quebec.

5. The diversion of R.A.F. heavy bomber attacks from German war industries to an all-out attempt to knock Italy out of the war by destroying her industrial facilities.

As the Allies' great aerial offensive roared on, every available plane based in Britain was repjorted being thrown into the fight—a further indication an all-out drive might be imminent.

Armed guards and barricades blocked all approaches to certain towns on the British south coast, which was under the biggest ban since the outbreak of the war. But the feeling of nervous expentancy this time was far different than in 1940 after Dunkerque, when a German invasion was expected momentarily.

Everyone attempting to enter the proscribed areas had to prove his identity at the point of a bayonet. In towns inside the areas house-to-house checks were carried out by military authorities while curfews were rigidly enforced. Railroad stations were crowded with persons leaving the districts and many families who have had week-end bungalows at vacation resorts for as long as 15 years wre ordered to leave because they were not "permanent residents."

Civilians in the coastal towns were forbidden to use cameras, binocu-

Happy Churchills Re-united In Quebec

Ahead of Britain's Prime Minister, Mrs. Churchill descends the steps of the train that brought her husband and daughter Mary back from the United States. Mr. Churchill stepped from the train to a waiting car without a coat despite a rain storm. It was evident to newspapermen present that neither Mrs. Churchill's cheerful enthusiasm nor her husband's cigar were affected by the weather.

MORE ABOUT—

Bomb-Battered

Continued from Page 1

coast and half way to Naples, to Cape Rizzuto on the heel of the boot.

The sea forces have been sweeping nightly into Messina Strait, it was announced, and have carried out a series of bombardments of the Italian coast.

Scalea on the south side of the Gulf of Policastro was heavily shelled Saturday night, with 1,000 shells thrown into the port in the space of 30 minutes.

Presumably the fear that the Allies would launch other amphibious operations, this time against the mainland in pursuit of the enemy, accounted for the demolitions observed by British destroyers off the south coast of the Italian toe.

Meanwhile, large formations of Allied planes, thundering heralds of the Allied advance, pounded communications in Italy and to lesser extent in Sicily with hundreds of tons of explosives yesterday.

A large force from the Middle East Command attacked Foggia, Tortorella and San Nicola air dromes in Southern Italy with more than 300,00 pounds of bombs and shot down 43 of the nearly 100 enemy fighters that gave them a fierce battle. Eight bombers were lost.

Massive Air Raids

The full power of the Northwest African air forces was thrown into the battle to prevent the Germans and Italians from regrouping on the mainland, slashing at roads and bridges in an effort to keep the tired enemy from reaching points of safety inland.

The Viterbo airdrome, 45 miles north of Rome, was again hammered.

Ten barges were destroyed and 16 damaged and four merchant vessels torpedoed by Allied aircraft in harassing attacks on shipping and blows at the last evacuation efforts of the enemy. Two of the ships were caught 35 miles north of Naples, another close to the mouth of the Tiber, and a fourth near Imperia on the west side of the Gulf of Genoa.

The Germans had no time to lay their usual network of mines, and the Americans captured an entire train of enemy trucks as they moved up.

But an almost complete eclipse of the moon early Sunday night gave the enemy an unusual opportunity to escape.

From a standpoint of logistics, an invasion of the Italian toe appears the most feasible of any of these possible operations. Large ships are hardly necessary to ferry troops and equipment across the two-mile-wide Messina Strait.

The Sicily campaign elicited some evidence that might weigh heavily on any consideration of the next move. It showed the Italians wouldn't fight any better in defence of their homeland than they fought in North Africa.

If the bombing of Italian cities — which will be immeasurably easier from the new fields in Sicily—fails to knock Italy out of the war, then the forces for physical occupation may pour through Sicily onto the mainland.

But, curiously enough, a big map that covers the entire wall of one of the rooms at Allied Headquarters shows the whole Mediterranean area from Gibraltar to Haifa.

Sinister Salonika

Gen. Dwight D. Eisenhower's eyes rove restlessly from one end of the map to the other and no matter how carefully you watch him, you can't tell what they're seeing.

Sometimes the general's eyes move speculatively across the Mediterranean east of Greece and up to Salonika.

Salonkia has a sinister ring to German ears. There was a "central European fortress" during the first Great War, and the first breach in its walls came from Salonika. Serbian mountaineers led French Marshal Louis Franchet d'Esperey's Allied army up the Vardar Valley, putting Bulgaria out of action.

To defend Bulgaria again would force Hitler to put more troops there than he can afford—particularly when a Balkan attack might only be a diversion to conceal a real invasion movement elsewhere.

Sicily is like the hub of a huge wheel and the spokes radiate in every direction from it.

Bishop Misses Death

BERNE, Aug. 17 (AP)—The Berne newspaper Der Bund reported yesterday that Alfredo Ildenfonso Cardinal Schuster, Archbishop of Milan, barely escaped death in the R.A.F. raid Sunday night on Milan.

Citizens Exceed Quota By 87 Depth Bombs

The "Stamp Out the U-Boat Campaign" resulted in the sale of 154 depth charge posters in the County of Peterborough in the five weeks allotted the campaign. Announcement of the final tabulation of results was made to-day through the National War Finance Committee, in charge of the drive.

Original goal of the drive was set at 67 completed posters, but so magnificent was the response of patriotic citizens that this objective was surpassed in early stages of the campaign.

Much of the credit and honor for the city's fine showing goes to the committee members who organized the details that made for the smooth running of the drive, and to the many workers who contributed time, effort and ideas in the interest of an important cause.

Stands High.

In relation to its original goal, Peterborough is expected to stand very high among municipalities in the poster campaign, but its exact position cannot yet be ascertained since all returns for the provinces are not in.

The 154 posters were filled as follows: Examiner Carrier Boys, 40; Bank of Toronto, 14; Canadian General Electric employees, 14; Bank of Nova Scotia, 12; Royal Bank, 9; Bank of Commerce, 8; Bank of Toronto, 7; Dominion Bank, 5; Canadian National Ticket Office, 5; Bell Telephone Co., 4; Canada Packers employees, 3; C.W.V.S., 3; Stamp Out Hitler Club, 3; Post Office, 3; Town of Lakefield, 3; Peterborough County, 3; Canadian Department Stores, 2; Grafton & Co., 1; J. Steinkrauss, 1; Metropolitan Life Insurance, 1; Mutual Life Insurance, 1; Great-West Life Insurance, 1; Dominion Life Insurance, 1; Confederation Life Insurance, 1; J. J. Duffus Co., 1; J. K. Hughes Co., 1; Cherney Bros., 1; Y.M.C.A., 1; Verne Selkirk Men's Wear, 1; T. Demos, 1; Robt. Neill Co., 1; Peterborough Lawn Bowling Club, 1; Paris Cafe, 1.

NEW DECORATION

The ribbon of the George Cross is dark blue threaded through a bar adorned with laurel leaves.

Fights For Life

Little Patricia Malone of New York, pictured ABOVE, who was given but seven hours to live, is gaining in her gallant fight for life, since the miracle drug, penicillin, was released by the U.S. army to give her a chance. The same drug was flown to Canada to save the life of 10-year-old Sheila Rockwell of Aldershot, Ont., who is now showing improvement in the Hamilton General Hospital. She is suffering from septicemia (blood poisoning).

The Stars Say

By GENEVIEVE KEMBLE.
For Tuesday, August 17.

ACCORDING to the lunar transits active on this day, it may be difficult to gain much headway or progress in any of the affairs or objectives of life. A stubborn obstacle or impediment seems to block all manner of aims and ambitions. Industry, application, attention to details and determined effort to bridge over until times are more propitious would be advisable. Use extreme precaution in all contracts or agreements.

If Is Is Your Birthday.

Those whose birthday it is are urged to a policy of patience and perseverance during the year, which seems beset with obstacles, frustrations and impediments, making it difficult to make much progress in any direction. A depressed condition of the energies, mental, physical and psychological may be at the root of such stagnation or want of achievement.

Inspector Gives Permit To Shantz

Renovations in the premises of Gordon Beverages at 583 Water street have received the approval of Sanitary Inspector MacPherson who renewed yesterday afternoon the operating permit.

"We want to be fair to Mr. Shantz and point out that in this demand by the city's Departmentt of Health there was no reflection on the quality of Gordon beverages," Mr. MacPherson said. "The public would probably understand that if any question of quality of product were to arise at any time and with any producer the product would be withdrawn from its market.

"At no time was the quality of Gordon beverages mentioned at meetings of the Board of Health, but for the maintenance of the sanitation of the premises we recommended and urged and finally ordered certain improvements. They have now been completed to the satisfaction of the department."

Yugoslav Troops Burn Wheat Harvest

ISTANBUL, Aug. 14— (Delayed) —(AP). — Yugoslav guerillas, rallying to the battle cry "Not one grain of wheat for the Germans," are waging an intensive campaign to sabotage the harvest and communications in Serbia, Montenegro and parts of Bosnia and Albania, reports from the Balkans said today.

The slogan was said to have been taken from an order issued by Gen. Draja Mihailovic to his guerilla chieftains.

Despite German efforts to stamp out the sabotage, fires in wheat fields and collisions between Nazi supply trains were reported increasing.

Fox Epidemic

KINCARDINE, Ont., Aug. 17 — (CP)Foxes in the southern part of Huron Township are causing considerable concern to poultry raisers and some farmers report entire flocks have been wiped out by the marauders. Turkey flocks have suffered most.

HOG PRICES

TORONTO, Aug. 17 — (CP). — Dressed weight and live weight prices were unchanged on bacon-hog markets reporting early today.

Liveweight: Chatham $12.10.

Dressedweight: Barrie $16.75 delivered; Hamilton $16.75 delivered, London $16.60 delivered; Stratford $16.60 delivered; Brantford $16.30 plus transportation; Hull, $16.30 plus transportation.

Ration Books Distributed From Lyceum

At the request of the Local Ration Board, the Women's Voluntary Services have again undertaken the distribution of Ration Book No. 3, to those citizens who will not be served through local industries. The area covered by this Centre consists of the city of Peterborough, and the townships of North Monaghan, Otonabee, Douro and Ennismore.

Through the co-operation of Rev. Father Finn, the Lyceum on Simcoe street will be used again as a distributing centre on August 25, 26, 27, 28 and will be open from 9.30 a.m. to 8 p.m. daily.

During the issuing of the last ration book the work of the volunteers was considerably increased because application cards were incorrectly filled out. To avoid this, and the attendant delay, citizens are asked to follow carefully the instructions given below.

If 16 Years of Age or Over

1. Do NOT detach card from Ration book. This will be done where you get your new book.

2. EVERYTHING should be printed in block letters, in ink, EXCEPT Signature which should be written, (as for signing a cheque).

3. Prefix and Serial-number — means BOTH letters and numbers that appear on the front of Ration book No. 2.

4. Signature is very important. Write in your own hand writing.

5. In filling out a CHILD'S card— under 16 years of age:

Put in prefix and serial number, last name, first name, etc., in print as directed.

In the space for Signature, the Parent or Guardian writes his or her OWN signature, not the child's.

6. If someone other than a member of your own family brings in your books, the names, ages etc., should be clearly written, as this person will have to sign his or her name, and be prepared to certify that all information is absolutely correct.

7. Where a 16 year old, or one near that age, presents the books for a family, he or she should have Registration card as proof of age.

8. Where a new book will be requested for an infant the Parent should apply first to Ration Administration, Barrie, Bldg.

The public is reminded that although Wednesday August 25th, is a half-holiday the office will be open all day for issuing books.

Captured Ports Conceal Moves

By RELMAN MORIN
Associated Press War Correspondent

ALLIED HEADQUARTERS IN NORTH AFRICA, Aug. 17—(AP)— The wedge-shaped island of Sicily is the entering wedge driven into the fortress of Europe.

Tactically, the Mediterranean doors are wide open.

With the complete occupation of Sicily, which won't take many more hours, the Allies possess a big advance base from which they can hop over into the Italian mainland, nip off Sardinia ad Corsica or immobilize Southern Italy while Greece is retaken.

The possibilities for the next move are virtually unlimited.

The Sicilian harbors of Palermo, Catania, Augusta and Syracuse are fully capable of accommodating the huge fleet necessary for another operations.

But that's one advanage in having Sicily—an accumulation of Allied shipping there wouldn't necessarily mean the main thrust was coming from there.

It might disguise an expedition moving out from Tunisia toward Corsica, Sardinia or even Southern France. Or it might mask one assembling in the Middle East and aimed at the Balkans. Allied possession of Sicily automatically redoubles the Axis problem of knowing where to commit their main forces on the shores of the Mediterranean.

Large Axis Fighting Force Trapped Along Coast; Evacuation Activity Stops

ALLIED HEADQUARTERS, North Africa, Aug. 17 — (AP). — Advance American elements to-day entered the city of Messina, last Axis stronghold on the island of Sicily. Troops of the American 3rd Division reached the outskirts of the city at about 8 p.m. last night, advices from the front said, beating the British 8th Army—which has been pushing up the east coast of the island against suicide delaying forces — to the goal. The vanguard of the 8th Army was reported to have reached Santa Teresa di Riva, approximately 20 miles south of Messina.

News of the entry of the American troops into the city virtually rang down the curtain of the six-week-old Sicilian campaign.

The 3rd Division, which had twice outflanked the Nazis on the Sicilian north coast by amphibious operations last week, raced the final 14 miles from Milazzo to Messina in 24 hours as German resistance broke completely.

(Reuters News Agency in London reported a special communique from Allied headquarters in North Africa saying that a third commando type landing was made by British troops on the Eastern Sicilian coast early yesterday morning only eight miles from Messina.)

Door Slams Shut

With American forces in Messina the last avenue of escape was closed for the Axis forces still attempting to resist the advance of the British troops further south.

How many Axis troops remained in the trap was not immediately clear. For several days, however, the Germans have been moving men and equipment across the narrow strait of Messina to the Italian mainland in an attempt to salvage something from the debacle, which equalled the smashing defeat suffered by their crack Africa corps in Tunisia.

A path for the American advance elements which penetrated into Messina was blasted by heavy artillery, which opened up a bombardment of the city at 3 a.m. today.

Little resistance apparently was encountered by the American forces, which swept past minefields and obstacles left by Nazi engineers in an

Cheese, Produce and Livestock

TORONTO FRUIT

TORONTO, Aug. 17 — (CP). — Wholesale fruit and vegetable prices were unchanged here today with the following exceptions:

Domestic: Tomatoes, 50c to 65c; Canadian peppers 75c to 90c; peaches, 1st grade 90 cents per 6 qt.; 2nd grade 60c to 75c; cucumbers 30c to 40c, six quart.

WINNIPEG GRAIN.

WINNIPEG, Aug. 17 — (CP). — Wheat futures dropped ⅝ cent a bushel yesterday in a dull session on the Winnipeg Grain Exchange.

Dealings in the pit were mostly local and minor, but exporters and shippers were credited with some buying. The purchases by exporters were believed to represent a continuance of Saturday's business with the United States Commodity Credit Corporation.

Trading was light in rye futures and was mostly intermarket spreading with Chicago.

CAMPBELLFORD

Salvation Army Growth Given In Detail

CAMPBELLFORD, Aug. 17 (ENS) —The work of the Salvation Army in both war and peace was the subject for an interesting talk by Captain Alex. Turnbull, at the noonday luncheon of the Rotary Club here on Monday.

Captain Turnbull traced the founding of the Army by William Booth in East London in the year 1865, when the group was known as the Christian Mission. It was decided that a military type of organization would be best adopted to wage the fight in the interest of human welfare and Christianity, so in 1878 the name of the group was officially recognized as the Salvation Army. William Booth became the first general of the Army and within two years of the actual naming of the order the movement had spread to the United States and subsequently to Canada, Australia, France, Switzerland, New Zealand, Sweden, India, Ceylon, South Africa, Germany, Denmark, Holland, Italy, the West Indies, Norway, Finland, Belgium, South America, Dutch East Indies, Korea, China, Czecho Slovakia.

"Despite many restrictions on religious orders in Germany the Salvation Army continues to function in that country, where Colonel Mary Booth, granddaughter of the founder, was in charge up to the time of her internment. Col. Booth was subsequently released and was included in a convoy of Poles who reached England. But the work of the Army continues."

Many Jobs

The speaker reviewed the many branches of social work undertaken by the Army, and this included hostel conducted for homeless and unemployed men, Sunset Lodges for old women, Industrial Homes and centres in conjunction with which a fleet of trucks is operated for the purpose of gathering old clothes and furniture.

Much valuable work is done among the jail prisoners and in the police courts across the country, where often a word from the Salvation Army saves a man from jail. In the Toronto area the police court work is in charge of Colonel Bunton, whose name is familiar to many. One of the most important phases of the Army's wartime work today is that of providing homes for unmarried mothers. In these homes, fifteen of which are in operation across Canada, girls are provided or irrespective of race or creed.

A branch of its activity in which the Army is particularly proud, is its Bandsmen, which number some 50,000 in what is known as the Senior category. Each bandsman is enrolled as a soldier of the Salvation Army and he must not only purchase his own uniform but must also pay into the band fund for the upkeep of the band. So vast has the Salvation Army band movement become that today they are able to operate their own musical instrument factory in St. Albans, England.

Real Musicians

The Army also issues its own band music and much of it is composed and arranged by Salvationists who present the compositions to the Army without payment of any kind. In Canada alone there are an estimated 3,000 Senior bandsmen, and these comprise men from every walk of life. As an example of this the speaker cited the Dovercourt Band in Toronto, where the Bandmaster is an executive of the B.A. Oil Company, and Deputy Bandmaster a printing foreman.

Twelve months before the war broke out the Salvation Army offered the services of its personnel to the government and now in addition to the Canteens and various other Red Shield Services it maintains, the Army now has 100 Canadian officers and supervisers overseas. Some of these are now with the front line troops in Sicily. The war has taken its toll of Salvation Army properties in England where some 355 have been bombed. The biggest single loss was to the International Headquarters in London.

Credentials Examined In Sicily

To guard against possibility of Axis troops posing as civilians to escape internment, military policemtn, with the help of a native official, examine credentials of citizens of the town of Nicosia, Sicily. Two M.P.'s look on as Captain Raymond R. Regan, of Buffalo, New York, assistant provost marshal in Nicosia, looks over the papers.

Hastings Boy Hurt

Pte. Jack McCarthy, son of Mr. and Mrs. William McCarthy of Hastings, has been reported wounded in Sicily, on July 18, with the Hastings-Prince Edward Regiment. He was one of the first to enlist in this unit in 1939.

New under-arm Cream Deodorant safely Stops Perspiration

1. Does not rot dresses or men's shirts. Does not irritate skin.

Mrs. Milton Clysdale and family, Peterborough, are spending a week with her parents, Mr. and Mrs. Alexander Young.

Mrs. McNab of Toronto is visiting her niece, Mrs. Ellis Isaac and Mr. Isaac.

Mrs. Ogden, Mimico, is with her mother, Mrs. Thomas Robson.

CHILDREN LOOKED AFTER

Bristol now has 21 war-time nurseries affiliated to the National society of Children's Nurseries.

WartimeRackets Rob Citizens Of Large Sums

"The ancient and dishonorable order of wartime swindlers is still in existence," Rotarian Allen Haskell of Toronto, general manager of the Toronto Better Business Bureau, warned the members of the Peterborough Rotarian Club in an address at the weekly luncheon at the Empress on Monday afternoon on "Wartime Rackets." The speaker added that the swindlers were still operating because business men seemed to find it easier to pay out sums of money to fraudulent promoters than to insist upon getting the facts.

Rotarian Haskell, who was introduced by Rotarian T. B. McArthur, began his talk with a reference to the work of the Better Business Bureau. The Toronto branch, he said, was one of five in Canada and 85 in the United States, and last year over 8,000 inquiries were dealt with.

The speaker told of a local case in which a young woman had made inquiries of the Bureau concerning an advertisement that had appeared in The Examiner. The co-operation of the Peterborough Chamber of Commerce which was associated with the Bureau was obtained and as a result of information the Toronto organization had in its possession as to the identity of the advertiser, the girl was saved the investment of her money in a racket, and other people were also protected. The Examiner, he said, had willingly co-operated by withdrawing the advertisement, the speaker said.

In order that the Bureau might function most efficiently, the speaker said that the co-operation of business men and of the public generally in reporting anything that seemed suspicious, was essential.

All Susceptible.

Quoting Dr. Johnston's famous remark that patriotism was the last resort of a scoundrel, Rotarian Haskell said that the ambition of Canadian people made them particularly susceptible to wartime racketeers.

The speaker pointed out that under the War Charities Act every scheme for raising money for war charities must be registered and also that at least 75 percent of the gross money collected by any scheme for such purposes must go to the war charity concerned.

Rotarian Haskell told of some of the rackets the Better Business Bureau had had to deal with, among them a scheme by which subscriptions were sought by telephone in aid of a farewell party for soldiers going overseas and a letter writing club by which five cents was to be collected from householders, for the purpose of sending letters to the members of the armed forces overseas.

Photograph Gyp.

The enlarged photograph racket was another that was still causing trouble, he pointed out. "This must have started in the time of Adam," said the speaker, "but it is still going strong and is the worst racket with which we have to deal."

Get-rich-schemes were promoted to persuade Canadians who had invested in Victory Bonds and War Savings Certificates to cash them in and put the proceeds into various rackets. Rotarian Haskell warned against any such course. In the first place the proposed scheme might turn out to be a racket; secondly, it was real patriotism to keep the bonds and war savings certificates that had been purchased; and thirdly, such bonds and certificates were the best investment one could make.

The speaker advised his hearers that the best way to curb these rackets was to see that the facts were brought out. These dubious schemes could not stand the light of day and the promoters folded their tents like the Arabs whenever there was publicity for their actions.

Rotarian Ken Currie expressed the thanks of Rotarians to the speaker for his timely address.

She Sobered Up

SALT LAKE CITY, Aug. 17 — (AP)— Mrs. Elizabeth Van Meurs, who was sentenced last week to 30 days for intoxication, told the Judge she was to be married on Monday. She was—and the sentencing Judge officiated. Then she returned to spend 22 more days in jail.

GETS SEVEN-YEAR TERM

The President of Eire is elected by direct vote of the people for a term of seven years.

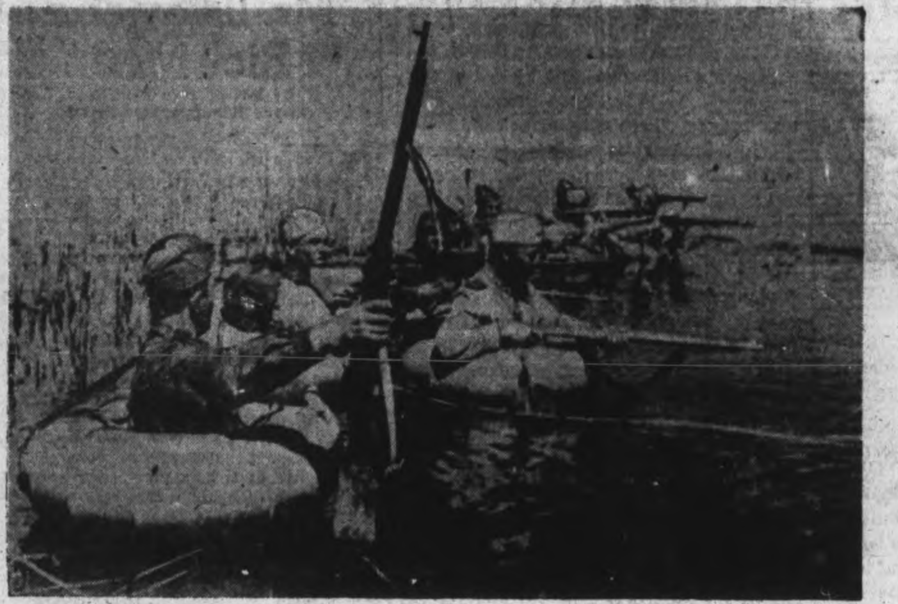
Prime Minister Mackenzie King and Mrs. Winston Churchill at a reception at the Chateau Frontenac, Quebec.

"Duck" Shooting On The Kuban Front



Looking for all the world like a group of sportsmen in new-type duck blinds, these are Red Army sharpshooters in the one-man rubber rafts they used to navigate in the Kuban swamps during the June Russian offensive against the Nazi armies. Guns ready, the men move toward an island held by the enemy.

Sailor Suffers Shrapnel Injury

STOKER "JOE" HEWIE

After some weeks of silence, Mr. and Mrs. Wallace Hewie of Western Avenue have received word that their son, Stoker Gerald Hewie (Joe) was wounded with shrapnel in his stomach while on convoy duty in the Mediterranean during the early stages of the Sicilian campaign.

He has been a patient in a hospital in Aberdeenshire, Scotland, and he was operated on a week before he wrote his parents on July 15. This is the first word they have, no contact having been made by Royal Navy officials.

The letter stated that he was beginning to get up and around and that he hoped to be able to have a leave soon. He enlisted about two years ago and crossed to England and volunteered for service with the Royal Navy. A brother, Pte. Bernard Hewie, is at the Peterborough Training Centre.

COBOURG

Halligan Charged With Draft Evasion

COBOURG, Aug. 17 — (ENS)—Charged with draft evasion, Kenneth Halligan, age 21, of Haldimand Township was sentenced to 15 days in jail by Magistrate R. B. Baxter yesterday. The charge was laid by Karl Lockwood of the R.C.M.P., Cobourg. Halligan told the magistrate that he didn't know what he was supposed to do when instructed by the R.C.M.P. that he had failed to report. The accused said that he had formerly lived in Hamilton but was now working on his father's farm.

Corporal Lockwood told the court that the youth had been given plain insructions that he was to have his address changed on his registration card and to notify the authorities that he had not yet been called up.

"Fifteen days in jail and you will then be turned over to the military authorities. I believe that you tried to evade the draft," said the magistrate.

Better Manufacturer

OTTAWA, Aug. 17 (CP) — Dr. Victor Conquest of Chicago, head of a party of U.S. chemists, biochemists and chemical engineers, who conferred yesterday with Canadian scientists on methods of manufacturing dried egg powder, said Canada is producing a better dried egg powder than the United States.

COBOURG

Two Boys Sent To Reformatory

COBOURG, Aug. 17.—(ENS). —"The Chief of Police from Port Colborne recommends that you get the lash," commented Magistrate R. B. Baxter before sentencing two Port Colborne youths yesterday. One of the youths, Nick Crinkovich, had a record, while the other, Raymond Robins, had no previous police record.

They were charged with breaking and entering the residence of Alan Meadows and Addie Boughen near Port Hope on July 31, having been arrested soon after the break-ins by Chief Goron Hardy of Port Hope and Provcincial Constable David Adair of Cobourg. The two were also charged with breaking into a Greek restaurant on Church street, Toronto and with theft of keys from the Mavetty Film Co. Crinkovich was also charged with failing to register in the national registration.

Magistrate Baxter gave Crinkavich one year definite and six months indefinite in the reformatory on breaking and etnering charges; 15 days for not registering and three months theft of the keys. The terms will run concurrently. Robins received the same terms, with the exception of the 15 day term.

"Apparently your parents have either given you up as hopeless or else they do not care what happens to you. Chief Davies from Port Colborne suggested that you get the lash. I am giving you this jail term so that you will realize that you can't break the law and get away with it," stated the Magistrate.

18TH CENTURY COTTON

Cotton was grown as far back as 1770 in Charleston, S.C.

LINDSAY

Judge Discovers Mother-in-Law Soldier's Trouble

LINDSAY, Aug. 17—(ENS)—"I did not assault my mother-in-law but only tried to stop her from striking me with her shoe while I was attempting to see my baby," commented Ralph O'Neill, a young soldier of Downeyville in the Lindsay police court when charged with assault by Mrs. Florence McLeggett, also of Downeyville.

Both the accused and his brother Gerald were found guilty of minor assault by Magistrate E. A. Gee and given suspended sentence. The Magistrate admitted that he had some sympathy with O'Neill and advised him to make up with his wife and place many miles between her and her relatives. O'Neill told the court that his wife had left the young child at the McLeggett's and that his mother-in-law had warned him to keep away. While on furlough he had, along with his brother Gerald, attempted to see his child and his mother-in-law had tried to prevent him from doing so.

When Mrs. McLeggett told the court that O'Neill had stolen the baby she was reprimanded by Magistrate Gee. "You can hardly call it stealing or kidnapping when a father takes his own child," he stated.

Appoint Timber Man

OTTAWA, Aug. 17 — (CP). — Appointment of K. M. Brown of Toronto as Deputy Timber Controller was announced yesterday by the Munitions Department.

Wounded In Battle

Pte. Harold Harvey of the Hastings-Prince Edward Regiment has been reported wounded in Sicily according to word received by his parents, Mr. and Mrs. Luther Harvey of Harwood, on Saturday. He enlisted in the Prince of Wales Rangers, going overseas in October, 1942, and transferring to his present unit. Prior to his enlistment, he worked at the DeLaval.

Peterboro Business College Ltd.

FALL TERM

—OPENS—

Tuesday, September 7th

NEVER BEFORE and possibly never again will there be so many wonderful opportunities presented to capable stenographers and office assistants.

Our Government and Business Firms are urgently in need of young people trained for office work.

Our office isopen daily to give full particulars regarding our courses. Phone for appointment. . . . Please enroll early.

EVENING CLASSES begin Thurs., September 23rd Ask for Information

Day Phone 4861
Night Phone 6431

Stamp Collecting . . . New Style

Canada's boys and girls are going strong on the new style in stamp collecting—War Savings Stamps. And so are thousands of grown-up Canadians—men and women in every walk of life—who see in War Savings Stamps another opportunity to help the nation pay the enormous cost of war.

Encourage the children with an occasional treat of sparkling, refreshing Canada Dry Ginger Ale. It's the nation's favourite thirst-quencher—pure and wholesome—the same high quality always, everywhere.

Enjoy World-famous "CANADA DRY" The Champagne of Ginger Ales

If your dealer does not always have all three sizes on hand, we're sorry—but don't blame him. Wartime conditions are responsible.

New Men At Queen's Park

Mr. George Drew has made clear his intention of forming a government for the province of Ontario from among his own supporters, without resort to a coalition. He is sure that his twenty-two point program will command enough support on its merits to enable him to carry on, and he may well be justified in this belief; surely several of his points will appeal to the C.C.F., and certainly a number of them should be congenial to the Liberals.

If any sort of reasonable agreement proves impossible in the Legislature it will be necessary to hold another election, and nobody wants that to happen. It is up to the members of the three parties represented there to get along as best they can; the experience may prove invaluable to them.

This is Mr. Drew's chance to show statesmanship of high quality, if he has it in him. In Opposition he has shown unusual qualities as a leader; he is a doughty fighter, and he can rally his forces for tremendous onslaughts. Now we shall see whether his abilities lie only in the field of criticism, or whether he is capable of strong and decisive action. He is in a position which will test his powers most searchingly. He is not in the position of a Premier who can prance and curvet before the public, assured of a big majority in the Legislature. Mr. Drew will have to be shrewd and circumspect beyond the ordinary capacity of men if he is to husband his scant forces, and add to them from the ranks of those who are watching eagerly for a chance to dismay him. If Mr. Drew can come through his first session successfully he will be able to count on increasing support in the Legislature, and he will have Ontario at his back, and not on it.

The March From Rome

In its current issue the *New Yorker*—the American magazine roughly corresponding to *Punch*—is kicking itself because it did not predict the fall of Mussolini. We hope that the editors will not take the matter too much to heart; after all, thousands of others missed the same opportunity. But as an unusually apt bit of predicting, we reprint here a little verse from *The New Statesman and* Nation, published on July 10, and written by their brilliant versifier "Sagittarius":

When Musso receives marching orders
He will march out of Rome (to the station)
Escorted no doubt by marauders,
And entrain for a new destination.
When he steams, by express, from the city,
Leaving behind his portfolio,
Leaving the Fascist Committee,
Leaving the peace to Badoglio,
Will he lead picked Black Shirts in formation,
All doing the passo romano?
Will Gayda be there, for dictation?
Will a place be reserved for Ciano?
Leaving Palazzo Venezia,
Will the Duce rush north to Torino?
Will he step off at Genoa and Spezzia?
Will he take the salute in Trentino?
Will he visit the Fuhrer's Headquarters?
Will he make a short stay at the Brenner?
Will he talk at Zagreb to reporters?
Will he winter at Nice? or Vienna?
Will he pack his Dictator's diploma
For use at his next destination,
Or when he has marched out of Roma
Will he steam into Waterloo Station?

To "Sagittarius" we award our special Prophet's Prize, for having landed a prediction right on the nose of history. And, by the way, we ourself take this opportunity of predicting the fall of Hitler some time within the next year or two.

The Sinatra Riot

The public bestows its favours capriciously; sometimes it adores great men, and sometimes little ones. As popular a man as there is in the world today is Winston Churchill, but his appearance in a crowd has never caused so great a sensation as that which arose when Frank Sinatra, the crooner, stepped off the train at Pasadena in California; for twenty minutes a crowd of women and girls screamed, shoved, pushed and fought to see him; one girl bit a newspaper reporter in the arm, and when Sinatra retired to a garage to talk to the press the women beat and kicked at the doors, seeking to fall upon their idol and tear him to pieces with affection.

Why? Sinatra, to our ears at least, is much like other crooners. His voice is undistinguished and his mannerisms are few. But his singing seems to rob great numbers of people—most of them women—of their reason. We do not blame Sinatra for capitalizing on his curious power; that is how he earns his living. But we should like to know what it is about his singing which provokes these extraordinary displays.

Idolatry of this kind is nothing new. When Franz Liszt first visited America women used to stalk him along the streets in order to seize upon his cigar butts as souvenirs. On one occasion a female admirer bought and framed the seat of a chair which had received the sacred impress of his person. The goings-on at the funeral of Rudolph Valentino still linger in the memory. There seems to be no explanation of these things. They are outbursts of a type of emotion which is foreign to normal life.

When women take a fancy to a special entertainer there is no holding them, it seems. Perhaps it is lucky that it does not happen often.

Price Control Must Be Maintained

In a speech which he made in Toronto on Saturday Mr. Donald Gordon told some home truths about our system of price controls which is, he said, in danger of being wrecked. Pressure from labour for wage increases, pressure from farmers for higher prices, the avidity of industry for profit, and the blackmarketeers and the lax magistrates who give light sentences for violating regulations are to blame, says Mr. Gordon. In the days when the war news was bad we were sufficiently cowed to abide by the regulations which were laid down for us; now, when the war news is good, we are thinking of an early peace, and have become greedy and impatient of discipline.

We think that Mr. Gordon is right. Fully half the Canadian people do not yet understand what price control is, or how it works, or how it benefits the country as a whole. The Wartime Prices and Trade Board have done their best to educate the public along these lines, but a large section of the public is always impervious to education of any kind. Impatience about controls is seen everywhere, and the self-discipline which is the base of national morale is being relaxed.

Too few people have got it through their heads that inflation means ruin for this country and for them, and that we can only avoid inflation by maintaining strong controls on buying, and draining off easy wartime money by means of taxes.

But Mr. Gordon spoke in his usual somewhat angry tone, and we think that he alienated the sympathy and respect which he should command by so doing. Mr. Ilsley never scolds and browbeats the public, and Mr. Ilsley is as well-liked and as obediently followed as any wartime Minister of Finance could be. Mr. Gordon's statement that the majority of Canadians were better off than they ever were before the war may be statistically true, but it merely rasps the feelings of the hundreds of thousands of white-collar workers who are decidedly worse off than they were before the war. Mr. Gordon's statement that the press plays up news of shortages, dislocations and the sacrifices of war is true, but the press deals in news, not in propaganda designed to make Mr. Gordon's job easier. The press is glad to do that, if it can, but it does not like to be nagged by an angry Government official.

However, Mr. Gordon's unfortunate manner has little to do with the case. The fact is that we must stick to our price control program or reap the reward of our greed. The former, hard as it is, is the easier course.

NOTE AND COMMENT

A man who marries for money frequently owes much to his wife.

The drunken driver's weakest excuse is that he didn't know he was loaded.

Paradoxical, is it not, that you must stop running to catch your breath?

When a clergyman telephones his bishop, we wonder, does the company charge it as a parson to parson call?

Drinking kerosene, we read, produces an effect similar to that of alcohol. That lit-up feeling, probably.

What many people remember most clearly about the horse-and-buggy days is that they personally had neither a buggy nor a horse.

Mr. Ilsley and Rich Men

By BRUCE HUTCHISON
(In the Winnipeg Free Press)

MR. Ilsley, a relatively poor man who rides to work on the street car, laid down in Parliament not long ago the interesting theory that because a man is successful in business he is not necessarily a crook.

This theory, of course, will be denied with contempt by a large part of the population. The opposite theory that successful men must be crooks is now so deeply embedded in our folklore that Mr. Ilsley need not think he can dig it out. The rich man, who used to be the ideal of North American society, the symbol around which our civilization was built, has lost all his glamour and sex appeal; also, a great part of his old power as a new class of professional managers, like Mr. Ilsley, has taken hold of society.

Nevertheless, it is high time someone said something for the businessmen who have administered our war program in Ottawa.

The figures of our production, the facts of our financial position, the level of our prices all show that somebody has done a remarkable job at Ottawa. Who did it? The fairies didn't. Nor was it done by accident or sleigh-of-hand, with mirrors. It was done, under the general guidance of the government, by the successful businessmen who were called to Ottawa to build the machine of management.

◇ ◇ ◇

WHO else could have done it? Who else were equipped, by experience and knowledge, for the job of management, which is a highly specialized and difficult profession?

When Mr. Howe started Canada's industrial revolution in the summer of 1940, when everything seemed lost, he had no time to consider theories of government or any nice questions of class distinction and class representation on his managing boards. He had to get production, anyhow, as fast as possible. He proceeded to perform for Canada one of the greatest public services ever performed by a Canadian. It turned out to be a miracle, and it was Mr. Howe's.

He did it by calling in men with experience in the various phases of production. It was not surprising that most of them were successful and relatively properous men. Before the war it had not been generally considered a disgrace to be successful nor any particular virtue to be a failure. Mr. Howe didn't care anyway. He would have taken anyone who could get the job done. He was concerned with production, not ideology, believing that bullets would win the war more rapidly than debating points.

Now that the job is done, now that we have amazed the world and ourselves by our production and management, it is suddenly discovered in the Canadian Parliament that the men who have achieved this result are dangerous, probably dishonest, and are protecting their own private interests—these men who have left their own businesses, their families and everything they value, to work 12 or more hours a day in a crowded office, to live in a hotel room, to eat bad cooking and to have less fun than their poorest employees at home.

◇ ◇ ◇

THESE men are defenceless against the attacks of the cheapest mountebank in politics. They have to take it when some cheap-jack leaps up in the House of Commons to announce breathlessly that the dollar-a-year men are taking over the country, and never intend to turn the government back to the people again. This while the dollar-a-year man is only waiting for the first day of peace to pack his bag, leap on the first train even if it is only a freight, and never set foot in Ottawa again.

There is certainly a grave danger to any state in a huge bureaucracy. It is, therefore, sound to demand that the inevitable wartime bureaucracy be dissolved as rapidly as possible in peacetime. But the critics of the present bureaucrats are not demanding that. They are demanding that the present bureaucracy be replaced by a new one, by professional and permanent bureaucrats, paid not a dollar a year by many thousands of dollars. They do not object to the principle of bureaucracy. They only object to the present incumbents because they are not poor and unsuccessful in life.

◇ ◇ ◇

IT is argued that another kind of bureaucrat will assure us justice in the post-war world, will never make mistakes and will administer our business so efficiently, so gently and sweetly, that we shall never suspect their presence.

This at least is arguable. But even if it is true, we have to remember that the dollar-a-year men were not brought to Ottawa to effect a social revolution and establish a brave new world. They were brought there solely to achieve production, to manage our economy and to make war.

This they have done for a dollar a year and they must be judged by that result, not by their failure to create an ideal society, which was not part of their assignment. It should not be forgotten either than under their management, and the policies approved by Parliament, we have incidentally achieved more equity in our society, a fairer division of wealth than ever before. This, on the standard rate of a dollar a year, is the greatest bargain in our history.

Unconsidered Trifles

The girl down the street looks so well fed that the neighbours believe she is going steady with the butcher boy.

◇ ◇ ◇

"Why didn't Rastus marry dat Coopah gal?"

"Oh, she done flunk at the last minute—wouldn't lend him a dollah foh t' git de license wif."

◇ ◇ ◇

A young man went away to find "something better." He got a job in an aircraft factory. He was so elated he wrote home to his folks: "Wish you were here with me. Am having time and a half."

◇ ◇ ◇

The Australian farmer came back puffing and blowing, and threw the rake in the corner.

"Good Heavens, Dad!" cried his wife. "Why did you want to chase that poor man off the farm like you did?"

"Reason enough," growled the farmer. "I've just had to buy you that new hat and dress, and I had to buy Daisy a present for her birthday, and I had to buy a new suit for David because he's gone crazy on that Burke girl. I had to buy a new set of harness for the buggy, and a cow rug for Strawberry, and I had to buy a license for the dog——"

"Yes, but what has that got to do with it?"

"That fellow asked me if I wanted to buy something for the mosquitoes!"

THE PRISONER'S SONG

Essays Delight the Reader

THE essay resembles good conversation. Good talk glances from one subject to another with no apparent method. Conversation may be entirely serious or wholly humorous, or it may be serious, and humorous by turns. So it is with the essay. Some writers of this literary form are usually dignified and serious while others are humorous and light. And there are those who combine the two elements in delightful mixture. Bacon approached his subjects in serious mood, and he treated them with majestic dignity. It has been said that he seems to write with his ermine on. Mr. Stephen Leacock, even though he may have chosen some important idea, approaches it in a spirit of fun and satire. There is truth in his comparison of English and American universities in "Oxford as I See It," but he handles it humorously. Lamb was a master in the mingling of humor and pathos. A delightful example of this is found in "Old China," while "Dream Children" reveals Lamb's delicacy and pathos.

Montaigne recognized the kinship of the essay to good conversation. His comment is so sane and shrewd that it must be given in its entirety: "It is a natural, simple and unaffected speech that I love, so written as it is spoken, and such upon the paper as it is in the mouth, a pithy, sinewy, full, strong, compendious, and material speech, not so delicate and affected as vehement and piercing—rather difficult than tedious, void of affectation, free, loose and bold."....

The purpose of the essayist is varied. Like the talker, he may have a serious intent, or he may have no reason for writing other than the sheer love of self-expression. He may try to provoke thought in the reader; he may attempt to convince; he may write merely to please. The act of composition may have given him pleasure, and he is glad to share his enthusiasm with the reader. The tone may be light and trivial, for the essayist does not always aim to dispense knowledge, to inform, or to teach. His purpose is rather to delight his readers and to stimulate thought.—From the Introduction, by Essie Chamberlain, in "Essays Old and New." (New York: Harcourt, Brace.)

Hot Apple Pie at 2 a.m.

(By JOHN GOULD in the Christian Science Monitor)

ONCE upon a time there was a person named Lolie B. Smith. I never knew her and can't tell you how she prospered, but I read a treatise she prepared on cookery which came to me through the Extension Service. Lolie's interest in good things to eat was of the calibrated sort—she was a penetrometer fiend, if you see what I mean. She was involved with heat units, conductivity of pots and pans, preheated ovens, and probably she got her Ph. D and lived happily ever after.

One of her most complicated experiments was with apple pies. She baked apple pies with calculating laboratory analysis until her tabulated summary was astonishing if not exciting. She weighed each piece of dough, recorded the fruit content, measured the heat, noted the contributing conditions—and concluded in her analytical way just how a person should bake an apple pie to get out of it at the lowest economic bracket.

For all I know, Lolie may be a culinary genius—but I doubt it. I doubt if that sort of approach to the apple-pie question results in a high standard of performance. To me the price of an apple pie is of no consequence whatever; cheap or dear we must have them. Certain things in this world are intrinsically beyond the ordinary traffic of getting and spending. It is all every well to calculate exactly the cost of casting a motor block. Estimates on plumbing fixtures can be carried out to the last decimal. We can tell you to a penny what it costs us to raise potatoes. But if I ever catch my cook pausing to recapitulate the assets and liabilities of an apple pie, the resultant towdy-row will cause the neighbours to send for the police.

Fortunately for community quiet, my cook feels about the same way. Once a windy shower struck at 2 o'clock in the morning, and I went around in my slippers closing windows. This untimely exercise awakened my appetancy for apple pie—how or why I don't just know, but it did. So I pared and sliced apples until my cook came out to the kitchen to find what had become of me.

She looked over my shoulder and without a word reached out the doughboard and pulled open the flour bin. As she worked in some lard, I got a fire going and although it may vex Lolie B. Smith considerably to hear of it, we burned quite an armful of wood on that one pie. And while it was still hot we sat happily on two stools and ate the whole business. Of course, it was good. They were Gravensteins of good size, two days off the tree, and we piled them up high in the pan. The upper crust looped down like a tarpaulin on a hay rick, and my cook's private thumb-and-finger design around the edge was never more fetchingly arranged.

Craftsmen have filled our museums with magnificent and beautiful objects of art. But marble, canvas, pottery, wood, and metal was never cunningly contrived into more subtle loveliness than my cook slaps together briskly in a pie plate. When the top cover is pressed down, and she picks up the pie in one hand and a knife in the other, Poetry, Art, and Music might just as well pack up their skills and go home. Phidias, Keats, and Beethoven together couldn't turn out anything so wondrously precise as the holes on top—even with Lolie Smith to help them.

Such a monument of delight as we consumed that early morning undoubtedly cost us something—all considered. Apples have a price and so does firewood. Flour, sugar, lard, and time add up. The wear and tear on the rolling pin mustn't be neglected. But fie on any school of thought that bothers to look into such things. We eat apple pies because we like applie pies, and the computable values are beside the point. People like Lolie Smith might just as well accept that.

If the Extension Service is going to encourage further research in this direction, I suggest they spend their time on something less apple-pieish and more boiled-onionish. There must be a point in the scale of cookery below which it is safe for them to operate. I'm not just sure where it is, but I'd say it is safe for them to work on anything below gingerbread. We need no Lolie Smiths with their micrometers up here in this inviolable apple-pie zone.

The Things People Hear—And Repeat!

An indignant gent writes us from Western Ontario to tell us in somewhat violent language about his "discovery" that through the connivance of the Dominion Government a company building airplanes paid a commission of $250,000 "free of income tax" to "a 'plane salesman" on sales to the Federal authorities.

Anyone who would stop to think it over would realize that this story is twisted. All aircraft built in Canada are built to Government order, there is no customer but the Government, and thus no place in the picture for salesmen or commissions.

But hard facts are of little concern to the people who delight in the conviction that everybody else is a crook and that in particular all governments — especially all governments in their own country — are packed with sinister characters busily engaged in fattening their own bank accounts out of the public treasury.

It is an odd trait of far too many people that they swallow as gospel anything they hear reflecting on a man's honesty or morals, but anything good about him is dismissed as idle rumor. If a person of the type of our correspondent were to hear, for example, that a politician had given a large sum of money to bring up war orphans does anybody suppose he would write letters to the newspapers about it? But give him a foolish yarn such as this about a commission to an airplane salesman, and he is in his glory. It fits in with his preconceived notions of what politicians and corporations are like, and so is must be true.—Ottawa Journal.

Hard To Believe How Time Flies

AUGUST 17

1913 Pte. W. Hawkins of Toronto, winner of the King's Prize at Bisley is greeted at the C.P.R. station by local militia officers as he passes through Peterborough.

The barn of James Eascott, farmer living near Millbrook is destroyed by fire with the loss of the season's crops.

Sergt. George Grange of the 57th Regiment takes second prize in the City of Hamilton match at the Ontario Riflemen's Association meet.

Medical Health Officer Dr. A. W. McPherson advises citizens to boil the city water for the next month.

Local man is fined $2 in police court for watering his lawn during prohibited hours.

1923 Police and volunteers drag the river for hours as the result of a false alarm about two boys having been drowned.

Reeve Corkery of Ennismore suggests that the Chemong floating bridge should be partially filled in and replace in the centre with a more permanent structure.

A bush fire near the Rotary Boys' camp is extinguished by a volunteer posse of nearby farmers.

Records of the Central Ontario League show Al Heckman leading the pitchers with 15 wins and 6 losses and Herb Wolfe second in the batting list with .368 for the season.

1933 Three large "floating islands" are carried down Chemong Lake by the wind and pile up against the floating bridge.

Police find a man and his wife and three children sleeping in Victoria Park because of having no home.

Peterborough Terriers enter the final round of the O.B.A.A. juvenile series by taking a second win over the Oshawa juveniles. Peterborough youngsters win 9 to 5.

Visiting professional golfers Gene Sarazen and Joe Kirkwood defeat Robert Abbott and William Fairweather 5 and 3.

IN WAR TIME

1918 Pete Ernest G. Abraham of Peterborough has been awarded the Military Medal overseas. He was a former member of the 93rd Battalion.

Ed. M. Elliott warns Peterborough county farmers that entering the county road system will be an expensive proposition.

P. P. Young saves the life of a visitor to South Beach when he rescues a woman who had fallen off the Young's Point dam.

Peterborough music dealers and their employees hold an enjoyable picnic at South Beach.

Sergt. Bryer Carpenter of Peterborough has been awarded the meritorious service medal overseas.

A Bible Message

Then said Jesus unto his disciples, If any man will come after me, let him deny himself, and take up his cross, and follow me. For whosoever will save his life shall lose it: and whosoever will lose his life for my sake shall find it. For what is a man profited, if he shall gain the whole world, and lose his own soul? or what shall a man give in exchange for his soul?

For the Son of man shall come in the glory of his Father with his angels; and then he shall reward every man according to his works. Verily I say unto you, There be some standing here, which shall not taste of death, till they see the Son of man coming in his kingdom. (Matt. 16: 24-28.)

◇ ◇ ◇

And when he was demanded of the Pharisees, when the kingdom of God's should come, he answered them and said, The kingdom of God cometh not with observation: neither shall they say, Lo here! or, lo there! for, behold the kingdom of God is within you. (Luke 17: 20, 21.)

◇ ◇ ◇

All things are delivered unto me of my Father: and no man knoweth the Son, but the Father; neither knoweth any man the Father, save the Son, and he to whomsoever the Son will reveal him.

Come unto me, all ye that labour and are heavy laden, and I will give you rest. Take my yoke upon you, and learn of me: for I am meek and lowly in heart: and ye shall find rest unto your souls. (Matt. 11: 27-29.)

Evolution of a Famous Name

WE do not know the exact year in which the great humanist was born. It may have been 1466, but then again it may have been 1456 or 1467...

About his father, too, there are only a few details. His name apparently had been Roger Gerard, and so his little...boy became known as Gerrit Gerritszoon, or Gerard, the son of Gerard. When he went into the writing business he was obliged, according to the custom of his time, to Latinize his name. He then indulged in fabricating one of those philological puzzles which were so popular among the men of learning of the Renaissance. He associated his Dutch name Gerrit with the verb geeren or begeeren, which means to desire. In Latin, "to desire" was desiderare and in Greek it was eraomai. The rest was simple. Out of desiderare and eraomai he distilled the strange concoction of Desiderius Erasmus. On official occasions he added the name of the town in which he had seen the light of day and in the end, when he became quite famous, he became known simply as Erasmas Rotterodamus, or Roterodamus with only one t, although Rotterdam had got its name from the river Rotte with two t's.—From "Van Loon's Lives," by Hendrik Willem van Loon. (New York: Simon and Schuster.)

The Alaska Highway

The Alaska Highway sounds like what it is. Its syllables, like its rolling miles, have sweep and soar, a kind of noble lonesomeness, the smell of pine and spruce, the lift of winds that inspire men to labor, endure and hope. For a century we have been proud of the undefended border between the United States and Canada. Now we can be proud of this enterprise that does even recognize a border, and in which both countries have an uncompetitive interest. Some day this road will be part of an Alaska-Cape Horn Highway, perhaps with a hemispheric patriotism bordering it all the way. We hope no one then will wish to call it the 'Alcamerican Trail.' It deserves a better fate.—From the New York Times.

4 Years Of War Fail To Change English Customs

By CPL. DERMOT BAKER

SOMEWHERE IN ENGLAND, Aug. 17 (CP).—There is one amazing thing about Britain since the invasion months of 1940....To a Canadian it hasn't changed a bit. Every little thing that existed then exists now, with a little more emphasis that's all. The only points of interest worthy of note, probably, are that more Canadians and Americans have arrived.

To travel the length and breadth of England, Scotland and Wales is to find the people and their thoughts the same. Their mood is to carry on the war and get it over with.

In many places, in the country, the Canadian is still a novelty. A surprising but pleasant fact. The effort still remains to show him a good time.

The cold Englishman is gone. He disappeared years ago.

No Danger Worry

The day of the blitz is past here, the Briton feels. The siren is the reminder the war is still on in the air over Britain, but it doesn't sound in as many places as it used to and it doesn't cause people to glance anxiously at the sky and wonder when "it" would fall.

Workers still vie with one another in putting out the most war material. Women still take on the most amazing jobs and show they are just as efficient as men.

Over here a couple of years, you wonder what things are like at home. Of course, you hear about things in letters, but the mail doesn't seem to take the edge off your curiosity. Just what is it like anyway?

Love Papers

Papers from home are eagerly read.

The "canned press" and the Canadian Press News is known, is the soldier's bible. It dishes up the news "hot off the press." It's unfortunate it isn't 100 pages an issue.

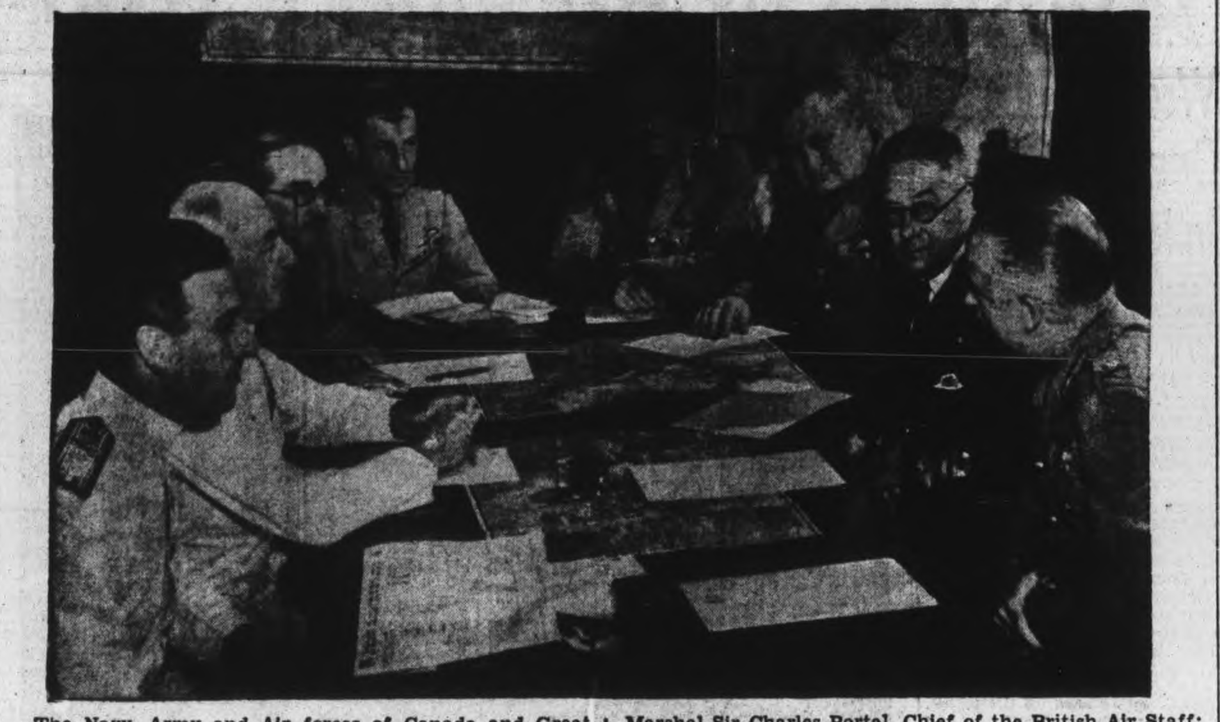
(The Canadian Press News is an eight-page weekly newspaper containing Canadian news and pictures.)

In some things over here there are changes....among your pals....the years do a lot. Some get married ....some go home....some go up in rank, others go down.

ECONOMIC CHANGE

BRIDGETOWN, Barbados (CP).—Hailed by the press as the 'dawn of a new era,' a new economic system for peasant agriculture has been instituted. A substantial grant has been made for the development of animal husbandry and irrigation.

Canadian-British Staff Chiefs Meet In Quebec



The Navy, Army and Air forces of Canada and Great Britain are represented at discussions of global war at the Quebec conference by the highest ranking officers. Seated at the table, from LEFT to RIGHT above, are: Lord Louis Mountbatten, British Chief of Combined Operations: Admiral Sir Dudley Pound, First Sea Lord; General Sir Alan Brooke, Chief of the Imperial General Staff; Air Chief Marshal Sir Charles Portal, Chief of the British Air Staff; Lieutenant General Sir Hastings Ismay, Chief of Staff to the British Minister of Defence; Air Marshal L. S. Breadner, Canada's Chief of Staff for Air; Vice Admiral P. W. Nelles, Chief of Canada's Naval Staff; and Lieutenant General Kenneth Stuart, Chief of Canada's General Staff.

G. W. Spinney Resigns As Finance Chairman

OTTAWA, Aug. 17 — (AP). — Finance Minister Ilsley announced today resignation of George W. Spinney of Montreal as chairman of the National War Finance Committee because of "pressure of other responsibilties."

Mr. Spinney who is president of the Bank of Montreal, had been chairman of the committee since its inception early in the war.

The announcement said G. F. Towers, governor of the Bank of Canada, has agreed to become general chairman while K. A. Henderson, previously chairman, has been appointed executive chairman.

Mr. Spinney will continue his association with the Board as honorary chairman and member of the executive committee.

EARLY COPPER MARKET

The Roman supply of copper was chiefly drawn from the island of Cyprus.

Plane Brings Penicillin To Sick Tot

HAMILTON, Aug. 17 Penicillin, the newest wonder drug developed by medical science, was used here during the week-end for the first time in Canada and last night it appeared to have saved the life of a 10-year-old girl who had been in critical condition from septicemia (blood poisoning).

The patient, Sheila Rockwell, daughter of Mr. and Mrs. W. H. Rockwell, of Aldershot, showed "marked improvement" last night according to reports from Hamilton General Hospital and attending physicians said "hope is bright for her recovery." Late last night the child was still being given pencillin intravenously.

Improvement in the youngster's condition climaxed a dramatic "mercy flight" from New York to Buffalo from which point an adequate supply of the life-giving drug was rushed here by auto. It is expected the case will focus the attention of Canadian medical and scientific circles on Hamilton.

Started With Blister.

On Aug. 7 Dr. D. H. Stewart of Hamilon was called to the Rockwell home by Sheila's parents. The child had suffered infection in her foot after a bruise. The injury was dressed, but the following day Sheila was running a temperature and the parents called Dr. Stewart.

He ordered the child taken to General Hospital, where sulfa drugs were administered. This treatment did not seem to check the infection; in fact, the child's condition became worse.

Dr. Stewart decided that the recently developed penicillin might be effective where even the famed sulfa drugs had failed. He got busy on the long-distance telephone in an effort to obtain a supply, although he knew that there was none available in Canada.

Drug Flown.

Dr. Stewart first contacted the Squibb laboratory which referred him to Dr. Chester Keefer of the Evans Memorial Hospital, Boston. After telephone calls taking more than an hour, the local physician was informed by Dr. Keefer that a supply of penicillin would be at La Guardia Airport, New York, at 11 o'clock Friday night. The drug was flown to Buffalo arriving about 4 o'clock Saturday morning. Two friends of Mr. Rockwell met the plane and rushed the precious supply to Hamilton by auto.

The penicillin was taken immediately to the hospital, where Dr. Stewart assisted by Dr. W. C. McGuire of Hamilton, started administering it by a "continuous intravenous method."

A sufficient supply of penicillin was sent here for the whole case, it was learned at General Hospital yesterday. According to local medical circles, no penicillin is available in Canada, although some research work has been done at the Connaught Laboratories in Toronto.

Fruit Prices Are Evened, Include Containers

OTTAWA, Aug. 17 (CP).—Prices Board Offcials said today that while an order issued Friday had mentioned maximum prices on all grades of peaches, pears and plums throughout Canada on the basis of basket containers, special provision also had been made for stating prices on box containers.

For peaches, the standard box of No. 1 and select grades, 18½ pounds net weight, is given a basic maximum price for growers and country shippers of $1.52 in all zones throughout Canada, and $1.25 for No. 2 grade.

Two groups of pears are established by the order. Group one includes Bartlett, Anjou, Bosc, and Winter Neils. The wrapped extra fancy grade, Anjou only, has a ceiling of $3.28 on the standard box wrapped fancy grade, $2.83 and wrapped C grade, $2.38.

Group two includes Flemish Beauty and all other varieties not contained in group one. In group two the standard box of wrapped fancy has a basic maximum price of $2.38, wrapped C grade $2.04 and unwrapped C grade $1.90.

The order provides that plums and fresh prunes prices, when sale is being made in box containers, must bear a true relationship to the basket prices set forth in the order.

HOARDING BOTTLES

ALDERSHOT, England — (CP). —Mrs. Phyllis Ellen Fry was jailed for a month for retaining 128 milk bottles for an unreasonable time. Her action worked hardship on the local dairy and interfered with delivery of rationed milk.

Fighting In Sicily

Pte. James Willshaw, son of Mr. and Mrs. J. W. Willshaw, 178 Sophia street, is in Sicily with the Hastings, Prince Edward Regiment, according to word received by his parents. He went overseas in October, 1943.

Newlyweds Honored By Warsaw Residents

WARSAW, Aug. 16 (ENS)—The largest crowd ever to gather in Warsaw Hall were present on Friday night to do honor to L-Cpl. Percy Cooper and his bride (Mary Toms). The hall was beautifully decorated in pink and white and the tables, which displayed the many beautiful and useful gifts, were covered with snowy linen cloths.

Music for dancing was supplied by Leahy Brothers orchestra.

During the lunch hour L-Cpl. Cooper thanked their many friends for the gathering in a few very well chosen words.

Personals

Mrs. Ted Rose is visiting her sister, Mrs. William Patterson, Queensboro.

Rev. E. D. Snelgrove returned on Friday after spending his vacation at Camborne.

Mrs. Ivan Drain and son Vance, Peterborough, are guests this week of Mr. and Mrs. George Weller.

Pte. Ivan Payne and Mrs. Payne, Toronto, were in the village on Friday and attended the Cooper shower.

Mrs. Creswell Tighe and daughter, Peterborough, are spending the week-end with Mr. and Mrs. Robert Tighe.

Miss Lila Burgess, Norwood, is visiting Mr. and Mrs. Milton Drain.

Miss Dorothy Payne and Mr. Arnold Fife, Peterborough, are week-end visitors with Mr. and Mrs. Arthur Payne.

Mrs. Edward Bell returned on Saturday after a visit of two weeks with her sister at Wilberforce.

AW Lois Clysdale, Trenton, is spending the week-end with her parents, Mr. and Mrs. Stuart Clysdale.

IT'S A RACKET

LONDON — (CP). — Scotland Yard thinks a gang is helping soldiers escape military custody. Three times within a week men darted away from their escort and jumped aboard a car which immediately whipped away.

Canadian Girls Replace British Wrens

OTTAWA, Aug. 17 (CP). —Naval headquarters announced to-day that Lt.-Cmdr. Adelaide Helen Grant Sinclair, Toronto and Lieut. Everyn Mills of Ottawa, shortly will succeed Capt. Dorothy Isherwood and Lt.-Cmdr. Lorna Kellett as director and staff officer, respectively, of the women's Royal Canadian Naval Service.

Capt. Isherwood and Lt.-Cmdr. Kellett, who have been on loan from the British Navy to assist in the organization of the W.R.C.N.S., soon will return to the United Kingdom, the announcement said Capt. Isherwood was in charge of drafting and recruiting for the Women's Royal Naval Service in England before coming to Canada in May, 1942 to help organze a women's naval service here.

She has been director of the W.R.C.N.S. since succeeding Capt. Eustace Brock, R.C.N.V.R. in March, when he went to England Her promotion to rank of Acting Captain in June made her the first woman to hold that rank in the Royal Canadian Navy.

Lt.-Cmdr. Sinclair, an economist with the Prices Board at Ottawa before joining the service, recently returned to Canada after three months in the United Kingdom, where she studied the methods of the W.R.N.S.

Lieut. Mills, Senior Lieutenant in the W.R.C.N.S., will act as staff officer at Naval Headquarters. A graduate of the University of Toronto, she was assistant principal of an Ottawa school before joining the service.

The Headquarters announcement said Capt. Isherwood and Lt.-Cmdr. Sinclair will be in Vancouver Aug. 15 to begin an inspection tour of all Wren establishments in Canada.

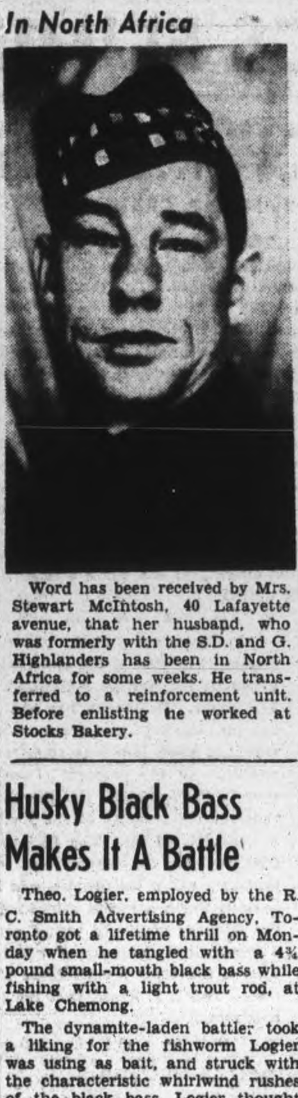
All For The Best

LOS ANGELES, Aug. 17.—(AP). — City Councilman Harold Harby Drew plans for a device to silence crowing roosters. The instrument kept the rooster from stretching his neck. No stretch, no crow. But the plans have been lost or stolen. Perhaps it's just as well. The inventor admitted that the gadget, if improperly applied, makes a rooster give a fire siren screech.

Recalled To U.S.

American Ambassador to Argentina, Norman Armour, has been recalled from his post. Secretary of State Cordell Hull said that Armour was returning to U.S. for consultation on all phases of Argentina relations.

In North Africa



Word has been received by Mrs. Stewart McIntosh, 40 Lafayette avenue, that her husband, who was formerly with the S.D. and G. Highlanders has been in North Africa for some weeks. He transferred to a reinforcement unit. Before enlisting he worked at Stocks Bakery.

Husky Black Bass Makes It A Battle

Theo. Logier, employed by the R. C. Smith Advertising Agency, Toronto got a lifetime thrill on Monday when he tangled with a 4¾ pound small-mouth black bass while fishing with a light trout rod, at Lake Chemong.

The dynamite-laden battler took a liking for the fishworm Logier was using as bait, and struck with the characteristic whirlwind rushes of the black bass. Logier thought he had a muskie in tow, and played the fish carefully to save the rod from being smashed into bits. Gradually the fish tried and he was able to flip it into the boat. His son, fishing from the same boat with a heavy casting rod, was an excited spectator.

The Logier family are holidaying at Woodlawn resort operated by Stanley Pearson on east shore of Lake Chemong.

Business Men Optimistic About Future

MONTREAL, Aug. 17 (CP)—P. A. McFarlane, chairman of the executive of the Canadian Chamber of Commerce, said in a prepared statement Monday that a poll conducted by the Chamber revealed that "a spirit of optimism about post-war Canada prevails among the business men of this country from Atlantic to Pacific."

Mr. McFarlane said that Boards of Trade, Chambers of Commerce, Reconstruction Committees, Trade Associations and private firms all co-operated in the polls, which produced a cross-section of Canadian business men's opinions about the years ahead, and what is going to happen both to employer and employee—as far as they could see—in those years.

Good Ideas

The poll, the statement said, revealed four interesting findings:—

"(A)—There is a desire to plan definitely for the appropriate reinstatement of ex-service men and women;

"(B)—The probable engagement of new employees one year after the war is considered by most companies as difficult to forecast without knowledge of the government policy, particularly in regard to the availability of essential materials, taxation and controls;

"(C) All companies surveyed expressed the determination to give consideration to the engagement of the physically handicapped;

"(D) In factories other than those established for the sole purpose of making munitions, no long-term problem is anticipated in the change-over from war to peacetime plant. In some cases, peacetime machinery is in storage and can be rapidly assembled in the production line always provided raw materials are available."

MAKES 'EM INDIANS

YOXFORD, England — (CP).—This rural district council in Suffolk warned against bathing because the village sewage runs into the river. Some people insisted, so the district medical officer ordered a brown dye to be dumped in the river upstream and now bathers come out looking like North American Indians.

5000 WOMEN AND GIRLS NEEDED URGENTLY

NO WORK PERMIT REQUIRED for this very necessary job. The Ontario Canning Crops of Fruits and Vegetables will be ready for the canning factories in a short time. Students and other youth of Ontario have volunteered and been organized to harvest abundant crops of Tomatoes, Corn, Peaches, etc., BUT CANNING FACTORIES NEED HELP.

Housewives and other unemployed women and girls of Ontario are strongly urged to offer their services for six to eight weeks to save these crops from waste. No experience is necessary. Current wages will be paid and good living quarters arranged for if necessary.

YOU ARE STRONGLY URGED to offer your services at once. NOW! Work will start about August 20th. Apply to the superintendent of a Canning Factory if you live near one; or see the Agricultural Advisor at your nearest Employment and Selective Service office. He will gladly give you all the details. The need is URGENT. Apply today.

GENELECS ELIMINATE SWITCHGEAR IN SOFTBALL SEMI-FINALS

Miscue Parade Boosts Score To 15-8

Switchgear disappeared from the softball scene last night when they were beaten 15 to 8 by Genelecs in the third and sloppiest game of a very sloppy semi-final series. That made three straight wins for the League leaders and sent them into the final round against the winner of the Soldiers-4th Battery series.

The teams' fielding fell apart at the seams in this engagement, with Switchgear the worst offenders with eleven juicy errors while Genelecs were guilty of five misplays. In fact it was the losers' loose fielding that really beat them for the teams showed about equal hitting power.

However the Gearmen made it quite a battle over most of the route. They took a lead several times, only to throw it away. They were down but one run, however, when Genelecs went to bat the last of the eighth. Then their game really went to pieces and the winners ran in six runs with only one out when the umpires mercifully called the game on account of darkness.

Terry Wood for the Genelecs and Bert Harrison for the Switchgear went the route. Both were hit fairly hard and also suffered from wildness and they got little help from their teammates at most stages, with Harrison suffering the worst in this respect.

Brightest spot of the game was the all-round good work of young Jack Carpenter, left-fielder for Switchwear. The youngster not only roamed over acres of ground to make six nice catches but he was a power at the plate, cracking out two doubles and a single and walking twice for a perfect average while he scored three of his team's runs. Bill Moorhead in right field for the winners had a shoestring catch of a low liner and George Hawks played sparkling ball at third for Genelecs.

Switchgear opened the scoring in the first inning on Carpenter's double to left, McNabb's error and Jamieson's sacrifice bunt but Genelecs came back with two in their half of the same frame. McNabb singled and D. Holmes walked. Tucker's bunt forced McNabb at third. Mowry was called out on an infield fly, the runners advancing when the ball dropped safely and Playford singled to score the pair.

In the second singles by Giardino and Woods with Ashmore's error and McNabb's fly to Carpenter sent another Genelec run in.

Switchgear piled up four runs in the third to take the lead. A walk to Carpenter, singles by Jamieson, Niziol and Nicholls, Ashmore's double and an error did the trick.

The ultimate winners tied it up with single runs in the fourth and fifth but Switchgear opened the sixth with two markers to go out in front 7 to 5. The lead did not last long however for singles by Tucker, Mowry, Playford and Hawks with a couple of errors gave Genelecs four runs and shot them in the van 9 to 7. They were not caught again. Switchgear did push a run across in the seventh to make it 9 to 8 but Genelecs big inning in the last of the eighth turned the game into a route.

Switchgear had a tough break in the third inning when Cal Nicholls dislocated his shoulder in a collision at the plate with Catcher Mowry. Gene Reynolds had to try to fill in the gap and he had a tough night of it.

HOW TO RELIEVE
PILE TORTURE
QUICKLY AND EASILY

If you are troubled with itching piles or rectal soreness, do not delay treatment and run the risk of letting this condition become chronic. Any itching or soreness or painful passage of stool is nature's warning and proper treatment should be secured at once.

For this purpose get a package of Hem-Roid from McDermid & Jury or any I.D.A. or other drug store and use as directed. This formula which is used internally is a small, easy to take tablet, will quickly relieve the itching and soreness and aid in healing the sore, tender spots. Hem-Roid is pleasant to use, is highly recommended and it seems the height of folly for any one to risk a painful and chronic pile condition when such a fine remedy may be had at such a small cost.

If you try Hem-roid and are not entirely pleased with the results, your druggist will gladly return your money. —(Advt.)

SPORTS — DAY BY DAY

By FRED D. CRAIG

The 4th Battery will be battling in the last ditch tonight when they meet the Soldiers in the third game of their best-of-five City League semi-final series. The camp outfit have won two playoff games in a row and if they come home in front tonight the argument will be all over. So far this season, in five games, the rivals have been on even terms, each winning two while the fifth tussle ended in a draw but what hurts the Battery is that the Soldiers have won the last two and they were playoff fixtures. Now the Gunners have to find some of the power that has been missing in recent battles or fold up for the year. Johnnie Walker who pitched the opening game of the playoffs against the Battery may be the Soldiers' pitching selection tonight, with Tom Parsons also a possible starter while Dave Wilson will probably get the call for the Artillerymen. The Soldiers finally beat the big fellow for the first time this season but at that Wilson allowed only one earned run so that the defeat could not be blamed on him. The game should be about the most exciting of the whole summer. There is keen rivalry between the two outfits.

* * * * * *

Prospects are that the season's biggest crowd will see the engagement in view of the fact that the game has been turned into a benefit for Shrimp McDougall, well-known Peterborough hockey player. McDougall has had a tough break in a serious illnes that has kept him confined to a Toronto hospital and with a wife and small family to support financial assistance is urgently needed. All the proceeds from tonight's game will be turned over to the fund and the City League executive are confident that the co-operation of the sporting public will make the affair a financial success. The Battery team has donated $10 as the admission for its players and other sportsmen have indicated thet they will make donations to help swell the total. The game itself is worth a record attendance and in view of the fact that the proceeds are to be turned over to such a worthy cause it is expected that the patrons will be liberal with their donations. This is the third benefit game the City League has staged this season and it is hoped that the total on this occasion will set a new record.

Genelecs In Finals

One of the semi-final rounds in the City Softball League playoffs was wound up last night when Ted Johnston's Genelecs won the series from the Switchgear by taking the third straight game from Manager Murph Chambers' outfit. Genelecs who haven't been beaten in their last eleven starts in the City League race now qualify for the final round against the Soldier-Battery winners while Switchgear call it a season. The latter who finished in fourth place by defeating Combines in the final game for that spot hardly qualified to head off the Genelecs in a playoff series, despite the fact that they did not manage to score a win over the league leaders early in the season. Genelecs with three pitchers ready for action, a good fielding club behind them and getting consistent hitting, swept through the semi-final series in three straight, which was what most of the fans expected of them. Switchgear tried hard but they lacked pitching strength, were guilty of bad fielding at times and their hitting was spotty. It was not a series of playoff calibre.

* * * * * *

Aircraft and Westclox will resume their softball warfare Wednesday night at the Bowl and with the interest in the round increased materially by Aircraft's 5 to 4 win over the champs Monday night the biggest crowd of the campaign will likely see the fourth game in the series. The Aircraft girls will be fighting all the way to take that one and even up the argument. The Big Bens on the other hand are just as anxious to grab off a win and climb to within one victory of the championship. Just who will do the pitching for the rivals in this all-important clash has not been announced although it is considered likely that Norma Strickland who held the Westclockers to four hits Monday will get the call to toss them in for Aircraft. The game is called for 6.45 o'clock and every effort should be made to get the affair away sharp on time. Darkness is coming earlier each night and unless the game gets away promptly play may have to be called before the ninth and that always causes dissatisfaction. The Wednesday night game should be a honey and it is to be hoped it can go the regulation length.

* * * * * *

Indicating that the wrestling game is catching on here with a vengeance the Frank Tunney grappling card Monday night drew one of the biggest crowds of the current revival and the fans got a lot of action for their money. The victory of Earl McCready in the main bout was a popular feature. Katan put up plenty of opposition; in fact he was so aggressive in the early stages that he looked like the winner. McCready had difficulty in keeping away from the Katan chin lock and for a considerable portion of the bout those punishing head holds had the Moose in repeated jams. However he evened up the match with a rocking chair cradle that was a master-piece and finally took the bout when Katan tried to hang him with the ring ropes and was disqualified. It was a lively battle between two good men and after it was over some of the fans expressed a hope that either McCready or Katan should be matched up with the unmasked Red Shadow who has turned out to be the well known mat star Leo Numa. Wearing the mask, Numa had been cock of the walk for months and it required no other than the world champion Wild Bill Longson to expose him. He is powerful, fast and tricky and now that he is out in the open would make a good main bout attraction against either of Monday night's contenders or against Whipper Bill Watson. Promoter Tunney will announce his main attraction for next Monday tomorrow.

The death in Regina of Wes Champ, proprietor of the Hotel Champlain here marks the passing of a warm friend of athletics and athletes. Wes Champ had made a notable contribution as an executive to the development of sport, particularly in the Canadian West. He was associated with professional hockey in its early days in the West and some of the greatest stars of that time including Eddie Shore were under his wing. He knew them all. Earl McCready who won the wrestling bout here last night expressed deep regret at the news of his death. "He was a great fellow," said McCready who formerly lived in Regina. "I knew him and his brothers well. I thought he looked the picture of health when I saw him here a few weeks ago at one of my earlier bouts." Since he had been associated with Peterborough Mr. Champ had been of great assistance to the Peterborough hockey club during a number of seasons and also donated a fine trophy to the local curling club. Although he was not able to live here continuously he made a lot of friends during the time he spent in this city and his passing will be mourned.

Sporting Chili Con Carne: Jack Carpenter, left-fielder for Switchgear has been one of the few finds of a season that has not been particularly noteworthy for bringing along much young material....The youngster wound up the campaign in a blaze of glory last night and stole the show....Bert Maxwell, Toronto wrestling referee will be looping for more money soon....He draws more boos than the mat badman when he is introduced....N.H.L. clubs will be hard hit by the calling of married men between the ages of 27 and 30. That group includes many well-known players in the cash-and-carry loop....Brooklyn Dodgers drove Mort Cooper to cover yesterday and defeated the league leaders 7 to 3. It was a win for Whit Wyatt who helped his own cause by making three hits....Washington Senators climbed into second place in the American League race yesterday when they bumped off Jim Bagby and the Cleveland Indians....The Catholic League playoffs got away last night when Cubs and K. of C. meeting in a semi-final series for the right to meet St. Peter's....The teams played an 11-11 draw, getting in nine innings before the argument was stopped by darkness.

Wrestler Ties Opponent In Ring Ropes

After John Katan's chin lock had given Earl McCready all kinds of trouble in the early part of the bout and had cost him the first fall in 22 minutes, the Moose came from behind to win Monday's main attraction on the weekly Tunney wrestling card at the Brock Street Summer Gardens.

One of the biggest crowds of the season cheered wildly as McCready after being down one fall and looking none too good against the rough and aggressive Katan suddenly put on the pressure. After softening the Palermo Panther with a series of lusty rabbit punches Moose applied a rocking chair cradle hold on the tough baby and after rolling him around the ring half a dozen times pinned his shoulders to the mat for the fall that evened up the match. It was a rough ride for Katan and he was still dazed when McCready left the ring after taking the fall.

Then Katan proceeded to beat himself. Nettled by the ease with which the Moose had rolled him around with that rocking chair cradle grip the Panther tried to subdue McCready in an exhibition of rough stuff that finally boomeranged and resulted in Katan's disqualification by Referee Bert Maxwell.

The end came after eight minutes torrid wrestling when Katan succeeded in getting the two top ropes of the ring twisted around McCready's neck. Maxwell pushed the Panther away but while he was doing that McCready was struggling in vain to release himself from the ropes. A fan jumped up from the ringside seats and rushed to the Moose's rescue and helped to free him. He was still dazed, however, and Katan grabbed him, dragged him over to the other side of the ring and once more trussed him up on the ropes. Then he grabbed McCready by the feet and swung him, wih his neck still firmly held and when Referee Maxwell tried to interfere Katan pushed the official over.

That ended the bout in a hurry for Maxwell promptly disqualified Katan and awarded the fall to McCready. The latter after he had been released tried to rush Katan but Maxwell finally succeeded in pacifying him. Katan however protested bitterly at the decision and strutted around the ring for several minutes while fans swarmed around and booed the Panther with a vengeance.

It was a good bout all the way with Katan looking like a winner in the early stages. McCready could not seem to keep away from his oponent's chin and head locks and he was in a jam constantly during the first twenty minutes. Katan finally subdued him with his favorite unconscious chin lock. McCready broke the hold the first time but the Panther slapped it on again and there was no escape the second time.

Hogan Disqualified

Katan was not the only grappler on the card to run afoul of Umpire Maxwell and be disqualified. The same fate met Housepainter Hogan in the semi-final bout and Ali Adali, after taking quite a beating from the rowdy Hogan finally emerged a winner when the Housepainter kept on punching the Turk after being repeatedly warned. As was expected the clash between Adali and the wild Hogan was a lively cup of tea. The Turk came into the ring wearing a dignified red fezz but the trimmings meant nothing to Hogan. He immediately unlimbered all his unorthodox stuff and Ali had a rough passage. Hogan was punching him and kicking him whenever the opportunity offered and after being on the catching end for some time the veteran Turkish grappler suddenly lost his temper and sailed into Hogan with a series of punches and elbow slams that dropped the Housepainter to the mat and the Turk dropped on his back and cut loose with a barrage of punches while the crowd cheered. Hogan retaliated by kicking Ali out of the ring. However his meanness eventually beat him for when he persisted in punching after Maxwell had warned him to cut it out the referee raised the Turk's hand as the winner of the bout. The end came after 21 minutes of lively battling.

There was action galore in the first bout on the card. Unlike most of these clashes there were two heroes in that argument for both Joe Maich and Pat Flanagan are prime favorites here and they lost no friends last night. They worked fast and clean, broke when they were told to and turned on the speed throughout. Honors were about even. The biggest thrill came half way through the bout when Flanagan after drop-kicking Maich three or four times launched out from the ropes in another pile-driving attack only to have Maich grab his feet in mid-air and turn the assault into a giant swing. The Brantford boy whirled Falanagan around half a dozen times and finally dropped him heavily but Flanagan managed to get to the ropes and out of danger before Maich could cash in. The bout ended after 17 minutes of fast action when the two grapplers cut loose at the same time with a pile-driver attack, met head-on and both dropped to the mat in a dazed condition. Maxwell counted them both out before they could recover and thus the battle ended in a draw.

Bert Maxwell refereed all three bouts and Fred Scates was announcer and timer.

The End Of A Short, Short Story

It was a short, short story at Wrigley Field, Chicago, as Lee Savold dropped Lou Nova to the canvas for the 10-count in the second frame of their scheduled 10-round heavyweight bout. Nova is pictured ABOVE sinking to the canvas after the Paterson, N.J., blond had landed a savage right under his heart. The victory put Savold among the top heavyweights.

Terranova Wins Featherweight Boxing Crown

NEW ORLEANS, Aug. 17—(AP). Hard-punching Phil Terranova, 23-year-old youngster from the Bronx, N.Y., won the National Boxing Association world's featherweight championship from Jackie Callura of Hamilton, Ont., with an eighth-round knockout before an estimated 8,500 fans here last night.

Terranova knocked Callura out with a straight right uppercut to the jaw after flooring the Canadian with a series of rights and lefts shortly after the round opened. Callura was up at the count of nine after hitting the canvas the first time, and was able to get back on his feet unassisted after being counted out by Referee Red Dolan.

Fought Back Gamely.

A veteran of eight years of professional fighting, 26-year-old Callura absorbed a dozen terrific rights and lefts to the head before finally going down. He fought back gamely but was no match for his younger opponent.

Terranova had a wide margin in the seventh round and opened the eighth stanza fast, landing a short left to the head and scoring with body blows before finally reaching the button.

Callura had a slim margin in the first two rounds. He was awarded the first round when Terranova landed a low blow and he had Terranova in trouble for a moment in the second round after landing a looping right to the jaw.

The title came to Terranova after less than two years of professional boxing. He outsmarted his more experienced opponent and most of his straight punches found their marks.

Terronova weighed in at 124 pounds, with Callura entering the ring at 124¼.

Callura tired rapidly after fifth round. Terranova opened a cut over the Canadian's left eye with a short right in the second and had him bleeding badly in the sixth and seventh.

Difficult to Handle.

Referee Dolan warned both fighters against butting and said that the fighters' tactics made the fight difficult to handle.

The end came in the first minute of the eighth round.

Both Terranova and his manager Bobby Gleason, said they were ready to take on all comers. The Bronxer, apparently just warming up when the knockout came, showed New Orleans fans their first bit of championship fighting in 26 years, and his victory was a popular one.

Canadian Sport Snapshots

By CHARLES EDWARDS
Canadian Press Staff Writer

TORONTO, Aug. 17—(CP)—The Army appears to be moving the Allan Cup into Alberta next spring. Neil and Mac Colville have been posted to an army service corps training centre in that province. Neil, it will be remembered, won the national senior title last winter for Ottawa Commandos—with some assistance of course from brother Mac, Ken Reardon, Alex Shibicky and a few others. Two of these, Eddy Slowinski and Jim Henry, will accompany the Colvilles to the Alberta centre.

The Sport Chute:

Jean Marc Demers of Montreal, three-times Canadian backstroke swimming champion, has decided to turn his aquatic ability into shekels. He's not planning to enter professional swim races but has contracted for a series of broadcasts dealing with swimming. He's like to coach, too, and he has written his sports memories into a book to be published soon...Red Dutton, managing director of the N.H.L. tells of naming his new racehorse, a colt out of Lovesick. Red told Dave Dryburgh of the Regina Leader-Post he got the answer in Toronto when a fellow asked him what he's do if he were love sick. "Told him I'd write home, so that the colt's name —Write Home out of Love Sick."

Boston Goalie:

Bill Gaynon of the Niagara Falls Review says Dick Damore may move into the Boston Bruins nets to replace Frankie Brimsek, now in the U.S. Coast Guard. Damore, a Niagara Falls product, was with Hershey, the Boston farm, last year.

Incidentally:

Apparently that long-time Lew Hayman-Reg Threlfall feud will be missing from the East-West football final, if any, this year. How those two coaches loved to match wits in the annual classic! There's talk that Hayman will not coach a team this year because of other R.C.A.F. duties. Whether he does or not, its unlikely he'll meet Threlfall again. The big Winnipeg coach says he will be unable to handle any football duties this fall because of pressure of his insurance business...Bucko McDonald, Toronto hockey defenceman, is trying his hand at lacrosse again with Lakeshores in the Ontario circuit...The seven-day race meet at Calgary which concluded the Prairie racing season showed a 14-percent drop in attendance from last year but an 11-percent increase in pari-mutuel betting.

Count Fleet Out

NEW YORK — (AP).— Count Fleet, wonder horse of the early season until he injured an ankle in his 30-length win of the Belmont Stakes June 5, is out for the year, according to his owner, John D. Hertz, who said Trainer Don Cameron had doubts the famous horse could race before two months.

Defer Player

DETROIT— (AP).— The Tigers will have the services of their hard-hitting outfielder, Dick Wakefield, until practically the end of the playing season, his induction into the Army having been deferred to Aug. 26, after which he will have three weeks' furlough for continued playing.

A RICH MAN'S GAME.

NEW YORK — (CP). — About $16,644,612, one-fourth of the 1939 total factory value of sporting goods, was spent on golf equipment according to the Census Bureau.

Short Holes May Be Main Factor

As hard as several of Kawartha's par 4 and 5 holes are, the winner of the annual Kawartha Lakes 54-hole tournament will not be decided on them.

Instead, in the opinion of Lex Robson, Kawartha Club professional, the top money will be won or lost on the course's par 3 holes. There are five of them.

"It may be a surprise to a lot of people," Lex said, "but this is true of most golf matches and tournaments. Statistics compiled from time to time show that they are decided on the one-shotters." The par 3 holes on the Kawartha Golf and Country Club course—Nos. 3, 5, 9, 15 and 17--show a great deal of variety, and range from the 150-yard 17th, to the 230-yard 15th.

The longest hole on the course is the 595-yard 16th, followed by the 545-yard 2nd.

When Lex was asked if he thought any of the stars would get home in two on these holes, he said that long hitters like Bob Gray and Dick Borthwick could, if conditions were right. As a matter of fact Lex had an eagle on No. 2 a few days ago, but it's a long golf hole, and he had two perftct shots to get there.

Two of the toughest par 4 holes on the course are only 380 yards long. The 4th is a dog-leg uphill hole, with a natural roll into some wicked traps. The 10th is uphill all the way, and a most deceptive golf hole.

The most birdies? They will come on the 5th, 8th and 12th.

Here is the card of the Kawartha Club:

Hole No.	Yards	Par
1	370	4
2	545	5
3	200	3
4	380	4
5	460	5
6	220	3
7	410	4
8	320	4
9	195	3
	3100	35
Hole No.	Yards	Par
10	380	4
11	360	4
12	385	4
13	495	5
14	430	4
15	230	3
16	595	5
17	150	3
18	440	4
	3465	36

AIRCRAFT GIRLS NOSE OUT WESTCLOX IN SENIOR PLAY-OFF TILT

St. Louis Bows To Dodgers; Giants Lose 5-2

By JUDSON BAILEY
Associated Press Sports Writer

The transformation of Brooklyn Dodgers from an old men's club to a youth's society is going on from day to day and in spite of the ridicule that has been heaped upon Branch Rickey for his trading, the changes are showing results.

How different the Dodgers look from the good old days can be exemplified in one sentence; they had outfielder French Bordagaray playing third base last night.

But in beating the world champion St. Louis Cardinals 7-3 they also had a new first baseman, young Howard Schultz, a six feet 6½ inch bean pole, who handled 15 fielding chances successfully and contributed a double and a single to Brooklyn's attack on Mort Cooper and two other hurlers.

Whitlow Wyatt officiated at yesterday's triumph over the Cardinals, holding them to eight hits and himself getting two doubles and a single.

Pirates Nip Braves

Cincinnati Reds captured their fifth triumph in three days by overriding New York Giants 5-2 behind Johnny Vander Meer's 8-hit hurling and maintained their hold on second place. A double by Steve Mesner with the bases loaded in the first inning provided the winning margin.

In the other National League games Johnny Gee pitched Pittsburgh Pirates to a 5-1 decision over Boston Braves, allowing only seven hits, and Philadelphia Phillies nosed out Chicago Cubs 4 to 3 in a night game with Schoolboy Rowe allowing only five safeties in gaining his 11th victory.

New York Yankees, leading the American League, walked over Chicago White Sox 7-0 with Hank Borowy pitching four-hit ball.

Washington Senators outslugged Cleveland Indians to win 6 to 3 for Wilfred Lefebvre, the onetime Boston Red Sox hurler.

In the only other major league encounter scheduled Boston Red Sox rode roughshod over St. Louis Browns 9-0 to give Louis (Bobo) Newsom another defeat, his seventh unsuccessful start since coming into the American League.

Hedy Chooses Maggie

With an opportunity to pick the most beautiful dog in Hollywood for her picture, "The Heavenly Body," Hedy Lamarr selected Maggie, called "the funniest looking dog in filmland," for the important role. Hedy summed up her reason with but four words: "She's a personality pup."

Brooklyn Takes 2 Royal Players

By The Associated Press

Brooklyn, highly pleased by the ability of Luis Olmo, has dipped again into the ranks of the Montreal Royals of the International League for playing talent to revive its sputtering Dodgers machine.

This time Branch Rickey, president of the Dodgers, has called up a pair of young hurlers, 21-year-old Harold Gregg and 18-year-old Rex Barney. In exchange, Rickey said last night, Pitcher Max Macon and shortstop John (Red) Barkley would join the International League club.

Olmo, who battered down International League fences early in the season, was recalled by the Dodgers recently when Joe Medwick was shunted to New York Giants.

The Montreal - Brooklyn deal yesterday kept the International League in the headlines although the weather made it impossible for six of the eight clubs to take the field. Only Buffalo Bisons and the Baltimore Orioles were able to play, the Orioles winning, 3-1, behind the clutch pitching of Clyde Smoll.

C.G.E. Pitcher Hurls Four-Hit Ball

In an abbreviated game called for darkness at the end of the seventh inning Aircraft kept their senior girls' league championship chances alive Monday night by nosing out the Westclox team in a well-played and exciting game. The Big Bens still lead the series two wins to one, with the fourth game coming up at the Bowl Wednesday night at 6:45 o'clock.

Norma Strickland went the route for the winners and held the usually hard-hitting Westclox to four hits. Marg Watson and Isobel Bullock shared pitching duties for the Big Bens, with the loss charged up against the former.

Westclox errors in the first inning gave the Aircraft team a chance to set up a good lead Three misplays and a hit by Marg Selkirk were responsible for three Aircraft runs in that opening session.

Westclox came back with one in their half on a pass to Aggie Anderson ad singles by Viola McLean and Isobel Bullock.

Aircraft made it 4 to 1 by scoring a run in the fourth when Norma Strickland, Phyllis Bigelow and Marilyn Low all singled. Marg Watson was taken out of the box at this stage and Isobel Bullock went to the hilltop and retired the side.

Then Wesclox picked off a run in their half when Isobel Bullock who had walked scored on Marg Watson's hit.

Aircraft scored once in the sixth on Eleanor Craig's double to the cars in left and Audrey Patterson's single but Westclox squared that one when Isobel Bullock crossed the plate in their half of the inning. They added another in the last of the seventh to climb within one of the winners and then Umpire Herb Payne called the game on account of darkness, the Aircraft winning 5 to 4.

Aircraft: P. Bigelow, 3b; Irene Stewart, lf; Marilyn Low, ss; Eleanor Craig, 1b; Marg. Selkirk, cf, rf; A. DeCarlo, c; Audrey Patterson, 2b; J. Moore, rf, cf; Norma Strickland, p.

Westclox: Aggie Anderson, cf; Viola McLean, 2b; Isobel Bullock, cf, p; Marg Hawthorne, 3b; Eunice Armstrong, 1b; Verna Patterson, ss; Marg Wason, p, rf; Beryl Dobbin, ss, c; Barbara Rome, lf; Doris Walker, rf; Jean Castle, 1b.

Umpires: Payne at the plate, Bennett on the bases.

By innings:

Aircraft	300 101 0	—5
Westclox	100 101 1	—4

Colby Hanover In Empire Stake

Colby Hanover, ABOVE, crack colt owned by C. W. Phellis of New York, though one of the favorites for last year's Hambletonian Stake, failed to realize his owner's hopes so this year Colby Hanover went after the alumni event of the Hambletonian—the Empire Stake—which was on the Empire City track, Yonkers, N.Y., the day after the 1943 edition of the Hambletonian at the same track. Vineyard holds the reins in ABOVE picture. Hanover also failed to win this event.

Sport Shorts From Britain

SOMEWHERE IN ENGLAND, Aug. 17 — (AP). — A team from the Recce Regiment swept through running and jumping events to win the tabloid sports championship of a Canadian Army division. The winners scored 165 points to 157 for Royal Hamilton Light Infantry, the runners-up.

A special event was a parade of the five pipe bands of the division parading together under Pipe-Sgt.-Major A. MacDonald of the Toronto Scottish Regiment.

Members of the winning team were: Sgts. C. K. McKie, Toronto, and J. Delaney, New Carlisle, Que., Cpl. A. Zaremba, Gray, Sask., L.-Cpl. G. Thompson, Saskatoon, and Tprs. Lefler, Fort Erie, Ont., D. Donison, Regina, Sask., G. Morrison, Alhambra, Calif., J. E. Tait, Dilke, Sask., J. R. McKay, Prince Albert, Sask., W. H. Copping, of Hamilton, Ont.

The R.H.L.I. team included Lt. E. L. Smith, Winona, Ont., L.-Cpl. W. G. Lamb, Brantford, Ont., Ptes. C. A. Bailey, Sydney, N.S., and L. C. Newton, Niagara Falls, Ont.

The Royal Canadian Navy's first track and field meet overseas, a 27-event program, was won by the members of the executive branch with AB Robert Lewis of Quathiaski Cove, B.C., as the individual champion. He won the high jump, running broad jump, and hop, step and jump, and placed second in the standing broad jump and the 100-yard dash. The winning team had 33 points and the engineering branch finished second with 19.

Sub-Lt. George Orr of Toronto won the 100-yard and 200-yard sprints and Sgmn. J. Scott of Winnipeg was first in the 400yard run. L.-Sgmn. J. E. Quinn of Hamilton won the standing broad jump.

Royal Hamilton Light Infantry ousted eight other teams to emerge winners at a Canadian Army Infantry Brigade tabloid sport finals. Maj.-Gen. E. L. M. Burns presented the prizes.

Led by Lieut. E. L. Smith of Winona, Ont., the winning team included L.-Cpls. W. G. Lamb of Brantford, Ont., G. T. Pilson of Hamilton, Ont., and Ptes. L. C. Newton, L. R. Swart and W. A. Rankin, all of Niagara Falls, Ont.

Among members of the second-place field ambulance unit were Capt. N. Beattie of Regina, L.-Cpl. J. Woods of Galt, Ont., and Ptes. W. H. Johnston and H. Evans, both of Guelph, Ont.

LAWN BOWLING

The bowling season is getting on. In just about ten days the men's schedule will be over and then we will be looking for further activities.

We believe that the games committee will meet in a day or so to arrange further games. In the meantime let's look over this week's program. We have the men's schedule on Monday, Tuesday and Thursday nights. The ladies' games on Tuesday and Thursday and the great big open mixed rink tournament on Wednesday; and while we're on this tournament business, have you got a rink entered?

This is for the Ovaltine Trophy and several other good prizes. Play commences at 1:30 o'clock, three 12-end games to be played. It is not too late to ask a couple of ladies and one gent. It is the only open mixed tournament of the season; so why not get in on it?

To-morrow night is the zero hour for receiving entries for the ladies' Globe Doubles.

We don't see any activity regarding the men's novice competition.

We read this somewhere:

"A fellow has got to be a contortionist to get by these days. First of all, he's got to keep his back to the wall, and his ear to the ground. He's expected to put his shoulder to the wheel, his nose to the grindstone, keep a level head, both feet on the ground, and, at the same time, look for the silver lining with his head in the clouds."

MOVIE TIME TABLE

Capitol — "Cabin In the Sky", 2.00, 4.00, 5.50, 7.40, 9.35.

Regent—"Harrigan's Kid", 1.40, 4.20, 7.00, 9.50; "Redhead from Manhattan", 3.10, 5.50, 8.40.

Centre — "Silver Skates", 1.32, 4.22, 7.14, 10.05; "The Avengers", 2.56, 5.53, 8.45.

Fliers Win 94 to 39 In Good Game

On Saturday at Nicholls Oval the Peterborough - Whitaker Cricket Club and the Picton R.A.F. met for the third time this season and the game resulted in a third win for the visitors by 94 to 39. They have had a very successful season, a full schedule of matches showing only one defeat from their fellow-countrymen, the Kingston R. A.F. Last Saturday they beat the Toronto C.C. at Armour Heights.

On Saturday they were too strong for the locals in every department of the game; the latter were without B. Roberts and J. Langhorne.

The visitors batted first and at 8 FO. Lockwood, the visiting captain, was out. McKay and Williams took the score to 25, when the former was bowled by Dyer, but then the latter and Lovatt, an Australian, made a long stand, producing 38 before the latter was also bowled by Dyer. He had hit freely for 25 which included two sixes and four. Later the batsmen, with the exception of Flt.-Lt. Smith-Bingham 14, made little resistance and the innings closed for 94. Dyer and Adson opened the bowling, but Lovatt was severe on Adson, whose last two overs yielded 23 runs, including the Australian's two sixes, and at 54 he was relieved by Colbran, and wickets fell regularly for small totals. Smith-Binghm's 14 included six off Dyer and the final bowling figures were Dyer 6 for 32 and Colbran 4 for 20. Adsom made a fine catch on the boundary to send back Forbes.

The local men made a wretched start, losing 5 wickets for 5 runs, and with half the side out it looked as if the innings might result in a record low, but W. Dyer and Williams made a plucky stand which produced 16 runs before Dyer was out for 10. He is a much improved batsman and his innings included two boundary shots; he is also a fine fielder. Williams made some good strokes on the leg-side and was last out for the side's high score of 12, with the total 39.

Lockwood's slows and Edwards' left-handers were too much for the local men and they were backed up by some good fielding. Lockwood took 6 wickets for 15 runs and Edwards 4 for 16.

Next Saturday Oshawa are expected, but definite information will be given later.

Following is score and analysis:

Picton R.A.F.

FO. Lockwood, lbw, b Dyer	5
Sgt. McKay, b Dyer	6
LAC Williams, c Smith, b Colbran	25
Sgt. Lovatt, b Dyer	25

Bowling Analysis.

	O.	M.	R.	W.
LAC Edwards	5-5	0	16	4
FO. Lockwood	5	0	15	6

After the match the victors were entertained at the Y.M.C.A. with President Gordon Monkman presiding, supported by FO. Lockwood and PO. Proudlock. After the meal there were songs by Jack Parry, and the chairman and community singing led by the former, with Earl Johnson at the piano. Brief speeches of welcome and reply were made by the chairman and FO. Lockwood. The friendly good feeling between the two clubs was very evident during the evening and the victors, as on previous occasions, expressed themselves with evident sincerity as to the hospitality extended to them here.

Hockey Moguls Meet McNamara

OTTAWA, Aug. 17.—(CP).—Two officials of the National Hockey League arrived in Ottawa this morning and it was learned they were to meet with Arthur MacNamara, Director of National Selective Service, later to-day to discuss the position of professional hockey next season in Canada's tightening manpower situation.

The officials were Lester Patrick of New York Rangers and Art Ross of Boston, both N.H.L. governors. Mr. Patrick also is a member of the League's executive committee. They were accompanied by Maudice Podoloff, president of the American Hockey League.

The three officials declined to comment.

Midget Finals

SARNIA — (CP). — The midget championship tournament this week of the Western Counties Baseball Association will bring together Goderich, London, Chatham and Sarnia teams, with the first tilt scheduled for Wednesday evening. London and Sarnia will meet for the juvenile title Friday.

Louis Starts Strenuous Fight Program

WASHINGTON, Aug. 17.—(AP). —Sgt. Joe Louis will start an exhibition trek Aug. 30 that eventually will carry him overseas for a display of the fistic skill that won him the heavyweight boxing crown.

100-Day Campaign.

The War Department, the Brown Bomber's duration manager, disclosed yesterday that the champ would tour army camps in the United States for 100 days and then go abroad for workouts before combat troops.

At first, it had been decided to start the tour Wednesday, but a postponement resulted when Louis told Army officers at Fort George G. Meade, Md., yesterday that he would like to take the extra time to get back into shape for boxing, Major Lester D. Friend, Meade special service officer, announced.

He will remain at the post until the tour starts, Friend added.

Starts in Boston.

Louis was to have appeared at the Maryland Army Camp last night in a preliminary exhibition before beginning his tour, which will get under way in Boston.

However, weather conditions forced postponement of the exhibition until to-night.

Louis told officers at Meade that he hadn't boxed in a year and didn't "want to be rusty" when he displays the skill before his fellow-soldiers that took him to the top of the boxing ladder.

With Louis will be 1st Sgt. George Nicholson, his former sparring partner, who is now a boxing instructor at Mitchel Field, New York, and Cpl. Walker Smith, known to fight fans as "Sugar Ray Robinson." Smith, a welterweight, is Nicholson's helper at Mitchel Field.

Exhibitions in the various camps of the commands will be coupled with talks by Louis to the soldiers about physical fitness.

PERMISSION GRANTED.

NEW YORK — (CP). — Gregg Rice could not race Gunder Haegg until he received permission from his superior officer at the King's Point (N.Y.) Merchant Marine Academy.

Houses Too Hot Experts Claim; Must Save Coal

OTTAWA, Aug. 17.—(CP).—Canadians who wear thin underwear and open their bedroom windows at night will be right out of the fashion parade of the moderns this winter.

Coal conservation authorities, indicating how Canadians may reduce their coal consumption by 4,000,000 tons this year—a 20 per cent. saving made essential by the fuel shortage — to-day blasted a few hoodoos.

Canadian homes, they said, are too hot in the winter. A check indicated many were kept at a temperature of 75 degrees. That, they argued, was too high for good health. The air filling a room, if outside, would have enough moiture to fill a thimble. Inside, at 75 degrees, that same air is capable of holding two gallons. It draws moisture from rugs, from the walls, from the furniture—and from humans. The rugs wear more quickly, the dry woodwork cracks, and the people of the house get the sniffles.

For squch discomforts Canadians pay heavily. If it were assumed that fuel was being used at utmost efficiency when a temperature of 68 degrees were maintained in the house, the officials said that when the temperature was raised to 70 degrees the coal waste was six per cent.; at 72 degrees, 12 per cent.; and at 74, 18 per cent. At 76 degrees the coal wastage was 24 per cent.

"Suddenly, people thing it's too hot, and they open ..a window," said an official. "Then it gets cold in the room, and they stoke up the furnace again. Waste!"

Leave Windows Shut.

Thousands felt that health demanded their bedroom windows be open, even in the depth of winter. All wrong, said the conservationists. If closed windows meant ill-health half the country residents of Canada would be invalids all winter. But in city homes, up go the windows, the wind and frost come in, and the furnace has to be kept red-hot to maintain the desired temperature.

"Count several shovelfuls of coal for every window left open at night," said one authority.

"If the furnace is in good shape, there is not the slightest danger in having all the windows shut, and at a reasonable temperature the house won't feel stuffy. Having the furnace working efficiently is a first essential of coal conservation."

Officials spoke feelingly of the home where the man sits without his coat, rather too warm, and the lady of the house shivers and tells him to get down and fix the furnace.

"A man's clothing is estimated to weigh about 10 pounds and a woman's about a pound and a half," said one. "Just think of the difference! With warm clothing, both would be comfortable at 65 degrees. But no, up goes the temperature to 75 degrees as the furnace is stoked, and thousands of tons of coal are used unnecessarily."

In the United Kingdom, one fireplace will serve a house. In chilly Canada, one stove will serve country homes. But in the city not one but every room in the house is kept at 75 degrees before the lady of the house feels comfortable.

Millions Wasted

"At the very minimum, from $30,000,000 to $40,000,000 worth of coal is wasted in Canada annually," said an official. "That doesn't mean the householder only is to blame, as industries, office buildings and the like have their own ways of wasting coal."

Another vexation in coal conservation is the room that's hard to heat. There's one in almost every house at some time or another. Officials said that too often the remedy was to push the furnace until the other rooms were blistering but the outlaw had reached 75 degrees. Usually the recalitrant room could be brought into line quickly if a heating firm were called.

Domestic users could save 2,400,000 tons of coal this year by "attending to a lot of little things that cause heat loss," said an authority.

They could, for instance, see that soot was removed from their furnaces frequently. One-sixteenth of an inch of soot on furnace plates could result in a 34 per cent fuel wastage.

"And," said an official, sadly, "we're sure most of them have deeper deposits than that most of the time."

Finally, they suggested storm windows.

"Less than 10 per cent of the homes in Toronto have storm windows," he said. "In homes where there are no storm windows, some 20 per cent of the heat is wasted unnecessarily."

TIPS FOR TEA-STRETCHERS

1
Steep three to five minutes; get all the "tea" out before you throw the leaves away.

2
Use only the young TENDER leaves. There's morefragrance, moreflavor, more "tea" in them. Ask ... *by name* ... for Tender Leaf Tea.

At your grocer's in two convenient sizes ... also in improved FILTER tea balls
BLENDED AND PACKED IN CANADA

Edmonton Regiment Members Search Captured Germans

The Edmonton Regiment, famous in the last war as the 49th Battalion, has earned itself a reputation for taking prisoners in the Sicilian campaign. During the first three days, the Edmontons took 3,000 Italians without firing a shot. Later, when they came up against Germans and the going got tougher, the Edmontons still kept the prisoners rolling back to coast and captivity. Here are a group of Germans taken near Valguarnera.

effort to slow their advance.

The Germans were reported still using some mobile artillery, however, in a final desperate attempt to stem the Allied onrush and a communique from Allied headquarters said they had launched an unsuccessful counter-attack against the 8th Army at one point yesterday.

Mopping up operations in the Messina region wre reported progressing and complete capture of the city was regarded as imminent.

American troops yesterday were reported not more than 10 miles by air from Messina as they advanced along the north coast and the British, moving up from the south by the east coast road were not much farther away. It was apparent the German and Italian troops remaining on the island were compressed in a tiny space with the narrow strait of Messina at their backs.

Whether they would be able to get across that strip of water to the temporary safety of the Italian mainland was problematical. Allied bombers beat a constant patrol over the Strait to balk any attempt at a wholesale evacuation.

British troops coming up from the south were facing the fire of guns emplaced on the Italian mainland and American forces came in under the screen of the mountains to the west.

(No mention has been made of Canadian troops in Sicily for nearly a week now, and observers believe they may be either resting or preparing for a new role in the invasion drama. However, Sunday Ralph Allen, Toronto Globe and Mail war correspondent with the Canadians, reported the 1st division held its first official church parade since the first Sunday in July when the troops were loaded aboard transports for an unknown destination.

(He said the soldiers gathered on the slopes and in the valleys of the war theatre while the chaplains spoke to them of their fallen comrades and of the spiritual ends for which they died.)

The American advance which captured Barcellona slashed across Cape Milazzo, ending any Axis hope of using port facilities on the cape or on the Gulfs of Patti or Milazzo, which flank it, for evacuation bases.

Taormina, another likely location for an Axis evacuation attempt fell to the British 8th Army and the Germans dropped back rapidly leaving two Italian regiments to hold a five-mile line from the port of Rocalumera to Mandanici.

The British forces had made no contact with the retreating Axis forces since they captured Fiumefreddo but their advance has been delayed by the methodical job of demolition carried out by the Axis.

Virtually all of Sicily now is in the hands of the Allied armies, which launched their invasion of the island on July 10, when an initial attacking force of 160,000 British, Canadian and American troops was landed on the southern beaches to meet enemy forces at least a third larger numerically.

The Axis forces still remaining in Sicily were being subjected to pitiless assaults from the air and their plight obviously was hopeless.

killed in the furious fighting of the last two days, they declared. In addition the fall of Karachev cost the Nazis 46 tanks, 12 planes, 100 field pieces and self-propelled guns, 225 machine-guns, 99 mortars, 223 trucks, and 6,500 rifles and large quantities of ammunition and supplies which were seized in the captured city, the bulletin announced.

Form 5 Certificates Mailed To Students

TORONTO, Aug. 17 (CP).— Upper school examination certificates for students in the fifth forms of Ontario High schools and Collegiates, "were maled to-day to all persons designated by local authorities to receive them." J. P. Cowles, registrar and assistant deputy minister of education for Ontario, announced to-day.

There has been no delay in sending out the certificates, except in cases where students obtaining standing on the basis of farm employment has not completed the required time on Ontario farms, the Department of Education said.

The recent death of Hon. Duncan McArthur did not delay the signing of examination certificates, Mr. Cowles said.

Lost Child Eats Grass Survives Ordeal

SHELL LAKE, Sask., Aug. 17 (CP) — Catherine Lang, 11-year-old daughter of Mr. and Mrs. Wildrew Lang, missing from her home here since Aug. 8, was found yesterday near the spot she was last seen. The discovery of the child ended a seven-day search.

She was found half sitting and grasping a small tree for support in a small clearing covered with thick grass. Two spots, approximately three feet across, were bare where she had eaten the grass for sustenance. Taken to hospital, the girl was reported in fair condition.

lars or telescopes.

Four German reconnaissance planes appeared over the south coast early last night, possibly attracted by signs of unusual military activities. One of these was shot down.

In the war office in Whitehall there was a rush of activity, as the war cabinet met and called in technical heads of all the services.

The News Chronicle commented: "There was generally in Whitehall a feeling of urgency and a sense of big events to come."

Women Plan Classes

MARMORA, Aug. 17 — (ENS).— Marmora Women's Institute are sponsoring a short course on Remodelling to be held in the White Hall from Monday, August 23 to Friday, August 27. Classes are being held from 10 a.m. to 4 p.m., the instructress being Miss E. M. Collins of the Department of Women's Institutes, Toronto.

Demand Recount In Perth, Toronto Beaches

STRATFORD, Ont., Aug. 17. — (CP).—Judge James L. Killoran of the Perth County Court yesterday ordered a recount of the ballots cast in the Perth riding in the Ontario election of Aug. 4. Hearing was set for Friday, Aug. 20.

John Anderson, legal representative of the Progressive Conservative candidate, J. Fred Edwards of Palmerston, and S. J. Mallion, a member of the executive of the Progressive Conservative Association of Perth County, appeared before Judge Killoran yesterday and presented affidavits contending that ballots were allowed which should have been rejected and some were rejected which should have been allowed.

W. Angus Dickson, Liberal, was declared re-elected on Aug. 12 in the riding, with a plurality of 20 votes over Edwards.

Obituaries

ARCHIE JAMES WARBRICK.

Archie James Warbrick of 461 Chamberlain Street, died at St. Joseph's Hospital on Monday morning after an illness of two weeks. He was 64 years old.

Born in Renfrew County, Mr. Warbrick had lived in Peterborough three years, coming here from Loring, Ont. He was caretaker of Knox United Church and a member of the Independent Order of Foresters.

A brother George of Weston survives.

The body is resting at the Nesbitt Funeral Home and will leave on Tuesday by train for Carlton Place, where the funeral will be held on Wednesday at 2 p.m. from the Matthews Funeral Home to Almonte Presbyterian Cemetery.

MISS ALICE GUIRY

LINDSAY, Aug. 17 — (ENS). — Requiem mass was conducted at St. Mary's Church yesterday for Miss Alice Guiry, well known resident of Lindsay.

Miss Guiry was born and educated in Downeyville and later trained for a nurse at Port Arthur. Following graduation she went to New York, returning to Lindsay in 1941. She was an outstanding church worker being a member of the Altar Society and the Catholic Women's League.

She is survived by four brothers and three sisters, Rev. Father Guiry of Port Hope, John and Joseph of Downeyville, Herbert of Trout Creek, Sister Mary of Victory, Sister Clement and Miss Guiry of Lindsay.

DONALD EARL SNELGROVE.

The funeral of the late Donald Earl Snelgrove was held from his parents' residence, Mr. and Mrs. B. Snelgrove recently. Donald, 17, had always been very active until eighteen months ago, when he was confined to the hospital through illness, resulting in having his leg amputated, but his cheerful disposition made friends of all.

Rev. Clayton Kidd of Peterborough, assisted by Mr. Turner, conducted the funeral service.

Donald is survived by his parents Mr. and Mrs. Bruce Snelgrove, six sisters and three brothers, Jean, Elmer and Walter at home, Ruth in Toronto, Mrs. D. Warr of Carmel, Mrs. V. Kennedy of Carmel, Mrs. J. Preston of Lakefield, Mrs. E. Warr of Peterborough, and Gerald Snelgrove of Peterborough.

The many beautiful floral tributes showed with what high esteem Donald was held in the community.

The pall-bearers were: Percy Bothwell, Douglas Clarke, Freddie Coombes, Alan Mofaftt, Clarke Darling, and David Lush.

The flowerbearers were: Victor Sweeting, Vertil Kennedy, Elmer and Dick Warr, George Kerr, Jack Huggins, and Roland Atchison.

Interment took place in the Fraserville Cemetery.

MISS ETHEL CHRISTINA WATERMAN

Miss Ethel Christina Waterman of 490 Lock street died Sunday at her home after a short illness. She was 61 years old.

Born in North Monaghan Township and eldest daughter of Mrs. Robert Waterman and the late Robert Waterman, she had resided here 15 years, coming from Frazerville, where she received her education. She was a graduate nurse and member of St. James' United Church.

She leaves to mourn her loss, beside her mother, three brothers and three sisters: John of Alberta, Joseph of Sarnia, Willard of Frazerville, Mrs. O. H. Ehnes of Detroit, Mrs. Ray Finley of Frazerville, and Kathleen at home.

The funeral will be held on Wednesday at 2:30 p.m. from the late residence, 490 Lock street, with Rev. F. W. Craik of St. James' United officiating. Interment will be made in Frazerville Cemetery.

MAGISTRATE BOVILL DEAD

JOHHANNESBURG — (CP). — Maurice White Bovill, one of South Africa's best-known magistrates, died in Johannesburg. He was the son of the late Sir Elliott and Lady Bovill and godson of Lord Kitchener, and was born in Cyprus.

Berlin Reports Troops Escaped

LONDON, Aug. 17—(CP)—The Berlin radio in a broadcast recorded by The Associated Press admitted today that all German and Italian troops have been withdrawn from Sicily.

The broadcast claimed the retreat from the island was carried out in the early hours today and that they reached the mainland of Italy with "their entire material and all supplies."

Maj.-Gen. Hube, whom the German broadcast described as the German commander in chief in Sicily was one of the last to leave the island, the Berlin radio said.

The German announcement claimed the Axis withdrawal had been so successfully conducted that "now on the Italian mainland an army is ready to strike."

The Italian Tuesday communique broadcast by Rome and recorded by The Associated Press made no mention of the retreat across the Strait of Messina but it limited is announcement to "bitter" rearguard actions fought yesterday.

MORE ABOUT—

City Of Turin

Continued from Page 1

Denain.

The Paris area was hit hard, with 17 German fighters downed in dog fights over the city, while Allied bombers accounted for the rest of the Allied score.

The German controlled Vichy radio said 180 persons were killed in the northeast and southeast suburbs of Paris.

Here are some questions and answers about the coal situation which will help you understand why you must prepare your home for winter right now.

Q. Is the coal situation in Canada really serious?
A. Yes. The Prime Minister has proclaimed it a National Emergency.

Q. What will happen next winter?
A. Canadian householders will have less coal than usual.

Q. Won't that be disastrous in many cases?
A. Not if householders are practical and farsighted ... not if they prepare their homes for winter NOW.

Q. What do you mean by "preparing a home for winter"?
A. Many homes waste their fuel through unnecessary heat losses. Preparing your home means eliminating these wastes.

Q. How can you waste heat?
A. By letting valuable heat escape through doors and windows ... by heating rooms which are not used ... by having insufficient insulation and faulty or inadequate heating equipment ... by careless, and improper firing.

Q. What can I do to eliminate these heat losses?
A. You should have your insulation, furnace and heating equipment properly inspected. Make sure now that your furnace is working efficiently ... that it is delivering heat throughout your home evenly, effectively and economically ... and that your home is protected against heat losses. Learn how to fire your furnace properly. Get busy now!

Q. Why all the hurry? ... it's only August!
A. Skilled workman and supplies are scarce. If you wait until the fall, you may not get the services you need.

You can't start too soon to prepare your home against the winter blasts. You will have to use less coal next winter ... so make sure you'll get adequate warmth when the cold weather arrives.

British Planes Waiting Shipment To Turkey

Turkish markings on their rudders, British Hurricanes are lined up on a desert airfield in the Middle East, ready to be flown to Turkey for use by hundreds of Turkish pilots and instructors who are being trained by R.A.F. instructors in the Middle East and in England. Increasing lend-lease shipments of planes to Turkey may indicate that President Ismet Inonu may be preparing to take an active part in the war on the side of the Allies, ending Turkey's precarious neutrality.

"Here's the New, Easy Way to Healthful Family Meals ..."

WOMEN everywhere acclaim "Eat-to-Work-to-Win"*, authoritative new booklet that takes all the guesswork out of good nutrition. It's practical ... time-saving ... easy to use! And there's a copy for you FREE, simply by mailing the coupon below.

Authorities realize the importance of nutrition for health, as an aid to Victory. Yet recent Government surveys show that the diet of 60 percent of Canadians is deficient. Perhaps *your* family lack proper foods to build health, stamina, high morale —to help keep them fit, on the job!

So learn the easy way to "good-to-eat" meals that provide every food need of the body. Send for *your* copy of "Eat-to-Work-to-Win" today!

Menus for 21 breakfasts ... 21 luncheons ... 21 dinners: Balanced ... delicious ... timely. MAIL COUPON BELOW

Ohio Lady Lands 30 Pounder

One of the largest fish taken from the waters of the Trent River this season was the specimen in this picture caught by Mrs. Hazel Hilty of Canton, Ohio. It was landed while trolling in Bradley Bay, near Parker's Landing, and weighed thirty pounds. It was 48" long and 22" in girth. The lure was a 19c spoon.

MAIN STREET TOPICS

REPORTED IN SICILY

Pte. Jack Mackenzie, son of Mr. and Mrs. William Mackenzie, 595 George street, who has been with the Prince of Wales Rangers, has cabled that he is in Sicily and is well. He was formerly employed at Sudgen and Shadgett's.

SMALL BOY SHOT

George Moore, 8 years of age, son of Mr. and Mrs. John Moore of Harwood, was accidentally shot in his hip with a .22 rifle by a playmate, and was rushed to Cobourg Hospital. The bullet was found lodged in a window frame.

NOW OVERSEAS.

Bdr. Archie Weir of the R.C.A., son of Mrs. M. Weir, 215 Dublin Street, has arrived overseas. He enlisted in August, 1942, and formerly worked at the C.G.E. A brother, PO. Ormond Weir is with the R.C.A.F. in the Eastern Air Command.

DOG OWNERS WARNED.

Constable Bruce Menzies reports that there are a number of dog owners in North Monaghan township who are likely to find themselves explaining, to the Magistrate why they overlooked the formality of buying tags for their pets this year. The constable reports that quite a number of dogs are lacking the conventional neckwear.

BLOOD DONORS.

Silver pins were awarded at the Blood Donors Clinic on Monday morning to Dr. G. R. Penhall, Howard Blewett, and William Carter, each of whom made their sixth donation. Sixty-four donors in all attended, some coming from Westwood, Millbrook, Lakefield, and Lindsay. Quaker Oats, C.G.E., Canada Packers, and Westclox were represented by a number of employees.

C.C.F. DEMAND

Official recount of votes cast in the Aug. 4 Provincial General Election in Toronto Beaches constituency will be made before Judge Frank Denton Friday. It was announced today a C.C.F. request for the recount had been granted.

T. A. Murphy, Progressive Conservative and member of the last legislature, had been declared elected over the C.C.F. candidate, Gordon Ferguson, by 42 votes. The count was 6,926 for Murphy and 6,884 for Ferguson. Ernest Bray, Liberal, trailed with 2,021.

Bert Leavens, C.C.F. official who requested the recount, contended there were 100 spoiled ballots.

WINE SUPPLY CUT.

Local wine ration has been reduced from three 26-ouncers" a week to two.

IN ON CAMPAIGN TOO

Mrs. D. W. Henderson, of Marmora, has received word that her son, Pte. Marshall Sophe, is with the Hastings and Prince Edward Regiment in Sicily.

NO DATE SET

The Department of Education said today that no official school opening date has been set so far by the Department and no announcement is expected until the appointment of the new Minister of Education.

BUS, BICYCLE COLLIDE.

Riding his bicycle south on Park street this morning, John O'Brien, Water street, swerved to avoid hitting a girl cyclist who made a left turn into Wolfe street and his wheel came into collision with a city bus. O'Brien escaped unhurt but one wheel of his bicycle was damaged in the accident.

ROBBING GARDENS.

Owners of Victory gardens throughout the city continue to report the theft of vegetables and damage done by intruders. The city police are on the lookout for the guilty parties and if the robbing of these garden plots doesn't cease, some of the offenders are likely to find themselves in police court, the department warns.

DOCTORS ON CALL

The Peterborough Doctors are observing Wednesday Afternoon as a Half-Holiday throughout the year. Those on call on Wednesday Afternoon and Evening of this week are Dr. Chenoweth, Dr. Clark, Dr. Howson, Dr. Cameron.

Large Diamond! Was It You?

Would the gentleman who was showing P. B. Crews, old gold and diamond expert the large diamond ring, kindly call in again, as we have information now that may be of interest to you. Please call before Saturday, August 21st.

Township Taxes Tenants In Wartime Houses

The tax collector has finally got around to Wartime Houses on the Hatton property in North Monaghan..

Some of the tenants have been reporting receipt of tax bills from the township's collector, and as they are paying rent to Wartime Housing Limited they are ruffled by the prospect of also having to pay the property tax.

The tax rate in School Section No. 2 including the suburban area is 45.4 mills, and it is said that the total amount of taxes estimated from the Hatton property is approximately $4,775. Spreading that tax over 125 houses would mean an exchange of $300 a house.

This question of applying a municipal tax to Wartime Housing Limited properties was discussed at a conference here last year. On that occasion North Monaghan was advised by A. J. B. Gray, Deputy Minister of Municipal Affairs, to take action into their own hands by taxing the tenant occupants. At the same time, F. D. Kerr, K. C., objected that as the temporary houses were Crown property they could not be subjected to municipal taxation.

The members of North Monaghan council have considered themselves in a difficult position since Wartime Housing entered upon lands of their township. The dilemma confronting them was represented by the conflicting advice of Mr. Gray on the one hand, himself an official of the provincial Department of Municipal Affairs, and by the asserted principle of which Mr. Kerr reminded the council briefly that Wartime Housing Limited was subsidiary organization and agent of the Crown and its property should be exempt from municipal taxation.

Whether the municipality can validly tax the tenants of Wartime Housing is a question that suggests itself to the layman, in spite of the proposal of A. J. B. Gray, but at any rate the township has taken a first step to apply pressure for the collection of monies which its officials are apparently convinced should be forthcoming from some source.

Music Teacher Dies At Buffalo

Mr. and Mrs. David Yarnold, Harvey street, have returned home from Buffalo, N.Y., where they attended the funeral of Mrs. Yarnold's brother, the late J. J. Ball. Mr. Ball, a music teacher, lived in Peterborough for a number of years and had many friends here who will be sorry to learn of his passing. The Buffalo Evening News has the following to say of his death:

"Gentle hard-working John J. Ball, the music teacher who heard a little girl sing two-score years ago and started her on a career that led to international fame, died in comparative security Monday his years brightened by occasional tributes his famous pupil paid him.

"A young teacher at the time the Pan-American exposition was held here in 1901, Mr. Ball heard little Nina Morgan sing as he rode in a gondola in a Venice-in-America pageant. He recognized the talent in her clear treble voice and offered to teach her.

"For several years thereafter the young singer went regularly to Mr. Ball's studio at 120 Cottage street until her growing ability and spreading fame led her to broader fields of musical training. She became famous internationally in opera and subsequently married Bruno Zirato, secretary of Enrico Caruso.

"One of Mr. Ball's prized possessions was a photograph of the diva she sent him while she was singing in the Metropolitan Opera. It was inscribed 'To my first teacher.'

"Mr. Ball who was 64 was organist at St. Mary Magdalene Church 14 years and organist in St. Mary's of the Angels Church, Olean, for five years. He also was a baritone of considerable ability.

"He is survived by two sons, Pte. John Ball in Texas and Pte. Robert Ball at Camp Smith, N.Y., a daughter, Mrs. Evangeleine Campbell, a brother, Dr. William Ball, Jersey City, and four sisters, Mrs. Henry Kramer, Mrs. David A. Yarnold of Peterborough, Ont., Mrs. Michael Enright, Rochester, and Mrs. Grace Trout, Chickasha, Okla.

Funeral services were held at 9 o'clock this morning in St. Mary Magdalene Church. Burial was in St. Bonaventur Cemetery, Alleghany."

Air Force Swamped

TORONTO, Aug. 17 — (CP). — Following announcement of the extension of call-up regulations, Toronto's Royal Canadian Air Force recruiting centre was swamped with applications yesterday. A line formed outside the office early in the morning and continued through the day.

HUGE SUN SPOTS

Sun spots range from 500 to 50,000 miles in diameter.

Two Local Men Failed To Report

Two Peterborough County men, Sherman Godfrey, 27, Smith Township and Sidney Lorne Henry, 28, Asphodel, were fined $25 or a month in jail by Justices of the Peace Vincent Eastwood and E. B. Fowler in police court this morning after they had pleaded guilty to failing to comply with the proclamation issued last spring requiring all men within the military service age group who had not received notice to report for medical examination to register.

The charges were laid by Constable J. K. Bridges of the Cobourg detachment of the Royal Canadian Mounted Police.

Corp. Karl Lockwood, R.C.M.P. pointed out to the magistrates that under the regulation it was provided that in addition to the penalties set forth men convicted under this section were to be turned over to the R.C.M.P. to be escorted to the nearest military reception depot.

"The reason why we ask for a penalty in these cases," said Corp. Lockwood, "is that if men like these feel that they are safe in ignoring the regulations because that the worst that can happen them is to be turned over to the army they will just sit at their ease and wait. That means that thousands of dollars are spent in having the police round them up."

The justices imposed a fine of $25 in each case and ordered that after the fine was paid or the alternative jail sentence served Godfrey and Henry were to be handed over to the R.C.M.P. and escorted by them to the military authorities.

These were the first cases of this kind that have been tried here. Apparently the two men had never been notified to report for medical examination and they failed to comply with the proclamation which instructed all such men to report to the nearest post office.

War–25 Years Ago

By The Canadian Press

AUGUST 17, 1918—French under General Mangin began an advance on a nine-mile front culminating in the capture of Morsain, between the Oise and the Aisne, and British made gains near Lihons. American troops arrived in Vladivostock.

Four Casualties Reported On Sicilian Front

The casualty list from the fighting in Sicily has four names of boys from the Peterborough district who have been wounded in Sicily added to its roster today, and all have been fighting with the Hastings and Prince Edward Regiment.

PTE. KENNETH BRYANT

Pte. Kenneth Bryant, son of Edward Bryant, R.R. No. 2 Lakefield, was at camp with the Reserve Army when war broke out in 1939. He immediately went active with the H.P.E.'s and managed to see some of France before Canadians were evacuated from there in 1940. He was stationed in the Middle East for nearly a year and in November of 1942, joined a small group of Canadians in North Africa.

Because he loves a good fight, this soldier has tried to hit all the hot spots chosen by the Axis since the outbreak of the war, and he serves as a mortar gunner. In prewar days, Pte. Bryant was mascot for most of the ball teams around Lakefield and he worked on a farm.

The other three boys, Sgt. William E. Morris, Pte. Gerald Fuller and Pte. Bernard Crawford come from in and around the vicinity of Bancroft.

Sgt. William E. Morris, son of Mr. and Mrs. W. Morris of Bancroft was among those wounded in the recent Sicilian invasion. Sergeant Morris enlisted with the Hastings and Prince Edward Regiment and has been overseas since the Fall of '39. He is 23 years of age and attached to the Anti-Tank Corps.

Pte. Gerald Fuller, son of Mr. and Mrs. Robert Fuller of Bancroft also enlisted with the Hastings and Prince Edward Regiment and left for overseas in the Fall of 1939. He is 23 years of age.

The third, Pte. Bernard Crawford, son of Mr. and Mrs. Herbert Crawford of Detlor was wounded in the left knee and right forearm in the recent Sicilian invasion. He enlisted in the Hastings and Prince Edward Regiment and left Picton December 17th, 1939, for overseas. He is 26 years of age. Bernard also has a brother overseas for the past two years. He is 20-year-old Gnr. John Crawford.

Paralysis Mounts

CHICAGO, Aug. 17 (CP) — The American Medical Association Journal last night stated that Infantile Paralysis in some parts of the United States "has reached almost epidemic proportions."

First Soldier Wounded From 4th Anti-Tank

One of the originals of the 4th Anti-Tank unit recruited here, L/Bdr. A. J. Moore, has been wounded in Sicily where he was serving with an anti-tank unit, to which he had been transferred, according to word received by his wife, the former Ethel Nicholls of Peterborough. He is the first casualty from his early unit.

Mrs. Nicholls receieved word from official sources on both Saturday and Monday stating that her husband was suffering from wounds and burns and further details will be given later.

L/Bdr. Moore, formerly employed at Brooks Grill, enlisted June 12, 1940 with the 4th Anti-Tank and then spent two years overseas. His wife now lives in Toronto.

MonaghanSends Council New Suggestion

North Monaghan council put their heads together last night and thought up a protocol of appeasement to allay the city's apprehension of appearing in suburban annexation negotiations as the big bad wolf roving the border for a soft spot to gulp with one bite.

And with appeasement obviously there is also saving of face in the new preamble which sets forth something to the effect that, in view of the fact that Wartime Housing Limited has suggested the annexation of part of the township, the two municipalities appoint committees to meet in conference and generally to enquire into the possibilities of the proposed extension westerly of the city boundary along Monaghan Road.

The township officials believed last night that they were satisfying the city's demand to avoid seeming designs on their neighboring acres, and at the same time they must have felt that they were maintaining a passive position as observed by their own ratepayers.

The proposed solution was to shift the initiative to Wartime Housing Limited for which there has probably been ample reason in circumstance and effect if not actually in correspondence.

As reported along the street this morning, the new Monaghan approach floated toward the city hall with the luminous quality and aura of a bright idea. In fact some of those who heard about it were wondering who conceived it, as a shift that offered itself to both communities as an offering to the city's attitude of avoiding a position or gesture which might seem acquisitive or even be suspected of covetous looking across Monaghan Road and as far into the township as Western avenue.

Charge Alleges Horse Abused

Two youths who appeared before Justices of the Peace Vincent Eastwood and E. B. Fowler in police court this morning had their cases adjourned until tomorrow when one of them pleaded not guilty.

Harold Wilson was charged with having been intoxicated and entered a plea of guilty.

His companion, Harold Kemp, charged by Humane Inspector Gerald Dunford with having abused a horse said that he was not guilty.

Inspector James F. Reid asked for an adjournment until Wednesday morning, suggesting that Wilson be allowed to withdraw his plea of guilty until then.

Fourth Field Battery Honored Changed To Heavy Anti-Aircraft

A signal honor has come to the 4th Reserve Field Battery, of the 43rd (R) Field Regiment, Peterboroguh.

The 4th Battery, recognized as one of the most capable Artillery units in the Reserve Army, will be converted from Field Artillery to a Heavy Anti-Aircraft Battery, Lieut.-Colonel D. J. Lawrie, O.C. of the 43rd Field Regiment, announced last evening at the Armouries to the Battery personnel. The order for this change came through from Headquarters Military District No. 3. Another unit in this district, the 51st Battery of Ottawa is being converted to a Light Anti-Aircraft Battery.

This means that the 4th Battery will be firing "heavy barkers," in other words the famous 3.7 gun, which are not unfamiliar to many citizens here. The Battery personnel is enthusiastic about their new role in the Canadian defence plan.

Needs More Men

Not only does this change mean that the 4th Battery will receive entirely new equipment and that its training will be greatly altered, but it will also result in an increase in the Battery strength. As a Field Battery the 4th's strength was ten officers and 194 other ranks, but as a Heavy A.A. Battery this will be increased to eleven officers and 284 other ranks. It is expected that the 4th Battery will experience little dificuly in increasing its strength to the full establishment.

Major J. F. C. Maunder will act in the dual capacity of training officer of the 43rd Field Regiment and of the 4th (R) A.A. Battery. Battery Sergeant-Major C. W. Crain will come to the 4th Battery on the A. & T. staff to assist in the new role of the 4th.

Artillery men know that only the most efficient units are being selected as anti-aircraf units, and 4th Battery men, old and new, will be justifiably proud of this new recognition of the high efficiency standard of the 4th. Captain Roy A. Phillips is officer commanding this smart battery.

With Boys In Services

The editor of this column will welcome extracts from letters from boys serving or any other information concerning them.
By JEAN STENTON

Lieut. G. P. BROOK who has been on active service with the mechanical company of the Veterans Guard somewhere in Canada, has now transferred to the Active Army and has been promoted to the rank of captain. His son Stan, of the R.C.A.F. was taken prisoner in Africa some months ago while working with the British 8th Army.

TPR. JAMES CRAWFORD

Tpr. James Crawford of the Tank Corps has arrived overseas according to word received by his parents, Mr. and Mrs. Charles Crawford, of RR No. 3, Lakefield.

Another Peterborough boy has returned to the fold for a period of training. He is **CPL. WILLIAM WHEELER** of the R.C.A.F., son of Mr. and Mrs. W. Wheeler, 675 Stewart street, and he has returned home to take a navigation course.

Cpl. Wheeler expressed himself as delighted with the English people, and the fact that he recently married an English girl may have something to do with this. It has been his experience that the people overseas have been very kind to Canadians.

His particular work led to his being attached to the R. A. F. station where there were few Canadians. Cpl. Wheeler remarked that he agreed with a number of Canadian fliers who said that they preferred mixed crews for he thought they did a better job.

When questioned about the food shortage, this airman declared it was no better and no worse than when he went over in 1941. The things are still rationed in exactly the same amounts, and after hearing the stories of two Belgians who escaped from the continent and joined the R.A.F. he decided that the forces in England could count themselves lucky.

Before coming home Bill Wheeler, ran into **HUGH DAVIDSON** at the Beaver Club, **GEORGE BALL** who is with the R.C.A.M.C. and **THOMAS LaPLANTE**, and all three were in fine shape.

A few days ago a number of the Supper Club boys got together for a little dinner and news session and Grant Smedmore and Bill were two of the guests and the general trend of conversation was concerned with the doings of the members in the armed forces since they left the group. Many of them have been married since joining the fighting forces.

SGT. EMMETT J. GUERIN, son of the late Mr. and Mrs. Frank Guerin of Peterborough has arrived overseas. Before enlisting he was employed at the Quaker Oats and then for a while was with the paratroopers in Vermont.

OS LESLIE DAVIS

Ordinary Seaman Leslie Davis, son of Mr. and Mrs. Stanley Davis 173½ Simcoe street, enlisted in the Canadian Navy in May 1943. He is still in Canada training and before joining up was employed at the Card and Paper Works.

The family of the late F. W. Pratt, well known boat builder at Gore's Landing is well represented in the armed forces by four grandsons, all of Toronto.

SGT. DONALD HILLIS, whose mother was formerly Miss Bessie Pratt, is with the Royal Canadian Ordnance Corps and has been in England more than a year.

GNR. F. D. EDWARDS, son of the former Miss Agnes Pratt, is connected with the self-propelled horse artillery and **PO. W. J. COATES** of the R.C.A.F. arrived in England recently. His brother **PTE F. R. COATES** of the Royal Regiment is at present in Camp Borden training in the N. C. O. class. Both Coates boys are the sons of Mr. and Mrs. William Coates. (Nora Pratt).

VERNA DEY of Port Hope was one of five honor graduates to leave No. 2 Composite School, R.C.A.F., Toronto. In this class were clerk stenographers, clerks general, drivers transport, parachute riggers and clerks general special.

Two years overseas is the record of **GNR. W. H. MERRETT**, who is with a light anti-aircraft unit. His wife and four children live at 390 Park Hill Road and he is the son of Mr. and Mrs. Frank Merrett. Gnr. Merrett recently met his brother-in-law, Sgt. Lorne Galley who is with the S.D. and G. Highlanders, and he too has been in England two years.

Among a large class of men graduating from Brockville Officers Training Centre over the week end was **C. E. TURNER** of Campbellford.

"Four men and a girl" were taken into the R.C.A.F. during the week of August 11. They are: **L. W. MILE**, 473 Bellevue street; **V. J. COOK**, 484 Glengarry avenue; **N. A. WHITE**, 2 Gladstone Avenue and **W. A. DANAHY**, 223 Bethune street. **MISS G. C. D. RAE**, of 744 George street was accepted in the Women's Division.

GNR. KENNETH R. HOARD

Among the most recent arrivals overseas is Gunner Kenneth R. Hoard son of Mrs. Margaret Hoard, Omemee. He is with the self propelled Royal Canadian Horse Artillery. He enlisted in July 1942 and received his training at Petawa, Debert, and Long Branch. Before enlisting he was a sergeant with the 4th Field Battery (R) and was employed at the Western Clock Company. His wife formerly Catherine Joyes, lives at 247 Burnham street.

Wesley Champ Dies In Regina

W. W. Champ, owner of the Champlain Hotel and a sportsman who at one time was an executive of the Peterborough Hockey Club, died Monday in Regina, Sask. His death came suddenly after a week's illness in the hospital. He was 57 years old.

Mr. Champ was in the city last, five weeks ago. He had owned the Champlain Hotel since 1934, and it was his custom to spend a number of weeks each year in Peterborough on business.

Mr. Champ's business interests were many and varied. He was president of Hi-Speed Tools, Ltd. of Galt, a firm specializing in the manufacture of precision tools and owned by his family. He owned the Champ Drugs, Ltd. of Regina and built a large hotel in that city in 1926 which he sold ten years later. His interest in sports led to his managing and owning a number of hockey teams, among which was the Regina Capitals, eventually to become the Chicago Black Hawks. Eddie Shore was one of the star players who trained under him.

Mr. Champ had made his home in Regina 32 years and lived at 53 Leopold Crescent. Counted among his hobbies were flowers and the collecting of paintings.

He is survived by his wife, Myrtle Chisholm Champ and 4 sons and a daughter. Two sons, Lt. W. A. Champ and Lt. Robert Champ, are on active service in the Army and the former is serving overseas. Warren, Barrie and Barbara live at home. Mr. Champ's mother, Mrs. Christina Champ, lives in Galt, as also does his brother, Harry. Two other brothers, Stuart and David, make their home in Regina.

LESS THAN HALF A DAY

The average time for transit through the Suez canal, 101 miles long is 11 hours 31 minutes.

Sale Of Flowers Nets $17.80 For War Victims

Messengers of life, hope and beauty, the wonderful creations of an Almighty Hand that has bestowed such beautiful flowers for the benefit of mankind, have always been used to cheer the sick and those afflicted in other ways, no matter where they may be.

Last Wednesday the Eastern Ontario Gladiolus Society and the Peterborough Aquarium Society joined hands to hold a first annual show which augers well for the future, for close to five hundred people attended at some time during the afternoon or evening and those who did so were very amply rewarded, the market hall kindly given by the City Council for the occasion presenting a scene of real beauty, with some of the choicest gladiolus flowers on display, besides others too numerous to mention at this moment.

A rare opportunity was given to those who were present at the close of the show to secure some of these beautiful flowers for themselves when the whole of the exhibit was sold for the purpose of augmenting the other receipts which will come to the Peterborough and District British War Victims' Fund, as a result of the effort of the two societies.

Of course nothing could be really more appropriate than this, for the money that the fund cables to the Lord Mayor of London to help the sufferers from air raid attacks over Britain, in reality carries exactly the same message of hope and life, that these flowers would have conveyed had it been possible to send them to those afflicted in a direct manner.

This sale was conducted by H. B. Ball, the secretary for the Eastern Ontario Gladiolus Society, assisted by the members, from which this column today records a donation of $17.80, so the flowers thereby served in a number of ways, in many instances winning an award for their original owners, then gracing the homes of those who bought them at very reasonable cost, and thirdly, by giving help to those in need in the front line in Britain.

Later on, this column will report the full financial return from this event, which will give fairly substantial assistance to the fund, and the objects it seeks to serve.

Centre Theatre $15.20

The penny boxes placed in all of the three local theatres are among the best producers for the fund, and all three report the children as taking their full share in helping the cause along.

The latest of these comes from the Centre Theatre, the contents of this one box netting the nice sum of $15.20, when collected by the secretary of the fund quite recently.

Previously acknowledged	$61,736.46
Penny Box at Centre Theatre	14.70
Sale of flowers at the Gladiolus and Aquarium Show Wednesday, Aug. 11, per H. B. Ball	17.80
Total to date	$61,768.96

Port Hope Man Dies

VICTORIA, Aug. 17 —(CP)—Col. Ralph Craven Andros, D.S.O., 72, died here today. Born in Port Hope, Ont., he served five years with the Royal Northwest Mounted Police on the prairies and ranched near Weyburn before coming here in 1914.

Col. Andros went overseas as second in command of the First Canadian Mounted Rifles of Winnipeg, in the First Great War, later taking command of that regiment.

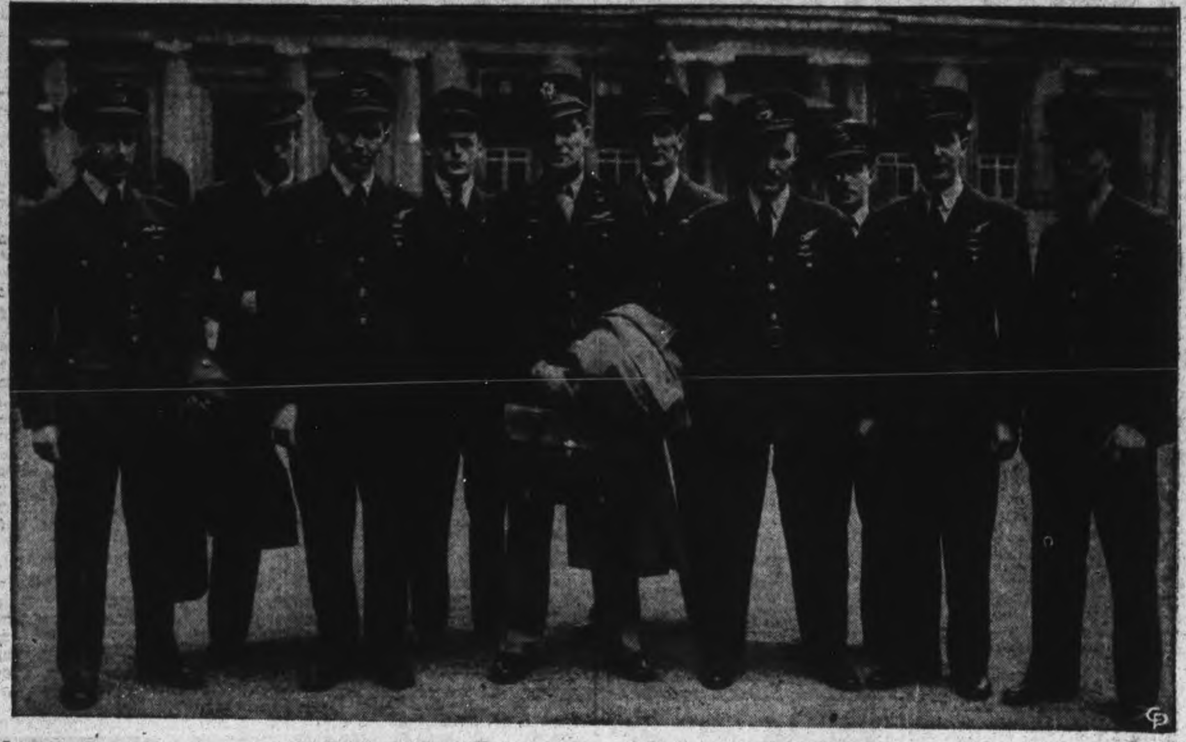
Members Of The R.C.A.F. Receive Awards For Their Heroism In The Air



Nine R.C.A.F. winners of the Distinguished Flying Cross and one winner of the Air Force Cross are shown outside Buckingham Palace after the investiture at which they received their awards from the King. In FRONT, LEFT to RIGHT, are Squadron Leader G. C. Keefer of Charlottetown, P.E.I.; Flying Officer C. E. Sorsdahl, Midvale, Sask.; Major Donald Blakeslot, U.S. Army Air Corps, former R.C.A.F. fighter pilot, from Fairport, Ohio; Flight-Lieut. A. E. Webster, Vancouver; Squadron-Leader R. I. Trickett, Humboldt, Sask.; and Flight-Lieut. W. C. Sanderson, Duff, Sask. REAR ROW, Flight-Lieut. W. A. G. Conrad, Bedford, Que.; Flight-Lieut. I. C. Ormston, Montreal; Flying Officer W. A. Black, A.F.C. winner, Halifax; and Flying Officer F. C. E. Waterman, Princeton, B.C.

American Units Invade Pacific Island

ALLIED HEADQUARTERS, the Southwest Pacific, Aug. 17 (AP). —Japan's holdings throughout the Central Solomons are virtually doomed and enemy oases still barring the way to his fortress of Rabaul are gravely menaced as the consequence of a surprise invasion of Vella Lavella Island.

United States forces in considerable strength seized it Sunday and Allied Headquarters disclosed the new move in today's communique.

The Americans bypassed Kolombangara island, on which Vila is situated, and overwhelmed Vella Lavella, 45 miles northwest of New Georgia. Seizure of this northernmost island of the New Georgia group seemed to seal the fate of all the other intervening islands—Ganongga, Gizo, Wanawana and Arundel as well as Kolombangara.

It does even more. It puts United States forces within 80 miles of Bougainville. On and around Bougainville are four of the six air bases in the Solomons still in Japanese hands —Kahili and Kieta on Bougainville, Ballale below it, Buka above it. Vila and the sea plane base at Rekata Bay, Santa Isabel, are the others. Both Vila and Rekata Bay were bombed yesterday.

Even as the Americans moved up the Solomons nearer Rabaul, Australians, in tough mountain fighting, finally wiped out Japanese resistance on northeastern New Guinea at Tambu Bay, only six miles south of the enemy air base of Salamaua. At least 200 Japanese were killed.

Maintaining mastery of New Guinea's skies, high altitude fighters of the 5th United States Army Airforce intercepted a formation of 25 Japanese dive-bombers and Zeros over the Watut Valley 40 miles southwest of the Salamaua-Lae sector Monday, shooting down 12 and probably destroying two others at a cost of only one plane.

Proving to the Japanese that last Friday night's record-breaking raid on the enemy oil port of Balikpapan, Borneo, was not a stunt, other Allied bombers early Monday repeated the 2,500 miles round trip flight.

They found refineries smouldering and rekindled the fries. They also sank a 6,000 ton tanker in the harbor. All planes reached Australian bases safely.

Hamilton Brothers Still Stick Together

LIEUT. ROBERT HAMILTON SGT. PILOT WM. HAMILTON

The two Hamilton brothers, sons of Mr. and Mrs. W. J. Hamilton, Homewood avenue, are believed to be operating in the Mediterranean area. Lieut. Bob Hamilton is reported to be in Sicily. He went overseas in the fall of 1942 with the R.C.A.S.C. after graduating from college. His brother, Bill, entered the R.C.A.F. after he graduated from high school and is a pilot on a Stirling bomber. Both attended Peterborough schools.

Mobilize Hospital Unit At Brockville

KINGSTON, Aug. 17. — Announcement has been made at Military District No. 3 headquarters here of the mobilization for active service of No. 2 General Hospital, Royal Canadian Army Medical Corps, with Col. D. A. Warren, M.C., of Hamilton, and former officer commanding Chorley Park Military Hospital, Toronto, as officer commanding.

The unit will mobilize at Brockville, and an advance party has already been sent to St. Mary's College, where the unit will be brought up to strength in a very short tmie as those allocated or transferring to its rank are assured of early service overseas. Two hospital units, the 13th General of Picton and the 18th General, Cobourg, were also recently mobilized in this district.

Major H. I. Palmer, of Brantford, is registrar of Chorley Park Military Hospital, and prior to his enlistment practised in Brantford. Major Palmer served during the last war as a medical officer with the Royal Navy.

Capt. (Matron) M. A. Rutherford, of Mount Forest, Ont., Matron of the Kingston Military Hospital, has been named matron of the new hospital unit.

Col. Warren, officer commanding is himself well known to the Canadian medical fraternity. He served overseas during the last war with the Royal Army Medical Corps and later transferred to the Canadian Army Medical Corps. He was awarded the Military Crosss for distinguished service in the field.

Prior to his enlistmet, Col. Warren practised in Hamilton, specializing as an anaesthesist.

Although non-commissioned officers and other ranks will be drawn mainly from Military District No. 3 and No. 2, medical officers and nursing sisters will be drawn into the unit from all across Canada.

No Christmas Trees

OTTAWA, Aug. 17 — (CP). — A joint statement issued by the Prices Board and Transport, Labor night said shortage of labor and transportation would result in no Christmas trees being cut this year.

OWNED MODERN PAPER

CAIRO — (CP). — Takla Pasha proprietor of El Ahram, leading newspaper in the Middle East, died recently at the age of 53. In peace time El Ahram was distributed throughout the Middle East by its own airplanes.

Poultry Officials To Visit Peterboro

LONDON, Ont., Aug. 17 (CP) — E. R. Hooey, senior poultry products inspector for this district, will be in Peterborough on Wednesday attending the Central Ontario Poultry Production conference, arranged in co-operation with the Poultry Industry Committee of Ontario.

It is expected that Mr. Hooey will gain valuable suggestions from the meeting to help the committee which is in charge of organizing a similar conference for Western Ontario here in September.

Prominent authorities on poultry will be present from the Ontario Agricultural College, Guelph; The Dominion Department of Agriculture, Ottawa; and the Poultry Pathology Laboratory, Central Experimental Farm, Ottawa.

Exam Results Given

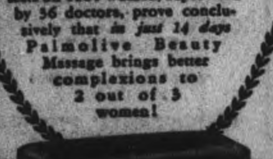
OTTAWA, Aug. 17 — (CP). — Dr. J. Fenton Argue, Registrar of the Medical Council of Canada last night announced the names of 180 successful candidates in the Medical Council examinations held recently in Kingston, Toronto and London, Ont.

It's true! New Skin Beauty in 14 Days
PROVED BY 36 DOCTORS IN 1285 TESTS

New beauty—PROVE it for yourself! Each time you wash with new, improved Palmolive, take one minute more... *a full 60 seconds* ... and massage Palmolive's soothing, beautifying lather into your skin—*like a cream.*

It's that extra 60-second massage with Palmolive's lather that works such wonders on all types of skin.

Here's DOCTOR-PROOF! Scientific tests on 1285 women, supervised by 36 doctors, prove conclusively that *in just 14 days* Palmolive Beauty Massage brings better complexions to 2 out of 3 women!



KEEP THAT LOVELY SCHOOLGIRL COMPLEXION

ExportsBasicPost-WarEmployment

MONTREAL, Aug. 16—In the year immediately preceding the war the manufacturing industry employed about 650,000 persons, or one-sixth of those gainfully employed in Canada. The number employed in 1943, according to a recent survey by the Canadian Manufacturers' Association, is at least 1,250,000, which appears to be about one-quarter of all Canadians gainfully employed, including those in the armed forces.

The Association further indicates that it is not probable that the manufacturing industry will be able to maintain the present high level of employment unless the tremendous wartime expansion of Canada's foreign trade can be maintained. Within certain qualifications it is further claimed that on balance it is probable that employment in manufacturing will be much greater than it was in pre-war years.

In general, the companies included in the survey "anticipate few problems in the change-over to peacetime conditions and it is not believed that the cessation of hostilities will materially affect the labor situation, that is excluding those plants which have been built especially for war production and mainly operated as Crown companies.

As to the building industry, optimism prevails there. Not only do they foresee housing schemes here in Canada, but buildings abroad will be needed in thousands, and it is hoped that European countries will want to use Canadian building materials.

Agricultural implement makers see good markets, but want also favorable trade agreements for the export markets. Steel industries do not profess to anticipate the future. The mining companies say they can get right back to work. Coal producers want markets ensured them. Automobile men can quickly go back to work after the armistice. The transportation industry picture is not clear, but the future of Hydro electric development calls for "a modification of the Excess Profits Tax so that adequate reserves can be accumulated for a post-war construction program."

Conclusions appended to the survey include these observations:—

In the face of present uncertainties, business alone may not be able to provide maximum employment in the immediate post-war period. Government in consultation with business, therefore, should prepare plans for the short term stabilization of employment used in the first phase of peace, expenditures on public works, conservation and town planning schemes and on measures to stimulate the re-housing of the people. Government should also lay plans for the long term stabilization of employment through the maintenance, at a constant rate, of private investment in capital equipment and through the operation of public finance and monetary policies conceived to this end.

Measures should be planned for the betterment of Canadian agriculture involving outlets for agricultural products in export markets, and through their new and wider use in industry, in addition to the more effective use of the land and a rise in the standard of living of the farmer himself. The prosperity of the farmer with his resultant demand for manufactured goods will contribute largely to maximum employment.

An overall examination of the Canadian tariff and of Canada's taxation structure should be undertaken to permit the finding and removing of anomalies which would otherwise hinder Canadian business in reaching its objective of maximum post-war employment.

Long term government plans should be designed to raise the human standards of Canadian citizens including the provision of security against the still unavoidable mischances of life. The development of better relations between management and workers and the adoption of a national labor code to govern the relations between management and organized labor will make for a happy and contented body of employees in this Dominion.

Lakefield Casualty

Pte. Douglas J. Holmes, who was reported wounded in Sicily on Saturday, is pictured ABOVE with his bride. He is the second Lakefield boy to be wounded in Sicily and is the son of Mrs. J. L. Holmes and his father is Pte. Holmes, stationed at the Peterborough Training Centre.

The Stars Say

By GENEVIEVE KEMBLE.
For Wednesday, August 18.

A thrilling and unforeseen circumstance may definitely set aside the recent depressed and limiting state of affairs, making way for some very concrete action in new and unaccustomed grooves of endeavor of major significance. It might be wise to grasp such situations with all the energies, abilities and resources at command, since they may carry promise of unusual denouement in the way of gain, stability, accumulations, and future status and security of sound worth. While vigorous attack is advised, yet strategem and policy may also assist.

If It Is Your Birthday.

Those whose birthday it is may enjoy a year of definite about-face in their affairs, with depressions, stagnations, and limitations suddenly removed, to make way for major operations and thrilling achievements which should have far reaching effect on the fortunes, with increased possessions and accumulations. Work for this with all the force, ingenuity and resources at hand, not forgetting to use finesse or diplomacy.

A child born on this day may have much originality, ingenuity, skill and enterprise, backed up by practical and constructive ideas and principles. It might, however, be easily victimized, unless exerting shrewd vigilance.

New "Loot Suit"

NEW YORK, Aug. 17 — (AP). — Enter the "loot suit." David Hauser, arrested 28 times as a pickpocket, so described his costume when he pleaded guilty to a petty larceny charge. It had wide-waisted trousers, with snug cuffs that prevented stolen articles from slipping out.

FAVOR THE SWAMPS

Leeches breed in swampy places in the tropics.

Plenty Of Action Yet

NEW YORK, Aug. 17 (AP) — Bernard MacFadden marked his 75th birthday by frowning over the physical condition of American youth—and then standing on his bushy head to show what it means to be in top condition.

Soldier Saves Men

LONDON, Aug. 17 (CP) — Sgt. R. G. Lilley of London, Ont., has been commended by Lt.-Gen. A. G. L. McNaughton for gallantry in the field. Sgt. Lilley, in charge of a Bren gun squad firing from the hip, seized a gun when a soldier, stricken with an epileptic fit, toppled and accidentally pressed the trigger.

Arrives In England

Spr. David Mahood of the R.C.E. has cabled his wife at 83 Western avenue of his safe arrival overseas. He enlisted in January of 1941 and has been stationed in Canada since that time until recently. Before enlisting he was employed by J. A. Wolsenholm. Spr. Mahood is the son of Mr. and Mrs. E. N. Mahood of No. 4, Peterborough.

Gore's Landing News

Capt. Lionel Sorby of Kingston, who recently returned from overseas, with Mrs. Sorby and baby Elizabeth of Peterborough, were guests of Mrs. Greer, Sr., over the week-end. Capt. Sorby was renewing acquaintance with many friends in the village.

Mrs. Lucy Martin who spent the last month with Mrs. Greer returned to Toronto on Thursday.

Mrs. Stewart and children of Smith Falls are occuping the cottage of Mrs. Papineau.

Mr. and Mrs. Victor Harris of Port Hope and Gnr. Kenneth Harris of Petawawa were guests of Mr. and Mrs. Melville Harris.

Miss Joan Halstead was visiting Miss Doris Buttars, Plainville, for several days.

Mrs. Delaney returned Sunday night from a visit to her parents in Toronto.

John Pratt and Mr. and Mrs. Hillis of Toronto are spending their vacation at Cedar Springs.

Mrs. Gibson of Toronto has purchased the Mark's cottage on Rice Lake Blvd. and has as her guests Mr. and Mrs. Drysdale of Toronto.

Quilt Course Planned

BUCKHORN, Aug. 17 (ENS). — The regular meeting of the Buckhorn W. I. was held in the True Blue Hall on August 10 with the president Miss Nicholls presiding. Mrs. A. Smith being convener for the evening took over. Her topic was War Work. Each member answered the roll call with two quilt blocks. A quilt is to be ready for the course in quilts and quilting, to be held in September. A reading by Mrs. R. Montgomery, "Don't Be Like That." Mrs. A. Fulton read a piece "My Task." Mrs. E. Graham "School Picnic."

LINDSAY

Constable Grassick Goes To Kingsville

LINDSAY, Aug. 17—(ENS)—Police Constable Dr. Neil Grasick, Ms.D., D.D., D.M.S. of Lindsay has accepted a position as chief of police of Kingsville, Ontario. Constable Grassick is probably the only police-

DR. NEILL GRASSICK

man in the British Empire to be able to write eight letter after his name. He is Doctor of Divinity, Doctor of Metaphysics, and last February received a degree as Doctor of Mental Science.

Despite these honours he has preferred to follow the occupation as policeman. "The position offers splendid opportunities for the studying of persons with abnormal mental characteristics," Dr. Grassick states. "I am a firm believer in crime prevention rather than punishment."

The new chief of police received his early police training in Scotland and has served with various police departments in this country.

◆ ◆ ◆

Courneya-Hobbins

The wedding took place on Saturday, August 7 at Sacred Heart Church of Ellen Eileen, daughter of Mrs. Mary Hobbins and the late Patrick Hobbins to Clarence Gabriel, son of Mr. and Mrs. Peter C. Courneya of Tweed, with Rev. Fr. J. J. O'Brien officiating. Mrs. J. Armstrong was at the organ and the solist was Mrs. W. J. prindible.

The bride, given away by her brother, Mr. Dennis Hobbins, wore a princess gown of brocaded satin with a shoulder-length tulle veil and a heart-shaped head-dress, and carried a bouquet of red roses. Her cousin, Mrs. Donald Corrin, was matron of honor, in shell pink net over taffeta and a Juliet cap of pink net. She carried Talisman roses. Mr. Raymond Courneya was best man.

Seventy-five guests were entertained at the bride's home, where her mother received in a gown of black printed silk, black accessories and a corsage of red roses. The groom's mother, who also received, wore a gown of navy sheer, matching accessories and a corsage of redroses.

For the wedding trip to Toronto and Niagara Falls the bride wore a two-piece blue silk jersey suit with matching accessories, a champagne flannel coat and a corsage of orchids.

◆ ◆ ◆

Smoothy-Windrim

LINDSAY, Aug. 17 (ENS)—Reaboro Baptist church was the scene of a wedding of interest when Olive Francis, daughter of Mrs. Windrim and the late Mr. W. A. Windrim of Reaboro became the bride of Thomas John Smoothy, son of Mr. and Mrs. T. C. Smoothy of Wauchope, Ask. The ceremony was performed by Rev. C. P. Reed, assisted by Rev. F. C. Stevens. Miss Ruby Windrim, A.T.C.M., was at the organ and the soloist was Mr William Weir.

The bride was given in marriage by her brother, Mr. P. D. Windrim, B.A., wore a gown of white sheer over satin with lace yoke. Her finger tip veil was caught with a halo of orange blossoms and she carried a cascade bouquet of white gladioli. Mrs. G. A. Morden was bridesmaid, wearing pink sheer over satin with matching halo hat and shoulder length veil. She carried a bouquet of Sweetheart roses. Mr. G. A. Morden acted as best man and the ushers were Mr. Grant Patillo and Mr. Gordon Minty.

A reception was held at the home of the bride's mother, where she received wearing a gown of navy sheer with matching accessories and corsage of Talisman roses.

◆ ◆ ◆

Hutchinson-Balfour

LINDSAY, Aug. 17 (ENS)—A very pretty wedding was solemnized at Queen Street United Parsonage when Hazel Florence, eldest daughter of Mr. and Mrs. J. J. Balfour, of Lindsay, was united in marriage to Gnr. W. W. Hutchinson, son of Mr. and Mrs. Norman Hutchinson of Omemee. Rev. H. C. Wolfraim officiated.

The bride, who was given in marriage by her father, wore a two-piece sheer dress of romance blue with matching turban and white accessories. She wore a corsage of sweet peas and maiden hair fern. Miss Ruby Dean as bridesmaid wore navy blue sheer with white accessories and corsage of red roses. The groom was assisted by Robert Hutchinson.

At the reception held at Ye Olde Cottage Tea Room the bride's mother received, wearing navy blue sheer and corsage of red roses. She was assisted by the groom's mother in flowered sheer with corsage of red roses.

DOROTHY DIX

MARRIAGE WITH PLUCKY YOUTH BETTER THAN TO RICH OLD MAN

Mother Wanting Daughter's Life Made Happier With Ample Money a Woman to Be Pitied

DEAR MISS DIX: I have two suitors, one a rich, middle-aged widower, the other a poor young man, but capable and ambitious. My mother urges me to marry the old one, although she knows I don't love him and I do love the poor young man. She says she doesn't want me to have the hard life she has had. I hate to hurt her, but feel I must follow my heart. What do you advise.

JANE.

◆ ◆ ◆

Mother Means Well

ANSWER: Marry your poor young man. Work up with him and be happy. There is something not a little pathetic in a mother's desire to have her daughter make a brilliant match. For, in reality, it isn't as avaricious and grasping as it seems. It is only her yearning to save her little ewe lambs from the hardships that she has known. She wants to protect the soft girl's hands from the hard labor that she has had to do, and to save the tender feet from the thorny path that she has trod.

Mother should reflect that the man who can give his wife a fine establishment when he marries is nintey-nine times out of a hundred either old enough to be her father, or a gilded youth who is selfish and spoiled, and who regards marriage as lightly as he does a flirtation with a chorus girl.

We have all seen many young girls married to rich old men, but we have never seen such a marriage a happy one. It takes more than a limousine and point lace and diamons to satisfy a woman's soul, and the most miserable women in the world are those who have sold their youth for money.

Futhermore, we have all seen many girls make so-called fine matches when they married young fellows who had inherited fortunes. We have also seen these same fortunes take wings and fly away and the brilliant marriage end in poverty. Every day we read of some such match finishing in divorce because a youth which has been passed in self-indulgence doesn't fit a man to stand the disillusions and trials of matrimony.

The mothers who are disappointed that their daughters are marrying poor young lawyers and clerks instead of rich men will do well to consider this fact — that these poor young fellows are likely to be the big men of the future while the brilliant catch of today is almost certain to be the nobody of tomorrow.

It is hardly too much to say that in marrying in America, a girl has to decide whether she would rather be poor and struggle along with a man when she is young and be prosperous when she is middleaged, or be rich and splurge when she is young and be poverty-stricken in old age.

To my mind it is a good match when a girl marries a man who has ability and industry and pluck and whom she loves well enough to be willing and glad to work with and help push on, and who makes every day a romance for her more thrilling than a novel.

◆ ◆ ◆

DEAR MISS DIX: I have taught school for eight years. Now I feel that I should like to marry and have a home of my own, but men are not attracted to me.This is incomprehensible to me, as I am very good-looking. Perhaps I am too intelligent. Isn't it true that men prefer to tower mentally over the girls on whom they lavish their affection? Or perhaps I am too reserved. Petting parties make me shudder.

H.T.V.

◆ ◆ ◆

Young Man Expects Some Petting

ANSWER: I get thousands of such letters from girls, and the consensus among them seems to be: no petting parties, no beaux. They are a unit in declaring that the average young man expects to be paid for whatever courtesies he shows a girl by being permitted to maul her.

So, perhaps, you are right in attributing your unpopularity to reserve, but if such is the case, you should be glad of being lonesome instead of repining. For, believe me, dear girl, there are a lot of things for which you can pay too high a price, and the girl who sacrifices her modesty for the sake of being taken to a movie makes a sorry bargain.

As for your suggestion that the reason you are not popular is because you are too intelligent, that depends on how highbrowed you are. If you begin a conservation with every young man you meet by asking him his opinion of the Einstein theory of relativity, or if you try to discuss the modern realists with your jazz partners, I don't wonder that they flee you.

The fear of a bluestocking is as much a hereditary fear with men as the fear of snakes is with women. Why this is so, nobody knows, but even intellectual men seldom care for learned ladies. Futhermore, it is a curious fact in natural history that highly cultivated men very often pick out as wives hen-brained women who never have an idea above the baby's bottle.

Not all knowledge comes put up in books, however, and many men who have little schooling have graduated from the University of Hard Knocks and have more real wisdom than a dozen colleges could teach them.

Many men like intelligent women, but they don't want a woman to thrust her education upon them, and a really clever woman is one who is smart enough never to let a man find out how much she knows.

◆ ◆ ◆

DEAR MISS DIX: I am a widow and have been keeping company for more than a year with an eligible bachelor who is very devoted and speaks of love, but never of marriage. How can I find out his intentions?

WIDOW.

◆ ◆ ◆

ANSWER: Use your common sense and you have the answer to your question. You will know that he has no intentions beyond amusing himself.

The man who is a glib lovemaker but who stops short of popping the question is only a philanderer, and any woman is foolish to let him waste her time and keep marrying men away.

Price Control Ration News

The Women's Regional Advisory Committee, Consumer Branch, Central Ontario, Wartime Prices and Trade Board, answers questions put to this paper regarding price control and ration regulations.

◆ ◆ ◆

Q.—Last week my sister-in-law bought honey for 16c lb. I have just bought one pound from the same party and had to pay 29c for it. Is this in order?

A.—Definitely not. Thank you for giving us the name and address of the retailer. It so happens that several other complaints have just come in about the same person. The Enforcement Branch of the Prices Board is investigating pronto. Thank you again for letting us know.

◆ ◆ ◆

Q.—Please let me know how we can obtain our new ration books, as we expect to be out of town from August 15 to August 29.

A.—All you have to do to obtain your new ration book is to present your old book (with the application card completed in the back of it) at any ration book distribution centre August 25, 26 or 27 ..Make sure you get your old book back from the distribution officer, though, because some coupons in it will still be good.

◆ ◆ ◆

Q.—Does each application card in the back of the old ration books have to be signed by the particular person who owns the book?

A.—Yes, it is absolutely necessary for the holder of each book to sign his own application card, unless the person is under 14 years of age when a parent or sponsor may sign for him.

◆ ◆ ◆

Q.—Will it be all right for my young son to pick up our new ration books if the application cards in the back are filled in and signed?

A.—No. Children under 16 years will not be allowed to apply for new ration books either for themselves or other members of the family, but another adult may get them for you. If you are a working mother, arrangements to distribute the new raiton books to employees will very likely be made by your firm.

Powell-Farrow Nuptials Pontypool Ceremony

MILLBROOK, Aug 17—(ENS)—A wedding of local interest took place last week at the home of the bride's parents, Mr. and Mrs. Lorne Farrow, Pontypool, when their daughter, Eileen Thelma, became the bride of Raymond Keith Powell, younger son of Mr. and Mrs. J. J. Powell, Millbroko, the Rev. Mr. Jamieson of Janetville Presbyterian Church, performing the ceremony. The wedding took place out of doors, the bridal couple standing under an arch of evergreen with summer blossoms intertwined, and centred with a large white wedding bell, arranged on the wide verandah.

Given in marriage by her father, the bride looked lovely in a street-length dress of white triple sheer, with matching hat and veil, and a cluster bouquet of roses, sweet peas and snapdragon; she wore the groom's gift, a necklet of filagree gold. Miss Dorothy Farrow, sister of the bride, wore pink triple sheer with matching halo and flowers, and sterling silver bracelet, the gift of the groom. Mr. Clifford Farrow was groomsman.

Following the ceremony, a reception was held, the bride's mother wearing a dress of floral-patterned crepe, with suitable corsage, and the groom's mother navy sheer, with corsage of pink roses. For the wedding supper, the bride's table was centred with the handsome three-storey wedding cake, with tall pink candles burning in silver holders on either side, pink and white fluted streamers being drawn from the white wedding bell overhead to the four corners of the lace-covered table. Mrs. Laura Webb and Mrs. Hector Beggs of Pontypool assisted with the service, and the toast to the bride was proposed by Rev. Mr. Jamieson, the groom making suitable response on behalf of his wife and himself.

Later the young couple left by motor for their wedding trip to Niagara Falls and other points, Mrs. Powell travelling in a brown ensemble with tweed top coat and matching hat and accessories. Upon their return they will live in Peterborough.

Marmora News

At a picnic held at Hanlan's Point on Saturday afternoon, eight-year-old Barbara Matthews, daughter of Mr. and Mrs. Fred Matthews of Deloro took first prize in a girls' race in which there were 12 contestants.

Miss G. Gunter was the winner of the luncheon set in the drawing held by Group 5 of the Catholic Women's League.

this big jar contains 21 more applications for 39¢ than other leading deodorants

NEW ODORONO CREAM CONTAINS AN EFFECTIVE ASTRINGENT NOT FOUND IN ANY OTHER DEODORANT

DO YOU HATE TO GET UP in the MORNING?

Doesn't it feel swell to wake up in the morning clear-eyed, refreshed, full of pep? Yet so many, especially over 40, get up tired all over, with aching joints, never really feel their best.

The reason is usually a common complaint—a system clogged with poisonous food waste. Like most people, you need help to clean out a sluggish system, get back pep and sparkle rightfully yours. The natural action of BILE BEANS is a mild yet effective aid thousands rely on.

Made from 10 pure vegetable extracts, Bile Beans are so gentle they are called "The Medicine That Copies Nature". These small laxative liver pills tone up entire system by stimulating flow of liver bile, so essential to good digestion and daily regularity.

You, too, can enjoy that "glad-to-be-alive" feeling every day. Try Bile Beans tonight—they work while you sleep. Over 7 million boxes used last year, convincing evidence of how greatly they are helping others. 26

CANNED FOODS ARE AS IMPORTANT AS AMMUNITION

WOMEN OF ONTARIO Your Help is URGENTLY NEEDED

WITH more and more Canadian Troops going into active service as the Allied Forces press the attack, Canned Foods become as vitally essential as bullets.

5,000 Ontario Women and Girls will have to replace the workers who usually man the Canning Factories each season. These workers are now almost entirely employed on year-round war jobs, but the canning crops of Ontario still must be saved for Victory.

Ontario's youth has volunteered and has been organized to harvest the abundant crops of tomatoes, corn, peaches and grapes from fields and orchards of Ontario. Ontario's Mothers and Sisters—housewives and unemployed girls, from 16 to 60—most of whom have never seen the inside of a canning factory before, are URGENTLY NEEDED in the canning factories of this province to save every ounce of precious food in the next 12 weeks.

NO WORKING PERMIT IS REQUIRED FROM EMPLOYMENT AND SELECTIVE SERVICE FOR THIS WORK. Current wages will be paid. The work is not hard and good living quarters will be arranged for if you are employed away from home.

Do YOUR Part: Act NOW! Today, before you forget. Apply at once to the superintendent of the nearest canning factory, if you live near one, or see the Agricultural Advisor at your nearest Employment and Selective Service Office, for full information. If neither is convenient to you, write direct to Farm Service Force, Parliament Buildings, Toronto.

IF

Canadian Armed Forces are to be properly fed on the battle line.

●

Canadian Homes are to have sufficient Canned Fruits and Vegetables this Winter.

●

YOU will have to "Lend a Hand" in Canadian Canning Factories within the next 10 weeks.

HERE AND THERE IN SPORTS

(By The Canadian Press)

Uncertain about prospects for the coming hockey season because of manpower requirements, six officials of the N.H.L., the American Hockey League and the Montreal Forum, yesterday waited upon Arthur MacNamara, Director of National Selective Service, in Ottawa, for a discussion of the situation.

Lester Patrick, spokesman, declared the deputation sought no concessions but wanted to know how hockey fitted into the manpower picture. The head of the New York Rangers admitted they were told "politely and firmly" hockey could not have men who were subject to call for military training but the government realized hockey is a great morale-builder. Available players would include those rejected by the armed services and unskilled workers in essential industries who could secure permission from employers, Patrick said it had been suggested at the meeting the Canadian government would consult with Washington on an agreement to permit such players to enter the United States. This would be done to avoid any embarrassment for the U.S. government.

Boil Trouble

Because of boils, Sal Bartolo of Boston withdrew from his 10-round engagement with Bobby Ruffin, New York lightweight, in Madison Square Garden, New York, Friday night. Promoter Mike Jacobs, announced last night he had signed Cleo Shans, Los Angeles Negro featherweight, to replace Bartolo.

The New Jersey Racing Commission yesterday announced it had received an application from the Monmouth Park Jockey Club to revive horse racing at the former Elkwood Park next year with a 50-day meeting accompanied by pari-mutuel betting. The Trenton Jockey Club also plans a fall meet.

Hamilton, Ont., Wildcats have found they have plenty of team candidates for the Senior O.R.F.U. campaign but face a definite shortage of equipment and the city is being scoured for gridiron paraphernalia. Practices are being held every night in preparation for the opening Sept. 18.

Welfare Officer Ken McAdam of the Canadian bomber force in North Africa has solved the recreation problem for the desert camp by organizing a softball league, lacrosse and volleyball schedules and horseshoe pitching tournaments. Before the war McAdam was a well-known athlete of Ottawa Glebe and McMaster University.

Horse Is Killed

In the third event of Grand Circuit racing yesterday at New York's Empire City track, Henry C., eight-year-old gelding tripped himself and broke his back, Owner-driver Frank Church of Cambridge, N.Y., being thrown from his seat but not injured. The featured Sizzler Stake, five furlongs for pacers, was won by the favorite Wolf Tone.

Four tracks in Maryland have drawn up a list of 29 stake races for their combined meeting at Pimlico Oct. 9 to Nov. 13 with an aggregate purse value of $272,500. Total prize money for the 230 events is $599,975 or almost $20,000 a day. The tracks are Pimlico, Laurel Park, Havre de Grace and Bowie.

The slab work of Doris Barr of Regina has had much to do with keeping South Bend, Ind., on top in the All American Girls Softball League with 18 wins and 10 losses. Shortstop Gladys Davis of Toronto continues to be the queen of swat. In 98 times at bat, she has secured 27 safeties for an average of .372.

Galt Terriers and Stratford Nations meet in the three-game semifinals of the Inter County Senior Baseball playoffs starting Aug. 18 at Stratford and the winner will clash with London Army for the title. The first of the intermediate "A" games will be played Aug. 21 with Ingersoll at Waterloo.

LAWN BOWLING

The race in Group No. 1 has narrowed down to two rinks. Who will win? Wait till early next week and then the mystery will be solved.

Just now B. Chesler and George Coleman are tied for first place, with R. Payne, E. Wall and T. McMillan tied for second place, and as each have one more game to play there is no telling how the thing will go. Just off-hand we would say that the race for group honors this year has been the best in years.

No. 2 Group plays this evening.

How about your entry for the mixed tournament to-morrow at 1:30?

To-night is the last date for receiving entries for the ladies' Globe Doubles playoffs.

We said the other day that our bowling days are getting shorter and shorter, and just to prove it, read this:

We had a letter yesterday from our good friend Jim Harkness, up in Porquis Junction. He tells us that he has entered a rink in the curling bonspiel to be held on Monday, August 23, at the McIntyre Gold Mines Curling Club. The fee is $8.00 per rink and already 60 rinks are entered.

So, my friends, take a tip from us and bowl every night you can. It won't long now.

Men's Scores.

Knights, Cubs Play Tie Game

Last night at Memorial Park the Cubs and K. of C. hooked up in the first game of the semi-final series in the C.S.L. playoffs and it ended in an 11-11 tie when darkness halted the game after 9 innings of play. It was a hard-fought struggle with the Cubs tieing it up in the last of the ninth.

Heffernan pitched good ball for the Cubs, striking out nine, but his support was wobbly at times. Collins pitched smart ball for the K. of C. till the seventh when he weakened.

Garvey and McCormick led the Cubs at the plate, the former with a triple, double and a single, and the latter with a triple and single.

Herrick led the Knights with two doubles and a single, followed by Cosgrove with a double and two singles.

Feature play of the game was a nice catch of a low liner by C. O'Donoghue doubling Anthony off second. Tracy at third for the Knights played nice ball.

The next game of this series will be played on Wednesday at 6:30 sharp.

The teams:

Knights of Columbus — W. Cosgrove c, E. Johnston cf, B. Herrick rf, E. J. Wolffe 1b, Rev. Dr. Masterson lf, J. Tracy 3b, G. Maloney ss, L. Anthony 2b, J. Collins p.

Cubs — F. O'Toole c, J. Caravaggio 3b, R. Garvey ss, F. McCormick lf, H. Kennedy rf, C. O'Donoghue cf, G. Heffernan p, J. Driscoll 1b, J. Cacavella 2b.

Umpires, H. Legrow and Sullivan.

Fights Last Night

By The Associated Press

New Orleans — Phil Terranova, 124, New York, knocked ouut Jackie Callura, 124¼, Hamilton, Ont., (8) (title).

Newark—Buster Tyler, 141, West Palm Beach, Fla., outpointed Pete Galiano, 140, Baltimore (8).

Baltimore — George Kochan, 164, U.S. Coast Guard and Akron, Ohio, outpointed Howard Bennett, 164, Baltimore (13).

Washington — Al Hart-al (Big Boy) Brown, card postponed, weather.

Yesterday's Stars

By The Associated Press

Whitlow Wyatt, Dodgers—Held Cardinals to eight hits and made three himself to gain decision over Cardinals.

Steve Mesner and John Vander Meer, Reds—Mesner doubled with bases loaded in first inning for three runs and Vander Meer pitched eight-hit ball to whip Giants.

Johnny Sullivan, Senators—Batted in three runs in triumph over Indians.

Schoolboy Rowe, Phillies—Pitched five-hit ball to beat Cubs.

Hank Borowy, Yankees—Shut out White Sox on four hits.

Mike Ryba, Red Sox—Pitched four-hit shutout against Browns.

Lose Stallion

BALTIMORE— (AP).— The 21-year old Bud Lerner, sire of the winners of 557 races, was put to death yesterday at Danny Shea's farm on advice of a veterinarian. The stallion's best-known son was Thanksgiving which won $35,924 in 1938.

Unit Visits Bier Of W. L. Jordan

The 4th (R) Battery paid respectful tribute last evening to the memory of Sergeant Major William Lloyd Jordan, who met death in a drowning accident at Stoney Lake on Sunday. The Battery broke off training at the Armouries at 10 o'clock in the evening and paraded to the funeral home where Sergeant Major Jordan's body lay. Each member of the unit passed silently before his bier and gave him a final salute.

The parade was led by Lieut.-Colonel D. J. Lawrie, O.C. of the 43rd Field Regiment, and Captain Roy A. Phillips, O.C. of the Battery.

Sergeant Major Jordan was a popular and prized member of the Battery personnel. A veteran of the last war, he offered his services to the Battery in 1940, and his attributes of quiet dependability and pleasant efficiency soon gained him promotion.

South Half of Lot 23, Concession 6, Township of Emily, 100 Acres, House and Barn—two miles north of Fowler's Corners—suitable for a Ranch, some good Farm Land, all clear; creek thereon.

All Tenders to be in by the 28th of August. The highest or any Tender not necessarily accepted.

Must be Sold to wind up the Estate of the late Amelia Quinn.

Tenders to be sent to MOORE AND JORDAN, 6 William Street South, Lindsay, Ontario.

AUCTION SALES

AUCTION SALE FOR MR. WALLACE Houle, 2 miles South of Keene, Tuesday, August 24: Good Horses, Young Cattle, Cows one fresh, Implements, etc See posters.—Gordon Hancock, Auctioneer. Telephone 5021.

HOUSE FURNITURE OF R. H. BROWN Concession 5, Alnwick Township, Saturday, August 21 1 o'clock. — Golden Andrews, Auctioneer

MILES' AUCTION ROOM, 211 HUNTER Wednesday, August 18: Chesterfield Suite, 2 Good Pianos, 2 Flat-top Writing Desks, Office Chair, Kitchen Cabinet, Floor Covering, Beds, Mattress, Springs, Dishes.

Ross Trimble To Coach RCAF

TORONTO, Aug. 17. — (CP).— Ross Trimble, who coached Ottawa Rough Riders to several championship teams, had been appointed coach of Toronto Royal Canadian Air Force Hurricanes in the Ontario Rugby Football Union, it was announced to-day.

Trimble has called his first practice for Thursday night and expects 100 players to try for the team.

The former Rough Rider succeeds FO. Lew Hayman, who piloted Hurricanes to a Canadian title last season, but recently announced his retirement from coaching to give all his time to his R.C.A.F.

Peterboro Club Draw To Be Finished Aug. 23

The Match and Handicap committee of the Peterborough Golf and Country Club wish to announce the 1st round draw of the Club Championship, a match play tournament wherein stymies must be played, the first round of which must be completed by August the 23rd.

Gay and Romantic Party Games for All

Party a Hit With "Heart-Toss"

Tossing hearts around! At your party it's fun! For the hearts are cardboard hearts, each bearing a romantic fortune like "Soon Wed," "Rival," "Love."

It's easy to prepare this version of Card-Toss Fortunes. Have ready an ordinary hat—or you may make one of cardboard.

Rules are for each guest to stand on a certain spot and try to see how many of 10 heart-fortunes he can toss into the hat. The hearts that land reveal his fate for the next 12 months!

Now, for a real blush-and-giggle game, play "Barney." Each person writes and signs a compliment for "It," who sits in the centre. Then "It" must read the compliments aloud and guess who wrote them.

Many other hilarious games, for all kinds of parties, are in our 32-page booklet. Has ice-breakers, fortune-telling stunts, brain teasers to make your parties the talk of the town.

For your copy of PARTY GAMES FOR ALL OCCASIONS send 15 cents in coins or stamps to the Peterborough Examiner Home Service. Be sure to write plainly your name, address, and the name of booklet.

Roseneath News

Mr. and Mrs. N. W. Sherwin and Mrs. E. J. Milne attended the Sherwin-Black reunion held at Victoria Park, Cobourg, on Saturday.

Week-end guests and those on holiday in the community include: Mrs. Walter Sherwin of Orono with Miss Olive Sherwin and other relatives; Miss Sheila Burrison of Gore's Landing with her cousins, Barbara and Mary Skuce; Mrs. Ednel Blodgett and son Douglas of Norwood with Mrs. Fanny Blodgett and Miss Ruby Blodgett; Stella McKay of Toronto with Mr. and Mrs. George Mouncey; Miss Helen Redshaw of Oakville with her aunt, Mrs. Ella Brown; Mr. and Mrs. H. H. Lapp of Toronto with his mother, Mrs. Annie Lapp; and Mrs. J. C. Arber, C.W.A.C., of Kitchener with her grandparents, Mr. and Mrs. E. T. Brisbin.

Mrs. Ella Brown visited her sister, Mrs. Storey Redshaw, Oakville, during the week.

Miss Shirley Brisbin has arrived home from a visit with relatives in Montreal.

Mrs. M. Sibbald of Toronto is guest of her sister, Mrs. E. H. Unstead, at the parsonage.

Mr. and Mrs. T. A. Tucker of Belleville visited his mother, Mrs. S. A. Tucker, on Sunday.

Execute Norwegian

STOCKHOLM, Aug. 16 — (AP). —A German announcement from Oslo declared to-day that Gunnar Elifsen, Chief of Norway's Civil Police, had been executed, and had threatened the execution of other Norwegian officers in a purge to compel the police to enforce Nazi occupation orders.

Trade in Greenland has been a state monopoly of Denmark since 1776.

BARCLAY ON BRIDGE

CAN STAND REPETITION

THERE IS one admonition for average players which can stand any amount of repetition. It is that usually a trump suit is dangerous if the opponents hold as many as six cards in it. Less than half of the time these will be divided evenly, with three held by each defender. More often, some one of them will have four and the other two. This means that the declarer must be prepared to compete most of the time against a four-card trump holding by one defender. Such being the case, it is frequently better to try for a fit in some other suit, or for No Trumps in preference to a suit in which your side holds only seven cards.

	♠ A Q 10 4 2 ♥ A 6 4 ♦ 5 2 ♣ Q 10 6	
♠ 6 5 ♥ Q 9 8 7 ♦ 6 4 3 ♣ A J 8 7	N W E S	♠ J 9 8 3 ♥ 5 3 2 ♦ Q 9 8 ♣ 9 5 2
	♠ K 7 ♥ K J 10 ♦ A K J 10 7 ♣ K 4 3	

(Dealer: North. North-South vulnerable.)

North	East	South	West
1 ♠	Pass	3 ♦	Pass
3 ♠	Pass	4 NT	Pass
5 ♥	Pass	6 ♠	

No matter how this hand gets played, North hasn't a chance in the world to make his contract. The club A is a sure winner, and so is the spade J, if the hand is played in spades. That contract was reached by a fair number of the pairs in a social duplicate, and all of these were, of course, set.

At some of the tables, South, instead of using a conventional slam call of 4-No Trumps, after hearing North's spade rebid, 3-Spades, called 4-Diamonds. The main purpose of this was to see if North would bid spades a third time. If so, he would be proclaiming possession of a six-card suit, in which event South's doubleton would have been adequate support.

But North in those cases bid 4-No Trumps, whereupon South immediately slammed the hand at 6-No Trumps. After East led a heart or club, this contract had a good chance to make as, after three rounds of spades got tried and the suit failed to break, the diamond finesse still remained as a chance for the contract, and of course it worked.

The real point of this, however, is that in No Trumps the declarer had two tries for his contract, whereas in spades he had only one, with the odds against that one chance.

• • •

Tomorrow's Problem

	♠ 7 5 3 2 ♥ 6 4 3 ♦ A K Q ♣ 10 9 7	
♠ A K Q J 9 ♥ 9 8 7 5 ♦ 6 4 ♣ A Q	N W E S	♠ 10 8 6 ♥ 2 ♦ 8 7 2 ♣ 8 6 5 4 3 2
	♠ 4 ♥ A K Q J 10 ♦ J 10 9 5 3 ♣ K J	

(Dealer: South. East-West vulnerable.)

What is the soundest way for South to play this hand at 4-Hearts, after ruffing the second spade lead?

HASTINGS

Pioneer Family Holds Reunion

HASTINGS, Aug. 16—(ENS). — The McConnell Clan met at Cobourg recently for their annual picnic. They are descendants of the late Mr. and rMs. James McConnell, early settlers in Belmont, who sailed from Ireland over 100 years ago, taking them nine weeks to cross the ocean.

There were 76 in attendance. Prizes were given for the oldest member present, being won by Mrs. D. Stillman; for the youngest member present won by Bobbie Vansickle; for the tallest members present, being won by Herbert Stillman, and Mrs. S. Buck won the prize for the shortest member.

Special mention was made of eleven of the boys now in the armed forces, namely, Kenneth Thompson, Norwood, Elton Buchanan, Peterborough, Edward Windsor, Toronto, H. Hawman, Woodbridge, Earnest Thompson, Lang, E. Rylott, Peterborough, Carman and Gerald Metcalfe, Norwood, Chester McConnell, Detroit, Aylmer Milligan, Florida, and Milton McConnell, Hastings. It was decided to send a gift to each of the above named.

Those present were: Mr. and Mrs. H. Milligan, St. Petersburg, Florida; Mrs. A. Milligan, R.C.A.F., Walla, Washington, U.S.A.; Mr. and Mrs. R. Vanderburg, Mrs. E. Windsor, and G. A. Metcalfe, R.C.A.F., Toronto; Mr. and Mrs. G. Vanderburg and son, Mrs. McDonald, Mr. and Mrs. H. Hawman, R.C.A.F., and Mary Gale, Woodbridge, Miss Bertha McConnell, Oshawa; Mrs. D. Stillman and Herbert, Mr. and Mrs. J. Scott, Billy and Bobbie of Campbellford; Mr. and Mrs. Ed. McConnell and Lawrence, Mr. and Mrs. Harold McConnell and family of Percy; Mr. and Mrs. Percy Vansickle and family of Brighton; Mr. and Mrs. W. Thompson and family of Lang; Mr. and Mrs. Charlie McConnell, Miss Ina McConnell, Mr. and Mrs. J. McConnell, Mr. and Mrs. Gordon McConnell, Alvin and Joan, Mr. and Mrs. Sam Buck and Rita of Norwood; Mr. H. McConnell, Port Hope; Mr. and Mrs. Nelson Davis, Omemee; Mr. and Mrs. Ferguson and son, Misses Flora and Winnifred Metcalfe, Miss Barbara Reid, Mr. E. Warner, Peterborough; Mr. and Mrs. A. Beamish and Kenneth, Mr. and Mrs. E. Warner, Jack, Rena and Muriel, Mr. and Mrs. A. E. Metcalfe and Leonard of Hastings; Mr. Ken Parks, Belleville.

Committee in charge for 1944, namely, Edith Metcalfe, secretary, Ina McConnell, Ray Vanderburg, John McConnell and Cecil McConnell.

WARSAW

Agriculture Branch Has October Meeting

WARSAW, Aug. 17. —(ENS). — The meeting of the Women's Institute was held in the Institute rooms on Thursday afternoon, the president, Mrs. Stuart Clysdale, presiding.

After the opening exercises the treasurer's report was given and showed a balance to date of $29.01 and some new equipment ordered for the rooms. The committee reported that the cenotaph plot was left in the hands of the Council until after the next meeting.

An invitation will be extended to Hall's Glen Institute to attend the lecture demonstration meeting in the hall during the month of October. This meeting is arranged by the Institute branch, Department of Agriculture, and is open to the public.

Mrs. George Weller gave an interesting paper on Citizenship and what to expect after the war, also a "T" contest with first prize going to Mrs. David Miller and Mrs. John Morgan and Mr. H. G. Digweed tying for second honours.

Clergymen Appointed At Church Conference

LONDON, Ont., Aug. 17—(CP)—Following appointments of clergy to churches was made at a western Ontario conference of the Free Methodist Church, which concluded at Tillsonburg yesterday.

Hamilton and Parkdale, Rev. G. W. Stevens, Rev. Ernest Cooper, assistant; Hannon, Rev. J. R. Lambert; Welland, Rev. E. G. Myatt; Niagara Falls, Rev. P. K. Smith; Galt, Miss Ella Lishman; Brantford, Rev. W. E. McQuiggan.

Tillsonburg, Rev. J. A. Robb; Port Rowan, Rev. D. McGugan; Port Burwell, Rev. N. McQuarrie; Norwich, Rev. W. A. Smith.

Sarnia, Rev. R. H. Hamilton; Zion, Rev. F. J. Armitage; Charlemont, Rev. J. W. Peach; Wabash and Dresden, Rev. Peter Bodnar; Thedford and Sharon, Rev. J. Marlatt; Terminus and Thorneyhurst, Rev. J. Withinshaw; London, Miss E. Allan.

Lake Superior district: Sault Ste. Marie, Rev. Ronald McCallum; St. Joseph's Island, H. H. Hyndman; Hymers, Fort William and Port Arthur, Rev. L. Mino.

Escape Painful Sunburned Lips

Relieve Soreness Instantly

Sore, cracked, sunburned lips make life miserable in Summer. Painful and unsightly, their cracked, rough surfaces are easily infected. Don't run this risk! Prevent sunburned lips with Lypsyl. It acts as a protective film between the delicate lip-skin and the burning rays of the sun. Its wonderful emollient action protects the delicate membranes from chapping caused by wind and water, so lips stay smooth and soft. When lips are already cracked, Lypsyl gives quick relief, seals the wounded membranes against dangerous germs, hastens natural healing. Get Lypsyl at your store today and use it regularly. Sold everywhere in handy stick form.

LYPSYL Natural Red or Invisible White for Men and Women

Soldiers Rest After Capturing Sicilian Town

Two American soldiers who helped capture the town of Nicosia, Sicily, from the Axis, join natives in a peaceful siesta-time sit on the steps of a church in the town.

Canadian Tanks Helped Shorten Sicily Campaign

By ROSS MUNRO
Canadian Press War Correspondent

WITH CANADIAN TANK UNITS IN SICLY, Aug. 15 (Delayed)—(CP Cable—A Canadian tank unit shared in the British advance on the Catania front which pressed the Germans back up the coastal corridor east of Mount Etna onto the last roads to Messina, up which the enemy is withdrawing.

The Canadian tank operation was in addition to the work done by a unit with the Canadian 1st Division in its advance from the Pachino Peninsula in Southwest Sicily to Mount Etna from the west.

The tanks attached to the Canadian division landed shortly after the original assault by infantry. They fought at Grammichele, Leonforte and Nissoria, and teamed up with the Seaforth Highlanders in the successful Canadian thrust to th Simeto Valley which contributed to the fall of Aderno and the break-up of the Etna line.

Support Infantry

While these actions were taking place, others made a twelve-day, 30-mile sweep in support of British infantry formations from south of Catania around to Paterno and northeast to the Lava slopes on the east side of Mount Etna, pressing the German forces withdrawing from the Catania line.

The commanding officer was from Oshawa, Ont., as well as the second-in-command, Maj. H. R. Schell. Other officers included Majors R. B. Kerr, Brantford, D. H. Lander, Oshawa, H. E. Irwin of Whitby, Ont., and Capt. H. F. F. Millen, Oshawa.

The unit swun[illegible]thwest in a night move and [illegible]d with British infantry, fo[illegible]ing an armored pivot between the 5th and 50th Divisions on the right and the 51st Highland Division on the left with the 78th Division and the Canadian 1st Division on the extreme left flank. The 51st Division attacked in the direction of Paterno, July 31, gaining valuable high ground, and then the British and Canadian infantry and tank formation began to advance towards Paterno.

Good Shooting

A troop commanded by Lieut. H S. W. Alexander of Windsor, Ont., was leading the lander squadron which was forward and first in action. One tank in the troops took on a German strong point in a house at a range of 2,500 yards, blowing it to pieces with six high - explosive shells. Then it knocked out a nearby German mortar position in a haystack.

Honors for this first shoot in the regiment went to L/Cpl. Mike Corrigan of Uxbridge, Ont., tank gunner. Others in the crew were Tprs. Harold Bartholomew, Windsor, and Bill Gillies, Niagara Falls.

Next day Lieut. D. S. Barlow of Chatham, Ont., led his troop forward with infantry and Bren carrier patrols advancing across some of the Gerbini group of air fields to within two miles of Paterno where the tanks shelled German guns. Meanwhile British infantry, supported mainly by the Irwin squadron, pushed northward towards Paterno.

On August 4 the Kerr squadron effected a rendezvous with the infantry south east of Paterno. Next day a troop commanded by Lieut. J. E. Slinger of Toronto knocked out some German pillboxes which were proving troublesome in that area.

It was evident the Germans were withdrawing from the Catania-Paterno line at this stage, partly due to the British and Canadian pressure on Aderno to the north, and the infantry went into Paterno on August 6 after tanks had shelled the town.

Lost No Time

Catania and Misterbianco both fell and the pursuit north in to the coastal corridor alongside Mt. Etna followed, with the Ontarios to the fore, acting as mobile artillery for the British infantry.

Swinging northeast from Paterno, a column reached Belpasso. North of here the Germans stood on the hills but about three divisions were concentrated against them and they had to fall back hourly. All the squadrons were in action as the advance went on until August 10 to Safferana, 12 miles north of Catania, and near the Riposta - Giarra line from which British divisions had been pushing forward for the past three days up the coast road to Messina.

Several times the tanks aided the infantry with direct shell fire during German counterblows tried to delay the advance.

On the headquarters staff there are Capt. L. E. Astrop of Whitby, Ont.; Lieut. J. Gormley, and Capts. H. L. Higginbottom and A. B. Harrison, all of Windsor, Ont.; D.S.M. Kerr, Brantford, J. M. Harold, Paris, Ont.; J. I. Kerr, Kitchener, and A. F. McKay, Oshawa, Capt. W. E. L. Smith, Grafton, Ont., the padre and Lieut. E. F. Moores, Kingston, Ont.

Other officers in the unit include Capt. A. M. Whitelaw, Oshawa; Lieuts. A. W. Hawkins and J. D. Watson, both of Brantford; C. D. B. Jamison, Durham, Ont.; and S. C. Campbell, St. Catharines, Ont.

An R.C.A.S.C. company with the force which kept the advancing tanks supplied with food, water and ammunition during the attack was commanded by Maj. Denny Ross-Smith of Montreal. His officers include Lieuts. I. J. Brown and Bill Berry, both of London, Ont.

R.C.A.F. To Issue Junior Uniforms

OTTAWA, Aug. 17 — Under an amendment to present regulations covering supply of uniforms, Air Cadet League Headquarters, Ottawa, today announce that official approval has been received for issue by the R.C.A.F. of standard air cadet uniforms to junior cadets in school - supported squadrons only on the same basis as now provided to seniors.

Issuance of uniforms will continue to be made through local squadron committees in accordances with established regulations. At the same time approval was also given for issue of R.C.A.F. service boots for both junior and senior air cadets on a most reasonable repayment basis. Boots so issued are not subject to replacement for at least four years.

The present provision for an annual capitation grant of $1.00 for each proficient senior air cadet has been extended to provide for a similar grant in the amount of 50 cents for each junior air cadet who is properly qualified. The annual uniform maintenance grant of $1.25 as now in effect will be made for each standard uniform issued to a junior or senior air cadet.

Instrument Grant

The annual band grant of $2.00 for each instrument has also been renewed. It was emphasized that while these advantages apply to all senior cadets those for juniors are restricted to school supported squadrons, as it is only in such squadrons that enrolment of juniors is officially recognized.

Authorization of boots, as well as uniforms and capitation grants for both junior and senior air cadets will provide a strong incentive for further expansion of present air cadet squadrons, as well as organization of new units, it was stated by Air Cadet League officials. The present objective of 35,000 senior cadets will be more easily attained through this added support from the government. Over 300 air cadet squadrons have now been approved, with further applications under consideration, it was stated.

Huns Attack Convoy

NEW YORK, Aug. 17—(AP). — A special German communique Sunday claimed a group of German torpedo planes attacked a large Allied convoy entering the Mediterranean past Gibraltar Friday evening and sank two destroyers and four loaded merchant ships and damaged 26 other vessels.

GREEK INDEPENDENCE

The independence of Greece dates from March 25, 1821, and was ratified by the Treaty of Adrianpole (Sept. 12, 1829) and the Convention of London (Feb. 3, 1830).

Canadians Bring In The "Supermen"

Two Canadian soldiers, one in front and one bringing up the rear, herd in a file of Germans who were captured on the central (Enna) front in Sicily.

Jap Warehouses Fired By Bombs

NEW DELHI, Aug. 17 — (CP).— Heavy U.S. bombers attacked Japanese installations yesterday on Chatham Island in the Andaman Group in the Bay of Bengal some 250 miles off the Burmese coast, a United States communique announced to-day.

Direct hits were scored on warehouses and other buildings causing large fires, the announcement said. Smoke was visible 50 miles away.

All aircraft reaurned safely, the bulletin added.

Generous Canadians Donate Cash For War

OTTAWA, Aug. 17 (CP)— Canadians may have shown less ingenuity than Americans in their spontaneous gifts to assist the war effort, but the finance department today could report a neat total of $2,237,000 in coin of the realm presented by patriotic people since the war began.

A dispatch from Washington reports gift packages there have included automobiles, ambulances, airplanes, rifles, typewriters, racing pigeons, gold teeth and wedding rings.

Ottawa officials, running through their modest record of unusual contributions, listed a coal scuttle from the Ontario government offices and presented to Prime Minister Mackenzie King by former Premier Gordon Conant, an office safe presented by the Netherlands legation in Ottawa and pigs and wheat and other farm products presented by farmers.

Angel Of Mercy Knows No "Sides"

An Italian Red Cross nurse, Yolanda Girasole, aids two British army surgeons, Major G. A. Fowler and Capt. J. S. Hutchinson, dress the wounds of an English soldier in Rammacca, Sicily. Nurse Girasole's co-workers also aided in tending the wounds of Allied soldiers.

U.S. Consulate To Check Property

TORONTO, Aug. 17 (CP)—A representative of the United States Treasury will be at the office of the U.S. consulate general in Toronto Aug. 17-21 to assist the 20,000 American citizens in this consulate area in making reports on their property and investment holdings in Canada and foreign countries, it was announced today.

The reports are required under an order calling for a census as of last May 31 of such holdings by American citizens living outside the United States. The order excludes persons with holdings of less than $10,000 and members of the U.S. armed forces on active service outside that country.

The Toronto consulate office covers the area between Kingston and Oakville and Northern Ontario West to Sault Ste. Marie.

President Orders Fewer Reporters

NEW YORK, Aug. 16 (CP) — A dispatch to the Daily News from its correspondent en route to Quebec said today Canada was prepared to welcome as many as 150 United States newspapermen to the Churchill-Roosevelt conferences at Quebec but that Washington authorities decided 50 correspondents "would be more appropriate."

The Daily News story said only 299 U.S. correspondents were en route to Quebec last night though a few others had gone on ahead.

The story asserted the restrictions on American newsmen were imposed on instructions of President Roosevelt and delivered to Elmer Davis, head of the U.S. Office of War Information. It said the Canadian government was deeply provoked but that the matter "has been completely shushed."

The story said Davis was instructed by the President to "sift out" the correspondents who should attend the Quebec conferences.

Expects Good News

LIVERPOOL, Aug. 17 —(CP).— Herbert S. Morrison, Home Secretary and Minister of Home Security, assured Britons Sunday in a speech here that there would be "more good news" from Prime Minister Churchill and President Roosevelt.

THEY'RE GETTING TOKYO

LONDON — (CP). — The BBC has started daily broadcasts to Tokyo. The news goes out for 15 minutes on a number of short waves designed to cover not only Japan but the whole of the eastern and southeastern Asia.

HEAVY PLANES HARASS FLEEING NAZIS

Nazis Start Counter In Russia

Powerful Drive Aimed At Kharkov Area

By HENRY C. CASSIDY
Associated Press Staff Writer

MOSCOW, Aug. 18 — (AP). — The German Command has mounted powerful counter-attacks with troops, tanks and planes at two points on the Kharkov front, but Russian lines held firm, battlefront despatches reported today.

Seeking an opening for a counter-offensive, the Germans struck at a settlement west of Kharkov held by the Red Army, and along the water line where the Russians maintained a bridgehead on the west bank, the dispatches said.

The fourth battle for Kharkov —which has been taken once by the Red Army and twice by the Germans — became a tug-of-war for the initiative.

Two other Russian drives in the Byansk and Spas Demensk sectors to the north also met tougher going.

Reds Hang On

(German broadcasts declared the Soviets were attacking all along the winding battlefront, staging new attacks in the Izyum area in the Donets Basin southeast of Kharkov, and local assaults near Staraya Russ and the Neva sector near Leningrad on the northern front. Russian attacks near Izyum were broken after heavy fighting, Berlin claimed).

Battle reports from the Kharkov sector said the Red Army which had forged a ring around the Ukrainian city from three sides — had repulsed the Nazi counter-attacks and improved its own position at some points.

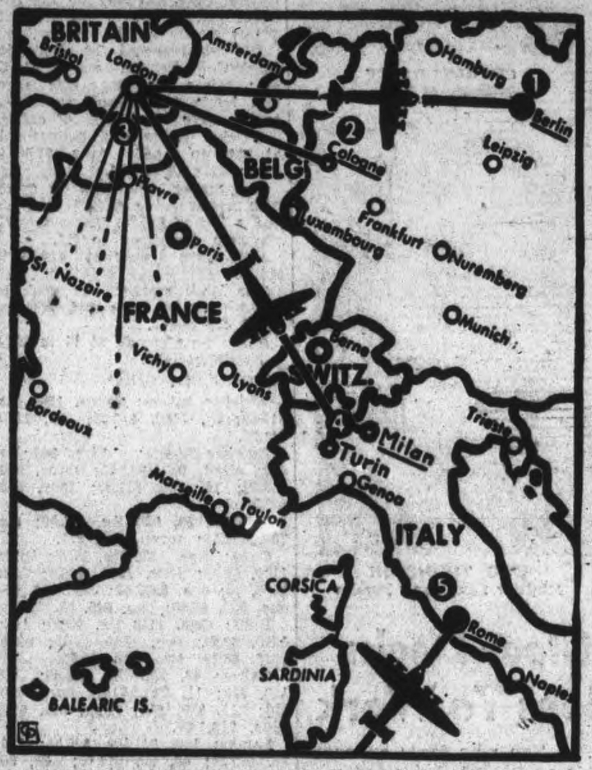
The Germans were reported to have adopted new tactics, shifting the direction of the counterblows frequently, probing for soft spots in the Russian lines. This indicated they were preparing to go over from the defensive to a full-fledged counter-offensive if they could find an opening.

Pushed back within 15 miles of the central front bastion of Bryansk, the Germans likewise were using reserves of tanks and planes in stubborn defence there.

(A BBC broadcast heard by CBS said the Red Army was within 12 miles of Bryansk.)

NAZIS START
(Continued on Page 2, Column 6)

Axis Partners Pounded



Allied planes continue to blast Axis key cities with increasing fury. Berlin (1) was revisited by speedy Mosquito bombers, while Flying Fortresses dropped their block-busters on the industrial area (2) around Cologne. At the same time, fighter craft blasted air fields in France (3). The heaviest blow was against Milan and Turin (4), in Italy, where large formations of R.A.F. and R.C.A.F. planes concentrated on armament-producing cities. Southward (5), warnings to Italy were emphasized by Allied bombers from Africa, who dropped their bombs on railroad freight yards in Rome. Reports from Switzerland and the Italian frontier say Milan is a dead city filled with utter destruction.

Heavy Raid Smashes Peenmuende

13 R.C.A.F. Bombers Fail To Return; R.A.F. Loses 29 Planes

By ALAN RANDAL
Canadian Press Staff Writer

LONDON, Aug. 18 (CP Cable).—R.A.F. and R.C.A.F. heavy bombers made a strong attack on the German research and development establishment of Peenemuende, 60 miles north of Stettin, last night, while Mosquito raiders attacked objectives in Berlin.

Announcements by the Air Ministry and headquarters of the R.C.A.F. said the attack was heavy and well concentrated. The R.C.A.F. statement disclosed for the first time that there is at least one Canadian squadron now using the Lancaster bomber, Britain's slugging heavyweight.

In all, six squadrons of R.C.A.F. planes were in the raid, and 13 Canadian bombers are missing. These were included in the total night's losses of 41 bombers and one fighter.

The attack on the largest and most important establishment of its kind in Germany was carried out in moonlight almost as bright as day.

Attacks Widespread

In addition to the attacks on Peenemuende and Berlin, there were intruder attacks on Northwest Germany, France and the Low Countries by fighter squadrons.

The R.C.A.F. announcement of Lancasters in the Canadian bomber group gave no details, but as more and more of these huge four engined bombers become available they are being turned over to squadrons which are prepared to fly the heaviest bomber in Britain's arsenal. Some squadrons of the Canadian group have been flying Halifaxes for some time, and other have been using Wellingtons.

It was the first attack on Peenemuende, which is on Germany's Baltic coast opposite Ruegen Island about 25 miles northwest of Swinemuende.

The Peenemuende plant is the centre of the highest type work in developing aircraft, radio-location and armament.

Stab At Berlin

The attack was in the closely co-ordinated pattern of the Allied air offensive which took American four-engined bombers to other vital factories at Schweinfurst and Regensburg yesterday.

For almost a week the R. A. F. front line bomber fleet from British bases had been concentrating on Northern Italian cities. The last big attack on Germany was the raid on Nuremberg the night of August 10.

The stab at Berlin by swift Mosquito bombers was the third in four nights. They also struck Berlin Saturday and Sunday nights, keeping the German capital's nerves on edge.

The communique said:

"Last night, the aircraft bomber command made a heavy attack in bright moonlight on the research and development establishment at Peenemuende, 60 miles northwest of Stettin.

"The establishment is the largest and most important of its kind in Germany.

Bombers Lash Italian Roads; Artillery Opens Up Across Straits of Messina

More Prisoners Rounded Up; None Show Fight

By DANIEL DE LUCE
Associated Press War Correspondent

ALLIED HEADQUARTERS, North Africa, Aug. 18.— (AP).— Allied guns bombed in a duel with heavy Axis batteries across the Messina Strait to-day in a warm-up against the European fortress.

The battle for Sicily had been finished "ahead of schedule," Allied Headquarters said, with the occupation of Messina yesterday.

Massed formations of Allied aircraft are carrying the war to the Italian mainland in pursuit of the discomfited foe. stringing a trail of bombs along highways and roads and chewing up troop-carrying trains and trucks with machine-gun and cannon fire.

Hit Highways.

The heaviest of these attacks were speared at Battipaglia freight yards south of Naples, a network of highways at Castrovillare near Salerno south of Naples and a bridge at Angitola.

The Allied command which had counted on a struggle lasting possibly 90 days was confronted yesterday, after 38 days, with the task of rounding up isolated German and Italian soldiers deep in the Sicilian hills and preparing for the next phase.

These stray prisoners were still straggling in without showing any signs of resistance.

Patrol boats off Cape Rascolmo, at the northeastern tip of Sicily, fought a running battle with enemy motor torpedo boats yesterday, hitting the Axis craft repeatedly with cannon shells, and putting them to flight.

Axis coastal artillery has been pounding incessantly at Messina and adjoining areas ever since the Americans completed their occupation yesterday.

The first British troops to force their way through Axis rearguards and demolished roads and enter Mesina were from the 4th Armored Brigade of the 8th Army. They arrived a few hours after Messina had been occupied by the American 3rd Division.

British troops had to fight against stubborn rearguards until 5 a.m. when the enemy suddenly disappeared and German batteries across the water opened up on the British route into Messina.

The Allies are engaged in organizing the latest occupied areas of the island.

The task of reconstruction in nearly 10,000 square miles of conquered European territory is a huge task.

Rough Passage

DRUMBO, Ont., Aug. 18.—(CP). — Wilfred Clark, a farmer, was cutting grain recently when a jack rabbit — evidently frightened by the noise — leaped into the canvas of the binder and was swept into the elevator and kicked out with a sheaf of wheat. Clark stopped his machine, but before he could get to the sheaf, the rabbit had freed itself and bounded away.

Cohen Protests Muzzling War Labor Board

OTTAWA, Aug. 18 — (CP). — J. L. Cohen, K.C., of Toronto, a member of the three-man National War Labor Board, said today he did not propose to take any part in controversial cases before the Board until Government policy has been made clear.

In a letter to Mr. Justice C. P. McTague, Board chairman, Mr. Cohen said that it was not a secret that the Board had been compelled to operate "within severe limitations of unsatisfactory and inadequate legislation and prevailing administrative policy."

This had meant that the Board had to subscribe to conclusions which had not been "in harmony with our own ideas of what is sound or just or in the national interest."

"We have even found ourselves driven by the letter of the law to depart from the principles enunciated in our own public statement which we issued on the day of the announcement of our appointment," he continued.

Mr. Cohen, who frequently represented labor organizations as counsel before his appointment to the Board, said Mr. Justice McTague as well as himself had realized the limitations placed on their work, and had instituted an inquiry for the purpose of obtaining the widest possible consultation before recommending to the Government and the public what they thought was wise as to new legislation or new administrative policy in respect to labor matters.

"It is a matter of extreme regret to me, and I take it to you, that in the course of working out our report we have found that we are unable to agree fully on the program which should be recommended," Mr. Cohen said.

"We have, however, both agreed that Section 25, the pivotal wage section of the wage control order is unsatisfactory in substance and form and should be amended."

In view of this position, Mr. Cohen said it appeared to him to "be quite improper" to continue to sit on cases and decide the rights of people with the possible result of being obliged to render "unjust, and, in the national interest, unwise decisions."

BULLETIN

GENEVA—A newspaper reported a bomber fell in flames on a bakery at Ancey, France and the crew of six, all Canadians, were killed.

QUEBEC—Rt. Hon. Anthony Eden, British foreign secretary, Rt. Hon. Brendan Bracken, minister of information, and Sir Alexander Cadogan, permanent under-secretary for foreign affairs, are expected to arrive in Quebec today.

Allied Casualties Total 25,000 In Sicily Campaign

ALLIED HEADQUARTERS, North Africa, Aug. 18 (CP)—Gen. Dwight D. Eisenhower, Allied commander-in-chief, today estimated Allied casualties for the entire Sicilian campaign at 25,000 men.

At the same time the commander-in-chief announced that Axis losses in the campaign, up to Aug. 10, totalled 167,000 killed, wounded and prisoners.

Gen. Eisenhower did not break down the Allied casualties among the British, Canadian and American forces engaged. At least 10 divisions, four British, one Canadian and five Americans, have been disclosed as fighting in Sicily during the 38-day campaign.

Lose 30,000

The commander-in-chief said German losses while crossing the Strait of Messina would probably never be known.

He estimated that the Nazi commander had between 70,000 and 75,000 troops on the island, of which at least 30,000 were lost, not counting the number drowned in the evacuation.

The enemy's losses in tanks destroyed or captured up to Aug. 10 was given as 260.

The general's report said at least 502 enemy guns were destroyed or captured up to Aug. 10.

Axis plane losses were more than six times the Allied losses, being 1,691 for the Axis to 274 for the Allies from July 1 to August 17.

The general said in a prepared statement marking the end of the battle of Sicily:

"The enemy's proud boast he would drive the Allied forces into the sea wherever he met them in Europe seems to be as empty as the promise to the German people that not one bomb would fall on their cities.

"The Allied armies have twice within the last few months inflicted severe defeats on the so-called 'invincible' German army, in each case at very small cost to themselves.

Laud the Navy

"The Sicilian campaign is standing testimony to the supremacy of the Allied navies in this area of the Mediterranean, to Allied air supremacy and to the determination of Allied land forces to engage and defeat the enemy wherever they may encounter him.

"Our troops have done everything the best troops in the world could have done.

"As an American I take just as much pride in the British 8th Army as any Briton.

"Now we've brought up an American army that is a worthy partner of the 8th Army."

Gen. Sir Harold Alexander, he pointed out, now has a powerful one-two punch—the ability to swing two real armies as he sees fit.

"Both armies are ready to go at any minute," he added. "We can count on them with complete confidence."

Set To Go

He hinted at new blows by stating that the British 8th and American 7th armies are "ready to go at any minute."

The Allied commander-in-chief said that of Axis casualties not less than 32,000 were killed or wounded and the rest made prisoners.

This total does not include the entire final week of the campaign, and German losses in the evacuation across the Strait of Messina probably never will be known, Gen. Eisenhower said. Artillery boomed in duels across that narrow water-

F.D.R. Arrives At Quebec For War Talk

Greatest Assembly Of Experts Since War Started

By C. R. BLACKBURN
Canadian Press Staff Writer

QUEBEC, Aug. 18.—(CP).— The sixth war conference between Prime Minister Churchill and President Roosevelt, was in full swing to-day, but it actually began—the Quebec part of it—late last evening.

A spokesman for the President revealed at this morning's press conference that the two leaders sat up long past midnight in close conversation.

It was not known, the spokesman said, whether or not Prime Minister Mackenzie King, their host in the citadel vice-regal residence, had been with them.

Steve Early, press secretary to the President, said his chief had started conferences at the citadel with some of his advisers about nine a.m., but he would not say which advisers had been called.

Mr. Early said all the President's conferences would take place in the citadel residence.

He was asked if it was to be expected that there would be a joint conference with the President and British Prime Minister.

"I do not know the precedent will be changed," Mr. Early replied. "I have never known the President to meet the Prime Minister and not have a press conference.

"I rather think there will be one."

The President arrived in Quebec late yesterday afternoon by special train from Washington. He was given a warm reception by thousands who witnessed his passage through the city, and a formal salute in the Citadel by a composite guard of honor from the Royal Canadian Navy, British Royal Marines, the Canadian Army and R.C.A.F.

His arrival was all that was needed to make the conference complete and events are expected to follow in swift order, with a possible conclusion of the conference within a week.

F.D.R. ARRIVES
(Continued on Page 8, Column 6)

Massive Attacks Set New Record

LONDON, Aug. 18 (CP)—Between 2,500 and 3,000 sorties were flown by British, Dominion and American aircraft in the 24 hours beginning yesterday morning, and R.A.F. commentator disclosed today in describing this period as typical of how closely co-ordinated are the around-the-clock attacks that now can be thrown into Europe.

He said the attacks fom Africa against the Istres Le Tube and Salon airfields while the Britain-based planes bombed deep in German were a splendid illustration of the "simultaneous attacks which we now are able to deliver from two sides against Europe."

To meet this pattern of attack, he said the German air force is shoving every possible plane into western Europe and relying on less-trained pilots.

In the first 7½ months of 1943, more than 84,000 tons of bombs have been poured into Germany by the R.A.F.—more than double the 1942 total delivered to the Reich by the bomber command—the commentator disclosed.

In addition, he said Allied fighters set a July record with 11,000 sorties, spread across every day and 23 nights of the month.

Two Canadian Divisions Battle-Tested; 3 Untried

By FRANK FLAHERTY, Canadian Press Staff Writer

OTTAWA, Aug. 18.—(CP).—With two of its five divisions battle-tested, the Canadian Army overseas is organized on a flexible basis, for action as an army or in detachments with other national forces.

The battle for Sicily marked the first major departure from what appeared to have been a high command policy to keep the Canadian Army intact for possible large-scale operations against the European continent.

The 1st Division was detached and sent to Sicily to fight as part of the British 8th Army.

For the combined operations raid on Dieppe a year ago, two brigades of the 2nd Division detached to form the land component of a combined British-Canadian air, land and sea force, and returned to its place in the Canadian Army set-up immediately afterwards.

With the Sicilian operations drawing to a close and with the 1st Canadian Division no longer figuring in dispatches from the front, speculation has arisen as to whether that division will return to the Canadian Army, continue with the 8th Army or be assigned to some other United Nations force.

Nucleus in 1939

This 1st Division was the nucleus of the present overseas army. It moved overseas at the end of 1939 under the command of Lt.-Gen. (then major-general) A. G. L. McNaughton.

As additional divisions arrived, the Canadian Army establishment grew first to a corps and then to a two-corps army, with General McNaughton stepping up each time to a higher command.

The army consists of three infantry divisions, two armored divisions and two army tank brigades, with appropriate corps and army troops.

Africa Planes Hit At France

By RELMAN MORIN
Associated Press War Correspondent

ALLIED HEADQUARTERS IN NORTH AFRICA, Aug. 18—(AP)—Heavy bombers strung necklaces of heavy bombs across a park of 150 German warplanes on French airfields near Marseille in their first attack on Southern France yesterday, it was announced today at Allied headquarters.

Two heavy bombers were lost out of the big African-based force which hit the enemy airdromes at Istres le Tube and Salon.

The loads of big fragmentation bombs aimed by precision bombardiers exploded among the parked aircraft, sending a storm of steel through the close-packed mass and causing what even cautiously-phrased official reports said was "heavy damage."

Nazis Blocking Italian Army

ISTANBUL, Aug. 13.—(Delayed).—(AP).—While Rome hesitates between war and peace, an uneasy stalemate loaded with explosive possibilities has descended upon Greece where more than 300,000 Italian soldiers are virtual hostages in the hands of the Germans.

A general Italian evacuation, reported here to have begun a few days after Mussolini's resignation, now is understood to have been stopped.

The Germans have rushed into strategic points in Greece, especially ports, and are said to have seized command of almost all means of transport, stripped the Italian High Command in Greece of authority, and forbidden the Italians to move without permission.

Rome appears, at least temporarily, to have left its forces in Greece without guidance. A few Italian commanders who objected, most of them in Athens, have been replaced with strong Fascists.

Collapse of Fascism Greatest Victory

Sicilian Campaign Gives Allies Complete Control Of Mediterranean

By DEWITT MACKENZIE
Associated Press War Analyst

If you had to name the most important result of the Allied conquest of Sicily, what would your answer be?

All things considered, it strikes me that we may have to award first place to a political rather than a military outcome—the downfall of Fascism and its creator.

Of course, the minute you start making comparisons, you get involved. The collapse of the political "ism" had the effect of rendering Italy virtually impotent militarily, apart from such defence as the Germans chose to make. Thus one might well call it politico-military.

Still, whatever you may designate it, this development must rank close to the top among the important events of the war. Fascism and the expansive shoulders of the dozen of European dictators, were foundation stones of the Axis attack on civilization. Hitler was the arch gangster, but his fortunes were heavily involved with those of his partner in crime.

Defeat Inevitable.

The moral effect of this debacle has been tremendous throughout the world. It has convinced the last mother's son among the neutral and non-belligerent nations that the defeat of the Axis is inevitable. It has turned Hitler's small satellites against him. It has given occupied countries courage to carry on.

Then there's another wholly political angle. Numerous countries had long been flirting with the Fascist form of government, and some even had inaugurated a modified form of it. Now those countries find the props pulled out from under them, for Fascism has been shown to be a house built upon the sands.

To Speed Ships

From the strictly military standpoint the rewards of the brilliant conquest of Sicily are great. When this dangerous operation was conceived it had as its objective the reopening of the shipping route through the Mediterranean which passes in the channel between Sicily and Africa, and the big island—heavily held by the Axis—dominated those waters.

Supplies from North America and Britain for the Middle East and Far East had to go clear around South Africa instead of taking the short cut through the Mediterranean. This delayed Allied operations in many zones, tied up vast quantities of shipping, and gravely threatened the security of Egypt and the Suez canal.

Now the Allies dominate the the Mediterranean. The Western Allies now are to a considerable degree masters of their own immediate fate. That is to say, with the Mediterranean cleared, and Italy impotent, they have numerous operations from which they can pick their next move, or moves.

Need Not Invade

We may or may not invade Italy, but it's no longer a necessity if there are other things we would rather do. Italy is incapable of doing further harm, and it isn't essential that the Anglo-American combine go to the trouble of ousting the Nazis from

Roosevelt To Visit Ottawa

Both Houses Will Be Invited To Assemble

QUEBEC, Aug. 18 (CP)—President Roosevelt today announced that he has accepted Prime Minister Mackenzie King's long-standing invitation to visit Ottawa, probably early next week.

The announcement was made at a press conference by Stephen Early, the President's press secretary.

There were no details but it is understood the President intends to remain only one day in the Canadian capital.

M. H. K. Burke, spokesman at the conference for the British Ministry of Information, said there was no indication that Prime Minister Winston Churchill, here conferring with President Roosevelt, would also visit Ottawa.

It will be the President's first visit to Ottawa.

Parliament is not now in session at Ottawa, having adjourned last July 24 until late in January, but it is expected members of both houses may be invited to assemble to hear an address from the President.

When Prime Minister Churchill visited Ottawa in December, 1941, Parliament stood adjourned but its members were invited to return—and many of them did—to hear a speech delivered in the House of Commons by the British Prime Minister.

Nazis Fear Blow At France

Concentrated Air Raids Point To Attack

STOCKHOLM, Aug. 18 (AP) — Germans view the heavy assaults on French air fields by great fleets of Allied aircraft as a prelude to the invasion of France, Berlin dispatches reported today.

While the R.A.F. continued its mighty aerial offensive against Germany, the Nazis were reported watching with mounting concern not only the raids on air fields but the tightening circle of heavy attacks in daylight against the heart of Germany herself.

The Berlin correspondent of Svenska Dagbladet said that the Germans know the blows against airfields in the vicinity of Marseille yesterday and on the north coast of France the previous day "must be connected with higher military strategy dealing with the start of another European front."

From Swedish correspondents in Italy, meanwhile, came word of clashes between German and Italian troops and cryptic messages that important political moves are impending.

"There are a couple of things happening which I can not mention," the Dagens Nyheter Rome correspondent said. "Keep your eyes open."

SURPRISE AMERICAN RAID CRIPPLES JAP AIRFLEET IN THE PACIFIC

120 Planes Destroyed At Jap Base

50 Badly Damaged 1,500 Personnel Reported Wiped Out

By C. YATES McDANIEL
Associated Press Staff Writer

ALLIED HEADQUARTERS IN THE SOUTHWEST PACIFIC, Aug. 18 — (AP). — The Japanese airforce was dealt its most humiliating defeat of the war Tuesday at Wewak, New Guinea, where 225 of its planes were caught on the ground by Allied bombers, 120 destroyed, 50 severely damaged and an estimated 1,500 air personnel killed. Out of some 200 planes in the raiding party, three were lost.

This staggering blow, virtually stripping the enemy of his air strength in central New Guinea, was dealt by 10,000 bombs dropped from heavy and medium bombers.

The surprise was complete and devastating.

Allied reconnaissance planes had detected the Japanese massing the greatest force of planes they ever had assembled in the Wewak area. Obviously, the enemy intended to make some surprise move in support of Japanese jungle troops now falling back slowly before Australians and Americans near Salamaua, Japanese air base 350 miles down the New Guinea coast from Wewak.

The surprise worked the other way.

The first of more than 10 waves of Australian and American-manned planes appeared over the four airdromes of the Wewak sector during the dark first hour of Tuesday.

Loss Is Heavy.

After the bombers were through, attack planes and fighters roared low to pour out cannon and machine gun fire. They scored heavily against enemy personnel. Appearance of Allied fighters indicated strongly that a fighter airstrip has been established considerably closer to the northeast New Guinea coast than Port Moresby which is across the Owen Stanley Mountains and more than 40 miles southeast of Wewak.

The last fliers to leave the target areas looked back on fires which still could be seen blazing when the planes were 150 miles on the homeward trip.

Seven hundred miles to the east in the Solomons, the Allied Air Force struck hard at Japan's base at Vila, on Kolombangara Island,

Flying Schools Must Have Men

OTTAWA, Aug. 18 (CP) — The R.C.A.F. needs men in larger numbers than have been forthcoming in order to keep the schools of the Commonwealth Air Training Plan going at capacity, it was stated today at headquarters here.

The Air Force, however, has been given no priority in recruiting over the army or the navy, a spokesman said when asked for an interpretation of an R.C.A.F. recruiting advertisement in today's newspapers.

(The advertisement appealed to men aged 18 years and six months and married men between 27 and 30 who have just been made subject to compulsory training to enlist in the R.C.A.F. before receiving their call and not to wait "until it is too late.")

"We have to get men and we are making the strongest possible appeal in order to get them," the official said.

Trustee Hilliard Lang Dies Suddenly At 57

CAVAN, Aug. 18—(ENS)—Long a trustee and secretary-treasurer of Whitfield School, Hilliard Lang of Lot 17, Concession 7, Cavan Township, died Tuesday after a sudden illness of two hours. Though ailing for several days, Mr. Lang had been well enough to be up and around, and was found in the barn where he had gone to od the milking. He was 57 years old.

Born at Silver Creek the son of the late Frederick Lang and Elizabeth Peel, he attended Cedar Valley School and was married in 1909 to Charlotet Elizabeth McMahon. A member of the United Church of Millbrook, he was also an Oddfellow.

He leaves to mourn his loss his wife, a daughter, Mrs. Lee McClenaghan of Peterborough, and a son, Donald Hilliard Lang at home. A brother, Willis, resides in Peterborough, and there is a grandson, Danny. Two brothers, Wilfred and Cecil, and a sister Bertha predeceased Mr. Lang, and his mother died in April of this year.

The funeral will be held on Thursday at 2:30 p.m. from his late residence to Gardiner's cemetery at Cavan for interment. Rev. A. L. Sisco will conduct the service.

140,000 Prisoners Bagged In Sicily Campaign; Canadians Not In Last Fight

Total Casualties For Allies Not Released Yet

ALLIED HEADQUARTERS, North Africa, Aug. 18—(AP)—With Messina in Allied hands and Axis resistance in Sicily ended, the stage was set today for the next step to put British, Canadian and American troops on the mainland of Europe.

While American "Long Tom" 155-millimeter guns poured shells across the two-mile waterway to pummel the broken remnants of the German and Italian armies, Allied planes ranged far and wide over the Mediterranean invasion area to bomb bases and communications from Marseille, France, to the foot of the Italian boot.

Best estimates of the Axis debacle in Sicily indicated that at least 140,000 enemy combat troops —only a third less than the number captured at Cap Bon in Tunisia—were Allied prisoners, while a great stockpile of weapons, munitions and equipment was left behind in the frenzied Axis retreat across the Strait of Messina.

Allied leaders agreed that the 38-day conquest of Sicily had been accomplished at a gratifyingly low cost and it was not expected that the total Allied casualties would be in excess of the 70,000 suffered in the Tunisian campaign.

The prize was a strengthened hold on the Mediterranean sea route and a number of excellent airfields well within striking range of Axis strongholds in Central and Southeastern Europe. The Allies could use the Sicilian base as the springboard for offensives aimed at a dozen likely points around the Mediterranean basin.

27 Yanks First

To a patrol of 27 American infantrymen of the 3rd Division fell the honor of being the first Allied troops to set foot in Messina. The city was silent as they marched in at 5:30 a.m. yesterday over a winding highway littered with the debris of a fleeing army. Fifty weary Italians were waiting to surrender. The other Axis troops had fled safely across the narrow strait to the Italian mainland where 15-inch rifles were beginning to spit defiance at the conquerors.

Other American patrols moved into the city by other routes shortly after and the surrender of the city was accepted by the first ranking officer to arrive, Maj. Grover Wilson of Washington, D.C.

British troops of the 8th Army who had been slowed by the profusion of mines sown along the eastern coastal road were represented early when an armored column rolled into the city at 9:45 a.m.

Canadians Rest

(Canadian troops did not take part in the final phase of the Sicilian campaign.

(Tired from its long advance from the landing beaches to the slopes of Mount Etna, the 1st Division was placed in holding positions Aug. 7, Ross Munro, Canadian Press war correspondent reported, while fresher divisions took up the final drive in Messina. At that time the Cana-

their fortifications along the line of the PO in Northern Italy.

Those defences are solely to keep the Allies from reaching the northern gateways to France, Germany and the Balkans. But there are other routes.

It's fortunate that all these favorable circumstances exist right now, for any invasion—or invasions—of the continent, other than Italy, must be got under way quickly or the Allies will be stymied by the bad weather of Autumn.

MORE ABOUT—

Two Canadian

Continued from Page 1

the 1st Division was the only equipped division in Britain as long as a threat of Nazi invasion remained the Canadian Army was rated as a key part in the defences of Britain.

But invasion never was attempted and the 1st Division was three and a half years in England without seeing action, and other divisions a lesser length of time.

Throughout, the Canadian Government's consistent statement of policy has been that the army is available to serve wherever it can usefully serve either in whole or in part, and all suggestions that a desire to keep the army together prevented parts of it serving in North Africa and other theatres have been repudiated.

The heavy proportion of armor in the Canadian force — Defence Minister Ralston once said for its size it perhaps was the most highly-mobile and heavily-armored army in the world—lent support to the theory that it would be used in the establishment of a front in the west.

While fully organized under army, corps and divisional headquarters the force is built on the sectional principle so that particular parts may be transposed or detached without effecting the solidity of the structure.

Very Flexible

This flexibility is considered in line with the policy followed by the American and British high command in North Africa where American and British divisions and even smaller formations are interchangeable.

While the 1st Division is temporarily out of the Canadian Army there is precedent for its being replaced by an other Allied division should it be desired to send a five division army into action under Canadian command.

Early in the war when the first Canadian corps was formed under Gen. McNaughton's command a New Zealand division was placed in it pending the arrival in England of the 2nd Division in the late summer of 1940.

The only official figure available on the strength of the Canadian Army Overseas is "more than 200,000." That figure covers all troops in the European theatre as well as the 1st Canadian Army under Gen. McNaughton. It includes the pool of reinforcements which is under the direction of Canadian military headquarters in London and includes the Canadian Forestry Corps in Scotland and possibly other forces outside the 1st Army.

9 Enemy Planes Downed Over North Italy

ALLIED HEADQUARTERS, North Africa, Aug. 18.—(AP).—The Northwest African Air Forces maintained their heavy attacks on the rearguard of the retreating enemy yesterday, making continuous sweeps over the Strait of Messina and the Italian mainland, Allied Headquarters announced to-day.

Nine enemy aircraft were destroyed and others damaged, the War bulletin said.

The attacks on the mainland were chiefly directed at the communications centre of Castrovillari near Salerno and the railroad yards at Battapaglia south of Naples and roads and railway bridges of Southern Italy.

"Great damage" was caused in yesterday's heavy bomber attacks on the airdromes of Istres Le Tube and Salon in Southern France, and many aircraft on the ground were destroyed and numerous hits scored on hangars, the communique said.

Eight enemy planes were shot down when they attacked Bizerte in Tunisia, the communique added. It said the Allies lost nine planes yesterday.

way today.

(The German international information bureau, propaganda agency, said in a Berlin radio report recorded by The Associated Press in London that 65,00 men, 16,000 vehicles, 350 guns, 78 tanks and 39,000 tons of ammunition were removed by the Axis from Sicily.)

Eisenhower said he was personally disappointed that a single German had gotten away, but that it was impossible to prevent the crossing of the Strait.

German losses in heavy equipment were considerable, he added.

Asked to name the decisive point in the Sicilian campaign, Eisenhower said the battle for Troina in the central area was the hardest and when that key was taken, the Germans' hopes of holding the Mount Etna Line were finished.

However, he said, once the British, United States and Canadian assault divisions landed on the beaches in their original disembarkations and began driving towarjd their first objectives with their tle had been won.

forces substantially intact, the bat-

Failed at Start.

The crucial point, he continued, came during the first 48 nours when the German Herman Goering and 15th armored divisions launched tank-supported attacks against the Americans around Gela.

When the Americans broke through those assaults, Italian resistance immediately began to collapse, although there were several sharp engagements before the general Axis withdrawal began.

The General disclosed that the Italians did their best fighting in covering the Germans' final evacuation from Messina.

He stressed the value of co-ordination of all striking arms of land, sea and aiar and said he was gratified beyond measure by the way that various Allied units supported each other.

Eisenhower singled out the engineers for the highest praise in clearing roads as both the 8th and 7th armies advanced through systematic enemy demolitions.

The Allied commander praised the fighting qualities of the Goumiers, native Moroccan troops who are especially at home in mountain fighting.

Conservatives Clear Decks New Cabinet Goes To Work

TORONTO, Aug. 18. — (CP). — Ten new faces appeared around the Cabinet Council table at Queen's Park today as Premier George Drew's Progressive Conservative ministry held its first meeting—three months to the day after Harry Nixon, whose Liberal Government was defeated in the Aug. 4 election, took office.

No announcements were expected after today's meeting, described by Col. Drew as merely a get together so the new ministers, sworn in before Lieutenant-Governor Albert Matthews yesterday, could meet their deputies. First business session will be held next week.

An early announcement is expected, however, of appointment of a committee to consider administration of the mines department. Col. Drew made this clear yesterday after the swearing in when he disclosed that placing the mines department under Provincial Treasurer Leslie Frost was only temporary pending an adjustment of the present system of mines taxation.

The ministers assembled in a cabinet room that has not seen Conservative occupants since July, 1934, when the Liberals under Mitchell Hepburn took over from the defeated Conservative Government of George S. Henry. Mr. Hepburn's Government was re-elected in 1937, but the Premier resigned last Oct. 21 in favor of his Attorney-General, Gordon Conant. A Liberal convention April 30 chose Mr. Nixon party leader after Mr. Conant withdrew from the race on his doctor's orders.

Complete Slate

The present ministry is as follows (with constitutencies bracketed):

Prime Minister, President of the Council and Minister of Education —Col. Drew (Toronto High Park).

Minister of Agriculture — T. L. Kennedy (Peel).

Provincial Treasurer and Minister of Mines—Leslie M. Frost (Victoria).

Attorney-General — Leslie Blackwell (Toronto Eglinton).

Minister of Highways and Public Works—George H. Doucett (Lanark).

Provincial Secretary, Registrar and Minister of Municipal Affairs—George H. Dunbar (Ottawa South).

Minister of Health and Public Welfare—Dr. Reginald Percy Vivian (Durham).

Minister of Lands and Forests—Wesley G. Thompson (Kent East).

Minister of Labor—Charles Daley (Lincoln).

Minister Without Portfolio — George H. Challies (Grenville-Dundas).

Question of the Game and Fish Department, under the provincial secretary during the Hepburn administration and under the Prime Minister in the subsequent Conant and Nixon administrations, still remains to be settled.

It will not be under the provincial secretary this time because the new secretary, Hon. George Dunbar, will also administer the Municipal Affairs department.

Col. Drew said the matter would be decided by the cabinet.

An early task confronting these

CONSERVATIVES CLEAR
(Continued on Page 8, Column 3)

C.C.F. Candidate Follows Bracken

THE PAS, Man., Aug. 18—(CP). —Electors of the far-flung northern constituency of The Pas yesterday elected 29-year-old Beresford F. Richards, C.C.F., to the Manitoba Legislature, succeeding John Bracken, former Liberal-Progressive Premier, who represented the riding for more than 20 years.

The Pas, which gave Mr Bracken, now National Leader of the Progressive Conservative Party, an acclamation in 1941 after he formed the provincial coalition administration, swung to the C.C.F. Opposition in the by-election at almost every poll.

Mr. Bracken resigned the seat shortly after accepting the Progressive - Conservative leadership last December.

With 31 of 40 polls reported, Mr. Richards, youngest member of the Manitoba Legislature, had 3,272 votes, a majority of 1,316 over his three Coalition opponents. There were only 473 names on the voters' lists in the remaining nine polls.

The three Coalition nominees, all of whom lost their deposits, were Roderick M. McIsaac, Government Coalition, who received 1,073 votes; Orson F.Wright, Liberal Coalition, 497, and George B. Mainwaring, Independent Coalition, 387.

Mr. Richards' election gave the C.C.F. four members in an Opposition of eight. The Government has 24 Liberal-Progressives, 13 Conservatives, 6 Independents, and 3 Social Credit members. One seat in Winnipeg constituency is vacant.

Hit At Bryansk

Red Star said Russian units attacking Bryansk west of Karachev and southwest of Zhizdra encountered almost impassable forest and swamps where the enemy employed every natural obstacle.

The Russians nevertheless crossed rivers, the dispatch said, and the Germans retreated, destroying forests and paths behind them.

The Germans used both natural and prepared defence lines in the Spas Demensk sector.

Red Star said that a violent battle raged in the forest where Germans counter-attacked heavily but that the Russians improved their positions considerably. There was no indication of any important advance.

Front reports said more than 10,000 Germans had been killed in the Bryansk and Kharkov offensives.

Bulls: One, 1710 lbs. $7.25; two, 1310, $9.75; one, 1550, $9.25; nine, 1040, $8.50; two, 885, $7.75.

Calves: 46, 220 lbs. $15.50; 57, 190, $15; 11, 200, $14; four, 210, $13; 11, 220, $12; two, 325, $10; nine, 210, $9.

Lambs; 166, 84 lbs. $15.75; 182, 82, $15.50; 40, 80, $14.75; 30, 86, $14.50.

Sheep: 11, 140 lbs. $9.50; 15, 150 $9; three, 140, $8.50; two, 115, $8; nine, 130, $7; three, 190, $6; three, 130, $1; one, 110, $5.

WINNIPEG GRAIN.

WINNIPEG, Aug. 18 — (CP). — Wheat futures closed ¼ cent a bushel higher to ¼ cent lower yesterday on the Winnipeg Grain Exchange.

Nearly 500,000 bushels of Canadian No. 1 Northern wheat were taken for export by the United Kingdom on an exchange of futures basis. The amount of wheat taken by the United States Commodity Credit Corporation since Monday was reported close to 750,000 bushels of No. 3 Northern.

scale, with over 1,000,000 bushels of the three top Northern grades changing hands.

Re was the only coarse grain future active. United States interests were credited with fair buying in all three futures and values were higher in sympathy with Chicago.

Appling Leads

CHICAGO (AP)—Luke Appling of Chicago White Sox continued to hold the batting lead in the American League with an average of .336, with Dick Wakefield of Detroit second at .327 and Guy Curtwright of the White Sox third at .309. The early-season leader, Vern Stephens of St. Louis, has slumped to seventh place .291.

Shuttle Raids Started By Americans

Regensburg Raided Yesterday; Night Target Unknown

LONDON, Aug. 18 — (CP). — R.A.F. and R.C.A.F. bombers battered Germany again last night in the wake of American raiders which struck at two important air craft factories deep in the Reich yesterday to inaugurate daylight Britain-to-Africa shuttle bombing.

Targets of the R.A.F. and Canadian bombers were not immediately disclosed, but the fact that air raid alarms sounded in Switzerland during the night indicated that Southern Germany might have been the objective. It was understood here that at least six Canadian bomber squadrons took part in the night's raids.

A German Radio broadcast recorded here by the Associated Press claimed that "isolated nuisance raiders" had attacked Berlin last night and reported that Allied bombers also had raided the north German coast. More than 30 of the raiders were shot down, the broadcast claimed.

The daylight assaults by the American bombers yesterday, carried out on the first anniversary of the 8th air force's advent in this combat theatre, represented a spectacular aerial thrust.

Borrowing the shuttle technique originated by R.A.F. night raiders, the American heavy bombers flew to Regensburg in the southeastern corner of Germany near Munich, dropped their bomb loads on the Nazi's second largest Messerschmitt factory and continued on to bases in North Africa to complete a 1,550 mile flight.

Hit Schweinfurt

Others fought through the stiffest fighter opposition in weeks to blast at the 72-acre ball bearing plant at Schweinfurt, near Frankfurt.

Simultaneously R. A. F. fighter-bombers and United States air craft attacked German air bases in Northern France, Belgium and Holland.

Squadrons of R.A.F. and R.C.A.F. Thunderbolts and Spitfires which supported the daylight operations were credited with shooting down 33 enemy fighters, while 36 Allied heavy bombers, one fighter-bomber and five fighters were reported missing.

Two of the enemy planes fell before the guns of pilots flying with the Wolf and Red Indian Squadrons of the Canadian fighter wing, with six R.C.A.F members doing the shooting that sent them spinning down.

Flt. Lt. W. G. Conrad of Bedford, Que., ganged up with Flt. Sgt. G. M. Shouldice of Chesley, Ont., over Northeastern France to smack down a FW90. Then, over Northern Belgium, Wing Cmdr. J. E. Johnson, British leader of the Canadian wing, shared a ME11 with Flt. Lt. Dean H. Dover of Toronto, FO. J. Creston of Saint Catharines, Ont., and I. Foster of Grimsby, Ont.

Heavy bombers from Mediterranean bases, meanwhile, flew in from the south to deliver a surprise blow at German fields at Istres le Tube and Salon in France, northwest of

On Tuesday Mrs. Dan Kennedy was hostess to the ladies who gathered in the interests of the British War Victims' Fund. Mrs. Baillie, of Toronto, won the prize donated by Mrs. Thomson for high score.

Mr. Howard Van Tassel has as his guest his nephew.

Mrs. Keefer is vacationing in her cottage, Castle Keef at the head of the lake.

FOUND MISSING EYE

TAMPA, Fla. — (CP). — A Tampa boy swimming in the sulphur Springs pool here lost an eye—a glass one. Life guards roped off the area, dived to the bottom and a few minutes later came up with the missing orb.

Wet Weather Stimulates Rust Growth

COBOURG, Aug. 18.—(ENS). — Northumberland county has in the past week experienced moist, warm weather which is very conductive to the development of rust orf grain and it is apparent that the granaries will be little more than half-filled this fall, stated Agricultural Representative R. C. Banbury.

However, greater quantities of grain are available from Western Canada and it is hoped that much will be brought into Northumberland county to feed hogs, chickens and cattle. The County Federation of Agriculture is attempting to assist with the distribution and where a local dealer is not in a position to service farmers satisfactorily, it is suggested that they get together and make up a carload and send their order to the Ontario Federation of Agriculture, 409 Huron street, Toronto.

It requires 45 tons for a carload of wheat; 40 tons for barley and 34 tons for oats. Two kinds of grain will be put in a car for an additional $5.00. At present prices, it would appear that good quality grain can be laid down at any station at around 1½c per lb. While there is the possibility of some large weed seeds such as wild buckwheat and wild oats, this grain has fewer small seeds than that produced locally and if fed ground there is practically no danger of bringing any weeds to Northumberland farms, Mr. Banbury said.

Give Bonus.

The Dominion and Provincial governments now offer bonuses to assist with distribution. While the price appears to have advanced somewhat, the Dominion government pays the freight from the head of the lakes and the farmer buying gets $1.80 per ton returned from the Provincial government on a five-ton lot basis. It is good personal, as well as patriotic business, for the farmer to have plenty of feed on hand for the winter, as the price of this grain is cheap in comparison with the ceiling prices of farm produce and, consequently, a comfortable margin of profit is available, he declared.

This is not the time to sell cows and productive hens, or to let dairy cows drop in production, as by doing so, one is hurting his income and the national food effort, Mr. Banbury saiad. Northumberland barns seldom have ever been so well filled with hay and with sufficient grain to make a balanced and palatable ration. The returns to Northumberland farmers this year may be higher than in any period in two decades in spite of difficult weather, help shortage and fungus diseases, the county agricultural representative declared.

GORE'S LANDING

Fisherman Uses Hands To Bring In Muskie

GORE'S LANDING, Aug. 18 — (ENS) — A fisherman whose rod broke after a tussle with a 6-pound lunge Monday, landed it with his bare hands.

Occupying a cottage at "Cedar Springs," Mr. Scott, a printer from Toronto, rowed out to Sheep Island on Monday morning on a fishing expedition. He was using a steel rod and plug.

Mr. Scott anchored the boat and threw out his line and immediately a muskie grabbed the bait. In the ensuing struggle, the rod broke and Mr. Scott landed his fish by using his bare hands.

Check Hamilton Water

HAMILTON, Aug. 18 (CP) — The special committee appointed to probe pollution of the waters of Hamilton Bay yesterday decided to seek assistance of the Ontario Department of Health. Controller Donald A. Clarke said the problem was of "major importance."

Lemons Valuable

LINDSAY, Ont., Aug. 18.—(CP).—Mrs. A. O. Johnston of Lindsay recently enclosed two lemons in a parcel to her soldier son in Britain. Wray, her son, ate one and gave the other to a girl friend for her mother to make a lemon pie. But the mother had a better idea. She raffled it for three pounds, 12 shillings and six pence — more than $15 — which she gave to the British Red Cross.

COBOURG

Pte. Neil Rogers Hurt In Sicily

COBOURG, Aug. 18.—(ENS). — A well known Campbellford boy, Private Neil Rogers, was wounded in Sicily on July 22, twelve days after the Canadians and Americans invaded the Italian island. Word was received from Ottawa yesterday by his wife, who lives with her parents, Mr. and Mrs. Alex McDonald, 383 King street west, Cobourg.

Private Rogers enlisted in Hastings with the Hastings and Prince Edward Regiment and went overseas three years ago. He made his home in Cobourg for some time before enlisting. At home with his wife is a small daughter. Private Rogers has another brother, Bernard, serving overseas.

Children Collect Milkweed Leaves

COBOURG, Aug. 18 — (ENS).— Complying with the request of the Dominion Department of Agriculture that children collect as many milkweed leaves in August as possible, arrangements are being made to gather them, in Northumberland County.

The information sent out by the Department is "Strip the leaves by hand and dry them as rapidly as possible by spreading on the ground or barn floor. If dry enough to crackle, put them in bags or boxes. A price of 3 cents a pound will be paid for these dried leaves."

Agricultural Representative Ralph C. Banbury of Northumberland, states that he anticipates that an arangement will be made in co-operation with Public School Inspector A. A. Martin, to have the leaves forwarded by the teachers of schools so that transportation costs and volume may be more satisfactory. While the sap of the rubber tree is collected and is much like that of the milkweed, it is understood that in the dried form, the material can be easily shipped and the rubber-making qualities extracted from the leaves. It seems unusual, states Mr. Banbury, that latek should be secured from this common weed of Ontario farms, but if a successful source, the crop may be established in future years and Ontario farmers grow their own rubber tires.

CAMPBELLFORD

Pte. Tom Little Made Life Member Of Club

CAMPBELLFORD, Aug. 18 (ENS) Another Seymour boy serving in the armed forces, Private Thomas Stanley Little, was entertained by friends of the community on Monday evening.

Pte. Little, who has been home on leave for several days and is now returning to his station at London, Ontario, was honored by well over one hundred friends who gathered at McCrory's Hall for the occasion. The evening was spent in cards and dancing to music by Ray Archer's orchestra. Highlight came with the presentation of a wrist watch presented by Mr. William McCrory. Mr. Malcolm Hutcheon read the address in which tribute was paid to Tom as a true sportsman.

More unusual was the presentation made by the Menie Hunt Club who made Stan a life member. Mr. Earl Craighead read the address and the presentation was made by Mac Little.

CAMPBELLFORD

Orange Order Have Service For Fred Brown

CAMPBELLFORD, Aug. 18 (ENS) —One of Seymour's oldest residents and a man widely known in the Oarnge Order, Frederick Brown, was buried from his home on the 12th concession yesterday afternoon.

The late Mr. Brown passed away on the family homestead Sunday afternoon. He was born in the same home, a son of the late Mr. and Mrs. William Brown, 87 years, and he spent his entire life on the farm where he died. In his early life Mr. Brown took an active part both in communtiy and municipal life. For eleven years he served as a member of the municipal council and his association with the Orange Order dates back to 67 years ago when he first became a member of L.O.L. 1369 at Polmont which was then known as he Tilton Lodge.

His activity in the Order earned him the position of worshipful master for three terms and Mr. Brown was one of the members of the order who attended the laying of the cornerstone of the County Orange Hall in Toronto in 1886. He was a member of the Methodist and later of the United Church. His death came following a period of failing health which began several years ago.

Predeceased by his wife the former Mary McMurty who died in 1917 Mr. Brown is survived by three daughters, Mrs. Thomas Durham, and Mrs. Gordon Shearer, both of Seymour, and Mrs. J. B. Bolander of Toronto and one son, Harold Brown on the family homestead.

The funeral service which was largely attended, was under auspices of the Orange Order and was conducted from the resiednce by Rev. J. W. Wilkinson of the United Church. Interment was made in Trent Valley Cemetery, Hastings.

The pall bearers were Messrs. William Brown, Alfred Brown, Earl Gillespie, William Gillespie, Fred Longmuir and Earl Dunham.

Fenella News

Mr. and Mrs. Eric Sandercock, Bruce and Marie visited recently with Mr. and Mrs. Victor Graham of Herald.

Miss Mary Pickens, Reg. N., of Peterborough spent the week holidaying with her sister, Mrs. Gordon Jewell, Mr. Jewell and family.

Mr. and Mrs. Charles Barker, Mr. and Mrs. Lourie Hope, Audrey and Mrs. William George visited Sunday with Mr. and Mrs. George U. Isaac and family, Harwood.

Miss Ethel Doxtator, Reg. N. of Toronto has been holidaying the past week with her sister, Mrs. Stanley Hutchison, Mr. Hutchison and daughters.

Master Leo Curtis returned home on Friday from visiting his grandparents, Mr. and Mrs. W. H. Curtis, Coldsprings.

Week-end guests at the home of Mr. and Mrs. Eric Sandercock were Miss Dorothy McCulloch, Harwood, Mr. and Mrs. Gordon Broomfield, Mrs. H. Jefferies of Vernonville.

The Fenella W.I. are sponsoring the filling of four ditty bags for the Navy League. Donations of money to purchase articles for these will be appreciated. Please leave donations with Mrs. Gordon Jewell or Mrs. C. Childs by Sept. 1.

Tpr. Francis Minor, Camp Borden spent week-end leave with Mrs. Minor and Winston.

Aussies Fear Attack

EDMONTON, Aug. 18 (CP) — C. P. Smith, managing director of two Australian newspapers, said yesterday in an interview Australians are "fearfully uneasy" over prospects of a Japanese invasion although many now believe possibility of a full-scale attack is past.

English Children Home

LONDON, Aug. 18 (CP) — The children Canada and the United States adopted in the days of the blitz are coming home to Britain. Within the past three months, several hundreds have returned, some to join the forces and others to be reunited with families.

TAMBLYN
Features Quality Photo Finishing
Quality in Photo work is definitely more in demand today than at any previous time. This is possibly due to the fact that "Film"—being in short supply—is harder to procure and naturally we wish the results from those which we are fortunate enough to acquire, to be as nearly perfect as possible. Your Tamblyn Drug Store, for some years, has featured the "Mirror True Process" which is acclaimed by many thousands of satisfied users as "Tops." So whether it be for the finishing of those "Holiday Films"—the reprinting—for that absent One—of negatives of Homey Objects and Familiar Faces, or for any type of Photo Finishing work, may we suggest "Mirror True Process" for best results.

A New City Hall

We are sure that every citizen of Peterborough will approve the action of the City Council in setting up a committee to consider problems arising from the decision to build a new city hall when the war is over. It may be several years before work on the new building can begin, but it is wise to consider the matter thoroughly beforehand, so that when the proper time comes it will not be necessary to settle important matters in a hurry.

May we ask two questions about the proposed new city hall?

First of all, is it necessary to move all the offices and departments from the present city hall to the new building? We are thinking particularly of the police court and the police station. Necessary as it is, a police court is scarcely an ornament to any public building, and we have observed in many Ontario cities that the whole city hall tends to take its prevailing atmosphere from the police court. Such an atmosphere, concerned as it is with drunks and brawlers and minor disturbers of the peace, lacks dignity and urbanity, to say the least. If the police court and police station were left in the present city hall it would be possible to provide the magistrate's court with a larger and more imposing room than the one now used for it, and it would give the police larger quarters, which they could use to advantage. The police department and the magistrate's court are the most self-contained of the city offices, and if they remained in the old building—which could be suitably renovated to meet their needs—little inconvenience would be caused.

Second, would it be advisable to include a first-rate auditorium in the new city hall? At present Peterborough has only the P.C.V.I. auditorium, which is not suitable for all purposes, and which is limited in its seating capacity. A hall suitable for large public gatherings is badly needed, and the need will grow as the city grows. If the hall were built by an architect who understood the special needs of theatres, it might be made suitable for that purpose too, and become a source of revenue if travelling theatrical companies, and such movies as go only to special houses, could be attracted here.

Before a plan for a city hall can be fixed upon, every side of the question must be considered. We have made two suggestions which we believe would add to the dignity and usefulness of the building.

Mackenzie King At Quebec

A few of our contemporaries are in a nervous tizzy because Mackenzie King is mentioned in the news rather frequently these days. They feel that Mr. King should do his best to be the Invisible Man. This is because they dislike Mr. King, and any mention of his name provokes in them an unbearable resurgence of spleen and jealousy. Too bad.

One complains because he is mentioned in the newscasts of the C.B.C. This, they are sure, is because the C.B.C. editorial office has orders to mention Mr. King in and out of season. It could not, of course, have anything to do with the fact that he is the host of Mr. Churchill at Quebec; that is a trifle which should not be mentioned. Another screams that Mr. Churchill came to Quebec to see Mr. Roosevelt, and not Mr. King. Certainly the British Prime Minister came to see Mr. Roosevelt, but he came to see Mr. King as well, and that is why he has been with him day after day, while Mr. Roosevelt has just arrived. And it is foolish to say that Mr. Churchill is the guest of Canada and not of Mr. King. If Mr. King were to spend a week at Chequers with Mr. Churchill would anyone insist that he was the guest of Great Britain?

The nursery tantrums of the King-haters would be irksome if they were not funny.

The Second Bombing Of Rome

The second bombing of Rome has reanimated the controversy as to whether any attack on that particular city is justified. Opinion ranges between the view of some well-informed people who have weighed the military and political aspects of the matter, and who have decided that the bombing is a good thing, and that of people who, after a similar consideration, have decided that it is a bad thing; opinions have also been given by those who think that a city of such beauty as Rome must, for that reason, be spared; there are those who think that the Italian people are ready to revolt and make a peace with us over the heads of their leaders, and who feel that bombing Rome will discourage them in this laudable ambition; and of course there is the view expressed by many Catholics that Rome, as a city of unique religious significance, should not be bombed, and there are a certain number of intransigent Protestants who feel that it should be bombed for that very reason. And of course there are some people who applaud the bombing of any city, because they enjoy the thought of vengeance and destruction.

Almost everyone, we feel, will agree that the attempt of Badoglio to declare Rome an open city comes too late to carry any conviction. An open city is one which is not defended, according to the Hague Convention, and which is ready for surrender. Rome is filled with munitions plants, arsenals, and vital railway junctions, all of which are being used to carry on the war against us, and the cunning Mussolini has seen to it that many of these legitimate targets are placed near monuments of antiquity which no reasonable being wishes to see destroyed. If the Italian people were to ask us if we wish to see Rome in ruins, we should no doubt reply: "Certainly not, and when you surrender there will be no more raids". But we do not think that anyone, whatever his creed, wishes to see the holiness of Rome used as a cloak for the iniquities of Rome.

When Mussolini fell great hopes were entertained of the Government under the King and Badoglio. Those hopes have not been justified. Rome is still the capital of a country at war with us, and fully available to Germany, our principal enemy. If raids on Rome will bring about the surrender of Italy, by all means let them continue.

Tidings Of Death

Much is being made in some quarters of the fact that unofficial news of the death in battle of Canadian soldiers has reached their relatives before an official intimation has been sent by the Department of National Defence. We deplore the attempts which are being made to discredit the department and the Government of which it is a part on these grounds. The distress of mind which the relatives of soldiers feel under such circumstances should not be turned into base coin for petty political exchanges.

Any delay in informing the relatives of a man who has been killed in battle is regrettable and inexcusable. But it must be remembered that the Department of National Defence cannot act upon rumours and unofficial information. If it believes a man to be dead it must use every means to test the report before it informs his relatives that he is dead. Understandably the relatives of soldiers feel affronted when they hear a report of their man's death from an unofficial source, but hear nothing from their Government; but what would be their feelings if he were reported dead by the Department of National Defence and then proved to be living? A Government department cannot say that a man is dead until it has exhausted every possibility that he may be alive.

Confusion of this sort is common to every war. In fighting of the sort which has been going on in Sicily the movement is so rapid that a strictly accurate record of the dead and wounded can only be made after the most careful search over a wide area. And to list a man as dead when there is no certainty that he is not merely missing is an error which no man's family could be expected to forgive.

NOTE AND COMMENT

Many of us who try to live within our means are dreadfully crowded for space.

Once a bombed city was said to be "Coventrized"; now, of course, we say that it has been "Hamburgered."

A politician says that what this country needs is men with the courage to spend money. Please, sir, we've got plenty of courage.

An earthquake detector has been perfected which goes off like an alarm clock. But the real need is for alarm clock which goes off like an earthquake.

Britain is desperately short of coal. We'll bet right now that they wouldn't even object if someone wanted to carry it to Newcastle!

Cooking with hot air is predicted for the future, but its really nothing new. For years hot air has kept the political pot boiling.

The Future of Taxation

By
SAMUEL MARCHBANKS

SIR William Beveridge's Report on Social Insurance And Allied Services appeared in December, 1942, and in a very short time was discussed both in Great Britain and on this continent as "the Beveridge Report." The discussion was not always especially intelligent, but it was usually enthusiastic. People read accounts of the Report in newspapers and magazines; they even bought and read the Report itself, and found that it was incomprehensible to anyone who had not a thorough training in economics. But owing to the circumstances in which it was presented to the public the Report was received with widespread jubiliation; it took a sudden hold on the public fancy, and approval of the Report was considered a mark of intelligent liberalism, while to question it was taken as a sign of a mean and reactionary temperament.

◇ ◇ ◇

POPULAR approval is a poor index of the worth of a scheme so technical as that advanced by Sir William Beveridge. Most of the hullabaloo about the Report was based upon a few paragraphs of somewhat grandiose prose contained in pages 6 and 7 of the Introduction and Summary. "A revolutionary moment in the world's history is a time for revolutions, not for patching" says paragraph 7, and although the rhetoric is pleasant the assertion may be questioned. It might equaly well be said that in revolutionary times we should be chary of changes, and that in times of stability we should seek peaceful revolution. In paragraph 8 the authors of the Report (for Sir William was head of a committee, and not a lone wolf) call their scheme an attack upon Want, and continue, 'But Want is one only of five giants on the road of reconstruction, and in some ways the easiest to attack; the others are Disease, Ignorance, Squalor and Idleness." Very fine, and suitably reminiscent of the "Pilgrim's Progress." In paragraph 9 we read, "The State in organizing security should not stifle incentive, opportunity, responsibility; in establishing a national minimum, it should leave room and encouragement for voluntary action by each individual to provide more than that minimum for himself and his family."

◇ ◇ ◇

IT would be a temerarious newspaper columnist who took issue with Sir William on matters of economics, but his knowledge of people may be challenged. He does not seem to know much about what an older school of theologians called "the wickedness of the human heart," and what the Prayer Book calls "the old Adam." This "old Adam," it will be remembered, was provided with a most adequate system of social security, and all he did was to sit about and loaf until he got into mischief. Sir William's desire to banish Want from the life of England does credit to his heart, but he ought to know at his age that incentive, opportunity and responsibility are not encouraged by providing pensions for those who do not choose to work. Those qualities are present only in a minority of the population, and the rest must either be made to work or kept by the workers; his scheme looks like an elaboration of the latter alternative.

◇ ◇ ◇

OF course the conditions of modern life are such that many people are thrown out of work by circumstances which they cannot control, and they must be looked after by those who have better luck or more ability. But the Beveridge report provides an income for everyone, as of right; in effect it makes a contract between the individual and the State, that the individual shall never be without an income regardless of the individual's character or abilities. The adoption of the Report would bind not merely the adopting Government, but all its successors, to fulfill this contract, in good times and bad, and seemingly without regard for the alteration in the value of money.

◇ ◇ ◇

SIR William admits that his plan would work only when unemployment was comparatively slight. But he looks upon his plan merely as one part of a great social scheme designed to put the life of Great Britain on a new footing—obviously a socialist footing. But Socialism, logical, workable and even admirable as it may appear in such a work as Bernard Shaw's "Intelligent Woman's Guide To Socialism, Capitalism and Sovietism," looks much like any other scheme when real facts and figures are in question. It has its limitations and its injustices. The injustice of the Beveridge Plan is that it expects the workers of the state to support the non-workers. The workers may well say, Why? Let 'em starve! which is logical if not humane.... This discussion of the Beveridge Report will continue on Saturday.

"Great King of Actors"

Mei Lan-fang, most famous of Chinese actors, is reported dead by a Japanese broadcaster. He was about 50, of a family of actors, born on the stage, you might say, and a master of Chinese music at 7. He was the acknowledged monarch of his art, a popular favorite whose earnings seem prodigious even from the American standpoint. His visit here in 1930 was brought about by some distinguished Americans who had seen his performances in his native country. Those of us who were wise and fortunate enough to see him were impressed by his genius, shining through a medium unfamiliar, perplexing, to no small extent unintelligible.

To Occidentals the Chinese drama seems a blend of music by instruments of curious timbre, of singing and speech in squeaky falsetto, of stately dances and sometimes of clever acrobatics. The poverty of scenery and properties, the taking of women's parts by men, recall the Shakespearean stage. Everything is highly conventionalized and stylized. Movements and gestures convey to the spectators change of scene. Glances of the eye, position of the fingers are codes of meaning. There is little plot or dialogue, and a foreign audience can't understand the latter. With all these handicaps Mr. Mei triumphed. Impersonating a woman, he looked "cypress-slender." The hands spoke as well as the eyes. Grace was in every motion.

You thought of the long centuries in which his art had ripened. Here was a bright creature, native to the world of fantasy and fable in which he moved. The esteem in which his countrymen held him seemed a part of their ancestral piety. Their veneration for their age-long plays shows not only their devotion to art but their intense nationalism and pride in their national drama.—New York Times.

Homage To Toscanini

(NEW YORK TIMES)

ARTURO Toscanini, a great man as well as a great artist, has a passion for freedom as strong as his passion for music. He loves his native country. He fought for it with distinction in the First World War. Its subjection to the tyranny of Fascism, its disgrace as a puppet of Nazism, wrung his heart. In 1931 he was to give a concert at Bologna in memory of the composer Martucci. The program was to consist entirely of selections from the latter's works. The Mayor of Bologna asked that it include the Fascist hymn. Toscanini refused. On the night of the concert a gang of forty or fifty Fascist ruffians was waiting for him at the stage door. He was beaten up. None of his assailants was ever arrested. The same year some persons who cheered him at a concert at Milan which he attended were arrested.

Some of his finest triumphs have been won in the Wagnerian music. He was guest conductor at the Festspielhause of Baireuth in 1930 and 1931. The rising tide of Nazism against "non-Aryan" artists disgusted him and he went away. In 1933 with eight other eminent musicians he joined in a cablegram to Hitler asking him to end the persecutions of their colleagues for political or religious reasons. In 1936 he conducted the new Palestine Symphony Orchestra at Tel Aviv. In 1938 he withdrew from the Salzburg Festival on account of the Nazi invasion of Austria. At the performance of Verdi's Hymn of Nations last February he substituted "Italy Betrayed" for "Italy, My Country" in the book."

This is a commonplace chronicle of consistently noble action. His long generous effort in the United States in behalf of this war for freedom needs no recalling. His reply to Mr. Roosevelt's thanks for the concert for the benefit of the National Foundation for Infantile Paralysis expresses fully this side of the man:

I shall continue unabated on the same path that I have trod all my life for the cause of liberty,....liberty that is the best of all things in the life of man, if it is all one with wisdom and virtue.

At 31 Toscanini reached the summit of conductorship, leadership of the orchestra at La Scala in Milan. According to yesterday's dispatches La Scala, where he was leader at different periods for nineteen years, invites him to come back now that Fascism is crushed. On the theatre front the invitations are painted: "Toscanini, we await you"; "Toscanini must open the new season in La Scala." These mute anonymous voices from his old home may well touch the illustrious musician. In their simpler way they say to him what Mr. Roosevelt wrote: "Like all true artists you have recognized throughout your life that art can flourish only where men are free."

At the Centre of Empire

(By SCOTT YOUNG, Canadian Press Staff Writer)

LONDON, Aug. 18 (CP)—The British House of Commons, widely known by such dignified descriptions as the Heart of Empire and Mother of Parliaments, is also quite an interesting spot for students of the manly art of self-defence (fisticuffs division).

There is nothing particularly scientific about the punches thrown in the chamber and its lobbies, although recent history does record one member who landed a punch right on the button (aside to people who thought this a political essay: chin) of a burly opponent. But the old college try is there, and the bouts resemble what possibly would result if the Beehive Centre, Sask., golden gloves tournament instituted an event for non-athletes over 45.

Most recent example was an exchange of punches between Cmdr. Oliver Locker-Lampson and Capt. A. S. Cunningham-Reid (dubbed by one of my alliteratoin-minded colleagues as the "hyphenated hotheads") in the Commons lobby.

The rules of the House, which call for a member on his feet to be at least three-sword-lengths away from those members of other political beliefs, haven't been changed to cover the modern practice, which substitutes fists for swords. A fight in Commons now has a distinctly beneficial effect on the participants, who become so penitent and aghast at their behavior that they are liable to refrain from criticizing others for as long as two or three hours.

Still fresh in the memories of parliamentary fight fans is the time shortly before the war when Labour's militant Emmanuel Shinwell dashed across the House and landed a solid blow across the face of Cmdr. Bower. The husky commander didn't hit back, explaining later that as a former heavyweight champion of the British Navy he could not bring himself to strike his less robust opponent.

However, he may have been deterred even more by realization of unfairness of the words that had excited Shinwell—while Shinwell was speaking Bower heckled him with advice to "return to Poland."

Apologies were exchanged later, as in the case of Cmdr. Locker-Lamson and Capt. Cunningham-Reid, and honour was satisfied.

L.C.M.S. Amery, now secretary for India, is the Commons' bantam champion, winning his title in 1934 during a debate on evictions from government property at Woolwich. Amery heckled a speaker and George Buchanan, who is built like a large fire hydrant, called him a "dirty little swine and a gutter snipe." Then Buchanan and James Maxton advanced across the House on Amery. Just as they arrived, Amery started one right on the Commons' historic carpet and landed flush on Buchanan's chin. Subsequently Buchanan ended the bout on a note of unconscious hilarity by apologizing for "hurling epitaphs across the floor of the House."

An interesting departure from precent (one of those bouts where the referee does most of the fighting) occurred when an English M.P. and an Irish M.P. were beating each around the ears in the lobby one day and the late John Burns intervened so forcibly that both the original belligerents complained to the speaker. Burn's brother had been a professional boxer, which may have had some bearing on his interventionist vigour.

Mr. Churchill took part in one of the earlier Commons fights, which better could be compared to wrestling than boxing because of the illegal weapons used. It was in 1912, during an Irish debate, and although the House officially had adjourned several members stuck around and shot extra-curricular insults at one another. Mr. Churchill, then First Lord of the Admiralty, said something which aroused Ronald McNeil (later Lord Cushendun) so much he fired a bound volume of Hansard at Mr. Churchill which bounced off harmlessly, like so many other more serious blows since.

McNeil later apologized.

The pattern for all Commons bouts seems to be a maximum of talk, a minimum of punching, and nobody hurt.

A Bible Message

Thus saith the Lord the King of Israel, and his redeemer the Lord of hosts: I am the first, and I am the last: and beside me there is no God....

Fear ye not, neither be afraid: have not I told thee from that time, and have declared it? ye are even my witnesses. Is there a God beside me? yea, there is no God; I know not any. (Isa. 44: 6, 8.)

◇ ◇ ◇

Great is the Lord, and greatly to be praised; and his greatness is unsearchable....All thy works shall praise thee, O Lord; and thy saints shall bless thee....

Thy kingdom is an everlasting kingdom, and thy dominion endureth throughout all generations. (Ps. 145: 3, 10, 13.)

◇ ◇ ◇

Among the gods there is none like unto thee, O Lord; neither are there any works like unto thy works....For thou art great, and doest wondrous things: thou art God alone. (Ps. 86, 8, 10.)

◇ ◇ ◇

Thy way, O God, is in the sanctuary: who is so great a God as our God? (Ps. 77: 13.)

Hard To Believe How Time Flies

AUGUST 18

1913 Separate schools of the city decide to establish continuation classes to start this fall.

Lieut. C. H. Ackerman, Sergt. Instructor J. Dunkerley and George Fitzgerald of Peterborough are attending the O.R.A. rifle matches.

Council approves of the proposal of the Water Commissioners to lay a new 18-inch main.

The first annual picnic of the Caledonians is held at Jubilee Point with the steamer Esturion chartered for the occasion.

W. H. Lytle is awarded the contract for building new bridges on Park and McDonnel streets at $6,750.

1923 Ontario Fire Fighters' Association decide to hold their next annual convention in Peterborough.

Herbert J. Daly, native of Peterborough is president of the Home Bank which has closed its doors.

Harvest operations are going on and the wheat yield here has been much better than was expected.

Ruth Sharpe takes eleven first honors in the honor matriculation examinations of the Collegiate Institute.

With Whitehouse pitching the Lakeviews defeat Oshawa 14 to 4 in the O.B.A.A. junior playdowns.

1933 John Nugent, one of the first druggists to go into business here dies aged 8[illegible] years.

James Freeburn missing for a week in the Clear Lake district and feared drowned has returned to his home at Young's Point.

Al Spenceley captures eleven prizes in the show held by the Toronto Gladioli Society.

Little pigs were selling at $7 a pair on the local market this morning.

James Flaherty, a native of Peterborough, dies in Chicago, aged 60 years.

IN WAR TIME

1918 A number of Peterborough soldiers are reported wounded. Among them are T. S. Brown, Royal Flying Corps, Pte. Harry Jones, Pte. Alex Black, Sergt. R. W. Austin and Sapper W. H. Carter.

J. W. Williamson of Toronto is elected president of the Kawartha Park Cottagers' Association.

Word is received that Capt. T. W. B. Marling of Lakefield has been admitted to No. 2 British Red Cross Hospital at Rouen after being wounded.

Automobile driven by William Coulthard is badly damaged when it runs into a ditch on the Chemong Road.

According to government figures it costs a little over six cents to produce a pound of bread in Peterborough.

Unconsidered Trifles

"Brown talks in riddles. What's this 'fifty per cent preferred' he's always talking about?"

"Oh, that's what he calls his better half, Mrs. Brown, since he started dabbling in investments."

◇ ◇ ◇

Professor—What have I in my hand?

Student—A tin can.

Professor—Exactly. Now can you tell me how, with this tin can, it is possible to generate a surprising amount of speed almost beyond control?

Student—Tie it to a dog's tail.

◇ ◇ ◇

"I say, my dear," said an ex-soldier the morning after the regimental reunion, "I seem to have got an enormous blister on my tongue."

"What do you expect?" replied his wife. "You would insist on drinking my health out of your hot-water bottle last night."

◇ ◇ ◇

The A.R.P. worker was trying on tin hats, but couldn't get one to fit him.

"What is your size?" he was asked.

"Eight and a quarter."

"It's not a tin hat you want," said his chief, "but an air-raid shelter."

◇ ◇ ◇

As they papered and painted busily the two house decorators were discussing the usual topic "that man" and his tricks.

"He's a terrible chap," said the paperhanger, "with his cruetly to the poor Jews and now the Russians."

"Yes," replied the painter, "it's pretty bad, but something worse is bothering me."

"What's that?"

"Just think what a disgrace he is to our profession."

In Effigy

In Brazil, and not least among its citizens of Italian descent, the fall of Mussolini causes general rejoicing. Students in the universities, reviving an old custom, form funeral processions and bury him in effigy. Hanging or burning in effigy is more familiar. Popular indignation has often expressed itself in that way. The law books say that planting a gallows at a man's door is a form of libel. A judicial sentence on an escaped criminal used to be carried out by effigy, a sort of extension of condemnation in absence. The practice has lasted in some countries into our own time.

Execution in effigy consists in showing a picture or other representation of the runaway on a scaffold whereon his name and sentence are written. In France since the adoption of the Code Civil his name, residence, qualities and so on were written on a post set upright instead of exhibiting his portrait on a scaffold. Before law was immemorial usage, Guy Fawkes on the fifth of November was the far-off successor of Judas, whose wooden effigy used to be and perhaps still is burned in Easter fires.

Sir James Fraser tells us of the burial at Frosinone, half way between Rome and Naples, on the last day of the Carnival of a figure of Carnival himself. He is a stucco man nine feet high, rubicund, in enormous boots and a tin helmet. He is enthroned on a huge chair in an immense car drawn by four horses. With his right arm, pulled by a string, he salutes the crowd, which dances madly round the car. After much fun and wine he is taken to the public square, divested of his duds, laid on a pile of wood and burned to the ineffable delight of the crowd, which once again strikes up the Hymn of the Carnival. After the war this pageant, with the substitution of Mussolini, might well be revived.—New York Times.

No Shots Fired As Troops Take Solomon Island

By LEIF ERICKSON
Associated Press War Correspondent

With U. S. Amphibious Invasion Forces on Vella Lavella, Aug. 15.—(Delayed)—(AP).—Without firing a shot, United States jungle troops landed to-day on Vella Lavella Island, establishing a major beach-head 70 miles from Kahilia, the enemy's key Solomons air base on the southern tip of Bougainville.

Zero-escorted dive-bombers of the enemy came down from Kahili to attack the invasion convoy only after the first of the amphibious sections had unloaded troops, their ammunition and rations on a beach and was under full speed home. None of the ships was hit by bombs in this first early morning raid, nor in two later attacks. But the last ships unloading were strafed in the enemy's final air thrust of the day.

Thirty-four Japanese planes were shot down during the day in air fights in which two American fighters were lost.

Where our troops lanled are a few thatched huts on the south-east coast of Vella Lavella, 16 miles across the Vella Gulf from Kilombangara.

The second successful American thrust in 45 days cut into the rear of the enemy's Vila garrison on Kolombangara and is about 50 miles northwest of the captured Munda airfield in New Georgia.

The landing indicates the United States command plans to by-pass the Vila airfield base and starve out the enemy garrison there by siege and blockade rather than make a direct attack through difficult jungle.

I went ashore with the first wave of landing boats. Landing boats raced back and forth between the ships and the narrow reef-bounded beach without mishap. The first wave of troops unloaded included specially-trained Barrcudas.

(No further explanation of "Barracuda" forces has been passed by censor.)

NURSES IN INDUSTRY

There are almost 12,000 industrial nurses in the United States.

Sea-Going Hog

To anyone else "Soule," shown here being enticed up ladder by Third Steward Peter Rose, might look like just a black, yellow paint splashed wild boar—but to the men of her ship, a former trans-Pacific liner, now in war service—she has a personality all her own. "Soule" was picked up by a party on searchlight detail on a south Pacific island last April, and since that time has served as ship's mascot. "Soule" has run of the ship when not at dock, and never gets seasick, according to Rose.

Canadians Cheer Gen. Montgomery At The Front

General Montgomery gets a cheering welcome from Canadian officers in Sicily when the leader of the famous Eighth Army pays a visit to the Canadian forces.

Miles Of Desert Only Sight For R.C.A.F. In Africa

By LOUIS V. HUNTER
Canadian Press War Correspondent

AT A TUNISIAN BOMBER BASE, Aug. 18 —(CP).— A dusty isolated spot in the sweltering wasteland of inland Africa is home for Canadian bomber crews who are battering Italian targets almost nightly, hastening the end of the Sicilian campaign and paving the way for the land forces that shall surely move on into Italy if the country persist in opposing the Allies.

These young Canadians work under most incredible conditions, discouraging hardships that would test the moral fibre of a much less sturdy lot. They sleep, eat and live under canvas, with dust and tropical flies of all descriptions their constant, unwelcome companions...

Dropped In Desert.

Their airfield is just a spot in an expanse of land seemingly more vast than the Canadian prairies, but devoid of almost any vegetation save clumps of stubby camel shrub—a meagre, scanty dressing on top of the ground—and a few blades of grass burned brown by the sun. There isn't a tree to be seen.

The entrance to the airfield is market by two petrol drums each painted with the letter "L.G."—landing ground. The ends of the runways are marked by white L's. It's the only way the pilots have of telling where the runways begin and where they end.

Stay Any Place

Tents are scattered with apparent abondon over the sprawling drome. Big marquee tents house messes, administration and operational offices. Furnishings in all of them are makeshift. The airmen and ground crews sleep in smaller, inverted V-shaped tents. Some have still smaller bivouac tents, big enough for only one person.

During a rain and windstorm a couple of days before I reached the camp for an overnight visit many tents were blown away, including the officers' mess tent, and only sections of it had been recovered. The ground was as hard as a rock, laced with cracks, and a soft, warm breeze spread a blanket of dust over everything.

Dragged In

My welcome to the camp was a flying tackle by the irrepressible Sqdn. Ldr. Danny McCann of Ottawa, Adjutant of the squadron commanded by Wing Cmdr. Dan McIntosh, D.F.C., of Regina.

Looking around the tent, the scene was strictly a Hollywood one—fantastic.

Packing cases had been converted into tables. The chairs were made of the thick, round, heavy paper-board cases for bomb fins, and were complete with backs.

Little Treat

Food was just what one would expect in the field — bully beef with a covering of pastry, but onions and tomatoes were luxuries after Britain and the lemons were something the boys had not seen much of in England before they came out here.

I arrived at the air field just before take-off time and some of the big Wellingtons were already airborne when McCann's truck bounced us along to the end of the runway to watch the heavily-laden bombers set out for an attack against Monte Corivino airport near Naples.

After the take-off, McCann escorted me to a tent that still wasn't completely operational after the storm, for a couple of hours' rest until the bombers returned. Flt. Lt. John Bue of London, Eng., the interrogation officer awakened me in time for the arrival of the first crews. He was assisting Sqdn. Ldr. Paul Henault of Montreal.

One by one crews came into Bue's tent to report. The raid had been a success. Bombs found the runways of Monte Corvino and fires were left burning in the hangars. Opposition was light and no aircraft were missing.

Eat By Flashlight

The crews sat on folding benches across the table from Bue. While they answered questions they swatted at flies buzzing all around them. One big fly made a perfect three-point landing right on Bue's report sheet. "Thats a super one," laughed FO. Floyd McPhee of (457 Pitt street), Cornwall, Ont.

FO. Bob McKeekin of Kenora, Ont., was skipper of one crew. With him were FO. M. C. Jones and FO. Mile Charlesworth of Toronto, the navigator, Sgt. Gnr. Stuart Meeks of Kingston, Ont., and PO. Edgar Black of Barrie, Ont., wireless operator.

After interrogation the fliers adjourned to the men's mess quarters sheltered under tarpaulins over steel frames, where they queued for eggs, bacon and tea which they devoured by the light of a solitary flashlight at the end of the table.

Then to bed, under a mosquito tent, for some rest before another busy day.

Planes Attack Shipping Heavily

SOMEWHERE IN SICILY, Aug. 17.—(CP).—Close behind land forces which broke into Sicily came Allied Air Forces that in many cases established squadrons on airfields pried loose from A. s control only a few hours previously.

From their new bases hundreds of Spitfires flown by Canadians, Britons and other Empire nationalities took off to rip shipping off the north and east coasts of the island with ever increasing pressure.

Transports, barges, ferry boats and fighting ships came under the guns of such men as Flt. Lt. Don Rogers of Amherstburg, Ont.

Another task that befell the island's fighters was protection of bombers attacking roads, rail junctions, supply dumps and other military targets.

What little opposition they met came from Flam. Enemy fighters were few.

The bombers joined in the assault on shipping particularly when enemy vessels had the protection of flak and heavy machine guns.

As explained by Sgt. Milt Zimmerman, Preston, Ont., the reason was "some of the ferry boats in the Messina Straits have heavy machine guns aboard as well as anti-aircraft guns that fire straight up or can be depressed to fire horizontally."

The World Is Small

CHARLOTTE, N. C., Aug. 18.—(AP).—That postal service running between the United States and North Africa is clicking right well these days. Exhibit A: The key to room 556 in a local hotel. Dropped into a North African field post office on August 9, it was delivered to the hotel a week later. A tag accompanying it bore the name of seven U.S. soldiers, none of whom had ever been in Charlotte, who said they had found the key somewhere in North Africa.

Hastings News

Mr. and Mrs. Roy Kelly and son Teddy of Toronto were week-end guests with Mr. and Mrs. Lou Kelly. Misses Helen and Barbara Prior, of Toronto, were guests for the week-end with Helen and Doris Moore.

Mrs. John Scott has returned to her home in Asphodel after spending a few days last week with Mr. and Mrs. Fred Stewart.

Mr. and Mrs. Ted Trimber and daughter Correen, of Toronto, spent the week-end with the latter's aprents, Mr. and Mrs. J. C. Wilson.

Mrs. George Rigby, Havelock, and Mr. and Mrs. Gordon Johnston spent Saturday in Kingston.

Mr. and Mrs. Lloyd Scriver and daughter Beverly spent the week-end with the former's parents, Mr. and Mrs. S. Scriver.

Little Donald Wilson of Toronto, is spending two weeks' vacation with his grandaparents, Mr. and Mrs. Harold Wilson.

Mr. and Mrs. O. Cruikshanks and Joan, of Peterborough, were week-end guests with the former's arents, Mr. and Mrs. J. Cruikshanks.

Mr. and Mrs. Garnet Curle and Willie of Campbellford, were Sunday guests with Mr. and Mrs. B. Johnston.

Mr. and Mrs. Ted Haskin and family have returned to their home in Toronto after spending last week with Mr. and Mrs. Fred Morrow.

Mr. and Mrs. Clifford Oliver, of Toronto, spent the week-end with the former's mother, Mrs. John Oliver. Mrs. C. Oliver is remaining for the week.

Mr. and Mrs. Henry Hawman and daughter Mary Gale, have returned to their home at Woodbridge after spending a few days last week with the latter's parents, Mr. and Mrs. A. E. Metcalfe.

Sunday guests with Mrs. J. E. Oliver were: Mrs. Mabel Merrill, Mr. and Mrs. Wallace Merrill and family, Mr. and Mrs. Aex Merrill and Mr. and Mrs. Edgar Ferguson, from Warkworth.

Sicilian Units Hold Church Services

By WILLIAM STEWART
Canadian Press War Correspondent

WITH CANADIAN FORCES IN SICILY, Aug. 16 — (Delayed) — (CP Cable). — Canadian fighting men offered prayers of thanksgiving for the victory in Sicily and remembered comrades who fell in battle.

Sunday services were held yesterday by every battalion of the Canadian 1st Division which fought steadily for more than a month.

They were the first such services attended by Canadian troops in a battle zone in this war.

Some Roman Catholic services were held in stone churches of towns near the Canadian camps.

A Sicilian choir accompanied the celebration of Mass in one church.

Protestant services, which were uniform in every camp, were specially prepared by Major Gordon Jones of Toronto, senior Protestant chaplain of the Division.

The services included prayers of thanksgiving for victory and remembrance for the soldiers killed, prayers for the Empire and its leaders, prayers for the troops and their people at home.

Officers and men sang O Canada and God Save the King.

At Divisional headquarters the service was conducted by Major Jones and Major McKinney, and Mass was celebrated for Roman Catholic personnel by Maj. George Cherrier of Toronto, senior Catholic chaplain.

Mass was also celebrated at battalion camps before portable altars by padres wearing chasubles over their uniforms.

YOUNG'S POINT

Red Cross Society Has Successful Bingo

YOUNG'S POINT, Aug. 18 — (ENS). —A record crowd of tourists and residents of Young's Point and district attended the Young's Point Red Cross Society Bingo party held in St. Aidan's Parish Hall recently.

Mr. Elwood Northey of Lakefield drew the lucky ticket on the hand woven wool afghan, donated by Mrs. Singleton of Kingston. Mr. Andreson Davis being the holder of the ticket.

Mr. Arthur Morris on behalf of the committee thanked everyone.

Personals

Mr. and Mrs. Spence Jacques of Waterloo, also Mr. and Mrs. A. Edwards of Detroit are spending a few days with Rev. and Mrs. E. C. Moore at their cottage in the village.

Mr. and Mrs. John Carr of Sudbury visited with Mr. and Mrs. Harry Freeburn recently.

Miss Helen Brooks of Peterborough is spending her vacation with her parents, Mr. and Mrs. W. E. Brooks.

Cpl. and Mrs. James Lindsay of Toronto are spending a few days with Mrs. N. D. Knox.

Mr. and Mrs. H. Nixon of Toronto have returned to their home after spending a few days with Mrs. William Bland.

Mrs. T. J. Donnelly of Buffalo is holidaying with Mr. and Mrs. E. J. Johnston.

Mr. and Mrs. D. Burke, Toronto also Mr. and Mrs. Adams, Akron, Ohio are guests at the home of Mr. and Mrs. W. E. Brooks.

Synthetic Rubber Increases Greatly In Production

OTTAWA, Aug. 18 — (CP). — The race between crude rubber supplies holding out and synthetic rubber coming into full production continues and every measure of rubber conservation must be maintained to the utmost, a rubber control official said today.

"While it is expected that synthetic rubber production soon will be underway at the Polymer Corp. plant at Sarnia, Ont., the race cannot be won unless the existing restrictions are kept in force and further conservation, if possible, is secured," said the official.

He said the synthetic rubber production was already earmarked for war purposes and other essential needs. No relief for the ordinary civilian user in respect to rubber supplies is in sight.

The use of rubber is being reduced steadily as rubber control technical experts devise new formulae substitutions. Such substitutions have resulted in the dwindling pile of crude rubber being preserved to a far greater extent than would have been possible when the control was instituted.

The transfer from the crude to synthetic rubber in the supply of war and other essential requirements is expected to be made without affecting the war effort, due to the quality of the synthetic product. The estimated production of the synthetic rubber plant is 41,000 tons a year.

(George W. Swain, Kitchener, Ont., rubber executive said in Winnipeg on Monday that Canada is facing the worst rubber crisis of the war, with stock piles of finished goods down to "a serious level" and with war requirements undiminished.)

MASON'S

5 MARY MOORE TESTED —

Molasses Recipes

AS APPEARED IN THE EXAMINER THURSDAY, AUGUST 12.

Molasses Pie

One cup molasses, 1 tablespoon flour, 1 lemon, plain pastry. Blend molasses and flour. Cut and chop lemon, and add juice, pulp and rind to molasses. Line a small pie pan with pastry and turn in the mixture. Make a thin top crust or criss-cross top with strips of pastry. Bake in a hot oven of 425 degrees Fahr. for 10 minutes, then reduce heat and continue baking at 325 degrees Fahr., for 20 minutes.

Molasses Bran Bread

One teaspoon soda, ½ cup molasses, 1½ cups sour milk, 1½ cups whole wheat flour, 1½ cups bran, ½ cup seeded raisins. Dissolve soda in molasses. Add milk, flour, bran and raisins. Bake 45 minutes in a moderate oven of 350 degrees Fahr. in a loaf pan. This may be baked in smaller moulds such as baking powder cans if desired.

Molasses Crisps

One-quarter cups shortening, ½ cup sugar, ¾ cup molasses, 1 cup flour, ¾ teaspoon salt. Melt shortening. Add sugar and molasses, and bring to boiling point. Cool slightly. Add flour and salt. Drop by teaspoons on greased baking sheet and bake in moderate oven of 350 degrees Fahr. 12 to 15 minutes. Turn around finger or handle of wooden spoon to form roll WHILE STILL WARM. If they cool too much to roll put back in oven for a moment.

Molasses Doughnuts

One-half cup sugar, 1 cup molasses, 1½ tablespoons shortening, 1 well-beaten egg, 1-3 cup milk, 3 cups flour, 2 teaspoons baking powder, ⅛ teaspoon cinnamon, ⅛ teaspoon cloves, 1-16 teaspoon mace, ½ teaspoon salt, 1 teaspoon ginger. Cream the sugar and the shortening together. Add egg, milk and molasses. Mix and sift remaining ingredients. Add them to liquid mixture and mix well. Turn out on lightly floured board and roll to ½-inch thickness. Cut out with doughnut cutter. Fry in deep hot fat at 375 degrees Fahr. until dark brown. Drain on unglazed paper. Sprinkle with confectioners' sugar. These amounts make about 30 doughnuts.

Molasses Mint Taffy

Two cups molasses, 2 teaspoons vinegar, 1 ½ tablespoons butter or other shortening, ⅛ teaspoon salt, ⅛ teaspoon soda, 7 drops pepper mint oil (peppermint oil may be omitted when taffy would be merely "Molasses Taffy"). Cook molasses and vinegar in a saucepan slowly, stirring constantly, until temperature is 270 degrees Fahr., or until syrup becomes brittle when tested in cold water. Remove from fire and add butter or fat, salt and soda. Stir until mixture ceases to foam. Pour into greased pan. When cool enough to pull, pour the peppermint in the centre of the candy and draw the corners toward the centre. Remove from pan and pull until light in color and firm. Roll into a thin rope. Cut in pieces and wrap in waxed paper.

BATTERY PROLONGS SEMI-FINALS WITH 9 TO 6 WIN OVER SOLDIERS

Gunners Collect Thirteen Hits

4th Battery uncorked enough of their early season power last night to beat the Military Training Centre team 9 runs to 6 and thus prolong the City League semi-final series between the two clubs. The rivals will clash again on Thursday night.

Last night's game was a benefit for Shrimp McDougall, Peterborough hockey player, and in spite of the disagreeable weather conditions a big crowd attended and $114 was raised in the collection taken at the gate, the sum including a $10 donation from the 4th Battery.

Tom Parsons, who held the Gunners to two hits last Thursday night, was the victim of their attack when he was sent back at them last night. They bunched five hits, including a triple and three doubles, all hard-hit, in the second inning to drive in four runs and as it turned out that was the ball game right there. Altogether they collected 13 hits off the Soldier pitcher and the errors that bobbed up did not help him any.

Dave Wilson went the distance for the winners, allowing nine hits, and he earned his win. His chief trouble came from Howie Dalton who had four hits, including a homer in five trips to the plate. Anderson with two singles was the only other Soldier to get more than one hit.

Joe Stewart started the Battery barrage on Parsons in the second. He rapped a long triple to left centre to open the inning. Jim Ellis sliced a double to centre to send the first run in. Ned Vitarelli uncorked a hot one that bounced off Dalton's leg over second base for a double to score Ellis. Bob Crowe doubled to centre, Vitarelli registering. Wilson flied to Mortimer and Heal popped to Morgan but Burton singled through short and Crowe went home with the fourth run of the frame. Foster fanned for the third out.

The Military Training Centre team got two back in the first of the third. Dalton got a soft double when his fly to short right dropped between three of the Battery players. Morgan flied to Stewart. McKerrigan singled to centre, Dalton holding up on third, McIlveen rolled out to Ellis, Dalton scoring. Anderson's single to left scored McKerrigan, Mason popped out to end the frame.

Battery evened that up in their half. Starr beat out a bounder to Anderson and went to second on the second-sacker's wide throw. Stewart bunted and when Parsons threw over Morgan's head Starr scored and the batter ran to second. Ellis rolled to McKerrigan. Vitarelli singled to centre, scoring Stewart, Crowe sacrificed but Wilson lifted to Morgan.

The Gunners made it 7 to 2 with a single run in the fourth. With one out Burton got a life when Morgan missed Dalton's throw. Foster fouled out but Starr drove a long fly that went for a triple when Mason failed to hold it after a long dash. Borton scored on the drive. Stewart rolled to Dalton.

Two runs for the Camp in the fifth closed the gap. McKerrigan drew a pass to start with and McIlveen singled to centre, Anderson struck out but Mason rifled a single into right to score McKerrigan, Herrick flied to Crowe in right and McIlveen scored after the catch but Mason was doubled out, Crowe to Starr to Burton when he tried to go to third.

Gunners came back with two in the sixth. With one away Foster doubled to centre. Starr singled to left centre, Foster holding up at third. When Stewart drove a long fly to Mason in left Foster scored easily and Starr ran to third. He scored a moment later when Ellis beat out a bounder to Anderson for a hit. Vitarelli was tossed out by Dalton.

Wilson blanked the Soldiers in the sixth and seventh and had two out in the eighth before they scored again. Herrick fouled to Starr to start that frame. Mortimer was passed. Wilson tossed out Parsons for the second out. Dalton then

(Continued on Page 12)

Hits 31 Doubles

CHICAGO (AP) Stan Musial of St. Louis Cardinals is way out in front in the batting race in the National League, the latest figures giving him an average of .353, with a total of 154 hits, including 31 doubles and 15 triples. The outfielder is 28 points ahead of Billy Herman, Brooklyn.

Flynn's Bride

Does Errol Flynn have a new bride? Hollywood rumor says the young lady is the former Nora Eddington, 19, attractive reddish-haired daughter of Jack Eddington, former secretary to Sheriff Eugene W. Biscailuz, of Los Angeles. The marriage, it was reported, occurred in Acapulco, Mexico.

SPORTS – DAY BY DAY

By FRED D. CRAIG

When Westclox and Aircraft tangle tonight in the fourth game of their series one of the biggest crowds of the year will see the action. The two rivals have staged a series of exciting battles this season; in fact every time they have met there has been a close contest with the result in doubt most of the way. Westclox lead the final series with two wins but the Aircrafters flashed right back into the running Monday night when they nosed out the Big Bens 5 to 4 and if they can turn the trick again tonight the final round will be all tied up. It is a best four-of-seven affair, with the winner taking the senior title and earning the right to represent Peterborough in the Ontario playdowns. Westclox still have the edge on the series but the win scored by Aircraft Monday will put all kinds of fight into the girls from the C.G.E. and they will be tough opposition. The leaders are likely to be without the services of their first falling over a bicycle after making a fine catch of a foul fly. Otherwise base performer, Eunice Armstrong, who hurt her knee the other night in the two clubs will be at full strength. Norma Strickland is expected to pitch for Aircraft and either Marg Watson or Isobel Bullock will do the hurling for the Big Bens. The game is billed to start sharp at 6.45 o'clock.

* * * * * *

The City League semi-final series between the Military Training Centre and the 4th Battery is still very much alive. The Gunners fought themselves back into the running last night by defeating the Soldiers 9 to 6, forcing another game. It will be played at Riverside Park Thursday night and should be a wow. The Camp outfit still has the edge on the series with two wins as against one by the Battery but the latter can snarl the round all up by winning tomorrow night and they can be counted on to give everything they have to turn the trick. In that connection they are taking a lot of satisfaction out of the fact that after being held to two hits by Tom Parsons in the second game of the series they were able to nick him for 13 blows on this occasion. The barrage with which they greeted the Soldier pitcher in the second inning when they cut loose with a triple and three doubles in a row won the ball game for them and was reminiscent of their earlier season efforts. Tomorrow night they will probably have to face either Johnny Walker who held them to a 6-6 tie in the opening game of the series or Jack Wilson who only allowed them three hits in the third game of the round. Dave Wilson, iron man of the Battery staff will undoubtedly be on the firing line for the Gunners in this vital fixture, which looms up as one of the most exciting of the season.

Kingston Softball

Belleville and Kingston softballers have been given another week to get their playoffs over says Bill Walshe of the Whig-Standard who refers to the situation as follows: "Kingston and Belleville have been granted an extra week to declare winners for the Ontario softball playdowns, which means both leagues still have time to settle city championships and declare representatives for provincial play. The revised playoff dates are Kingston at Belleville, August 24, Belleville at Kingston, August 26, and third game if necessary on neutral grounds, probably Napanee, August 30. At the rate the Kingston finals started it may take well into next week to settle the three out of five series. Ordnance had to stage a ninth inning rush to get winning runs after trailing most of the game. It was the second straight win for the Barriefield boys over Vics, city champions, and both were registered in the closing innings. The first Ordnance win was scored in a sudden-death playoff for top place. Vics seem to thrive on trouble. In the first of the semi-finals K. of C. scored a win with Stan Scrutton pitching but the game was thrown out when Scrutton was ruled ineligible, as an unsigned player. Vics were extended to win the second game from the Knights but with the pressure on Vics took the deciding game by a good margin. Ordnance now has an edge in the city finals but it could easily be erased when the teams meet tonight at the Cricket Field."

Peterborough horses are well represented in the harness horse meet at Stratford today when the Canadian standard bred colt championship will be decided and three other good races will be run off. This is the first of four such meets to be held in Stratford and a story from the Classic City says that the racing promises to be the keenest seen anywhere in Canada this year. Mert Storey of Peterborough has entered Irma Harvester in the pacing section of the Canadian standard bred championship event for which $750 prize money is offered. H. Stewart of Peterborough is sending Josedale Leader and Josedale Director to the starting line in the $400 free-for-all event and he has Stewart Grattan entered in the 2.26 pace. Storey also has an entry in that event in Beth Harvester. Many of the horses competing at Stratford hail from Western Canada and the competition is expected to be keen.

* * * * * *

Leaders Both Win

Both leaders in the big show won yesterday, the St. Louis Cards bumping off the Brooklyn Dodgers 7 to 3 with Whitey Kurowski bumping his eighth homer of the season and the Yanks behind five-hit pitching by Charlie Wensloff triumphing over the Chicago White Sox 4 to 2. Tex Hughson's chances of making the 20-win class this season are fading fast. Early in the campaign it looked as if the Boston Red Sox ace would turn the trick easily but he is having a lot of trouble getting wins these days and in spite of his fine start he has lost nearly as many as he has won. Yesterday he went down to his ninth defeat of the season, losing to Johnny Niggeling and the St. Louis Browns 4 to 1. Hughson has won eleven games. Dick Conger, former Toronto Leaf pitcher dropped his sixth game to the Chicago Cubs. Another twirler who looks like a morning glory is Julian Flores of the Philadelphia Athletics who electrified the baseball world early in the season by a flock of consecutive victories. He was hammered yesterday by the Detroit Tigers losing 4 to 3 and that was his 11th loss of the year as against nine wins. He looked a certain 20-game winner a few weeks ago but has been losing consistently recently.

Any Peterborough City League softball teams or other clubs wishing to play exhibition games can be accommodated by the Omemee Bombers. Percy Parsons who was in town last night for the Soldiers-Battery game told this column that Stevenson, Brooks, Fegus and most of the other members of the old Omemee club are still available and that the Bombers are anxious to arrange a number of games. "We have a new diamond that is in good shape," Parsons said. The Bombers are ready to play any night in the week and local clubs who are interested are asked to get in touch with Jack Williamson, phone 70W, Omemee.

Sporting Chili Con Carne: Sandulak, Soldier second baseman was back last night but was not used against the Battery, Ossie Anderson performing at the keystone station....Seven of the Gunners' 13 hits were for extra bases....They had two triples and five doubles in the string....Dalton had a big night at bat....He lined out to Crowe the first time up, then got a soft double when the Gunners got their signals crossed on a short fly to right, beat out a bunt the next time up, singled to right on his fourth appearance and wound up with a homer in the eighth....Sub-Lieut. Nels Foster, RCN.V.R., who has been playing with the Battery during his furlough will not be available for future games. He leaves to rejoin his ship Thursday morning....Incidentally Foster still claims he caught that low liner from Anderson's bat in the second inning....The umpires ruled that the ball had been trapped and the drive went for a single....Detroit Tigers' win over the A's yesterday put the Bengals on even terms with the Cleveland Indians for third place....Oshawa is holding a benefit night for George Munroe, coach of the Oshawa team which won the Mann Cup years ago and one of the original directors of

(Continued on Page 12)

Helps Her Form

Her golf form may need some help, but Film Starlet Lynne Baggett's physical form certainly doesn't require any alterations. Lynne says this costume helps her score on the links, but she didn't say how it affects the play of fellow golfers.

Watercraft Win Over Drafting

Watercraft Sailors' continued their march for top position in the City Industrial League, when they defeated the C.G.E. Drafting at the Brinton Field to a score of 10 to 2.

The game was a real snappy ball game. Both squads playing airtight ball. The Blueprint Boys started the scoring in their part of the first innings, crossing the plate twice. The Sailors came back in the third and garnered three runs. From then on it was deadlocked, both squads taking perfect fielding chances and the infielders playing like veterans while the mound artists worked perfect control on the batters until the seventh when Walker, starry third sacker of the Sailors, knocked out a safe bingle starting the Boatmakers into a seven-run splash. C.G.E. couldn't overcome the lead, and with darkness and rain threatening the game was called. Killingbeck, slab artist for the Sailors, played errorless ball and allowed a few scattered hits, while Kemp, on the mound for the Drafting Room, pitched great ball until the seventh when he was nicked for hits that counted.

Teams:

C.G.E.: Kemp, p; Dawes, ss; Shadgett, ss; Edgar, 3b; Shaughnessy, lf; H. Dunford, rf; M. Dunford, 2b; Mathison, 1b; Tanner, c.

Watercrafts: Paul, lf; H. Boyd, 2b; Walker, 3b; Johnson, c; Killingbeck, p; Hewie, 1b; Thompson, ss; Batten, rf; K. Boyd, cf; Miller, rf.

Umpires: G. Mongraw, plate; E. Chambers, bases.

By innings:

Watercraft	003 000 7—10
C.G.E.	200 000 0— 2

Here and There in Sport

By The Canadian Press

The present turf season in the United States has been marked by an unusually large number of casualties among name steeds, according to a compilation of accidents, breakdowns, and retirements at New York, the result being that third-string horses are figuring in the big money.

Tops among the eight classy veterans to pass from the scene was Whirlaway, which has gone to the farm to put in his reclining days. A champion of the early season was Count Fleet, and it is considered improbable he will start in any big handicap within two months after having been retired through injury early in June. Other "names" to disappear include Ocean Wave, Devil's Thumb, Riverland, which had to be destroyed a few weeks ago, Don Bingo, Attention, Market Wise, Rounders, Pictor and Vagrancy—to mention a few. An effort has been made to bring Alsab back to form, but his two recent starts have been very disappointing, such as his fourth in the Narragansett Handicap last Saturday.

Bargain colts, bought for a few hundred dollars, have come to the fore literally. An instance is Georgie Drum which copped the $10,000 Stake at Chicago August 14. Last year he was running as a $700 plater at Longacres. Turf trainers and owners have been at a loss to explain a near-epidemic of track failures this year.

Greco AWOL.

Pte. Johnny Greco, lightweight fighter, has been absent without leave for 23 days and is to be fined 54 days' pay and confined to barracks for the usual period of punishment. This was revealed last night by an army officer of Military District No. 4, Montreal. Recently Greco was at a training camp in New Jersey preparing for a New York fight which did not develop.

Police Chief J. P. Downey of Ottawa has put his official down on any move by members of his department to play with the Ottawa Combines in the Senior O.R.F.U. this fall because of a shortage of constables. As a result, Tommy Daley, Leo Seguin, Fred Syms, and Bert Haigh are out.

In an interview at Washington, Gunder Haegg, Swedish runner, declared he had set world's records for one to five miles last year but he was glad his best friend, Arne Andersson, 27-year-old Swedish school teacher was breaking them this season. The second to fall to Andersson was the 1,500-metre run which Arne covered in 3:45 yesterday at Gothenburg, Sweden.

One hundred owners are expected to place entries for the 14-day fall meeting at Stamford Park, Niagara Falls, which opens Saturday. Already tents have been erected to accommodate some of the horses.

Irish Is Back

Irish Miskimmons, who has seen 30 years of baseball, has recovered from his recent hand injury to the extent that he expects to play with his Stratford Nationals in the Inter-County semi-final game this evening against Galt Terriers at Stratford. He may play the outfield, however, instead of behind the plate.

One of Toronto's largest track meets will be held at Varsity Stadium Saturday when more than 500 athletes will compete in the R.C.A.F. championships, the representation including men from many parts of the Empire, Norway, Poland, United States and every province of Canada.

Athlete Serves

A member of the University of Western Ontario Mustangs when they copped the last college grid title in 1939, Sqdn. Ldr. A. E. (Cox) Kress of the R.C.A.F. has been posted as chief instructor of the Officers' Training School at Domaine d'Estrelle, Que. In recent months he has been instructing at the ground school, Aylmer, Ont.

Three grand circuit victories were scored yesterday at Empire City track by Clint Hodgins, 32-year-old Canadian driver. He guided Bonnie Volo to the purse in the Comet Stakes and added a pair of 2:10 wins with Jason, an aged gelding, to take the mile classified trot. Hodgins also had two seconds and a fourth in various heats.

Jackie Callura of Hamilton, Ont., who lost his N.B.A. featherweight title to Phil Terranova at New Orleans Monday night has obtained a return title bout Oct. 11 in the same city, it was announced last night by the Louisiana Boxing Commission.

Yesterday's Stars

By The Associated Press

Charley Wensloff Yankees: Held White Sox to five hits for his 10th triumph.

Al Brazle, Cardinals: Held Dodgers to eight hits and himself batted in three runs with triple and single.

Woody Williams, Reds: Hit pinch triple with bases loaded to decide game against Giants.

Hank Gornicki and Pete Soscaret, Pirates: Gornicki shutout the Braves in first game and also returned in relief to get credit for winning nightcap, which Coscaret decided with single in 11th inning.

Dick Wakefield, Tigers: Hit a seventh-inning home run for winning margin over Athletics.

Seeks Divorce

Divorce suit against Martin de Alzaga Unzue, millionaire Argentine known as "Macoco," has been filed in Hollywood by Kay Williams, blonde screen beauty. In addition she has asked for order to restrain Unzue from "molesting or annoying" her, and "reasonable alimony."

Negroes Battle

WASHINGTON (AP) — Al Hart, 224, of the Army War College, won the decision in a slow 10-round slugfest last night from the favorite, Alfred (Big Boy) Brown, 244, of Detroit. The colored boys clinched often except when Hart sent his opponent reeling to the ropes.

Rubber Crisis Worse

WINNIPEG, Aug. 18 (CP) Canada now is facing the worst rubber crisis of the war, George W. Swain, rubber executive of Kitchener, Ont., said yesterday. "Stack piles of finished goods are down to a serious level," he added.

Brooklyn Gets Top Slugger

BROOKLYN, Aug. 18 — (AP). —Still building for the future, Branch Rickey announced to-day Brooklyn Dodgers had purchased the leading slugger of the Southern Association for delivery some time next month.

The newest acquisition is third baseman William Hart of New Orleans, a husky 28-years-old who has been leading his league in both home runs and runs batted in and whose batting average is about .320. At last accounts he had hit 16 homers and driven in 96 runs.

Since New Orleans now is in second place in the Southern Association, Rickey said the date for Hart reporting to the Dodgers will depend on how the Pelicans finish the season and whether he will be needed in the play-offs.

Rickey said he contemplates no additional "subtractions" from the Dodger squad, which has been undergoing a house-cleaning. The Brooklyn president also revealed that he had signed a working agreement with St. Paul of the American Association for next season and would continue its present arrangement with New Orleans in the Southern Association in addition to operating the Montreal club in the International League.

First Playdowns

FORT ERIE (CP)—The Ontario Amateur Baseball Association has ordered the first of the Intermediate "A" provincial playdowns to be played Wednesday night between Fort Erie and Crowland, at Crowland. The last-named finished last in the Niagara Senior League series.

Sports Menu

TONIGHT, AUGUST 18

Ladies' League:

Aircraft vs. Westclox, East City Bowl, 6:45 o'clock. Final senior playoffs.

Catholic League:

K. of C. vs. Cubs, Memorial Park, 6:45 o'clock. Semi-final playoff.

Industrial League:

Raybestos vs. Woollens, Bonner Field, 6:45 o'clock.

THURSDAY, AUGUST 19

Men's City League:

Battery vs. Soldiers, Riverside Park, 6:45 o'clock. Semi-final playoff.

Catholic League:

Cubs vs. K. of C. Memorial Park, 6:45 o'clock. Semi-final playoff.

Industrial League:

Brintons vs. Marines, Brinton Field, 6:45 o'clock.

BRAZLE SUBDUES DODGERS FOR THIRD WIN; CARDS TAKE IT 7 TO 3

Tricky Wind Baffles Golf Players

Over the week-end while play for the Glover-Dobbin Trophy took place, golfers from the Kawartha and Peterborough clubs took part in the usual sweepstakes. Following are the results:

Kawartha Sweepstake.

	Gr.	Han.	Net
Vic Gallen	78	8	70
Charlie Low	83	5	77

Took the prizes for the lowest gross score and the following players collected balls for the best net scores turned in:

D. Anderson	86	16	68
H. Mandel	89	18	71
. King	97	24	73
. Heckman	90	14	76
Hap Wilgar	94	18	76
B. Bailey	108	32	76
Jack Watt	90	13	77
G. Ahern	101	24	77
. Whiddon	83	6	77

Other scores posted by Kawartha players are as follows:

Ed. Riley	101	19	82
Gil Putnam	92	10	82
Lionel Brown	100	14	86
rlie Weir	96	16	80
G. Aker	93	13	80
ser Dunfield	87	4	83
. Jones	93	14	79
. Caverley	103	16	85
. Tollington	116	19	96
. Poste	92	12	80
. Whitman	104	14	90
V. Brown	91	9	82
. McGregor	95	12	83
. Griffith	99	18	81
. Huff	106	21	85
Ken Smylie	100	18	82
. Menzie	100	18	82
. G. McKenzie	98	20	78

Dave Price, B. Meredith, M. Burgess, and a number of other players who haven't yet come off the links, were noticed swinging briskly at what they claimed were snakes, but failing to add these strokes to their score no final accounting was made. A mean cross wind added to the golfers' troubles.

Peterborough Club Sweepstakes.

The low gross prizes were won by Bob Abbott and Jack Hardill, each of whom shot an 83.

Eight more contestants shared in the prizes for the lowest net scores posted as follows:

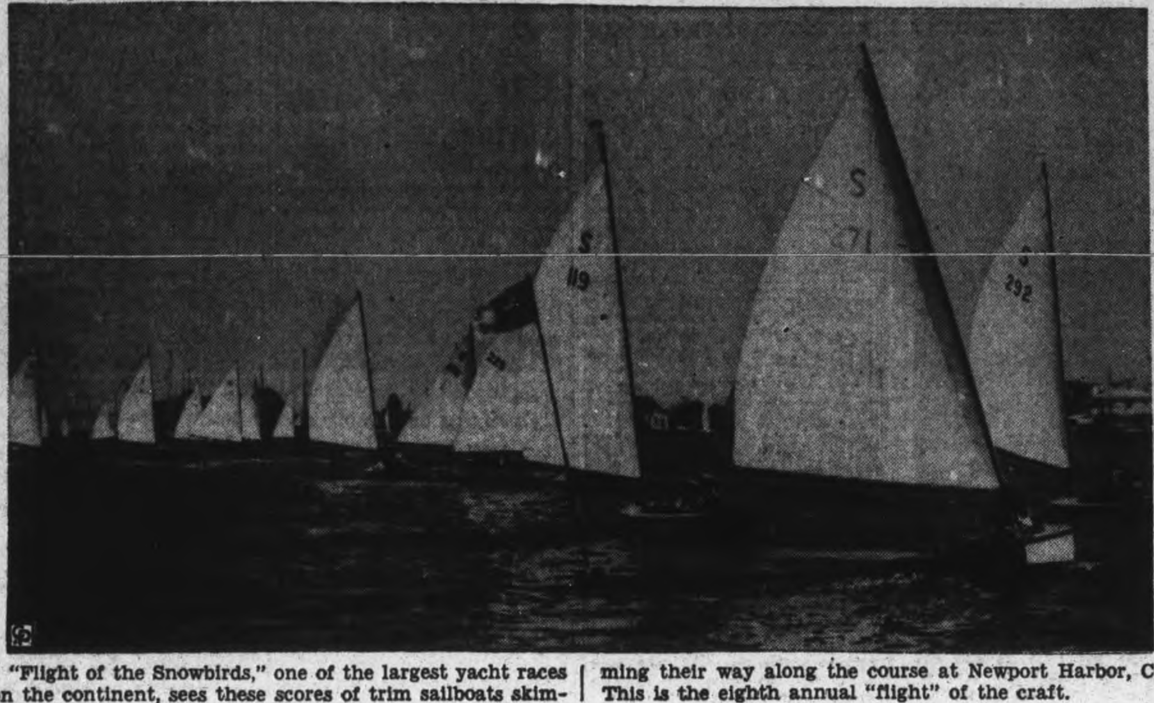
M. Hardill	89	16	73
H. Waddell	88	14	74
O. A. DeGraw	85	10	75
Jim Wharry	93	17	76
Russell Kitchen	87	10	77
Stan Northrop	104	26	78
Joe Watson	91	13	78
Joe Jebson	98	20	78

Other Peterborough players who more or less hacked their way about the course posted the following scores:

Herb Bradburn	88	9	79
Herb Cranford	95	16	79
Stan McBride	111	28	83
Andy Rutter	96	14	82
J. McKercher	102	28	82
Chas. Westbrook	106	22	84
Frank Jobbitt	97	17	80
Stan Payne	88	8	80
H. C. Soothern	94	14	80
D. Diplock	102	17	85
C. P. Brown	102	22	80
G. Maniece	105	22	83
Max Lauder	100	19	81
Jack Keyes	107	19	88

The Kawartha Club players who won prizes may secure these from Lex Robson, while Hugh Waddell will be in a position to distribute prizes to the Peterborough sweep winners later this week.

Beauty On The Sports Front—"Flight Of The Snowbirds"



"Flight of the Snowbirds," one of the largest yacht races on the continent, sees these scores of trim sailboats skimming their way along the course at Newport Harbor, Cal. This is the eighth annual "flight" of the craft.

Canadian Sport Snapshots

By CHARLES EDWARDS
Canadian Press Staff Writer

TORONTO, Aug. 18—(CP)—Call-up of married men between the ages of 27 and 30 and reduction of the minimum call-up age limit to 18 kicked professional hockey squarely in the posterior. Cyclone Taylor, Dick Irvin and a few of their contemporary greats may have to get their skates out of the moth-balls yet. The new call-ups will leave the National and American leagues with very little to hold up their uniforms.

Andy Lytle of the Toronto Star quotes Coach Hap Day as saying Toronto Maple Leafs will lose all but four of last year's players—Bob Davidson, Bucko McDonald, Sweeney Schriner and Lorne Car. Schriner has already said he's retiring (an announcement with less news value each year) and the manpower shortage itself was the only reason McDonald remained in the N.H.L. last season.

Day thinks other teams may be hit even harder. All of which prompts Lytle to sugest a revision of professional hockey's admission charges would be in order. Says Andy:

"It was hard last season in Toronto, though it was done, to sell an inferior brand of hockey at three dollars a copy when better stuff was being peddled each week by the O.H.A. because of the service teams it was able to employ. If to what they had, is added players like Sylvanus Apps, Turk Broda and Billy Taylor, the N.H.L. may still insist it is in a position to compete. On the other hand, it may be compelled to revise its tariffs or fold completely." Taylor, of course, is already in the Army.

The N.H.L. got by last year with a number of unripe or over-ripe players because sufficient high-class material remained to carry them. If the new call-up hits as deeply as Day anticipates, the major league can just about call the whole thing off for the duration.

Incidentally:

C. M. (Charlie) Smail, head of the Maple Leaf Athletic Association and former president of the Alberta Football Association, has been appointed Edmonton city treasurer. George (Edmonton Journal) Mackintosh says Smail's appointment is a "source of satisfaction" in sporting circles. And how!.. Fred Jackson, former sports editor of the Toronto Star, has joined the R.C.A.F. public relations office.

Remember When—

(By The Canadian Press)

Mrs. Dorothy Round Little of Bridgewater, N.S., and Don McDiarmid of Ottawa carried off five titles between them in the Canadian Tennis championships at Halifax three years ago today. Mrs. Little, former Wimbledon champion who once dominated the women's tennis world, was tops in the singles, women's doubles and mixed doubles, while McDiarmid headed the singles and doubles.

Curie With French

NEW YORK, Aug. 18 (CP)—Eve Curie, daughter of Marie Curie, co-discoverer of Radium, has left the United States for Britain to become a Private in the Corpe des Volontaires Françaises serving with the Fighting French forces.

Yankees Are Hot Win 32 In Last 43 Tilts

By JUDSON BAILEY
Associated Press Sport Writer

The polish may not be so pretty as in some former years, but New York Yankees' chariot keeps rolling more smoothly than it did in the days when it was baseball's shiniest streamlined model.

They have won 10 consecutive series in the American League and since July 5 they have won 32 of 43 games.

Yesterday they victimized Chicago White Sox again 4-2 with chunky Charley Wensloff, the rookie righthanded ace, pitching fifth five-hitter of the season and 14th complete game in 19 starts.

When they began their current western tour the Yankees were shelled for 19 runs in two games by St. Louis Browns, but the New York hurlers have allowed only 11 runs in seven games since then.

At the other end of the American League ladder the pitiful Philadelphia Athletics lost their 11th straight game, dropping a 4-3 decision to Detroit as the Tigers moved into a tie with the idle Cleveland Indians for third place. The A's batted Paul Trout off the mound in the ninth when they scored all their runs, but Johnny Gorsica stopped them in time to get Trout his 14th pitching triumph.

Red Sox Lose 4-1

In the other American League game John Niggeling pitched five hit ball as the Browns belted Boston Red Sox 4-1.

In the National League Saint Louis Cardinals looked like world series champions again in subduing Brooklyn Dodgers 7-3 with Alpha Brazle, a rookie recently called up from Sacramento, giving only eight hits and driving in three runs himself on a triple and a single. It was his third success without a setback.

Cincinnati Reds lengthened their winning streak to six games with a 10-4 decision over the New York Giants, achieved mainly through a five-run eighth-inning rally in which Woody Williams delivered a pinch triple with the bases loaded.

Pittsburgh swept a doubleheader from Boston Braves 8-0 and 4-3 in an affair that was remarkable because Hank Gornicki of the Pirates was the winning pitcher in both games and Nate Andrews lost both. Gornicki went the distance in the opener, allowing six hits, and returned in relief in the night cap to get the credit when a double by Bill Baker and a single by Pete Corcaret pushed across the winning run in the 11th inning.

Chicago Cubs scored four runs in the eighth inning to take a see-saw struggle from the Phillies 7-5.

Major League Leaders

By The Associated Press

AMERICAN LEAGUE

Batting—Appling, Chicago, .335.
Runs—Vernon, Washington, 72.

Enters Films

Jacqueline Dalya, young blue-eyed brunette, made the jump from contests to stage successfully at Los Angeles, Calif., where she played in "Nancy's Private Affair," New York stage success, at the Mayan Theatre, Hollywood. Miss Dalya has won the title of "Miss Greater New York," and also a contest for the most beautiful New York legs." She now goes into pictures.

Women Fix Up Engines

STRATFORD, Aug. 18 (CP) — George Clark, foreman at the Canadian National Railways roundhouse here, said yesterday women would be employed to do odd jobs around the engines. It will be the first appearance here of women workers in the roundhouse.

Hamlin Blanks Syracuse Team 5th Straight Time

By The Associated Press

Sylvester (Blix) Donnelly, fireball right-hander for Rochester Red Wings, pitched the third no-hit, no-run game of his career last night and had to do that to win the headlines away from Luke Hamlin, of Toronto Maple Leafs and Al Dubiel of Newark Bears.

Donnelly hypnotized the Jersey City batters and went into the ninth with a perfect game in his grasp. However, Red Schoendienst made a wild throw from his shortstop position in this frame to allow a giant runner to reach the initial bag. Later in the inning Donnelly issued his only walk.

The 4-0 triumph behind the right-hander's hurling followed a 2-1 decision for the Red Wings in the first game with Bill Trotter throwing a four-hitter.

Hamlin got his name in the headlines by shutting out Syracuse for the fifth time this season, first man to blank an International League rival that often in one season. Toronto took the game, 2-0.

Dubiel, who granted four walks, saw the Royals waste their lone hit but scored once in the fifth and once in the eighth without a blow for a 2-17 triumph. In the first game, Bob Hiller of the Bears stopped the Royals on three hits, 6-3.

The only team not to get top-flight pitching last night was Buffalo, which lost to Baltimore 15-9.

Sicily Campaign Takes 38 Days Canadians Busy

By The Canadian Press

Highlights of the Sicilian campaign follow:—

July 9-10—Spearheaded by gliderborne units and parachute troops, British, Canadian and United States forces under command of Gen. Dwight D. Eisenhower and Sir Harold Alexander invade southeast coast of Sicily.

July 11—Invading troops consolidate bridgehead and capture three airfields....Canadian 1st Division occupies Ispica, Rossoni, Pozzallo.

July 12—Syracuse and nine other major towns taken....Canadians capture Italian General.

July 13—British 8th Army captures Augusta and swarms ashore near Catania.

July 14—Comiso and Ponte Olivo, two of enemy's ten main air bases, fall to American 7th Army; British take Vizzini.

July 15—Ragusa captured...Canadians take Grammichele, meeting Germans for first time, and Caltagirone.

July 16—Agrigento, key southern city, seized by Americans, and Piazza Amerina falls to Canadians.

July 17—Allies establish military government rule...British take Lentini.

July 18—Battle for Enna opens.

July 19—Rome bombed...Caltanissetta taken...Americans and Canadians drive toward Enna.

July 20—Porto Empedocle falls.

July 21—Enna captured.

July 22—U.S. armored columns take Castelvetrano..Canadians take Leonforte and Assoro.

July 23—British slash through Axis line near Catania; Palermo seized by Americans.

July 24—Americans take Marsala.

July 25—Trapani and Termini are captured.

July 26—Benito Mussolini and Fascism fall...Marshal Pietro Badoglio appointed Italian Premier.

July 27—Germans dig in for anticipated Allied assault.

July 28—70,000 Axis prisoners captured thus far.

July 29—Eisenhower offers Italy peace terms...Canadians overrun Agira....Yanks capture Nicosia....four other towns taken.

July 30—Canadians and Americans plunge deeper into Axis Mount Etna line...Canadians take Catenanuova.

July 31—Americans seize Santo Stefano.

Aug. 1 — Americans take nine towns.

Aug. 2—Canadians and Britons take Regalbuto.

Aug. 3—Axis Mount Etna line cracks...Allies advance to draw a ring around Etna.

Aug. 4—Allies tear deep holes in gru[illegible]ng Mount Etna line.

Aug. 5—British smash into Catania, [illegible]ove back German rearguards from southern and eastern slopes of Mount Etna...Paterno also falls.

Aug. 6—Americans capture Troina; British overrun Biancavilla, as bag of prisoners soars to 125,000.

Aug. 7—Aderno, Bronte and Belpasso fall to British and Canadian troops as Americans thrust ahead from Troina and launch a seaborne expedition behind German left wing.

Aug. 8—British capture Acireale.

Aug. 11—British fight through Guardia and near Riposto.

Aug. 12—Nazis fleeing en masse cross Messina Strait.

Aug. 13—Allies capture Randazzo.

Aug. 14—Allied, air, naval force draw ring about Messina Strait as evacuation grows.

Aug. 15—British take Taormina, Kaggi and Castiglione...Americans capture Oliveri.

Aug. 16—Nazi rear defences crumble...Yanks overrun Barcellona...Messina blasted from air, sea and land.

Aug. 17—Americans enter Messina.

MORE ABOUT—

Total Casualties

Continued from Page 1

dian troops had travelled farther than any other division in the 8th Army.)

All resistance had ceased and with the exception of the mopping-up of scattered Axis units isolated in the hills south and west of the city there was little for the troops to do.

An American artillery unit set up its "Long Toms" and at 11:33 a.m. began pouring shells across the water. Overhead Allied bombers streaked across the sky to hammer away at the invasion beaches and rail and road communications behind the new Axis line.

Messina itself was a litter of rubble and shattered military transport. There were few civilians abroad but they drifted back into town from their hideaways in the caves on the outskirts of the city when they realized that for the first time in weeks the city was not under assault from the air.

Minora Blades Mean

HAPPY SHAVING

Comfortable shaves at a real saving—that's the nut of the Minora story. It's the quality blade in the low price field.

Nazi Prisoners In Russia Appear Beaten Men

Not much of the arrogance of the "supermen" is left as these German and Rumanian prisoners shuffle to an internment camp after their capture by the Red Army near Novorosisk. Many thousands of prisoners have been taken by the Red Army in its offensive in the Orel sector.

Bewildered Chinese Saves Day For Scribe As News Famine Plagues Quebec Reporters

QUEBEC, Aug. 18 —Since newspapermen are paid to find something to write about, there are well over a hundred frustrated men here. They came representing papers and news services from Great Britain, from Australia, from the United States, from the important centres of Canada and from Russia. The sixth Churchill-Roosevelt conference is so far a bust for news. No one knows anything. No one could write anything if he did know it.

The press conferences so far have had an Alice-in-Wonderland aspect. The bell captain at the hotel reserved for newsmen goes from floor to floor ringing a gong for assembly. The reporters assemble. The door is closed. Then comes the great announcement: Prime Minister Churchill had dinner to night with Prime Minister King. The reporters say: Hell, and go and file the item.

A reporter saw a Scottie. He thought it was President Roosevelt's Falla. Could the President of the United States have arrived secretly? If not, what was his picture-famous dog doing here? Searchings and inquirings. Another flop. It was just another Scottie, aged and tired, owned by the manager of the Chateau Frontenac.

False Alarm

At noon yesterday there was a furious ringing of the gong. Full assembly. Then the press officer reported: "There is absolutely nothing we can say. We can't even guess what we can tell you."

The boys have tired of writing about the "storied, historic Citadel of Quebec." Tourist guides have been thumbed back. Even that subject gets written out.

A Globe and Mail staff reporter tired of sitting in the hotel lobby, tired of waiting for the bell to ring to tell him that there was nothing to report, got ambitious. He thought he would find the man, woman or child in Quebec City who had never heard a rumor about the conference; who had never got the inside stuff from a waitress who knew a taxi driver who drove a brass hat from the Chateau Frontenac to the Citadel.

Montcalm's D.H.Q.

And he found him.

The address of the man was 32½ Rue St. Louis. In front of the door was a yellow sign: Maison Montcalm. Beside the doorway was a tin scroll with this inscription:

Military
Headquarters
Of Montcalm
1759
To which he was
brought back wounded from the battle
of the Plains of
Abraham.

The entrance was on the side. Over the side entrance was a red tin sign:

Hop Wah
Laundry
Buanderie
First Class.

Questions and Answers.

The reporter asked questions. Mr. Hop answered.

Did Montcalm really die here?

No know. No see him. Not here when I come.

How long have you been at this spot?

Twenty year.

Do you like Quebec?

Ye, ye.

Did you ever hear of Montcalm?

Ye, ye.

Did you know Churchill was in Quebec?

Who? No. No know.

Are you glad Roosevelt is coming?

No know.

When will the war be over?

China win in long, long time.

Do you think Chiang Kai-Shek is a great man?

Ye, ye.

Do you speak French?

Ittle bit.

Parlez vous Bien?

No know.

Do you like Mackenzie King?

No know.

Does it always rain in Quebec?

No know.

Are you in favor of le Bloc Populaire Canadien?

No know.

The cat sharpened her claws on a leg of the table.

The reporter went back to the hotel lobby.

He was happy. He had found the most accurate source of information at the whole conference.

Ministers will be survey of all departments and appointment of committees—open to members of the Opposition, which consists of 34 C.C.F., 15 Liberals and three others—on Labor and Agriculture.

But Col. Drew laid greatest stress yesterday on the Mines Department committee. The committee will be appointed "with the idea of making adjustments in keeping with the great changes in the industry in the past two years," he said. Later, the Premier declared: "We recognize that unless something efective is done many communities in Northern Ontario may become ghost-towns."

"The first step obviously is to seek an adjustment of the present system of taxation and for that reason this department has been placed temporarily under the Provincial Treasurer," the Premier added. "By the time he has had a chance to adjust the method of txation it is expected plans will be ready for organization of the Department."

The Tax Question.

The question, he said, was one of re-adjusting the basis of taxation between the Dominion government, the Provincial government and the municipalities.

"At the present time the heaviest taxes are collected without regard to the fact that the Provincial government and the municipalities perform the greatest service for the mines.

"We are going to examine the methods of directing mining production in other countries and adjust our own system.

"The mining industry is an extremely serious situation and since the beginning of the war more than half our producing mines in Ontario have closed down."

This committee would be appointed to recommend the best methods of assisting and controlling mining production.

During the interview, the Premier had this to say when asked about the civil service: :"There is no thought of wholesale dismissals and I hope that every member of the civil service will continue his work with the confidence that those who are performing their duties well and are competent for their tasks will be retained."

The new government is the first minority administration elected in Ontario since the United Farmers of Ontario Party, headed by E. C. Drury, came to power in 1919.

120 Planes

Continued from Page 1

the night of Aug. 16.

Vila now is threatened both from the north and south. South of it, United States forces have occupied Vella Lavella Island. To the north, across the Kula Gulf, on New Georgia, to-day's communique reported new ground successes within three miles of the trapped Japanese garrison at Bairoko Harbor.

Five hundred miles above Darwin, Australia, Hudsons and Beaufighters manned by Australians set an enemy troops transport afire in the Aroe Islands and killed at least 50 troops.

Making Friends In Sicily?

Corporal H. H. Whitaker of the Corps of Royal Canadian Signals, of Winnipeg, Man., shares his ration of biscuits and candy with a young Sicilian.

Feed Grain Down But 1944 Crops Look Adequate

OTTAWA, Aug. 18 — (CP). — Although the outlook for feed grain production in Canada in 1943 is "much less promising" than at this time a year ago, particularly in the Eastern Provinces, there are compensating factors and the over-all picture of feed supplies for the 1943-44 season is a fairly satisfactory one, the Dominion Bureau of Statistics said today.

"Record stocks of wheat, oats, and barley were carried over at the close of the crop year ended July 31, and a large proportion of the stock was still on fams," said the Bureau.

"The statistical position appears to assure the feed requirements of live stock and poultry producers in Western Canada and to vouchsafe the needs of those in other parts of the Dominion," said the Bureau.

Action has been taken by the Federal Government and by the provincial authorities in Ontario to subsidie the movement of Western feed grains to areas outside of the Prairie Provinces.

"It appears certain that Ontario and Quebec will require substantial quantities of Western feed grain during the next 12 months. The condition the the 1943 feed grain crops in these two provinces at the end of July was even more unfavorable than in 1941 which was a poor crop year and brought into being the Federal freight assistance policy."

MORE ABOUT—

Shuttle Raids

Continued from Page 1

the seaport at Marseille.

Le Bourget airdrome in Paris was attacked for the second successive day by R.A.F. bombers yesterday. British airmen also struck at air fields in Bryas Sud and Poix during the day and American Marauders followed to deliver a second wallop to the latter field in darkness.

Blast Airfields

R.A.F. bombers bombed the marshalling yards at the railroad terminal at Calais, and others blasted airfields at Woensdrecht in Holland and Lille-Vendoville in France.

Brig.-Gen. Frederick L. Anderson, commander of the 8th bomber command, said, "Germany is wide open" explaining that the shuttle service was still in the "strategic" stage inasmuch as the bombers were aiming at Axis industries rather than at the enemy itself. He said intense attacks on enemy airfields in Germany and occupied Europe were attempts to eliminate any opposition to Allied operations by Axis fighter planes.

Once this is achieved, he explained, "we can move from the 'strategic' aerial stage to the tactical—ground-gaining—stage overnight." He saw this possible before many months because inroads upon enemy aircraft have been so great.

Lose 9 Planes

Meanwhile the Germans were making a feeble effort at retaliation, dropping bombs last night at scattered points in Eastern and Southern England. A few planes dropped bombs in East Anglia early this morning. Damage was reported slight.

The raids cost the Nazis nine more of their dwindling air fleet.

A Middle East air communique issued today in Cairo reported that R.A.F. Wellington bombers had raided the harbor at Preveza, Greece, on Monday night and attacked enemy shipping in the Aegean, damaging a small escort ship.

Bombers Bring The End Of A Jap Destroyer

Mitchell B-25 bombers scored 14 direct hits on this Jap destroyer off Cape Gloucester, New Britain, stopping it dead in the water. Next day they returned and sank it. Closeup of the warship shows Japs on the deck and provides some idea of the extent of the damage. A bomb, just released from the bomber, can be seen in the air just about to strike the ship.

4 British Subs Sink 9 Vessels

LONDON, Aug. 18 (CP)—The Admiralty announced tonight that British submarines operating in waters around Italy have sunk nine additional vessels, including a large transport.

The transport, a large three-funnelled ship, was intercepted east of Italy in the Adriatic, while bound for the Italian port of Brindisi, and sank three minutes after a torpedo hit her, the communique said.

A large supply ship was intercepted in the same area and also sunk by torpedo.

The seven other ships sunk were:

A minelayer driven ashore off Corsica and destroyed by torpedo;

Two large German transport barges and an escorting naval auxiliary vessel, sunk by gunfire from submarines, also off Corsica;

An armed Italian anti-submarine yacht, torpedoed in the Ligurian Sea, north of Corsica;

An Italian naval trawler and a minesweeper, sunk by gunfire also in the Ligurian Sea.

In addition, a medium-sized supply ship intercepted while outward bound from Durazzo, Albania, was damaged.

Four submarines participated in the actions.

F.D.R. Arrives

Continued from Page 1

Among those in the Chateau are seasoned officers who have had actual fighting experience on every far flung battle arena in which the Anglo-American forces have been engaged.

In Closed Car

President Roosevelt drove from his special train through rain-washed but sunny old streets to the historic citadel atop Cape Diamond, in a Phaeton car with the top up. He was seated beside the Earl of Athlone, Governor-General of Canada.

His Excellency, accompanied by Princess Alice, came to Quebec yesterday for a 12-hour stay during which they were hosts in their own vice-regal residence in the Citadel, at a dinner in honour of the two leaders and their parties.

Prime Minister Mackenzie King, temporary host in the vice-regal residence to Mr. and Mrs. Churchill and to President Roosevelt, drove with Mr. Churchill to meet the President.

Others arriving with the President included Harry Hopkins, his chief adviser and closest confidant chairman of the Munitions Assignment Board; Isador Lubin, one of Mr. Hopkin's chief advisers; Stephen Early, press secretary to the President; and Grace Tully, the President's confidential secretary.

The Canadian delegation was increased yesterday by arrival of Hon. Leighton McCarthy, Canadian Minister to the United States and close friend of the President. He came by a regular day train.

60,000 Wake-Ups

LONDON, Aug. 18 — (CP). Sixty thousand alarm clocks— article long unpurchaseable Britain —have arrived here fro[m] the United States, it was disclos[ed] today. The Board of Trade, how[ever], still is undecided how to di[s]tribute them among stores so [they] can get into the hands of [war] workers.

ECUADOR'S FLAG

The flag of the republic Ecuador consists of three horizon[tal] bands of red, yellow and blu[e]

FARMERS are now buying WESTERN FEED GRAIN

DOMINION and Provincial Government subsidies and payment of freight charges on Western feed grains should make winter feeding more profitable this year, and will help you to maintain production to meet the British quota.

If you have decided to carry over additional cattle, hogs, sheep or other livestock, now is the time to provide for winter feeding requirements. Transportation may be difficult next winter.

See your feed and grain dealer now. If you need money call and discuss your plans. We shall be glad to consider a loan and help you to arrange the details.

THE DOMINION BANK

ESTABLISHED 1871

Peterborough Branch - T. T. RODGER, Manager

LET'S ALL DO MORE TO WIN THE WAR

BEFORE THE WAR: *Harry and his wife always went to the beach for their vacation. They had a swell time. Cost quite a bit of money.*

TODAY: *Harry and the family are using their two-week vacation to do a real war-effort job—working on a farm, helping to relieve the farm labor shortage. They're enjoying it. Money saved, too.*

THE MORE WE'RE IN IT THE QUICKER WE'LL WIN IT!

Our fighting men are giving ALL their time to the job of winning the war ::: fighting in Sicily ::: hunting U-boats in the Atlantic ::: bombing Germany! The least we can do is to make use of our *spare* time by doing some war-effort job. Look around! You'll find lots of opportunities to work for victory. Helping some hard-pressed farmer to harvest his crops is but one of them. We can't all *fight*, but all of us can *work*.

This space contributed to the war effort by

The Peterborough Examiner

VOL. LXXXVIII, No. 40 — PETERBOROUGH, WEDNESDAY, AUGUST 18, 1943

MAIN STREET TOPICS

JOINS THE NAVY.

Provincial Traffic Officer Gordon Broughton, of Port Hope, who was stationed in Peterborough for some years, and is well known here and in the district, has enlisted in the R.C.N.V.R.

NO CHARGE MADE

Examiner readers are advised that never at any time has the Examiner made any charge for using sailor, soldier or airforce pictures, in fact practically the entire appropriation for news pictures is being devoted to men in the armed services.

NO MORE WORD

No further word has been reeived by Mr. Allen of Douro, whose son, PO. J. C. Allen was reported missing last week when his plane crashed off New Brunswick. The body of one member of the crew, PO. R. A. Ledingham of Moose Jaw has been recovered.

SAFELY ACROSS

Sgt. J. F. O'Brien, R.C.H.A. has cabled his wife, formerly Josephine Collins, 506 Murray street, of his arrival overseas. A former employee of the Quaker Oats, he enlisted in June of 1942. Sgt. O'Brien was a sergeant with the 4th Field Battery (R) before going active.

RATION WORKERS MEET

Instructions will be given to the voluntary workers on Thursday, August 19, at 7.15 p.m. The meeting at the Lyceum will only take a half hour and it is imperative that all helpers attend if at all possible. This will avoid confusion when the Ration Distribution centre opens, officials say.

THE WRONG BANK

In the list of depth charge posters filled given in Tuesday's Examiner, it was erroneously reported that the Bank of Toronto has contributed 14 posters. This should have read "Bank of Montreal." The Bank of Toronto appeared again further down the list in its proper place, having accounted for 7 posters in all.

TOKYO PRISONER

Ted Holland, 27 Braidwood avenue, has received word that his brother, William Holland, whose ship, M. S. Hauraki was captured by the Japanese, is a prisoner of war in Tokyo. His rank is not known.

INADEQUATE BRAKES

A. L. Neill, Stewart street, whose car was involved in a recent traffic accident entered a written plea of guilty in police court this morning to a charge of having driven with inadequate brakes and was fined $10 and $2.50 costs.

DIRECTIONS GIVEN

Notices have been placed in prominent windows, stores and restaurants, to the effect that Ration Book No. 3 will be distributed in the city August 25, 26, 27 and 28. Ration officials hope that this will avoid the mix-up of February.

LONG VACATION

Never in the history of Peterborough have so many stores been closed at the same time, for a period of one or two weeks. This condition has been brought about by the shortage of help, and in some cases, by the shortage of goods to be sold.

A MONSTER MUSKY.

Guy "Bebe" Casey, well known here as a member of the old Belleville Nationals ball club, has broken into the news by capturing the largest musky caught in this section of the province this season. Casey hooked on to and landed a 45-pound maskinonge while fishing in the Trent River, near Chisholm's Rapids on Monday.

BACK FROM OVERSEAS

Captain Jack Hughes, former public relations office at Toronto M.D. 3 has returned to Canada and is now posted for duties with public relations again. He received valuable training in Britain, and met many Peterborough men while there. At present he is visiting his parents, Mr. and Mrs. Chris Hughes, Charles street, and is accompanied by his wife.

More Tea, Coffee Starting Sept. 2

OTTAWA, Aug. 18—(CP)—Canada's tea and coffee rations will be increased by one-third effective Sept. 2, the Price Board announced today with the added promise that a further increase will be made before the year-end if shipping conditions continue to enlarge the Dominion's supplies of those commodities.

The announcement said the rations would be further increased "at any time when the supply position permits and it is felt that if ocean shipping conditions continue to enlarge the supply, another increase in this ration will be made before the end of the year."

Present rations are one ounce of tea and four ounces of coffee weekly per person. An increase by one-third would mean 1 1-3 ounces of tea and 5 1-3 ounces of coffee weekly per person after Sept. 2.

The increase becomes effective with the use of tea and coffee coupons from the new ration book being distributed next week.

There will be no change in the present value of these coupons, each being worth two ounces of tea or eight ounches of coffee, but the increase will be accomplished by having two coupons become valid every three weeks instead of every four weeks as at present.

Tea and coffee coupons in ration book No. 3 will not show the valid dates, but these dates will be announced from time to time by the board.

S.S. No. 3 Harvey Wins 2nd Prize

Second prize, the Hon. P. M. Dewan trophy, in the public rural school competition for improvement of premises has been awarded to S.S. No. 3 Harvey township, Peterborough county, where Stanley Cowling of Lakehurst is teacher.

The announcement is made by J. A. Carroll, secretary of the Ontario Horticultural Association which sponsors this school grounds contest.

First prize and the J. E. Carter trophy have been awarded to S.S. No. 9 Hope township in Durham, with Miss M. H. Pollard as winning teacher.

Third and fourth places respectively have been awarded to S.S. No. 5, Percy Township, Northumberland County, taught by Miss Evelyn Partridge, and S.S. No. 8, Bertie Township, Welland County, taught by Miss Abigail Nigh. These two schools received prizes donated by the T. Eaton Company, Limited.

Each of the schools eligible for final judging was the winner of a local competition within its own county and inspectorate. Awards were based on work done and the improvement made in the school property between July 1, 1942, and the time of judging in July, 1943. The factors considered by the judges were clean-up, painting, repairs, grading, levelling and seeding of lawns and play areas, new plantings and arrangement of trees, shrubs and other plants, the cutting of weeds, mowing of grass and general care of the grounds.

Other schools which were winners of local competitions, and which were eligible for the final contest, were as follows:

S.S. No. 15, Otonabee Township, Peterborough County — Teacher, Miss Mary Staples.

S.S. No. 1, Thurlow Township, Hastings County — Teacher, Miss Myrtle Barnum.

S.S. No. 13, North Fredericksburgh Township, Lennox and Addington—Teacher, Miss P. Sexsmith.

The competition was based solely on the improvement made during the last year, so that even the poorest of rural schools had an opportunity of taking part and being listed as winners.

Can Supply Coal

NEW YORK, Aug. 18 — (AP).—West Virginia operators said today the bituminous coal industry in the United States was "fully geared" to meet the 1943 Great Lakes area requirement of 50,000,000 tons of soft coal before freezing weather halts inland waterway shipping.

Prisoners Cut Fuel

KINGSTON, Aug. 18 (CP) — F. J. Parker, city clerk, announced yesterday that German and Italian prisoners of war from an Eastern Ontario camp would be put to work cutting fuel on a woodlot in the Elgin district.

War—25 Years Ago

By The Canadian Press

AUGUST 18, 1918—French troops held the heights of the Aisne River, while the British advanced between Vieux Berguin and Balleul. Officially announced each Dominion to have a minister in London to be a member of the Imperial War Cabinet.

LOBA Meeting Draws 200 Delegates

About 200 delegates from all parts of Eastern Ontario were in attendance Tuesday and today at the twenty-fourth annual session of the Ladies' Orange Benevolent Association of Ontario East, which is being held in Murray Street Baptist Church.

The delegates aroused considerable curiosity yesterday, among citizens not in the know, when they appeared on George street at lunch time many of them in floor-length white dresses and some wearing jewels and insignia of the order.

On Tuesday morning the delegates were greeted at the session by Annie Tyssek of Perth, Grand Mistress of Ontario East, who gave an address of welcome, and expressed her pleasure that such a large number of delegates were in attendance.

Tuesday morning and afternoon were devoted to the reading of the annual reports of various committees by the conveners of the committees. In the evening a banquet was held at the Empress Hotel for the 200 delegates, at which addresses of welcome to the city and encouragement in their work were given by members of the Peterborough Lodges, by A. Holden, County Master Mel Holden, and R. Ritchie.

Wednesday morning greetings from Ontario West were tendered the Ontario East Session by the following delegates from western Ontario: Right Worshipful Sister Brush of Hamilton; Right Worshipful Sister Hunter of Hamilton; Right Worshipful Sister Miller of Toronto; Right Worshipful Sister Watson of London; Most Worshipful Sister Scott of Toronto; Right Worshipful Sister Crocket of Hamilton, and Right Worshipful Sister Howell of Toronto.

Wednesday afternoon was devoted to the election and installation of officers.

Drunk Driver Gets 7 Days

After William Russell, R.R. 11, had pleaded guilty in police court this morning to a charge of drunken driving on August 9 Magistrate R. B. Baxer sentenced him to seven days imprisonment in the county jail.

The magistrate also announced that Russell's car would be impounded for three months and his driving license suspended for the same period.

Hon. G. N. Gordon, K.C., who appeared for the accused informed the court that Russell had already spent five days in jail and asked that fact should be taken into consideration.

Magistrate Baxter accordingly dated the sentence from August 16. Giving evidence in the case Constable John Morrow who had arrested Russell said that while patrolling his beat on Charlotte street he noticed a car had come into contact with a pole. "As I got nearer," said the witness, "I noticed Russell at work with a jack at the rear of the car and saw that he was in a drunken condition. As I approached he got into the car, started the engine and tried to drive off but was unable to do so because the bumper was caught on the post."

To Mr. Gordon, Constable Morrow said that nobody had been hurt in the accident.

Arrives Overseas

Gnr. Charles William Turner, R.C.A., has arrived safely overseas according to word received by his parents, Mr. and Mrs. William Turner, R.R. No. 2, Ida. He enlisted in December, 1942, and trained at Brampton and in Nova Scotia. His sister, L.-Cpl. Betty Turner, is in charge of the recruiting office for the C.W.A.C. at Peterborough.

Cruelty Charge Brings $5 Fine

Pleading guilty to beating a horse, Harold Kemp, Warsaw Road, was fined $5 and $2.50 costs by Magistrate R. B. Baxter in police court this morning.

Gerald Dunford, Humane Society inspector, said that he had noticed Kemp driving the horse up George street and had followed the horse and buggy which was going all over the road. Kemp, the witness swore, was beating the horse with a rod which Dunford produced.

"There were no marks on the horse afterward," the inspector said in answer to a question from Crown Attorney V. J. McElderry, K.C. He added that Kemp and the other youth with him had been drinking.

Kemp told the court that the animal he had been driving had been obtained that afternoon in a trade. It was a lively-spirited mare, he said, and when it wanted to turn at every corner he had used the whip to keep it straight. "When my father got it afterward," said the youth, "there were no signs of injury."

"Well you were there and you have pleaded guilty," said Magistrate Baxter. "You had been drinking and that may help to explain things."

Harold Wilson, 20, who had been with Kemp on the day in question pleaded guilty to a charge of having been drunk.

In answer to a question from the Magistrate, Wilson said that he had bought some beer from the brewery warehouse.

"You knew that you shouldn't have bought beer when you are under age?" queried the court and Wilson admitted that he did.

Magistrate Baxter imposed a fine of $10 and $2.50 costs, asking the accused if he thought that the fun he had got out of the experience had been worth that much.

LOVED HIS BOOKS

George Washington was a book collector and a devotee of the theatre.

Professor States Color Of Egg Has Nothing To Do With Content

The color of the egg shell has positively nothing to do with its contents, said Professor F. S. Snyder of the poultry husbandry department of the Ontario Agricultural College in the opening address this morning at the district poultry conference in the Collegiate auditorium.

"The egg shell is put on after the contents are made," said Prof. Snyder "so it must be obvious to every one that the shell can have no effect on the content.

"Egg shell color is controlled by the breed of the hen that lays the egg."

Addresses Producers

Prof. Snyder explained to his audience of producers of poultry and eggs from ten counties across Central Ontario from Prince Edward to Ontario county.

The reason many women and men, also, retain the notion that the white egg is better than the brown, with the difference indicated by the two colors was a lingering idea first heard in youth.

"Or a woman may have had some satisfactory experience with white shelled eggs, something favorable to store away in the memory; and there may have been a bad experience with some brown eggs. At any rate this color opinion was acquired without any relation to nature's way of making an egg and the scientific fact of it.

Just Incidental

You can take it from Professor Snyder that the egg shell is merely an afterthought, a necessary container, and its color has no relationship or effect on the content; that on the market or store counter the yellow shelled egg deserves the buyer's confidence as fully and unquestioningly as the white shell.

Nutritive Value

A "good egg" is one which gives the producer the highest possible price and the consumer the greatest amount of nutritional value also with aesthetic value or attractiveness.

Protective Food

Prof. Snyder rated eggs as an important protective food close behind milk at the top of the list, in the order milk, eggs, fruits and vegetables and some meats, supplementing the ordinary diet of the ordinary nation. Most people consume starchy foods which have a satiety or filling value but do not provide sufficient protein, vitamins and minerals for health.

Better in Winter

For the information of consumers one of Prof. Snyder's statements seemed particularly interesting and explanatory of probably a common experience that eggs seem more palatable during the winter months.

"The best quality eggs," he said, are produced in the cool period from November to March. That is not necessarily due to the fact that hens are confined, but it is partly due to the fact that hens are kept under conditions of lower temperature and the temperature not only influences the interior quality but it also influences the size of the egg. As soon as the temperature rises in the spring, the egg size increases somewhat, but the best quality occurs from November to March."

The best shell condition is found during those months, and the biggest eggs are in February. From that time on they gradually decrease in size during the spring until about the middle of July or first of August after which they again gradually increase in size. "You can't do much about that condition unless you air-condition the houses and keep them cool."

The egg is at its best quality when laid. Chemical changes begin to take place, tending gradually to cause of decline in quality. Prof. Snyder advised that eggs be marketed as quickly as possible because the consumer is provided with the best quality and will be better satisfied.

Business Stalled

DIGBY, N.S., Aug. 18 — (CP). — Legal and municipal business here is practically at a standstill with the town's three lawyers all away at reserve army camp in Kentville, N.S., for two weeks. Of the three, E. J. Theriault is mayor and town clerk, M. S. Leonard is president of the Board of Trade, and H. W. Nichols is secretary of the Ration Board.

LINDSAY

F. York Arrested After Accident

LINDSAY, Aug. 18 (ENS)—Following an automobile accident on highway 7, east of Oakwood, Fred York, of Lindsay has been charged with reckless driving and Ralph Sawyer of Seagrave with changing the licence plate of his car to coincide with a different gas ration book.

The accident occurred when a westbound car driven by York collided with an eastbound car driven by Morton Dunn, of Woodville. Sawyer and Gordon Bartley, occupants of the York car were taken to the Ross Memorial Hospital and attended by Dr. C. Blackwell, for facial and head cut and bruises. Occupants of the Dunn car, William Lyle, Miss Donalda Hambly and Miss Katie Glockler escaped injuries.

Following the accident police state that York went to a farmhouse for help. When the farmer said he was going to call the police, York disappeared. Following investigation police state that the proper licence plate for the Sawyer car was found under the seat.

Genelco Supervisor Given Gay Send-off

Mr. H. M. Dunkerley, Inspection Officer, Inspection Board of the United Kingdom and Canada has been recalled by his employers, and leaves soon. He has been at the Genelco for quite some time.

Members of his staff and Genelco, Ltd., hosts to Mr. and Mrs. Dunkerley at a farewell dinner party at the Kawartha Club Tuesday night, during which, Mr. Dunkerley, and the fine job he's done while in Canada, were eulogized by Ian McRae and G. W. Hodgson. Mr. Dunkerley replied in a most sincere and inspiring talk, stressing the fact that after the war, Canada and England will be closer together than ever before, both spiritually and commercially. Following his talk, Mr. Dunkerley was presented with a pen and pencil set and an electric lantern from his staff, and Mr. Hodgson, on behalf of Genelco, presented him with a fitted travelling case. Mr. Hodgson also presented Mrs. Dunkerley with two silver spoons.

Mr. and Mrs. Dunkerley left a host of friends in Peterborough and they hope to be back after the war.

Cpl. Wallace Overseas

Cpl. Thomas S. Wallace, a member of a tank regiment, has arrived overseas according to word received by his parents, Mr. and Mrs. T. Wallace, 527 Sherbrooke street. He was an instructor at Camp Borden for nine months and then took a course at Hamilton before going over. Cpl. Wallace enlisted in Vancouver, although he had come to Peterborough at the age of 6 and received his education here.

Rust And Fungus Plagues Farmers

"Grain harvesting is still under way." That is the keynote of the weekly crop report of the Ontario Department of Agriculture. And it is the continuing feature of agricultural activity as the season passes mid-August.

Weanling pigs in Hastings are selling at $5 to $6 on a slow market. Some wheat is badly shrunken, buckwheat looks promising and early sown oats are turning out well. Corn is making good growth; many splendid fields of red clover are being left for seed.

Northumberland hits a blue note in—"late grain is rusting badly, and there is fear of late blight on potatoes and fungus on apples."

Corn Good

Corn and potatoes are doing well in Prince Edward; many farmers are buying western grain; and also a hay reference, "considerable hay is still to be handled."

Early potatoes in York have been giving very satisfactory yields. Rust resistant varieties of oats are showing to advantage in Carleton,—where Saskatchewan farmers have left a most favorable impression. And as a further ingredient to this melange of ideas, — "blueberries have been a bumper crop in Renfrew. Thousands of quarts have been preserved by farmers and other residents of the district.

Quality of the grain and the yield are low in the harvesting of Frontenac oats.

More Rust

Cloudy and damp weather has stimulated rust incidence in Stormont-Glengarry where — much of the late sown grain will be of little use and will be cut for food. All varieties of oats are rusting to a certain extent, but the Vanguard appears to be standing up fairly well, showing only leaf rust.

And in Grenville—rust has become 'epidemic' and crops of non-resistant varieties will be seriously reduced in yield. Fall wheat is the best crop in the county averaging about 40 bushels to the acre.

Lanark says — grain is rusting badly. Even the rust-resistant varieties are showing damage.

Joseph Poolman Dies After Long Illness

Joseph Charles Poolman, founder of the ladies'-wear manufacturing company which bears his name, died Tuesday at his residence on R.R. 3 west of Jackson Park. Mr. Poolman, who was in his 56th year, had been in ill health for some time.

He started the J. C. Poolman Mfg. Co., 551 Romaine street, 20 years ago, coming to Peterborough in 1906. Previously he had lived in England, the land of his birth, and he was the son of the late Albert and Lillian Poolmain, in the city of Warminster. Mr. Poolman was a member of All Saints' Anglican church.

His wife, Frances O'Brien Poolman, survives, and there are three children, Albert and Gordon Poolman and Mrs. W. Preston, all of Peterborough. Two sisters, Mrs. W. Maidment and Mrs. C. Payne, also live in the city.

The funeral will be held on Friday at 2 p.m. from the residence of his daughter, Mrs. W. Preston, 370 Monaghan road. Interment will be made in Little Lake cemetery.

Working At 91

BRANTFORD, Ont., Aug. 18—(CP). — John W. Patte, 91, is believed to be the oldest volunteer to offer his services in the distribution of the new food ration books. "I can't march, but I'm sure I can write all day," he told City Clerk E. J. Campbell, Ration Board secretary. So Mr. Patte will be on hand to fill out the new books for Brantford citizens. In 1940 Mr. Patte was a volunteer worker in connection with national registration.

Legion Total Nears $1,500 For War Victims

Once in a while one can still hear the song, "The Boys of the Old Brigade" which was written in reference to men who had donned the uniform of the King at a time which little compares with that followed by those who served in the last Great War and subsequently.

Today, when one asks the question, where are the boys of the old brigade, a very ready answer might be found, for they for the most part are up and doing in the nation's cause, though it might be in other directions, just as much as they were twenty-five years ago, the old loyalty to country still acting as a beacon in their desire to be of some real service.

Every Wednesday the local branch No. 52 of the Canadian Legion holds a bingo in the interests of their own welfare work, which in the past has done much in the ex-service man's cause, and when the Peterborough and District British War Victims Fund first began to function their president, George Gimblett, pledged that once a month they would give a portion of the returns from this to the fund, a promise which has been just as faithfully fulfilled as they did their duty in the service of empire a quarter of a century ago.

After keeping this up as steadily as possible for a period of over two and a half years, it is only natural that they will have been of considerable substantial help, and this put into terms of figures is now approaching the $1,500 mark with the figure actually standing at the sum of $1,437.85 with the contribution per G. Gimblett and G. G. Torrance listed in their name today which amounts to $38.57.

There happens to be five different sources from which the fund has received over a thousand dollars, and this happens to be one of them, they actually standing in third highest place in this particular instance, something of which they may well look back upon with a great deal of satisfaction, and to those of the small circle of helpers who give their time on Wednesday nights to assist in the running of this effort, this must be particularly so.

Another penny box collection is recorded today, this particular one coming from Northam's Bakery, which amounts to $2.35, adding to the splendid record this particular feature of the funds activities has already made.

Previously acknowledged	$61,768.96
Branch 52 Candaian Legion per G. Gimblett and G. G. Torrance	38.57
Penny box at Northam's Bakery	2.35
Total to date	$61,809.88

Township Lawyer Corrects Report

F. D. Kerr, K.C., solicitor for North Monaghan township, stated to-day that his attention had been called to an item on page nine of the Peterborough Examiner of Tuesday, August 17, in which it is set forth that he differs from Mt. A. G. B. Gray, Deputy Minister of Municipal Affairs, as to the liability to the payment of taxes by a tenant who occuies Crown property. He said: "I desire to make it clear that I do not differ from Mr. Gray in any respect, and we both agree that a tenant of Crown property is liable to municipal taxation. The disinction to be understood is that the interest of the Crown in real property is exempt from assessment, but the interest of the tenant paying rent for same is clearly liable to assessment, and on being assessed, the tenant becomes liable to taxes."

OLD GOLD

JUST 3 DAYS

There are only THREE days left in which to sell your Old Gold and Diamonds to P. B. Crews ,our Old Gold and Diamond expert. Saturday, August 21st is his last day with us. Bring your old jewelry, dental gold, gold coins, medals, diamonds, etc., to him to-day.

Barley Yield Good In West

OTTAWA. Aug. 18.—(CP).— The Dominion Bureau of Statistics reports that harvesting of grain has begun in the three Prairie Provinces, with field operations in full swing in Manitoba.

The Bureau said that in the Southwestern districts of Manitoba more than half the oats and barley crops have been cut. Early barley has been threshed, and yields are "very satisfactory," while wheat samples so far seen are "quite plump."

Not as much progress has been made in Saskatchewan but some wheat and early fields of barley and oats have been cut. The harvest will be general in most parts of Saskatchewan about the last week of August. Combining is active in the dry areas of Alberta and yields of wheat vary all the way from one-half to five bushels on stubble and eight to 20 bushels per acre on summerfallow.

Crop outlook was "well maintained" in Manitoba. Some deterioration took place in certain areas of Saskatchewan, notably the southeastern and southwestern districts.

The outlook in Alberta, where crops are much later and the harvest will not be general until September, showed little general change, the drought area in the southeastern portion of the Province reporting the harvesting of prematurely ripened crops.

Search Party Near Plane Wreckage

CHILLIWACK, B.C., Aug. 18—(CP). — The 10-man ground party making the second attempt to reach the scene of the wreckage of a C.P.A. plane reported last night by wireless that it had reached the Ford Creek, better than half way in the trek from Chilliwack to the summit of William Knight Mountain.

So far the party has travelled on horses. To-day the men will continue on foot as it will be too rugged for horses.

Overhanging rocks prevented the first party from reaching wreckage of the plane which crashed near top of the mountain eight months ago carrying 15 persons to their deaths. The second party has adequate mountain-climbing equipment.

Lost Air Liner Found

VANCOUVER, Aug. 18 (CP) — Three men Monday reached the wrecked Canadian Pacific Airliner which disappeared Dec. 20 shortly before it was expected at Vancouver Airport, and reported all 13 persons had met a mercifully sudden end.

Fliers Ill From Fruit

LONDON, Ont., Aug. 18 (CP) — PO. Douglas Case, son of Mr. and Mrs. Charles Case, in a letter to his parents said many Canadian fliers became ill the first day in Sicily after eating large quantities of fresh fruit.

Canadian Army Show Amuses Visitors In Quebec

Distinguished visitors to the Quebec conference appear to be more than amused during a performance of the Canadian Army Show in that city. From LEFT to RIGHT enjoying a hearty laugh over a sketch by Sergts. Frank Shuster and Johnny Wayne, are Prime Minister Mackenzie King, General George C. Marshall, chief of staff of the U.S. Army; Mrs. Winston Churchill, and Field Marshal Sir John Dill, head of the joint staff mission in Washington.

Seed Crop Reaches 20 Million Pounds

OTTAWA, Aug. 18 — (CP). — Nearly 20,000,000 pounds of sunflower and rape seed—rich sources of vital vegetable oils—may be harvested in Canada this year, it was indicated to-day.

Two years ago these crops were practically unknown. Their development results from the shortage of vegetable oils in North America following the loss of normal sources of supply due to the war in the Pacific area.

The Dominion Bureau of Statistics said that about 1,000 growers planted sunflower seed in Western Canada, while some 366 in the Prairie Provinces, Ontario, and Quebec planted rape seed.

Lakefield News

Dr. and Mrs. G. L. MacDougall of Whitby are the guests of Dr. and Mrs. H. E. Moore.

Mr. George Morin of Detroit was a recent visitor at his home here.

Mrs. T. G. Church who has spent a vacation with her parents, Mr. and Mrs. J. A. Porter, has returned to Ottawa.

Mr. John Millage visited friends in Toronto last week.

Mr. and Mrs. Archie Neilson, Lindsay, and Ian, Mrs. William Corner, Craig, Ann and Billy of Peterborough were Sunday guests at Reydon Manor.

Ruth Tatham is holidaying this week with Betty Hayward in Smith.

Mr. Archie Neilson was guest speaker at Grace Gospel Chapel on Sunday evening.

BIG SILVER PRODUCER

Mexico produces 40 per cent of the world's silver.

Donald Whytock Now Missing

OTTAWA, Aug. 18 — (CP). — One man was reported dead from wounds, two dangerously wounded and 53 others missing in action in the second official list of Canadian Army casualties from the Sicilian fighting made public here today by Defence Headquarters.

The list contained 56 names and was the 340th army casualty list of the war, bringing the unofficial total of Canadian soldiers reported dead to 1,216 and the total missing to 874.

Added to the first list of Sicilian casualties issued Friday night, to-days' lists bring reported losses from action to three dead, 76 wounded and 53 missing, for a total of 132.

Pte. Everett Rupert James, 29, of Chester, N.S., was the man reported dead in to-day's list. Only one officer was named Captain Donald Brown Whytock of Madoc, Ont., missing in action.

LAKEFIELD

LOBA Members Give Gift To Recent Bride

LAKEFIELD, Aug. 18 (ENS) — Members of the Northern Light Lodge, L.O.B.A. presented Mrs. Aubrey Blakely, formerly Phyllis Webdale, with a lovely kitchen clock at their August meeting.

Mrs. Blakely was complimented on the splendid services she had done on various occasions and was wished a successful future on behalf of the Lodge by Mistress L. Hill, Deputy Mistress I. Darling and Past Mistress M. Nicholls.

Mrs. Blakely graciously thanked her friends for their gift and following a social half hour a delicious lunch was served.

Labor Peace Plan

CHICAGO, Aug. 18 (CP) — William Green, president of the American Federation of Labor, said last night organized labor is determined that the post-war peace conference "shall not be transformed into a sordid, territorial grab-bag."

Coal Prices To Rise

WASHINGTON, Aug. 18 (AP)—Interior Secretary Ickes said last night coal prices would rise when mines go on a 48-hour week. Many mines now work 42 hours and time and a half pay is involved in the increase.

Captured Three Isles

Capt. R. E. Gerard, of Lake Charles, La., who, with Lieut. Louis P. Testa, took the islands of Favignana, Levanzo and Marittimo. Their expedition cost the Government of the United States $3—for boat hire—yielded three islands, 1,027 prisoners and brought relief to a civilian population of 5,450. In addition nine small tanks were captured.

LINDSAY

Four Prisoners Make Jail Break

LINDSAY, Aug. 18 (ENS)—Four Haliburton County men appeared in the Lindsay police court yesterday before Magistrate E. A. Gee, charged with escaping from the Haliburton jail. The men, Lloyd Mitchell, Ray Burke, Walter Cowan and Edgar Stamp had been arrested and locked up by Constables Roberts on charges of intoxication. Using their combined strength they smashed their way from the jail but were later rounded up by Provincial Constable W. Hendron of Minden and Constable Roberts. The accused were remanded for a week.

Burns' Bridge News

Mr. and Mrs. Roy Duff (Bertha Tedford) of Toronto were week-end guests at the Tedford home. Masters Bruce and Garth and Miss Joy returned with them after spending the past six weeks here. Miss Olive Tedford also acompanied them home to spend a holiday.

Mr. and Mrs. Lorne Barrett and Betty of Peterborough were week-end guests at the Armstrong home.

Mr. and Mrs. Ronald Clements and family were Sunday afternoon guests of Mr. and Mrs. Max Clements and their grandfather, George Clements, of Norwood who is ill at the home of his son, Max.

Mr. and Mrs. George Rodgers of Peterborough, Mr. and Mrs. D. McGregor and Jimmie of "The Mill" were recent guests of Mr. and Mrs. Harold Bolton.

Misses Gladys Fleming and Hilda Correll of Peterborough called on Mrs. Armstrong on Sunday afternoon.

Guests of Mr. and Mrs. Rae Carlow were: Mr. and Mrs. A. Sullivan and family of Hastings, Mr. and Mrs. Fred English and family of Norwood, Mr. Alex Carlow and family, Mr. and Mrs. George Carlow and Mr. and Mrs. Thomas Fitzgerald and Freddie.

Misses Zelda and Thelma Tedford spent the week-end with their parents.

Mr. and Mrs. Fred Cummings and baby and Mr. Bob Greer and Jimmie, all of Toronto, were recent guests at the Armstrong home.

Miss Irene Moote of Dunnville is spending a holiday with her uncle and aunt, Mr. and Mrs. George Clysdale.

Mr. and Mrs. George Clysdale and Donald and Mr. and Mrs. Eddie Carlow and Beverley visited in Warkworth with Mr. and Mrs. Dave Evans and Mr. and Mrs. George McKee.

The sympathy of the community is extended to Mrs. M. Lindsay on the death of her mother, the late Mrs. William Chard of Campbellford.

Warkworth News

Mr. James A. Armstrong is visiting relatives in Toronto and Detroit.

Miss Sara McComb, Morganston, is spending a few days in town as relief operator for the Percy Municipal Telephone System.

Mr. Walter Clarke is spending a week with his parents at Hamilton.

Mr. Cameron Baker has joined the R.C.A.F. and reported for duty at Toronto, August 16th.

Mr. and Mrs. B. Buchanan are spending a few days with Mr. and Mrs. Wesley Vanblaricom, Picton.

Mrs. W. B. Baker is visiting Mr. and Mrs. Claude C. Arkils, Detroit, Mich.

Mrs C. C. Armstrong and Alex returned Sunday after spending a few days in Belleville.

Plan To Pool Coal

TORONTO, Aug. 18 (CP)—Coal dealers in Toronto are planning a coal exchange designed to overcome difficulties in coal supply, it was learned yesterday. The exchange will be a pool system, covering not only coal supplies but also delivery equipment and workers.

Civilian Ammunition Kept At Minimum

OTTAWA, Aug. 18 — (CP). — The supply of small arms ammunition for civilian use "cannot possibly be increased without seriously jeopardizing war production," the Prices Board emphasized yesterday in a statement which said it was "deluged" with requests for such ammunition from all sections of the Dominion.

The Board said it was faced with the necessity of cutting down trade orders to an "absolute" minimum and intended to continue alolcating supplies strictly to essential users, such as penitentiary guards, bank messengers, war plant guards, trappers, and those in remote areas whose livelihood depends on getting ammunition.

Since small arms ammunition became a rationed commodity five months ago, the demand has risen "so sharply" that it has become "a matter of concern" how to make available the extremely short supply to cover essential needs. Present demand has eclipsed 1939 figures by more than 50 per cent.

Skeletons Revive 35-Year-Old Mystery

BRANTFORD, Ont., Aug. 18 — City and county police yesterday investigated the possibility that the skeletons of a woman and child unearthed during excavation for a building here are the remains of Mrs. Ethel Chatsfield and her small son who disappeared from the Cathcart district 35 years ago.

The investigation was started following information received from a woman living near Hamilton who read of the finding of the skeletons last Tuesday. She told police that Mrs. Chatfield and her son disappeared 35 years ago and nothing had been heard of them since.

Flier Raid Happy Flashes "V" Signals

LONDON, Aug. 17—(CP)—Maybe one of the hundreds of pilots heading for Northern Italy in the R.A.F. bomber armada last night has a girl friend in London—or maybe not.

But whatever the case, he was in fine fettle as he trundled his bombload over the city enroute to the tagets because watchers on the capital's rooftops and streets saw his plane flashing V-for-Victory dots and dashes as it crossed the city, bringing cheers from the onlookers.

Dr. D. J. Sinclair Dies

WOODSTOCK, Aug. 18 (CP) — Dr. Duncan J. Sinclair, 77, a practising physician in this city for more than 50 years and Liberal member of parliament for Oxford North from 1921 to 1924, died in hospital last night.

Great Forebears

Alice Habersham, a Wave now serving in Washington, D.C., who has plenty of patriotic precedent for her having joined the nation's fighting forces. She is the great-great-granddaughter of Francis Scott Key, who wrote the Star Spangled Banner in 1812. Fifty years later, her great-grandfather, Edwin M. Stanton, was Lincoln's secretary of war. More recently her cousin by marriage, Ernest Lee Jahncke, was assistant secretary of the U.S. Navy under President Hoover.

Princess Alice Inspects Sea Cadets At Minicog Camp

By ADINE SEAGRAM
Canadian Press Staff Writer.

MIDLAND, Ont., Aug. 18—(CP). —"Have I been polishing brass? Say—see that finger? It's limp with rubbing."

Sea Cadet Bob Robinson of Peterborough held up a grimy forefinger with a grin. Not even a 14-year-old boy minds polishing brass when it's for a princess.

The Sea Cadets were excited when Princess Alice arrived on Minicog Island in Georgian Bay to visit camp which bears her name but they stood smartly at attention where they lined the path from the jetty to the Main House, while Her Royal Highness and the Viceregal party passed between them.

It was a great day for the Cadets, and they had everything "ship-shape" — their white uniforms, their quarters and their four ships. In a brief speech the Princess congratulated them on their fine record.

Princess Alice said: "Canada needs strong men and good leaders who are prepared to serve her not only in wartime but in all the responsibilities of ordinary everyday life which is going to be full of problems and equally of possibilities greater than any your pioneer fathers had to face.

"One of the most remarkable achievements of the many remarkable things that the people of Canada have been doing in this time of war besides fighting are the great ships thay are turning out and the number of splendid young men who have come forward to man these ships. It is far easier, though, to build a ship than to man her with trained sailors, and we hope that many of you Cadets when you reach the age will make it your business to join one of the ships of the Royal Canadian Navy. It is the most wonderful and glorious career for any man."

Milsom in Command.

D. H. Gibson, C.B.E., president of the Navy League, presented Lt. Patrick Milsom, M.B.E., R.C.N.V.R., a former Sea Cadet and officer commanding the Princess Alice and the Queen Elizabeth Sea Cadet camps, with the Navy League Medal for service in recognition if his "gallantry in rescue work" during the sinking of the Canadian corvette Weyburn in the Mediterranean.

Minicog Island was donated to the Navy League for use as a Sea Cadet camp by the co-owners, Gordon C. Leitch, Toronto, honorary president of the Navy League of Canada and president of the Ontario Diivsion, and James Norris, a former Canadian, now of Chicago and New York. The Navy League remodelled the former summer resort and turned the 278 acres of island over to the R.C.N.V.R. H.M.C.S. York, Toronto, supplies the personnel and equipment for both the Princess Alice and the Queen Elizabeth on nearby Beausoliel Island.

The camp, one of 13 in Canada, is open from June to September and accommodates from 250 to 300 boys for two-week periods. There is not a woman on the island—even the registered nurse in "sick bay" is a man. Sick bay is manned by a doctor, a nurse, and a sick berth attendant. The kitchen, also womanless, is manned by eight cooks.

The Sea Cadets live a healthy life. At 6:30 a.m. they rise to the call, "Wakey, wakey, wakey, rise and shine" and swim before breakfast. Divisions on the quarter-deck follow, with prayers and the hoisting of the ensign. The Cadets learn how to take soundings, heave lines, drop anchors. Signalling, both naval signalling and semaphore, is on their list, as is fleet manoeuvres.

In the winter, in their home towns the Cadets study "divisions" or drill, knots and nautical terms. For breach of discipline, the boys must wash dishes and polish brass over and above "duty watch' which means keeping the "ship" clean. The Cadets swim before the mid-day dinner and again in the afternoon. At 2200 hours, that is 10 p.m., the Cadets "pipe down," and day is done.

THE STARS SAY . . . .

By GENEVIEVE KEMBLE

For Thursday, August 19

An expansive, cheering and optimistic note is struck by planetary vibrations on the affairs of this day, which should be engineered into high levels of accomplishments and satisfaction. It may be a time for pushing with might and main for cherished goals, in financial, business, professional and social ambitions, although there may be want of co-operation or approval from certain influential quarters. However, big issues are possibly at stake. Also in the realm of romance and personal joys there should be rich promise of happy fruition. Push for heart's desires, but without rush extravagance or indulgences.

If It Is Your Birthday

Those whose birthday it is may be on the eve of a most gratifying happy and expansive year, with most of the cherished hopes and wishes finding rich fulfilment and happiness. In private affiliations there may be cause for festivity, celebrations and other abundant joys and gratifications, which should however not be carried to over extravagance or excesses. Seek the goals of hearts desire with generous moderation.

A child born on this day should have excellent abilities, with fine qualities and worthy ambitions, assuring a successful, honored and happy life.

No Jam Jars, Pleads Post Office

OTTAWA, Aug. 18—(CP)—The post office today hoped—almost against hope—that Canadian housewives would enjoy a glass jar of the jam they have just finished making.

Pictures in possession of authorities represent a postal chamber of horrors. They show what happened in the past when jam, maple syrup, matches, lighter fluid and other gifts with catastrophic possibilities were sent in soldiers' parcels.

To this record of misfortune the post office added another item the other day and reported it in a supplement to the official postal guide as follows:

"'This side up—with care.' So read the instructions on the cover of a soggy and broken parcel handed to the repair section at the base post office for reconditioning. An examination of the pulpy package told its own story. Somebody had mailed a glass jar of jam, sealed only with a thin disc of paraffin wax, but thoroughly labelled to show which end was to be held up.

"Now, the post office endeavors to give all parcels careful handling (last year over 20,000,000 pounds) but it cannot guarantee to despatch a parcel in a bag of military mails so that a particular end remains up all the time."

Velma Hope Weds Bun Kingdon

Keene United church was decorated on Saturday, August 7 with baskets of summer flowers and ferns for the wedding of Velma Isabel, daughter of Mr. and Mrs. John M. Hope, to Harry (Bun) Kingdon, son of Mr. and Mrs. R. H. Kingdon of Peterborough. Rev. George Murray officiated and Miss Margaret Bryce played the wedding music.

Given in marriage by her father, the bride wore white taffeta fashioned on fitted princess lines with bracelet length sleeves and a slight train. A veil of white silk net fell to her shoulders from a heart-shaped head-dress and her bouquet was deep-red roses. She wore the groom's gift of a pearl necklace. Mrs. Douglas McPherson was matron of honor in a blue dress with taffeta top and full net skirt, shoulder length veil and bouquet of pink sweet-peas. Joan Hope, sister of the bride, was flower girl, wearing a floor-length dress of pink sheer and carrying a nosegay. Mr. Edward Starr was best man and the ushers were Mr. Jack Kingdon, brother of the groom, and Mr. Walter Ward. After the ceremony a reception was held at the bride's home.

U.S. BAUXITE IMPORTS

The United States gets 93 per cent of its bauxite imports from British and Dutch Guians.

If You Suffer 'PERIODIC'

FEMALE PAIN

Which Makes You Weak, Cranky, Nervous—

If *you*, like so many women and girls suffer from cramps, headaches, backache, "irregularities", periods of the blues — due to functional monthly disturbances—

Start at once—take Lydia E. Pinkham's Vegetable Compound. This effective liquid not only helps relieve monthly pain but also tired, weak, nervous feelings. This is because of its soothing effect on ONE OF WOMAN'S MOST IMPORTANT ORGANS.

Taken regularly—Lydia Pinkham's Compound helps build up resistance against such symptoms. Thousands upon thousands report help. Also a fine stomach tonic. Made in Canada.

Mrs. R. Morrison, Dennistoun avenue, has returned home after visting Toronto and Niagara Falls.
